## INTRODUCTION

It is becoming more and more important to offer migrant families referral type services to benefit the total family. A child may not be able to function in class if he or she has a toothache, fever, cold, or maybe ill-fitting clothes and shoes. Their thoughts may dwell on the fact that there is no food in the home for the family. This may bear on the child's mind throughout the day. The total picture as the child sees it may be an important factor in his ability to concentrate and participate in the classroom. We, as educators, strive to treat the total situation as discretely and completely as our facilities, funds, common sense, and compassion enable us to do.

In preparation of this booklet for school directors, social workers, counselors, recruiters, teachers, and migrant supporters, we want to give you practical information that can be used to assist migrant children and their families.

HEALTH

### ASSISTANCE

Look in your phone directory under "Louisiana, State of" and the type of service you need for listing and number. If it is not listed under Louisiana, then check under the parish where you are residing for listing and number.

Ask your local school principal for information about your local Migrant Program.

Dental assistance may be available in a state operated hospital or a welfare program or Title I Program in the parish schools if you are eligible. Direct assistance may be available through your Migrant Program after all other resources have been exhausted.

The state operated hospitals, parish health centers, mental health centers, Title I school programs may take care of migrant medical needs. Migrant Education may give medical assistance after other resources have been explored. Contact the local parish health unit to obtain information about child care, family planning, and inoculations (shots) for your child.

Every child has the right to be born healthy and to be wanted. Family planning services help you to give these rights to your children. It is a medical service to improve health and to give you the freedom to decide how many children you will have and the number of years between them.

#### HOW DO I RECEIVE THESE FREE HEALTH CARE SERVICES?

For each month in which you qualify for the health care services provided by the State, you will receive a card which identifies you as a Medicaid eligible person. Always present your card to your physician, pharmacist, hospital, etc., so they will know you are eligible to have payment for your medical service made by the Division of Family Services. Presenting your medical eligibility card will also help you to find out whether your physician or hospital accepts payment from the State for services.

If you have any questions about the medical assistance program, contact your welfare worker. Be certain you give all the facts concerning your case to your worker.

#### YOU HAVE A RIGHT TO A FAIR HEARING.

If you disagree with any decision about your right to receive free medical assistance, you can request a fair hearing.

Your local welfare worker will help you file a request or you may contact the Division of Family Services, Louisiana Health and Human Resources Administration, P. O. Box 44065, Baton Rouge, Louisiana 70804, directly. This request for a fair hearing must be made within 30 days after the local office decides your case.

The fair hearing is an informal procedure conducted by a Hearing Officer who was not involved in the original decision. During the hearing, you are given an opportunity to explain why you think the agency action was unfair. The worker from the local office will explain why the action was taken. The Director of Family Services will make the final decision in your case based on the evidence presented at the hearing.

If you believe you have been discriminated against because of race, color, or national origin, you have the right to file a complaint either through your local welfare office or directly to the Division of Family Services or the federal government.

Complaint forms are available from your local welfare office.

#### WHAT IS THE DIFFERENCE BETWEEN MEDICARE AND THE STATE'S MEDICAL ASSISTANCE PROGRAM?

MEDICARE is a federal health insurance program for almost all persons 65 or older, rich or poor, and for some persons under 65 who are disabled.

MEDICARE details are available at your local Social Security Office.

Louisiana's Medical Assistance Program is for those needy persons who qualify for welfare assistance or Supplemental Security Income.

Details of the State's medical assistance program are available at your local welfare office.

MEDICARE and the State's medical assistance program work together to provide medical care for qualified persons.

Call your local parish director for more information.

## WE CARE

If you need help, take the time to read this brochure all the way through. We can help you. Fair Chance is a non-profit organization that delivers good, clean, usable clothing for needy children to stay in school.

This clothing will come to your school prepaid - no cost - no strings attached. Our aim is to help you, the school administrator, as well as the child. A child back in school helps your ADA.

We ship the clothing in bags according to the categories listed on the enclosed requisition form. A bag will hold approximately 35 dresses or 25 pair of boys pants or maybe 8 jackets, depending on the bulk of the item. We need six bags to make a freight shipment, because the minimum freight rate is based on 100 lbs. minimum or six of our bags.

We suggest that you order one bag each of the clothing that you need. We would rather that you order oftener than one big shipment.

If you need additional information, write me.

WE CARE AT  
FAIR CHANCE, Inc.

Bert Schoneberger  
Program Director

P.S. If you have an emergency or special needs, less than the minimum freight shipment, write us and we will do our best to take care of your request. B.S.

# WHAT WE DO.....

## FAIR CHANCE IS:

Incorporated not for private advantage — pecuniary profit nor personal gain — but for the purpose of:

Gathering, sorting and distributing clothing and other items of need to all people, regardless of race or religious affiliation.

Directing our efforts principally to the task of keeping children in school where the problem is related to a lack of clothing.

To have ready and available at all times, aid in the form of sorted, usable, specific clothing in times of disaster wherever the problem exists in the United States.

Provides shipping bags — leaflets — material and arrangements for shipping to all who are willing to help. Do you know of an organization that would be interested?

Sorts—evaluates—and packs by size—item and use (such as boys, girls, men, women; dresses; jackets; suits, etc.) all clothing collected so that the best use may be made in the process of distribution.

Has set up projects related to clothing distribution, hearing problems, eye care and dental care in the migrant camps and Indian reservations out west.

Solicits funds to make the above program possible.

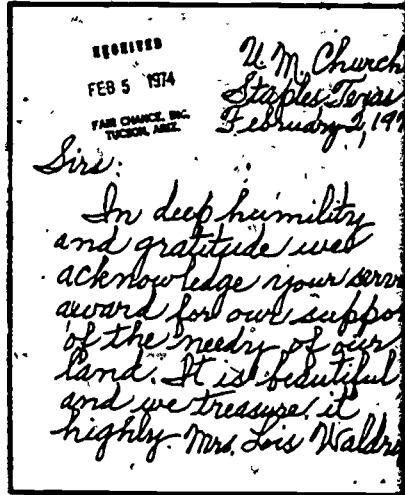

It is also an allowable tax deduction for income tax purposes.

Our financial statement is available to anyone upon request.

**FAIR CHANCE, INC. DOES NOT SELL ANY OF THE CLOTHING RECEIVED. IT IS DISTRIBUTED TO ALL PEOPLE REGARDLESS OF RACE OR RELIGIOUS AFFILIATION.**

A CLOSE CONTACT IS MAINTAINED WITH THE SCHOOLS, CHURCH GROUPS AND INDIVIDUALS WHO SEND US THE HIGH QUALITY CLOTHING THAT WE DISTRIBUTE.

MAKING SURE THE CLOTHING NEEDED IS SORTED, FOLDED AND SENT ON IN GOOD SHAPE TAKES DAILY HARD WORK FROM CONSCIENTIOUS PEOPLE

I HOPE THAT THESE FEW WORDS CONVEY TO YOU SOME OF THE GOOD THINGS YOUR GENEROUS GIFTS ACCOMPLISH.

## FOOD STAMP REGULATIONS

All seasonal migrant farm laborers who are destitute of income and resources at the time of application for food stamp assistance shall be certified at the zero purchase level for one month regardless of the amount of income anticipated to be received during the certification period or received prior to certification. The local office shall verify that such households have no income. At the end of the special certification period, eligible households shall be certified based on the amount of income received or anticipated to be received during the ensuing certification period. However, this special certification procedure does not prohibit an eligible household from being certified under regular certification procedures if it so chooses.

EDUCATIONAL ASSISTANCE

## WHAT IS CAMP?

The College Assistance Migrant Programs have proven themselves to be outstanding educational models for the non-traditional and disadvantaged student population. They encompass all support services for qualified migrant students during their initial year of college, and guarantee, through agreement with the host university, that the student will be provided financial aid for the remaining years of his college career.

During the first year of his college career, CAMP students are provided assistance in the following areas:

- 1) Financial aid covering tuition and fees, room and board
- 2) Tutorial assistance and student-to-student advising
- 3) Curriculum advising and career planning
- 4) Summer enrichment program of study skills
- 5) Counseling
- 6) Summer employment opportunities
- 7) Faculty and administration liaison

These programs demonstrate their excellence in areas of student retention, academic achievement, overall impact and cost effectiveness since the migrant seasonal farmworker participants match or surpass the achievement of the traditional student.

The following statistics demonstrate CAMP program performance in the areas of retention, academic achievement, student impact and cost effectiveness.
