ABSTRACT

A project developed the Packaged Self-Instruction Program (PSIP), a multimedia kit designed to be a complete inservice training package for educators who work with slow learners. Complete details of the project which was funded by Elementary and Secondary Education Act, Title III, are supplied in the format required by the U.S. Office of Education. Information is presented on the project's staff development, program adoption, participation, and products. A narrative discussion (question and answer) examines the context and locale of the project, the different factors of the program, and the evaluation of the program. (WH)

THAT I - STRET DEVELOUT TERT

-5-

The report should describe project staff development activities that took place during the period July 1, 1972, through June 30, 1973. If no project staff development activities occurred, write NONE in the first column. Staff development activities are those inservice efforts designed to improve competencies of the staff working full or part-time on the project. Enter the figures in columns two and three.

STAFF DEVEL	OFMENT ACTIVITIE 19	5 OF ONE OR 72-73	MORE DAYS	DURATION	
(1) Definition of Staff:	(2) Total No. of	No. of worl held by t	kshops, con <u>vpe_of_trai</u>	<u>ning</u>	
(Staff includes all personnel assigned to work on the project full or part time, whether paid by the district or the project.)	participants (Unduplicated) in all activities.			dissemi-	Other, such as in-service education. Specify (Use back of this page.)
	1		2		

PART II - EXTENT OF ADOPTION/ADAPTION

1972–1973

The purpose of this section is to find out how many projects are being continued to some extent by the grantee or by other school districts after federal funds have expired.

The report should be limited to projects for which federal funds expired during the period July 1, 1972 through June 30, 1973. If the grantee district expects to continue the project to some extent during the next fiscal year, this should be reported by marking the box. The estimated extent of adoption or adaption by the grantee district should be shown by circling the appropriate percentage figure in the scale.

- 1. The project is being continued by the grantee in some form after federal funds expired. X Yes No
- 2. If the answer is YES, draw a circle around the one figure which best represents your estimate of the degree of adoption/adaption of the project in your school district.

50% 70% 90% 20% 30% 40% 60% 80%

4

PART II- Continued

3. Is the project being adopted or adapted by other school districts?
Yes No
4. If the answer is YES, list the school districts by name and address:
4.1 Adelanto 4.11 Duarte Unified

FINAL PROJECT REPORT

8A

ESEA, TITLE III

COMPONENT III

Program Narrative Report

•

3

1972-1973

The purpose of this part of the report is to find out the actual direct or indirect participation of public and private school pupils and adults in the project during the 1972-73 operational period.

Any participation should be reported only once. The count should be based on actual participation during the 1972-73 school year. The numbers are almost certain to be different from those anticipated in the project application.

* The United States Office of Education definitions should be applied:

Direct Particination - Inter the number of different persons participating in activities involving face-to-face interaction of pupils and teachers designed to produce learning, in a classroom, a center or mobile unit; or receiving other special services. Within local geographic area (Humboldt County)

Indirect Participation - Enter the number of different persons visiting or viewing exhibits, demonstrations, suseum displays; using materials or equipment developed or purchased by the project; attending performances of plays, symphonies, etc., viewing tolevision instruction in a school, a center, or home; or participating in other similar activities. Carefull prepared estimates are acceptable. Outside local geographic area but within the State of California.

<u>Elementary</u> - For reporting purposes only, consider elementary as being Prekindergarten through Grade 6.

Secondary - For reporting purposes only, consider secondary as being Grades 7 through 12.

Please supply the information requested for the project.

Table A

Number	Staff whe		o were		ners, and Counselors Participating who were Staff whose students were indirect participants			
Schools (a)	Teache	Teachers		Counselors		Teachers		ors
	Elemen- tary (b)	Secon- dary (c)	Elemen- tary (d)	Secon- dary (e)	Elemen- tary (f)	Secon- dary (g)	Elemen- tary (h)	Secon- dary (i)
Public	25		5		343	36	74	6
Nonpublic					18	0	4	0

*The project report covers the Statewide dissemination of a locally field tested E.S.E.A. Title III Project. These definitions have been modified to meet the constraints imposed by this departure from the usual project setting. The change was made in accord with directions from the State S.E.A. Title III Staff.

PART III (Continued)

The totals in the following 4 tables must agree one with the other. Also, do not use duplicated figures in the first 4 tables. The target population must be represented by the figures when direct participants are reported. See definitions for direct and indirect in Part III.

TOTALS	1									

Column a. Include the total enrollment in the local educational agency.

Column b. Include only the target population.

Column b. & c. See definitions of direct and indirect for both columns.

Column d. Include an estimate of the number of target population students who have been in the project since its inception. A cumulative total of all years is requested. Provide an unduplicated count; therefore, do not count any student more than once.

Column e.

n e. Include an estimate of the number of students within the local educational agency who have not been directly serviced by the project, but would benefit from direct participation because they fit the description of the target population.

Table III

Farm	Non Farm	Low Socio- Economic	Other	Other Urban	
		UNABLE TO OBTAIN-			

Table IV

Distribution of Public School, Direct Participants by Project - Enter Number of Each Group.

Negro	American Indian	Spanish Surname	Oriental	White	Other Nonwhite	Total of all groups
		UNABI	E TO OBTAIN-			

Recap of Totals for Tables I, II, III and IV.

Total of Column c., Table I	459
Total of Column b. (Public School), Tab:	le II <u>Not Applicable</u>
Total of All Categories, Table III	Unable to Obtain
Total of All Groups, Table IV	<u>Unable to Obtain</u>

The totals on each line above should agree one with the other.

Definitions:

Ruril means an outlying area of less than 2,500 inhabitants.

Low socio-economic means an area of low socio-economic level within a city of 50,000 inhabitants or more.

Other means areas in cities of 50,000 or more inhabitants which are other than low socio-economic areas.

Other Urban means areas (including suburbs) with less than 50,000 but more than 2,500 inhabitants.

Number of Students Served Directly by Unique Target Populations (Figures may be duplicated)

Students (a)	Indians (b)	Migrants (c)	Disadvantaged (d)	• •		Other Target Populations (See note below (g)
Number of Students		AVAILABLE	Presentations Seminars were	at Staff-T	raining	

Note for Column (g) check populations included in the number entered above.

Children from non-English speaking environment.

Neglected and delinquent children.

Gifted N.H. EMR Dropouts

Other (specify)

Table VII

Complete the table below as directed. Compute full time equivalent (F.T.E.) according to the instructions under the table.

Paid staff are district personnel who receive remuneration from Title III funds. Unpaid staff are district personnel who do not receive renumeration from Title III funds but give service to the project. Ungraded classes are included in Other category.

Type of Paid and Unpaid Personnel By Function	Number of Paid Staff Assigned to Project (F.T.E.)	Number of Unpaid Staff Assigned to Project (F.T.E.)
Administrators and/or supervisors	1	
Teachers		
Prekindergarten		
Kindergarten		
Other elementary 1-0		
Secondary 7-12		
Other		
Subject matter specialists		
Technicians		
Pupil personnel workers		
Health services personnel		
Researchers and evaluators		
Planners and developers	•	
Disseminators		
Cther professionals		
Paraprofessional education aides, etc.		
Other nonprofessional	1 1/2	

To compute full-time equivalent (F.T.E.), add the total number of hours worked per week by the personnel and divide by the number of hours in your regular full-time work week. For example: If each of four staff members works 20 hours per week, each of two staff members works ten hours per week, and each of ten staff members works full time (assume 40 hours for this example), the total hours worked would be 80 plus 20 plus 400, or 500 hours. This total of 500 hours divided by 40 yields an F.T.E. figure of 12.5.

Table VIII

You and/or members of your Project staff may have worked with higher education personnel during the 1972-73 project year (last year). We are interested in the type (formal and informal), and the extent (cost and hours) of any cooperation. Formal participation refers to services performed with remuneration. Informal participation refers to help without remuneration. Please estimate the cost and number of man-days associated with each of the following:

- (a) Identifying and/or developing desirable content or educational procedures to be used (program development).
 (1) \$664.50 cost; (2) number of man-days: 12 formal and informal
- (b) Search for evaluation help, i.e., for instruments or procedures to be used for evaluation.
 - (1) \$_____ cost; (2) number of man-days: _____ formal and _____informal
- (c) Planning and/or implementing staff development programs (inservice training for project staff).
 (1) \$______ cost; (2) number of man-days: _____ formal and _____informal
- (d) Please indicate any other participation.

Project P.S.I.P. was adopted/adapted by California State University

Instructors at a cost of \$595 for instructional materials

(1) \$595 _____ cost; (2) number of man-days: _____ formal and _l_informal

INSTRUCTIONS

 CHILDREN SERVED - Enter in the appropriate columns b. c. d. and e an unduplicated count of children served by type of primary handicap (in public and non-public schools) and by age group who received direct instructional or related services with Title III lunds. This count should include all handicapped children (1) who received direct services from personnel paid with Title III funds and/or (2) who received substantial benefit as a result of the purchase or projects equipment or the provision of significant in service training of personnel with Title III funds. Do not include handicapped children who received only incidental services, such as preliminary vision screening or audiological testing, etc. Column f should equal columns b, c, d, and e.

PROJECT PERSO wiseL - Enter in the appropriate columns g, h, and i corresponding with the primary type of handicapped children served a figure representing an unduplicated count of the full-time personnel plus the full-time equivalency of part-time risonnel paid from Title III funds. Full-time personnel are unose personnel who were assigned to bitle III project activities 40 hours or more provide for the number of nours in a recular work we ... as determined by the State or local education agency). They may be school year, summer program, or 12-month personnel. Column j should equal columns g, h, and i.

IN-SERVICE TRAINING — Enter in the appropriate columns k, l, and m corresponding with primary type of handicapped children served an unduplicated count of all personnel who receive in service training with Title III funds. Column n should equal columns k, l, and m,

- NON-PUBLIC SCHOOLS Of the total number of handicapped children served with Title III funds (1.(11), (f)), indicate the number who attended non-public schools.
- 3. DISTRIBUTION BY ETHNIC GROUPS Enter in the appropriate columns b, c, d, e, f, and g an undiplicated count of the handicapped children served with litle III funds by ethnic group membership. Column h should equal columns b, c, d, e, f, and g.
- 4. DISTRIBUTION BY DEMOGRAPHIC AREAS Self-explanatory.

^{*} TMR - Trainable Mentally Recorded, EMR - Educable Mentally Recorded, HH - Hurd of Hearing, SI-Speech Impaired, VI - Visually Impaired, ED - Emotionally Disturbed, CR - Crippled, LD - Learning Disabled, OHI - Other Health Impaired

CONTEXT

The Locale

- 1. What is the locale of the program?
- 2. What is the dnesity of the population?
- 3. What are the population trends?
- 4. What are the major occupations of people in the localle?
- 5. What is the unemployment rate or trend?
- 6. What proportion of families in the locale are receiving welfare assistance?

Sparsely populated Northern California was the original locale of the program, with the major efforts concentrated on the Northcoast in Humboldt, Del Norte, Mendocino, and Lake counties. Here the average population density is slightly more than 22 persons per square mile, with a few population centers accounting for a large percentage of the lotal population.

When Incentive Grant funds were allocated to Humboldt County for diffusion of Project P.S.I.P. outside the Northcoast region, all of California became the locale of the program for the fiscal year 1972-73 (the period of this report).

During October the California State Department of Education, together with the Association of California School Administrators sponsored "awareness level" presentations of the nine Incentive Grant projects at ten locations throughout the State. The remainder of the year was devoted to follow-up activities in 29 counties based on interest stimulated by these ACSA/EXPO seminars.

- 1. What grade levels do the schools serve?
- 2. How many pupils are there in the school system? How man-How many schools?
- 3. Are there any significant trends in the school system enrollment, withdrawal or transfer?
- 4. What is the per pupil cost of education in the school system?
- 5. What is the recent financial history of the school system?

Within California 47 different school districts located in 29 counties are represented on the list of Project P.S.I.P. adopters/adapters. The following tables indicate the wide range in grade levels, number of students, and number of schools within these districts.

Grade Level	No. of Districts	No. of Students	No. of Districts	No. of Schools	No. of Districts
K-3	1	1000	3	1-3	3
K-6	14	1-2000	6	3-5	11
K-8	19	2-3000	4	6-10	8
78	2	3-5000	8	11-15	7
9-12	3	5-10,000	10	16-20	5
K-1 2	7	10-15,000	8	12-25	7
7-12	1	15-50,000	5	26-50	3
		*50-100,000	1	*69	1
		*128,000	1	*161	1

PROFILE OF ADOPTING/ADAPTING SCHOOL DISTRICTS

*Adoption/Adaption by small number of schools within districts or for special use

In addition, the Program has been picked up by 9 County Schools Offices, 4 private schools and 6 university teacher training programs within the state.

Through the cooperation of the Northwest and the Rocky Mountain Regional Instructional Materials Centers for Special Education, P.S.I.P. materials are now being circulated in Alaska, Colorado, Idaho, Oregon, Utah, Washington and Guam.

Needs Assessment

- 2. How were the specific needs of the pupils identified?
- 3. What were these specific needs? Which were selected for the program?

Packaged Self-Instruction Program is based on the concept that the way to the learner is through his teacher. Therefore, the responsibility for identifying specific pupil needs rests with the one who uses P.S.I.P. as a guide. The basic problemsolving approach of the program begins with an assessment of student or teacher needs. Then the resource materials within the P.S.I.P. Kit are used to plan, implement and evaluate a program to meet these needs.

- 1. Did the program exist prior to the time period covered in the present report?
- 2. Is the program a modification of a previously existing program?

-23-

- 3. How did the program originate?
- 4. If special problems were encountered in gaining acceptance of the program by parents and the community, how were these solved so that the program could be introduced?
- 5. Provide a brief history of planning. Indicate which planning efforts were successful or were not successful. Describe how non-profit private schools and other agencies were involved in the planning.

Packaged Self-Instruction Program was developed, pilot tested and field tested with ESEA Title III funds granted to Humboldt County over a three-year period from August 1969 through July 1972. At the end of that time a one-year Incentive Grant was awarded for Fiscal Year 1972-73 to facilitate adoption or adaption of the program outside the Northcoast area. The activities of this period are covered in the present report.

The original project grew out of a long expressed concern that many teachers in rural areas were unable to keep abreast of current practices and trends in special education which would enable them to work more effectively with the learning handicapped students in their classrooms. It was clear that there was need for a fresh approach to in-service. The typical college course and workshop methods were not doing the job.

In order to identify more appropriate methods the needs and opinions of teachers, administrators and teacher-trainers were surveyed. A wide variety of resource persons were then involved in the development of a multi-media self-instruction package designed to meet these identified needs. Two local radio announcers helped to develop the cassette tapes. Instructional slide sequences were produced by Humboldt State College photographer, Peter Palmquist. Instructional content was evaluated by consultants from the Del Norte and Butte County Superintendent of Schools Offices and the Special Education Instructional Materials Centers in Los Angeles and Eugene, Oregon. The P.S.I.P. staff also maintained a close working relationship with other Northern California education projects.

PROGRAM

Scope cf the Program

- What numbers and kinds of participants were served by the program?
- 2. What were the specified objectives of the program?

The specified objectives of the program were:

A.0 Establish a management plan.

by 11 out-of-state agencies.

- 1.0 Conduct statewide dissemination activities at the awareness level.
- 2.0 Install P.S.I.P. in fifty districts/schools/teacher-training institutions.
- 3.0 Conduct staff training seminars for adopting/adapting districts.

-24-

- 4.0 Provide technical assistance to adopting/adapting districts and/or schools.
- 5.0 Evaluate diffusion process effectiveness.

The tables below indicate the number of participants served by this diffusion. Teachers, aides, principals, County Office and District level administrators and consultants, psychologists, counselers, and university instructors are included in these undifferentiated totals.

ACTIVITIES PERSONS OR AC	GENCIES SERVED

Personnel

- 1. What kinds and numbers of personnel were added by the program?
- 2. What were their most important duties and activities?
- 3. How much time did each type of personnel devote to these responsibilities?
- 4. What special qualifications suited personnel to the requirements of their jobs?
- 5. What special problems were dealt with in recruiting or maintaini staff?

Staffing was cut in half this year to a bare-bones level of a full-time Project Director and the equivilant of one full-time secretary.

The Director's responsibilities included management and supervision of the whole process of producing the P.S.I.P. kits in addition to more obvious functions, e.g. speaking, traveling, record keeping, correspondence, data collection and reporting. In addition to the usual clerical duties, the part-time secretary (with some extra help during peak production periods) assembled, shipped and billed for the kits purchased, produced the materials required for in-service, maintained all the financial records for monies received and spent, paid all the bills. She also assumed a wide variety of liaison tasks as proxy for the Project Director during the 16-18 weeks that she was on the road.

Necessary gualifications include loyalty, dedication, a high degree of personal responsibility. The ability to organize and work independently, patience and accuracy with many details, physical stamina to lift and carry the large volume of materials required for both production and in-service, and most of all a sense of humor.

Crganizational Details

- 1. What is the period of time covered by your report?
- 2. How much of the entire program does this cover?
- 3. Where were program activities located?
- 4. What special physical arrangements were used in these locations?
- 5. What provisions, if any, were made for periodic review of the program?
- 6. What important decisions were made on the basis of such reviews?
- 7. What provisions, if any, were made for inservice training?

This report covers a time period from August 1, 1972 through June 30, 1973, the duration of the Incentive Grant awarded to Humboldt County for statewide diffusion activities.

Awareness level activities were carried on throughout the State. Seminars under the joint sponsorship of the State Department of Education and the Association of California School Administrators featuring the nine Incentive Grant projects, were held in ten stratigic locations. These were followed by a statewide mailing to all County Offices and School Districts by one of the other Project Directors. The mailing included the borchures of the six projects designed to aid handicapped children. Finally, a P.S.I.P. mailing was sent to each School Administrator and Special Service coordinator in the Northcoast region.

Followup activities were carried on wherever potential and actual adoptors/adaptors indicated an interest or need for demonstration staff-training or follow-up consultation. The geographic area covered included 30 or more counties and required approximately 10,500 miles of highway travel.

These follow-up contacts together with data from three questionnaires provided date for on-going review of dissemination activities as well as feed-back from adaptors/adoptors regarding their evaluation of the product and their level of adoption of the P.S.I.P. process.

With this data as a guide, the Humboldt County Superintendent of Schools has indicated a willingness to assume responsibility for supplying the P.S.I.P. materials to out of the area as well as local adoptors/adapters, and for further implementation of the P.S.I.P. in-service process locally.

- 1. What were the main activities (or services) in the program?
- 2. How were these activities (or services) related to specified program objectives?
- 3. What methods were used in carrying out each activity (or service)?
- What was a typical day's work or week's schedule of activities 4. for the chidren (or others) who received the program?
- How were pupils groupedfor the various program activities? 5.
- 6. What were teacher-pupil ratios, (or aid=pupil, or adult-pupil, and so on) in each of these groupings?
- 7. How did pupils (or others) receive feedback on their individual daily progress?
- 8. How did parents receive feedback on their child's progress?
- 9. What special provisions were made for motivating pupils (or others)?
- 10. What amounts and kinds of practice, review, and quiz activities were provided for pupils (or others) in the program?
- If a comparison group was used, what were important differences in the activities and methods used in this group and the 11. activities and methods used with the program group?

The main activities were functions of the special program objectives as indicated in the following break-out...the activities required for the diffusion of an in-service program based on the concept that the way to a student is through his teacher. Therefore, the P.S.I.P. staff was not directly involved with pupils and cannot respond to questions 4-11.

> Packaged Self-Instruction Program Objectives for Fiscal Year 1972-73

- A.0 Establishment Plan
 - A.1 Review and revise plan
 - A.2 Maintain internal coordination
 - A.3 Maintain external coordination
- A.3.1 With County Office Staff A.3.2 With Title III project Directors and staff
 - A.3.3 With agencies and individuals of the adopting/adapting districts.
 - A.4 Maintain records
 - A.5 Participate in staff in-service.
- 1.0 Conduct Statewide dissemination activities at the awareness level.
 - 1.1 Design dissemination strategies.
 - 1.2 Produce dissemination materials
 - 1.2.1 Tape/slide presentation
 - 1.2.2 5000 borchures
 - 1.2.3.500 Information packets
 - 1.2.4 Other dissemination materials.
 - 1.3 Participate in Seminars, Conferences etc.
 - 1.3.1 ACSA/Expo traveling seminars
 - 1.3.2 ACSA/CBSA Conferences
 - 1.3.3 Expo/ACSA
 - 1.3.4 Other Conferences as scheduled.

- 1.4 Respond to requests for additional information from ACSA/Expo participants.
- 1.5 Disseminate Information to potential adopters/adapters not identified by ACSA Expo.
- 1.6 Evaluate and revise.
- 2.0 Install P.S.I.P. in Fifty districts/schools/teacher training institutions.
 - 2.1 Produce P.S.I.P. kits
 - 2.1.1 100 kits (complete)
 - 2.1.2 Components for 200 additional kits to be assembled as needed.
 - 2.2 Supply P.S.I.P. kits to adopters/adapters 2.2.1 25 for loan
 - 2.2.2 275 for purchase.
 - 2.3 Conduct 25 demonstration seminars for potential adopters/ adapters.
- 3.0 Conduct staff training seminar for adopting/adapting districts or schools.
 - 3.1 Plan programs for in-service seminars
 - 3.2 Produce in-service materials
 - 3.3 Conduct in-service seminars
 - 3.4 Evaluate and Revise
- 4.0 Provide technical assistance to adopting/adapting districts and/or schools.
 - 4.1 Ide-tify needs
 - 4.2 Develop stratagies consistant with needs, available resources and P.S.I.P. self-instruction concept.
 - 4.3 Provide Technical Assistance.
 - 4.4 Encourage, support, facilitate
 - 4.5 Evaluate and revise.
- 5.0 Evaluate diffusion process effectiveness
 - 5.1 Review and revise evaluation plan.
 - 5.2 Obtain evaluation data
 - 5.1 Analyze data
 - 5.4 Prepare guarterly reports
 - 5.5 Prepare final project reports.

Instructional Equipment and Materials

- 1. Were special materials developed or adapted for the program? How and by whom?
- 2. What other major items of equipment and materials did the program require? In what amounts?
- 3. How were key aids and materials used in connection with the various program activities?
- 4. If a comparison is being made between program and nonprogram persons, were there important differneces between these groups in kinds and amounts of materials provided, or in methods of use?

A tape-slide presentation was developed by the Project Director with assistance from Don Kelly, ESEA Title III Consultant, Peter Palmquist, photographer, and Michael Glimpse, technician from California State University, Humboldt. This was used in the awareness level presentations to demonstrate the physical and instructional content of the P.S.I.P. kit as well as to aid the viewer in identifying possible adoption/adaption to his own school responsibilities.

Two informal brochures were developed, again by the Project staff, for general distribution.

The program also required production of the Packaged Self-Instruction Program itself--a multi-media kit which included reprints of current articles, organized into 8 manuals, a study guide, a reference guide, 3 filmstrips, 5 cassette tapes, and a set of 13 commercially published paperback books, housed in a portable metal filebox.

150 kits were assembled and sold to adopters/adapters at cost. 25 addional kits were circulated as "loaners" for evaluation by potential adopters/adapters. The basic components for 125 additional kits were produced. These will be completed by purchasing containers, folders and paperbacks based on future demand.

Parent-Community Involvement

- 1. What role, if any, did parents have in the program?
- 2. Where meetings held with parents? Why? How often?
- 3. What role, if any, did various communtiy groups have in the program?
- 4. How was the community kept informed?
- 5. If problems with parents or the community affected the program, what steps, if any, were taken to remedy the situation?

Within the original project area the community was informed of ACSA/EXPO through radio and television's news coverages, newspaper articles and televised interview on the local Public Broadcasting Station. Similar coverage was provided for a Humboldt County Book Fair where P.S.I.P. was on display. Three mailings were sent to all administrators in Del Norte, Humboldt, Lake and Mendocino Counties, alerting them to Project P.S.I.P.'s statewide dissemination and its local availability for adoption/ adaption. Personal contact was made with local representatives of the Association for the Retarded, the California Association for Neurologically Handicapped Children and the Council for Exceptional Children.

Outside the Northcoast region, local community involvement was left to actual and potential adopters/adapters. However, liason has been established with the Northern California Program Development Center, the Bay Area Chapter of CANCH, and with State level personnel of ESEA Title VIB, of the California Teachers Association, and of the Association of California School Administrators, and a personal conference was also held with Mr. Newton Steward, Chairman of the State Board of Education and a resident of Humboldt County.

Budget

- 1. From what sources ere program funds obtained?
- 2. What was the total cust of the program?
- 3. What period of time was covered by these funds?
- 4. What is the per pupil cost of the program? What was the formula for computing this figure?
- 5. How does the per pupil cost of the program compare with the normal per pupil cost of the schools in the program?
- 6. Where can the reader get more detailed budget information?
- 7. Of the total cost of the program, give rough dollar estimates of developmental costs, implementation costs and operational costs.
- 8. Give the costs for the entire project period by budget categories (i.e., professional salaries, contracted services etc.).

Basic Program funds for the 11 month period from August 1, 1972 through June 30, 1973 were obtained from ESEA Title III. These were supplemented by returns from the sale (at cost) of the P.S.I.P. Kit. Funds from these sales were used to replace money advanced for materials in anticipation of future payment.

The total cost of the program is as follows:

ESEA Title III 37,491

Funds advanced for P.S.I.P. components by LEA 9,000

46,491

Special Factors

For use of potential adopters of the program:

- 1. What modifications of the program are possible?
- 2. What are the suggested steps in adopting this program?
- 3. What are some things others should avoid in adopting this program?
- 4. Can parts of the program be phased in, beginning on a small scale? How?
- 5. Can parts of the program be adopted without taking the whole program? What parts?

Each potential adopter/adapter has his own reasons for being interested in the Project which he is considering. Time, effort and resources will be used most effectively if these objectives are identified early and modifications made accordingly. The following reasons for adoption/adaption were identified for Project P.S.I.P., and it is suspected that these may be common to other projects as well.

- a. For "as is" adoption as the total program for a school or district.
- b. As one of several resources to be used selectively and independently by the staff.
- c. As a pilot model for immediate installation and later modification.
- d. As a modification of an existing program.
- e. As a personal reference or resource.
- f. As a prototype for new and different programs.

SUGGESTIONS:

- a. If P.S.I.P. is to be used as a total inservice program within a school or district the following steps are recommended:
 - (1) SELECT A PROGRAM COORDINATOR--someone enthusiastic about the adaptability and flexibility of a selfinstruction approach.
 - (2) INTRODUCE P.S.I.P. TO POTENTIAL USERS--including administrators, supervisory staff, teachers, and aides. Provide ample time for individual exploration of materials.
 - (3) SELECT PROGRAM PARTICIPANTS--preferably volunteers initially. Enthusiasm will spread from them to others.
 - (4) CONDUCT AN ORIENTATION WORKSHOP FOR PARTICIPANTS AND THEIR ADMINISTRATORS--four to six hours of interaction with the materials with emphasis on adaptabillity to individual student and staff needs.
 - (5) FROM HERE ON ACTIVITIES ARE ON A SELF-INSTRUCTION BASIS with study and classroom implementation directed through the use of bi-weekly goal statements completed by participants and reviewed by program coordinator. Personal motivation varies but is readily reinforced by the coordinator or an administrator.

b. If it is to be used as a staff resource, make sure that the kit is easily available. Those who need help most urgently are often the most reticent about seeking it.

c. If it is to be used as a pilot model for immediate installation and later modification or expansion, begin with individuals, or with individual schools, that are representative of the total school population. Be sure to include some innovators and change agents.

d. <u>If it is to be used as a modification of an existing</u> program be sure that the users are involved in planning for the change and have ample time for discussion and ventilation.

e. If P.S.I.P. is to be used as a personal resource by a consultant, resource teacher, administrator or in-service director, it may be helpful to know that all but the commercially published paperbacks may be copied. Sharing individual articles from the kit is an excellent way to introduce the kit without overwhelming those who might be "indimidated" by the wide range of materials in the whole kit.

f. If it is to be used as a prototype, the adopter/adapter probably has known best how he would like to use your help.

Avoid the oversell or any implication that the program is a magic answer. The program requires time and effort on the part of the users but its personal usefulness grows in proportion to the investment.

The program can begin with even a single staff member using the materials individually and independently. Or a set of materials may be placed in a convenient location where they are available as a ready reference. A coordinated in-service training program can then be phased in as need and interest develop.

The program is designed to allow for at least two adaptations--one is based on physical format, the other on instructional content. The physical format of the kit has two components, an organizational structure and a collection of resource materials supportive to this strucutre. The organizational structure with its problem solving approach could be adopted as a framewrok for supportive materials selected by the adopter.

The instructional organization of the program is based on six roles of a teacher as he works with the students, with the community, and with other educators. Although these areas are clearly interrelated they have been delineated within the program and could be approached as independent units.

Discuss how project information was disseminated during the past budget period.

- 1. Provide an estimate of the number of unsolicited requests for information from both within andoutside the project area.
- 2. List the number of visitors from outside the project area.
- 3. Provide the cost of dissemination during the last budget period.
- 4. Provide the total cost of dissemination including prior budget periods (if possible).

Dissemination of a previously field-tested project was the overall objective for this year's activities. Therefore, this topic has already been covered in earlier sections of this report. (See pages 27-28)

٠

EVALUATION NARRATIVE

Choosing Participants

- 1. How were the children and the adults in the program chosen?
- 2. How was a comparison group (if any) chosen?
- 3. Were participants in the program involved in other programs?
- 4. How many participants left the program?
- 5. Which participants left?
- 6. Were participants added to the program to replace dropouts?
- 7. Were there many participants who did not receive the program often because of poor attendance?
- 8. Did participants attend voluntarily?
- 9. Was the evaluation group only a portion of the program group?

In reading this evaluation narrative it must be kept in mind that the program objective was statewide dissemination of a previously field tested project.

The specific objectives relate to adoption/adaption rather than to the Packaged Self-Instruction Program itself. Therefore, all participants were adults and were selected by the adopting/adapting agency.

The criteria for evaluation were based on the number of persons and/or agencies served and on their satisfaction with the service provided. Therefore, the other questions regarding selection are irrelevant.

Describing Participants

- 1. Which participants received the program?
- 2. How many participants received the program?
- 3. What are the ages or grade levels of pupils in the program?
- 4. Did the program serve many more boys than girls, or vise versa?
- 5. What achievement scores were available before the program with which to describe the program group?
- 6. Are there other special characteristics you should mention in describing the program group?

Teachers, Teacher Aides, Administrators, Consultants, Counselors and Psychologists all received the program. At the awareness level, parents and school board members also attended some of the ACSA-Expo seminars and/or other orientation meetings.

For a detailed break-out of number and kind of agencies and individuals who participated see the Evaluation Data immediately following this Marrative Section of the report.

- 1. What measures were applied to find out whether the program's aims were achieved?
- 2. How were the measures matched to the objectives?
- 3. How were the measures matched to the pupil's capabilities?
- 4. Were observers specially trained?
- 5. How much time elapsed between testings?

The management system for the program was set up by objective and all data was collected accordingly.

A card file was maintained for all those who completed an evaluation questionnaire during the ACSA-Expo presentations and for those who requested information by personal contact, mail or telephone.

Individual file folders were kept for all adopters/adapters. Records from the other contacts (evaluation questionnaires, correspondence, and staff notes) were filed by geographic region for easy access. (See Appendix for sample of record card and contact sheet.)

- What data were obtained from the measures applied?
 What measures of central tendency were used?
 What measures of dispersion were used?
 Include graphs and/or tables which present data more clearly.

See Evaluation Data Section of this report.

- What analyses were undertaken of the data?
 What was the basis for judging the progress of the program group?
- 3.
- What comparisons were drawn for subsamples? What evidence is there that those who attended more gained 4. more from the program?

See Evaluation Data Section of this report.

Interim Objectives and Findings

- 1. What were the interim objectives of the program?
- 2. State the findings in ordinary language for each objective.
- 3. Indicate clearly success or failure for each objective.
- 4. Can the findings be generalized, or are they applicable only to the group served by the program?
- 5. What were the causative factors for unmet objectives?
- 6. What are the other important findings which were not anticipated?
- 1.0 Conduct Statewide Dissemination Activities
 - 1.1 Design dissemination strategies Unusual care was taken to make maximum utilization of limited time, staff, and funds. As a result all objectives were met or exceeded.
 - 1.2 Produce dissemination materials
 - 1.2.1 <u>Tape/slide presentation</u> A 7 minute Tape/Slide presentation was produced with the assistance of staff from CSU, Humboldt. The presentation was shown at all awareness level presentations as well as the in-service seminars.
 - 1.2.2 <u>5000 Brochures</u> were orderdered initially. It was necessary to order an additional 2000.
 - 1.2.3 <u>500 Information Packets</u>-400 were mailed 100 have been held in reserve for the County Office to use for future inquiries.
 - 1.2.4 Other dissemination materials. A large poster and several One-page"flyers" were also prepared.
 - 1.3 Participate in seminars, conferences, etc.
 - 1.3.1 ACSA/Expo Traveling seminars--2 presentations were made during each of 10 seminars.
 - 1.3.2 ACSA-CBSA Conference--The P.S.I.P. kit was on display the Tape/Slide presentation was shown and the Project Director helped staff the booth where the Incentive Grant Projects were on display.
 - 1.3.3 Other conferences as scheduled.--At the invitation and expense, of the Northwest REgional Special Education Instructional Materials Center a presentation was made to 25 Affiliate Center Directors from Oregon, Washington, Alaska, Hawaii, Guam, and the Trust Territories. There have been 6 adoptions from this area.
 - 1.4 Respond to requests for additional information from ACSA/Expo participants--325 information paciges were mailed.
 - 1.5 Disseminate information to potential adopters/adapters not indentified by ACSA/Expo--75 additional information packages were mailed.
 - 1.6 Evaluate and revise--an on-going process.
- 2.0 Install P.S.I.P. in 50 districts/schools/teacher-training institutions.

- 2.1 Produce P.S.I.P. Kits-- With the help of Humboldt County funds, the major components for 300 kits were produced. 185 were assembled. The remaining components will be moved to the Media Center in the County Schools Office.
- 2.2 Supply P.S.I.P. Kits to adopters/adapters
 - 2.2.1 153 kits have been purchased by 69 adopters/adapters. These are located in 29 counties within California and in 6 other states, as well as the Territory of Guam. 8 complete kits and the components for 125 more will be housed in the Media Center. The Center Director and his staff will continue to assemble and ship in response to future orders.
- 2.3 Conduct 25 demonstration seminars--11 group presentations and 16 individual demonstrations were made.
- 3.0 Conduct Staff Training Seminars Staff training seminars were conducted for a total of 79 participants in 7 schools or school districts.
- 4.0 Provide Technical Assistance to Adopting/Adapting Districts. 14 visits were made to provide sepcific assistance. Since Project P.S.I.P. is a self-instruction program the most common request was for help in developing a strategy for introducing the materials to the staff and for providing the motivation for continued use. Other common requests were for help in identifying target teachers and for adopting or adapting P.S.I.P.'s problem solving approach to the in-service requirements of California's new Early Childhood Education.
- 5.0 Evaluate Diffusion Process Effectiveness. Evaluation was on-going process which began with the establishment of a management plan which provided for the internal and external coordination of the project and the maintainance of the necessary records. The process ends here with the completion of this report.

Project Objectives and Findings

<pre>What were the proj-ct objectives of the program? State the findings in ordinary language for each objective Indicate clearly success or failure for each objective. Program

an incinidualizad in-co

- an incividualized in-service training method
- an adaptable self-contained resource center

To help teachers help students

Learn To —

- be alert to symptoms
 - identify problems
- set reatistic goals
- explore alternatives
- plan meaningful programs
- implement and evaluate effectively

through P.S.I.P.'s problem solving approach

Adopt or Adapt

- adapt as a total in-service package
- adopt the method adapt the materials
- use sections as individual units of study
- keep current by adding or replacing materials

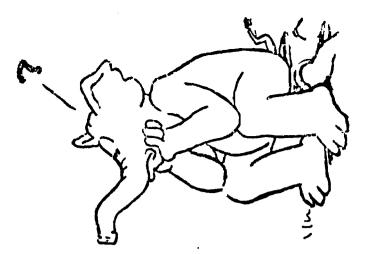

How Is It Available?

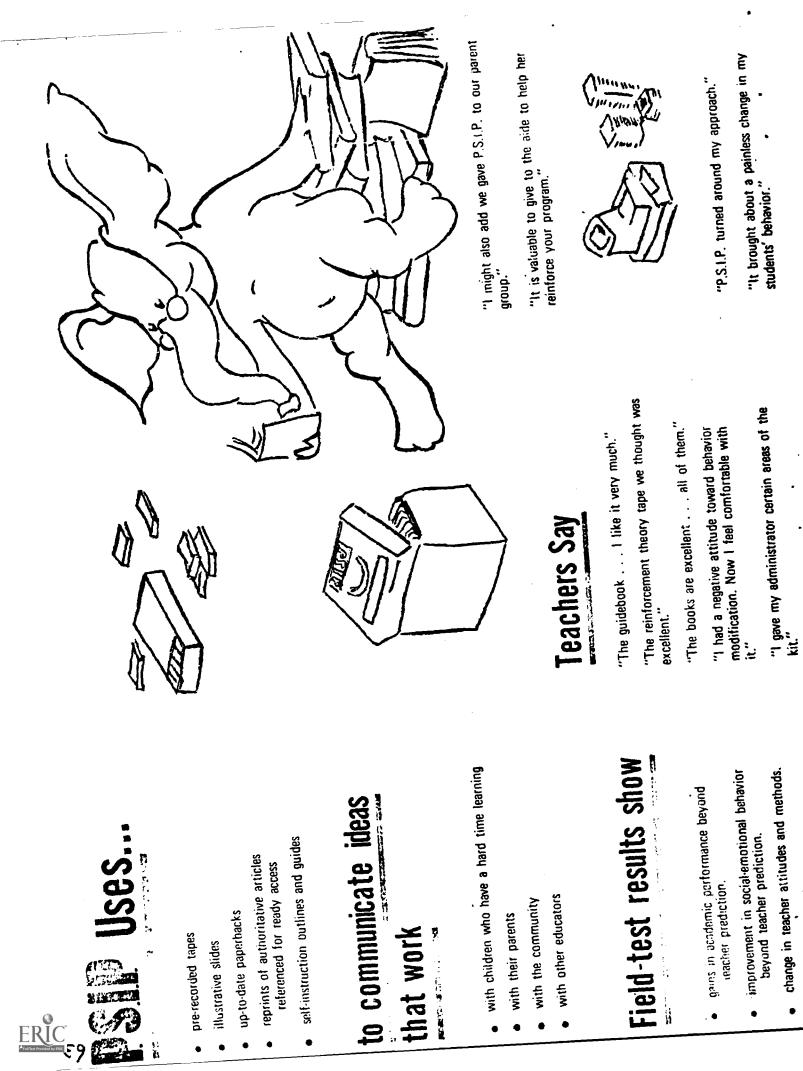

for further information write, or call Project P.S.I.P. 2501 Cypress Avenue

Eureka, California 95501 (707) 443-8881 Humboldt County Superintendent of Schools An E.S.E.A. Title III Incentive grant to stimulate and promote local expansion and adoption and statewide adoption/adaption.

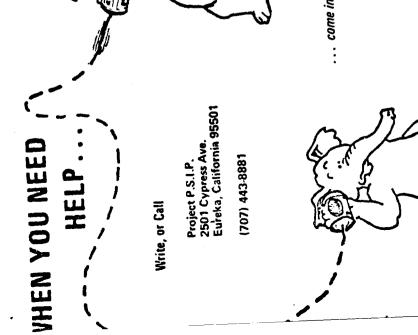

for the teacher who cares and wants to know

... come in if you like.

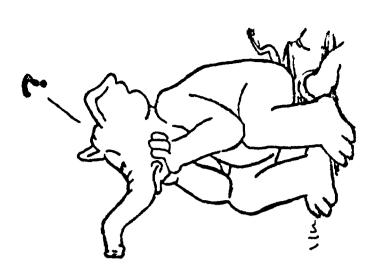

Grant to stimulate and promote local expansion and adoption and statewide adoption/adaption. An E.S.E.A. Title III Incentive

Glen W. Paul, Superintendent Humboldt County Schools

YOUR PACKAGED

SELF-INSTRUCTION PROGRAM

in-service program and ... an individualized children who have a those working with resource center for hard time learning.

WHAT'S IN YOUR KIT?

TAPES

Introduction to P.S.I.P. P.S.I.P. Narrative Love in the Classroom Reinforcement Theory Cone of Experience Movement Exploration

GUIDES

ook 1.A – How Do I Find Things? (A Reference Guide) ook 1.B – Who Am I? (A Study Guide)

SLIDES

6-Cycle Charting Cone of Experience Remedial Teaching Activities Using Games

MANUALS

Book II – Roles in Promoting Pupil Growth Direct, r of Learning Counselor and Guidance Worker Book III – Liaison Roles Mediator of the Culture Link with the Community Book IV – Program Building Roles Member of the Progression

PAPERBACKS

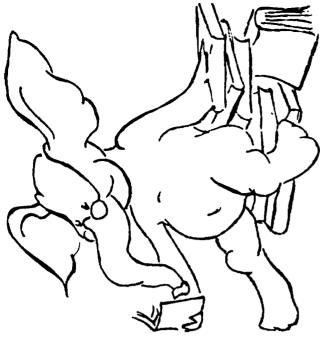

Six Areas of Teacher Competence Teacher Self Appraisal: A Way of Looking Over Your Own Shoulder Problem Sciving to Improve Classroom Learning The Development and Evaluation of Behavioral Objectives Effective Teaching – A guide to Diagnostic Prescriptive Task Analysis Diagnosing Classroom Learning Environments What Is An Aide? Student Motivation and Classroom Management – a behavioristic approach Communication Skills for the Mentally Retarded On Motivation Contronication Skills for the Mentally Retarded On Motivation Child Management – A Program for Parents and Teachers Analyzing Performance Problems or "You Really Oughta Wanna"

EVALUATION QUESTIONNAIRE

1

ERIC

QUEST	IONN	AIRE
-------	------	------

.e8

Name		Position
Scho	001	School District
HOW	WOULD	YOU LIKE TO USE P.S.I.P.?
	a)	As a reference in working with children?
	ь)	As a. course of study?
	c)	As an aid in counseling parents?
	d)	As an aid in counseling teachers?
	e)	As a personal resource?
	f)	Other?
HOW	WOULD	YOU LIKE TO HAVE IT AVAILABLE?
	a)	As your own?
	ь)	Through a library or media center?
	c)	Through a consultant or resource person?
	d)	In the faculty lounge or teachers room?
	e)	Other?
AS 7	THE NE	XT STEP, WHAT WOULD YOU LIKE TO DO?
•	a)	Purchase a kit or kits for personal use?
	b)	Purchase a kit or kits for use by your staff?
	c)	Introduce P.S.I.P. as an in-service method in your school or district with P.S.I.P. staff help?
	d)	Be contacted again before May 1973
	e)	Other?
DATE	8	

YOUR QUESTION 5?

PACKAGED SELF-INSTRUCTION PROGRAM EVALUATION QUESTIONNAIRE

What Do You Think about P.S.I.P. ... Organization? (e.g. resource file format, multi-media self-instruction approach, e.c.) (2 Instructional content? (e.g. philosophy, selection of materials, applicability, interest, etc.) Physical format? (e.g. appearance, durability, art work, color-coding, packaging etc.) _____ (;;) 、 Usefulness to you and your district? (e.g. as a personal resource, for in-service, in a media center or library) If others reviewed your kit, who and how many? (e.g. 3 regular teachers, 2 psychologists, etc.) One last Comment?____ Name Position_____ District_____
