## MONTHLY CONTRACT

## AGILE CONTRACT

## FIXED PRICE CONTRACT

### DESCRIPTION

Own in-house team for any development related requirements

The team members will remain stable and not be switched without clients' approval

iView Labs developers work full time based on prioritized user stories and required story points

The requirements, which is called "user stories", are prioritized at the beginning of each sprint. The full scope and effort estimation does not need to be completely fixed

Need well defined, clear requirements document in place

Contracted to meet a target budget and timeline

### BEST SUITED FOR

Companies that need to build/extend their in-house development team or strengthen the internal R&D capabilities

If a client is used to working in Agile and has very mature process, an Agile contract might be suitable

Companies with one-off software outsourcing needs

Ready to go apps & solutions

### ADVANTAGES

Clear and close communication & collaboration

High quality and continuous delivery

Scalable team: easy and efficient ramp-up

Iterative and incremental method allows teams to eliminate potential risks at an earlier stage

Quick responses to the changing requirements or added features

Frequent software deliverable help to accelerate the speed to market

Set time frames

Easy to follow progress

### PAYMENT CYCLE

Clients pay monthly, based on team size

Clients pay hourly wise

Most payments made by milestones
