IDENTIFIERS SDAP; *State Educational Agency Data Analysis Plan

ABSTRACT

This document is the second part of a 3-part report on the development of a generic State Educational Agency Data Analysis Plan (SDAP). It contains the SDAP-model I, the major product of the study. The model consists of a set of analysis statements directed at defining answers to a series of questions pertinent to the management of SEA programs. The SDAP itself is presented in a series of tables containing (1) the questions derived through the study for each of 15 programs found common to the two SEA's studied; (2) the suggested data analysis to provide the answer sought; and (3) the probable source of the data required for analysis (these sources include both state and Federal data streams.) A description of what each of these elements is and how the plan can be utilized within the context of the SEA data analysis concepts is also presented. Related documents are EA 004 869 and EA 004 871. (Author)

FOREWORD

This document is Part II of a three part report on the development of a generic State Educational Agency Data Analysis Plan (SDAP - Model I). This development has been performed by Scientific Educational Systems, Inc., under subcontract to the Ohio State Department of Education acting as agent for the Joint Federal/State Task Force on Evaluation and the U. S. Office of Education. This effort was undertaken at the request of the User's Guide Task Force (a sub group of the Federal/State Task Force) interested in the development and dissemination of products usable by the State Educational Agencies (SEA's). This generic SDAP is intended to be usable by SEA's as an illustrative model of how State and Federal data can be used to answer some of the many diverse information needs related to management of educational support programs operated by and within the SEA's.

Part I of this report presents additional background information as well as describing the developmental process followed in producing the SDAP - Model I. Part I contains an overview of the entire effort and the resulting products and discusses how these products can be used by SEA's as a model for their own development of specific data analysis plans. It also contains a detailed description of the Developmental Process which was followed in this effort. This latter product is intended to serve as a general guide to SEA personnel interested in either further extension of the current products or undertaking the independent development of data analysis plans for their SEA's.

Part II contains the SDAP - Model I, itself, the major product of the study. This consists of a set of analysis statements directed at defining answers to a series of questions pertinent to the management of SEA programs. The SDAP itself is presented in a series of tables containing: (a) the questions derived through the study for each of fifteen programs found common to the two SEA's studied; (b) the suggested data analysis to provide the answer sought; and (c) the probable source of the data required for analysis, (these sources include both State and Federal data streams.) This Part also presents a description of what each of these elements is and how the plan can be utilized within the context of the SEA data analysis concepts.

Part III consists of a compendium of data available by program within the studied SEA's. The compendium provides a direct comparison of the information elements which are available by program in the two SEA's and in the Federal/State data system. These comparisons form a partial basis for the SDAP tables, since the data availability was used as a direct indication of where a given type of data or information could be found at the SEA level. This part also contains explanations of the tabular presentations and of special notations used in these presentations. It also briefly defines the relationship of this compendium or a similar SEA-specific one in the utilization of the SDAP - Model I by other SEA's.

TABLE OF CONTENTS

Foreword

Introduction	1
SDAP-Mod I	4
SEA-Wide - All Fifteen Programs	5
Compliance Management - No State Plan	9
Compliance Management - State Plan	28
Discretionary Programs	50
Consulting and Technical Assistance	88

INTRODUCTION

This document presents the actual SDAP - Model I developed through the study process described in Part I. The plan itself is contained in the tabular presentation which follows below; and this section presents a brief description of what is included and how the plan may be understood. The potential uses of the SDAP - Model I by SEA personnel are discussed in Section A of Part I and will not be repeated here.

What SDAP - Model I is

The SDAP - Model I is basically a coordinated set of data analysis statements directed toward answering questions raised by program managers in SEA's.

As such, and as mentioned above, it can serve to guide SEA program personnel with respect to both asking the right questions and defining the data analysis required to answer them.

Understanding the tabular presentation of the SDAP - Model I requires some instruction as to what is contained herein and how it should be examined.

First, looking at a single page of the tables, it will be seen that three columns are used to present: Program Questions, Data Analyses Required; and Probable Data Source(s). This format shows the specific questions to be answered for program managers, how data are to be analyzed to answer them and where those data are probably to be found in SEA or Federal data sets. The references used under "Probable Data Sources" are to reports or instruments annotated in Part III, the Data Compendium. These can be located in the Compendium by reference to either the report or form type listed hereunder or the information type used in the data analysis statement. In either event, one should look under the specific program of interest in the Compendium.

Second, the questions and analysis statements are not listed separately for each program, because of the redundancy of questions found across programs. Rather, for purposes of this model, a minimum set of program management questions was generated by identifying those questions common to all programs, or to all of a program type, or to two or more programs within a program type. (These program types are: Aa - Compliance Management Program - with no State options; Ab - Compliance Management Programs - with State options; B - Discretionary Programs; and, C - Consulting/Technical Assistance programs. Definitions of these terms and discussion of the programs and how they fit the types are included in the process description in Part I.) This resulted in a considerable reduction in the number of individual questions to be listed. This is obvious when it is recognized that a few management questions apply to all fifteen of the common programs and a still larger group of management evaluation and reporting questions was found to apply to all six of the programs in the Discretionary type.

Such common questions have been listed under the appropriate heading in the tables and the data analysis statement and probable data sources are associated directly with each question. Further within each program type, or other sub level, the questions are separated by the designations of management, evaluation or reporting questions as derived from the common program descriptions.

How to use SDAP - Model I

An illustration of how to use this format might clarify the situation. Let us suppose an SEA wanted to use this SDAP - Model I as a model for developing a specific analysis plan for its Special Education program. This could be considered development of a specific Program Data Analysis Plan (or a PDAP). One would start by extracting all parts of the SDAP - Model I applicable to Special Education programs. This would yield the total set of questions and general level analysis statements that have been identified as pertinent to Special Education programs in SEA's. One would do this by, first, extracting the set of management questions applicable to all programs - as can be seen below, these concern State

needs assessment and requirements for SEA provision of consulting and technical assistance.

Second, one would extract the set of materials applicable to all Discretionary Programs, among which Special Education falls. This set includes management, evaluation and reporting questions as do many of the additional sets to be gathered. Next, each of the additional subsets which include Special Education in their heading would be extracted. This would result in a composite list of management, evaluation and reporting questions applicable to SEA Special Education program management. It would include also the general level data analysis statement to answer each question and references to the probable data source(s).

The resulting list should be used to guide the development of specific questions and analyses for the specific SEA doing the development. It should be pointed out that this development by the SEA will necessarily entail definition of somewhat more specific questions, also, just to meet their special situation. It may also involve discarding some of the questions, etc. from the SDAP - Model I because of inappropriateness. However, the SDAP-Model I was meant only to guide and assist such developments, not to actually accomplish them. Each SEA is too unique to be able to expect that anyway.

The next steps for the SEA would be to complete development of the PDAP and to implement this with either manual or automated data analysis. The SEA would then have a working information system to support the management information needs of this program.

It is believed that such a use of the SDAP - Model I questions and general analysis statements should result in a significant savings in SEA manpower in the design of such an information system. It is further believed that SEA savings would be magnified if the SDAP - Model I were to be used altogether as guidance to development of an SEA information system to meet the program management needs of all programs in the SEA. The high degree of conceptual redundancy of information needs across programs observed in this study indicates such multiplied savings from multiple program developments.

The use of the SDAP - Model I in guiding the development of multiple program plans simultaneously would follow the pattern outlined

above. It would simply require development of multiple specific analysis statements to answer the common questions for each program separately.

SDAP - MODEL I

The SDAP - Model I is presented below. The introductory material above should be read before one tries to understand the tabular presentation.

SDAP (I) Mod I

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p>SEA WIDE - ALL FIFTEEN PROGRAMS</p> <p><u>Management Questions</u></p> <p>1. What is the state of State-wide needs assessment for these programs?</p> <p>a. How recently has an assessment of needs been made?</p> <p>b. Is a new/updated assessment required?</p> <p>c. What State-wide needs were identified for these programs?</p>	<p>a. Distribution, by program, of most recent attempt at assessment of LEA and/or State-wide needs for program related services</p> <p>b. Judgment, by program, of degree of need for a new or updated needs assessment</p> <p>c. Distributions, by program, of:</p> <p>(1) Counts of target pupils identified by LEA and across the State</p> <p>(2) Counts of target pupils identified and being served by programs, by LEA and across the State</p> <p>(3) Counts of pupils possibly belonging to target groups by LEA and across the State</p> <p>(4) Target pupils identified as percent of total pupils, in LEA's and across the State</p> <p>(5) Target pupils being served as percent of total pupils, and as percent of total target pupils identified, by LEA's and across the State</p> <p>(6) Identified needs for instructional materials equipments and/or other program services by LEA and across the State</p>	<p>1. Output of potential State-wide Needs Assessment</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p>SEA WIDE - ALL FIFTEEN PROGRAMS (Cont.)</p> <p>1. What priority assignment process can be used and what priorities can be assigned?</p> <p>2. What are the characteristics of the SEA Program staff?</p> <p>2a. How many people are on the staff?</p> <p>b. What positions do they hold?</p> <p>c. What is their training?</p> <p>d. What is their professional experience?</p> <p>3. Is SEA Program staff adequate to meet management needs?</p> <p>3a. Is SEA Management staff satisfied with program Management staff performance?</p>	<p>d. Calculate mean priority rankings for each of the separate need categories represented by final distributions for C. (1) through (6) above, from rankings assigned by selected personnel as follows:</p> <ul style="list-style-type: none"> (1) Representatives of LEA's (2) Representatives of SEA Program staff (3) Representatives of SEA management (4) Representatives of State Advisory Council (5) Representatives of State Legislative personnel (6) Representatives of public and non-public schools (7) Representatives of State Board of Education <p>2. Frequency distributions of Program staff personnel by position held, professional training area and degree, and years of professional experience with major type of experience</p> <p>3a. Summary of ratings by SEA management personnel of:</p> <ul style="list-style-type: none"> (1) Quality of program services provided (2) Adequacy of program management activities (3) Capability of present individual staff members to perform required tasks (4) Efficiency of present staff members in performing required tasks 	<p>2. SEA Staff Personnel Files</p> <p>3. No current source - should construct questionnaire-rating forms</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p>SEA WIDE - ALL FIFTEEN PROGRAMS (Cont.)</p> <p>3b. Is Program Management staff satisfied with own performance?</p>	<p>3b. Summary of ratings by program personnel of: (1) Quality of program services provided (2) Adequacy of SEA program management activities (3) Capability of present staff members to perform required tasks (4) Degree of adequacy of own present performance</p>	
<p>3c. Are there serious needs for change or additions to Program staff?</p>	<p>3c. Summary of ratings by management as to: (1) Need for replacement of any staff members? (2) Need for additional personnel to assist present staff? (3) Likelihood of increased demand for program services in near future</p>	
<p>4. Needs for Technical Assistance/ Consultation</p>	<p>4. Summary of ratings by management as to: (1) Need for replacement of any staff members? (2) Need for additional personnel to assist present staff? (3) Likelihood of increased demand for program services in near future</p>	
<p>4a. How many SEA staff personnel are available for consultation/ assistance to LEA's re this program?</p>	<p>4a. Number of SEA Program personnel available to provide consultation to LEA's</p>	<p>4a. Consultant or Program Annual Report</p>
<p>b. What percent of time is currently spent in this assistance by each available staff member?</p>	<p>b. (1) Time spent in providing LEA assistance divided by total time for each staff member providing LEA assistance (2) Total time spent by all SEA staff in providing LEA assistance divided by total of all staff time</p>	<p>b. Consultant or Program Annual Report</p>
<p>c. Does SEA staff have sufficient manpower capability to handle all LEA assistance needs? (1) How many LEA requests for what kinds of assistance have come to the SEA in the last year?</p>	<p>c. (1) Frequency distributions of the kinds of LEA requests for SEA technical assistance by whether they were adequately satisfied or not</p>	<p>c. LEA requests to SEA's for assistance not currently recorded or available</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>SEA WIDE - ALL FIFTEEN PROGRAMS (Cont.)</u></p> <p>4c. (2) How many of each kind have been adequately met by SEA staff?</p> <p>(3) What kinds of needs were unfulfilled?</p> <p>(4) What kinds of capabilities are needed to meet need-types which have been unmet in past?</p> <p>(5) How many personnel of what types are required to meet these unmet needs?</p> <p>d. Is SEA assistance to LEA's mainly concerned with definition and development of educational goals, aims or objectives related to programs, or do LEA's ask more for financial and/or management assistance?</p>	<p>4c. (2) Summarize LEA requests that were satisfied and those not satisfied by type and magnitude of requested effort.</p> <p>(3) Define number and type of personnel capabilities required based on the extent and kinds of assistance required by unmet LEA requests.</p> <p>(4) List the kinds of capabilities needed.</p> <p>(5) Number of personnel by type.</p> <p>d. Examine frequency distribution for 4c. above to compare relative frequencies of multiple categories of LEA requests.</p>	<p>d. LEA requests to SEA's for assistance not currently recorded or available.</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>COMPLIANCE MANAGEMENT, NO STATE PLAN</u></p> <p>TRANSPORTATION, SAFA, SCHOOL FOOD SERVICES, STATE GRANTS</p> <p><u>Management Questions</u></p> <ol style="list-style-type: none"> 1. What policies and procedures are specified in the Legislation for the distribution of program funds? <ol style="list-style-type: none"> a. What policies and procedures are specified for the review of local project applications? b. What criteria are used to determine priorities for project funding? c. What priorities are specified for the selection of projects and services to be funded? d. What characteristics are essential to make an LEA eligible for funding? 2. Project Applications <ol style="list-style-type: none"> a. What LEA's are eligible to submit applications under the legislation? b. Do LEA's require assistance to complete applications? c. Did all eligible LEA's submit applications? 	<ol style="list-style-type: none"> 1. Examine State and Federal legislation to define: <ol style="list-style-type: none"> a. SEA procedures for application review. b. Specific criteria or formula to define targetting and priorities. c. Anyspecific priorities established by law. d. Specific criteria to be met for eligibility of LEA. 2a. Compare characteristics of LEA with criteria, priorities and eligibility characteristics defined in 1 above, Generate list of eligible LEA's. <ol style="list-style-type: none"> (1) Examine applications submitted for completeness and accuracy. (2) For LEA's submitting no or poor applications, query LEA Superintendent's office about assistance needs. c. Compare list of LEA's submitting applications with list of eligible LEA's from 2a. List eligibles not submitting application. 	<ol style="list-style-type: none"> 1. State and Federal Laws 2a. LEA Applications and General State Data. b. LEA Application and Superintendent's Office. c. LEA Applications.

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>COMPLIANCE MANAGEMENT, NO STATE PLAN</u> (Cont.)</p>		
<p>d. Is each application complete, correct, and in accordance with legislation and Federal or State guidelines? e. What are specific requirements for correction/modification of applications?</p>	<p>d. Judgment of program personnel based on 2.b.(1) and 1. above. e. Generate specific requirements for modification of each LEA Application based on judgment and criteria, etc. Send to LEA.</p>	<p>d. Not available. e. Not available.</p>
<p>3. What is the amount of funds available for distribution?</p>	<p>3. Determine amount of funds available to State for distribution.</p>	<p>3. Appropriations/Disbursement Formula.</p>
<p>4. What amount of funds will go to each eligible LEA?</p>	<p>4. Compute funds to go to each LEA based on project application data and program disbursement formula. Prepare list of distribution of funds.</p>	<p>4. Application Proposal.</p>
<p>5. What are the restrictions of the legislation as to how the funds may be spent?</p>	<p>5. Develop and distribute list of any and all restrictions on how LEA's can or must have spent money.</p>	<p>5. State and Federal Guidelines.</p>
<p><u>Evaluation Questions</u></p>		
<p>1. How many and what percent of all school districts are eligible?</p>	<p>1a. Count of number of school districts that are eligible. b. Count of number of school districts eligible divided by the total number of school districts in the State.</p>	<p>1a. Not available. b. Not available.</p>
<p>2. How many and what percent of all school districts have submitted applications?</p>	<p>2a. Count of number of school districts that have submitted applications.</p>	<p>2a. SAFA, School Food, Transportation Applications/Reimbursement; State Grants - Not available.</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>COMPLIANCE MANAGEMENT, NO STATE PLAN</u> (Cont.)</p>		
<p>3. How many and what percent of all school districts are receiving funds?</p>	<p>b. Count of number of school districts that have submitted applications; divided by the total number of school districts in the state.</p>	<p>b. Take (a) and general school records.</p>
<p>3. How many and what percent of all school districts are receiving funds?</p>	<p>3a. Count of number of school districts receiving funds.</p>	<p>3a. School Food - Reimbursement Forms and Reports; Transportation - Application/Reimbursement Form; State Grants - Conn; Report - Colo Budget; SAFA - Report of Contract Awarded (partial).</p>
<p>4. How much money is received for this program in each district and in the entire State?</p>	<p>b. Count of number of school districts that are receiving money divided by the total number of school districts in the State.</p>	<p>b. Take (a) and general school records.</p>
<p>4. How much money is received for this program in each district and in the entire State?</p>	<p>4. Distribution of amounts of money received for this program in each district and for the entire State.</p>	<p>4. State Grants - Report (Conn), Budget (Colo) Transportation - Application/Reimbursement; School Food - Monthly Report and Reimbursement; SAFA (not available).</p>
<p>5. How much money is received per pupil for this program in each district and in the entire State?</p>	<p>5. Distribution in each district and over the entire State of amount of money received for this program divided by number of pupils served.</p>	<p>5. Take 4 (above) and SAFA and Transportation - Application Report and Application/Reimbursement; School Food- Monthly Report and Reimbursement; State Grants - Annual Pupil Report and CPLR.</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>COMPLIANCE MANAGEMENT, NO STATE PLAN</u> (Cont.)</p> <p>6. How does the amount of funds received this year over the entire State and in each district compare to previous years?</p> <p>STATE GRANTS, TRANSPORTATION GRANT AND SCHOOL FOOD SERVICES</p> <p><u>Management Questions</u></p> <p>1. How effective is the SEA in providing substantive guidance to the LEA's in their Program activities?</p> <p>a. How frequently does the SEA disseminate information regarding effective practices and procedures?</p> <p>b. What assistance does the SEA provide to LEA's in developing program projects and how frequently?</p> <p>c. What assistance does the SEA offer LEA's in evaluating local program services, and how frequently?</p> <p>d. In which program areas do the LEA's need more SEA assistance and what kinds of assistance are required?</p>	<p>6. For each district and for the entire State, distribution of the amount of funds received this year and amounts received in each of the previous ten years.</p> <p>1. Judgments by SEA middle management and program personnel, and by LEA personnel, as to effectiveness of SEA guidance based on:</p> <p>a. List the articles and types of information disseminated by the SEA with dates of dissemination or periodicity, if serial publications.</p> <p>b. List the kinds of assistance provided to LEA with the number of LEA's so assisted and the frequency of assistance to each LEA. This list will include both assistance in project development and assistance in project evaluation.</p> <p>c. Same as (b) above.</p> <p>d. Distribution of LEA statements of which areas need more assistance and what kind of assistance is needed in each area. Generate list of LEA needs for SEA.</p>	<p>6. Take 4 (above) and general State records.</p> <p>1. Special data collection.</p> <p>a. Program files.</p> <p>b. State Program Files.</p> <p>c. State Program Files.</p> <p>d. Not available.</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>COMPLIANCE MANAGEMENT, NO STATE PLAN</u> (Cont.)</p> <p>TRANSPORTATION, SAFA, SCHOOL FOOD</p> <p><u>Evaluation Questions</u></p> <p>1. How many and what percent of students in the State's public schools are eligible under each program?</p>	<p>1a. Sum of number of students that are eligible.</p> <p>b. Sum of number of students eligible divided by the total number of students in the State.</p>	<p>1a. School Food - Semi-Annual Eligibility Report (Conn); Transportation and SAFA - Not available.</p> <p>b. Take (a) and general State records.</p>
<p>STATE GRANTS AND SAFA</p> <p><u>Management Questions</u></p> <p>1. What are the historical expenditures of each LEA?</p>	<p>1. Generate frequency distributions of expenditures for each LEA for past ten years. Use breakdowns required for general State reporting.</p>	<p>1. State records for previous ten years; SAFA breakout by general State reporting, not available; Total for Reimbursement Report, State Grants - Utilize 2 below; CPIR.</p>
<p>2. What are current LEA expenditures?</p>	<p>2. Frequency distribution of most current years' expenditures by LEA and using State required breakout.</p>	<p>2. SAFA as in 1 (above); State Grants Colo Annual Financial Report, Conn Annual School Report; CPIR.</p>
<p>3. What is eligible membership and (ADM) for each LEA?</p>	<p>3. Frequency distribution of ADM and eligible membership for each LEA.</p>	<p>3. SAFA Reimbursement Report and Application/Proposal; State Grants, partial answer, annual pupil report; CPIR.</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>COMPLIANCE MANAGEMENT, NO STATE PLAN</u> (Cont.)</p> <p>4. What is the level of per pupil expenditures for each LEA?</p>	<p>4. Frequency distribution of the total current expenditures divided by (eligible) membership for each LEA.</p>	<p>4. Take (2) and (3) above.</p>
<p><u>Additional Reporting Requirements</u></p> <p>1. What is each district's average daily attendance?</p>	<p>1. For each district, the average daily attendance by school.</p>	<p>1. Conn - End of Year School Report. Colo - Foundation Act Certification Form.</p>
<p><u>TRANSPORTATION, SCHOOL FOOD</u></p> <p><u>Evaluation Questions</u></p> <p>1. How many and what percent of students are being served by each program?</p>	<p>1a. Sum of number of students being served.</p> <p>b. Sum of number of students being served divided by total number of students in the State.</p>	<p>1a. SAFA - Monthly Reports and Reimbursement Forms; Transportation - Application/Reimbursement Forms. b. Take (a) above and general State records.</p>
<p>2. How does the number and percent of students being served by each program this year compare with previous years?</p>	<p>2. For the entire State and for each district separately, distribution of the numbers and percents of pupils served this year and in each of the previous ten years.</p>	<p>2. Take (1a) above and general State records.</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>COMPLIANCE MANAGEMENT, NO STATE PLAN</u> (Cont.)</p>		
<p>3. How many and what percent of schools does each program serve over the State?</p>	<p>3a. Number of schools participating in each program over the entire State.</p> <p>b. Number of schools participating divided by the total number of schools in the State.</p>	<p>3a. School Food - Reimbursement Forms; Transportation - Not available by School for Colo; Conn. Application/Reimbursement.</p> <p>b. Take (a) and general State records.</p>
<p><u>STATE GRANTS</u></p>		
<p><u>Management Questions</u></p>		
<p>1. Are there any special parts of State law under which an LEA can get additional money because of special circumstances?</p>	<p>1. Review of legislation. (See item 1d, under all four programs above.)</p>	<p>1. State and Federal loans.</p>
<p>2. How many, and which LEA's meet these special circumstances?</p>	<p>2. Comparison of LEA characteristics with legislative criteria. (See item 2a, under all four programs above). Generate list.</p>	<p>2. LEA Applications and general State data.</p>
<p>3. How many affected LEA's apply?</p>	<p>3. Comparison of list of eligible LEA's with list of LEA's applying under special provisions. Generate list of eligibles that have not applied.</p>	<p>3. State records and list of Colo. Supplemental Assistance Application and Certification of Acceptance; Conn. not available.</p>
<p>4. Are affected LEA's aware of special funds availability?</p>	<p>4. Using list generated in (3) (or list of all eligibles), query LEA's and provide information to those needing it.</p>	<p>4. Not available.</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>COMPLIANCE MANAGEMENT, NO STATE PLAN</u> (Cont.)</p>		
<p>5. Are there needs for workshops or special training for instruction of LEA personnel in completing applications (for special or regular grants) e.g., are the requirements for application overly complex, so as to require special instruction, explanation or supervised practice?</p>	<p>5. Analyze judgments as follows to assess overall need for workshops, etc.</p> <p>5a. Judgment by SEA staff as to complexity of application and need for training, etc.</p> <p>b. Judgment by LEA personnel as to degree of need for training.</p>	<p>5. Not available.</p>
<p><u>Evaluation Questions</u></p>		
<p>1. Are the funding levels sufficient to carry out the programs necessary to meet the appropriate goals and objectives in each district?</p>	<p>1. Distribution, by district, of amounts of funds received and the amounts of funds expended.</p>	<p>1. District and State Budget.</p>
<p>2. How many and what percent of districts requested funds for Supplemental Assistance because of Special Circumstances or Contingencies?</p>	<p>2a. Number of districts requesting funds for Supplemental Assistance because of Special Circumstances or Contingencies.</p> <p>b. Number of districts requesting funds for Supplemental Assistance divided by the total number of districts in the State.</p>	<p>2. Colo - Application for Supplemental Assistance. Conn - Not Applicable.</p>
<p>3. How much money did each district request for Supplemental Assistance?</p>	<p>3. Distribution, by district, of the amount of funds requested for Supplemental Assistance.</p>	<p>3. Colo - Application for Supplemental Assistance. Conn - Not Applicable.</p>
<p>4. How much money did each district receive for Supplemental Assistance?</p>	<p>4. Distribution, by district, of the amount of funds received for Supplemental Assistance.</p>	<p>4. Colo - District Budget Conn - Not Applicable.</p>

Program Questions	Information/Analyses Required	Probable Data Source(s)
<p><u>COMPLIANCE MANAGEMENT, NO STATE PLAN</u> (Cont.)</p>		
<p>5. What percent of the money requested for Supplemental Assistance did each district actually receive?</p>	<p>5. For each district, the amount of funds requested for Supplemental Assistance divided by the amount of funds received for Supplemental Assistance.</p>	<p>5. Colo - Funds requested - Application for Supplemental Assistance; Funds received - District budget. Conn - Not applicable.</p>
<p>6. How does the amount of money that each district requested and received for Supplemental Assistance compare to previous years?</p>	<p>6.
