### Did you know?

The top three causes of 1993 farm-related injuries in Iowa were animals (22 percent of all injuries), machinery (18 percent), and slips and falls (13 percent). However, the severity of these injuries differs. Only 11 percent of the injuries caused by animals resulted in hospitalization while 20 percent of both machinery and slips/falls led to hospital treatment.

Acute chemical injury accounted for only 2 percent of the total reported agricultural injuries in 1993. Real concern about chemicals is long-term exposure.

Tractors remain the number one killer on Iowa farms with 17 deaths reported. Grain conditions caused poor storage, attributing to 8 deaths by grain suffocation, the worst in recent years.

Youths age 19 and younger made up 20 percent of the total number of farm-related injuries. Sixty percent of the 462 injuries to youth were work-related. Six children under age 15 died in farm-related accidents.

## For more information

Contact your Iowa State University Extension office for printed materials, displays, and other educational resources to learn about farm safety or to teach others about farm safety. A number of publications in the Safe Farm series also are available. Titles in this series include various aspects of farm safety:

- Know your livestock and be safe, Pm-1265b
- Evaluate equipment for dangers, Pm-1265c
- Cover up with coversalls and aprons, Pm-1563a
- Use tractors with ROPS to save lives, Pm-1265d
- Extra riders mean extra dangers, Pm-1518c
- Handle your grain harvest with care, Pm-1265i
- Review family farm safety rules, Pm-1265g
- Know laws about youth farm workers, Pm-1518f

Safe Farm is an Iowa State University Extension project helping to make Iowa farms a safer place to work and live.

Based on information from the Iowa Department of Public Health, Sentinel Project Researching Agricultural Injury Notification Systems (SPRAINS). Prepared by Charles Schwab, extension safety specialist, and Laura Miller, extension communications. Design by Valerie King.

Issued in furtherance of Cooperative Extension work, Acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Nolan R. Hartwig, interim director, Cooperative Extension Service, Iowa State University of Science and Technology, Ames, Iowa.

... and justice for all  
The Iowa Cooperative Extension Service's programs and policies are consistent with pertinent federal and state laws and regulations on nondiscrimination. Many materials can be made available in alternative formats for ADA clients.
