ABSTRACT

This curriculum guide for entrepreneurship is one of four guides developed to aid in setting up either Code 30 or adult vocational programs in the home furnishings service area. Introductory materials include information on the project that, developed the curriculum (purpose and procedure) and survey materials from the project (letter, instruction sheet, information sheet, task lists for drapery construction and window treatments, furniture renovation, and slipcover construction). A suggested curriculum guide is then provided for entrepreneurship. The competencies to be achieved are listed first. The curriculum guide in a chart format follows. In this chart tasks are coordinated with objectives and related learning activities, resources, and evaluations. A bibliography is also included. (YLB)

r s

Final Report of Project No. 04-417-150-31?

Curriculum Development for Code 30 Programs in Home Furnishings Services Dec. 15, 1981 - June 30, 1982

The project was funded through Research Turnback Monies under Vocational Education Act, Section 131.

The project was cooperatively conducted by Wisconsin Board of Vocational, Technical and Adult Education and Madison Area Technical College staff. Other districts participating were: Blackhawk Technical Institute, Southwest Wisconsin Technical Institute, Waukesha County Technical Institute and Fox Valley Technical Institute.

> Carol Swiggum Project Director

FORWARD

This publication is one of four suggested curriculum guides developed to aid the setting up of either Code 30 or adult vocational programs in the designated Home Furnishings areas: Window Treatment and Rod Installations, Slipcover Construction, Furniture Renovation (Refinishing and Reupholstering) and Entrepreneurship.

With each curriculum guide, there is a separate Resource Book conaining illustrative and informative materials for teaching. The word RESOURCE is identified in all capital letters in the curriculum guide. Pages are listed.

In the curriculum guide, the word RESOURCE is identified in capital letters, and the pages from the Resource Book are listed. These materials may be reprinted for classroom use.

The Bibliography is listed on pages 28-30. In the curriculum guide, references are made to specific publications included in the Bibliography. The term Bibliography is stated and the number of the reference is given.

PURPOSE OF THE PROJECT

Present Status of Programs.

In some districts the Home Furnishings Services one-year programs are having difficulty attracting sufficient enrollment to continue on a cost effective basis. These district advisory committees have indicated the need for restructuring curriculum into shorter, more intensified Code 30 programs to fill the occ_pational needs following the discontinuance of the Home Furnishings Service Program.

Purpose and Intent.

Purpose of this project was to develop short-term Home Furnishings Skills Program Curriculum. The implementation of the curriculum will train workers in the following Home Furnishings related occupations: Drapery Maker, Slipcover Maker, ' and Furniture Renovator.

There is a declared need by industry for skilled vorkers to be employed as Drapery Makers, Slipcover Makers and Furniture Renovators in the home furnishing and interior design industry. The skilled workers may be employed in workrooms of business operations, i.e. drapery shops, upholstery shops or they may be involved in entrepreneurship. The latter training could enable the displaced homemaker, the mother or father in the family, or the single parent to operate a small business and also enable one to care for the family.

The development of curriculum guides will aid any district state-wide in setting up either Code 30 or adult vocational programs in designated areas. Suggested titles for these Code 30 programs are Slipcovering Occupation, Furniture Restoration Occupation and Window Treatment Occupation.

PROCEDURE FOR CURRICULUM DEVELOPMENT

- 1. Wisconsin State Board Home Economics Consultant contacted staff from various districts to assist in the development of the curriculum.
 - A project director was chosen as were curriculum writers in the following areas: Furniture Renovation (Refinishing & Reupholstery)

١

Slipcover Construction

Window Treatments

Rod Installation

Entrepreneurship

- 2. Lists of employers and past graduates were obtained from the four participating **)** districts.
 - The project director compiled three separate questionnaire surveys of performance tasks related to the areas: Furniture Renovating (Reupholstery and Refinishing); Drapery Construction and Window Treatments (including rod installation); and Slipcover Construction. All three questionnaires contained tasks associated with Entrepreneurship. The questionnaire was patterned after the Iowa's "Identification of Tasks in Home Economics Related Occupations."

Each survey contained a checklist of tasks indicating the tasks performed in a particular job and the frequency of performance. A general information sheet was included to learn the characteristics of people involved in these occupations. Space was provided for respondents to list additional job tasks they performed. Refer to pages 4-10.

4. The number of questionnaire surveys sent out and the number returned is given below:

	Sent Out		Returned	
Window Treatments (including rod installation)	/ 26	•	9	
Furniture Renovation	3 0		8	
Slipcover Construction	7		2	

Since this is a developing area, the number of participants to be surveyed was limited.

The rate of return of surveys appeared to be related to present status of economy, particularly in some districts.

 $\boldsymbol{9}$

5. The data findings of the surveys returned is recorded on the survey on pages 7-10. It states the number of respondents that performed a particular task daily, once a week, once a month, once a year, or never.

The data findings showed a trend for workers in these home furnishings areas to be largely of the over 35 age group. The individuals engaged in these occupations were self-employed or worked with less than two employees. A large **percentage** had received their training at adult education classes or vocational school.

The tasks performed by the individuals depended on the size of the business. In a smaller business (under three workers), the employee or self-employed person performed all the tasks of construction. In a larger business (10 or more workers), the employee did particular jobs such as cutter, sewer, etc.; but some moved around and performed different jobs at various times.

Construction tasks were most frequently performed by the self-employed and employee of the larger business.

Routine business tasks were performed by the self-employed, the boss or by a person specifically assigned to only that aspect.

- Consultants, co-ordinators, project director, and instructors working on the project collected resource materials from educational institutions and other sources. The materials were distributed to the designated curriculum writers.
- 7. A format for the curriculum was developed. There were three columns. In the first column the tasks a worker in the particular occupation would need to perform were stated. The tasks stated on survey questionnaire were to be used as a guide.

In the second column, the learnings the worker must comprehend in order to perform the task were stated.

The last column was to be comprised of learning activities and resources that the teacher or student would do to provide learning or to learn the task. Resources in the form of illustrative and informative guide sheets would be listed here, and included in a separate resource book.

8. A separate bibliography would be at the end of the curriculum guide. It was to include the title, author, publisher (address), cost and synopsis of the resource.

9. A time frame was developed.

10. The project director met with individual curriculum writers. One meeting of all consultants, co-ordinators and curriculum writers was scheduled to review the suggested curriculum guides.

3 -

MADISON AREA TECHNICAL COLLEGE

211 NORTH CARROLL STREET, MADISON, WISCONSIN 53703

NORMAN P. MITBY District Director

January 22, 1982

Dear

The Wisconsin Board of Vocational, Technical and Adult Education has approved a project for Madison Area Technical College to develop curriculum in ome of the specialized areas in the Home Furnishings Services one, year diploma program. The project will be cooperatively conducted by Madison Area (Technical College staff and the Wisconsin Board of Vocational, Technical and Adult Education. Other district schools participating are: Blackhawk Technical Institute, Southwest Wisconsin Technical Institute, Waukesha County Technical Institute, and Fox Valley Technical Institute.

This project has been recommended by advisory committees to the Home Furnishings Services programs throughout the state. There are indications that individuals going into business or employment in these fields need more in-depth training in slip-covers, upholstery, furniture refinishing and restoration, draperies, window treatments and installation.

Some tasks for these jobs have been identified through research studies. We need your assistance to help verify these tasks so that the curriculum which is developed is relevant and meets today's training needs.

We would appreciate your completing the questionnaire and supplying additional suggestions and recommendations. Your response will be held in confidence and will not be identified in the report. We would appreciate receiving your response by February 4, 1982. Enclosed is a self-addressed, stamped envelope..

17

If you have further questions, please contact: Carol Swiggum, Project Director (608)222-6853 Phyllis Schwebke, Home Ec Chairperson (608)266-5077 Helen Scheve, Home Ec Consultant WBVTAE (608)266-1700.

We appreciate your cooperation.

Sincerely,

Norman P. Mitby

TASKS IN HOME FURNISHINGS RELATED OCCUPATIONS

Instruction Sheet

The questionnaire consists of two parts. The first part concerns information about yourself to help us determine the characteristics of people involved in these occupations. Please fill in the blanks completely. It is very important that blanks not be left empty. The information will, of course, remain confidential.

The second part of the questionnaire is in the form of a checklist. This list includes many tasks which might be part of the specific job. The list also includes tasks which one may never do. Please read each item very carefully before checking the appropriate column.

If you are performing the specific job (employee or self-employed) check tasks as they apply to you.

If you are an employer of a person in this occupation, check tasks you would expect the employee to perform.

- Check column 1 if the task is one which you or employee never do in the job.
- (2) Check column 2 if the task is one which you or employee might do at least <u>once a year</u> in the job.
- (3) Check column <u>3</u> if the task is one which you or employee would do at least <u>once a month</u> in the job.
- (4) 'Check column 4 if the task is one which you or employee would do at least once a week in the job.
- (5) Check column 5 if the task is one which you or employee would do every day in the job.

It is important that you check every item on the list. At the end of the checklist, space is provided in which you may list tasks that are a part of your job which we may have omitted in our list; also indicate how often you do these tasks. It is very important to the study that each person identify the tasks he performs that we may have omitted.

12

Thank you for your time--your cooperation is appreciated.
