Elite educational and political system in Egypt "Study in the problematic relationship between the cultured and the Authority"

Dr. Salah El-Sayed Abdo Ramadan *

Dr. Ahmed Gonimy Mehanawy **

Abstract:

The research aims to study the relationship between the educational elite and the political system in Egypt, in order to identify the nature of this relationship, and the factors that affect them. To achieve this objective has been divided into several research themes are as follows:

- A - The first axis: the historical origins of the relationship between intellectuals and power.
- B - The second axis: the societal factors that affect the relationship and intellectual authority (elite educational and political system).
- C - The third axis: the problematic relationship between the cultured and power.
- D - Fourth axis: implications of this relationship on some educational issues.
- E - Theme V: the future vision of an interactive relationship between the educational elite and the political system.

Were all addressed the focus of the previous themes in some detail, has been focusing primarily on the implications of this relationship on some educational issues, through the statement of the extent of the
