

Information on the ACL Special Interest Group on Multimedia Language Processing

In the fourth quarter of 1992, the Association for Computational Linguistics established a Special Interest Group on Multimedia Language Processing (SIGMEDIA). SIGMEDIA provides a forum for the discussion, dissemination and archiving of research topics and results in the field of Multimedia Language Processing. Active topics of interest include:

- Foundational work for representation of nonverbal media and concurrent media streams
- Parsing and generation algorithms for nonverbal and mixed verbal and nonverbal media
- Media selection and integration in automatic presentation
- Media conversion, e.g. natural language text → 3D animation or voice + gesture → 2D graphics
- Data extraction from verbal together with nonverbal media
- Animated conversational agents

More information on SIGMEDIA can be found under URL: <http://www.dfki.uni-sb.de/~andre/sigmedia/index.html>. To join SIGMEDIA, fill out and return this form to sigmedia-request@dfki.uni-sb.de
