## Section 1: Purpose of the Report

Iowa's 15 Community Colleges offer thousands of credit and non-credit courses. The 2005 Condition of Iowa Community Colleges report will review Iowa Community College programs and related services. The report is supported by Management Information System (MIS) data, as reported by Iowa Community Colleges to the Iowa Department of Education, Bureau of Community Colleges and Career and Technical Education and additional references, which are identified in the body of the report. Data are based on Fiscal Year 2001, Fiscal Year 2002, Fiscal Year 2003, Fiscal Year 2004 and Fiscal Year 2005. Substantiate changes to community college programs and reporting procedures including a conversion to 2000 CIP codes affect the comparison of Fiscal Year 2004 and Fiscal Year 2005 data with previous years.
Additional Iowa Community College data and reports are available on the Bureau of Community Colleges and Career and Technical Education's web site:
www.state.ia.us/educate/ccwp/cc/reports.html.
The report is comprised of the following basic sections:
Iowa Community Colleges: A history of lowa's Community Colleges and reference to lowa Code, Chapter 260C.1, which is the statement of policy describing educational opportunities and services provided.
Fall Credit Enrollment: A variety of reports including, fall credit headcount and total credit hours, with full-time and part-time student enrollment data. Credit Arts and Science program and Career and Technical Education program totals.

Fiscal Year Credit Enrollment: A variety of reports including, year-end headcount and total credit hours, with full-time and part-time student enrollment data. Credit Arts and Science program and Career and Technical Education program totals, and majors by occupational program cluster.

Fiscal Year Credit Student Demographics: Consists of gender, age, racial/ethnic background, and residency of credit students.
Fiscal Year High School Credit Enrollment: Year-end headcount and credit hours of high school students taking postsecondary credit, with full-time and part-time student enrollment data. This section also includes demographic information consisting of gender and racial/ethnic background.

Fiscal Year Credit Student Awards: Credit awards, certificates, diplomas, and/or degrees granted including awards broken down by racial/ethnic background and awards by program major listed by gender.

Non-Credit Enrollment and Programs: Programs and services provided through non-credit divisions of community colleges. Non-credit enrollments by occupational program cluster and a variety of program area enrollments are presented.
Community College Programs: New programs for Fiscal Year 2005.
Performance Indicators: Reports on set of eight performance indicators approved by the lowa State Board of Education.

Success of Community College Credit Students: Reports include a 3-year award rate, data from the Iowa Board of Regents referring to lowa Community College transfer students and fouryear graduation rates data. An additional report identifies the number of credit students currently enrolled in community colleges who have completed the General Educational Development (GED) diploma. Average cost of colleges as well as geographic location of alumni is also covered.

Adult Literacy Program: Highlights of Program Year 2005 Adult Literacy Program accomplishments.

Economic Development: Training and retraining programs provided by community colleges in cooperation with the Iowa Department of Economic Development. Enrollments and occupational types of programming include lowa Industrial New Jobs Training Programs (260E), Iowa Jobs Training Programs (260F), and Accelerated Career Education (ACE 260G).

Apprenticeship Programs: Reports on Apprenticeship programs provided by lowa Community Colleges.
Human Resources: Staff of lowa Community Colleges is reported within categories of Administration, Instructional, Professional, Secretarial \& Clerical, and Service. This section includes comparison salary reports from The Chronicle of Higher Education.

Financial: Revenues by Source, Expenditures by Category, and Expenditures by Function. FullTime Equivalent Enrollment (FTEE) calculation for State General Aid information is presented. State General Aid appropriation amounts and State General Aid increase/decrease compared to the salary expenditure increases.
Tuition and Fees: Costs to students of Iowa Community Colleges, Regent Institutions, and surrounding states are compared.

Financial Aid: Data obtained from the lowa College Student Aid Commission present information on financial aid received by students.
Glossary: Definitions of terms utilized through the Condition of Iowa Community Colleges 2005 Report.

Appendices: Community College Management Information System (MIS) data broken down by community college, which supports the tables in the text of the report.

# Section 2: Iowa Community Colleges 

# "The mission of lowa's System of Community Colleges in the 21st Century is to provide world-class educational and community services to meet the needs of the people of lowa."

Community colleges have an "open door" policy, which means that nearly everyone who applies may be accepted.

Each of the 15 community colleges offers comprehensive programs including Arts and Science, College Transfer (Parallel) courses, Career and Technical Education programs, training and retraining programs for the workforce of lowa's businesses and industries, and a variety of adult education and non-credit courses for residents of each community college district.

## History of lowa's Community Colleges

Mason City schools established the first two-year postsecondary educational institution in lowa in 1918. At the time this junior college was organized, there was no law authorizing two-year postsecondary educational programs. Mason City Junior College proved to be successful and was accredited by the North Central Association of Colleges and Schools in 1919.

Additional public junior colleges were organized beginning in 1920, and the movement spread rapidly, until, by 1930, at least 32 towns and cities in lowa had organized public junior colleges as part of their public school systems.

In 1927, the 42nd General Assembly passed the first law authorizing the establishment of public junior colleges. The law permitted the establishment of schools offering instructional programs at a level higher than an approved four-year high school course. The colleges had to be duly authorized by the voters and approved by the State Superintendent of the lowa Department of Public Instruction (now the Director of the Iowa Department of Education). Such colleges were able to include postsecondary courses of one or two years. The Superintendent was authorized to prepare standards and to provide adequate inspection of these junior colleges.

The Iowa public junior college movement reached its crest in 1927 when nine public junior colleges were organized. After the year 1930, no public junior colleges were organized until 1946, when Clinton Junior College was founded. In 1931, the 44th General Assembly approved the first restriction to the development of public junior colleges, prohibiting the establishment of a public junior college in any school district having a population of less than 20,000. The 49th General Assembly in 1941 reduced the population requirement to 5,000 .

Between the years 1918 and 1953, a total of 35 different public junior colleges were established through the operation of public school districts. Some of these colleges closed, although 10 of the closed colleges later reopened. The enrollment trend steadily increased over the years with the exception of the World War II years. During the 1955-66 decade, which immediately preceded the initiation of a community college system, enrollment almost quadrupled. By 1965, 16 public junior colleges were operating in lowa and the total enrollment during the fall semester of the 1965-66 school year was 9,110. Local public school districts operated colleges; a dean who reported directly to the local superintendent administered each. These institutions offered arts and science programs equivalent to the first two years of the baccalaureate program and a limited number of occupational programs and adult education opportunities.

In 1958, Congress initiated a development parallel to the public junior college movement. Title VIII of the National Defense Education Act (NDEA) made federal funds available to states on a matching basis to develop area vocational programs. To implement this legislation, the lowa State Board of Education modified the state vocational education plan to make local school 4districts and lowa State University eligible to operate as "area schools." This legislation included a specific allocation of funds to develop area vocational programs under NDEA's Title VIII, a designation of area vocational-technical high schools, and the authorization for tuition-paying students to attend these schools and programs.

The lowa State Board of Education eventually designated a total of 15 schools as area vocationaltechnical high schools. These schools were also designated as area schools for the purposes of Title VIII, and were to be used to initiate programming for the Manpower Development and Training Act. A total of 1,816 full-time day students enrolled in postsecondary vocational programs for the 1965-66 school year; the majority entered programs administered by agencies operating the area vocational-technical high schools or programs.

Even though public junior colleges and area vocational-technical high schools offered some opportunities for arts and science and preparatory vocational education, enrollment opportunities were limited for most lowans. In 1959, the 58th General Assembly appropriated $\$ 25,000$ to the Iowa Legislative Research Bureau to conduct a policy study of the needs of higher education in Iowa. Included in this report was a recommendation to establish regional community colleges. The report also contained the recommendation that the state pay at least half the cost of building and operating these colleges. As a result of this study, the General Assembly directed the lowa Department of Education to conduct a two-year study of the need to develop a statewide system of public community colleges. Legislators indicated that this study should investigate the availability of vocational and technical education in lowa high schools and provide recommendations for improving this education.

The Iowa Department of Education submitted its report, "Education Beyond High School Age: The Community College", to the General Assembly in December 1962. The report made recommendations and proposed enabling legislation. It recommended restructuring the county educational system and forming 16 area education districts whose boundaries should be drawn along existing school district lines. These districts were intended to provide programs and services that would complement those provided by local school districts. It was envisioned that the area districts would also serve as a legal structure through which a statewide system of community colleges could be developed.

In 1963, the 60th General Assembly took no action on the report. However, an interim legislative committee concluded that it would be appropriate to put vocational and two-year college education together in a single comprehensive system. Staff of the Iowa Department of Education worked closely with various groups throughout the state, and arrived at conclusions similar to those of the interim committee. Passage of the Vocational Education Act of 1963 provided additional impetus to this planning.

After receiving the interim committee's report in 1964, the 61st General Assembly in 1965 enacted legislation that permitted the development of a statewide system of two-year postsecondary educational institutions, identified as "merged area schools." The lowa Department of Education was to direct the operation of the development of merged area schools as either area community colleges or area vocational schools.

Legislation authorizing merged area schools, which are now referred to as "community colleges," provided for fiscal support for these institutions through a combination of student tuition and federal, state, and local funds. These resources included a local three-quarter mill levy on the property within the merged area for operational purposes, and an additional three-quarter mill levy for the purchase of sites and construction of buildings. State general aid was distributed to community colleges on the basis of $\$ 2.25$ per day for the average daily enrollment of full-time students and the full-time equivalent of part-time students who were residents of lowa. The 63rd General Assembly changed this formula in 1969 to provide for the payment of state aid equivalent to the full-time equivalent enrollment determined on the basis of actual contact hours of instruction. Individual colleges were granted authority to establish tuition rates, except that tuition was not to exceed the lowest tuition rate charged by any one of lowa's three Regent Universities.

Legislation approved in 1965 was enthusiastically received. The lowa Department of Education received the first plan for a community college on July 5,1965 ; one day after the legislation was effective. Plans for the other community colleges followed in quick succession. Fourteen (14) community colleges were approved and organized in 1966, and a 15th in January 1967. Fourteen of these community colleges began operation during the 1966-67 school year. (Although the original plans called for 20 areas that was quickly reduced to 16 . Then, two of the areas merged as the plan was being implemented.)

Seven (7) districts were originally approved as Area Community Colleges: (2004 names)

North Iowa Area Community College Iowa Lakes Community College Iowa Central Community College Iowa Valley Community College District Eastern Iowa Community College District Des Moines Area Community College Southeastern Community College

The remaining eight were approved as Area Vocational Schools: (2004 names)
Northeast Iowa Community College
Northwest Iowa Community College
Hawkeye Community College
Kirkwood Community College
Western Iowa Tech Community College
Iowa Western Community College
Southwestern Community College
Indian Hills Community College
Currently, all 15 operate as comprehensive community colleges, offering arts and science (college transfer), vocational preparatory, and adult and continuing education programs. In 1987, Hawkeye Community College, the final lowa college operating as a vocational school, received approval to operate as a comprehensive community college.

In 1989, the 73rd General Assembly passed Senate File 449, requiring that secondary vocational programs be competency based, and that the competencies be articulated with postsecondary vocational education. This resulted in increased cooperation between local education agencies and the community colleges and a growth in programs in which high school students are awarded college credit for coursework completed in these articulated and $2+2$ programs.

In 1999, the $78^{\text {th }}$ General Assembly passed House File 680 mandating the Department of Education convene a committee to identify and study options for restructuring the governance of lowa's Community Colleges. The report, which was submitted to the Legislature in December 1999, reaffirmed the existing governance structure of lowa's Community Colleges, with locally elected boards of directors and the State Board of Education with responsibility for statewide oversight and coordination. The study recommended the development of a statewide strategic plan for the system of community colleges.
House File 2433 mandates the development of a statewide strategic plan for the statewide system of community colleges. It was approved by community college presidents, the lowa Association of Community College Trustees, and the State Board of Education, and forwarded to the legislature by July 2001. Specific goals included:

1. Provide high quality, comprehensive educational programs and services accessible to all lowans.
2. Develop high-skilled workers to meet the demands of lowa's changing economy.
3. Maximize financial and human resources to assure provision of comprehensive community college services to lowans and to allow lowa to compete on a national and international level.
4. Demonstrate effectiveness and efficiency for achieving the system mission and goals.

In January 2003, the State Board of Education amended the Community College Strategic Plan to include a fifth goal:
5. Recruit, enroll, retain, and/or graduate persons of underrepresented groups (i.e., gender, race/ethnicity, socioeconomic status) in all programs.

Within 6 months of implementing HF 2433, a progress report was published summarizing statewide and local community college responses to the five-year plan, "Shaping the Future". Annual progress reports are compiled by the Department of Education and presented to the State Board of Education.

## Iowa Code

The statement of policy describing the educational opportunities and services to be provided by community colleges is included in Section 260C. 1 of the lowa Code. This statement of policy identifies the following as services that should be included in a community college's mission.

- The first two years of college work, including pre-professional education.
- Vocational and technical training.
- Programs for in-service training and retraining of workers.
- Programs for high school completion for students of post-high school age.
- Programs for all students of high school age who may best serve themselves by enrolling in vocational and technical training, while also enrolled in a local high school, public or private.
- Programs for students of high school age that provide advanced college placement courses not taught at a student's high school while the student is also enrolled in the high school.
- Student personnel services.
- Community services.
- Vocational education for persons who have academic, socioeconomic, or other handicaps that prevent succeeding in regular vocational education programs.
- Training, retraining, and all necessary preparation for productive employment of all citizens.
- Vocational and technical training for persons who are not enrolled in a high school and who have not completed high school.
- Developmental education for persons who are academically or personally under prepared to succeed in their program of study.

## Section 3: Fall Credit Enrollment

## Fall Credit Enrollment

Iowa Community College fall enrollment figures are based on student enrollment on the $14^{\text {th }}$ day of the fall term, which are electronically transmitted to the lowa Department of Education. As shown in Figure 1 and Table 1, fall credit enrollment has increased each year, with Fall 2002 increasing 5,157 students ( $7.50 \%$ ) over Fall 2001, Fall 2003 increasing 4,334 students (5.86\%) over Fall 2002, Fall 2004 increasing 3,522 students (4.50\%) over Fall 2003, and Fall 2005 increasing 696 students (0.85\%) over Fall 2004. Over this five-year time period, enrollments increased a total of 13,709 students (19.93\%). Full time students comprise 50.22\% of enrollment in Fall 2005.

[^0]Total Enrollment by Program Type: Community college fall credit enrollment continues to grow, with approximately 57 percent (57.22\%) pursuing Arts and Science programs (see Figure 2). Arts and Science program enrollment increased 1,342 (2.93\%) from Fall 2004 to Fall 2005. Career Option programs decreased 177 (-3.21\%) from Fall 2004 to Fall 2005. Career Technical enrollment decreased 1,082 ( $-3.57 \%$ ) over the same time period. Some of this decrease could be accounted for with students enrolled in a combination of program types, which grew 613 (454.07\%) during that time.

## Credit Enrollment by Program Major

Beginning in Fiscal Year 2005, program majors are disaggregated by Arts and Science only, College Parallel-Career Option only, Career and Technical Education only, and a combination of the three. Students may enroll in more than one program. Data for Fiscal Year 2001 to Fiscal Year 2004 are disaggregated for the first time in these categories. Data in Table 4 differ from other Community College historical documents.

## Section 5: Fiscal Year Credit Student Demographics

Credit student demographic data includes information on gender, age, racial/ethnic background, and residency.

- Over the past five fiscal years, the male and female portion of the student population has stayed relatively consistent. ( $42 \%$ Male, $58 \%$ Female).
- Credit students at lowa Community Colleges range in age from 14 to 88 . The Average age is 24.54 with a median age of 21.
- In Fiscal Year 2005, 9.68\% of the credit enrollment are members of minority racial/ethnic groups. Minority student enrollment has increased 44.92\% from Fiscal Year 2001 to Fiscal Year 2005.
- The Hispanic student population is the fastest growing minority population, growing $68.46 \%$ from Fiscal Year 2001 to Fiscal Year 2005. Over the same time period, the black student population grew the largest nominal amount, growing 1,717 students.
- During Fiscal Year 2005, 93.45\% of enrollees were lowa residents.

## Credit Student Gender

Consistent with national trends in postsecondary education, over half of community college students are female.

## Credit Student Age

The largest age group of credit students is $18-22$, which comprises 62,764 ( $52.51 \%$ ) students out of the total enrollment for Fiscal Year 2005 of 120,217 . Enrollees under the age of 17 have been the fastest growing segment of the student population, increasing 102.54\% from Fiscal Year 2001 to Fiscal Year 2005. Since 2001, less than 1\% of enrollees have been over the age of 55. In Fiscal Year 2005, the average age is 24.54 . Note: Age is calculated as of July 1st.

## Section 6: Fiscal Year High School Credit Enrollment

- Year-end high school enrollments have increased 7,272 students (46.52\%) from Fiscal Year 2002 to Fiscal Year 2005.
- As the text box to the left indicates, the average credit hours per high school student increased from 6.89 to 7.12 from Fiscal Year 2002 to Fiscal Year 2005.
- The large majority of high school students enroll for fewer than 24 credit hours and are therefore classified as part-time students. (Table 13 on page 10).

## High School Enrollment

The high school student population is becoming a larger portion of the total student population. During Fiscal Year 2002, High School students accounted for $14.79 \%$ of the population and $6.93 \%$ of the credit hours. During Fiscal Year 2005, those proportions had grown to $19.05 \%$ and $9.15 \%$ respectively (Table 11).

## Growth in High School Enrollment

The high school population has a higher growth rate than the general student population. The student population has grown $46.52 \%$ from Fiscal Year 2001 to 2005. The credit hours taken by high school students have grown $51.30 \%$ over the same time period. (Table 12) The general student population has grown $13.71 \%$ and the credit hours have grown $14.57 \%$ over the same time period.

## High School Enrollment, Full-time vs. Part-time

The high school population has a much higher percentage of part-time enrollees than enrolled on a full-time ( 24 credit hours over a fiscal year) basis. In Fiscal Year 2005, $98.66 \%$ of the high school population were enrolled on a part-time basis; where as only $1.34 \%$ of the high school student population were enrolled on a full-time basis (Table 13). The percentage of high school students enrolling at a full-time basis is slowly dropping from 1.71\% in 2002 to $1.34 \%$ in 2005.

## Section 7: Fiscal Year Credit Student Awards

## Credit Student Awards

A total of 15,023 credit student awards were granted by Iowa Community Colleges during Fiscal Year 2005.

Source: Iowa Department of Education, Bureau of Community Colleges and Career and Technical Education.

- There are a variety of credit student awards granted by Iowa Community Colleges. Degrees offered include Associate in Arts (AA), Associate in Science (AS), Associate in General Studies (AGS), Associate in Applied Arts (AAA), Associate in Applied Science (AAS), Diplomas, and Certificates.
- Associate in Arts comprised 4,722 (31.43\%) of the total credit student awards granted during Fiscal Year 2005. Associate in Applied Science awards accounted for another 4,343 (28.91\%) of awards issued (Tables 16 \& 17).

Non-graduate program completers were omitted from the tables above. They are defined as a student who leaves a program after completing the entire sequence of occupational courses in the program, with or without fulfilling all the necessary requirements leading to a degree, diploma, or certificate. When included in the totals above they account for less than $1 \%$ of the total in each of the five years.

## Credit Student Awards by Program Majors

Credit student awards by program majors have remained fairly consistent over the past five years. All areas reflect minor fluctuations between Fiscal Year 2001 and Fiscal Year 2005. In Career and Technical Education programs, the largest number of awards are granted to Health programs; followed by Industrial Technology and Business programs.

## Section 8: Non-Credit Enrollment and Programs

## Non-Credit Reporting Changes

To ensure consistency among the 15 community colleges, the lowa Department of Education and the Adult Education Deans and Directors made a commitment to revise the Non-Credit Reporting Manual that is used to submit student and course data via the Management Information System (MIS). This process was completed with the Fiscal Year 2004 Year End Reporting Manual. A key objective was to improve the reliability of data without losing sight of the diverse educational and economic needs of each community college. For this reason, participants in the initial yearlong process of revision took special care in developing standard definitions for reporting. Changes to reporting standards affect the comparison of Fiscal Year 2004 and Fiscal Year 2005 data with previous years.

## Non-Credit Student Enrollment

Non-credit offerings range from basic skills for personal development, skill building for preparation of individuals entering the workforce, highly technical courses directly related to job skills, and offers opportunities to pursue special interests. In Fiscal Year 2005, 294,668 individuals (unduplicated students) participated in courses and programs that totaled 8,859,340.90 contact hours.

Non-Credit Student Enrollment by Program Type
Along with the revisions to the reporting manual, program type breakdowns changed greatly during Fiscal Year 2004. Due to these changes, there is only two years of comparable data available. As you can see in the chart below, about half of the enrollment in Non-Credit Programs is in the Enhance Employability/Academic Success program area. Enhance employability is defined as the intent and content of courses which are designed for the specific purposes of upgrading the skills of persons presently employed and retraining persons for new employment. Academic Success is defined as the advancement of a person's knowledge in traditional educational studies.

## lowa Course for Drinking Driving (DUI)

The lowa Course for Drinking Driving (DUI) is the state mandated 12 -hour instructional course for drinking drivers convicted of driving while under the influence of drugs and/or alcohol. Beginning Fiscal Year 2001, both Iowa Community Colleges and private providers, licensed under lowa Code, Chapter 125, through the lowa Department of Public Health, offer the state approved 12-hour program. Community college enrollments in DUI classes dropped 722 (7.04\%), from 10,259 in Fiscal Year 2001 to 9,537 in Fiscal Year 2005.

## Section 10: Performance Indicators

## lowa Community College Performance Indicators

The 2001 "Shaping the Future- a Five-Year Plan for Iowa's System of Community Colleges" included an initiative to "develop a set of agreed-upon performance indicators common to all community colleges". A Community College Performance Task Force comprised of a community college President, a trustee, the IACCT Executive Director, a chief academic officer, a reporting officer, and representatives from the Departments of Education, Workforce Development and Economic Development was formed. Recommendations were made to the Department of Education after review by the Iowa Association of Community College Presidents and the Iowa Association of Community College Trustees. In November 2003, the State Board of Education approved the following eight (8) performance indicators to be collected on an annual basis.

1. Participation in credit career and technical education programs
2. Participation in credit arts and sciences programs
3. Total participation in non-credit programs
4. The proportion of the state's adult population (18-64 years of age) enrolled in a community college course
5. The number of credit student awards
6. The number of basic skills certificates issued
7. The number of high school equivalency diplomas (GED) awarded
8. The proportion of high school credentials awarded by lowa community colleges

The State Board of Education also directed the Department of Education to continue its work with the Task Force and to continue the investigation of indicators related to economic development, persistence, and student success after leaving the community college, as well of quantifiable goals for each performance indicator.

Career and Technical Education numbers include students who are enrolled in only a Career and Technical program as well as those who have enrolled in a combination of Career and Technical, College Parallel-Career Option or Arts and Sciences program.

Iowa Department of Education, Program Year 2002-2005 Basic Literacy Skills Credential Program, Annual Report

The Adult Literacy Program enrollments were 54 percent female and 46 percent male in program year 2005. The racial/ethnic background of adult literacy program enrollments consisted of $2 \%$ American Indian, 7\% Asian, 10\% Black, 28\% Hispanic and 53\% White students. These numbers reflect gender and racial/ethnic make-up of the entire Adult Literacy Program; they do not represent specifically the Basic Skills program or the GED Program. Improvements to the collection of program completer demographic data is in progress, and will allow a gender and racial/ethnic breakdown for students receiving specific Adult Literacy Program awards in future reports.

High School Credentials include Traditional High School Diplomas awarded by a local school district. Traditional High School Diplomas make up the majority (88.87\%) of high school credentials awarded in the State of Iowa.

High School Equivalency Diplomas (GED) are presented to students who complete the General Educational Development (GED) test battery. The purpose of the GED testing program is to provide a second chance for those individuals who did not complete the requirements for a traditional high school diploma.

Adult High School Diplomas are awarded to adults (18 years of age) after completion of a prescribed program of instruction at one of lowa's Community Colleges; The Adult High School Diploma is viewed as an alternative to the GED based Iowa High School Equivalency Diploma.

## Section 11: Success of Community College Students

## Community College 3-year Award Rate

Students who enrolled at a full-time capacity ( 24 credit hours) and for the first-time during a given fiscal year are included in a cohort of students who are tracked through the MIS system to determine if they receive an Iowa Community College award within a three year period. The last four cohorts have ranged from $41.65 \%$ to $39.71 \%$ 3-year award rates.

## Four-Year Graduation Rates of Transfer Students (by sector) to Regent Universities for the for the Entering Class of 2000

The four-year graduation rates for transfer students to the Regent Universities are shown in Table 34 below. Iowa community college transfer students to the Regent Universities whom have earned an AA Degree have a much higher graduation rate than those who did not earn an AA Degree. Community College transfer students at ISU and UNI have a higher graduation rate than the overall graduation rate, with SUI community college transfer students being slightly below the average graduation rate.

## Students Entering lowa Community Colleges with the General Education Development (GED) High School Award

Per the Management Information System, of the Fiscal Year 2005 unduplicated credit enrollment of 120,217 students, 6,124 (5.09\%) individuals identified a high school award type of GED. Full-time students totaled 33,910 and 1,960 (5.78\%) of that total were individuals who had attained a GED prior to enrolling in Iowa Community Colleges, according to the Management Information Systems (MIS). A student is considered full-time if he/she is enrolled in 24 or more credit hours per year. Indian Hills Community College utilizes quarters rather than semesters making their full-time students those with 16 or more credit hours per year.

## College Expenses for Students by Source

Residents of the State of lowa pay a reduced tuition and fee compared with non-residents. As Figure 7 illustrates, Community College Students, regardless of residency, incur less expenses than an average lowa undergraduate during Fiscal Year 2004. The total expenses for a community college resident are $\$ 10,283$, with the total expenses for an average lowa undergraduate resident being $\$ 20,302$, or almost double. The same holds true for students who are non-residents. Community college non-residents incur approximately $\$ 11,768$ in expenses, while the average lowa undergraduate non-resident incurs \$21,259.

## Geographic Location of Alumni

Iowa's Community Colleges are known for keeping their alumni in the state of lowa. 83.10\% of Community College alumni continue to reside in Iowa; this compares with a $40.00 \%$ rate for all of lowa's colleges and universities. This represents a drop from $84.11 \%$ reported in 2003. These numbers represent all known living alumni.

## Section 12: Adult Literacy Program

Iowa's Adult Literacy Program is delivered through lowa's system of 15 community colleges. Adult Literacy Program is defined as a program of instruction designed for adults who lack competence in reading, writing, speaking, problem solving or computation at a level to function in society, on a job, or in a family.

## Highlights of the Program Year 2005 Adult Literacy Program accomplishments:

- $72 \%$ of the enrollees who indicated their program goal was to obtain employment achieved that goal.
- $87 \%$ of the enrollees who indicated their program goal was to retain employment achieved that goal.
- $85 \%$ of the enrollees who indicated their program goal was to obtain a GED or adult secondary school diploma achieved that goal.
- $54 \%$ of the enrollees who indicated their program goal was to enter postsecondary education or training achieved that goal.
- The most significant educational benchmark gains were observed for the English-as-a Second Language instructional program.
- $\quad 90 \%$ (9 of 10) educational gains benchmarks met or exceeded the negotiated benchmark levels.
- Ninety percent (90\%) of Iowa's adult basic education learners are between the ages of 16-44 (17\% between 16-18; 33\% between 19-24; and 40\% between $25-44$ ).
- Adult literacy program enrollment by gender is $46 \%$ male and $54 \%$ female.
- Minority populations represented $47 \%$ of the total served in lowa's adult literacy program.

## Section 13: Economic Development

Training and retraining programs delivered by lowa Community Colleges, monitored by the lowa Department of Economic Development, and reported on the Management Information System (MIS), are separated into three areas. The areas include lowa Industrial New Jobs Training Programs (260E), Iowa Jobs Training Programs (260F), and Accelerated Career Education - ACE (260G). Community college reports are based on fiscal year, while economic development program timeframes may be up to 10 years.

Iowa Industrial New Jobs Training Programs (260E) assist businesses that are creating new positions or new jobs in the State of lowa. The community college district in which the new or expanding business is located issues training certificates (bonds) to pay for the training costs. Flexible funding may be utilized to meet a variety of training and employee development needs.

## Section 14: Apprenticeship Programs

## Apprenticeship Programs

Apprenticeship programs utilize the most up-to-date technologies that are available in the workplace. The Bureau of Apprenticeship and Training must approve all apprenticeship projects funded through the Iowa Department of Economic Development. This section includes apprenticeship programs funded through Iowa Department of Economic Development (IDED) as well as those apprenticeship programs that were not funded through IDED.

Overall total participation in apprenticeship programs is decreasing from 4,394 students in Fiscal Year 2001 to 3,022 in Fiscal Year 2005; a decrease of 31.22\% over the last five years.

## Section 15: Human Resources

## Community College Employees

Employees of lowa Community Colleges, as reported on the Management Information System (MIS) for Fiscal Year 2005, total 13,711, which includes Administrative, Instructional, Professional, Secretarial \& Clerical, and Service. Some employees are included in more than one reporting category, for example an administrator may also teach a course. Therefore, the total number of individuals working at community colleges is 12,298 and 1,413 less than the number of positions. The Management Information Systems (MIS) data does not include employees teaching only non-credit courses for community colleges.

## Employee Positions

Fiscal Year 2005 reports Full-Time positions of 5,068 (36.96\%), Part-Time 2,855 (20.82\%), Temporary/Seasonal 574 (4.19\%), and Adjunct 5,214 (38.03\%). Of the total 13,711 positions, Administrative total 136 (0.99\%), Instructional 7,552 (55.08\%), Professional 2,287 (16.69\%), Secretarial \& Clerical 2,163 (15.77\%), and Service 1,573 (11.47\%).

## Employee Racial/Ethnic Background

The number of employees has increased from Fiscal Year 2001 to Fiscal Year 2005 in all racial/ethnic groups, with minority employees increasing more rapidly than White. American Indian employees have increased 17.39\%; Asians have increased 14.52\%; Blacks have increased 49.07\%; Hispanics have increased $56.31 \%$ and Whites have increased $5.19 \%$. This is also illustrated in Tables 47 and 48, where you can see that the total number of Whites has increased, however, the percentage they comprise of the total has decreased. As shown in Table 59, the minority employee population is growing, with the black employee population growing the most in employees with a growth of 79 employees since Fiscal Year 2001 and Hispanic employees growing at the fastest percentage, 53.31\% since Fiscal Year 2001.

## Full-Time Equivalent Enrollment (FTEE)

The Full-Time Equivalent Enrollment (FTEE) calculation is utilized when determining State General Aid. Due to timing of the calculation to meet lowa Legislative deadlines, the enrollment used to calculate State General Aid is two years behind the year of the aid (i.e., Fiscal Year 2005 enrollments are used to calculate Fiscal Year 2007 State General Aid). Twenty-four (24) credit semester hours equals one FTEE, while 600 non-credit contact hours equals one FTEE. As Figure 12 shows, the proportion of FTEE generated by non-credit contact hours has decreased over the past five years.

Over the past five years (Fiscal Year 2001 to Fiscal Year 2005), the portion of Full-Time Equivalent Enrollment (FTEE) generated by Non-Credit enrollments have decreased from $22.29 \%$ in Fiscal Year 2001, to $14.27 \%$ in Fiscal Year 2005.

## State General Aid Appropriations

The appropriations request consists of two components, the appropriations base and the new State General Aid. Both are driven by the current and projected costs of operations. The appropriations request recommendation seeks: 1) a rolling appropriation base equal to the previous year's appropriation 2) an increase in State General Aid equal to 75 percent of the adjusted general operating fund (adjustments approved in the Community College Funding Report submitted to the Legislature January 1998) and multiplied by the allowable growth factor for K-12 schools, as established by the Iowa General Assembly.

Once the appropriation to the community colleges has been determined, the allocation to each community college is calculated utilizing the state general aid distribution formula. The distribution formula was changed effective with the Fiscal Year 2006 appropriation. There are 6 main components to the distribution formula, with the order of the components changing due to the rate of inflation. The components are as follows:

Step 1 - Base Funding Allocation - The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.
Step 2 - Marginal Cost Adjustment - After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college's allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

Step 3-3-Year Rolling Average Full-Time Equivalent Enrollment - If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

Step 4 - Extraordinary Growth Adjustment - An amount up to an additional one percent of the base funding allocation shall be distributed as follows:
(a) Forty percent of the moneys shall be allocated based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.
(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college's eligible growth support bears to the total growth support amount. Once the moneys allocated under this subparagraph subdivision equal the total growth support amount, the remaining moneys allocated under this subparagraph shall be allocated as provided in subparagraph subdivision (a).

Step 5 - Additional 3-Year Rolling Average FTEE Allocation - Distributed based upon each college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.
Step 6 - Inflation Adjustment - An amount up to the inflation adjustment amount shall be distributed to each community college in the same proportion as the allocation of general state financial aid each community college received in the base year.

The sequence that the six components follow depends on the inflation rate. If the inflation rate is equal to two percent or less, the steps would be in the order of Step 1, Step 2, Step 3, Step 4, and Step 5. If inflation is greater than two percent but less than four percent, the steps would be in the order of Step 1, Step 2, Step 3, Step 4, Step 6, and Step 5. If inflation is equal to or exceeds four percent, the steps would be in the order of Step 1, Step 2, Step 3, Step 6, Step 4, and Step 5.

## Fiscal Year 2006 State General Aid Appropriations

The Fiscal Year 2006 State General Aid appropriation from the lowa General Assembly for the 15 Iowa Community Colleges totals $\$ 149,579,244$, an increase from the previous fiscal year total of \$9,800,000 (7.01\%).

## State Funding for Iowa Students

Table 69 presents state funding per student at community colleges, state universities, and private colleges in lowa. For Fiscal Year 2005, state funding per community college student totaled \$1,809, a decrease of $\$ 49$ (2.64\%) from Fiscal Year 2004; state funding per state universities' students equals $\$ 10,039$ an increase of $\$ 141$ (1.42\%), and private colleges is $\$ 2,936$, an increase of $\$ 107$ (3.78\%). State funding per student is estimated to increase for community colleges, state universities and private colleges in Fiscal Year 2006.

## State General Aid Increase Compared to Community College Salary Increase

State General Aid has not increased at the same level as expenditures have increased. Fiscal Year 2000, Fiscal Year 2001, Fiscal Year 2003, and Fiscal Year 2005 had increases in State General Aid and Salary Expenses. During these fiscal year's, Salaries increased more rapidly than State General Aid. In Fiscal Year 2002, State General Aid decreased $6.77 \%$ while Salary Expense increased 2.13\%. In Fiscal Year 2004, State General Aid decreased 1.77\% while Salary Expense increased $7.48 \%$. See Table 69 for a comparison of Salary Expense and State General Aid.

## Section 17: Tuition and Fees

## Costs to Students

There is a direct relationship between state support to lowa Community Colleges and the cost of Tuition \& Fees charged to the student. As the level of State Support decreases, community colleges have instituted increases in student tuition and fees. Over the past several years, State Support has decreased from $49.51 \%$ of total revenues in Fiscal Year 1980 to $35.87 \%$ of total revenues in Fiscal Year 2005. During this same time period, Tuition \& Fees increased from 24.39\% of total revenues in Fiscal Year 1980 to $49.27 \%$ of total revenues in Fiscal Year 2005 (Source - Table 6: General Operating Fund Revenues by Source as a Percentage of Total Revenues, 2005-2006 Academic Year, Iowa Community Colleges, Tuition and Fees Report).

Fees at lowa Community Colleges range from no separate fee to a substantial portion of the cost of enrollment. In Academic Year 2005-2006, fees ranged from $0.00 \%$ of the Tuition \& Fees charged up to $18.22 \%$ of the total charges for a 15 -hour semester ( $\$ 675.00$ in fees from a total tuition and fees charge of $\$ 3,705.00$ ).

Academic Year 2005-2006 tuition increased $5.89 \%$ at Iowa Community Colleges, while increasing $4.00 \%$ at lowa Regent Universities, as presented in Table 71.

## National Average Community College Tuition and Fees

Table 74 and Figure 13 are data from The Chronicle of Higher Education, Almanac Issue 2005-2006. This report provides the most recent national higher education tuition data available. The information will differ from the previous section as The Chronicle of Higher Education data is based on data supplied to the U.S. Department of Education and includes student fees. Iowa Department of Education tables are based on information provided and verified by lowa Community Colleges to the Bureau of Community Colleges.

Iowa Community Colleges average tuition and fees are $60.84 \%$ above the National average tuition and fees during Fiscal Year 2004. This is down from Fiscal Year 2003, when lowa Community Colleges average tuition and fees were $73.02 \%$ above the National average tuition and fees.

## Section 18: Financial Aid

The Chronicle of Higher Education, Almanac Issue 2004-2005 reports that the State of lowa spends a total of $\$ 48,838,000$ on student aid for need-based students, $\$ 447,000$ on student aid for non-needbased students, and $\$ 2,961,000$ on non grant student aid. All of the following information in this section is from the Iowa College Student Aid Commission.

## Distribution of Student Aid for Students- By Source

As Table 75 indicates, community college students received $20.8 \%$ of all student federal aid funds granted to students in lowa's Postsecondary Institutions. In total, community college students received $13.5 \%$ of all student aid to lowa students during Fiscal Year 2004, including scholarships, grants, and loans. This is an increase in total percent of 0.7\% over Fiscal Year 2003.

# Section 19: Glossary 

| Term |  |
| :--- | :--- |
|  | Glossary |
| Adult High School Diploma | A program of instruction designed for an 18 year old or <br> older individual that culminates in a Community College <br> Adult High School Diploma. Courses are set at a length of <br> 60 contact hours per course, with a maximum of 5 courses <br> per semester. |
| Alternative High School | An established environment within or apart from the <br> regular high school with policies and rules, educational <br> objectives, staff and resources designed to accommodate <br> student needs, and to provide a comprehensive high <br> school education consistent with the goals established by <br> school districts in the area. Whether or not an individual <br> student may choose to attend an alternative school may <br> be limited by court order or by approval of the local school <br> district. Community colleges may establish and operate <br> alternative high schools for secondary school districts on a <br> contractual basis. Students are not eligible for <br> postsecondary State General Aid unless such students <br> are taking courses above and beyond the defined <br> programs for high school completion. |
| Apprentice | A person at least 16 years of age except where an older <br> minimum age standard is established by law) who enters <br> into any contract of service registered with the appropriate |
| apprentice agency. An apprentice receives instruction |  |
| from his or her employer in an apprenticeship approved |  |
| occupation. |  |

|  | Glossary |  |
| :---: | :---: | :---: |
|  | Term | Definition |
|  | Associate in Applied Arts (AAA) \& Associate in Applied Science (AAS) Degrees | The degree awarded for satisfying the curriculum requirements and demonstrated competence for employment in the occupational field for which the program was designed. Typically, these degrees apply to occupations requiring significant amounts of applied scientific and mathematical knowledge. These degrees require a minimum of 60 semester credit hours ( 90 quarter hours) in length with a minimum of 12 semester credit hours (18 quarter hours) of general education. Programs awarding these degrees shall not exceed 19 semester credit hours per term ( 28.5 quarter hours) and shall not exceed 86 semester credit hours (129 quarters hours) in length. |
|  | Associate in Arts (AA) \& Associate in Science (AS) Degrees | The degrees awarded for satisfying the curriculum requirements of arts and science courses designed as college parallel programs transferable as the first two years of a baccalaureate degree. These programs are referred as college parallel/liberal general studies/college transfer. They include a minimum of 60 semester credit hours ( 90 quarter hours) of credit courses designed and acceptable for transfer with the understanding that 16 semester hours (24 quarter hours) of career/technical courses could be included in the total. |
|  | Associate in General Studies Degree (AGS) | The degree awarded for satisfying the curriculum requirements of a two-year program other than set forth in 281 Iowa Administrative Code 21.2(10) associate of arts or science. The degree requirements are flexible for individual students, not intended for transfer, and include a minimum of 60 semester credit hours ( 90 quarter hours). |
|  | Leisure/Recreational | Courses that provide instruction in leisure, recreation, casual culture, wellness, and/or self-enjoyment subjects. |
|  | College Parallel/Liberal General Studies/College Transfer | See Associate in Arts (AA) \& Associate in Science (AS) Degrees. |
|  | College Parallel/Career Option Program (CP/CO) | AS or AA degree programs designed as the first two years of transfer credit toward a baccalaureate degree in a specific occupational area which includes a minimum number of skill development courses for immediate employment. Students have a choice of articulating their program to a four-year institution for completion of a baccalaureate degree or seeking employment in curriculum designed occupation or a related field. |
|  | Certificate | The award for satisfying the curriculum requirements of an activity, course, and/or program other than one that is intended for a diploma or a degree. Certificates can be awarded for credit and non-credit offerings. |
|  | Continuing Education Unit (CEU) | A uniform unit of measurement given by a college for noncredit activity, course, and/or program. One continuing education unit (CEU) equals 10 contact hours (based on one 50-minute classroom hour) of participation in an organized education experience. |
|  | Contact Hour | The computation of minutes given for an instructional activity. The minimum requirement of one contact hour is 50 minutes. |

| Germ |  |
| :--- | :--- |
| Glossary  <br> Credit A unit of measure/recognition given by a college for the <br> completion of an activity, course, and/or program <br> recognized by higher education. It accounts for <br> instructional activity in standards terms of rationalization of <br> collegiate requirements related to transferability. <br> Credit Hour The computation of a single hour of class time per week <br> occurring over a defined instructional period (term). An <br> hour is referred to as 50 minutes to equal one credit hour <br> of instruction, with requirements stated as semester <br> minimums. <br> Classroom shall be 800 minutes (533 minutes for one <br> quarter hour) of scheduled instruction plus, when  <br> applicable, a scheduled culminating activity.  <br> Laboratory shall be 1,600 minutes (1,066 minutes for one  <br> quarter hour).  <br> Clinical practice shall be 2,400 minutes (1,599 minutes for  <br> one quarter hour).  <br> Cooperative/work experience shall be 3,200 minutes  <br> (2,132 minutes for one quarter hour).  |  |
| Developmental Education | A non-college transfer course designed to provide <br> assistance (remedial instruction) to an individual so they <br> can successfully complete the regular courses in their <br> program of study. |
| Diploma | The award granted for satisfying the curriculum <br> requirements of a program that consist of a minimum of 15 <br> semester credit hours (22 quarter hours) with the general <br> education component consisting of a minimum of 3 3 |
| semester hours (4 quarter hours). |  |

|  | Glossary |  |
| :---: | :---: | :---: |
|  | Term | Definition |
|  | Human Resources | Community college employees are classified according to position and assignment codes. The staff is usually classified as administration, instructional/faculty, professional, secretarial/clerical, and service. <br> A full-time faculty/instructor is classified full-time according to the college's definition and whose regular assignment is instruction (more than 50\%), including those with released time for research. Also included are full time instructional faculty on sabbatical leave, full-time replacements for instructional faculty on leave without pay, and chairs of departments (if they have no other administrative title and hold a full-time faculty rank). <br> A part-time faculty/instructor is classified part-time according to the college's definition and who is employed less than full-time (see above definition). <br> An adjunct faculty/instructor is when a person has an occasional or temporary affiliation with an institution or another faculty member in performing a duty or service in an auxiliary capacity. <br> Temporary/Seasonal includes individuals who are employed by the college for short-time periods for specific purposes. Such an employee may be full or part-time and often are not provided benefits. |
|  | Jointly Administered Program | A program entered into by two or more educational institutions to provide instructional or administrative services jointly, to the mutual advantage of the constituents of each institution. |
|  | Non-Credit | Non-Credit offerings cover a wide range of activities, courses, and programs usually for the adult population. They are recognized for their ability to provide offerings in non-traditional lengths and delivery methods, as well as special "packaging" for individuals and business/industry. |
|  | Preparatory Program | Preparatory programs are designed to provide the specific skills and knowledge essential for successful entry into an occupation following completion of a designated curriculum. These programs may be for credit and/or noncredit depending on the intent and requirements of the curriculum. <br> Full-time programs operate on the average of 15 credit hours per term and at least two terms in length. <br> Part-time programs operate on the average of less than 15 credit hours per term and at least two terms in length. Short-term programs are less than 22 credit hours in length. |
|  | Secondary High School Diploma | Courses provided by community colleges for secondary credit toward a high school diploma granted by a local secondary school district. |

| Glossary |  |
| :--- | :--- |
| Term | Definition |
| Student | A full-time student is one who enrolls for 12 or more <br> semester credit hours (18 or more quarter hours) in the <br> most recent regular term of enrollment. <br> A part-time student is one who enrolls for less than 12 <br> semester credit hours (18 quarter hours) in the most <br> recent regular term of enrollment. <br> Appropriate adjustments for length of summer term are to <br> be used if the student has not attended a regular term <br> during the academic year. <br> The above definitions are used for uniform state reporting, <br> however community colleges often define full-time and <br> part-time enrollments according to independent local <br> criteria. <br> College Student Aid Commission's full-time definition is a <br> student enrolled for 12 or more semester credits, 12 or <br> more quarter credits, or 24 contact hours a week each <br> term. |
| Tech Prep Program | A program that combines at least two years of secondary <br> education and two years of postsecondary education in a <br> non duplicate sequential course of study, integrates <br> academic and career/technical courses, and leads to an <br> associate degree and/or an occupational certification in a <br> high skill, high wage occupation or further education. |
| Tech Prep Postsecondary Student | A student who has completed the courses required at the <br> secondary level (both academic and technical courses) <br> and is enrolled in the postsecondary portion of the same 2 <br> plus 2 program. |

Notes:
1 Includes only property tax generated by the school aid formula and included in combined district cost. It is assumed shortfalls due to the $2.5 \%$ across-the-board reduction will be offset by property tax (Cash Reserve Levy). Property Tax funding is overstated to the extent school districts cut expenditures rather than offset the reduction with property tax. State funding includes General Fund amounts after the 2.5\% across-the-board reduction and partial restoration of the reduction. State Foundation Aid funding to the Department of Human Services is not included.Enrollment includes all full-time campus students (lowa residents and nonresidents) Property tax for community colleges includes only the estimated proceeds from the 20.25 cent operating levy.Includes Board operation, tuition replacement, and general university line-items.
