ABSTRACT

This ERIC curriculum package is intended to help people use the ERIC database, and may be used in a workshop setting under the guidance of a trainer or independently by individuals who want to learn about the ERIC system and how they can search the database and use its contents and services. The package consists of the following parts: (1) a self-instructional guide with four learning modules; (2) a set of transparencies for each module; (3) appendices (a list of ERIC Network Components, an ERIC Reproduction Release form, a list of ERIC Publication Types, an EDRS Document Order form, a list of Internet Access Points to ERIC, Evaluation Quiz Answer Keys); and (4) a set of Quick Search Cards, with step-by-step instructions for searching ERIC on Dialog OnDisc and SilverPlatter. The four modules are entitled "Introduction to ERIC," "How Documents Are Selected," "How to Search ERIC," and "How to Access ERIC Print Materials and Other Services." Each module contains a performance objective, a list of required materials, an instructional strategy, and an evaluation statement. There are also short questions to help trainees focus on pertinent information, exercises to help trainees develop the skills identified in the module, and a summary evaluation quiz. Also included are the following supplemental materials: ERIC Ready References--Search Aids, Document Delivery, What Kinds of Documents Are in the ERIC Database (RIE), Journals Currently Covered by "Current Index to Journals in Education," and ERIC at a Glance; Product Summary: ERIC on CD-ROM; and "All about ERIC," a 38-page publication providing a detailed overview of ERIC. FOREWORD

The Educational Resources Information Center Clearinghouse on Adult, Career, and Vocational Education (ERIC/ACVE) is 1 of 16 clearinghouses in a national information system that is funded by the Office of Educational Research and Improvement, U.S. Department of Education. This guide and the accompanying *QuickSearch Cards* are products of a special project designed to fulfill one of the functions of the clearinghouse—helping people use the ERIC database.

The guide was written by Bettina A. Lankard, Program Associate at the Center on Education and Training for Employment (CETE), who serves as ERIC/ACVE's career education specialist. The *QuickSearch Cards* were prepared by Judith O. Wagner, ERIC/ACVE's Associate Director for Dissemination.

ERIC/ACVE would like to thank the following people for their critical review of these products before publication: Bernadette Knoblauch, Associate Director for User Services and Publications, ERIC Clearinghouse on Disabilities and Gifted Education; Lynn Smarte, Director, ACCESS ERIC; Dawn Puglisi, consultant; and Paula Kurth, Program Associate, CETE. Sandra Kerka edited the manuscript, and Janet Ray served as word processor operator.

USE OF THE CURRICULUM PACKAGE

This ERIC curriculum package, specifically designed for ERIC users and ERIC trainers, may be used in a workshop setting under the guidance of a trainer or independently by individuals who want to learn about the ERIC system and how they can search the database and use its products and services. The complete package consists of these parts:

- This self-instructional guide with four learning modules
- A set of transparencies for each module
- Relevant ERIC publications, such as brochures and ready references
- A set of *QuickSearch Cards*, with step-by-step instructions for searching ERIC on Dialog OnDisc and SilverPlatter

Each module in the package contains a performance objective, a list of required materials (most of which are enclosed), an instructional strategy, and an evaluation statement. Within each module is information relevant to the objective, short questions to help trainees focus on pertinent information, exercises to help trainees develop the skills identified in the objective, and a summary evaluation quiz with a corresponding answer key in Appendix F. Trainees should successfully complete one module before proceeding to the next.

The guide offers an introduction to the ERIC system, including the purpose of ERIC, types of materials in its database, selection criteria, major publications and products, and user services. It explains how and why individuals use ERIC and offers strategies for searching ERIC and accessing products and services. This guide, along with the materials contained in the package, provides professionals and first-time users with the information they need to get the most out of the ERIC database and system.

Of additional benefit to users of this package is the video "ERIC: In Action," which presents an overview of ERIC as a primary source of educational information. This 15-minute video covers four major topics: basic structure, major benefits, key index features, and options for locating materials. Although the video is not included in this package, it is available for purchase through ACCESS ERIC and the ERIC Clearinghouse on Information and Technology. See Appendix A for addresses.

LESSON OVERVIEW

A BRIEF DESCRIPTION OF THE MODULES

Lesson One: Introduction to ERIC is designed to help the trainee understand the ERIC system and its products and services. It covers the following topics:

- The ERIC System
- Purpose of ERIC
- Materials in the Database
- Database Development
- Outreach and Dissemination Services
 - Database Searching
 - Document Delivery
 - Reference and Referral
 - Partner Networking
- ERIC Publications and User Products

Lesson Two: How Documents Are Selected is designed to help the trainee understand the types of documents sought by ERIC, the criteria used to select them, and the process of submitting documents to ERIC. It leads the trainee to perform the following tasks:

- Identify Documents Suitable for ERIC
- Determine If the Document Meets the Established Criteria for Selection
- Submit Suitable Documents to an ERIC Clearinghouse

Lesson Three: How to Search ERIC is designed to help the trainee conduct an ERIC search. It leads the trainee to perform the following tasks:

- Select the Type of ERIC Search to Conduct
- Choose Appropriate Descriptors
- Follow Proven Search Strategies

Lesson Four: How to Access ERIC Print Materials and Other Services is designed to help the trainee obtain ERIC materials and services. It leads the trainee to perform the following tasks:

- Obtain Copies of Documents and Journal Articles
- Obtain Other Information and/or Services from ERIC

LESSON ONE: INTRODUCTION TO ERIC

OBJECTIVE:

The trainee will be able to demonstrate understanding of the ERIC system and its products and services by completing the exercises in each section of this lesson.

REQUIRED MATERIALS:

Provided:

Transparency Packet for Lesson One
ERIC at a Glance, Ready Reference #19
What Kinds of Documents Are in the ERIC Database, Ready Reference #16
Journals Currently Covered by CIJE, Ready Reference #17
Document Delivery, Ready Reference #14
ERIC Search Aids, Ready Reference #13

Other:

Resources in Education (most recent)
Current Index to Journals in Education (most recent)
Directory of ERIC Information Service Providers

INSTRUCTIONAL STRATEGY:

Present the information noted in each of the sections highlighted in bold and underlined. Use transparencies in the Lesson One Transparency Packet to augment your presentation.

At the conclusion of your presentation for each section, have trainees answer the questions for that section.

Give trainees an opportunity to demonstrate their knowledge by having them complete the activities in each section.

EVALUATION:

At the conclusion of this lesson have trainees complete the Evaluation Quiz at the end of Lesson One.

INTRODUCTION TO ERIC

WHAT IS ERIC?

- An educational information system
- An information system supported by the U.S. Department of Education, Office of Educational Research and Improvement
- A system that consists of the ERIC Program Office (OERI), ACCESS ERIC, the ERIC Document Reproduction Service (EDRS), the ERIC Processing and Reference Facility, Oryx Press, 16 subject-oriented clearinghouses, and additional adjunct clearinghouses.

The ERIC System (Transparency #1.1)

The Educational Resources Information Center (ERIC) is a national information system designed to provide users with ready access to an extensive body of education-related literature. Established in 1966, ERIC is supported by the U.S. Department of Education, Office of Educational Research and Improvement (OERI). The ERIC system consists of the ERIC Program Office (OERI), ACCESS ERIC, the ERIC Document Reproduction Service (EDRS), the ERIC Processing and Reference Facility, Oryx Press, 16 subject-oriented clearinghouses, and additional adjunct clearinghouses. (*Transparencies #1.2 to #1.5, Ready Reference #19, and Appendix A*)

The ERIC database, the world's largest and most comprehensive source of education information, contains more than 800,000 abstracts of documents and journal articles on all aspects of education. You can access the ERIC database online via commercial vendors and public networks, on Compact Disc, Read Only Memory (CD-ROM), or through the printed abstract journals, *Resources in Education* and *Current Index to Journals in Education*. Updates to the database are made monthly, except for the CD-ROM, which is updated quarterly. (*Transparency #1.6*)

ERIC collections can be found in hundreds of institutions and agencies throughout the world, and ERIC searches can be conducted at many locations, including the ERIC clearinghouses, university libraries, state libraries, and many large public libraries. You can find the location of microfiche collections near you by calling ACCESS ERIC at (800) LET-ERIC.

Exercise: Identify three locations where you would be able to conduct your own ERIC search and at least one source you could contact to have a search done for you.

WHAT ARE THREE MAJOR FUNCTIONS OF ERIC?

- Building and maintaining a database of educational materials
- Producing major publications
- Providing user products and services

WHAT KINDS OF MATERIALS ARE FOUND IN ERIC?

- Curriculum
- State-of-the-art papers
- Research reports
- Teaching guides
- Project descriptions
- Bibliographies
- Practice applications
- Literature reviews
- Program evaluations

Purpose of ERIC (Transparency #1.7)

The main purpose of ERIC is to identify, collect, and disseminate "fugitive" documents—documents that are not readily available from commercial sources. ERIC does this by building and maintaining a database of appropriate educational materials including journal literature and making the materials available in microfiche and/or paper copy and through library collections and interlibrary loan. ERIC also produces major publications and provides a variety of user products and services to help the education community—researchers, teachers, administrators, school boards, students, and parents—keep informed about current education-related issues.

Exercise: List at least three reasons for using ERIC.

Materials in the Database (Transparency #1.8)

Educational materials found in ERIC include curricula, research reports, state-of-the-art papers, literature reviews, bibliographies, teaching guides, practice applications, and program evaluations, as well as education-related journal articles. ERIC covers all areas of education—elementary and early childhood education; higher education; information technology; community colleges; educational management; counseling and student services; disabilities and gifted education; languages and linguistics; social studies/social science education; teaching and teacher education; assessment and evaluation; reading, English, and communication skills; rural education and small schools; urban education; science, mathematics, and environmental education; and adult, career, and vocational education. What is not found in ERIC are nonprint audiovisual materials, large numbers of dissertations, and comprehensive statistics. (See Ready References #16 and #17.)

Exercise: Identify the subject area of greatest interest to you and list the specific type of educational materials you would like to investigate.

WHAT MAKES A DOCUMENT SUITABLE FOR ERIC?

- Relevance
- Timeliness
- Scholarly contribution
- Applicability

Database Development (Transparency #1.9)

The primary function of an ERIC clearinghouse is to contribute to the development and maintenance of the ERIC database. This requires a comprehensive program to identify and acquire high quality educational materials in sufficient quantity to ensure continuous development of the database. Documents are acquired from organizations that regularly submit their publications for inclusion in ERIC, through clearinghouse requests, and through individual submissions of research reports, conference papers, and other education-related work.

Acceptance of submitted documents is not automatic. As documents are acquired, they are screened by subject specialists using established criteria, such as contribution to the literature; relevance; innovativeness; timeliness; effectiveness of presentation; authority of the author, source, or sponsor; responsiveness to current priorities; and applicability to a broad audience. Because ERIC seeks to provide a total information system, including document availability, reproducibility standards are of prime importance as well. Through the screening process, the documents of highest quality and greatest worth are selected for entry into the database and then cataloged, indexed, and abstracted by clearinghouse staff in preparation for announcement in *Resources in Education* (RIE) and on the computer tapes. Database development also includes the acquisition, selection, and processing of journal articles for *Current Index to Journals in Education* (CIJE).

ERIC invites all of its users to consider submitting education-related works for inclusion in the database. Knowing the selection criteria can guide users in submitting documents suitable for ERIC.

Exercise: List educational documents you have authored or used that might be suitable for selection in ERIC. Describe why each document has potential for selection by noting the criteria it meets.

WHAT ARE SOME FACTS ABOUT OUTREACH AND DISSEMINATION SERVICES?

- The outreach and dissemination program includes a search service, a document delivery service, a referral service, and a partner networking service.
- Manual searches are time consuming.
- Computer searches are effective when you are looking for new terms/ideas that may not have been indexed.
- Computer searches may be conducted through many public and commercial networks by individuals who have a computer and modem.
- Individuals may contract with any of the clearinghouses to have a search conducted for them.

Outreach and Dissemination Services

ERIC services include database searching, document delivery, reference, referral, and partner networking.

Database Searching (Transparency #1.10, Product Summary: ERIC on CD-ROM)

ERIC offers individuals the opportunity to conduct their own searches of the database, with or without assistance, or to contract with a search service to have one conducted for them. Access to the ERIC database is provided at most university libraries, state departments of education, state libraries, teacher centers, and through the Internet.

The ERIC database can be searched by computer or by using the printed indexes—*Resources in Education* (RIE), which contains document literature, and *Current Index to Journals in Education* (CIJE), which contains the journal literature. Computer searches are particularly appealing because they are fast, comprehensive, and have the capability to pick up any term or phrase in the title or abstract, which may be important if you are looking for new terms/ideas that may not have been indexed. However, computer searches may be expensive and may retrieve irrelevant material.

Individuals who wish to conduct their own computer searches may do so using CD-ROM at many university, state, and public libraries. Those who have their own computers and modems can access ERIC through many public and commercial networks, including the Internet, CompuServe, America Online, and America Tomorrow. Details can be obtained by calling (800) LET-ERIC.

For those who wish to contract for their own searches, following are the online and CD-ROM vendors through which ERIC can be searched:

Reference and Referral

ERIC offers free referral services through its network of clearinghouses, ACCESS ERIC, and AskERIC, an Internet-based question-answering service developed by the ERIC Clearinghouse on Information and Technology. You can send questions about any aspect of education, such as teaching and learning, information technology, or educational administration, to askeric@ericir.syr.edu.

ERIC clearinghouse staff are always available to answer questions, refer users to appropriate information sources, suggest relevant publications, and provide technical assistance by giving workshops on the use of the ERIC system. Subject-specific questions and requests should be directed to the

WHAT IS ERIC'S REFERENCE AND REFERRAL SERVICE?

- Question answering
- Referral to information sources
- Provision of relevant publications
- Technical assistance from ERIC staff

WHY ARE ERIC PARTNERS AN ASSET TO ERIC?

- They facilitate the exchange of education information between ERIC and its constituents.
- They promote ERIC among existing as well as new audiences.
- They broaden the dissemination and use of ERIC.
- They encourage joint projects, such as workshops and conferences.

particular ERIC clearinghouse most closely associated with the subject matter involved.

Partner Networking

In addition to serving users and ERIC information service providers, ERIC has developed a constantly growing network of partners composed of education-related organizations and constituent groups.

Partners facilitate the exchange of education information between ERIC and its constituents. They also broaden the dissemination and use of ERIC information within the education community by—

- promoting ERIC among existing as well as new audiences;
- disseminating ERIC information to constituents through their newsletters and journals;
- enhancing the ERIC database by submitting documents; and
- encouraging joint projects such as workshops and conferences.

In turn, partners enjoy many benefits from the clearinghouse with which they are associated including the following:

- VIP service, featuring quick turnaround in handling requests
- Free or discounted ERIC-produced publications
- Advance notice of materials distributed by the ERIC system
- Technical assistance and support

Any agency or organization with a constituency interested in education and willing to distribute ERIC information may become a partner by contacting ACCESS ERIC at (800) LET-ERIC or any ERIC clearinghouse.

Exercise: List the outreach and dissemination services that are attractive to you and note the reasons why you would like to use them.

WHAT PUBLICATIONS ARE PRODUCED BY ERIC?

- Papers on key topics
- Minibibliographies
- Packaged searches
- ERIC Digests and other publications that review, synthesize, and analyze existing literature
- Information brochures

ERIC Publications and User Products (Transparency #1.11)

Each year, the various ERIC clearinghouses identify critical issues within their scope areas and select topics for major publications. Authorities in the field are commissioned to write the manuscripts, which include information analysis papers, compilations, or practitioner-oriented monographs. These publications are designed to provide information on high priority topics to meet the needs of a variety of audiences—researchers, practitioners, policymakers, the press, and the general public.

In addition to the major publications, each clearinghouse produces products—minibibliographies, packaged searches, and other publications that review, synthesize, and analyze existing literature. ERIC Digests, two-page research syntheses, are among the ERIC system's most popular offerings. ERIC Digests provide information on research findings and practice applications, frequently in a question/answer format; overviews of emerging topics; updates of areas; and synopses of review and synthesis papers. (Transparency #1.12)

Many clearinghouses also produce an information brochure about their products and services, an acquisition brochure, and a publications list. Some clearinghouses produce newsletters or information bulletins that include news of the ERIC system, summaries of major publications, and information about services and products.

ERIC produces numerous products designed to help users access and use the information in the ERIC database. (Transparency #1.13 and Ready Reference #13.) These include the following:

- **Abstract journals.** ERIC produces two monthly abstract journals that are the print version of the database. *Resources in Education* (RIE), which announces current education-related documents, can be obtained from the U.S. Government Printing Office (GPO) (202-783-3238). *Current Index to Journals in Education* (CIJE), which announces education-

related journal articles, is available through Oryx Press (800-279-ORYX).

- *Thesaurus of ERIC Descriptors*. The complete list of index terms used by the ERIC system, with cross-references and rotated and hierarchical displays, is available from Oryx Press. This publication is very helpful in developing a database search strategy.
- *Directory of ERIC Information Service Providers*. This directory lists the address, telephone number, and ERIC collection status for more than 1,000 organizations that offer ERIC access to users. It is available from ACCESS ERIC.
- *ERIC Users' Interchange*. This free newsletter, published twice a year, provides technical information on database searching, recent ERIC database developments, and other user aids to libraries, education media centers, and other places the ERIC database is searched. Subscriptions are offered by ACCESS ERIC.
- *ERIC Identifier Authority List*. This list of searchable key words not found in the Thesaurus is available from the ERIC Facility. It includes geographic locations, proper names, program names, and terms not represented by descriptors.
- *ERIC database tapes*. Institutions interested in computer tapes of the ERIC database for programming their own search interface may purchase them from the ERIC Facility.

Systemwide ERIC publications, that can be obtained from ACCESS ERIC (800-LET-ERIC) include the following:

- *All about ERIC*. This handy reference booklet provides detailed descriptions of each component in the ERIC system and its products and services, along with information on how to access them.
- *The ERIC Review*. This journal keeps practitioners informed of important ERIC and education-related developments.
- *Parent-teacher brochures*. These free publications synthesize and summarize significant findings of recent educational research on topics of interest to parents and educators.

Exercise: Review the list of ERIC publications and note any you would like to obtain.

EVALUATION QUIZ

Check the correct answer(s) to each of the following statements:

1. The ERIC database contains abstracts of . . .
 - bibliographies and biographies
 - document search reports
 - documents and journal articles

2. ERIC documents are available in . . .
 - microfiche and paper copy
 - video and paper copy
 - audiotape and microfiche

3. Journal articles referenced in the ERIC database are available . . .
 - in microfiche and paper copy
 - through journal reprint services and interlibrary loan
 - at your local bookstore

4. ERIC products and services include . . .
 - research summaries
 - bibliographies
 - reference services
 - conference planning
 - referral services
 - commercial publication services
 - computer programming services
 - computer searches
 - document reproduction

5. Three types of ERIC users are . . .
 - medical students, physicians, and pharmacy personnel
 - educational researchers, practitioners, policymakers
 - market analysts, statistical analysts, financial planners

6. Which of the following statements are true?

- T F The outreach and dissemination program includes a search service, a referral service, a question-answering service, a document delivery service, technical assistance, and partner networking.
- T F Manual searches are quick and easy.
- T F Computer searches are effective when you are looking for new terms/ideas that may not have been indexed.
- T F Computer searches may retrieve irrelevant material.
- T F ERIC services are all expensive to obtain.
- T F Individuals with computers and modems can access ERIC through public and commercial computer networks.
- T F *Resources in Education* and *Current Index to Journals in Education* are two printed indexes in ERIC.
- T F ERIC documents are available in microfiche and paper copies.

7. Three types of products offered by the ERIC clearinghouse include . . .

- ERIC Digests, major publications, and commercially produced manuals.
- ERIC Digests, major publications, and brochures.
- teacher's guides, major publications, and statistical reports.

8. Match each user product with its appropriate description.

- ___ *ERIC Digests*
- ___ Packaged searches
- ___ *Thesaurus of ERIC Descriptors*
- ___ *All about ERIC*
- ___ Informational brochures
- ___ Information bulletins
- ___ *The ERIC Review*

- a. Publications that contain ERIC clearinghouse information
- b. A publication that contains a complete list of index terms for database searching
- c. A journal for practitioners
- d. Publications on research findings and their practical applications
- e. Searches on topics of interest to many users
- f. A reference book about the ERIC system, its products, and services
- g. News of the ERIC system

LESSON TWO: HOW DOCUMENTS ARE SELECTED

OBJECTIVE:

The trainee will be able to identify documents suitable for ERIC, note which of these documents meet established selection criteria, and submit appropriate documents to ERIC by completing the designated exercises in each section of this lesson.

REQUIRED MATERIALS:

Provided:

Transparency Packet for Lesson Two

ERIC Publication Types, Ready Reference #2

Other:

Stack of documents

INSTRUCTIONAL STRATEGY:

Present the information noted in each of the sections highlighted in bold and underlined. Use transparencies in the Lesson Two Transparency Packet to augment your presentation.

At the conclusion of your presentation for each section, have trainees answer the questions for that section.

Give trainees an opportunity to demonstrate their skill in assessing the types and qualities of documents suitable for inclusion in ERIC.

EVALUATION:

At the conclusion of this lesson, have trainees complete the Evaluation Quiz at the end of Lesson Two.

HOW DOCUMENTS ARE SELECTED

WHAT ARE SOME TYPES OF DOCUMENTS SUITABLE FOR ERIC?

- Research reports
- Program descriptions and evaluations
- Annotated bibliographies
- Curriculum guides
- Conference papers
- Conference proceedings
- Instructional materials
- Lesson plans and teaching guides
- Essays, position papers
- Resource guides

Identify Documents Suitable for ERIC

Resources in Education (RIE) and *Current Index to Journals in Education* (CIJE) constitute the ERIC database. Obtaining comprehensive information in each clearinghouse's scope area is a prime function of ERIC.

Individuals may voluntarily submit documents that they believe suitable to a clearinghouse's scope of work. ERIC partners and other organizations, agencies, state departments of education, professional associations, and university departments or school systems can also submit documents.

The types of documents sought for the ERIC database include the following (see Ready Reference #2):

- Research reports
- Program descriptions and evaluations
- Annotated bibliographies
- Curriculum guides
- Conference papers
- Conference proceedings
- Instructional materials
- Lesson plans and teaching guides
- Essays, position papers
- Resource guides

Exercise: Select one document from the stack of sample documents or consider a document of your own. Determine whether or not the type of document you selected is suitable for ERIC. Discuss the issue with other workshop participants as you analyze the information and move to a decision.

If you determine that the type of document you selected is suitable for ERIC, continue with this lesson.

if you decide that the document is not suitable for ERIC, review other documents in the stack until you find one that is.

WHAT CRITERIA ARE USED TO SELECT DOCUMENTS?

- Suitability and responsiveness to current priorities
- Contribution to knowledge
- Relevance
- Innovative or new application of knowledge
- Effectiveness of presentation
- Responsiveness to current priorities
- Timeliness
- Authority of author, source, or sponsor
- Applicability to a broad audience
- Sensitivity to minority, ethnic, and gender concerns
- Balance on controversial issues
- Reproducibility
- Legibility

Determine If the Document Meets the Established Criteria for Selection (Transparency #2.1)

Because ERIC is a selective database, subject specialists assess the appropriateness of documents for entry into RIE. The two primary criteria considered when assessing the appropriateness of a document are the needs of ERIC's wide audiences and whether the document fits the subject areas covered by the appropriate clearinghouse. Consider the following list of selection criteria as you decide whether to submit a document to ERIC.

- Suitability to the clearinghouse's scope of work

There are 16 ERIC clearinghouses, each focusing on a specific area of education. A list of these clearinghouses appears in Appendix A.

Documents submitted to a clearinghouse that are outside its scope, but of suitable quality, will be transferred to the appropriate clearinghouse. Documents deemed unsuitable will not be processed or transferred to other clearinghouses.

- Contribution to knowledge; significance

Documents should be based on well-designed experiments or orderly collections of data. Research reports, for example, are examined in terms of stated objectives; hypotheses tested; and methodology, conclusions, and recommendations.

- Relevance

Relevance is defined as the extent to which the document deals with issues that are current and of contemporary interest to the educational community.

- Innovativeness or new application of knowledge

This criterion refers to applicability of knowledge or methods to new areas or new problems.

- Effectiveness of presentation; thoroughness of reporting

Documents are rejected if they are poorly written, misuse the technical devices of their presentations, fail to provide sufficient infor-

mation to judge or follow up on the adequacy of their work, or offer conclusions that are not supported by data.

- Responsiveness to current priorities

Educational priorities are established by the governments and institutions responsible for the conduct of education. Priorities may be established at the national, regional, state, local, or professional level. Documents dealing with high priority issues are given special consideration.

- Timeliness

The document should be current in terms of the work being done in the area with which it is concerned.

- Authority of author, source, or sponsor
- Applicability to a broad audience
- Sensitivity to minority, ethnic, and gender concerns
- Balance on controversial issues
- Reproducibility
- Legibility

Because ERIC seeks to provide a total information system, including document availability as well as announcement and abstracting, reproducibility standards for RIE documents are of prime importance. If a document does not meet legibility and reproducibility standards, the processing staff will request a better copy before determining that the document must be rejected.

Exercise: Review the document you selected to submit to ERIC. Assess the document against each of the criteria specified to determine if it has potential to pass the screening process for selection. Use the Selective Criteria Checklist on the next page to record your assessments.

WHAT ARE SOME ADVANTAGES TO SUBMITTING DOCUMENTS TO ERIC?

- Free publicity
- Wide dissemination
- Quick retrievability

Submit Suitable Documents to an ERIC Clearinghouse (Transparency #2.2)

There are several advantages to submitting materials to ERIC. These include free publicity, wide dissemination, quick retrievability via online database search services, and the fact that ERIC documents never go out of print. ERIC sends a complimentary microfiche to each contributor when the document is announced in RIE.

Individuals who wish to submit documents to ERIC must follow these steps:

1. Identify the appropriate clearinghouse based on the relevance of the document to the clearinghouse's given educational area or scope.
2. Prepare one legible copy of the document. Documents should be easy to read with clear, dark type on white or light background. They may be typeset, typewritten, photocopied, or otherwise duplicated. Standard 8-1/2" x 11" paper is preferred. Very small type, light dot-matrix type, and dark colored paper do not reproduce well.
3. Complete a Reproduction Release Form. (A copy of this form appears in Appendix B.) The Reproduction Release Form gives ERIC permission to reproduce and disseminate the document, but does not preclude the author selling the publication or having it published elsewhere.
4. Mail the document and completed Reproduction Release Form to the appropriate ERIC clearinghouse, to the attention of the Acquisitions Coordinator. If you are unsure which clearinghouse is appropriate, mail the document and form to the ERIC Processing and Reference Facility.

Exercise: Assume that you determined the document you assessed against the selection criteria meets those criteria. Complete the Reproduction Release form on the next page.

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic/optical media, and sold through the ERIC Document Reproduction Service (EDRS) or other ERIC vendors. Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce the identified document, please CHECK ONE of the following options and sign the release below.

LESSON THREE: HOW TO SEARCH ERIC

OBJECTIVE:

The trainee will be able to choose appropriate ERIC descriptors and conduct (or have conducted) a manual or computer search of the ERIC database.

REQUIRED MATERIALS:

Provided:

Transparency Packet for Lesson Three

QuickSearch Cards

ERIC Search Aids, Ready Reference #13

INSTRUCTIONAL STRATEGY:

Present the information highlighted in bold and underlined. Use the transparencies in the Lesson Three Transparency Packet to reinforce the content of your presentation.

At the conclusion of your presentation for each section, have trainees answer the questions for that section.

Give trainees an opportunity to demonstrate their skill in searching ERIC (or in ordering a search) by completing the activities at the end of this lesson.

EVALUATION:

At the conclusion of this lesson, have trainees complete the Evaluation Quiz at the end of Lesson Three.

HOW TO SEARCH ERIC

WHAT INFORMATION IS ON THE QUICKSEARCH CARDS?

- Step-by-step instruction for searching Dialog OnDisc ERIC and SilverPlatter
- Using the Thesaurus
- Searching by Document Type

WHAT IS NECESSARY WHEN CONDUCTING THE FOLLOWING SEARCHES?

- Online search
Requires having a contract with a vendor
- Manual search
Requires access to abstract journals, RIE and CIJE
- CD-ROM search
Requires using a computer and compact disc

Select the Type of ERIC Search to Conduct (Transparency #3.1)

If you choose to have a professional searcher conduct your search, be sure you have a clear idea of what you want from the search. Typically, the searcher will ask questions to clarify the topic and determine any limitations on it. Some searchers will request a list of key words or descriptors to help them develop the search strategy. Others will just ask what is desired and develop the strategy from their own notes. Either way, it is important that the person making the request knows exactly what he or she wants as an outcome. Of the individuals who wish to conduct their own searches, some may access ERIC and other databases through their home or office computers.

(See the QuickSearch Cards included in this package. These cards contain step-by-step instructions for searching ERIC on Dialog OnDisc ERIC and SilverPlatter.)

Internet. For those who have full Internet service, connection for a search can be made to the university computer systems providing Internet access to ERIC resources—Harvard University, Auburn University, the University of Saskatchewan, State University System of Florida, and the University of North Carolina at Chapel Hill. Directions for connecting to each of the universities to search ERIC via the Internet are provided in Appendix E.

Online searches. This option requires time, expertise, equipment—a modem as well as computer, the corresponding telecommunications software, and a contract with one of the database vendors.

Manual searches. A manual search can be done at any library or center that subscribes to RIE and CIJE. To search ERIC manually requires the following steps:

1. Obtain monthly and cumulative issues of RIE and CIJE.
2. Look in the index under the descriptors identified for the search.
3. Read the titles (and abstracts) to find subject-relevant information.

CD-ROM searches. CD-ROM searches can be done at most university libraries. The library offering this search service will have directions on the information retrieval system for searching the ERIC database. Most university libraries have this technology.

Choose Appropriate Descriptors (*Transparency #3.2*)

Whether you are searching ERIC directly or having someone else search it for you, any search of the ERIC database requires identification of ERIC descriptors (subject index terms). The following steps describe how to choose appropriate descriptors for a given ERIC search.

1. Describe the topic you wish to investigate and summarize your description in sentence and paragraph form. Underline words and phrases that identify the key aspects of the topic.
2. Identify the subtopics of the information you wish to investigate—educational level, type of material desired, teaching method, and so forth. These subtopics will help to limit the search. For example, for the topic "computer-assisted instruction" (CAI) you could limit the search by looking only at CAI in postsecondary institutions, CAI implementation strategies, or CAI in science. The list of subtopics should specify the scope and limitations of the search.
3. Translate your topic and subtopics into ERIC descriptors (subject index terms). To do this consult the *Thesaurus of ERIC Descriptors*.

WHAT ARE ERIC DESCRIPTORS?

- Subject index terms

SAMPLE ENTRY

Social Studies

Descriptor

Jul 1966	ADD DATE - date descriptor first used.
CIJE: 3,578 RIE: 5,347	POSTING NOTE - number of times descriptor used in CIJE and RIE.
SN Social studies consist of adaptations of knowledge from the social sciences for teaching purposes at the elementary and secondary levels of education	SN - SCOPE NOTE - brief statements of intended usage of descriptor. Useful when trying to decide among descriptors.
UF Social Studies Units (1966 1980)*	UF - USE FOR - these terms are synonyms that are not used by ERIC.
NT Civics	NT - NARROWER TERM - terms with more specific meanings than the descriptor. Use the narrowest term appropriate to your need.
BT Curriculum Social Sciences	BT - BROADER TERM - terms whose meaning encompasses the descriptor, and more. Use if the first search retrieves too few citations.
RT Anthropology Controversial Issues (Course Content) Cultural Education Current Events Economics Geography History Locational Skills (Social Skills) Political Science Social Problems Social Science Research U.S. Government (Course) World Affairs	RT - RELATED TERM - terms that are synonyms for the descriptor. It is sometimes a good idea to use several RTs and combine them with OR when developing your search strategy.

(Transparency #3.3)

WHY IS THE THESAURUS OF ERIC DESCRIPTORS USEFUL?

- It contains over 8,000 subject descriptors.
- It contains cross-references to all fields of education.
- It contains the descriptors used to index every document and journal article in the database.

WHICH DEFINITIONS MATCH THE FOLLOWING DISPLAY TERMS?

SN
UF
NT
BT
RT

- a. a short note that describes the intended use of the descriptor
- b. a term whose meaning is broader than the descriptor
- c. a term that is related to the descriptor
- d. terms synonymous with the main term but not used by ERIC
- e. a term that is more specific or narrower than the descriptor

The Rotated Descriptor Display in the back of the Thesaurus may also be helpful. Also, read the introduction to the Thesaurus which contains information helpful to searches (e.g., ERIC indexing rules), and useful parts of the descriptor entry, such as the scope note and related and narrower terms.

The *Thesaurus of ERIC Descriptors* is the key to using the controlled vocabulary of the ERIC database. It contains over 8,000 subject descriptors and cross-references to all fields of education. These descriptors are used to index every document or journal article in the database.

4. Locate the descriptors you have identified in the Alphabetical Descriptor Display (the main part of the Thesaurus). Following is a sample entry for the topic "social studies." Note the information provided in this display for the descriptor.

- Read the Scope Notes (SN) for information on how ERIC uses the terms. A Scope Note (SN) is a brief statement of the intended usage of a descriptor. It may be used to clarify an ambiguous term or to restrict the usage of a term. Special indexing notes are often included. (See the description next to SN in the sample entry.)
- Note the Used For (UF) reference, which generally refers to terms synonymous with the main term but not used by ERIC. [For the sample entry, UF term is "social studies units" (1966 1980).]
- If the term you selected seems too broad, see if there is a Narrower Term (NT) that will fit. Always use the most specific, or narrowest, term that seems appropriate.
- If your search retrieves too few records, try again using a Broader Term (BT). Think of synonyms or related terms. You may choose to combine several of the Related Terms (RT) with your original term to

create a larger set; use the Boolean operator OR to connect similar descriptors.

5. Make a final list of the descriptors most likely to have been used in the indexing process to represent your topic.

Exercise: Select a topic to investigate. List any subtopics relevant to the search you desire.

Use the Thesaurus of ERIC Descriptors to identify the descriptors you would use in conducting your search.

Find and record the ADD DATE, POSTING NOTE, SN, UF, NT, BT, and RT for the descriptor you select.

Determine any refinements or ways to limit or expand the search.

Follow Proven Search Strategies

Search Using Subject Terms (Descriptors) with ANDs and ORs.

Although the software used to search ERIC will depend on which system is used, all searching is based on Boolean logic: the computer creates sets of information based on the way you tell it to combine subject terms.

For example, to find out how computer networks can be used to improve high school students' writing, you could use the Thesaurus to find these subject descriptors: "computer networks," "high school students," and "writing skills."

If you want to find records that are indexed under all of these concepts, you would use the AND command to tell the computer to find the intersection of these three subsets.

If more information on this topic is needed, use the Thesaurus to locate additional relevant descriptors and add them to your concept sets by using the OR operator. When the OR command is used, documents and articles indexed with either descriptor are searched and combined in a set.

WHAT OTHER WAYS CAN YOU SEARCH ERIC?

- By title
- By author
- By specific journal
- By audience
- By identifiers
- By publication or document type
- By year of publication

Search by Title, Author, Specific Journal, or Audience (*Transparencies #3.4 and #3.5*)

To locate journal articles or other publications on a particular education topic, searching by descriptors (subject terms) is usually the best approach. There are other ways to search ERIC, such as by title, author, or specific journals.

If you cannot locate instructions for searching ERIC by title, author, or the approaches listed here, ask a librarian for help or call an ERIC clearinghouse. (Note that the details of how you search ERIC will vary depending on the software system, so, whenever possible, it is best to get instructions from someone who knows the system you are using.)

Search by Identifiers

Identifiers are searchable key words not found in the *Thesaurus of ERIC Descriptors*. They are often proper names or concepts not yet represented by approved descriptors. Identifiers are used to index geographic locations, personal names, test or program names, specific legislation, and so forth. Examples include: Curry Test of Critical Thinking, Gallaudet College DC, Japan United States Textbook Study Project, and Piaget (Jean).

Search by Publication Type (also called Document Type)

In addition to being indexed according to descriptors and identifiers, ERIC documents are categorized by their form of publication. You may want to specify document types in your search strategy to locate particular kind of document, such as teaching guides, research/technical reports, tests/evaluation instruments, or books.

A complete list of ERIC publication/document types appears in the *Thesaurus of ERIC Descriptors*. (See Appendix C for this information.)

Limit Search by Year of Publication

A search can be limited by the publication dates of documents and articles. For example, you may know before running your search that you want materials only from the last 5 or 10 years. The year of publication can be included as a limiting

factor in your original search strategy, or it can be used to modify a search if you find more abstracts than you need.

Conduct Free-Text Searching

Free-text searching enables you to search for unique words and phrases found in titles or abstracts. This approach is useful if you do not know the best descriptor to use, or know that there is no indexing term for a concept. For example, you could search the phrase "Head Start" to locate information on that topic. (The results of this search would show you that "Project Head Start" is searchable as an identifier.)

Exercise: Conduct a manual or CD-ROM computer search for the topic of "cultural influences" and modify with "classroom communication."

Find three documents and three journal articles relevant to the topic of interest. Highlight whether the abstracts are of documents (EDs) or journal articles (EJs). (Transparencies #3.6 and #3.7 are sample ED and EJ resumes.)

EVALUATION QUIZ

1. Select the five steps to follow in choosing a descriptor for a given search.
 - Describe the topic you wish to investigate and list key words to describe it.
 - Look up the rules for indexing in the *Thesaurus of ERIC Descriptors*
 - Locate all documents identified with ED numbers.
 - Identify subtopics of the information.
 - Translate topics and subtopics into ERIC descriptors.
 - List the descriptors alphabetically.
 - Select descriptors that have been used over 3,000 times in RIE and CIJE.
 - Locate descriptors in the alphabetical descriptor display.
 - Make a final list of descriptors to use in the database search.

2. Find the descriptor Teacher Evaluation in the Alphabetical Descriptor Display in the Thesaurus. Copy the information for the following:
 - Scope Note (SN)
 - Use For (UF)
 - Narrower Term (NT)
 - Broader Term (BT)
 - Related Term (RT)

3. Conduct a manual or CD-ROM search for documents and journal articles on TOTAL QUALITY MANAGEMENT in Postsecondary Institutions/Community Colleges following these steps:
 - a. Locate the abstracts of five relevant documents and journal articles.
 - b. Copy the abstracts.
 - c. Note the ED or EJ number for each.
 - d. Highlight the author's name for the document or journal article.
 - e. Identify the type of document or name of journal noted in the abstract.

LESSON FOUR: HOW TO ACCESS ERIC PRINT MATERIALS AND OTHER SERVICES

OBJECTIVE:

The trainee will be able to obtain copies of documents and journal articles found in the ERIC database and consult ERIC Clearinghouse staff for information and/or services.

REQUIRED MATERIALS:

Transparency packet for Lesson Four

INSTRUCTIONAL STRATEGY:

Present the information highlighted in bold and underlined. Use the transparencies in Lesson Four Transparency Packet to reinforce the content of your presentation.

At the conclusion of your presentation for each section, have trainees answer the questions for that section.

Give trainees an opportunity to demonstrate their skill in obtaining copies of documents and journal articles described in the ERIC database and information from ERIC Clearinghouse staff by completing the activities at the end of this lesson.

EVALUATION:

At the conclusion of this lesson, have trainees complete the Evaluation Quiz at the end of Lesson Four.

HOW TO ACCESS ERIC PRINT MATERIALS AND OTHER SERVICES

WHAT ARE ED- AND EJ-MARKED ITEMS?

ED items: documents

EJ items: journal articles

Obtain Copies of Documents and Journal Articles (Transparencies #4.1 and #4.2)

The materials described in the ERIC database have either an "ED" or an "EJ" number.

Those identified with "ED" followed by six digits are documents. You can get the full text of most EDs by going to a library or other site with an ERIC microfiche collection. Over 1,000 libraries throughout the world subscribe to this collection. To locate the ERIC collection in your area, call any ERIC component. Most libraries or facilities having microfiche collections will have other ERIC services such as microfiche reproduction and searching.

Microfiche and paper copies of most ED items may be ordered from ERIC Document Reproduction Services (EDRS) in Alexandria, VA; phone (800) 443-ERIC. (Or, you may use the order form that is included in Appendix D.) Orders may also be placed directly with the producer (if one is listed in the "Availability" field of the ERIC database record). Many ERIC information service providers also have a reproduction service.

Items identified with "EJ" followed by six digits are articles from education journals. You can get many of these journals at research or university libraries or by requesting them through interlibrary loan. Reprints are also available from several article reproduction services, including—

- University Microfilms International (UMI)
(800) 521-0600 ext. 2786
- Institute for Scientific Information (ISI)
(800) 523-1850

EJ items are not available on microfiche or by ordering from EDRS.

Exercise: *Discuss with other trainees which local libraries or other sites have an ERIC microfiche collection. Make a note of these.*

Complete the EDRS document order form in Appendix D for one of the documents you identified.

WHERE CAN YOU OBTAIN ERIC SERVICES?

- ACCESS ERIC
- ERIC Document Reproduction Service (EDRS)
- ERIC Processing and Reference Facility
- AskERIC on the Internet
- AskERIC on Commercial Networks
- ERIC Clearinghouses
- University libraries

Obtain Other Information and/or Services from ERIC (Transparencies #4.3 to #4.5)

ERIC provides many services that are accessible by telephone using a toll-free number:

**ACCESS ERIC
(800) LET-ERIC**

- Answers questions about ERIC and its products and services
- Helps you locate a place to do an ERIC database search
- Refers you to appropriate sources for education information
- Produces systemwide publications
- Provides ERIC information on commercial computer networks

**ERIC Document Reproduction Service (EDRS)
(800) 443-ERIC**

- Offers the full text of most ERIC documents in microfiche and paper copy
- Provides ERIC microfiche collections to more than 1,000 institutions
- Produces specialized microfiche collections

**ERIC Processing and Reference Facility
(800) 799-ERIC**

- Coordinates database building and maintenance
- Provides machine-readable tapes of the ERIC database and *ERIC Digests Online*
- Publishes the *ERIC Identifier Authority List*

**AskERIC on the Internet at
askeric@ericir.syr.edu (Transparencies #4.6)**

This service is a free Internet-based question-answering and education reference and referral service. It is available to anyone looking for education-related materials or information. Within 48 hours, you will receive a response that may include the full text of ERIC Digests, a mini-search of the ERIC database, or referrals to resource organizations. (See Appendix E.)

The ASKERIC Gopher also includes an electronic library of lesson plans, ERIC publications, reference tools, and access to other Gopher sites.

**AskERIC on Commercial Networks
(800) LET-ERIC (Transparency #4.7)**

This service provides ERIC information ranging from full-text brochures and ERIC Digests to prepared database searches. It is available on various commercial networks, including—

- America Online
- America Tomorrow
- CompuServe
- GTE Educational Network Services

Obtain Technical Assistance (Transparencies #4.8 and #4.9)

ERIC clearinghouse staff are always ready to inform and train users on the ERIC system. Arrangements can be made to enlist ERIC staff to conduct workshops on any aspect of ERIC. ERIC also maintains booths at many professional conferences where staff are ready to answer questions and provide help. Clearinghouse staff also make presentations and offer workshops at meetings of many education-related organizations.

Exercise: List questions you would like answered by ERIC clearinghouse staff.

EVALUATION QUIZ

1. Describe in one paragraph how you would obtain copies of documents and journal articles (in person or through orders).

2. List services you plan to use and explain how those services will be useful to you.

Clearinghouse on Adult, Career,
and Vocational Education

ERIC QuickSearch Card

The ERIC database contains many types of publications. Each document and journal article in the database is assigned a Publication Type Code that is searchable online and on CD-ROM. Combine the publication type with your subject matter terms to limit your results.

DIALOG (Online or CD-ROM Command Search)*

Access using the prefix **DT=** followed by the appropriate Publication Type Code

Example: **DT=143** and vocational education
This will retrieve research and technical reports in vocational education.

*For CD-ROM Easy Menu Search, use Document Type search option

BRS (Online only)

Access using the Publication Type Code followed by **.pt.**

Example: **052.pt.** and adult-literacy
This will retrieve teaching guides in adult literacy.

SilverPlatter (CD-ROM only)

Access using the Publication Type Code followed by **in dt**

Example: **120 in dt** and career-change
This will retrieve viewpoints and opinion papers regarding career change.

Search Steps

- Develop search strategy** Know exactly what you are looking for. Be as specific as possible. Use the *Thesaurus of ERIC Descriptors* or the *ERIC Identifier Authority List* to select terms that describe your topic. Separate your topic into concepts such as vocational education, adult literacy, secondary education; translate those concepts into ERIC descriptors; limit as necessary. Sometimes, condensing your search question into a single written sentence helps to clarify the topic and simplify the strategy.
- Begin your search** Log on to the system and begin a new search.
- Enter search terms** Separately type the terms selected for each concept using the **OR** operator. When all concepts are selected, use the **AND** operator to combine them.
- Limit your search** Limit the output by year, by document type, by major descriptor, or by foreign language.
- Display results** To ensure that the materials that you have retrieved are relevant, look at some of the citations.
- Print or download results** Select citations that are relevant and either download the results to a diskette or print them.

Using the ERIC Thesaurus on Dialog Ondisc ERIC

All documents and journal articles in the ERIC database are assigned standardized terms from the *Thesaurus of ERIC Descriptors* to assist in locating relevant material. Searching by descriptor allows you to conduct a more precise search. In addition to descriptors, ERIC also uses identifiers to index materials. Identifiers are key words not found in the thesaurus. They are often proper names or concepts not yet represented by approved descriptors. Identifiers are used to index geographic locations, personal names, test or program names, legislation, and so forth. They are listed in the *ERIC Identifier Authority List (IAL)*. If you do not have a print copy of the thesaurus or IAL, and are searching ERIC on CD-ROM, you can easily locate appropriate terms.

SELECT:

SEARCH OPTIONS, select:

ERIC subject headings

Type your term

A list of terms appears that includes the word or phrase you typed, the number of records containing that term, and the number of related terms. Any term with related terms and/or a large number of postings will be a descriptor or an identifier. Press **F10** when you have selected all relevant terms.

Major ERIC subject headings

An additional option is to select Major ERIC subject headings. When you type a term, the number of records in which it appears as a major descriptor or identifier will be given. If the term is not a descriptor, the number will be zero.

Major subject headings will identify only those records in which your topic is the major focus of the document or journal article. You will retrieve fewer citations but they will be more precise.

Minor ERIC subject headings

Terms that are not usually majored include the mandatory educational level descriptors such as ELEMENTARY EDUCATION, SECONDARY EDUCATION, or ADULT EDUCATION; terms that identify document types or parts of the document such as CURRICULUM GUIDES, TABLES (DATA), or QUESTIONNAIRES; or the term FOREIGN COUNTRIES, which is used to designate material that is about or from a country outside of the United States. These will be majored only if they are the primary focus of the document.

Searching ERIC on SilverPlatter

FIND: Type the terms you want to search. If you are using ERIC descriptors or identifiers, separate words in a phrase with a hyphen, e.g., **vocational-education**. If you are searching a single word descriptor, you can put a hyphen at the end, e.g., **adults-**, or add a field label, e.g., **disabilities in dem**. You will retrieve those documents or journal articles indexed with that descriptor. Adding **dem** limits the search to those items indexed with a major descriptor.

Enter all possible terms for a single concept, separating them with the Boolean operator **OR**, e.g., **career-education OR career-awareness OR career-guidance**.

When all terms have been entered, combine the concepts with the Boolean operator **AND**, e.g., **#5 AND secondary-education**, or **#5 AND #8**.

ERIC NETWORK COMPONENTS

The ERIC network of organizations is comprised of the following major components:

- **ERIC Program Office**

The central funding and monitoring unit within the U.S. Department of Education, Office of Educational Research and Improvement (OERI). Responsible for overall management of the ERIC network.

Educational Resources Information Center (ERIC)
Office of Educational Research and Improvement (OERI)
U.S. Department of Education
555 New Jersey Avenue, NW
Washington, DC 20208-5720

Telephone: 202-219-2289
FAX: 202-219-1817
Internet: eric@inet.ed.gov

- **ERIC Clearinghouses**

Sixteen contractors from the academic and not-for-profit sectors, each responsible for collecting the significant educational literature within their particular scope of interest area (e.g., career education), selecting the highest quality and most relevant material, processing (i.e., cataloging, indexing, abstracting) the selected items for input to the database, and also for synthesizing the literature and providing information analysis products (e.g., Digests) and various user services. (See list on p. 2-3.)

- **Adjunct ERIC Clearinghouses**

Various organizations that cooperate with ERIC Clearinghouses at no cost to ERIC to cover a particular specialized area of education in which they have a special interest, e.g., consumer education. (See list on p. 4.)

- **ERIC Support Components**

Four components providing various specialized technical services in support of the ERIC Program Office, ERIC Clearinghouses, and each other: e.g., centralized database management and abstract journal production, document delivery and micrographics, outreach and user services, and commercial publishing (*Current Index to Journals in Education* (CJIE) and *ERIC Thesaurus*). (See list on p.4.)

INTERNET ACCESS POINTS TO ERIC

The following systems provide unrestricted Internet access to ERIC resources. For general information about ERIC, contact ACCESS ERIC, (800) LET-ERIC or acceric@inet.ed.gov

- I. **The University of Saskatchewan Library System** offers the ERIC database from 1983 to the present. Searchable fields include author, title, descriptor, identifier, publication year, ERIC accession number, and journal title.
 1. Telnet sklib.usask.ca (or 128.233.1.20)
 At USERNAME prompt, enter SONIA
 3. At main menu, select 4, "Educational Databases."
 4. Select 1, "CIJE plus RIE: 1983-."
 5. Type HELP to see a summary of search and display commands, field prefixes, and Boolean operators.
 (Sample search statement to find documents with the descriptor television: f d=television.)
 6. To end the session, type Q (quit).
 TIP: Type BEGINNER to see a system tutorial.

- II. **Auburn University Libraries** offers the complete ERIC database, 1966 to the latest quarter. Searchable fields include title, author, subject heading (descriptor), and keyword. (Note: requires TN3270.)
 1. TN3270 auducacd.duc.auburn.edu (or 131.204.2.13)
 2. At the opening screen, tab to APPLICATION, and enter 01
 3. At the main menu, type ERIC
 4. Follow screen instructions to search.
 5. To end the session, type STOP
 TIP: The keyword search field allows use of Boolean operators, truncation, nesting, and other special search features. Type EXP K for a complete explanation.

- III. **Harvard University** offers the ERIC database, 1989 to the present. Searchable fields include author, title, subject, keyword, ERIC accession number. (Note: requires TN3270.)
 1. TN3270 hollis.harvard.edu 23
 2. At the opening screen, type HOLLIS (press ENTER).
 3. Type CHOOSE ER (press ENTER).
 4. To exit ERIC, type QUIT
 5. Type EXIT HOLLIS to leave HOLLIS.

6. To exit from TN3270 telnet mode hit "c" key while holding down control key; at the TN3270> prompt type CLOSE
TIP: Type HELP followed by a command. For example: HELP keyword for information on keyword searching; HELP au for information on author searching.
- IV. **The State University System of Florida** offers the ERIC database from 1967 to the present. Searchable fields include author, title, subject, and keyword. (Note: requires TN3270.)
1. TN3270 nervm.nerdc.ufl.edu 23
 2. At the opening screen press ENTER.
 3. Type DIAL VTAM (press ENTER).
 4. Type NERLUIS FCLSKY (press ENTER).
 5. Select 19.
 6. To end the session type STOP (press ENTER) select 30 to get back to MAIN MENU; select 30 to EXIT LUIS and SIGN OFF.
 7. To exit from TN3270 telnet mode, hit "c" key while holding down control key; at the TN3270> prompt type CLOSE
- V. **The University of North Carolina, Chapel Hill**, through its laUNChpad system, hosts a searchable, full-text file of over 1060 ERIC Digests. (ERIC Digests are short reports on current education topics written by each of the 16 ERIC Clearinghouses.)
1. Telnet bbs.oit.unc.edu (or 152.2.22.80)
 2. At the login prompt, type LAUNCH
 3. Enter your first and last name as directed. (Remember how you enter your name for future sessions.)
 4. Enter a password of your choice (and remember it). Note: If your password is rejected, read the instructions in the introduction to define another one.
 5. At the main menu, select 4, "Topical Document Search (WAIS)."
 6. Move through the list to ERIC Digests (138 or 139 as of this writing). Hit ENTER to select the file.
 7. Type one or more keywords and hit ENTER to start the search. Results will be displayed by title in a ranked order based on occurrences of the keyword.
 8. Highlight a title and hit ENTER to see the full text.
 9. To end the WAIS session, type Q (quit).
To exit laUNChpad, type Q again.
TIP: Type ? to see a list of all commands.

Lesson Two

1. documents in education.
2. journals in education.
3. suitable to that clearinghouse's scope of work.
4. a signed Reproduction Release Form.

Lesson Three

1. The Five Steps in Choosing a Descriptor:

Describe the topic you wish to investigate and list key words to describe it.
Identify subtopics of the information.
Translate topics and subtopics into ERIC descriptors.
Locate descriptors in the alphabetical descriptor display.
Make a final list of descriptors to use in the database search.

2. Definitions:

Scope Note (SN):	brief statements of intended usage of the descriptor
Use For (UF):	terms that are synonyms to the descriptor but not used by ERIC
Narrower Term (NT):	terms with more specific meanings than the descriptor
Broader Term (BT):	terms whose meaning encompasses the descriptor, and more
Related Term (RT):	terms that are synonyms for the descriptor

3. Performance:

Located abstracts of five relevant documents and journal articles.
Copied the abstracts.
Noted the ED or EJ number for each.
Highlighted the author's name on the abstract.
Identified the type of document or name of journal noted in the abstract.

Lesson Four

1. I would obtain copies of documents in microfiche or in paper copy from ERIC Document Reproduction Service (EDRS) in Alexandria, Virginia, or through the microfiche reproduction and search service offered by libraries or facilities having microfiche collections. I would obtain copies of journal articles through research or university libraries or by requesting them through interlibrary loan or a reproduction service, such as University Microfilms International (UMI) (800) 732-0616.

SOURCE JOURNAL INDEX

Prepared by Oryx Press. Distributed by all components of the ERIC network. For assistance, contact the ERIC Processing and Reference Facility, 1301 Piccard Drive, Suite 300, Rockville, MD 20850-4305. Telephone: 800/799-ERIC. Free. A list of the journals indexed in CIJE. Each entry also includes publisher name and address, frequency, price, reprint availability, ERIC Clearinghouse covering the journal, and, whenever possible, the ISSN number. Arranged separately by journal title and by responsible ERIC Clearinghouse.

SUBMITTING DOCUMENTS TO ERIC

ERIC Processing and Reference Facility, 1301 Piccard Drive, Suite 300, Rockville, MD 20850-4305. Telephone: 800/799-ERIC. Free. Brochure describing the ERIC system, the advantages of having documents in the ERIC database, the selection criteria employed by ERIC, and the addresses of the ERIC components to whom documents may be submitted.

THESAURUS OF ERIC DESCRIPTORS

12th edition, 1990. The Oryx Press, 4041 North Central at Indian School Rd., Phoenix, AZ 85012-3397. Telephone: 800/279-ORYX. \$69.50 (North America) and \$83.40 (elsewhere). Hardback. A list of 9,991 vocabulary terms, of which 5,575 are main-entry Descriptors and 4,416 are non-indexable Use references and "dead" terms. New terms not appearing in previous editions include 282 Descriptors and 264 Use references. (Oryx Press offers several other ERIC products and tools; call for details.)

The "ERIC Search Aids" list is intended to provide descriptions of the most important tools that a frequent user of the ERIC database should consider obtaining. In addition to publication as a Ready Reference, this list is provided to all online and CD-ROM vendors of the ERIC database, and variations of it often appear in vendor documentation. If you have a favorite tool or guide that has proved helpful to you in working with the ERIC database, ERIC would like to learn of it and to consider it for addition to future editions of this list (see address on the bottom of the front page).

How To Get DOCUMENTS Announced By ERIC

Two monthly abstract/index journals announce education-related Journal Articles and Documents collected by ERIC

Current Index to Journals in Education (CIJE)
Announces journal articles

Resources in Education (RIE)
Announces unpublished or limited distribution documents

These two publications are available in paper form and all the citations they announce are also contained in the ERIC database, which can be accessed online or through CD-ROM. Once you identify an item you want reproduced, your options depend on whether it is a journal article or a document. Journal articles (CIJE) are identified by an EJ number. Documents (RIE) are identified by an ED number.

Documents (ED's) — Cited in RIE

There are three principal ways to obtain documents cited in ERIC's database:

- by ordering them from the ERIC Document Reproduction Service (EDRS);
- by finding the microfiche for the document in one of the many ERIC standing order microfiche collections located at major libraries around the country and the world;
- by ordering the document from its original source or other non-ERIC supplier noted in the ERIC citation.

EDRS

Most documents announced in RIE can be ordered inexpensively from EDRS in either microfiche (\$1.23 per title) or reproduced paper copy (\$3.53 per 25 pages), plus postage. If you want to receive all documents on microfiche in regular monthly shipments, you can subscribe for about \$2,000 per year. Clearly identified orders are processed within 5 days. Orders can be placed via mail, telephone, FAX, or online vendor system. An EDRS order form can be found at the back of RIE. The EDRS address is: EDRS, 7420 Fullerton Road, Suite 110, Springfield, Virginia 22153-2852 • Telephone: 1-800-443-ERIC

Standing Order Microfiche

Over 900 organizations, including most major universities, subscribe to ERIC's complete microfiche collection and are listed in the *Directory of ERIC Information Service Providers* (available from ACCESS ERIC), (800-LET-ERIC). Using the *Directory*, locate the ERIC microfiche collection geographically closest or most convenient to you. At most locations, you will be able to copy selected pages; at some locations you will be able to obtain a duplicate microfiche. This is probably the quickest way to view an ERIC document and has the advantage of permitting you to review a document before buying it.

Original (Non-ERIC) Source

Some document preparers sell their product directly and, therefore, may not let ERIC reproduce it. About 5% of ERIC documents are available from their original sources (in addition to or in lieu of being available from EDRS). Full address and price information (when given) specifying such external availability is always in the ERIC citation.

QUESTIONS TO ASK

Administration

- Is the product appropriate for your clientele?
- Are the time spans covered and the frequency of updates sufficient?
- Are there print/online counterparts? At what cost?
- Does the anticipated volume of use justify the cost of a CD-ROM subscription?
- Is the product compatible with equipment you own or intend to acquire?
- Should you consider a networked system for multiple users?

Vendor

- Does the vendor produce any other CD-ROM databases to which you might like to subscribe?
- Are the product licensing terms acceptable to you?
- Is documentation sufficient?
- Is telephone support available?

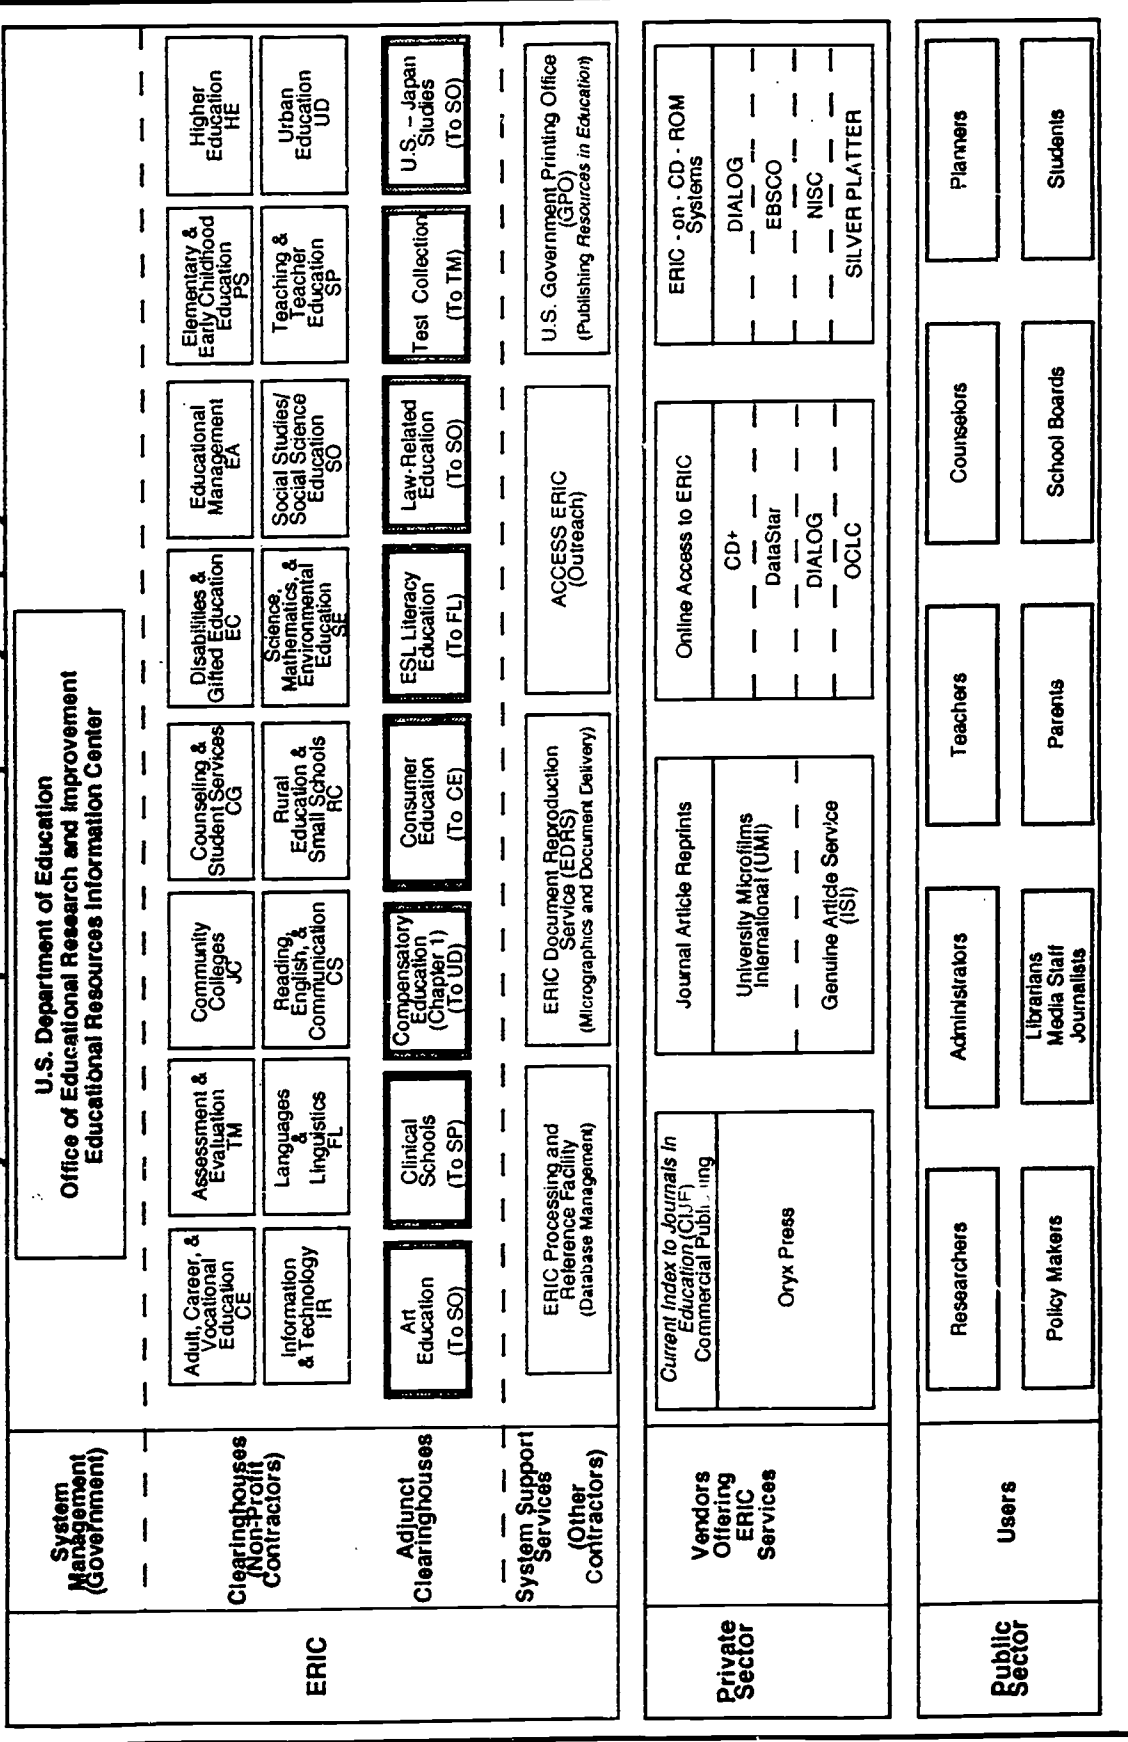

Searching

- How many access points are available?
- Can the search strategy be saved and reexecuted in the future or on another disk from the set?
- Can search results be sorted? Downloaded? Displayed in a variety of formats?
- Is there an on-disk thesaurus? Does it show broader terms, narrower terms, related terms, and postings?
- Is on-screen help available?
- Does the system offer shortcuts for experienced searchers?
- Is direct record access possible?

The **Educational Resources Information Center (ERIC)** is a federally funded, nationwide information network designed to provide you with ready access to education literature.

At the heart of ERIC is the largest education database in the world—containing more than 800,000 records of journal articles, research reports, curriculum and teaching guides, conference papers, and books. Each year approximately 30,000 new records are added. The ERIC database is available in many formats at hundreds of locations.

ERIC presents education information in a format convenient to users. More than 20 years ago, ERIC became the first commercial online database. In 1986 the ERIC database became available for searching on CD-ROM (compact disk, read-only memory).

Now ERIC is at the forefront of efforts to make education information available through computer networks. ERIC is available to thousands of teachers, administrators, parents, students, and others through electronic networks, including the Internet, CompuServe, America Online, America Tomorrow, and GTE Educational Network Services. Network users can read and download information on the latest education trends and issues. On some systems, users can direct education-related questions to AskERIC and get a response from an education specialist within 48 hours.

ERIC also offers customized assistance through a network of subject-specific education clearinghouses that provide toll-free reference and referral, and free or low-cost publications on important education topics.

The **ERIC** system, managed by the U.S. Department of Education's Office of Educational Research and Improvement (OERI), consists of 16 clearinghouses, a number of adjunct clearinghouses, and additional support components.

The **ERIC Clearinghouses** collect, abstract, and index education materials for the ERIC database; respond to requests for information in their subject areas; and produce special publications on current research, programs, and practices.

The **ERIC Document Reproduction Service (EDRS)** produces and sells microfiche and paper copies of documents announced in the ERIC database.

The **ERIC Processing and Reference Facility** is the technical hub of the ERIC system that produces and maintains the database and systemwide support products.

ACCESS ERIC coordinates ERIC's outreach, dissemination, and marketing activities; develops systemwide ERIC publications; and provides general reference and referral services.

This publication will help you understand how you can use the resources available from ERIC to meet your needs.

ERIC is the largest education resource in the world and serves the information needs of a wide spectrum of users, allowing:

Teachers—to obtain the latest information on preservice and inservice training; learn about new classroom techniques and materials; and discover resources for personal and professional development.

Administrators/School Boards—to identify new and significant education developments, learn new management tools and practices, and assist local and state agencies in planning education programs.

Students—to gain access to the latest information for preparing term papers, theses, and dissertations; obtain information on career development; and build a personalized, low-cost education library.

Parents/General Public—to learn about new developments in education, gain information on the role of parents and the public in child development and school improvement, learn about adult continuing education, and keep abreast of new legislation on education.

Researchers/Professors—to keep up to date on research and practice, avoid duplication of research efforts, and obtain full-text research reports.

Librarians/Information Specialists—to compile bibliographies and summaries on specific education topics, search the ERIC database for answers to queries, and locate and order documents.

Professional Organizations—to keep members abreast of trends and issues in specific areas of education, and obtain current information for association publications and position statements on education issues.

Civil Servants—to conduct research in education-related areas; verify research results; stay informed of international, national, regional, state, and local issues; and develop legislation and policy.

Journalists—to gather background information, provide resources for articles and programming, and monitor trends and issues in education.

Whether you need a little information or a lot ERIC is an excellent resource for research summaries on current, high-interest topics; references to recent journal articles; complete research reports, books, or curriculum guides; or extensive bibliographies.

Reference and Referral Services

ERIC offers *free* reference and referral services to the public through its network of clearinghouses, ACCESS ERIC, and electronic AskERIC question-answering services. Staff are available to provide ERIC publications, answer questions about ERIC, locate hard-to-find documents, and refer you to other appropriate information sources. It is best to call an ERIC Clearinghouse if you have a subject-specific question.

Toll-free phone numbers for the clearinghouses are listed in Part 2. You can call ACCESS ERIC (1-800-LET-ERIC) for help in using the ERIC system or for the latest information on electronic AskERIC services.

Publications Produced by ERIC

The ERIC system produces more than 250 special publications each year. These publications provide you with the latest research and practice information on current, high-interest topics.

Clearinghouses produce free and low-cost publications, including brochures, newsletters, pamphlets, monograph series, and bibliographies. ERIC Digests, which are two-page research syntheses, are among the ERIC

system's most popular offerings. There are currently more than 1,000 Digests, and approximately 100 new titles are produced each year. For information on clearinghouse publications, turn to the list of ERIC Clearinghouses starting on page 17 and contact those that cover your subject.

The ERIC Database

The ERIC database contains more than 800,000 bibliographic records of research reports, conference papers, teaching guides, books, and journal articles. Figure 1 shows a typical ERIC document resume.

If a publication has an ERIC Document (ED) number, you can probably find a copy at any one of the more than 900 libraries that maintain an ERIC microfiche collection, or you can purchase a microfiche or paper copy from the ERIC Document Reproduction Service (1-800-443-ERIC). For publications that are not available from ERIC, the abstract will include information on where you can get a copy.

More than 800 education-related journals are covered in ERIC. Figure 2 shows a typical ERIC journal article (EJ) resume.

Copies of journal articles can be obtained from library periodical collections; through interlibrary loan; from the journal publisher; or from article reprint services such as University Microfilms International (UMI), 1-800-521-0600, or Institute for Scientific Information (ISI), 1-800-523-1850. (Addresses and local phone numbers for these services appear on page 9.)

Abstract

This book examines issues in designing coherent education policy for public elementary and secondary schools. It seeks to expand the policy discussion by refining the definition of coherence and considering a number of complex questions raised by the notion of coherent policy. The book offers an indepth look at systemic school reform and offers a variety of ideas as to how educators at the district, state, and federal levels may coordinate the various elements of policy infrastructure around a new set of ambitious, common goals for student achievement. Chapters include the following: (1) “The Politics of Coherence” (Susan H. Fuhrman); (2) “Policy and Practice: The Relations between Governance and Instruction” (David K. Cohen and James P. Spillane); (3) “The Role of Local School Districts in Instructional Improvement” (Richard F. Elmore); (4) “Systemic Educational Policy: A Conceptual Framework” (William H. Clune); (5) “Student Incentives and Academic Standards: Independent Schools as a Coherent System” (Arthur G. Powell); (6) “New Directions for Early Childhood Care and Education Policy” (W. Steven Barnett); (7) “How the World of Students and Teachers Challenges Policy Coherence” (Milbrey W. McLaughlin and Joan E. Talbert); (8) “Systemic Reform and Educational Opportunity” (Jennifer A. O’Day and Marshall S. Smith); and (9) “Conclusion: Can Policy Lead the Way?” (Susan H. Fuhrman). References accompany each chapter. (LMI)

Annotation

This article describes techniques, used in a family-
centered early intervention project, that both assist in
accomplishing the goals of the Individualized
Family Service Plan process and create opportunities
for families to display their present competencies
and acquire new ones to meet the needs of their
children with communication disorders.

Personal Computers

Commercial Services

If you have a personal computer with a modem, you can use it to access ERIC information. Commercial networks such as America Online, CompuServe, and GTE Educational Network Services all feature "AskERIC" information on current topics in education. Many of these services offer all or part of the ERIC database, which can be searched using key words, titles, authors, or other approaches.

A personal computer and modem can also be used to search ERIC and many other databases for a fee by signing up with commercial online database vendors such as Bibliographic Retrieval Services (BRS) or DIALOG Information Services. (See commercial vendor addresses and phone numbers on page 34.)

The Internet

Internet* users can reach an AskERIC service that offers fast, individualized responses to education questions and a free electronic education library. For questions about education, child development and care, parenting, learning, teaching, information technology, and other related topics, send an e-mail message to askeric@ericir.syr.edu.

You can also use the Internet to connect to sites that offer free public access to the ERIC database. For the latest information on Internet access to ERIC, contact the ERIC Clearinghouse on Information & Technology (phone: 1-800-464-9107 or e-mail: askeric@ericir.syr.edu) or ACCESS ERIC (phone: 1-800-LET-ERIC or e-mail: acceric@inet.ed.gov).

Libraries and Information Centers

ERIC is available at most university libraries, many public libraries, and other professional libraries and education resource centers—more than 1,000 of which are designated as ERIC information service providers. At these locations you can search the ERIC database yourself, or have a librarian search for you. Most of these locations also have a substantial ERIC microfiche collection and microfiche reader/printers for making copies of ERIC documents.

ERIC Clearinghouses

All of the ERIC Clearinghouses have toll-free numbers and information specialists to help you. Even if you have access to ERIC on your personal computer or at a convenient library, you may want to contact the clearinghouse that covers your education topic. Clearinghouses offer free and inexpensive publications and tips on how to search the ERIC database, and can often refer you to other sources of information. (See the complete list of ERIC Clearinghouses on pages 17-22.)

**If you need help finding the best way to use ERIC, call
ACCESS ERIC toll free at
1-800-LET-ERIC (1-800-538-3742).**

*The Internet is a worldwide cooperative computer network made up of many smaller networks that are interconnected. You may have access to the Internet through a computerized university or statewide teacher network, community network, or your membership with a commercial service.

The ERIC database has bibliographic information and abstracts on two types of materials: ERIC documents (with ED numbers) and journal articles (with EJ numbers).

With the expansion of computer access to information, there has been increasing interest in full-text electronic access to ERIC documents and articles, which would allow you to print or download the complete text of the ones you want. The ERIC system is exploring ways to make more of the database available in full text and has made the popular ERIC Digests available through the ERIC Digests Online File. You can get complete copies of ERIC Digests from many electronic sources, including most CD-ROM versions of ERIC, the online vendors, and several Internet hosts.

Until electronic full text becomes available for other ERIC database references, here's how you get copies:

ERIC Documents

Most publications with ED numbers can be found at any library that has the ERIC microfiche collection.* At these locations you can read the publications and make copies for a nominal per-page charge on a microfiche reader/printer. To locate the microfiche collection nearest you, call ACCESS ERIC at 1-800-LET-ERIC.

You can also purchase microfiche or paper copies of most ERIC documents from the ERIC Document Reproduction Service (EDRS), which accepts orders by toll-free phone call, fax, mail, or online (through DIALOG, BRS, and OCLC). For more information or to order documents, contact:

To obtain journals that do not permit reprints and are not available from your library, write directly to the publisher. Addresses of publishers are listed in the front of each issue of *Current Index to Journals in Education (CIJE)*, ERIC's printed index of journal citations, which is available in many libraries.

* Approximately 5 percent of the documents abstracted in ERIC are not available in the microfiche collection. For those publications, the bibliographic citation will include information on where to get a copy.

Some Tips for Searching the ERIC Database

Wherever you choose to run a computer search of the ERIC database, the result of the search will be an annotated bibliography of journal (EJ) and document (ED) literature on your topic. There are a few important tips to keep in mind to ensure that your search meets your needs.

Find the best way to access the ERIC database

You can now use ERIC from your personal computer, at university libraries, at many public and professional libraries, and through contacting the ERIC Clearinghouses. Before you decide where to search ERIC, ask these questions:

1. How much will it cost?
You may have free or inexpensive access to ERIC. If not, you may have to pay for connect time on some computer systems or order a search through a search service.
2. How much of the ERIC database is available?
Some services provide access to the entire ERIC database, which goes back to 1966; others may allow you to search only the last 5 or 10 years of ERIC. If this is important to you, find out how much of ERIC is available before choosing a search system.
3. How long will it take?
Turnaround time can vary from a few minutes, if you have direct access to ERIC on a personal computer, to several days or longer if you have to order a search that someone else will run for you.
4. How much flexibility does the search system offer?
Many different software systems are used to search ERIC. Some menu-driven search

systems make it easy for a first-time user, but may limit opportunities to make changes to the search question. If you try searching ERIC and feel you cannot locate exactly what you are looking for, ask your librarian for help or call an ERIC Clearinghouse.

Use the Thesaurus of ERIC Descriptors

Every one of the more than 800,000 articles and documents in the ERIC database has been given subject indexing terms called *descriptors*. Before you run an ERIC search, it is important to take a few minutes to find the ERIC descriptors that best capture your topic.

For example, articles and documents about the development of children's social skills would be indexed under the descriptor *interpersonal competence*. The ERIC descriptor for children at risk is *at risk persons*. When you search for information about high school students, you can use the descriptor *high school students* but would miss a lot of material if you did not also use the descriptor *secondary education*.

Locations that offer ERIC searches should have reference copies of the *Thesaurus of ERIC Descriptors*, and some search systems allow access to the *Thesaurus* while running your search.

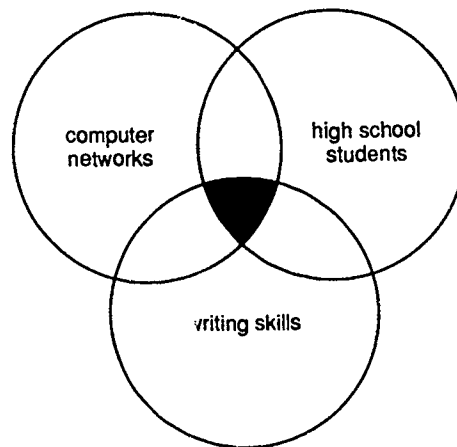

If you cannot locate a copy of the *Thesaurus of ERIC Descriptors*, call the ERIC Clearinghouse that covers your subject and ask for help with the search strategy. (See the toll-free numbers in Part 2.)

Know your **ANDs** and **ORs**

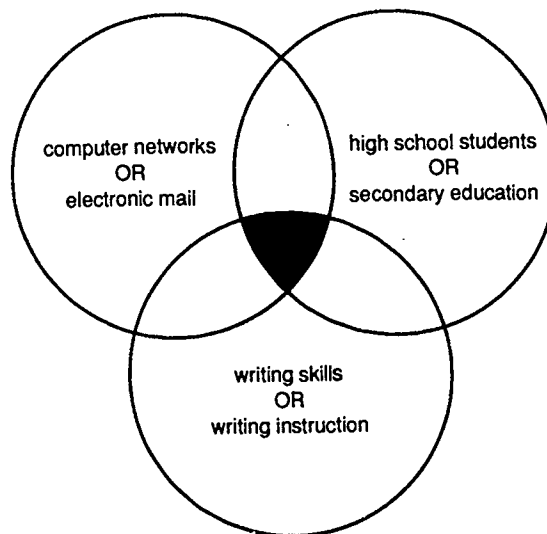

Although the software used to search ERIC will depend on which system is used, all searching is based on Boolean logic: the computer creates sets of information based on the way you tell it to combine subject terms.

For example, to find out how computer networks and e-mail can be used to improve high school students' writing, you could use the *Thesaurus* to find these subject descriptors: *computer networks*, *high school students*, and *writing skills*.

If you want to find records that are indexed under **all** of these concepts, you would use the AND command to tell the computer to find the intersection of these three subsets.

If **more** information on this topic is needed, use the *Thesaurus* to locate additional relevant descriptors and add them to your concept sets by using the OR operator. When the OR command is used, documents and articles indexed with **either** descriptor are searched and combined in a set.

Plan Your Search Strategy

To plan your ERIC search, follow these steps:

1. write the topic in your own words;
2. divide the search into major concepts; and
3. use the *Thesaurus of ERIC Descriptors* to locate the subject descriptors for each concept of the topic.

Here's an example of how a search topic/question can be turned into an ERIC search strategy:

You can use the blank ERIC Search Worksheet on page 33 to plan your ERIC search.

Additional Search Tips

To locate journal articles or other publications on a particular education topic, searching by descriptors (subject terms) is usually the best approach. There are other ways to search ERIC, for example, by title, author, specific journals, and even target audience (i.e., whether the publication was intended for teachers, students, parents, etc.).

If you cannot locate instructions for searching ERIC by title, target audience, or the approaches listed below, ask a librarian for help or call an ERIC Clearinghouse. (Note that the details of how you search ERIC will vary depending on the software system, so whenever possible it is best to get instructions from someone who knows the system you are using.)

Here are some other ways to search ERIC:

Identifiers

Identifiers are searchable key words not found in the *Thesaurus of ERIC Descriptors*. They are often proper names or concepts not yet represented by approved descriptors. Identifiers are used to index geographic locations, personal names, test or program names, specific legislation, and so forth. Examples include: Curry Test of Critical Thinking, Gallaudet College DC, Japan United States Textbook Study Project, and Piaget (Jean).

Publication Types (also called Document Types)

In addition to being indexed according to descriptors and identifiers, ERIC documents are categorized by their form of publication. You may want to specify document types in your search strategy to locate a particular kind of document, such as: teaching guides, research/technical reports, tests/evaluation instruments, and books.

A complete list of ERIC publication/document types appears in the *Thesaurus of ERIC Descriptors*.

Year of Publication

A search can be limited by the publication dates of documents and articles. For example, you may know before running your search that you only want materials from the last 5 or 10 years. The year of publication can be included as a limiting factor in your original search strategy, or it can be used to modify a search if you find more abstracts than you need.

Free-Text Searching

Free-text searching enables you to search for unique words and phrases found in titles or abstracts. This approach is useful if you do not know the best descriptor to use, or know that there is no indexing term for a concept. For example, you could search the phrase "Head Start" to locate information on that topic. (The results of this search would show you that "Project Head Start" is searchable as an identifier.)

Consider sharing your own work with others by submitting it to ERIC. If you have recently authored a research report, program description or evaluation, literature review, teaching guide, conference paper, or other education-related work, you can make it permanently available and accessible to others through ERIC.

Organizations that wish to sell copies of their original documents can have this availability (together with address and price information) announced in the bibliographic record. Studies have shown that availability from ERIC does not reduce sales from the original source, since purchasers prefer an original copy over one reproduced from microfiche. After the document is sold out at the original source, it will still be available through the ERIC Document Reproduction Service (EDRS), if permission to reproduce has been granted to ERIC.

Acceptance of submitted documents is not automatic; all documents submitted to ERIC are evaluated by subject experts according to the following criteria: contribution to knowledge, significance, relevance, newness, innovativeness, effectiveness of presentation, thoroughness of reporting, relation to current priorities, timeliness, authority of source, intended audience, and comprehensiveness.

To submit your publication, send ERIC one legible (laser printer quality) copy of your report, speech, paper, or other document to be considered, and a completed Reproduction

Release Form (see Appendix, page 35). The Reproduction Release Form grants ERIC permission to reproduce and disseminate the document, but does not preclude your selling the publication or having it published elsewhere.

You may send your publication to the clearinghouse that covers your topic. (See list of ERIC Clearinghouses in Part 2.) If you are uncertain which clearinghouse is appropriate or if you have questions about submitting your work, contact:

ERIC Clearinghouses

Each of the 16 ERIC Clearinghouses specializes in a different subject area of education. The clearinghouses acquire significant literature within their particular scope; select the highest quality and most relevant materials; and catalog, index, and abstract them for input into the database. The clearinghouses also provide research summaries, bibliographies, information analysis papers, and many other products and services. Together, the clearinghouses present the most comprehensive mosaic of education information in the country.

Adjunct Clearinghouses

Adjunct ERIC Clearinghouses are associated with the ERIC Clearinghouse whose scope overlaps the narrower scope of the adjunct. Each adjunct identifies and acquires significant literature within its scope area. The clearinghouse with which the adjunct is associated then catalogs, indexes, and abstracts the documents for inclusion in the ERIC database. Like the larger clearinghouses, the adjuncts provide free reference and referral services in their subject areas.

Adjunct ERIC Clearinghouse for Art Education

Indiana University
Social Studies Development Center
2805 East Tenth Street, Suite 120
Bloomington, IN 47408-2698
Toll Free: (800) 266-3815
Telephone: (812) 855-3838
Fax: (812) 855-0455
Internet: ericso@ucs.indiana.edu

All aspects of visual arts education, including painting, sculpture, and aesthetics; training of art education teachers; the role of visual arts education in the overall school curriculum; and curriculum materials for art education and for integration of art into other subject areas.

Adjunct ERIC Clearinghouse on Chapter 1 (Compensatory Education)

Chapter 1 Technical Assistance Center

Part **3**

Libraries and resource centers can make ERIC available on even a modest budget. The ERIC database is available in print, online, and on CD-ROM. Full-text copies of ERIC documents can be ordered either on microfiche or paper.

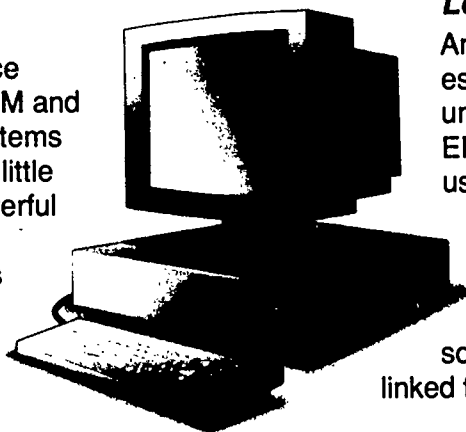

Computer Searching

CD-ROM

In 1986 ERIC became the first major bibliographic database marketed on CD-ROM, and this product has been extremely popular ever since. CD-ROM (compact disk, read-only memory) technology allows vast quantities of data to be stored on compact disks, which are searchable at self-contained personal computer stations. To access the ERIC database on CD-ROM, you need to have a personal computer, a CD-ROM system, and a subscription to one of the CD-ROM vendors.

ERIC CD-ROM products are updated quarterly and sold on a set-fee subscription basis, which makes them a cost-effective option for libraries that offer open access. Advances in networking technology allow multiple users to access a single CD-ROM database simultaneously; ask any vendor about a multiuse license.

Five vendors currently produce ERIC on CD-ROM for both IBM and Macintosh platforms. The systems are designed to be used with little instruction, yet they offer powerful search features. For a list of CD-ROM vendors' addresses and phone numbers, see page 34.

Online Access Through Commercial Services

Online access to ERIC is available through several commercial vendors. Most of these vendors offer sophisticated search capabilities, the ability to access the entire ERIC database (from 1966 to the latest month) at once, and access to a host of other databases that may interest users. One must be trained in the vendor's search language to make use of the most powerful search capabilities, therefore this type of searching is usually performed by librarians and other professionals. Costs include membership fee and charges based on the number of minutes connected to the service and the number of citations downloaded.

OCLC, or the Online Computer Library Center, is an online bibliographic utility used by thousands of libraries around the world. OCLC offers FirstSearch, an information service designed for direct use by library patrons. ERIC is one of many databases accessible through FirstSearch. Fees and access policies for this service are determined by the host library.

Commercial online vendors' addresses and phone numbers are listed on page 34.

Locally Mounted Systems

An increasing number of institutions, especially universities and state university systems, are mounting ERIC data on their mainframes for use by their clientele. The host institutions bear the cost of maintaining the database, select the search software, and determine their own access policies. In some cases, the ERIC database is linked to the library's online public access

catalog (OPAC) and searched with the same interface. To buy the ERIC database tapes for programming and mounting, call the ERIC Processing and Reference Facility at 1-800-799-ERIC (or see the Facility's address and local phone number on page 22).

Print Indexes

Manual searching of ERIC can be provided by subscribing to the print indexes: *Resources in Education (RIE)* and *Current Index to Journals in Education (CIJE)*.

Resources in Education covers the educational document literature and contains five types of indexes: subject, author, institution, publication type, and Clearinghouse/ED number. *RIE* is printed monthly and is available by subscription from:

United States Government Printing Office (GPO)

Superintendent of Documents

Pittsburgh, PA 15250-7954
Telephone: (202) 783-3238
Fax: (202) 512-2250

Current Index to Journals in Education covers articles from more than 800 periodicals and has author, subject, and journal contents indexes. It is printed monthly and available by subscription from:

Oryx Press

ERIC Microfiche

Approximately 95 percent of the documents announced in ERIC are available on microfiche from the ERIC Document Reproduction Service (EDRS). More than 900 organizations

subscribe to the complete ERIC microfiche collection, and others subscribe to partial or subject-specific collections.

Libraries and resource centers with substantial budgets will want to invest in the entire ERIC microfiche collection, but you can purchase specialized collections that suit your budget and your specific areas of interest. Subject-specific collections are available in each of the 16 areas covered by the ERIC Clearinghouses. For example, you can purchase a microfiche collection on elementary and early childhood education or on reading and communication skills. EDRS also sells special collections on current hot topics, including alternative assessment; restructuring schools; multicultural education; and black history, culture, and literature.

To learn more about ERIC microfiche collections, contact:

ERIC Document Reproduction Service (EDRS)
7420 Fullerton Road, Suite 110
Springfield, VA 22153-2852

The Thesaurus of ERIC Descriptors

An essential book purchase for any site that offers access to ERIC is the *Thesaurus of ERIC Descriptors*. The *Thesaurus* is the master list of ERIC's nearly 10,000 subject headings used in indexing and searching. To get the best results from an ERIC search, users should start by converting their search question to the most appropriate ERIC descriptors. The *Thesaurus* includes complete cross-reference structures and rotated and hierarchical displays.

To order the *Thesaurus*, call Oryx Press at 1-800-279-ORYX.

ERIC Training Materials

ERIC Video

ERIC: In Action offers viewers a broad perspective on ERIC as their premier source for education information. The 15-minute video covers four major topics:

- basic structure,
- major benefits,
- key index features, and
- options for locating materials.

ERIC: In Action is available for \$15* from the ERIC Clearinghouse on Information & Technology (see address on page 18).

ERIC Overhead Transparency Masters

ACCESS ERIC now offers a set of 33 ERIC overhead transparency masters that present an introduction to the database, describe the work of the ERIC Clearinghouses, and discuss electronic access to ERIC information. They are invaluable to librarians, professors, inservice directors, and others in need of ERIC training tools. The transparency masters (paper copies) are available free from ACCESS ERIC, 1-800-LET-ERIC.

Training Materials from ERIC Clearinghouses

Many of the ERIC Clearinghouses produce training materials designed for specific audiences. For example the ERIC Clearinghouse on Rural Education and Small Schools offers *A Parent's Guide to the ERIC Database*, and the ERIC Clearinghouse on Disabilities and Gifted Education produces *How to Use ERIC*

to Search Your Special Education Topic. If you are interested in subject-specific materials that explain ERIC, contact the appropriate clearinghouses. (See complete list in Part 2.)

Onsite Training

ERIC staff are available to conduct training programs, seminars, and workshops. If you have a group that could benefit from expert training on how to use ERIC, contact one of the clearinghouses or ACCESS ERIC at 1-800-LET-ERIC.

Reference and Referral Directories

Catalog of ERIC Clearinghouse Publications

This catalog lists more than 1,400 current education titles, including teaching guides, bibliographies, research summaries, and monographs, published by the ERIC Clearinghouses. Many of the publications are free, others are available at a minimal cost. The *Catalog* also includes ordering information and prices and is available for \$10* from ACCESS ERIC.

Directory of ERIC Information Service Providers

Research organizations, libraries, and schools will want a copy of this free directory for use by patrons and staff. It lists more than 1,050 agencies and organizations (including addresses, telephone numbers, and services available) that provide computerized searches of the ERIC database, have a sizable collection of ERIC microfiche, and/or subscribe to and collect ERIC publications.

ERIC Directory of Education-Related Information Centers

The *Directory* identifies and describes 450 resource centers and other agencies that provide information synthesis, user services, technical assistance, information dissemination, and/or reference and referral services in education-related areas. The *Directory* is available in print (\$20*) or on disk (\$25*) from ACCESS ERIC.

ERIC Calendar of Education-Related Conferences

The *Calendar* provides a chronological listing of the more than 525 international, national, and regional education-related conferences held each calendar year. Subject, sponsoring organization, and geographic indexes are included. The *Calendar* is available in print (\$20*) and on disk (\$25*) from ACCESS ERIC.

All of the reference and referral directories described above are available from ACCESS ERIC and several are available online. For more information call ACCESS ERIC at 1-800-LET-ERIC.

ERIC Indexes and Search Aids

A number of free and low-cost publications available from the ERIC Processing and Reference Facility are useful references for libraries and information centers that provide access to ERIC. These include: the *ERIC Identifier Authority List*, the *ERIC/RIE Title Index*, and the *Institutional Source Directory*.

The Facility also produces a series of free *ERIC Ready References* designed to provide a maximum amount of information on a single, well-defined topic related to the ERIC database. Current titles include: "What Kinds of Documents are in the ERIC Database (RIE)?," "Journals Currently Covered by CIJE," and "Field Labels/Tags in Use by Online and CD-ROM System Vendors for the ERIC Database."

For pricing information and a complete list of available indexes and search aids, contact the ERIC Processing and Reference Facility at 1-800-799-ERIC.

Additional Systemwide Publications

The ERIC Review

This free journal provides education practitioners (especially teachers, professors, principals, and education students) with research and news. It announces important ERIC developments, new products and services, and presents recent research findings and critical trends and issues in education. To request a specific issue or to be added to the mailing list, call ACCESS ERIC at 1-800-LET-ERIC.

A Pocket Guide to ERIC

This free, handy reference guide briefly describes the ERIC system, its services and products, and their use. Bulk quantities are available for classroom, seminar, or conference use from ACCESS ERIC at 1-800-LET-ERIC.

* All prices current as of March 1994; prices subject to change without notice.

In addition to serving end users and ERIC information service providers, the ERIC system wants to maintain close links with other education-related organizations and constituent groups. That's why ERIC has developed a constantly growing network of partners.

ERIC partners facilitate the exchange of education information between ERIC and its constituents. Partners broaden the dissemination and use of ERIC information within the education community. Specifically, they:

- promote ERIC among existing, as well as new, audiences;
- disseminate ERIC information to constituents through their newsletters and journals;
- enhance the ERIC database through the addition of documents; and
- encourage joint projects such as workshops and conferences.

In turn, partners enjoy many benefits from the Clearinghouse with which they are associated, including:

- VIP service, featuring quick turnaround in handling requests;
- free or discounted ERIC-produced publications;
- advance notice of materials distributed by the ERIC system; and
- technical assistance and support.

Any agency or organization with a constituency interested in education and willing to distribute ERIC information may become a partner by contacting ACCESS ERIC at 1-800-LET-ERIC or any ERIC Clearinghouse (see Part 2).

- Adjunct Clearinghouses** Clearinghouses that are associated with and contribute to the ERIC system, and have narrower scopes than the 16 major ERIC Clearinghouses. Adjuncts often have funding from sources other than the Office of Educational Research and Improvement. Adjuncts are usually affiliated with one of the major clearinghouses and perform many of the same functions.
- Boolean Logic** A system, named after the English mathematician George Boole, for symbolizing logical statements by using the operators AND, OR, and NOT. Boolean logic is often used in information retrieval to define the limits of a computer search. The Boolean operator AND finds records containing both terms, OR finds records containing either one or both terms, NOT finds records containing the first term but not the second.
- CD-ROM** Acronym for "compact-disk, read-only-memory." These disks can hold up to 250,000 pages of text which can be searched and retrieved using microcomputers. The ERIC database is available in this format from several vendors.
- Clearinghouses** Components of the ERIC system that are funded to collect, abstract, and index education materials for the ERIC database; respond to requests for information in their subject areas; and produce special publications on current research, programs, and practices.
- Descriptors** Subject terms used to index and search for documents and journal articles in the ERIC database.
- Digests** Two-page research syntheses or overviews of education topics.
- ERIC Information Service Provider** A library or other information center that provides individuals with access to the ERIC database and related resources. ERIC Information Service Providers do one or more of the following: provide online or CD-ROM access to the ERIC database; maintain sizeable collections of ERIC microfiche; and subscribe to and collect ERIC publications, including *Resources in Education (RIE)*, *Current Index to Journals in Education (CIJE)*, the *Thesaurus of ERIC Descriptors*, and/or ERIC Clearinghouse publications.
- ERIC Partners** Agencies and organizations with constituencies interested in education that have expressed a willingness to facilitate the exchange of information between ERIC and their constituents.
- Identifiers** Searchable key words used to index documents and journal articles in the ERIC database. Identifiers are used to index geographic locations, personal names, test or program names, and other concepts not covered by descriptors.
- Internet** The international computer network consisting of many smaller networks that are interconnected.
- Online** An "online" function is performed with the user in direct contact with the computer, interacting in real time.
- Online Vendors** Organizations that maintain databases and related software on their computer systems and sell online retrieval time to clients at multiple remote locations.

ERIC®: TIPS FOR TEACHERS IN TRAINING

If you're a teacher or planning to be one, you owe it to yourself and your students to learn about ERIC. ERIC is the personable acronym for the Educational Resources Information System, the largest education database in the world. Today's ERIC continues to be your best source for searching the education literature, but the new ERIC has much more!

THE ERIC DATABASE

At the heart of ERIC is the largest education database in the world—containing more than 800,000 records of journal articles, research reports, curriculum and teaching guides, conference papers, and books. Each year, approximately 30,000 new records are added. Whether your assignment concerns the latest teaching methods, educational approaches, or research, start by searching ERIC.

ERIC NOW OFFERS YOU:

- ✓ toll-free numbers that put you in touch with subject-specific clearinghouses
- ✓ more than 1,000 two-page, research synthesis publications: in print and electronic formats
- ✓ a 48-hour turnaround, electronic question-answering service
- ✓ access from your personal computer
- ✓ hundreds of lesson plans you can access and download to your computer
- ✓ document ordering via fax or toll-free phone call

.....

WHERE CAN YOU FIND ERIC?

You can probably search the ERIC database at your university library. If you have a computer with a modem, you may be able to access ERIC on your library's online system or on the Internet.

Even the commercial electronic networks now offer many of the ERIC resources. CompuServe, America Online, GTE Educational Network Services, America Tomorrow, and the National Education Association's NEA Online service all offer at least some of the ERIC resources to their members.

If you need help locating the best way for you to access ERIC, call ACCESS ERIC Monday–Friday at 1–800–LET–ERIC.

ERIC ON THE INTERNET

Many colleges and universities offer their students access to the Internet (a worldwide computer network made up of many smaller networks that are interconnected).

If you have an Internet ID, you can use it to:

- ✓ search the ERIC database on one of several university library systems

(continued **58**)

- ✓ copy lesson plans from Newton's Apple and Academy One
- ✓ send a question about education to AskERIC (e-mail to askeric@ericir.syr.edu)
- ✓ get CNN Newsroom and Discovery Channel materials
- ✓ search the Educational Testing Service (ETS) Test Collection
- ✓ search the ERIC Digests Online file of more than 1,000 two-page, research syntheses on current topics

For details on locating ERIC on the Internet, send an e-mail message to:

askeric@ericir.syr.edu

or call ACCESS ERIC (1-800-LET-ERIC) or the ERIC Clearinghouse on Information & Technology (1-800-464-9107).

.....

ERIC DIGESTS ONLINE

ERIC is your source when you need a brief overview of the latest research on topics like:

- ▶ outcome-based education
- ▶ inclusion of students with disabilities in regular classrooms
- ▶ non-graded and mixed-age grouping
- ▶ increasing the school involvement of Hispanic parents
- ▶ authentic writing assessment
- ▶ trends in K-12 social studies

These and more than 1,000 other topics are available as ERIC Digests, and new titles are produced each year. Digests are often in question-answer format and always include a list of additional resources for more information. Most of the Digests in the file were produced by ERIC Clearinghouses, but ERIC is now including similar publications from other organizations.

You can search and locate the complete texts of ERIC Digests on the CD-ROM versions of the ERIC database (available at hundreds of university libraries) and on the Internet. You can also contact the ERIC Clearinghouse that covers your topic and ask for its latest Digest list.

.....

DON'T FORGET ERIC WHEN YOU GET TO THE CLASSROOM!

ERIC is a great resource for education students, and a large percentage of the information requests to ERIC last year came from classroom teachers. Every week close to 300 teachers send questions to AskERIC's e-mail address. Electronic networks for teachers in Texas, New York, Massachusetts, Washington, Florida, and Missouri feature ERIC on their menu systems, as do a number of regional and school district networks. If you're on a network, ERIC is likely to be there now or soon. For teachers who don't yet have computer network access, ERIC is available in many large public libraries and at teacher resource centers.

.....

GIVE ERIC A CALL!

Toll-free phone numbers put you within easy reach of ERIC information specialists. Staff provide ERIC publications, answer questions about ERIC, help you locate hard-to-find documents, and refer you to other information sources. It is best to call an ERIC Clearinghouse if you have a subject-specific question. You can call ACCESS ERIC to learn how to use the ERIC system. Call the ERIC Document Reproduction Service (EDRS) toll-free (1-800-443-ERIC) to order ERIC documents. See the ERIC System Directory or call ACCESS ERIC (1-800-LET-ERIC) for the toll-free numbers. ☛

What Is in the ERIC Database?

In addition to journal articles, which make up about half the database, ERIC includes the following types of documents:

- Research reports
- Books
- Conference papers and proceedings
- Program descriptions
- Opinion papers
- Teaching guides
- Curriculum
- State-of-the-art reviews
- Feasibility and evaluation studies
- Tests and questionnaires
- Instructional materials
- Bibliographies
- Legislative materials
- Speeches and presentations

Access to the ERIC Database

You can access and review abstracts of education journal articles and documents in the ERIC database:

- **Online via a computer and modem, through commercial vendors and public networks.**
- **On CD-ROM (compact disc, read-only memory).**
- **In print, using RIE and CIJE.**

Program Development: A Description of Practice Related to Theory.**Paprock, Kenneth E.**

Oct 1988

21p.; Paper presented at the conference Teaching Adults: Myths and Realities (Cincinnati, OH, October 7-8, 1988).**EDRS Price - MF01/PC01 Plus Postage.****Language: English****Document Type: CONFERENCE PAPER (150); Research REPORT (143)****Geographic Source: U.S.; Texas****Journal Announcement: RIEAPR89**

A study examined the situation-specific program development strategies used in 47 different settings in the southwestern United States from January 1987 to January 1988. Specialized and elite interviews were administered to program developers to identify the approaches that are being used and to determine how they relate to the approaches described in the adult education literature. The responses given during the interviews indicated that most of the programs for adult learners were focused on problem solving and information giving and were normatively defined by the sponsoring agency, with the program developer acting as a solution giver and resource linker. The information gathered during the interviews indicated that what is being practiced in reality is not what is prescribed by any one approach in the literature. It was hypothesized that program developers who state that theories and formulas in the literature do not always apply in their situation may have factors and forces in their situation that may call for adjustments or modifications of the approaches advocated in the literature. The interviews conducted would seem to indicate that program development can be viewed as a process used to link various agent and client systems for the deliberately undertaken action of learning. Are there adult education activities that can claim a right to existence and public subsidy, or is value defined only in terms of consumption? Resolution of this issue necessitates basing practice on theory so that the "why" of education is not excluded by the "how." (SK)

Your Guide to ERIC

by Bettina A. Lankard

This curriculum package for ERIC users and trainers may be used in a workshop or independently by individuals. The package includes four learning modules, a set of transparencies for each module, relevant ERIC publications, and a set of *Quick Search Cards*, which give step-by-step instructions for searching ERIC on CD-ROM. The first module is an introduction to ERIC and its products and services, and the second explains what types of documents are included in the database, the criteria used to select them, and how to submit documents. The third module covers how to search ERIC, types of searches, appropriate descriptors, and proven search strategies. The last unit describes how to obtain ERIC documents, journal articles, information, and services.
