**TITLE** Career Exploration, Level 2. Career-Centered Curriculum for Vocational Complexes in Mississippi.

**INSTITUTION** Jones County School District, Laurel, Miss.; Mississippi State Dept. of Education, Jackson. Div. of Vocational and Technical Education.

**SPONS AGENCY** Bureau of Adult, Vocational, and Technical Education (DHEW/OE), Washington, D.C.

**NOTE** 179p.; For related documents see CE 003 131-134; For the final report see ED 091 605

**EDRS PRICE** MF-\$0.76 HC-\$9.51 PLUS POSTAGE

**DESCRIPTORS** Behavioral Objectives; Career Choice; \*Career Education; Consumer Education; \*Curriculum Guides; Decision Making Skills; Educational Objectives; \*Grade 9; Instructional Materials; Multimedia Instruction; \*Occupational Clusters; Occupational Information; Resource Guides; Resource Materials; Secondary Education; Self Actualization; State Curriculum Guides; Vocational Development; Vocational Education

**IDENTIFIERS** \*Career Exploration; Learning Packages

**ABSTRACT**

Intended for the ninth grade, the level 2 career exploration curriculum guide focuses more closely on occupational clusters that have been selected by the student on the basis of interests, aptitudes, and abilities. Orientation to decision making acquaints the student with factors to consider when making more definite career choices. Units based on instructional goals include: (1) increased self-awareness, (2) educational and career planning, (3) indepth study of an occupational interest, (4) simulated work experiences, and (5) information regarding employability skills. Instructional objectives for each unit are written in behavioral terms; learning experiences and resources are directly related to objectives. Resource guides accompany each unit and include transparencies, cassette tapes, manuals, and books. Making up a significant portion of the document, the appendix offers: (1) 72 pages of teaching aids, including a glossary, questionnaires, checklists, sample forms, and supplementary teaching materials; (2) an individualized learning package for consumer education; and (3) an annotated multimedia resource directory of career guidance materials. ## **FOREWORD**

Education in America today appears to be headed into one of the most exciting eras in educational history. A primary reason for this is the apparent desire of educational leaders for common sense change. This educational leadership spans the entire breadth of educational levels from the local to the national. At last, those who have the power to influence change are responding to the frustrations, as well as to the dreams of education's benefactors.

For too long the school curriculum has been dominated by those who have held a rather limited view as to what constitutes an educated person. The result has been a curriculum embracing a long string of "minuses" for its contribution to skill training which leads directly to employment. Even the "muffled" voices of those who have applauded such education have conversely sounded a strange attitude that it is for "someone else's children."

Hopefully, we have now reached a level of educational maturity which practices the concept that "there is dignity in work." When we have reached this pinnacle of educational maturity, teachers at all levels will be willing to take a new look, as they must, at their subject area fields. After having done so, they can be expected to do some "plowing-up" and "resowing" with new and exciting methods, techniques, and media. This means a change in thinking so that preparation for a career becomes accepted as one of the clear and primary objectives of our system of education.

This compilation of ideas, activities, and other information has been done with the desire and hope that it can serve a useful purpose in the hands of classroom teachers, counselors, career education leaders, and school administrators. It represents the results of a rather extensive effort to incorporate a career education concept into a massive public school system.

J. H. McMinn, Coordinator  
Research, Curricula & Teacher Education  
Division of Vocational-Technical Education

## **ACKNOWLEDGMENTS**

The compilation of this Curriculum Guide for Career Education was made possible by contributions from numerous individuals. Deep appreciation is offered to all contributors for their time, effort, and talents to make this publication possible. Special acknowledgment is extended to the following:

**The Mississippi State Department of Education**

**The Board of Education of Jones County**

**The administrative, guidance, and teaching staff of the Jones County school system**

**The parents and students of Jones County**

**The Division of Vocational and Technical Education of the Mississippi State Department of Education**

**The Division of Instruction of the Mississippi State Department of Education**

**The evaluators on the state, regional, and national levels**

**The Research Coordinating Unit and the Curriculum Coordinating Unit at Mississippi State University**

**The Guidance Department at the University of Southern Mississippi**

**The resource guests who visited the Jones County Exemplary Program**

## **PHILOSOPHY OF CAREER EXPLORATION**

**Career development is a segment of human development. Career development encompasses many roles that individuals play in life as they go through the process of developing and implementing a self-concept. Exploration of self in relation to education, career pursuits, leisure, understanding, and communicating with others is a vital need of most students during their pre-teen and early teen years. It is upon this premise that we endeavor to unify curriculum systematically and comprehensively.**

**The intervention of the Career Exploration stage, between the Career Awareness and Career Preparation phases, provides a continuity of progression toward the education of the whole individual. To offer educational programs in the Career Exploration phase that will stimulate students to examine and assess a tentative career hypothesis through learning experiences inside and outside the classroom is a major aim of the Career Exploration phase. Emphasis should be on a broad range of career exploration, using this phase as a vehicle for helping students test present achievements and goals, modify their own behavior, and focus on life as being purposeful and goal-oriented.**

# Career Education

## **INTRODUCTION**

The Career Exploration phase of career education is one segment of the total instructional program in the Jones County, Mississippi, school system. The function of the Career Exploration program is to introduce students to the world of work through simulated laboratory and real life experiences, and to encourage exploration of self in relation to academic and vocational education.

Career Exploration normally extends from grade 7 to grade 10; but under some conditions and for some students, this phase may be extended to grade 12. There are three sub-stages within the Career Exploration phases. In grades 7 and 8, clusters of careers are explored on a very broad basis. In grade 9, career exploration narrows to fewer clusters that have been selected by the student on the basis of interests, aptitudes, and abilities. These clusters are explored in greater depth than were the 7th and 8th grade clusters. In the 10th grade, the student attempts to identify a single career cluster that he wishes to explore in depth. The academic disciplines, science, math, language arts, and social studies, are fused into the career cluster in such a way that the student will see a relationship between the academic courses and a future career.

Students are rotated through six 6-week units of instruction. These units are: (1) Introduction to Career Exploration; (2) Industrial and Related Occupations; (3) Public Service Occupations; (4) Diversified Occupations; (5) Production, Distribution and Management Occupations; and (6) Evaluation and Planning. The instructional staff effectively utilizes innovative methods and techniques, equipment, materials, multimedia, and human resources to motivate the students and to enrich the teaching/learning situation. A program of work for each unit or area is planned and implemented by a different teacher. Instructional objectives for each unit are written in behavioral terms; learning experiences are directly related to the objectives. Evaluations are based on expected outcomes stated in the objectives. Continuous self- and post-evaluations aid teachers in measuring the behavioral changes taking place in the students, as well as the need for revision or change in instructional content, methods, or techniques. Frequent in-service training programs keep teachers and administrators aware of new concepts of instruction in the field of education. Resource people from business and industry also contribute to these in-service programs.

Constant research by the administrators and the instructional staff keeps them aware of the constant changes and the rapid progress occurring in the educational field and in the world of work. Throughout the Career Exploration phase, a comprehensive guidance and counseling program assists students in attempting to discover their interests, aptitudes, and abilities. The guidance and counseling program also assists students when personal and emotional problems arise, and assists teachers in their planning, preparation, and implementation of activities. Both group guidance and individual counseling have proved to be useful approaches in assisting with the Career Exploration phase. Placement, follow-up and other services of the guidance program give deeper insight into the needs of present and future students.

The administrators and teachers who implemented the Career Exploration program are interested in and concerned about the career or self-development of the student and

have contributed tremendously to the success of the program. The valuable help contributed by the entire school system and the community during this vital and pervasive aspect of the lives of students during this Career Exploration phase will influence the future career or self-development of the students.

## **EDUCATIONAL GOALS**

- 1. Given access to knowledge and information related to careers, students in grades 7-12 will explore career opportunities and will consider career choices as prerequisites to making meaningful decisions when determining future careers.**
- 2. Students will investigate and attempt to assess a tentative career hypothesis through group and individual counseling.**
- 3. Students will attempt to identify personal interests, aptitudes and abilities through participation in a comprehensive testing program.**
- 4. Students will utilize individualized instruction and will select and participate in "hands-on" learning experiences that are related to their interests and are commensurate with their aptitudes and abilities.**
- 5. Students will identify economic benefits that may be derived from academic education, skill training, and personal improvement, by comparing and contrasting career descriptions presented by human and multimedia resources.**
- 6. Students will indicate a feeling concerning the honor and dignity in work after critiquing presentations made by resource persons from businesses, industries and professions.**
- 7. Students will explore self as a segment of human development and as a segment of career development by utilizing classroom experiences, field experiences, group and individual counseling, and multimedia resources.**
- 8. Through "hands-on" experiences, students will demonstrate that the integration of career development through curriculum in academic and vocational subject matter areas may contribute to more satisfactory career choices.**

career  
exploration  
level II

## **Introduction**

**Level II of the career exploration phase of career education serves as a link in the gradual process of career choice. This level involves the acquisition of self-understanding and additional knowledge of the world of work. Ninth grade students are encouraged to experiment with their interests and abilities, to participate in a variety of activities or experiences that may indicate a tentative pre-career choice. These experiences may also indicate an elimination of previous career interests. Orientation to decision making acquaints the student with factors to consider when making more definite future career choices.**

## **Instructional Goals**

- 1. The student will increase knowledge and understanding of self-awareness.**
- 2. Following the study of occupations in Level I of the Exploratory Phase, the student will begin educational planning and/or career planning.**
- 3. The student will conduct in-depth studies in occupations related to his interest area.**
- 4. The student will acquaint himself with the American Economic System and relate it to his future career development.**
- 5. The student will be given an opportunity to function in simulated work experiences.**
- 6. The student will acquire information regarding employability skills.**

# ***self-awareness***

**Instructional Goal I – The student will increase knowledge and understanding of self-awareness.**

BEHAVIORAL OBJECTIVE	ACTIVITIES	RESOURCES
<p>1. After participating in a variety of activities, the student will orally state and will demonstrate by performance his understanding and acceptance of self.</p>	<ol style="list-style-type: none"> <li>1. Listen to record, "I've Got to Be Me." Students are asked to react to the record by orally stating what the lyrics meant to them.</li> <li>2. Each student will bring a childhood picture to be placed under an opaque projector and viewed by the class. The class will attempt to identify each student, compare and contrast physical changes.</li> <li>3. Each student will identify a favorite article of his childhood and explain orally the sentimental value attached to the article.</li> <li>4. Each student will bring pictures of teenage idols to be displayed in the classroom. Brainstorm to suggest meaningful slogans of today.</li> <li>5. View, "The Adolescent Experience." Discuss, "Reflections of Myself: The Adolescent Experience."</li> <li>6. "Tell-A-Thon"  "Be thankful" about self. Participants will include a Master of Ceremonies and at least five guests to be chosen from the class.</li> <li>7. "Roleplay"  "This is Your Life."</li> </ol>	<p>Record: "I've Got to Be Me"</p> <p>Childhood pictures</p> <p>Sound Filmstrips: "The Adolescent Experience: Shaping Identity"</p>

**Instructional Goal I**

<b>BEHAVIORAL OBJECTIVE</b>	<b>ACTIVITIES</b>	<b>RESOURCES</b>
	<p>Use in-basket technique – list each student’s name on separate slips of paper and place in a box. Draw one name from the box and proceed with “This is Your Life.” Students will find all possible identifications from early childhood until today that will help to establish awareness and uniqueness of self. These items will be compiled into a scrapbook patterned after “This is Your Life.” The title will be unique with each student. The scrapbook will be a continuing project that will lead into developing a resume.</p> <p>8. Have each student choose the statement that most nearly tells why he is in school. Ask the student to explain orally why he chose this statement.</p> <p style="text-align: center;"><b>Why Am I In School?</b></p> <ol style="list-style-type: none"> <li>1. To learn basic skills.</li> <li>2. To learn how to learn.</li> <li>3. To learn how to become a useful citizen.</li> <li>4. To prepare to support myself and my family.</li> <li>5. To give myself a wider selection when I choose a career.</li> <li>6. To gain greater economic security.</li> <li>7. To gain personal satisfaction.</li> <li>8. To prepare myself for an occupation and/or higher education.</li> <li>9. To increase my feeling of “belonging.”</li> </ol>	

**Instructional Goal I - (continued)**

BEHAVIORAL OBJECTIVE	ACTIVITIES	RESOURCES
<p><b>2. Students will participate in self-evaluation by reading, discussing and performing suggested activities in Finding Your Orbit.</b></p>	<p><b>10. To improve my social relationships.</b>  <b>11. Other reasons.</b></p> <p><b>9. "The Crystal Ball Tells All"</b>  A fortune teller will predict at least three events that will come to pass in the near future. Stress the fact to each student that this is "Your" year. Ask the question: What do you want to make of your year?  This will be a lead-in to letting the students set their goals or objectives for the course.</p> <p><b>10. View and discuss filmstrip, "Values for Teenagers: The Choice is Yours."</b></p> <p><b>11. View and discuss filmstrip, "Preparing for the World of Work."</b></p> <p><b>12. Have students work through Finding Your Orbit. Complete "Summary Sheets" for Finding Your Orbit.</b>  Activities are listed on pages 1 – 46. Follow directions stated by the teacher.</p> <p><b>13. Have student fill out questionnaire on "How I See Myself."</b></p> <p><b>14. Have student complete their Personal Interest Inventory.</b></p> <p><b>15. View and discuss filmstrip, "It's Your Future."</b></p>	<p>Counselor or other outside person</p> <p>Goals: See Appendix A (Pages A-52 – A-54)</p> <p>Filmstrip:  "Values for Teenagers: The Choice is Yours"</p> <p>Filmstrip:  "Preparing for the World of Work"</p> <p>Pamphlets:  <b>Finding Your Orbit</b>  <b>Finding Your Orbit Summary Sheets</b></p> <p>Filmstrip:  "it's Your Future"</p>

**Instructional Goal I – (continued)**

<p><b>BEHAVIORAL OBJECTIVE</b></p>	<p><b>ACTIVITIES</b></p>	<p><b>RESOURCES</b></p>
<p><b>3. The student will analyze his abilities, interests, personal traits and needs as objectively as possible by using the Sextant Series.</b></p>	<p><b>16. Have student fill out filmstrip survey sheet.</b></p> <p><b>17. Have students fill out questionnaire on "What Do You Like To Do?"</b></p> <p><b>18. Have students fill out questionnaire on hobbies and activities.</b></p> <p><b>19. View and discuss filmstrip, "Providing Information on the Basic Interest of the Student."</b></p> <p><b>20. Have students profile their interest areas according to their test results.</b></p> <p><b>21. Explain the Sextant Series by showing transparencies.</b></p> <p><b>22. Divide students into groups of five. Have each student fill out a Wilkinson Profile Form. Upon completion, students will compare profiles.</b></p> <p><b>23. Divide students into groups of two. Give each group a volume of the Sextant Series to use in researching careers. Instruct students to read the forward, explanation of career area, and organizational chart. Compare individual profile with job profile.</b></p> <p><b>24. Suggest that students conduct "follow-up" research by obtaining additional information from resources in the guidance library with assistance from the Counselor.</b></p>	<p><b>See Appendix A (Pages A-11 – A-12)</b></p> <p><b>Filmstrip: "Providing Information on the Basic Interest of the Student"</b></p> <p><b>Vocational Preference Test, Kuder Form E</b></p> <p><b>Sextant Series Unit I</b></p> <p><b>Wilkinson Profile Form</b></p>

# *planning*

**Instructional Goal II – Following a study of occupations in Level I of the Exploratory Phase, the student will begin educational planning and/or career planning.**

BEHAVIORAL OBJECTIVE	ACTIVITIES	RESOURCES
<p>1. The student will explore course offerings and educational facilities that relate to his career interests by writing for information, interviewing graduates, and making field trips to businesses and industries that employ graduates. He will record his findings and report these to classmates with similar interests.</p>	<p>1. Have each student identify an occupational area of interest and choose three careers within this area that he prefers to search for job preparation information. Use the following guide to explore each career:</p> <ul style="list-style-type: none"> <li>a. Career name</li> <li>b. Other names often used to describe this career</li> <li>c. Reasons for selecting this career</li> <li>d. Have each student write a description of how he decides to select his career area to explore on a 3" x 5" card. Divide into groups. Compare and discuss ways decisions are made. Choose one group member to report results of the discussion to the class.</li> <li>e. Have each student outline a two-year secondary program that will best prepare him for furthering his career interest.</li> </ul>	<p>Secondary Area Vocational Schools</p> <p>Post-secondary Vocational-Technical schools</p> <p>Private schools of nursing and cosmetology</p> <p>Businesses, industries and professions that offer on-the-job training.</p> <p>Armed Forces training post</p> <p>Forum, Fall/Winter '68. (Pages 14 – 15)</p>
<p>2. The student will explore local vocational- technical facilities, businesses, industries, professional offices and institutions to gather information concerning his career interest. He will compile, in writing, data gathered during his explorations and will share this data with the class.</p>	<p>1. Visit local vocational and technical facilities. List in writing the training programs offered in each facility. Also list the following information:</p> <ul style="list-style-type: none"> <li>a. Scheduled training time</li> <li>b. Prerequisites necessary to enter training</li> <li>c. Cost of training</li> <li>d. Certification requirement</li> <li>e. Effectiveness of job placement program</li> <li>f. Employment possibilities</li> <li>g. Beginning salary</li> <li>h. Chances for advancement</li> </ul>	<p>Manpower program</p> <p>Area Junior College</p> <p>Area Vocational School</p>

**Instructional Goal II – (continued)**

BEHAVIORAL OBJECTIVE	ACTIVITIES	RESOURCES
<p>3. The student will study at least one catalogue from each of the following institutions of higher learning: Junior College, Senior College and University. He will identify specific information</p>	<p>2. Have students draw numbers from a box. The holder of the lucky number will be "Moderator" for the day. He will give an oral report on the information he found. Following his report he will ask for additional information from the class, and will conduct a question and answer period.</p> <p>3. Show and discuss the filmstrip "Planning Beyond High School."</p> <p>4. Invite a local representative to explain and discuss apprenticeship programs.</p> <p>5. As an "outside of classroom" experience, ask each student to visit a business, industry, professional office, or an institution such as a hospital. Choose one that is related to his career interest. Observe the working conditions, the physical facilities, and the appearance and attitude of the employees. Give a three minute oral "first impression" presentation. This may be a pantomime, role play, flash cards, etc.</p> <p>1. Make available Junior College, Senior College and University catalogues to students. Divide into groups. Each group will research a different type of catalogue for such information as entrance requirements, scholarships and available financial aid,</p>	<p>Filmstrip: "Planning Beyond High School"</p> <p>Resource person in an apprenticeship program</p> <p>Local businesses, industries, professional offices.</p> <p>Guidance Counselor</p> <p>Filmstrips: "How To Read a College Catalogue" "Choosing a College" "You and Your College" "Entrance Examinations"</p>

# *in-depth study*

**Instructional Goal III – The student will conduct in-depth studies in careers related to his interest area.**

BEHAVIORAL OBJECTIVE	ACTIVITIES	RESOURCES
<p>1. The student will arrange a conference with the Vocational Guidance Counselor to ask for an interpretation of the cumulative results of former interest, aptitude and abilities tests. The student will then list in writing at least three reasons for selecting his tentative career area.</p> <p>2. The student will re-consider self-concept by writing answers to the questions on the handout, <b>Who Am I?</b> This will become the introductory page of <b>Career Plans and Decisions</b>.</p> <p>3. The student will research areas of career interests and will record his findings in writing. He will</p>	<p>1. Students will have individual conferences with the Vocational Guidance Counselor to discuss future educational and career plans.</p> <p>2. Have students begin a calendar of career planning entitled <b>Career Plans and Decisions</b>. Answers to the following should be included in the plan:</p> <ul style="list-style-type: none"> <li>a. Reasons for selecting this tentative career choice</li> <li>b. Vocational and/or educational plans for the next 6 months</li> <li>c. Decisions that had to be made before the 6 months plan could become final</li> <li>d. Doubts or uncertainties concerning career area</li> <li>e. Alternative tentative career area</li> <li>f. If and when the decision to detour career interest will be made</li> <li>g. Reasons for changing tentative career area</li> </ul> <p>3. Have students complete the handout <b>Who Am I?</b> Then have the student project himself five years into the future and paint a verbal picture of himself and put this information in his <b>Career Plans and Decisions</b> as an introductory page.</p> <p>4. Have the director of the vocational complex explain the skill training programs offered in the local vocational complex.</p>	<p>Vocational Guidance Counselor</p> <p>Filmstrips:  <b>"An Introduction To Vocation"</b>  <b>"The World of Work"</b>  <b>"Counseling in Vocational Decisions"</b></p> <p>Sextant Series:  <b>Career Planning Outline</b></p> <p><b>Who Am I?</b>  See Appendix A (Page A-54)</p> <p><b>Decision Making</b>  See Appendix A (Page A-50)</p>

**Instructional Goal III – (continued)**

<b>BEHAVIORAL OBJECTIVE</b>	<b>ACTIVITIES</b>	<b>RESOURCES</b>
<p>use the outline and procedures that are developed in daily learning experiences as a guide to complete his <b>Career Plans and Decisions</b>.</p>	<p>5. Invite the director of the area post-secondary vocational-technical complex to explain the areas of training offered at a technical level.</p> <p>6. Question and Answer period. Ask each guest-director to answer, for the students, the following questions. Ask the students to write their interpretation of the answers.</p> <ul style="list-style-type: none"> <li>a. Are the secondary vocational schools and/or the post-secondary vocational-technical schools equipped to prepare students for specialized careers? If so, please name some of these careers.</li> <li>b. Where is the school located?</li> <li>c. What are the entrance requirements?</li> <li>d. What is the procedure for applying for admission?</li> <li>e. What length of time is required to complete specialized courses?</li> <li>f. Will a certificate be granted upon completion of a course?</li> <li>g. What is the approximate cost per school year on-campus and off-campus?</li> <li>h. What financial aids are available?</li> <li>i. Does this school help you find a job upon satisfactory completion of a course?</li> </ul> <p>Have the student record the source and date of this information.</p>	

**Instructional Goal III – (continued)**

<p><b>BEHAVIORAL OBJECTIVE</b></p>	<p><b>ACTIVITIES</b></p>	<p><b>RESOURCES</b></p>
	<p><b>7. Students will have a scavenger hunt to discover answers to questions listed on a handout, Career "Scavenger Hunt." This project will be an individualized research project and will pertain to the individual's tentative career choice. This information should be included in Career Plans and Decisions.</b></p> <p><b>8. Give each student a piece of paper. Ask each student to tear the paper into four pieces and write his four outstanding feelings concerning careers. Rank these feelings by putting the most important on the bottom of the stack and build to the least important on the top. Divide into groups of four, exchange papers and discuss feelings. With the teacher acting as moderator, a questions and answer period concerning feelings toward careers will follow.</b></p>	<p><b>Career "Scavenger Hunt"</b>  <b>See Appendix A</b>  <b>(Pages A-22 – A-26)</b></p> <p>School library            Current magazines            Radio            Television</p> <p><b>Occupational Outlook Handbook</b>  <b>D. # ***economics***

**Instructional Goal IV – The student will acquaint himself with the American Economic System and relate it to his future career development.**

BEHAVIORAL OBJECTIVE	ACTIVITIES	RESOURCES
<p>1. Given a glossary of terms, the student will identify in writing two economic systems. He will list in writing the characteristics of each system and will evaluate the worth of each system by comparing the private enterprise system with the centrally planned economy system.</p> <p>2. The student will become actively involved in setting up and operating businesses of interest to teenagers by making models of chosen businesses and by describing orally and in writing the correct procedure for setting up and operating a business.</p>	<p>1. Hand each student a glossary of terms. Ask the students to learn the following definitions:</p> <ul style="list-style-type: none"> <li>a. Centrally planned economy</li> <li>b. Private enterprise</li> <li>c. Free enterprise</li> <li>d. Real money</li> <li>e. Market system</li> <li>f. Market place</li> <li>g. Consumer</li> <li>h. Financial management</li> <li>i. Decision making</li> <li>j. Dollar vote</li> </ul> <p>Have the class choose three members to serve on the "Economic Experts" panel. The teacher will moderate the panel. The Moderator and panel will be set up at the front of the classroom. Questions from students concerning the glossary of terms will be directed to the Teacher-Moderator and will be delegated to different panel members.</p> <p>2. Have the class plan a teen village.</p> <ul style="list-style-type: none"> <li>a. List businesses needed to meet the demands of teenagers.</li> <li>b. Each student or groups of students will choose a business he wishes to set up.</li> <li>c. Each student or group will:               <ul style="list-style-type: none"> <li>1. Make or obtain an actual model of his business. These will be placed in teen village when all models have been completed.</li> </ul> </li> </ul>	<p>Glossary of Terms See Appendix A (Pages A-5 – A-6)</p> <p>Using Our Credit Intelligently</p> <p>You Are A Consumer of Clothing</p>

**Instructional Goal IV – (continued)**

<b>BEHAVIORAL OBJECTIVE</b>	<b>ACTIVITIES</b>	<b>RESOURCES</b>
<p><b>Note: The individualized learning package, Talking Shop to Teenage Consumers, may be an effective technique to use to teach behavioral objective number 2. See Appendix</b></p> <p><b>3. The student will identify his values, relate them to past and present experiences and attempt to evaluate the influence of values on a tentative career choice.</b></p>	<p><b>2. Research his chosen business by using questionnaires to interview business owners and managers.</b></p> <p><b>3. Interview bankers</b></p> <p><b>4. Make field trips to observe business operations.</b></p> <p><b>5. Build Teen Village.</b></p> <p><b>3. Arrange for the following resource people to talk to the class:</b></p> <ul style="list-style-type: none"> <li><b>a. Retail businessman</b></li> <li><b>b. Banker</b></li> <li><b>c. Wholesale businessman</b></li> <li><b>d. Employee in a business</b></li> </ul> <p><b>Have the students write a paragraph or state orally their feelings concerning a career in the business they chose to research.</b></p> <p><b>4. Have each student write his concept of values.</b></p> <p><b>5. Divide into buzz groups. List the basic values of the group. A reporter from each group will write the basic values on the board. Compare and discuss the values listed.</b></p> <p><b>6. Make and show transparencies on values, their development and influence to the class.</b></p> <p><b>7. Have students debate: "Values change vs. values are static."</b></p>	<p><b>See Appendix B (Pages B-1 – B-30)</b></p> <p><b>Why Didn't Someone Tell Me These Things? See Appendix A (Page A-59)</b></p> <p><b>Understanding The Businessman's Situation See Appendix A (Page A-9)</b></p> <p><b>Questionnaire See Appendix A (Pages A-7 – A-8)</b></p> <p><b>Forum '68, (Pages 8 – 9)</b></p>

**Instructional Goal IV – (continued)**

BEHAVIORAL OBJECTIVE	ACTIVITIES	RESOURCES
<p>4. The student will participate in a learning experience to determine the meaning of self-actualization and the influence that a satisfying career choice has on individual growth toward self-actualization.</p>	<p>8. Role play: Values and financial situations.</p> <p>9. Make and show a transparency "Decision Making" to the class.</p> <p>10. Write and describe, "How Differences in My Spending and That of My Friends Reflect Differences in Values."</p> <p>11. Brainstorm: Divide students into groups and let each group define self-actualization. The teacher will explain self-actualization and make and use transparency, "Hierarchy of Needs."</p> <p>12. Panel discussion: Select a Moderator and three panel members. The Moderator will summarize the discussions and activities that have been participated in by the class. The Moderator will ask the panel the following questions:</p> <ul style="list-style-type: none"> <li>a. Define values</li> <li>b. Define goals</li> <li>c. Are the things you are doing today leading you where you want to be tomorrow or five years from now?</li> <li>d. Think through the answers to the last question; think through each decision you have made in attempting to answer the question. You are beginning to arrive at an understanding of your own life style.</li> <li>e. Have your values influenced past decisions?</li> </ul>	<p>"You Can Bank On It" See Appendix A (Pages A-65 – A-67)</p> <p>Forum '68, (Pages 4 – 5)</p> <p>Forum '68, (Page 3)</p> <p><b>Thresholds To Adult Living</b></p> <p>Forum '69</p> <p>Filmstrip</p>

**Instructional Goal IV -- (continued)**

<b>BEHAVIORAL OBJECTIVE</b>	<b>ACTIVITIES</b>	<b>RESOURCES</b>
	<p><b>f. Will they influence future decisions?</b></p> <p><b>g. Is a career choice your decision?</b></p> <p><b>h. Do values influence your career choice?</b></p>

***simulation***

**Instructional Goal V – The student will be given an opportunity to function in simulated work experiences.**

BEHAVIORAL OBJECTIVE	ACTIVITIES	RESOURCES
<p>1. Students will develop a list of terms relating to corporations and write a report on corporations, giving general information as to nature, organization and powers.</p> <p>2. Students will develop an outline for forming a corporation, select a corporate name and a product to be produced, and decide upon the number of stock to be sold and the par-value.</p> <p>3. Students will elect a Board of Directors and officers for the corporation; then they will apply for a charter.</p> <p>4. Students will develop guidelines for operating the simulated corporation and will specify job duties.</p>	<p>1. Define and discuss corporations. Hand out "Words and Terms to Remember."</p> <p>2. Have students do research on forming a corporation.</p> <p>a. Invite a resource person to come and discuss corporations. Use the approach – "Meet The Press."</p> <p>b. List and discuss steps in forming and operating a corporation.</p> <p>c. Divide into groups of 10 – 12 for "Brainstorming Sessions" to gather ideas for corporate name, product, and par-value of stock.</p> <p>d. Have each group submit suggestions for corporate name, product and par-value of stock.</p> <p>e. Have students make nominations for the Board of Directors and officers for the corporation. Elect Board of Directors and officers.</p> <p>f. Apply for a mock charter and begin selling stock.</p> <p>g. Student officers will divide the class into departmental groups based on individual interest areas.</p> <p>h. Groups will discuss departmental functions and appoint department heads.</p> <p>i. Students will choose a product to make and will</p>	<p>See Appendix A (Page A-18)</p> <p>Local businessman and/or lawyer</p> <p>See Appendix A (Page A-19 – A-20) Applied Business Law</p> <p>See Appendix A (Page A-63)</p> <p>See Appendix A (Page A-61) Teacher-Student developed Department Function</p> <p>See Appendix A (Page A-64)</p>

## GLOSSARY

1. **Beneficiary**—the person named to receive the proceeds from an insurance policy when the policy becomes payable.
2. **Bonds**—written promises to pay a certain sum of money at specific dates and at specific rates of interest.
3. **Centrally Planned Economy**—government owned and operated. Consumer does not dictate goods or services produced. Consumers purchase whatever is available (Soviet Union).
4. **Competent Consumer**—one who is wise and efficient in purchasing needed goods and services.
5. **Competition**—two or more individuals or businesses bidding for the same consumer dollar.
6. **Consumer**—one who purchases goods and services to satisfy needs and wants.
7. **Consumer Goods**—goods offered for sale in the market place.
8. **Consumer Power**—the consumer has a voice in deciding what goods are to be produced.
9. **Contract**—a legal agreement between two or more persons.
10. **Corporation**—form of business organization owned by one or more individuals or organizations whose ownership is evidenced by shares of stock; in the eyes of the law the corporation is a single person.
11. **Credit Union**—a cooperative association in which members join together to save money and make loans to each other at low interest rates.
12. **Decision Making**—choosing between types of goods and services, present and future wants, and spending or saving.
13. **Dollar Vote**—the dollar spent for goods or services that best meet our needs; we vote, with our dollars, the way we want to; therefore, manufacturers produce the goods we elect.
14. **Efficient Spending**—the achievement of a maximum amount of satisfaction from a given consumer expenditure; a wise consumer decision.
15. **Financial Management**—efficient planning and use of resources.
16. **Financial Security**—sufficient assets with which to satisfy our needs and wants now and in the future.

17. **Free Enterprise**--individuals and business firms almost free from government control-- free to operate economic activities or businesses that will bring the greatest profit.
18. **"Hanger"**--unpopular item that does not sell; it just hangs there.
19. **Level of Living**--the style in which one lives.
20. **Market Economy**--goods demanded to be produced to meet consumer needs. (Handle goods that the public wants and the goods will sell.)
21. **Market Place**--a place or center in which to exchange goods and services.
22. **Market System**--the system under which the market operates, determined by supply and demand.
23. **Money Income**--money earned.
24. **Monopoly**--exclusive control of a product or service by one person or group of persons.
25. **Partnership**--form of business organization owned by two people.
26. **Patterns of Spending**--limits set in spending according to our resources and our needs.
27. **Private Enterprise**--businesses are owned by private individuals (such as in the United States) as opposed to the planned economy of the Soviet Union.
28. **Producer**--one who provides goods or services to sell.
29. **Profits**--the amount of money gained above cost on goods and services sold.
30. **Real Income**--a given amount of money can be exchanged for goods and services.
31. **Self-sufficient Family**--a family that produces enough goods to satisfy its needs and wants.
32. **Standard of Living**--wants that are considered needs represent our standard of living.
33. **See other definitions in resource books.**

## QUESTIONNAIRE

1. Name of business \_\_\_\_\_
2. Business founded (year) \_\_\_\_\_
3. Cost of establishing business (approximately) \_\_\_\_\_
4. Number of employees \_\_\_\_\_
5. Where do you purchase merchandise? \_\_\_\_\_
6. What procedure do you go through to restock merchandise? \_\_\_\_\_  
\_\_\_\_\_
7. What do you consider as being overhead expenses? \_\_\_\_\_
8. How do you decide what markup to put on the goods or services? Is there any regulation on it? \_\_\_\_\_  
\_\_\_\_\_
9. How are the procedures started and carried out to secure finances to open a business? \_\_\_\_\_  
\_\_\_\_\_
10. Approximately how long will it take to have a business such as this free of debt? \_\_\_\_\_
11. Are there any "sales pitches" or advertising "come-ons" that cause business to increase? \_\_\_\_\_  
\_\_\_\_\_
12. What is one thing that you might say to me as a customer that would cause me to want to buy your goods or services? \_\_\_\_\_
13. What are three suggestions you can give me to help me be a wise consumer in your business? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

14. What system of credit do you have set up to aid your customers? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
15. Is your business, your goods, or your services, seasonal? If so, what effect does this have on your business? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
16. What is the approximate population of your trade area? \_\_\_\_\_
17. What age group do you cater to? \_\_\_\_\_
18. What is the average income level of your customers? \_\_\_\_\_  
\_\_\_\_\_

**I 2(g)**

## **UNDERSTANDING THE BUSINESSMAN'S SITUATIONS**

- 1. Do you feel that you would enjoy operating a business such as this? Why?**
  
- II. From the information you have gathered, explain how the things you learned might help you to become a more efficient consumer, such as:**
  - 1. What things should I consider before I decide to buy these goods and services?**
  - 2. Should I shop at more than one place or go to a reputable place of business and forget it? Why?**
  - 3. As far as the wholesaler is concerned, what effect does quantity buying have on the price of goods? Why?**
  - 4. What effect does my attitude and my personality have when dealing with the public? Explain.**
  - 5. You have collected information and you have had interviews with business people. What do you feel you have the right to expect from a store or business?**

**\* These questions refer to the questionnaire which follows.**

Reconcile a bank statement on the basis of the information provided below:

**A. Information contained on checkbook stubs:**

- March 1 - Balance of \$320.75 in the account
- March 5 - paid check no. 1 to Dr. Jacobs for dental work, \$10.50 and 15 ¢ service chg.
- March 6 - paid check no. 2 to the Jones Department Store for February charge account, \$38.12 and 15 ¢ service chg.
- March 9 - deposited \$45.00
- March 10 - paid check no. 3 to Bell Telephone Company, \$4.60 and 15 ¢ service chg.
- March 12 - paid check no. 4 to gas company, \$15.60 and 15 ¢ service chg.
- March 15 - paid check no. 5 to electric light and power company, \$9.63 and 15 ¢ service chg.
- March 17 - paid check no. 6 to George Smith for plumbing services, \$25.00 and 15 ¢ service chg.
- March 23 - paid check no. 7 to Don Fortney for rent, \$75.00 and 15 ¢ service charge.
- March 29 - paid check no. 8 to Internal Revenue Service, \$35.40 and 15 ¢ service chg.
- March 31 deposited \$50.00
- March 31 - check book balance, \$200.70

**B. The bank returned the following cancelled checks: 1, 2, 3, 4, 5, and 6.**

**C. Information contained on the bank statement:**

**BANK STATEMENT  
For Month of March, 1968**

Date	Checks	Deposits	Balance
March 1	\$		\$ 320.75
March 8	10.50 .15		310.10
March 8	38.15 .15		271.83
March 9		\$ 45.00	316.83
March 13	4.60 .15		312.08
March 15	15.60 .15		296.33
March 18	9.63 .15		186.55
March 25	25.00 .15		261.40

**Problem:** Reconcile the balance of \$200.70 in the checkbook with the balance of \$261.40 on the bank statement.

**Directions: Place an "X" in the column which best describes your habits. If any question does not apply to you, write does not apply across the columns.**

	YES	NO	SOMETIMES
1. Do you write down your goals?			
2. Do you know how your values and goals influence spending?			
3. Do you keep a record of your spending to learn more about your actual spending habits?			
4. Can you list some of the goals you hope to reach within the next year?			
5. Do you have a savings fund?			
6. Do you balance spending with income?			
7. Can you adjust your spending plan to meet unexpected situations?			
8. Do you and your family work together in planning the use of family income?			
9. Do you know approximately how much your family spends on you each year?			
10. Do you recognize the needs of others in your family?			
11. Do you use a shopping list to guide spending and avoid "impulsive buying"?			
12. Do you know when a bargain is a bargain for you?			
13. Do you compare prices and quality of different items before you buy?			
14. Do you consider wise use of time and energy as well as money when you shop?			

	YES	NO	SOMETIMES
15. Do you find out the cost of credit before you use it?			
16. Do you know what responsibilities you assume in using consumer credit?			
17. Do you pay bills promptly?			
18. Do you ever read the financial section in the newspaper?			
19. Do you know how tax money is used?			
20. Do you know what services your bank offers?			
21. Do you know the difference between whole life and term insurance?			
22. Do you know how stocks are bought and sold?			
23. Do you know the facilities in your community for savings?			
24. Do you know where to borrow money?			
25. Do you know the benefits of social security?			
26. Do you know how income tax affects the spendable income?			

## **SELF EVALUATION OF CONSUMER CONSIDERING A CREDIT TRANSACTION:**

- 1. How much do I owe now?**
- 2. How much cash reserve do I have?**
- 3. Have I shopped?**
- 4. Have I asked questions?**
- 5. What kind of credit is best for me?**
- 6. Have I read the contract?**
- 7. Should I use my savings?**
- 8. How much can I afford to pay monthly?**

**Reference:** Using Our Credit Intelligently, chapters VI, and VIII.

## **EVALUATION OF LENDER:**

- 1. What is the difference in the cash and credit price?**
- 2. Explain cost of service charges.**
- 3. Are there hidden costs or charges?**

## DO'S AND DON'TS OF USING CREDIT

### DO:

1. Do shop as carefully when you use credit as when you use cash.
2. Do obtain a written statement of all terms and conditions of the credit transaction. Know (in dollars) exactly what you are paying for the credit.
3. Do evaluate each use of credit to make certain that the extra cost is offset by the advantage in that specific situation.
4. Do report at once to your consumer finance company or other source of credit if you find that because of unexpected circumstances you are unable to make a payment.
5. Do use credit only as a preplanned part of total money management.
6. Do protect your credit rating.

### DON'T:

1. Don't use credit to buy things you do not really need.
2. Don't let the availability of credit lead you into habits of extravagance.
3. Don't take on commitments for monthly payments which exceed the money you are sure you will have available for making those payments.
4. Don't fail to make payments promptly and regularly; don't let your account become delinquent.
5. Don't use credit unless you feel that immediate possession of what you acquire through its use is worth the additional cost.
6. Don't enter into a credit transaction with any business or financial organization unless you know that it is reliable. Ask the Better Business Bureau or look for the license on the wall.

**WHAT IT COSTS TO OPERATE YOUR CAR**

	Your Car (Annual mileage)		\$2500 New Car (Annual mileage) <u>10,000</u>	
	<u>Cost per year</u>	<u>Cost per mile</u>	<u>Cost per year</u>	<u>Cost per mile</u>
1. Depreciation			\$ 646	\$ .0646
2. Insurance			140	.0140
3. License and registration			22	.0022
4. Gasoline and oil			262	.0262
5. Maintenance			79	.0079
6. Tires			49	.0049
7. Miscellaneous (parking, tolls, etc.)			<u>10</u>	<u>.0010</u>
			\$1208	\$ .1208

Note: This cost is 12¢ per mile and it does not include the cost of financing a car purchased on the installment plan. At \$2500, this must be a compact car.

## TEENAGERS "OWN" AUTOMOBILES

Yes, it is your privilege to own an automobile if you can afford it. Do you know how much it will cost you to run an automobile in an average lifetime if you buy your first car in your early twenties? Between \$23,000 and \$40,000. This does not even include maintenance and operating costs. I guess this means you had better prepare yourself to pull in lots of that "long green" if you travel in the manner to which you have become accustomed.

Does everyone buy a new car? Why? If you were buying a car, would you buy a new one or a used one? Why?

Let's list some advantages and disadvantages of buying a new car; then we'll list the advantages and disadvantages of buying a used car. Before we list these, let's divide into four groups. One person from each group will draw a number and instructions for his group. This has the aroma of a debate, doesn't it? Okay, let's have a good one—you will have ten minutes to have a buzz session within your group. Decide on as many advantages and disadvantages of owning a new or used car as you can. (After debate, list the following advantages and disadvantages in your notebook.)

### Advantages of owning a New Car:

1. New car warranty will be given the owner.
2. Maintenance and operating costs may be lower.
3. Pride of ownership will be greater.
4. The car will have the newest of equipment.
5. More reliable transportation will be enjoyed.

### Disadvantages of owning a New Car:

1. The initial cost is greater.
2. Financing cost is greater.
3. New equipment has not been tested and proven.
4. The greatest depreciation occurs the first two years.

### Advantages of owning a Used Car:

1. All the bugs may have been ironed out.
2. The initial cost is lower.
3. The finance charges are lower.
4. There is less depreciation.

### Disadvantages of owning a Used Car:

1. Maintenance and operating costs may be higher.
2. Financing may be higher and may be difficult to obtain.
3. The car may not be reliable or in warranty.
4. The car may not have latest body style and equipment.

LEARNING EXPERIENCE

ESTIMATING COSTS OF OWNING AND OPERATING A CAR

	(1) Annually	(2) Monthly	(3) Weekly

Fixed Costs

1. Garage rent
2. Insurance
3. Operator and registration fees
4. Depreciation\*
5. TOTAL FIXED COSTS

\*Figured on a straight line basis. Other methods can be found in any elementary accounting textbook.

Variable Costs

6. Gasoline and oil
7. Repairs and replacements
8. Tires
9. Other (parking, inspection, tolls, fines, etc.)
10. TOTAL VARIABLE COSTS
11. TOTAL FIXED AND VARIABLE COSTS  
(line 5 plus line 10)

## WORDS AND TERMS TO REMEMBER

1. Corporation--A corporation is an artificial person, separate from its owners, and created by law. (A business owned by stockholders).
2. Incorporators--Three or more persons who join to organize a corporation.
3. Capital--Money and assets owned by a corporation.
4. Charter--Written permission given by the state or government to start a corporation.
5. Shares of Stock--The capital of a corporation.
6. Stockholders--Owners of stock in a corporation.
7. Stock Certificate--A document issued to each stockholder, showing the type of stock he owns, the number of shares and other information.
8. Dividends--Profits of a corporation which are distributed to the stockholders.
9. Board of Directors--Group of people elected by voting stockholders to manage the corporation.
10. Officers--

## Suggested Steps in Forming A Corporation

- I. What is a corporation?
- II. How are corporations classified?
- III. How is a corporation organized?
  - A. What are the steps in forming a corporation?
  - B. How does a corporation get money to operate?
  - C. What is the title given to persons buying stock?
  - D. What evidence does a person have of his investment and its value?
  - E. How are stocks classified?
  - F. What are the voting rights of the stockholder?
  - G. Who represents the stockholder?
- IV. What are the powers and duties of the corporation?
- V. What are the duties and powers of the board of directors?
- VI. What are the powers and duties of the officers of a corporation?

## OUTLINE FOR FORMING A CORPORATION

- I. General information
  - A. Research
  - B. Terminology
- II Organization of corporation
  - A. Apply for charter
    1. Name of the proposed corporation
    2. Object of the proposed corporation
    3. Capital stock
    4. Place of business
    5. Duration
    6. Directors and officers
    7. Incorporators
  - B. Election of board of directors
  - C. Appoint or elect officers
    1. President
    2. Vice-President
- III. Departmental functions
  - A. Engineering
  - B. Marketing
  - C. Finance
  - D. Production
  - E. Quality control
  - F. Sales
- IV. Closing of corporation

Student Work Sheet

Career "Scavenger Hunt"

My tentative career area is \_\_\_\_\_

Three possible occupations are: 1. \_\_\_\_\_ 2. \_\_\_\_\_

3. \_\_\_\_\_

To enter this career area, is a vocational, technical, college or university education required? If it is, find the answers to the following important factors:

1. Location of school or schools that offer the educational opportunities that I need.
2. Entrance requirements.
3. The procedure for applying for admission to a college. Refer to page 36 of Occupational Orientation: An Introduction to the World of Work.
4. The sequence of education. Refer to page 35 of Occupational Orientation: An Introduction to the World of Work.
5. Length of college course.
6. Specialized courses required for graduation or certification.
7. Approximate cost per year and a 4 year program (on-campus or off-campus).
8. The scholarships, loans or grants that you could apply for to help with the cost of this training.
9. The school placement services.
10. Source and date of this information.

## Career "Scavenger Hunt" - (continued)

### Other training

1. Is this an apprenticeship program? Discuss.
2. Company training program.
3. On-the-job training.
4. Is armed forces training available?

### Related fields

1. List and briefly describe several career fields related to the one you have chosen to explore.
2. List other careers that could effectively utilize the training and experience in your chosen career.

### People in this career field

1. Compile information about people who have chosen this career field. This information may include hobbies, the types of homes and automobiles and friends that they choose. List sources and dates of information.
2. Approximate number of people employed in this career field.
3. Write a brief statement describing the current employment trends relating to this career.
4. Locations of jobs related to this career field.

### Qualifications of Workers in this Field:

1. Sex
2. Age
3. Health and physical condition
4. Personality
5. Experience

## Career "Scavenger Hunt" - (continued)

6. Aptitudes
7. Education (general level and type required)
8. Legal requirements for entry into this field
9. What are the most common methods of entry into this career?  
Which one would you choose? Why?

### Duties of this career

1. General duties
2. Specific duties

### Earnings

1. How much can you expect to make from this career?
  - a. Beginning salary?
  - b. Average salary?
  - c. Exceptional salary?
2. What expenses might you have to meet in following this career?

### The nature of the job

1. What are the working conditions on the job?  
Consider the nature of the work, the work schedule, the noise, dirt, danger, and loss of time from family, etc.
2. List some benefits other than salary that you would expect to gain from this career.

### Career advancement

1. What are the chances for advancement in this field?
2. Would advancement require additional training? Explain.
3. Would advancement require additional duties? Explain.
4. Could advancement require moving to another location? Explain.

**Career "Scavenger Hunt" - (continued)**

**5. Is there a need for continuing education to hold this position?**

**Explain.**

**Additional sources of information**

The interested student will find many sources of information about occupations. In addition to the catalogues and pamphlets listed earlier in this outline, information can be gathered from:

- 1. Interviews with vocational counselors, school officials, and teachers who have accumulated special materials about particular job fields related to the subjects they teach**
- 2. Your school library**
- 3. Articles in current magazines**
- 4. Articles in journals published by trade and professional organizations such as the American Personnel and Guidance Association and the National Vocational Guidance Association**
- 5. Books and booklets issued by reputable publishers**
- 6. Catalogues and other booklets published by special training schools or by trade, industrial, commercial, professional, and labor organizations**
- 7. Interviews with officers of trade, industrial, commercial, professional, and labor organizations, such as the National Association of Credit Men, the National Association of Manufacturers, the International Brotherhood of Electrical Workers, the Office Management Association, and the American Bar Association**

**Career "Scavenger Hunt" - (continued)**

8. Materials issued by the U. S. Office of Education, the U. S. Department of Labor, the state employment service, and local community organizations
9. Interviews with people who are experienced in the occupation you are studying. (When you go to such interviews, you should have a list of questions you want answered.)
10. Personal visits to offices or plants where actual work activities can be observed
11. Public talks by people experienced in the occupation
12. Vocational talks and programs that are broadcast by radio and television
13. Motion pictures, commercially and educationally sponsored
14. Tryout experiences (Sometimes you can find part-time or summer work in the field of your occupational interest. This activity may give you the best idea of whether the work is suited to you.)

## THE FOLLOW-UP LETTER

If your letter of application succeeds in getting you an interview with the prospective employer, there is another letter that you need to write. This is the follow-up letter. The purpose of the follow-up letter is to acknowledge your receipt of the employer's request that you come for an interview.

Include in the follow-up letter the date, time, and place of the interview. You should also respond to any request that might be made by the prospective employer.

(SAMPLE)

1234 First Avenue  
Laurel, Mississippi  
August 14, 1972

Mr. John Doe, Personnel Manager  
Mississippi Automation, Inc.  
1001 Capitol Street  
Jackson, MS

Dear Mr. Doe:

I shall be happy to come to your office for an interview on August 25, 1972, at 10:00 a.m. I will bring my Certificate of Proficiency from the Jones County Vocational-Technical School that you requested.

Sincerely yours,

Jane Smith

**SUGGESTIONS FOR WRITING  
BUSINESS LETTERS**

1. Use good quality 8 1/2 by 11 inch white, unruled paper.
2. Type the letter, if possible, using a black ribbon. Although a typed letter is preferred, a letter written in longhand in black or blue-black ink is permitted.
3. Be neat. Do not leave strike-overs or visible erasures in your letter.
4. Be brief. Include only the necessary information.
5. Be complete. Include all the information the receiver needs to know.
6. Be clear. Statements should be simple and direct.
7. Be accurate. Check your spelling, grammar, punctuation and letter form.
8. Be positive. Do not include negative statements concerning yourself.
9. Avoid abbreviations, with the exception of such titles as Mr., Mrs., and Dr.
10. Fold the letter properly.
11. Insert the letter in the envelope correctly.
12. Be sure that you have the prospective employer's name and title correct.

**SAMPLE**  
**LETTER OF APPLICATION**

1234 First Avenue  
Laurel, Mississippi  
May 14, 1972

Mr. John Doe, Manager  
Best Buy Auto Sales  
Ellisville, Mississippi

Dear Mr. Doe:

I read your advertisement in today's Laurel Leader Call about a job opening for a salesman in your Sales Department with on-the-job training. I have always wanted to be a salesman, and I would like to apply for this job.

On May 25, I shall be graduated from George Washington High School. In addition to the general high school requirements, I have completed courses in Distributive Education, Bookkeeping, and Business Math. Although I have had no experience as a salesman, I am anxious and willing to learn.

I shall be ready to start to work on Monday, June 1. May I come to your office for an interview? You can reach me by telephone at 123-4567 or by mail at 1234 First Avenue, Laurel, Mississippi.

Sincerely yours,

Tom Smith

**SAMPLE  
LETTER OF RESIGNATION**

1234 First Avenue  
Laurel, Mississippi  
August 15, 1972

Mr. John Doe, Manager  
Best Buy Auto Sales  
Ellisville, Mississippi

Dear Mr. Doe:

Please consider this letter as my formal notice of resignation effective two weeks from this date, September 1, 1972.

Because of my ambition to work in a management position, it is necessary for me to continue my formal education in college. I know that my employment with Best Buy Auto Sales as a salesman has given me valuable experience that will benefit me in my future plans.

I appreciate the opportunity of working with your company. I shall miss my work and my fellow employees.

Sincerely yours,

Tom Smith

## Invest In Yourself

Perhaps the soundest investment you will ever make in your life is any investment you make in further education. If you have been helping to pay your high school expenses, you already have some experience in spending time and money to improve your knowledge and skills.

After high school graduation, most young people today go on to some form of higher education. For many, this advanced training comes to them through the armed forces which offer wide and varied educational opportunities. Trade and vocational schools are avenues to job training. Many communities now have junior colleges where young people can concentrate either on vocational training or on a two-year general education. Many high school graduates are going on to four-year colleges or universities.

Education, as with all investments, costs money. It is difficult to generalize about costs because they will depend on which school or college you choose, whether you live at home, and how long you will be in school.

Where will the money come from for this investment in education? Some families have provided funds for schooling either in savings accounts, U. S. Savings Bonds, or life insurance. But many parents who want their children to go on to college have been unable to set aside money for this purpose. You may choose to talk the problem over with your parents and your guidance counselor and work out a plan for realizing the career goal for which you are suited. Perhaps you can work summers and part-time during the school year, or maybe you and your

family could borrow the money to help pay the costs. Many students do that and pay the loan off after graduation. Find out the costs of the schools you would like to attend, then list the expenses and your resources.

As is true with most financial planning, everyone works out a plan which is tailor-made to goals and resources. The following are examples of financial plans for furthering education to prepare for careers in three different types of institutions.

Sue Jackson, the oldest of three children, plans to enter the State University in the fall. Her goal is to become a secondary teacher. Her father's income is \$8,000 a year. With her parents, she has worked out the following financial plan:

Expenses	Resources
Tuition and fees . . . . . \$330	Parents' income . . . . \$400
Room and Board . . . . . 760	Parents' savings. . . . 400
Books, supplies . . . . . 90	Sue's savings . . . . . 270
Clothing . . . . . 250	Summer work . . . . . 350
Entertainment, grooming, etc. . . . . 120	Part-time work during the college year . . 200
Travel . . . . . <u>70</u>	
\$1,620	<u>\$1,620</u>

This is for the first year. Sue will have used up her personal savings; nor can she expect her parents to use all their savings on her with two other children coming along to be educated. For her second year, she will have to make some other arrangements. Her counselor and the director of student financial aid at State University will assist her in making these arrangements before she enters the university.

Tom Hughes plans to go to a two-year community college offering a vocational trades course in printing. He will live at home and continue with the part-time job he had in the printing shop of the community newspaper while in high school. He hopes to work full-time during summers and Christmas vacations.

After talking with a friend who is already taking a trades course in the community college, Tom has drawn up his tentative budget for his first year's educational expenses. He assumes that his expenses during the second year will be slightly higher.

Tuition and fees . . . . .	\$ 40.00
Lunches . . . . .	180.00
Textbooks . . . . .	38.00
Notebooks, paper, other supplies . . . . .	15.00
Transportation (bus) . . . . .	57.00
Participation in school activities . . . . .	40.00
(attendance at games, dances, etc.)	
	<hr/>
	\$370.00

Eleanor Logan wants to be a beautician. The nearest school for cosmetology is 20 miles away, so she has decided to live at home and commute by bus. Besides her tuition, books, and commutation, she will have to buy her own uniforms. She will also need money for lunches and clothes, as well as some spending money. The course lasts six months.

Her financial plan for the six months includes these expenses.

Tuition and fees . . . . .	\$.450.00
Books . . . . .	10.00

Commutation . . . . .	120.00
Uniforms (4 at \$7.50 each) . . . . .	30.00
Lunches . . . . .	80.00
Spending money . . . . .	<u>50.00</u>
	\$740.00

Of course, one of the best ways to finance education beyond high school is to think about the problem early enough to make provisions for it. Obviously, a regular savings program over a long period of time makes a goal such as further education something a family can attain for their children.

## Decision Making

There can be two patterns or two concepts of systems for decision making. They are, first, the central-satellite and second, the chain-concept.

Central-satellite decision making can be described as having a basis, a core, or a central choice that is significant, such as the occupational choice made by a father. The satellite decisions, then, are related to the central decision and are dependent upon it--such as where the family will live, how much money they will have to spend, activities of the family. The quality and nature of the central decision will definitely affect the satellite decisions. We might also reverse our thinking and propose the idea that satellite decisions can determine the quality of the central or core decision. Ultimately, we strive for decision competency.

Decision making might be thought of as a chain with each connecting link dependent upon each other. We must understand the nature of the relationship between and among decisions. An example of such a relationship may be shown in the steps required when constructing a garment. One must select a pattern, fabric, sewing notions, construction techniques, and allocate time for completing the garment. This chain of decisions should terminate in a successfully constructed garment.

The central-satellite and the chain-concept systems of decision making are based largely on values, attitudes and skills. Our values are the things that are most important to us; attitudes are based on values and determine how we think and feel about people and things. Skills are competency in performances with people or things.

Personal decisions must be made by individuals; but decisions made in haste, without assistance or input of ideas and experiences of associates, may prove to be unwise decisions. Most individuals can profit from mistakes, as well as successful experiences of others. Peers and significant adults will usually contribute valuable help if the students take time to listen.

## SELF-ACTUALIZATION

Self-actualization might be described as one of the basic human needs, or it might be described as a culmination of all human needs. It is something we work toward but never quite attain. When we work toward self-actualization we seek to become the most effective person we are capable of becoming, considering all of our God-given talents and capabilities.

Why do we need to talk about self-actualization? How can we attain self-actualization?

(Write steps on the board or put them on a bulletin board.)

Let's start at the bottom step and walk up to a landing:

Step one -- Understand ourselves.

Step two -- Accept ourselves for what we are.

Step three -- Bring about any changes necessary to become what we hope to become.

How can we understand ourselves? We might begin to understand ourselves by understanding our needs. A man named Abraham Maslow has given us a model in the form of an equilateral triangle that shows needs. He shows our basic needs at the base and he says that as each need is satisfied we get hungry for another. He says we are dominated by needs, not by satisfaction. He also says we are motivated by needs. (How many of you have heard this: "Necessity is the mother of invention"?)

(Draw a hierarchy of needs on the board or show one on a poster or bulletin board. See appendix, page 51.)

Explain by writing in, or stating, steps 1 through 5. The lowest level of needs is (1) physiological (or physical) -- this means our need for food, clothes, shelter, etc. When this need is met we need (2) safety (security) -- safety from physical harm and from threats. Then we need (3) love and belonging (friends, family, Sunday school class.) When this need is met we need (4) esteem (in other words we want to be noticed, praised for a job well done, etc.) This brings us closer to becoming what we would like to become, closer to (5) self-actualization or doing what we hope to do and doing "our thing" in the best possible way.

We have just studied and talked about values and goals; can you see any relationships between our needs and our values and goals? Do you think our values and goals influence our needs? O.K., write your reasons as an assignment for tomorrow.

Now, I will hand out these sheets with blank hierarchies. You will list your own needs: begin with physical at the bottom and list the things that satisfy each need for you. Discover how near self-actualization you have become.

Are needs the same for each person? No. Why are our needs different? There are many reasons, such as culture, taste, value, attitudes, feelings, family, job, economic status, age, and many others.

Let's say our lower needs through "Love and belonging" (point to hierarchy) are satisfied. Why might we become restless and dissatisfied? Well, a mentally and physically healthy individual has unexplainable pressures within himself that continually push toward fulfilling a desire to do certain things that we enjoy doing -- we usually do these things

well because we like to do them. We press toward fullness of purpose, higher standards and levels of living, courage, kindness, honesty, love, unselfishness, knowledge, etc. If we grow into what we most want to be, we must climb our first three steps, as we talked about earlier- we must understand ourselves, accept ourselves, and bring about changes to improve ourselves.

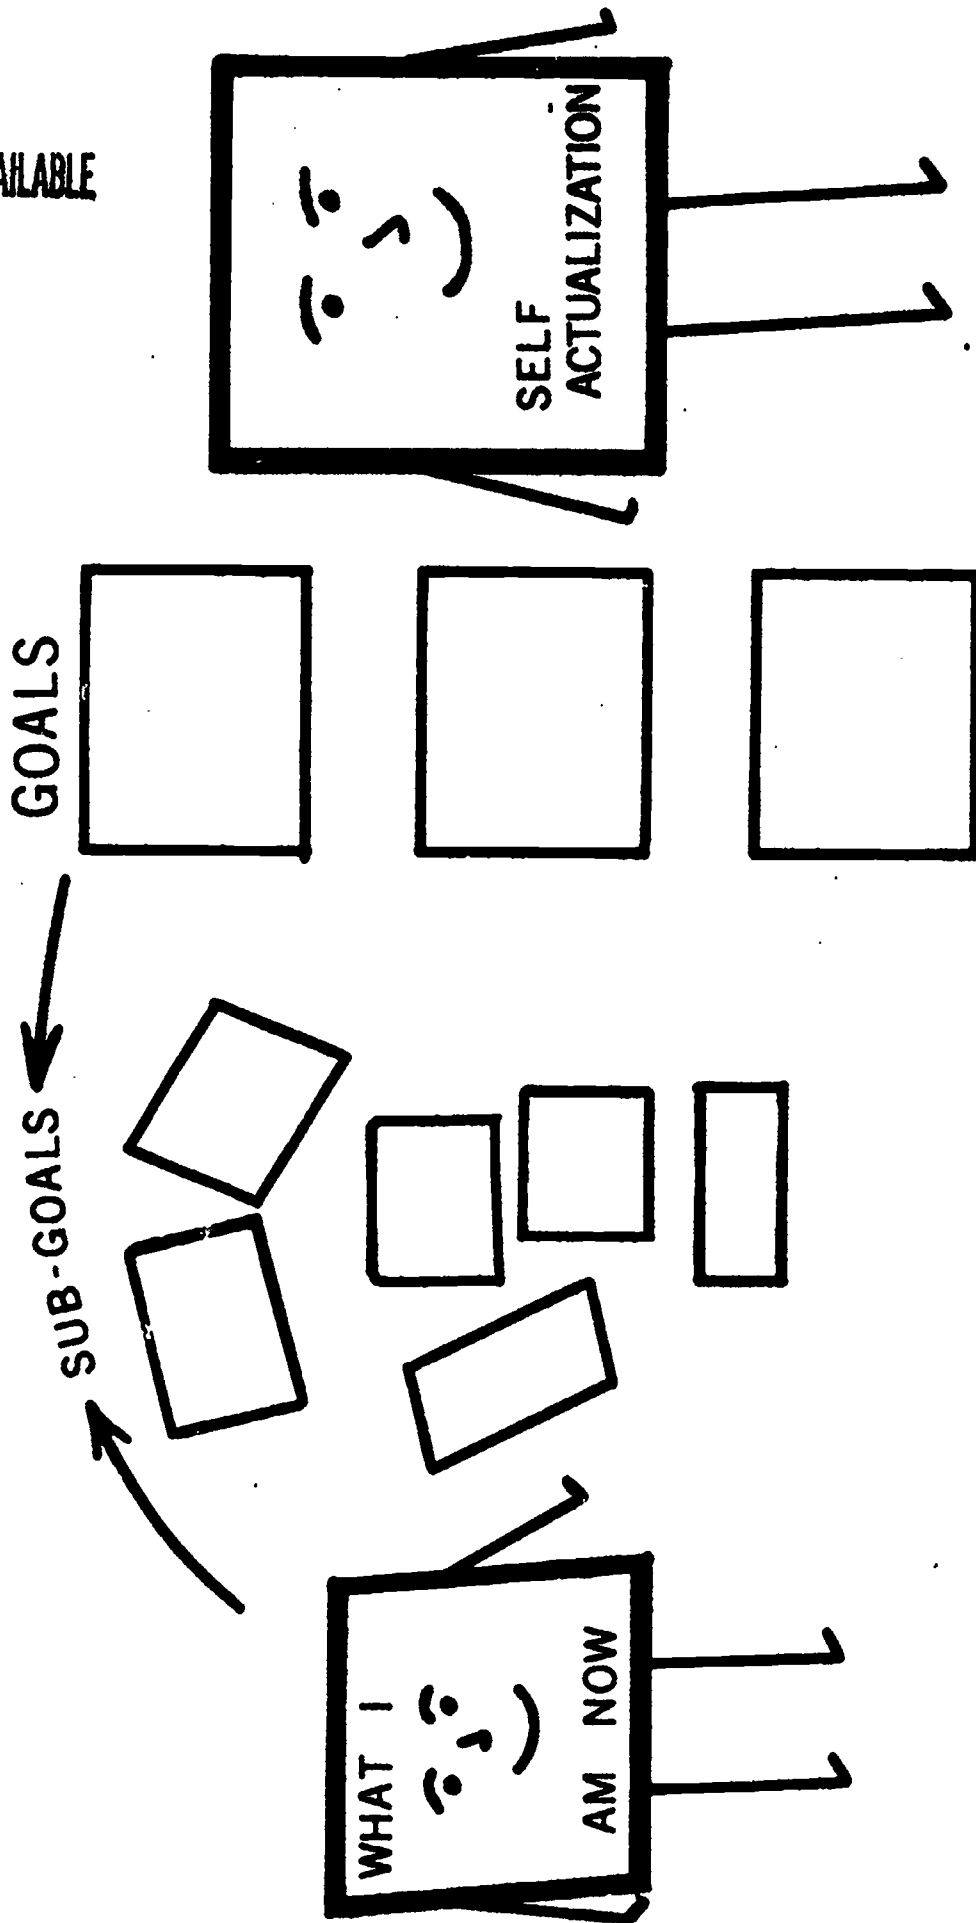

What kind of feeling do you have when you know you're not doing you best on a test. when fixing your hair, or when putting on make-up? Do you feel frustrated, discontent, restless? Is this all bad? No-it's natural, normal and healthy-you know you can do better.

How can we evaluate ourselves? How can we tell whether we are growing? Are we happy in what we are doing? We are growing if we are having satisfactory experiences and if we keep striving to do still better. An example might be found in First Year Clothing Construction.

You are successful in laying out, cutting, and marking your pattern. You sew straight seams, make darts correctly, put a zipper in well, your facings and hems are neat- you have a cute shift that you're proud to wear. Now, do you want to make another shift or make something more difficult? I'll bet you want to make something more difficult.

Now "A Happy" (see appendix, page 52) to help you understand what you are now, where you are going, and how you will arrive-also how values and goals relate to needs and to self-actualization. (Hand out copies of appendix, page 49.) Let's quietly and by ourselves fill these out; I'll give you a few minutes to discuss after everyone has finished. (Collect papers; check and hand back. This helps in understanding some students who do not express their feelings verbally.)

## **SOCIAL SECURITY**

**How many of you have a social security card? (Pause while students respond.) Well, quite a few—in fact, most of you do. How and where did you get it? (Discuss.) Do you really understand how social security works? or do you know that you have a social security card because you must have one in order to work?**

**Social security is a pretty loud noise around most homes. Why is it important to families? What can it do for you? It offers great benefits. Let's list these benefits in your notebooks.**

**Social security covers the following:**

- 1. Unemployment insurance**
- 2. Old-age pensions**
- 3. Disability benefits**
- 4. Death benefits and aid to survivors**
- 5. The blind**
- 6. Health programs, such as medicare and medicaid**

**These are six broad areas and they are very necessary areas to the comfort and welfare of all people. Let's sing the first and sixth stanzas of social security coverage. We will handle verses two, three, four and five a little differently.**

**What do we mean by unemployment insurance? Write your concept of unemployment insurance. (Teacher may then read aloud several of the concepts which the students have written, without calling the students' names.)**

**In your notebooks write this explanation of unemployment insurance:**

**Unemployment insurance is a federal-state program of insurance which provides an income if a person loses a job or is laid off temporarily, provided the person is ready and willing to work. Sick or injured workers may be able to get disability insurance.**

**(Supervised study—Read Consumer Economics, pp. 289-303.)**

**Interesting questions concerning unemployment insurance:**

- 1. Who pays for unemployment insurance? The employee.**
- 2. How long does a person have to work to be eligible for unemployment insurance benefits? Three days in each of four different weeks, or he must have earned \$200.00.**
- 3. If an employee is out of work because of a strike, can he collect unemployment insurance benefits? He is not entitled to collect benefits for a seven-week period following the strike.**

**We hear a lot about medicare and medicaid. What is medicare? What do you think it means? (Discuss.)**

**Write this explanation of medicare in your notebooks: Medicare is a federal health program that proposes to provide people over 65 years of age with the means with which to secure adequate medical services.**

**TELL IT LIKE IT IS!**

## HOW TO SHOP FOR CREDIT

1. Desire to shop.
2. Compare.
3. Ask questions.
4. Evaluate.
5. Use credit cautiously.

## THREE BASIC KINDS OF CREDIT

1. Service -- examples: gas, telephone, electricity (utility companies)
2. Sales -- example: retail businesses
  - A. Regular or 30-day accounts (no service charge if paid in 30 days)
  - B. Ninety-day accounts (three equal payments)
  - C. Revolving account (thirty days, no service charge; balance left after 30 days, interest on unpaid balance)
  - D. Bank card -- consumer pays bank on 30-days or revolving account
  - E. Installment -- written contract; payment schedule; title to goods remains with dealer
  - F. Cash loans
    - (1) Term or single payment -- 30, 60, 90, or 120 days
    - (2) Installment loan -- monthly payments, 3 to 36 months
3. Checking account with overdraft -- credit limit \$300 to \$5,000; write check on money arranged for but not actually in your account

## WHERE TO SHOP FOR CREDIT

- |                                  |                             |
|----------------------------------|-----------------------------|
| 1. Retail stores                 | 5. Consumer Finance Company |
| 2. Banks                         | 6. Life Insurance Policy    |
| 3. Savings and Loan Associations | 7. Pawnbroker               |
| 4. Credit unions                 |                             |

What does credit cost? -- Stated in "Truth in Lending"

**TRUTH IN LENDING ACT** -- Consumers must be given the price of credit in dollars and cents as well as annual percentage rate.

## WHAT SHOULD WE KNOW ABOUT CONTRACTS?

Given a contract:

- |                           |  |
|---------------------------|--|
| 1. Description of item    | 6. Possible refund for prepayment          |
| 2. Cash price             | 7. Description of collateral               |
| 3. Service charge         | 8. When, where, and amount of each payment |
| 4. Taxes, insurance, etc. | 9. Penalty for non-payment                 |
| 5. Down payment           |  |

## CORPORATION

### General Information For the Teacher

#### I. WHAT IS A CORPORATION?

A corporation is "an association of individuals united for some common purpose, and permitted by law to use a common name, and to change its members without the dissolution of the association". (as defined by the Supreme Court of the United States) Fisk and Snapp -- page 549.

#### II. HOW ARE CORPORATIONS CLASSIFIED?

Corporations are commonly classified as PUBLIC and PRIVATE corporations.

- A. **PRIVATE:** Those that are created for social, charitable, or educational purposes and do not distribute profits. Those that are created for the financial profit of their members.
- B. **PUBLIC:** Corporations that are established for governmental purposes and for the administration of public affairs.

#### III. HOW IS A CORPORATION ORGANIZED?

##### A. What are the steps in forming a corporation?

To form a corporation, the persons organizing it must present a petition to the proper officials of their state. This petition gives the name of the organization being formed, its purpose, its owners, and other necessary facts required by law. If the petition is approved, a CHARTER will be granted. This charter is really a contract between the state and the corporation, the corporations and the members, and the members and the state. By this contract the state agrees that the corporation may exist, transact business, and exercise the powers for which it is organized.

##### B. How does a corporation get money to operate?

A business corporation issues shares of ownership known as SHARES OF STOCK. These become the capital stock of the corporation and are sold to people interested in investing their money.

##### C. What is the title given to persons buying stock?

When a person buys one or more shares of stock, he becomes a SHAREHOLDER or a STOCKHOLDER.

D. What evidence does a person have of his investment and its value?

A shareholder is issued a STOCK CERTIFICATE, which is evidence of his ownership and his rights in the business.

Stock may have a PAR VALUE, which is the amount printed on the certificate. If it does not have a par value, it is a NO PAR STOCK.

E. How are stocks classified?

The capital stock is often divided into classes giving the holders various legal rights in the corporation. The usual classes of stock are COMMON STOCK and PREFERRED STOCK. All stock issued by a corporation is common stock unless it is otherwise designated.

1. Preferred Stock: is stock which entitles the owner to receive a specified rate of dividend.
2. Common Stock: does not provide for the payment of any specified rate of dividend.

F. What are the voting rights of a stockholder?

A stockholder is entitled to cast as many votes as he has shares of voting stock.

G. Who represents the stockholder?

The voting stockholders of a corporation elect a BOARD OF DIRECTORS to represent them. The board of directors, in turn, chooses OFFICERS who actually conduct the business.

#### IV. WHAT ARE THE POWERS AND DUTIES OF THE CORPORATION?

A. The GENERAL POWERS of a corporation are incidental to its existence. They include the following:

1. PERPETUAL SUCCESSION: means that the corporation is to exist continuously during the period for which its charter was granted, regardless of changes in its membership.
2. CORPORATE NAME: A corporation must have a name to identify it. It may enter into contracts and may sue and be sued in this name.

3. **ACQUISITION OF PROPERTY:** A corporation may acquire and hold such property as is necessary for the purpose of carrying out its express powers. The charter usually gives the power to acquire and hold property; in some cases it restricts power.
  4. **CORPORATE SEAL:** A corporation has the right to have a seal. Under modern law, however, a corporation need not use a seal in a given transaction unless it is required by statute or unless a natural person in transacting the same business would be required to use a seal, as in a conveyance of land.
  5. **BYLAWS:** A corporation has the power to make reasonable rules and regulations called bylaws, not inconsistent with existing law, for the management of its business.
- B. **EXPRESS POWERS:** Express powers are specifically stated in the charter. Although a corporation is treated by law as a person, it does not possess all of the powers of a natural person. It may not engage in any business other than that for which it was formed.
- C. **IMPLIED POWERS:** The implied powers of a corporation are reasonably necessary to carry out and make effective the expressly granted powers. Authority for carrying out the express powers is implied.

V. **WHAT ARE THE DUTIES AND POWERS OF THE BOARD OF DIRECTORS?**

**DIRECTORS:** the board of directors has authority to manage the corporation. They possess the power to enter into any contract necessary to promote the business for which the corporation was formed. They are responsible for seeing that the corporation does not exceed its powers. Directors are not allowed to change the purposes of the corporation or to dissolve the corporation. The board may appoint officers and other agents to act for the company.

VI. **WHAT ARE THE POWERS AND DUTIES OF THE OFFICERS OF A CORPORATION?**

**OFFICERS:** The officers of a corporation are its agents. Consequently their powers are controlled by the laws of the agency and are subject to limitations imposed by the charter and bylaws or by the instructions of the board of directors.

## DEPARTMENTAL FUNCTIONS

### I. Engineering Department

- A. Design the products
- B. Make working drawings
- C. Design stock certificate and Logo
- D. Make stamp for Logo
- E. Assist production activity
  - 1. Design equipment to speed up production
  - 2. Design flow charts

### II. Marketing Department

- A. Conduct consumer survey to determine selling price, color, design details, etc.
- B. Establish selling plan
  - 1. Publicity
  - 2. Assignment of sales personnel
  - 3. Record of sales

### III. Purchasing Department

- A. Locate and buy materials, equipment and special tools
- B. Maintain supply of materials

### IV. Production Department

- A. Make a prototype
- B. Analyze the operation
- C. Set up production line
- D. Produce product

### V. Quality Control

- A. Inspect product to determine acceptability

## Supplementary Teaching Material

### You Can Bank on It

Do you know what the term "full-service bank" means? Have you ever heard of a savings and loan association? What kind of service does a mutual savings bank give?

The main difference between these institutions is in the type and range of services they offer. Commercial banks offer a much wider variety of services--from savings and checking accounts to trust services, and all kinds of business, farm, and consumer loans.

When you deposited your piggybank savings in a real bank, you got your first introduction to a bank service--a savings account where your money earns interest. Now, with thoughts of college or your first full-time job in a year or so, you're probably interested not only in savings accounts, but also in other services such as checking accounts, loans, traveler's checks, and safe-deposit boxes.

**A Checking Account:** Most banks will welcome your checking account if you are a high school student and your parents are customers. Then, when you go on to college or to work, you can open an account of your own in a bank of your choice.

A checking account, which is offered only at commercial banks, will help train you to meet the new financial responsibilities you'll face in college, in business, or in marriage. Even if you handle only a few dollars a week, a checking account will save you time in paying bills; the canceled checks are receipts for your purchases. Also, you'll quickly see how you spend your money.

With just a few dollars you can open a special checking account, the kind most widely used among younger people. You'll probably pay a monthly service charge of about fifty cents and a charge of a dime or so for each check you write. If you are really flush, you might consider a regular checking account. With this type you must keep a minimum balance of from \$300 to \$500, but you get a certain number of checks free of charge.

If you have both a checking and savings account in a full-service bank, you can have a small amount automatically transferred from your checking to savings account where your money will earn interest. After high school graduation your savings will come in handy, no matter what your plans.

**Types of Loans:** At a commercial bank you might get a loan for any worthy purpose from paying college bills to financing a car purchase or vacation. Many commercial banks give college loans under the federal government's guaranteed loan program. The loan is made directly to any student attending or accepted at an accredited college or university, and it allows an undergraduate up to \$1,000 a year and a graduate student up to \$1,500. Repayments don't start until nine months after the student is out of college, and then he or she can take up to ten years to pay.

You can buy traveler's checks at any bank; if they are lost or stolen, your money will be promptly replaced.

Whether you go on to college, to work, or get married, you should protect your valuable papers in a safe-deposit box in the bank's vault. A small box rents for about \$7 a year and is protection for your birth

certificate, your social security card, the bill of sale for your first auto, your savings bonds, marriage certificate, passport, and, as time goes on, insurance policies, leases, etc.

The best buy at any bank is your banker's advice--it is free. He is the man to see about any of your money problems or programs, from balancing your budget to financing your education.

**Places field trips can be made:**

**Drafting and Design**

**Landscape Architect – Horne Nursery – Laurel, MS**

**Plumber – Mauldin Plumbing Co. – Laurel, MS**

**Welders – Wansley Welding Service – Laurel, MS**

**Electrician – City Electric Co. – Laurel, MS**

**Diversified Services**

**Interior Decorator – Roberts, Inc. – Laurel, MS**

**Kindergarten Worker – St. John's Day School – Laurel, MS**

**Dietitian – Jones County Community Hospital – Laurel, MS**

**Dental Assistant – Dr. R. L. Donald – Laurel, MS**

**Social Worker – Welfare Department – Laurel, MS**

**Office Occupations**

**Receptionist – Dixie Electric Power Association – Laurel, MS**

**Switchboard operators – Masonite – Laurel, MS**

**Accountant – W. F. Horne and Co. – Laurel, MS**

**File Clerk – Laurel Bone and Joint Clinic – Laurel, MS**

**Secretary – Jones County Schools – Supt. Office – Laurel, MS**

**Production Distribution and Management Occupations**

**Veterinarians – Dr. Clyde Odom – Laurel, MS**

**Geologist – Vincent G. Scoper – Laurel, MS**

**Long Distance Truck Drivers – Howard Industry – Laurel, MS**

**Bottling Plant Workers – Nehi Bottling Co. – Ellisville, MS**

**Railroad Freight Conductor – Gulf Mobile and Ohio Railroad – Laurel, MS**

FIELD TRIP - SURVEY SHEET

Name of business: \_\_\_\_\_ Date \_\_\_\_\_

Address: \_\_\_\_\_

1. Name two or more blue collar jobs you saw.

\_\_\_\_\_  
\_\_\_\_\_

2. Name two or more white collar jobs you saw.

\_\_\_\_\_  
\_\_\_\_\_

3. Kinds of products? \_\_\_\_\_

4. Types of jobs available? \_\_\_\_\_

5. Entry level educational requirements? \_\_\_\_\_

6. Union or non-union? \_\_\_\_\_

7. Is the business operation seasonal? \_\_\_\_\_

8. Describe the job that you saw which interested you most.

\_\_\_\_\_  
\_\_\_\_\_

9. Did you see unsafe practices? (If so, what?) \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_

10. What interested you most about this trip and why? \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_

11. Give some suggestions that you think would have improved this trip.

**Evaluation of Career Education - Exploratory Phase, Level II**

1. From your experiences in Level II of the exploratory phase, have you gained a better understanding of the reasons why people work? Explain.
2. Do you feel that you are better able to evaluate your personal traits and abilities in relation to career choices and plans because of your experiences in Career Exploration? Explain.
3. Do you feel that Level II of the Exploratory Phase of Career Education has helped you in any way in being more realistic about your career plans? Explain.
4. Do you believe that all students would benefit from Career Exploration? Explain.

**Seniors Only:** At what grade level do you think Career Exploration would be most helpful for students and why?

5. What have you gained from Career Exploration that you feel will be most beneficial to you in your future career plans?
6. What do you think would make Career Exploration more helpful in preparing for the world of work?

# TALKING SHOP

*To Teenage Consumers*

## **HOME ECONOMICS LEARNING PACKAGE**

### **IDENTIFICATION PAGE**

**Title:** Talking Shop to Teenage Consumers

**Subject:** Consumer Education

**Performance Level:** Secondary School Students

**Purpose:** To assist students in understanding the characteristics of private enterprise, thus enabling them to relate their interests more meaningfully to the market place. Wiser decisions concerning production and consumption will be made if more information is gained in this area and more learning experiences are participated in by students.

**Producer:** Mrs. Louie E. Kemp  
Curriculum Coordinating Unit  
Mississippi State University  
State College, MS 39762

**Date:** February, 1971

## **TEACHER'S SECTION**

### **I. Generalization:**

- A. The characteristics of private enterprise must be understood by teenagers so that consumer credit, purchasing power, and decision making may be meaningful when shopping in the market place.**
- B. Component Ideas:**
  - 1. Private enterprise versus centrally planned economy**
  - 2. Understanding businesses that supply demands of teenagers**
  - 3. Relationship of the structure of buildings in the market place to patronage of the businesses by teenagers**
  - 4. Improved physical environment of shopping areas to stimulate teenage consumers**

### **II. Instructional Objectives:**

- A. The student will state in writing, with 100% accuracy, a complete description of the terms private enterprise and centrally owned economy.**
- B. Given complete descriptions of different types of businesses, the student will select those businesses which supply the demands of teenagers and will state in writing the reasons for her selections.**
- C. The student will state in writing at least five structural components of buildings in the market place which encourage patronage of the businesses by teenagers, stressing the strengths and/or limitations of each structural component.**
- D. Given a model diagram of a teen village shopping center, the student will name those structural features of the center needed to improve the physical environment of the shopping areas to stimulate teenage consumers, logically justifying her answers.**

## **INSTRUCTION FOR THE TEACHER:**

### **I. Instructional approach**

**This learning packet will use the quasi-discovery approach primarily. There will be some facts, data, and information presented.**

### **II. Identification of learners**

**This HELP is developed for average 11th and 12th grade students. It will be used as a part of a one semester course in consumer education, and will lead into consumer credit.**

### **III. Special instructions**

**A. Equipment needed: Tape recorder**

**B. Materials needed: Textbooks and Tape**

- 1. Consumer Economics, Wilhelms, Heimerl and Jelley, New York: McGraw-Hill Book Co., 1966.**
- 2. Using Our Credit Intelligently, Cheyney, William J., Washington, D.C.: National Foundation for Consumer Credit, Inc., 1968.**
- 3. You Are a Consumer of Clothing, Garrett, Pauline G., and Metzin, Edward J., Boston: Ginn and Co., 1967.**
- 4. Teenage Consumers – tape.**

**C. Media needed: Questionnaires (one for each business researched)  
Graph paper and ruler  
Patterns for buildings**

**D. Facilities needed: Home Economics Laboratory**

### **IV. Instructions for evaluation**

**Special requirements: The pretest, self test, and post test were developed from the context of the instructional objectives. The pretest and the post test will be identical in order to attempt to measure the extent of knowledge gained.**

## **SUGGESTIONS FOR THE TEACHER**

- 1. Provide a manila folder, or some type folder, to hold the student section of the learning package.**
- 2. Label each folder -- do not write on the learning package. These packages can be used from year to year.**
- 3. For each student, copy a pretest, self test, post test, questionnaire, house top for boxes, and base for the building. This will keep the learning package intact for future use.**
- 4. Adapt this package to your own class -- revisions in the instructions may make the package more meaningful to your students.**

The following is a suggested introduction which you may want to use with your students:

What is the name of this course? (Write on board -- Consumer Education)  
How many of us in this room are consumers? Yes, we are all consumers;  
but are we all wise consumers? No, we aren't.....I wonder why?

Okay, we buy what we want -- when we want it -- and maybe we don't even need it. What motivates us to buy? Why and how do we buy goods and services? How many of you found everything in this town that you had on your Christmas shopping list last year?

Okay, would you like to have a shopping center that would provide all of your teenage needs?

Good! That's exactly what we'll plan -- and we'll do it individually. Each of you will have a package of material to work with -- your instructions are clear, I think, but you may always check with me if you become confused.

Read well (digest) page 1, then begin -- but do not write on the sheets in the learning packet. I will provide you with a separate pre test, questionnaire, house top and building base pattern, and post test.

Follow all your instructions carefully.

2. **Consumer goods** – goods offered for sale at the market place.
3. **Market economy** – the extent to which goods are produced to meet consumer needs.
4. **Free enterprise** – individual business firms almost free from government control.  
**Free to operate.**
5. **Competition** – two or more individuals or businesses bidding for consumer purchases.
6. **Producer** – one who provides goods or services to be purchased.
7. **Consumer** – one who purchases goods and services to be purchased.
8. **Commercial loans** – loans for business or commercial purposes.
9. **Physical plant** – the structure that houses a business and the fixtures within the structure.
10. **Dollar vote** – we spend our dollars for goods or services that best meet our needs.

## **POST TEST KEY**

**See page 2, Instructions for evaluation. The Post Test Key is the same as the Pre Test Key.**

## **Script for Tape – Teenage Consumer \***

**\* Suggestion: If you do not wish to make a tape, read the script and discuss the material with your students; have them take notes. The tape, however, could be used individually or with groups.**

What are you? Teenage Consumers – that’s what you are. Let’s see if you understand this part of yourself. What is your choice--mini or maxi skirts? Even though you may like minis better, will you buy maxis and wear maxis? I wonder why.

How much do you know about the market place? A market place is made up of buyers and sellers. You are the buyers, or you may be called consumers; and the store owners are the sellers. You go to the store, full of needs and wants, and the store owner wants to satisfy you and your wants and needs. Why does he want to satisfy you? He wants to sell you his goods or services because this is the way he makes a living for himself and his family. What happens if you go into a store and do not find the items you want. You don’t buy anything, right? You go to another store. If a store does not stock items that buyers or customers want, what happens? The seller cannot sell his items, or his stock, or his services – he makes no money. Soon he must close his store and he’s out of business. This won’t feed his family, will it?

Goods are produced to satisfy needs and wants. To keep the wheels of our economy turning, the goods that are produced must be sold. The word “economy” has just been used. What does “economy” mean? It’s really a process – a process that we can visualize as a chain bracelet. Let’s name the links in the chain. We’ll call the first link buying. Let’s call the second link – selling; the third link – producing; the fourth link – earning; and the fifth link – the consumer. [Let’s write these words in our notebook. You can label it, “Economic Bracelet.” (Repeat the links and their names listed above.)]

What happens to the bracelet if a link in the chain breaks? The bracelet will fall off your arm, and the bracelet could become lost. The same thing happens if a link in an economic process is broken. The economy slows down or stops. Consumers are a vital part of the economy – without the consumer, the economy cannot operate. We might say that the consumer is the clasp that holds the links of the chain bracelet together. List the consumer as a very important link in your bracelet.

An effective economy is one that uses the physical resources, the human abilities, and the technological know-how to satisfy the needs and wants of individuals. The main goal of an economic system should be to make available the goods and services that people want and need. What did we say an effective economy is? [You may put this in your notebook. (Repeat the three parts of an effective economy.)]

What is the main goal of an economic system? [Put this in your notebook too. (Repeat -- the main goal of an economic system should be to make available the goods and services that people want and need.)]

We have said that a market place is made up of buyers and sellers. Why do consumers come to the market? To satisfy needs and wants -- they buy goods that best satisfy their needs and wants. within the price range of their income or pocket book.

We feel that we're very lucky in the United States because we have an economy called private enterprise. You're probably asking, "What is private enterprise?" This means that most of the businesses in our country are owned by private individuals. This has worked for a number of years. Make a mental note, or better still, jot down the words - Private Enterprise and later write your own definition of private enterprise in your notebook

Another term we hear used is "free enterprise" This, too, is an important term. Free enterprise means that individuals and business firms are free to run their businesses as they wish. Let's summarize and clarify things by naming four characteristics of private enterprise:

1. Businesses are privately owned, operated, and controlled for the purpose of production, or for retailing goods and services.
2. Individuals have the right to choose among many consumer products.
3. Each individual's income depends upon the quantity or quality of the product or service produced.
4. Individuals produce so they can consume. . they consume with dollars, which are recognized media of exchange or purchasing power.

[Repeat these characteristics for the students to put them in their notebooks.]

Now I'm going to give you an assignment -- write it in your notebook.

Give an example of each of the four characteristics of private enterprise. (Repeat assignment, allowing time to write it down ) Answer this on paper, after this tape is over.

There are three words that help us to better understand our system of private enterprise. They are: Freedom, Competition, and Creativity

Private enterprise allows anyone, teenager or adult, the right to go into business, the right to invent, the right to create, the right to produce goods, and the right to spend income as individuals may desire [Repeat these for students to write in notebooks.]

Do you think teenagers are very important to our economic system? You are right! You are very important! You really have a blast with somebody's money . . did you know you spend 18 billion dollars a year? Well, you do Can you think that

big? Well, 18 billion dollars would buy six million new automobiles, or 700 thousand new homes, or a stack of records 3,000 miles high! You can really bend the ear of the producer.

Okay, let's rename the five characteristics of private enterprise . . . can you do that? I believe you just listed them in your notebook. Think about these characteristics, and name them after this tape is over. This brings us to the question, "What goods and services shall be produced?" Largely, the goods and services that we, or you, demand. Think of the goods that teenagers demand . . . "Mod" clothes, "Mod" hairstyles (such as wigs), makeup, sports cars, hondas, and other things. Your dollar vote helps determine what items are manufactured. If goods sell fast, manufacturers will produce more. Through your decisions, you help determine how the whole nation's resources, people, factories, land, and other resources are to be used. You, as a teenager, are really powerful as an economic force since you are consumers, and since you spend 18 billion dollars a year.

Is there an economy anywhere in the world that is different from ours? Yes, in Russia. Do you know how their economy works and what it's called? The Soviet Union has a "centrally planned economy." The kinds of goods produced, and the number or amount of goods produced, is decided by a planning committee, not by the consumer. Guess who sets the prices on the goods – yes, the planning committee. How would you like this system? If the Central Planning Committee decides not to produce your favorite style of slim jims, or shirts, or skirts, these styles simply don't exist. You buy whatever is in the market place, or you do without. Some common complaints in a centrally planned economy are:

1. Shortages of certain items.
2. Surplus, or too many, of certain items.
3. Poor quality of consumer goods and services.

[Repeat these for students to put in notebooks – label Common Complaints in a Centrally Planned Economy.]

Do you realize there's no competition in a centrally planned economy? What is competition? Do you ever compete for a member of the opposite sex? That's competition. When you are trying to attract someone, do you improve the product. . . the product being yourself, your own appearance, and your personality. I'll bet you do! The same is true in the market place in our private or free enterprise economic system in the U. S. A. The quality of goods and services must be kept high, or the consumer will go where they can find the quality of the goods and services he wants. Okay, let's name five characteristics of a centrally owned economy. (Put in notebooks.)

The state or government controls:

1. every business.
2. all production.
3. all consumption
4. all prices
5. goods and services they are of poor quality and are not improved or varied from year to year.

**STUDENT SECTION**

## LEARNING OBJECTIVES

You have a purse full of power! Do you know who spends 18 billion dollars a year? American teenagers, that's who. Eighteen billion dollars—I'd say you make a pretty big noise in the economic system of our nation. You are "King" and "Queen" of the market place. Best wishes for a successful reign. Would you like a few tips that may make your reign more satisfying?

A better understanding of private enterprise and the role you play in it can help you become a more efficient consumer. The following study of private enterprise is intended to introduce you to a market place that will speak the language of teenagers. We feel that you will want to learn more about goods and services that appeal to you, the "now generation." Learning can be fun! Why not enjoy being a wise consumer?

The teacher is here as your assistant in learning. Ask her any questions that will aid you in learning. You may need assistance in finding references or other materials. She will be happy to assist you.

- A. Compare private enterprise with centrally owned economy by writing your concept of each.
  1. State the main objective of our American economy.
  2. State the main objective of a centrally owned economy.
  3. Write which economy you prefer and tell why you prefer it.
  
- B. Given the names of businesses that interest teenagers, and questionnaires with which to conduct interviews, state in writing:
  1. Two businesses that interest you most.
  2. Information found during interviews with managers of three similar businesses. Use questionnaire to conduct interview.
  
- C. Construct a model of each chosen business. Suggested materials are:
  1. Boxes (any shape).
  2. Cardboard or poster board for original creations.
  3. Enclosed pattern for building.
  
- D. Given graph paper and a ruler, draw a plan for your ideal Teen Village shopping center, and write your reasons for this arrangement.

## PRETEST

This pretest is not for the purpose of a grade, but to help you decide the extent of your knowledge of economic systems and the market place, and to help you recognize need for areas of further study. The first five questions have blanks for you to fill in to the best of your ability. The following fifteen questions are to be answered with T or F in the blanks preceding the numbers. You are to define the terms on the last ten questions. When you have completed the test, check with your teacher. She will give you a test key and you will grade your own test, then return the test key to your teacher.

### FILL IN THE BLANKS

1. Name 3 sources from which an individual may secure finances to open and operate a business.
  - a. \_\_\_\_\_
  - b. \_\_\_\_\_
  - c. \_\_\_\_\_
  
2. Name 6 items that you would consider "overhead" in a business.
  - a. \_\_\_\_\_
  - b. \_\_\_\_\_
  - c. \_\_\_\_\_
  - d. \_\_\_\_\_
  - e. \_\_\_\_\_
  - f. \_\_\_\_\_
  
3. Why are goods produced?  
\_\_\_\_\_
  
4. What should the main purpose of the economic system of any country be?  
\_\_\_\_\_  
\_\_\_\_\_
  
5. Why have we, for the most part, attained a high standard of living?
  - a. \_\_\_\_\_
  - b. \_\_\_\_\_

**ANSWER TRUE OR FALSE (T or F)**

- 1. Several sources of consumer information should be consulted before making a purchase decision.
- 2. Comparative shopping will result in greater saving.
- 3. Private enterprise is an economic system.
- 4. Private capitalism means that each U. S. citizen does not have the right to own a piece of the U. S. A.
- 5. In Russia the State controls production of goods and services.
- 6. Competition is unhealthy in private enterprise.
- 7. Creativity is the basis of a centrally owned economic system.
- 8. Improved skills and abilities as consumers help to determine to what extent we control economy.
- 9. The exterior of a building always indicates the quality of the goods offered inside.
- 10. Private enterprise allows men to create, produce, and enjoy the income that results from the venture.
- 11. We produce so that we can be consumers.
- 12. Goods and services are always of excellent quality in a centrally owned economic system.
- 13. Freedom characterizes private enterprise.
- 14. Consumers come to the market place with needs and wants to be satisfied.
- 15. In a centrally planned economy, goods are produced in response to the desires of consumers.

## **DEFINE THE FOLLOWING**

**In your own words, write what you think these terms mean.**

- 1. Market place**
- 2. Consumer goods**
- 3. Market economy**
- 4. Free enterprise**
- 5. Competition**
- 6. Producer**
- 7. Consumer**
- 8. Commercial loans**
- 9. Physical plant**
- 10. Dollar vote**

## LESSON I

### Component:

**Private enterprise versus centrally planned economy**

### Objective:

**Compare and contrast the characteristics of private enterprise with the characteristics of a centrally owned economy by writing your interpretation of each.**

- a. **State the main objective of our American economy.**
- b. **State the main objective of a centrally owned economy.**

### Instructions:

**Do the following learning activities, and you will find information that you need to reach the objective. When you think you have reached the objective, go on to the next lesson.**

### Learning Activities:

1. **Read:** Consumer Economics, Wilhelms, Heimerl, and Jelley, New York: McGraw-Hill, 1966, pp. 1-18.
2. **Read:** Using Our Credit Intelligently, Cheyney, Will. J., Washington: National Foundation for Consumer Credit, Inc., 1968, pp. 1-6.
3. **Read:** You Are a Consumer of Clothing, Garrett, P. G., and Metzen, Boston: Ginn and Co., 1967, pp. 14-24.
4. **Listen to:** Tape – Teenage Consumer, Tape covers the above reading from texts.
5. **Work with a group of four classmates. Improvise two market places and originate a name for them. Let one market place be operated by a “central planning group” of a centrally planned economy. Let the other market place be operated by private enterprise. Be as creative as possible – show differences that result from the type of economy used in operating the market place. Role play this scene for the entire class. Ask for questions and comments from the class.**

## LESSON II

### Component:

Information to be obtained by interviews with managers of favorite businesses.

### Objective:

Given the names of businesses that interest teenagers and questionnaires with which to conduct interviews, state in writing:

1. Two businesses that interest you most.
2. Information found during interviews with managers of favorite businesses. Use the questionnaires to conduct interviews.

### Instruction:

1. As an 'outside-the-classroom activity,' arrange an interview with the manager of your favorite business. Conduct interview. Continue this procedure until you have interviewed your two business managers.
2. Discuss with individuals, or in groups, the information gathered from your interviews, or discuss materials with your teacher.

**Materials needed:** Questionnaires designed to use in conducting interviews.

When you have finished this lesson, take the self-test which deals with learnings from Lessons I and II. Then proceed to Lesson III.

### Learning Activities:

1. Interview manager of your favorite business at appointed time.
2. Record information in blanks provided on questionnaire.
3. Discuss your findings with one or more classmates and your teacher.
4. Interview manager of your second favorite business at appointed time, and record information on questionnaire.
5. Discuss findings from first and second interview with a group of three classmates. Then, role-play one interview from each member of the group. Do the role-play for the entire class.
6. Evaluate interview results by letting class vote for the most and best information gained as shown by role-play.

## QUESTIONNAIRE

1. Name of business \_\_\_\_\_
2. Business founded (year) \_\_\_\_\_
3. Cost of establishing business (approximately) \_\_\_\_\_
4. Number of employees \_\_\_\_\_
5. Where do you purchase merchandise? \_\_\_\_\_
6. What procedure do you go through to restock merchandise? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
7. What do you consider as being overhead expenses? \_\_\_\_\_  
\_\_\_\_\_
8. How do you decide what mark-up to put on the goods or services? Is there any regulation on it? \_\_\_\_\_  
\_\_\_\_\_
9. How are the procedures started and carried out to secure finances to open a business? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
10. How many years did it take or will it take to have the business free of debt? \_\_\_\_\_  
\_\_\_\_\_
11. Are there any sales pitches or advertising "come on's" that cause business to increase? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
12. What is one thing that you might say to me as a customer that would cause me to want to buy your goods or services? \_\_\_\_\_  
\_\_\_\_\_

13. What are 3 suggestions you can give me to help me be a wise consumer in your business? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
14. What system of credit do you have set up to aid your customers?  
\_\_\_\_\_  
\_\_\_\_\_
15. Is your business, or your goods or services, seasonal? If so, what effect does this have on your business? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
16. What is the approximate population of your trade area? \_\_\_\_\_  
\_\_\_\_\_
17. What age group do you cater to? \_\_\_\_\_
18. What is the average income level of your customers? \_\_\_\_\_  
\_\_\_\_\_

## **SELF TEST**

**Answer the following questions orally with the teacher or with a classmate.  
If you prefer, you may write the answers.**

**When you have answered the questions, check with the Key to the self test  
on the last page of the unit.**

- 1. List 4 characteristics of private enterprise.**
- 2. What is the principle upon which private enterprise is based?**
- 3. Who makes the decisions as to what goods and services will be produced in a centrally planned economy such as Russia?**
- 4. List 2 constant complaints we hear from consumers in centrally planned economies.**
- 5. Do you think you are more interested or better informed, or both, as a result of your interview? Explain your answer.**

## **LESSON III**

### **Component:**

**Models of favorite businesses**

### **Objective:**

- 1. Construct models that will best describe your concept of ideal structures to house your businesses.**
- 2. Give your business an appropriate name.**

### **Instructions:**

#### **Materials needed:**

- 1. Boxes, such as shoe boxes, oatmeal boxes, corrugated boxes.**
- 2. Poster paper**
- 3. Design prepared for constructing a structure**
- 4. Cutting instrument (obtain from teacher)**
- 5. Stapler and staples (obtain from teacher)**

**When you have finished Lesson III, continue with Lesson IV.**

### **Learning Activities:**

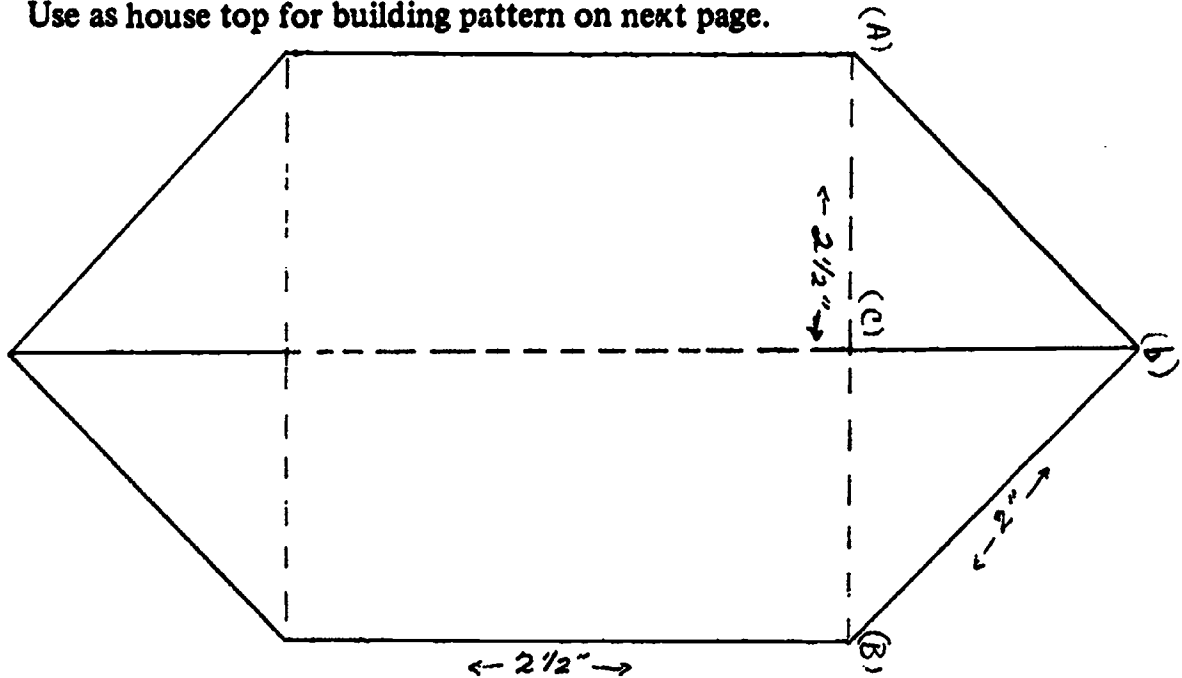

- 1. Create structures to represent your businesses.  
(Let your imagination do its thing.)**
- 2. Write a description of the interior of your ideal structure; include color scheme, type fixtures, and arrangement of fixtures, and anything else you wish to include.**

## PATTERN FOR HOUSE TOP FOR BOXES

The pattern may be enlarged to any size.

Directions for Cutting and Scoring Cardboard:

1. Cut on solid line.
2. Score on dotted line.
3. To score, cut along line with razor blade, but do not cut all the way through cardboard.  
Fold along the cut.
4. Fold one end piece over the other and fasten.
5. Use as house top for building pattern on next page.

To enlarge the house top pattern, the following scale may be used:

1. Measure the width of building AB (below).
2. Mark the center of line C.
3. Draw a line (b) to the width at the center point.
4. Use this to make the building top (above).

$$\underline{AC = Cb}$$

$$\underline{CB = Cb}$$

**BASE FOR BUILDING**

---

---

- 
1. Cut on solid lines.
  2. Cut to 0 from edges.
  3. Fold as directed.

B-27

## LESSON IV

**Component:**

**Teen Village, U. S. A.**

**Objective:**

**Draw a plan to show your idea of an ideal teenage shopping center.**

**Instructions:**

**Materials needed: (Obtain from teacher)**

**Graph paper**

**Ruler**

**Magazines**

**Papers**

**When you finish Lesson IV, you will be ready for the post test. Ask your teacher for it.**

**Learning Activities:**

**Work in group with three or four classmates.**

- 1. Discuss possible shapes of total shopping center.**
- 2. Discuss possible locations of streets.**
- 3. Discuss possible locations of individual businesses.**
- 4. Discuss parking space.**
- 5. Explore magazines and papers for ideas about 1,2,3, and 4.**

**Separate from group.**

- 6. Draw a floor plan on graph paper to show your ideal shopping center.**
- 7. Set up Teen Village, U. S. A. The entire class will participate. Arrange buildings (your models), roadways, sidewalks, etc. Re-arrange until the majority of the class is satisfied.**

## **QUEST OPPORTUNITIES**

**Students interested in looking further into private enterprise, or wishing to explore some other aspect of the market place, discuss with your teacher the following suggestions:**

- 1. Arrange an interview with the owner or operator of a business.**
- 2. Apply for a part-time job and begin to get first-hand information about business and its relationship to the public.**
- 3. Begin a calendar of events that take place when you shop in different businesses. Jot down change in prices, special discount days, activities you observed while in the store, etc.**
- 4. Choose any related activity you prefer. This may be considered a home experience.**

## **SELF TEST KEY**

1.
  - a. The right of a man to go into business.
  - b. The right of a man to invent.
  - c. The right of a man to create and produce to the best of his ability.
  
2. That every American has the fundamental right to save and accumulate wealth.
  
3. The central planning committee.
  
4.
  - a. Shortage of desirable consumer goods.
  - b. Poor quality goods and services.
  
5. This question would bring a different answer from each student. Discuss your answer with your teacher.

**Values For Teenagers: The Choice Is Yours**

Helps your students analyze the problem of forming personal values amid conflicting pressures from adults and peers.

Interviewed teenagers discuss confusion and bitterness caused by adult hypocrisy and sexual conduct, school achievement and college acceptance, cheating, smoking and drinking. Then they probe the dangers of over-zealous conformity to dictates of the peer group; reasons why social alliances are important to young people. Program asks students how they react when friends begin proving themselves foolishly, demanding similar conduct of others. Program constantly stresses the availability of personal choice. Counselor's Guide helps you lead forthright discussion about values as an expression of true individuality.

 Teachers Guide

**YOU GOT MAD: ARE YOU GLAD?**

Herb, an observer to a group conflict, steps in and calms the hostile participants. Your children explore — causes, effects, and expressions of hostility, behavioral choices available in conflict situations, ways to resolve conflicts with minimal hostility.

Part I: 54 frames / 6 minutes  
 Part II: 52 frames / 7 minutes  
 2 filmstrips; 1 12" LP / \$18.00 / D-340 909  
 2 filmstrips; 1 cassette / \$20.00 / D-340 917  
 Teachers Guide

**Somebody's Cheating!**

Program helps students analyze the moral, psychological and social consequences of cheating — for the individual and his society. Interviewed students, teachers and parents discuss reasons behind cheating, "laziness," inability to study, parental pressure to achieve. They suggest ways to counter cheating: more efficient punishment, de-emphasis on rote recall tests, teaching study skills more effectively. Students, parents and teachers take up the question of adults cheating: on taxes, in marriage, in business. . . . How does this relate to student cheating? Do students use it to rationalize their own weakness? Program concludes that personal integrity is the only realistic answer to cheating.

 Discussion Guide

**The Role of the Counselor in the Secondary School**

Gives parents specific understanding of how counselors help today's students. Program follows a counselor through his typical working day: interview with a bright, under-achiever; conference with art teacher on motivating a particular student; giving job and scholarship items to the school newspaper; consulting with parents; listening sympathetically to a girl with personal problems; readying a student for his

**Personal Commitment: Where Do You Stand?**

In Part I, six forthright youngsters discuss the concept of commitment in terms

of parental loyalty, responsibility at home, educational objectives, romantic relationships, involvements with religious organizations, participation in local political issues, movements for social reform. In Part II, Richard Eng, Principal of Dwight Morrow High School, Englewood, New Jersey, joins the groups and stimulates discussion of criteria necessary for responsible commitment — development of individual self-awareness, and self-respect. Students explore the importance of evaluating relevant first hand and second hand *experience*. They discuss the importance of seeing the probable *consequences* of individual commitments and actions. And they probe the central role of *emotion* in determining the "rightness" of specific commitments. Program concludes with a series of "open-ended" situations which invite your students to examine their own lives and their feelings about commitment.

## The Exploited Generation

In Part I, students see how advertisers and manufacturers view them as a market. They learn how Youth Report Magazine informs industry about young tastes and interests. Young people discuss their own buying habits and motivations, analyze factors which distinguish wise from unwise buying, comment on use of status, personal insecurity and conformism as selling points. Part II focuses clearly on ways young people can buy more wisely now and become intelligent adult consumers. Experts, led by former Presidential Advisor Betty Furness, discuss: dealing with sales personnel, mass media advertising, credit buying, luxury versus necessity, banking, consumer education in the schools. Program features exclusive interviews with: New York disc jockey Gary Stevens, George Johnston, Promotion Director of Seventeen Magazine, Samuel Grafton, Publisher of Youth Report.

## The Tuned-Out Generation

Program introduces Inter-viewed parents with varied viewpoints; the father who has tuned out on his son's needs, the mother who learned all about her son's world and found her familiarity rejected, the parent frustrated by complete inability to communicate with young people, the father who considers his son's idealism a stimulus to his own. By meeting these parents at their most candid, in a situation free of tension, students understand more clearly the human strengths and weaknesses most parents share. More important, your young people see ways to use this new understanding to reduce family flare-ups, cut through mutual uncertainty, admit and rectify mistakes without feeling a battle has been lost.

Discussion Guide

## Dare To Be Different

In Part I, students examine social and moral strength they derive from sharing common ideas, styles and loyalties. Then they see life situations where "fitting-in" requires ethical compromise, where conflict occurs between adult and peer norms. Program suggests "conformists" base actions on outside pressure while individuality means ability to act on the merits of each situation in accord with personal conviction. Part II probes conformist traditions in America: the immigrant ideal of assimilation, the tendency of business to hire "average people," status oriented materialism. Students meet many who have resisted these pressures, see key differences between the total rebellion of hippies and the creative individuality of artists and other imaginative workers. Program concludes by relating these social themes to choices students make daily — between enriching and diminishing themselves.

Part I: 97 frames / 15 minutes

## A New Look at Home Economics Careers

Program describes opportunities and nature of work in dietetics, the Extension Service, institution management, welfare, home economics research, customer relations for public utilities, retailing, home economics teaching and in communications fields from journalism to advertising. Working home economists discuss their own careers. Students see college training needed: types of courses required, extra-curricular activities and pre-professional organizations, early specialization programs for the home economics diploma. Program emphasizes the many openings available now and in the future, good salary, excellent advancement. Students also see the value of home economics training in raising their own families.

1 filmstrip; 1 cassette / \$20.00 / D-103 331

## Your Personality: The You Others Know

Students first hear peers describe personality as distinct from character, describe positive personality traits: kindness, sincerity, sense of style, interest in others — negative traits including "phoniness," exaggerated self-involvement. Program considers the relationship between personality and physical appearance, the self-expression theme in current fashions. Throughout, your students relate each issue to their own lives, prepare to discuss their individual self-images. Part II explores the negative effects of insecurity and self-consciousness on the total personality, ways to master fears, check their influence on behavior. Young people contrast realistic self-improvement goals with dead-end frustration over physical limitations, faults in friends and fixed facts of life. Program stresses the importance of working for self-discovery and remaining open to diversity in others.

**Failure: A Step Towards Growth**

Helps young people  
1. Identify internal causes of failure and begin to deal with them. 2. Avoid over-

reacting to specific failures. 3. Analyze failure situations objectively in terms of planning and strategy. 4. Learn from failure. Program begins with a brief discussion of such early "failures" as Da Vinci, Lincoln and Churchill. Students see specific ways to review their method of operation, know when to bear down harder, retreat gracefully, try another approach. They see how to recognize and cope with fear of competition, fear of failure itself, even fear of success. They understand the danger of letting failure become a habit, using it as an excuse to give up on themselves. Candid student and counselor interviews underline the universality of failure experiences.

**Four Who Quit**

Peter, a 20-year old truckman's helper, discusses his bleak future.

Jimmy, a bright Negro boy, describes how reading weakness is keeping him from advancement as a mechanic. Marjorie tells how her hopes for a glamorous career have fallen apart. Richard, a 28-year old salesman, explains how a belated high school diploma finally gave him a chance. Guidance counselor Ralph Jonas uses statistics and common sense to show why corporations don't hire dropouts, the army often rejects them and automation is eliminating the need for their labor. Program demonstrates the overwhelming necessity for graduating from high school no matter what the effort or sacrifice required. Counselor's Guide helps you impress this message on every individual through group discussion.

**Dropping Out: Road to Nowhere**

Part I examines dropping out and the world of work today. Dropouts articulate the major reasons most young people quit school. Then they describe what they found on the outside: menial jobs, little advancement, job insecurity. Employers tell what the high school diploma means to them: reliability, maturity, basic intelligence, character, self-respect. Throughout, the program highlights statistics and examines reasons behind them. Part II focuses on dropping out and the world of work tomorrow. Students see how automation is eliminating unskilled jobs and learn that the armed forces will not train non-graduates for career specialties. Program explains that from now on employers will demand diplomas as proof of ability to learn; an ability central to career patterns now developing. Program also probes the responsibility of future parents to provide basic cultural enrichment for their homes.

Part I: 85 frames / 12 minutes

**Hung Up on Homework?**

Students, teachers and guidance counselors discuss the value of homework, ways to do it more effectively and benefit more from assignments. Narrative and candid interviews first analyze key questions: What is homework's contribution to learning? What is the function of daily review? Is parental pressure harmful or counter-productive? How is homework cheating harmful? What is a "reasonable" amount of homework? Then the program details practical ways to improve study habits for homework; shows how to form a plan of action, create proper study environment, review work, use study nalls, learn from mistakes.

**The Alienated Generation**

Part I, which is without narration, fills your classroom with the faces, sounds and life styles of the original hippie movement. High-impact color photos and music taped on location . . . recreate the spirit and moods of San Francisco's Haight-Ashbury section during its heyday as a sanctuary for the "flower revolution." Part II explores the background of most hippies: affluent homes, college education. Hippies explain why they dropped out, describe lack of communication at home, disgust with war, poverty, racism, materialism. Part III examines daily life in Haight-Ashbury: communal living, "free" clothes, food, drug use, interpersonal relations. Students also confront the disorientation and tragedy awaiting many dropouts. Program builds perspective on current offshoots of the "flower society," invites discussion of other ways to change society and gain self-fulfillment.

**High School Course Selection and Your Career**

Program shows students how course selection helps them: 1. Prepare for future training and education. 2. Pinpoint their own aptitudes, interests and abilities. Part I emphasizes the importance of English, math, science and history to personal career growth; discusses value and purposes of academic diploma, vocational and general diplomas. Part II relates elective courses to practical career plans: language courses, public speaking, mechanical drawing, home economics, cultural enrichment courses; highlights on-going value of extra-curricular activities: school newspaper, band, sports, career and service clubs. Program underscores the role of the guidance counselor in helping students choose courses wisely.

**Getting Into College if You're an Average Student**

Program shows average students the wide opportunities for college acceptance available to them. Part I points out factors colleges consider which aren't shown on academic transcripts. Students examine motivational changes which cause "late bloomers" to flower in college. They hear of admissions policies favoring hard workers, and of others searching out bright under-achievers. Part II surveys the more than 2,000 four-year colleges and other training programs available, points out that many are admissions-hungry, that one third accept virtually all applicants and that over 40,000 freshmen seats go empty each fall. "C" students get tips on finding the right college for them; using non-profit admissions centers. They see the value of honest self-evaluation and work with guidance personnel.

Part I: 69 frames / 15 minutes  
 Part II: 71 frames / 17 minutes

**Should You Go to College**

Narrated by an experienced guidance counselor, program emphasizes the availability of college education to students with varying grades, career ambitions and financial resources. Students consider the wide range of state, church-related and liberal arts colleges, urban universities, technical institutes and community colleges. Two parallel case histories demonstrate how a college education may demand early sacrifice but bring personal and financial rewards usually beyond the reach of those without college training. Program reviews tuition-free college education, loans, part-time employment which make financing possible, "second chance" admission policies which stress motivation over previous performance.

83 frames / 15 minutes

 1 filmstrip; 1 cassette / \$20.00 / D-104 917

**Choosing a College**

Helps students plan a basic "countdown" for making initial college selections, investigating colleges and matching them to personal needs and interests. Students see ways to distinguish primary from secondary criteria. They recognize the danger of basing plans on those of friends or unwise parental pressure. Program discusses scholarships, explains who should seek out vigorous intellectual challenges, stresses the importance of considering departmental and faculty strength rather than "prestige" in evaluating colleges. Finally, students review common points which may influence their decisions: college size, geographic location, urban, suburban or rural setting, coeducation, social structure, costs, athletics, other facilities.

**How to Succeed in High School ... By Trying**

Successful adjustment to high school calls first for an understanding of the ways in which the high school experience differs from earlier school experiences. Even more important, it calls for an attitudinal change on the part of the student to permit him to meet new challenges and handle increased personal responsibility. It emphasizes how to get the most out of the high school years, including teacher and counselor contact, studying, classroom participation, extra-curricular activities and developing friendships. Most important, material relates the importance of a high school education to future opportunity. While the program does explore the newness of the high school experience — new environment, new teachers, new friends, new methods — it focuses primarily on the individual's responsibility in attempting to prepare for the years ahead.

**Developing Your Study Skills**

Mr. Lass details practical methods for home study, classroom learning and test taking. First he discusses simple homework aids: the right desk, chair, light and convenient bookshelf. Then he stresses the value of solitude, suggests ways to fight distraction and escapism, schedule time, memorize and review efficiently, establish study priorities. Next, he focuses on vital classroom skills: listening well, asking questions, the proper way to take notes, ways to use notes. Finally, students receive pointers on test-taking: being physically fit, building the right attitude, reading directions, budgeting time for each part of the test. Program underscores the futility of cramming. Counselor's Guide reinforces key points, brings out related problems.

**Testing, Testing, Testing**

Part I demonstrates six practical rules for taking curriculum-based tests: prepare, read test carefully, budget time, play safe hunches, review, develop constructive attitudes. Sample true-false, multiple choice, matching and essay questions show how to apply these rules. Students also learn ways to improve study habits and save time on tests. Damaging effects of cheating are clearly identified. Part II explains how standardized tests help students measure their interests, aptitudes and abilities. Program graphically describes the Bell curve in many applications and introduces various types of standardized tests. Next, students gain practical tips on reading instructions, reviewing accurately, handling different kinds of questions. Counselor's Guide helps you build positive student attitudes on testing.

**Testing: Its Place in Education Today**

Part I traces the historical development of standardized aptitude and achievement tests, explains their general objectives and purposes. Program then takes your students to Princeton, New Jersey, to see how the Educational Testing Service actually constructs an achievement test. Viewers understand the roles of contributing teachers and test committees, the process of pretesting, revision, constant review of tests' predictive validity. Program also discusses current research in evaluation of motivation, creativity. Part II gives detailed advice for use of standardized tests in the elementary classroom, for high school guidance and college admissions, demonstrates optimum utilization through case histories, identifies major areas of test misuse by educators.

Part I: 66 frames / 15 minutes

**You're More Than a Score**

Program gives students a complete explanation of the American College Testing system. Part I introduces students to the four types of ACT tests: Math, English, Social Science and Natural Science. Students learn how and where these tests are constructed, what they measure, why they are necessary. Part II explains where and when students can take ACT tests, shows how test information is computerized and recorded on cards for student, high school and college choices. Individual case history helps demonstrate ways admissions officers use ACT data: to match the student's abilities and interest against college curriculum and activities, predict each student's general chances for success. Students also review ACT's value in helping them plan courses, select majors, think about future careers.

**High School Course Selection and Your Career**

Program shows students how course selection helps them 1. Prepare for future training and education, 2. Pinpoint their own aptitudes, interests and abilities. Part I emphasizes the importance of English, Math, Science and History to personal career growth, discusses value and purposes of academic diploma, vocational and general diplomas. Part II relates elective courses to practical career plans: language courses, public speaking, mechanical drawing, home economics, cultural enrichment courses; highlights on-going value of extracurricular activities: school newspaper, band, sports, career and service clubs. Program underscores the role of the guidance counselor in helping students choose courses wisely.

**You and Your College Entrance Examinations**

Program clearly explains why College Boards and ACTs are needed, how they are created and scored, how they are used by colleges and how your students can best prepare to take them successfully. Students also learn of free introductory booklets available such as the Preliminary Scholastic Aptitude Test. They understand the functions and relative importance of verbal and mathematical aptitude tests, subject achievement tests. Prepared with CEEB and ETS, program suggests ways test scores can be used by student and counselor for individual planning, and places major emphasis on effective ways to prepare for college entrance examinations.

Consulting Editor: T. Leslie MacMitchell,  
 Executive Associate, College Entrance Examination Board.

**I Wish I'd Known That Before I Went to College**

The authors personally confront your students with the realities of college life as opposed to common misconceptions; analyze valid vs. invalid reasons for going to college. Through case histories, they prepare students to deal with post-orientation week letdown: feelings of social and academic inadequacy; post-Christmas "depression," roommate problems, "transferitis," fraternities, personal freedom: its possibilities and pitfalls. Students also see how to upgrade study skills when necessary; deal with teachers who vary in their methods of testing and grading criteria. Identify and act upon causes of failure, take and use notes effectively.

**Preparing for the Jobs of the '70's**

Part I shows how trends in space exploration, computerization, population growth, undersea farming, the development of new products and services will affect tomorrow's job market. Your students see and hear tomorrow's jobs described by bright, enthusiastic young people who are already filling them. Part II continues to highlight the projected job picture with an examination of atomic technology, its many subfields and developing staff needs. Finally, students explore new opportunities in previously "traditional" areas: health and medicine, law, education, sales, building trades.

**Babysitting: The Job—The Kids**

Program covers virtually everything young babysitters should know for a sound basic approach to their job. Experienced boy and girl sitters discuss getting work, handling fees, emergencies, having the right phone numbers handy, deciding when to call, feeding children, bedtime, strangers at the door, in case of fire, police situations, drawing the line at sitting for "extra" children, special "don'ts" like leaving children in bathroom alone. Parents explain what they want most from sitters: promptness, interest in children, accurate reporting, neatness, general thoughtfulness. Program demonstrates basic rules for babysitters: don't try being the parent, give affection freely, be firm, treat children as individuals, don't sit for child you don't like.

**Jobs for High School Students**

Part I helps students explore their own reasons for wanting to work, helps them distinguish superficial job benefits such as pocket money from more important benefits such as experience. Shows how job objectives should affect job choices. Stresses the danger of taking jobs which demand too much time and energy. Points out common experiences and abilities which are often positive job qualifications. Part II

**A Job That Goes Someplace**

Actively involves students in the pre-job and on-job decision-making processes. The dynamic format introduces several young people in actual job-finding and job-holding situations. As Wally gets a good job that's right for him, but almost quits, then gets promoted . . . as Joe uses his job interview to ask serious, probing questions . . . as Jim finally quits a

**If You're Not Going to College**

Part I starts students thinking about realistic career possibilities: military, linguistic, fashion, performing arts, landscaping, hotels and resorts, drafting, photography. Outlines first important stages of career planning: Measuring one's own needs and aptitudes, relating them to careers, selecting the appropriate high school courses, mastering the job interview, adjusting to the first job. Part II emphasizes the importance of specialized non-college training; investigates various junior college and technical school programs, examines the growing impact of automation and resulting need for technically skilled personnel.

**Your Future in Elementary Education**

Program examines personal qualities which make good teachers and strongly emphasizes the intangible rewards of teaching. An undergraduate describes her liberal arts-based curriculum, courses in education and student teaching. Your group learns three basic principles of teaching: clarity, patience and responsibility. Students examine central objectives of Early Childhood Education, development of subject areas and learning skills. They see clearly the demand for new teachers, opportunities open to them, advantages and challenges of urban, inner-city, suburban and rural teaching. Program also examines improving salaries, tenure and other benefits, post-graduate work in key specialties, consultant work in many areas of elementary education. Ideal for use with Future Teachers of America organizations.

**Preparing for the World of Work**

Part I demonstrates to students the crucial necessity of choosing professions or vocations in line with their own aptitudes and interests. Program offers sensible advice on evaluating one's capabilities and aptitudes, stresses the value of consulting guidance counselors and teachers. The concept of vocational education is then introduced as an integrated learning program involving classroom, shop, lab and actual

**Choosing Your Career**

Part I describes six general personality types: "social," "intellectual," "conventional," "enterprising," "realistic" and "artistic." Students see the broad career areas in which these characteristics are most successfully expressed. Part II helps students evaluate their own personalities in these terms, gain new perspective on their educational and career possibilities through new in-

**What You Should Know Before You Go to Work**

Part I explains ways students can begin narrowing down career choices, discusses positive work attitudes: willingness to continue learning, need to persevere. Program considers union membership in some areas. Case histories show how a young bookkeeper, a nurse and an assistant airplane mechanic built fine careers from bottom-of-the-ladder jobs. Part

**Jobs and Gender**

Program challenges stereotypes about "woman's work" and "man's work"; indicates today's trend is toward more realistic job classifications based on individual interest and ability. Part I: Patricia, a carpenter, explains how she started in carpentry; describes her relationships with fellow workers; discusses her responsibilities as a mother and her feelings about carpentry as a field for women. Robert, a nurse, discusses his humanitarian motives for becoming a nurse; notes recent increases in number of male nurses; and talks about his clinical and administrative duties. Part II: Eleanor,

job situations. Part II investigates in clear, specific detail the five major areas of vocational education: home economics, trade and industry, agriculture, distribution, business and office. Student, teacher and employer interviews convince students of the availability and effectiveness of such training.

## Why Work At All?

Introduces three young people who discuss and debate their own feelings about job "satisfaction," material rewards, and the relationship of work to personal growth and development. The emphasis is on each youngster's personal work experiences. They probe the idea of work as a major outlet for psychological drives and consider the consequences of a job which frustrates rather than expresses these drives.

## Liking Your Job and Your Life

Features skilled workers speaking directly and spontaneously to your students about their work and their life styles. Students meet the self-employed TV and radio repairman who sets his own hours, takes pride in his craftsmanship and values his complete independence. A factory worker explains the satisfaction of contributing to a better living standard for her family — by doing well-paid, intricate work in a pleasant, sociable atmosphere. Students meet a dedicated Spanish-American com-

## Careers in Materials Engineering: The Aerospace Age

The program begins by looking forward to the "Quasar Age" and the fantastic metals it may offer us. Then, students see the importance of metallurgy in present space projects: Saturn/Apollo and the interplanetary Nova vehicle, in fuels and stress-bearing parts, wiring, refraction. They explore metallurgy as related to consumer goods production, view patterns of international cooperation in metallurgy. Finally, students learn about careers now opening in the three main branches of metallurgy: Extraction (finding and mining metals), Research (developing new alloys, compounds and materials) and Industrial (creating new applications for space projects and electronics). Comment by James Boyd, former Director of the U.S. Bureau of Mines and Dr. J. H. Holloman, former Asst. Secretary of Commerce for Science and Technology.

**And They Lived Happily Ever After? Understanding Teenage Marriage**

To a teenager, the idea of marriage at an early age is appearing more and more attractive — the average age of couples at the time of marriage is dropping every year. Fully 35% of all marriages will be teenage marriages and, if present rates continue, half of these will end in divorce within 5 years. Why? *And They Lived Happily Ever After?* explores the underlying causes of early marriage, and provides perspective by answering important questions

**Becoming a Woman/ Becoming a Man**  
(Revised)

In Part I, detailed studies of male and female reproductive systems help students understand the comparative developments of puberty in boys and girls; explains respective physical changes and their reasons. Part II focuses (in two separate sections) on the emergence of male and female sexuality. Program discusses the male's emotional and physical responses to sex; masturbation; responsibility in sexual situations; the importance of strengthening shared sexuality through a realistic understanding of female needs and expectations. Program explores changing views of female sexuality; physical and emotional responses to sex. Emphasizes the idea that an individual sex role is part of one's total and continuing adjustment to life.

**The Future of the Family**

Examines past and present trends in family living and projects them into the future; discusses nuclear and extended families, cluster and communal living; considers forces affecting the family: women's liberation, overpopulation, aspects of urban and suburban life.  
2 parts / 8F-101 566

**Love and Marriage**

Part I centers on discussion by three couples trying to understand love and contemplating marriage: high school students going steady, an engaged college couple, and two young people living together in a "test marriage." Part II introduces a 24-year-old couple married for three years, another couple divorced after nine years and a third happily married for 20 years. A professional marriage counselor helps relate their experiences, views and problems to major concerns of married people — the need for realistic concepts of love and married life, personal maturity, independence and flexibility, ability to adjust in such key areas as sex, money, work, in-laws and parenthood. All participants stress the need for honest self-awareness as the program's candid, non-directional approach sparks enthusiastic group discussion and exploration of issues.

**Understanding Your Parents**

In-depth interviews with young people and parents develop

insight into factors affecting parent/child relationships; explore misconceptions and double standards on the part of both; consider how and when productive relationships function. Adult participants candidly discuss: their own envy of freedom enjoyed by youth today; the difficulty of coping with issues like marijuana when young people often know more than they do; the problem of deciding how much authority to exercise; dealing with the temptation to be over-indulgent; facing up to insecurity which inhibits communication with youngsters. Sons and daughters articulate such basic gripes as having arbitrary limitations set on them; feeling as though parents don't trust them. Program is designed to help students talk openly about what happens at home and how they can make things better.

**'Do We Live or Exist? (By the Students)**

This 12-minute, full-color sound filmstrip was produced entirely by high school students in Hartsdale,

N. Y. They wrote the script, took the photographs, composed and played the jazz/rock score. The program deals poetically with the experience of being young in a world where loneliness, environmental pollution and the difference between living and existing are matters of daily consciousness. The images and poetry create juxtapositions you don't expect — a bleak ghetto street, brick wall slogans, suburban classrooms, the serenity of a silent park, children. It is subjective and powerful. It creates mood, focuses emotion and will fill your classroom with the energy and enthusiasm of open, vibrant dialogue.

**You and the Law**

Part I explores distinctions between felonies and misdemeanors, civil and criminal law, conviction as adult and youthful offender.

Program details the life-long consequences of a felony record: loss of voting rights, employment limitations, public and police suspicion. Students discuss personal involvement with vandalism, car theft and narcotics violations, argue pros and cons of laws and law enforcement methods. Part II confronts students with the harsh, immediate realities of arrest and jail, explains how youth courts work, why they are sometimes cruel or inefficient, emphasizes the shattering trauma jail often inflicts on young people. Finally, students hear precisely what their rights are when arrested and how to protect these rights. Program features extensive comment by Milton Rector, Director of the National Council on Crime and Delinquency.

Part I: 117 frames/14 minutes  
Part II: 98 frames/15 minutes

**Growing into Womanhood/Growing into Manhood (Revised)**

Program explains the male and female reproductive systems, the meaning of puberty in both sexes, maturation processes

which accompany puberty—altered growth rates, appearance of body hair, changes in the sexual organs, boys' ability to produce semen, menstruation in girls. Students see how the pituitary, thyroid and adrenal glands help change the body; how testes, ovaries and hormones contribute. Finally, program offers practical suggestions to help boys and girls approach and deal with problems and adjustments intrinsic to this crucial period of personal development. For intermediate grades.

**Reflections of Myself: The Adolescent Experience**

Poetry, prose and music created by high school students help form an

evocative, largely subjective exploration of youthful emotions and concerns. Sensitive color photos heighten the impact of compositions which express the search for self-definition, recognition, acceptance and "validation" from the world at large. Program explores young people's thoughts about social philosophy and involvement, the process of becoming an adult, and the prospect of functioning maturely in an adult world. An extraordinarily candid tone invites your students to discuss the confusion, apprehension, eagerness and other feelings central to adolescent development today.

**Think of Others First**

Program motivates students to discuss manners,

consider their broad social implications and practical daily value. Students quickly recognize the difference between stuffy "don'ts" and real manners—which express basic respect for other people. They see effective ways to ease any number of embarrassing situations, make dates more pleasant, have things go smoothly at home. They receive sound advice on saying hello to a new boy or girl, introducing people, dealing with a date's parents, putting the right emphasis into a simple "thanks." Detailed Discussion Guide helps you lead follow-up discussion on getting along warmly and naturally with friends, family and the opposite sex.

**The Adolescent Experience:  
Forming Beliefs**

Program relates the individual's search for personal development to mankind's ongoing quest for the understanding of his universe. Narrative, literary excerpts and art invite students to compare their own reflections with those of ancient, medieval and modern thinkers; introduce students to world views suggested by existentialism, eastern philosophy, mysticism, religious evangelism, humanism, the social ethic; evoke discussion centering on the impact of science and technology on the struggle for spiritual values.

**The Adolescent Experience:  
Developing Values**

Program focuses on the process by which values are formed. Creates a developmental overview of value reference points: internalized fear of punishment, relationships with peer groups from early childhood through adolescence, religious influences, school-taught values, parental example and instruction, changing evaluation of parental models, individual convictions underlying value choices. Open-ended dramatization involves *your* group in the process of deciding between conflicting values, searching for one's own moral beliefs.

Discussion Guide

**The Adolescent Experience:  
Setting Goals**

Narrative first suggests key criteria for developing life commitment; emphasizes awareness of potential, ability to examine motivations, willingness to make active choices. Students then evaluate the quality of decision-making demonstrated by: Jeff, a college drop-out who has tried and given up radical activism, eastern meditation, communal living, organic food . . . Alice, a fine pianist who has rejected a career for which she's been groomed and formed a more relaxed lifestyle of her own . . . Steve, a black, working class high school senior who has been offered a football scholarship but feels more comfortable choosing a union career as a sound systems specialist.

**The Adolescent Experience:  
Interpersonal Relationships**

Powerful new format includes a gripping one-act play followed by targeted discussion of the play's conflict and characters—by actors, author and director. Part I dramatizes a difficult stress situation within a basically sound family. Accused of stealing from an employer, Cynthia finds her parents unable or unwilling to respond to the problem as she would like them to. All find they must deal with larger questions: How do adolescents find their independence? How do parents accept it? In Part II, the play's company articulates insights structured to help your students appreciate problems parents must solve within themselves, behavioral options open to young people claiming their full individuality.

Discussion Guide

**The Adolescent Experience:  
Shaping Identity**

Part I helps students relate the many-faceted concept of identity to their own lives; deal with feelings about self-image, individuality, integrity; discover connections between real satisfaction, wise goal-setting and the life-long process of self-examination. Part II focuses on interaction between heredity and environment; examines influences of family, peer groups. Emphasizes that clear understanding of identity involves awareness of changes within oneself. Format blends searching peer comment with excerpts from Walt Whitman, e.e. cummings, Herman Hesse, Somerset Maugham, Eugene O'Neill, James Agee.

**Group Discussion Techniques  
in Guidance**

This 20-minute tape features sound film-strip content as input leading to actual discussion among young people—*demonstrates* role playing, "six by six," "fish-bowl" and other techniques for follow-up group discussion; led by Richard Greenfield, innovator in group guidance methodology at the City University of New York.

1 cassette 9A-800 910

**I Never Looked at It That Way Before**

American Film Festival Blue Ribbon Award Examines smoking, drinking, drugs, sexual experimentation from the teenager's point of view. Young people express their own arguments and experiences: "I've been around. I won't get any girl in trouble." "Everybody smokes. Parents, teachers. So I smoke too." "The other kids would have dropped me cold, so I went along." The color photographs and statistics on cancer, drug addiction, drunken driving, unwanted pregnancy help disprove destructive teenage myths. Program warns against thoughtless trial and error testing.

### Understanding Changes in the Family

Five new sound filmstrips stimulate positive classroom discussion of family roles, sibling conflict, adoption, divorce, death. Part I, *What's a Family?*, introduces nuclear, single parent and extended family types; explores parents' roles in providing, teaching and children's roles in assisting with chores, helping siblings. Emphasizes value of cooperation among children, parents, grandparents, importance of reciprocal emotional support. (Produced in black and white.) Part II, *Little Brother, Big Pest!*, dramatizes a boy's feelings of jealousy and rejection caused by a younger sibling; invites children to discuss their own experiences. Part III, *We're Adopted!*, explains what adoption is, why it happens; emphasizes similarities between being a natural and an adopted child. Part IV, *Not Together Anymore*, focuses on reasons for divorce, children's reactions and the need for children to adjust. Part V, *Playing Dead*, articulates children's anxiety about death through peer group conversation; offers forthright explanation of how and why death occurs; creates positive mood through calm, confident tone; invites reassuring group discussion.

### **The Effective Teacher: Family Life and Sex Education**

Author: Deryck Calderwood, Family Life and Sex Education Consultant

Part I discusses the need for sex education at elementary, junior and senior high school levels, stresses need for teachers to build mastery of all facts, self-awareness, professional objectives, realistic communication with students. Examines methods of stimulating discussion, relating material to individuals and groups, subordinating bias, using school and local referral procedures. Emphasizes universality of teachers' need for reassurance. Parts II and III illustrate these points in action during recorded classroom sessions as narrative explains specific question-answer decisions and techniques. Stop-banded records facilitate discussion at key points.

Part I: 112 frames/19 minutes

Part II: 89 frames/15 minutes

Part III: 87 frames/18 minutes

3 filmstrips; 3 12" LPs '9A-105 013

3 filmstrips; 3 cassettes V9A-105 021
