## ABSTRACT

This 2001-2002 monitoring report for the Saskatchewan Institute of Applied Science and Technology (SIAST) reports on education equity issues. Highlights of the report include the following: (1) The SIAST Education Equity Committee (SEEC), in conjunction with Women in Trades and Technologies (WITT), formed a province-wide Girls Exploring Trades and Technologies (GETT) committee in order to implement recommendations of a 2001 survey; (2) SEEC supported the development of a comprehensive manual for developing GETT camps; (3) The grand opening of a space for use by students with physical disabilities requiring attendant services was held at Wascana campus; (4) Members of SEEC were offered modules in the Aboriginal Cultural Awareness Program as an aspect of professional development; (5) Enrollment of students of Aboriginal ancestry has risen to 18.9% of SIAST's total enrollment; (6) The three programs of Architectural and Building Technology, Environmental Engineering Technology, and Emergency Medical Technician have reached and maintained a 30% goal for women enrolled in the programs for 5 years; and (7) 5.1% (612) of SIAST's total enrollment of 11,968 are students with disabilities. The report includes appended tables that break down designated student group participation by division/program for the four individual campuses: Kelsey, Palliser, Wascana, Woodland, as well as for the SIAST overall. ## **EXECUTIVE SUMMARY**

---

The women's facilitator for Women In Trades and Technologies (WITT) operated for the first time with a provincial mandate. SEEC expanded its representative membership to include the WITT facilitator. Under her leadership, a province-wide Girls Exploring Trades and Technologies (GETT) committee was formed to implement the recommendations of the ten year survey completed in 2001, and to facilitate the transition from a variety of models to a single model of GETT camps.

SEEC supported the development of a comprehensive "how-to-manual" for developing GETT camps, supplemented with resource materials. The WITT facilitator worked with SaskWITT to produce the manual.

Palliser Campus hired a GETT coordinator to set up and supervise GETT camps and to provide support to Women In Technologies.

The grand opening of a space for use by students with physical disabilities requiring attendant services was held at Wascana Campus in October.

Professional development opportunities provided for members of SEEC included the completion of two modules in the Aboriginal Cultural Awareness Program, participation in a three day workshop which focused on prior learning assessment and portfolio development within the Aboriginal culture, and attendance at a lecture on the anatomy of racism.

Education Equity provided support for Don Burnstick and Winston Wuttunee, to make presentation to staff and students. The two gentlemen are nationally known as Aboriginal entertainers and workshop presenters on the topics of culture and wellness. Don Burnstick presented at the Aboriginal Student Leadership Conference and at Kelsey Campus during diversity week events, and Winston Wuttunee made presentations at each of the campuses.

The enrollment figure for students of Aboriginal ancestry has risen to 18.9 percent of SIAST's total enrollment. Kelsey, Wascana and Woodland Campuses met their established goal. Woodland Campus exceeded the established goal of 25 percent by 20.6 percent.

The goal for total enrollment of disabled students was exceeded at Wascana Campus. Kelsey Campus and Wascana Campus both exceeded the participation goal for students enrolled in Certificate and Diploma programs.

The percentage of women graduates from Certificate and Diploma programs increased SIAST-wide. The increases were significant at Wascana and Woodland Campuses.

The enrollment figures of female students in predominately male programs rose at Kelsey, Palliser and Woodland Campuses in the Technology division. Enrollment in Industrial division programs rose at Palliser and Wascana Campuses.

The three programs of Architectural and Building Technology, Environmental Engineering Technology and Emergency Medical Technician, have reached and maintained a 30 percent goal for women enrolled in the programs, for five years. The Corrections Worker program has maintained an enrollment of 50 percent women for five consecutive years.

The annual Aboriginal Cultural Awareness event held at Woodland Campus included workshops and cultural activities to increase awareness of Aboriginal health issues.

Recent relocation of the Learning Assistance Centre at Kelsey Campus allowed for shared space with the Aboriginal Activity Centre.

The Wascana Aboriginal Students' Association (WASA) was newly formed, and is affiliated with the Wascana Students' Association. WASA received a grant from an external foundation to assist them in the development of their association.

## **1.0 INTRODUCTION**

---

### **1.1 OBJECTIVES**

The objective of this report is to maintain continued approval of the SIAST Education Equity Program by providing the Annual Monitoring Report to the Saskatchewan Human Rights Commission.

The SIAST Education Equity Annual Monitoring Report provides information on actions taken during the year to implement the equity program, progress made, difficulties encountered and any changes to the program under consideration. In this annual report are statistics for students of Aboriginal ancestry, students with disabilities, students of visible minority and women in predominately male programs. These statistics describe information for rates of application, enrollment, and graduates for SIAST and the four campuses.

### **1.2 HISTORY OF THE SIAST EDUCATION EQUITY PROGRAM**

The sponsor for the Education Equity Program is the Saskatchewan Institute of Applied Science and Technology (SIAST). SIAST operates from five main locations: Kelsey Campus, Saskatoon; Palliser Campus, Moose Jaw; Wascana Campus, Regina; Woodland Campus, Prince Albert; and, Administrative Office, Saskatoon. SIAST provides training at many other locations in Saskatchewan. The Education Equity Program applies to students in all program areas: Certificate and Diploma; Basic Education; Extension and Apprenticeship programs.

In 1987, prior to the formation of SIAST, the four institutes set up a Native Services Division (NSD) in partnership with Gabriel Dumont Institute (GDI). The NSD at Wascana requested approval from the Saskatchewan Human Rights Commission (SHRC) to set aside a percentage of seats in both the Certificate and Diploma programs for Aboriginal students. This initiative was intended to increase access opportunities for Aboriginal students. This plan was approved with the condition that a plan be developed to include women and people with disabilities by 1989.

In 1988, SIAST was established by the amalgamation of several post-secondary institutes and regional colleges. Now a division of SIAST, Native Services developed an affirmative action program for Aboriginal students in the three other campuses. Again, approval was given on the condition that the program be expanded to include students with disabilities and women. The program was approved for Certificate and Diploma programs by the Saskatchewan Human Rights Commission and began in 1990.

From 1990 until 1993 infrastructure and support services for students were developed. In 1992, the Human Rights Commission included visible minority persons as a designated group in Saskatchewan. In 1993-94 a research project examined the needs of students of visible minorities within SIAST. Students of visible minorities self-identified on SIAST application forms for the first time in 1994-95.

The Native Services Division (NSD) was established through an arrangement with SIAST, Gabriel Dumont Institute and Saskatchewan Education. Until May 1993, the NSD provided counselling and support services for Aboriginal students, promoted Aboriginal culture and identity, and raised community awareness of Aboriginal issues. The NSD closed that year, and the staff counsellors were integrated within SIAST.

In 1993-94 work began on a strategy to investigate and incorporate Basic Education (BE), Apprenticeship and Extension programs into the Education Equity Program. A research project, to identify issues and make recommendations on the integration of BE and Education Equity, was completed. Also that year, a joint SIAST Education Equity Committee (SEEC) and Provincial Apprenticeship Board workshop assisted the Board in its development of a strategy to increase designated group participation in Apprenticeship. A workshop with SIAST Extension staff assisted in the identification of issues and solutions to effectively integrate Extension Program students and Education Equity. The establishment of linkages with SIAST's external partners continues.

### **1.3 STRUCTURE OF THE REPORT**

The Annual Monitoring Report presents the history, policy and structure of the SIAST Education Equity Program. The report consists of information, participation rates, statistics and analysis of students of Aboriginal ancestry, students with disabilities, students of visible minority and women in predominately male programs. This information is described using text and tables which portray application, enrollment, and graduate rates for all programs at SIAST as well as the programs in partnership with Dumont Technical Institute (DTI).

The campuses and the SIAST-wide Education Equity committees initiatives and projects are also listed in this report. These support special measures for designated group students in the areas of recruitment, admission, retention, follow-up and staff development activities.

## **2.0 SIAST EDUCATION EQUITY POLICY**

---

### **2.1 SIAST EDUCATION EQUITY POLICY**

The SIAST Education Equity Policy, endorsed in 1994, ensures coordination and consistency among the campuses. The intent of the policy is to assure access to adult basic education and post-secondary education such that the proportions of education equity students to the total student body are the same as the working age population of Saskatchewan; and that their rate of success is the same as for the student body as a whole. This policy is currently under review.

### **2.2 SIAST EDUCATION EQUITY POLICY STATEMENT**

**SIAST intends to assure access to adult and post-secondary educational opportunities by potential students such that the proportions of targeted equity groups to the total student body are the same as in the working age population of Saskatchewan; and such that the rate of success of students in targeted education equity groups is the same as for the student body as a whole.**

**(SIAST Policy and Procedures Manual, SIAST Policy #502)**

### **3.0 STRUCTURE OF THE SIAST EDUCATION EQUITY PROGRAM**

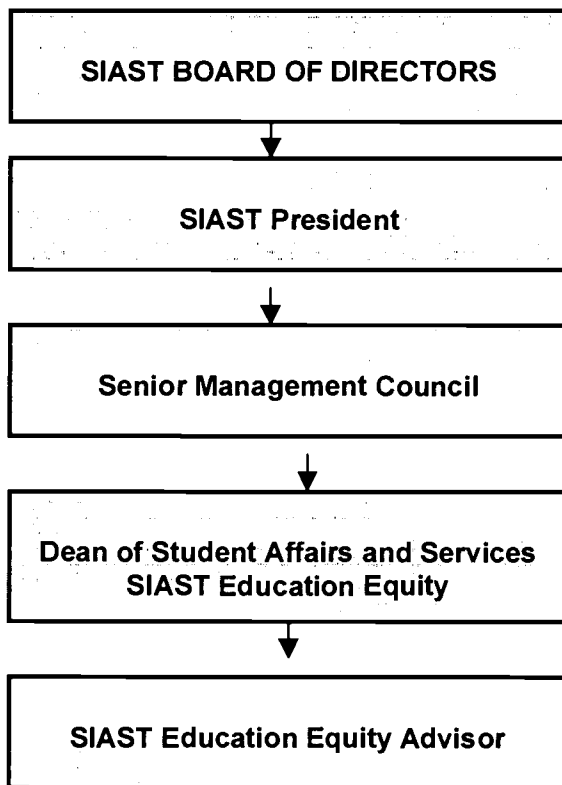

#### **3.1 STRUCTURE AND FUNCTION**

The SIAST Board of Directors determines policy and direction for the Education Equity Program. In 1998, the President assigned the Dean of Students responsibility for the administration of the Education Equity Program policy and procedures.

The SIAST Education Equity Committee makes recommendations to the Dean of Students, who in turn recommends actions and policies to the Senior Management Council and the Board. The SIAST Education Equity Committee is chaired by the SIAST Education Equity Advisor. Representatives from the Campus Education Equity Committees sit on the SIAST-wide Committee. (See the following Figures 1 and 2.)

**Figure 1**

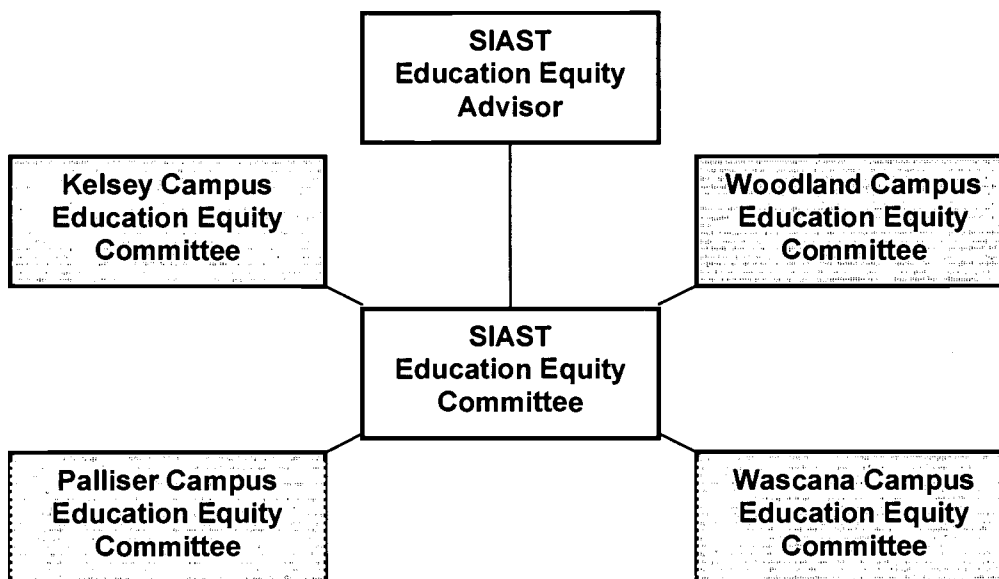

**SIAST Education Equity Program - Administrative Structure:**

BEST COPY AVAILABLE

**Figure 2**

**SIAST Education Equity Program - Committee Relationships:**

In 1997, the SIAST Board announced a structural change that was linked to the goals and objectives of the Saskatchewan Training Strategy. These changes are now in place.

- Senior Management Council (SMC) has replaced the SIAST Management Team (SMT).
- Campus Directors have replaced Principals.
- Program Division Deans have been appointed on an institute wide basis.
- Program clustering has occurred and Campus Program Heads are now in place.
- Creation of the SIAST "virtual" campus is ongoing.

SIAST remains committed to working towards equity for all students.

### **3.2 SIAST EDUCATION EQUITY COMMITTEE (SEEC)**

The SIAST Education Equity Committee coordinates activities of the SIAST Education Equity Program with input from the four campus committees, reports on activities and issues to the Dean of Student Affairs & Services, approves proposals and monitors projects funded by the SIAST portion of the Education Equity Special Fund. The SIAST Education Equity Committee meets regularly throughout the year.

The SIAST Education Equity Committee is composed of the Dean of Student Affairs & Services; the SIAST Education Equity Advisor; two representatives from each campus Education Equity Committee, one of

whom is the Equity Coordinator/Counsellor; representatives of internal stakeholder groups such as Women in Trades and Technology (WITT), and facilitators and counsellors for Aboriginal students. The Committee is chaired by the SIAST Education Equity Advisor.

### **3.2.1 Advisor, SIAST Education Equity Program**

The advisor coordinates the activities of the Education Equity Program by consulting with program stakeholders, monitoring the completion of SIAST-wide projects, administering the program on behalf of SIAST and chairing the SIAST Education Equity Committee. The advisor represents the program in the provincial community, particularly with the Saskatchewan Human Rights Commission.

## **3.3 CAMPUS EDUCATION EQUITY COMMITTEES (CEEC)**

Campus Education Equity Committees develop action plans, provide staff development activities, strike task teams and subcommittees to resolve local issues, develop proposals for projects for their allocation of the Education Equity Special Fund, monitor those projects, and identify issues to management and SEEC in consultation with equity program staff. Each campus committee sets goals, objectives and action plans for the year. These may vary from one campus to the other. Committees continue to develop and expand services for designated group students.

The membership and chair of the Campus Education Equity Committee is at the discretion of each campus. In establishing membership, each campus is asked to consider factors such as current education equity priorities, SEEC representation, designated student group representation, local stakeholder groups, and special knowledge and skills possessed by particular campus staff members.

### **3.3.1 Education Equity Co-ordinator/Counsellor**

The Education Equity Co-ordinator/Counsellor continues to play a pivotal role in the recruitment, support and retention of designated group students. They are resource people for applicants, students, faculty, staff, management and external stakeholders. The specific duties of each co-ordinator/counsellor vary from campus to campus, dependent on the needs of that campus.

### **3.3.2 Counsellors for Students of Aboriginal Ancestry**

These counsellors are the key link in service delivery for students of Aboriginal ancestry. They make contact with applicants and agencies which refer students, provide student counselling, offer cultural and other activities through the Aboriginal Student Activity Centres and are resource people for faculty, staff and management.

### **3.3.3 Aboriginal Student Activity Centres**

Aboriginal Student Activity Centres are a focal point for such services as counselling, tutorial support, information on employment opportunities and scholarships, study space and the use of technical devices such as computers. The Centres are a place for student interaction and fellowship, for liaison with stakeholders and for traditional feasts and ceremonies.

### **3.3.4 Learning Specialists**

Each campus provides learning assistance for students with disabilities through either a part or full-time learning specialist. The learning specialists provide individual student assistance and act as a resource to faculty and staff. Psycho-educational assessments are conducted and individual learning plans are developed. On-going training and support is provided to faculty. Students are coached in self-advocacy.

Three of the four campuses (Kelsey, Wascana and Woodland) have Learning Assistance Centres. The Learning Centres are operated on a drop in or appointment basis. The centres provide extensive services to Education Equity students including multiple types of accommodations and the use of adaptive technology.

### **3.3.5 Women's Facilitator**

In the past, Wascana campus has employed a part-time women's facilitator. In 2001-02, this part-time position changed to a SIAST-wide focus. The women's facilitator develops student support groups, provides on-going faculty support and training, recruits potential students, offers Girls Exploring Trades and Technology camps, instructs pre-trades for women courses and acts as a liaison between faculty and female students in predominantly male programs.

This year Palliser Campus hired a part time GETT Co-ordinator.

## **4.0 DESIGNATED STUDENT GROUPS**

---

The 2001-02 long-term goals for participation in SIAST programs are described below. Tables, which show the participation of designated group students as applicants, enrolled, and graduates are discussed. Since self-identification is voluntary the statistics are assumed to be incomplete.

The tables are designed to show the application, enrollment, and graduation rates of one designated student group per table. Detailed information, by campus, is included in the Appendices.

The participation rate tables (Tables A1 - D5) of designated student groups for Certificate and Diploma, Extension, Apprenticeship and Basic Education are all in one table. There is one table for each designated student group.

### **4.1 DESIGNATED STUDENT GROUPS**

The SIAST Education Equity Program establishes goals and implements measures to assure that proportion and rate of success of equity students to the total student body is the same as the Saskatchewan working age population. Designated student groups at the present time include:

- students of Aboriginal ancestry.
- students with disabilities.
- students of visible minorities.
- women students in predominantly male programs.

### **4.2 PARTICIPATION OF DESIGNATED STUDENT GROUPS**

The SIAST Education Equity Program's long-term goal is to achieve a representative student body. In order to achieve this goal a percentage of seats are allocated for some designated student groups.

The annual, and long-term goals, for student participation reflects Saskatchewan demographics and regional variations in the distribution of designated group populations.

#### **4.2.1 Participation Goals**

The 2001-02 SIAST participation goals listed below are based on the Saskatchewan work force. The long term goals for participation are based on the percentage of designated group persons in the working age population as of June 1996.

- persons of Aboriginal ancestry: 12.2% for Regina, Saskatoon and Moose Jaw, and 25% for Prince Albert
- persons with disabilities: 9.7%

- persons of visible minority: 5.1% for Regina, 4.7% for Saskatoon and 2.6% for Moose Jaw and Prince Albert
- women in the workforce: 45%\*

DESIGNATED GROUP STUDENT PARTICIPATION GOALS			
Designated Group Students	2001-02 Goals	Long-Term Goals	% of Working Age Population*
Students of Aboriginal Ancestry			
• Kelsey, Palliser and Wascana	12.2%	12.2%	12.2%
• Woodland	25.0%	12.2%	12.2%
Students with Disabilities	5.0%	9.7%	9.7%
Female Students			
• Predominantly Male Programs	30%	50%	45%**
Students of Visible Minorities			
• Kelsey	n/a	4.7%	4.7%
• Palliser and Woodland	n/a	2.6%	2.6%
• Wascana	n/a	5.1%	5.1%

\* Provided by the Saskatchewan Human Rights Commission

\*\* Demographics indicate that women will comprise 50% of the future population.

Seats are not allocated for students of visible minorities, as enrollment has not been identified as a barrier for this designated group.

The participation goals for designated seats will continue to be reviewed over the next year.

## **5.0 PARTICIPATION STATISTICS**

---

The organization analysis that follows covers the period of July 1, 2001 - June 30, 2002. The information is extracted from the student record system and from SIAST applications, which includes a self-identification section. As self-identification is voluntary, not all designated group students choose to identify, therefore, participation may actually be higher than described.

Participation rates reflected by applications, enrollment, and graduation statistics, SIAST-wide, are presented in the Participation Statistics for each of the minority groups. As discussed in Section 4.0, specific target goals have been established for each campus in order to achieve a representative student body at SIAST. These goals are not identical in each location.

The Board of Directors, in April 1999, approved that, with the exception of the Nursing Education Program of Saskatchewan (NEPS), SIAST will admit students to programs on a first-qualified, first-admitted basis. Therefore, applications are received throughout the year to enter into the first year of a program. Students are usually not required to apply for Year Two and/or Three of diploma programs.

Application statistics from Apprenticeship and Basic Education (BE) are not provided in this report. Apprenticeship students do not apply to SIAST, and Basic Education students do not apply through the Registrars' office.

The enrollment statistics reflect the enrollment activity within a given academic year. Basic Education and Apprenticeship numbers have a strong influence on the overall total enrollment figures. Therefore, distinctions must be made between the Certificate and Diploma programs or all programs at the campuses, when looking at percentages or trends.

The graduate statistics reflect the percentage of the total graduate population per designated student group. The percentages are not graduation rates. In order to have an accurate graduation rate, the same cohort of students must be followed. The graduate statistics in one academic year do not represent the same students who were enrolled in the corresponding academic year. Some students may have been enrolled for longer than one year. Also, variable intakes and completion dates associated with competency based programs have a strong influence in the outcomes. This applies to many programs offered at the Wascana and Woodland Campuses.

Graduate statistics from Apprenticeship and BE programs are not available, as these students do not graduate from SIAST.

The presentation of the statistics for each designated group is organized into sections that are formatted the same. Each section begins with comprehensive

tables of application, enrollment and graduate rates for the designated group, first by Division, then by Campus.

These tables are followed by a closer analysis of each of application, enrollment, and graduate data, which make comparisons both to previous years and to participation goals by campus for that group.

Withdrawal information is not included in this section. It is important to note that previously some students who withdrew were not given a withdrawal code, dependent on the responses given by the student. The form is optional for students to complete and although all withdrawals are recorded, the reason for leaving beyond being required for academic reasons was often not known.

Education Equity counsellors attempted to collect withdrawal information for an anecdotal report. The primary reasons for leaving were academic difficulty, health and family. Tables which show SIAST-wide withdrawal rates are located in Appendix B5.

## 5.1 ORGANIZATION OF TABLES

The following tables show the designated student group participation by Division, by Campus and SIAST-Wide:

- Tables A1 - A5 - Aboriginal Students
- Tables B1 - B5 - Students with Disabilities
- Tables C1 - C5 - Students of Visible Minority
- Tables D1 - D5 - Women Students
- Table D6 - Women in Male Dominated Divisions

The tables report on total student applications, enrollment, and graduates, compared to each of the designated groups. In each case, the percentage indicates the proportion of the specific equity group in the pool of the total applicants, enrolled students and graduates by Division and by Campus. Tables which show each SIAST program and designated student group participation are in Appendix B.

### 5.1.1 Certificate and Diploma Programs

In 2000 - 01, SIAST adopted an admissions policy of "first-qualified, first-admitted", maintaining a wait list of applicants. Applications are received throughout the year to enter into the first year of a program. The Nursing Education Program of Saskatchewan is the only program to maintain a competitive admission.

Most of the programs offered are on-campus Certificate and Diploma programs. These comprise the largest sections of the tables, and are reported by Division and Campus.

Graduate statistics for students in the Nursing Education Program of Saskatchewan are not available as these students move to the university for years 3 and 4; therefore, they are graduates of the University.

### **5.1.2 Extension**

There are a number of factors that should be considered when interpreting the statistics of Extension programs.

Enrollment data for Extension students studying full or part time is available since they now apply in the same manner as on-campus Certificate and Diploma students. Extension students often simply apply for one or more credit courses in a Certificate or Diploma program without having sought acceptance to the program. SIAST gives Extension students taking credit courses the opportunity to self-identify in the Education Equity Program. This does not occur for all non-credit courses, as students do not complete an application form to enroll in these courses. Therefore, the actual number of designated group Extension students will be higher than recorded.

The Extension student graduate information does not include those who complete non-credit courses. Extension graduates may be included in either Extension or Certificate and Diploma student numbers, as they may begin as an Extension student, and then move to a Certificate or Diploma program. Likewise, they may complete the last class or two of a Certificate or Diploma program through Extension. Also worth noting is that students who take one or more credit courses and have no need to complete the whole program will not show as graduates, yet they will have successfully met their objectives.

Another factor that affects the interpretation of graduation rates for Extension programs is the program length. For example, in a two year program with 100 seats, 55 seats are for first year students, and 45 seats are for second year students. If there are 45 graduates from this program, the graduation rate for the program is really 100%, but will distort the overall rate when reported collectively.

### **5.1.3 Apprenticeship**

All Apprenticeship programs offered at SIAST are included in the following tables, but we provide enrollment numbers only. Apprenticeship students do not apply to SIAST, although SIAST does collect equity participation statistics for Apprentices so that employers and sponsors have the opportunity to consider equity group persons when selecting Apprenticeship candidates. Apprenticeship students do not graduate from a SIAST program, so graduate data is not available.

In 2001, the Saskatchewan Apprenticeship and Trade Commission, through discussion with SIAST counsellors, recognized the need for, and initiated procedures in identifying persons having learning difficulties. SIAST counsellors and learning specialists work with the assessors to implement recommended accommodations, as per SIAST guidelines.

During the first year of implementation, discussions determined how and to whom assessment reports would be distributed within SIAST's policy regarding student rights to privacy and confidentiality. Secondly, a process for selecting accommodations that match the restrictions of both the inter-provincial system and trade specific industry needs was established.

#### **5.1.4 Basic Education**

The Basic Education (BE) programs that SIAST offers ranges from literacy to Grades 1-12.

Basic Education students do not apply to be accepted by SIAST through the Registrars' office, nor do they graduate from a SIAST program, so application and graduate statistics are not available. BE students meet the requirements to receive high school credit for courses administered by Saskatchewan Learning. SIAST reports to the Department on each student's success in meeting those requirements. SIAST continues to explore ways to include more complete reports on BE students.

## 5.2 STUDENTS OF ABORIGINAL ANCESTRY

The following tables are a summary of students of Aboriginal ancestry application, enrollment, and graduate rates by division and campus, for the period of July 1, 2001 to June 30, 2002.

Division	Applicants			Enrolled			Graduates		
	Total	Abr	%	Total	Abr	%	Total	Abr	%
Agriculture & Business	1,423	224	15.7	1,230	152	12.4	464	41	8.8
Community Services	1,421	400	28.1	928	220	23.7	428	77	18
Industrial Training	1,222	231	18.9	667	109	16.3	417	46	11
Nursing	1,214	123	10.1	739	62	8.4	109	3	2.7
Science & Health	1,658	157	9.5	670	56	8.4	367	27	7.3
Technology	1,526	156	10.0	1,322	107	8.0	374	22	5.9
Extension	769	69	8.8	1,254	297	23.7	1,223	172	14
<b>Cert and Diploma Total</b>	<b>9,233</b>	<b>1,360</b>	<b>14.7</b>	<b>6,810</b>	<b>1,003</b>	<b>14.7</b>	<b>3,382</b>	<b>388</b>	<b>11.5</b>
Agriculture				28	0	0			
Community Services				113	10	8.8			
Extension				132	35	26.5			
Industrial Training				1,965	130	6.6			
Technology				607	24	4			
<b>Apprenticeship Total</b>				<b>2,845</b>	<b>199</b>	<b>7</b>			
<b>Basic Education</b>				<b>2,313</b>	<b>1,059</b>	<b>45.8</b>			
<b>SIAST Total</b>				<b>11,968</b>	<b>2,261</b>	<b>18.9</b>			

**NOTE** Students in the Nursing Education Program of Saskatchewan do not graduate from SIAST as it is a collaborative program with the University of Saskatchewan, where they attend third and fourth year classes. The nursing programs included in this table are Licensed Practical Nursing, and Post Diploma/Post Degree programs.

**NOTE** Apprenticeship and Basic Education students do not apply to SIAST, nor do they graduate from SIAST programs. Therefore application & graduation numbers for Apprenticeship and Basic Education students are not provided.

### **5.2.1 Students of Aboriginal Ancestry – Application Rate Comparison**

Compared to 2000-2001, the Aboriginal applicant rates for the Certificate and Diploma programs increased at Woodland by 6.1 percent and at Kelsey by 1.8 percent in 2001-02, while the rate at Palliser and Wascana varied marginally. The overall SIAST Certificate and Diploma program rate increased by 2.0 percent. (See Table A3)

### **5.2.2 Students of Aboriginal Ancestry – Enrollment Rate Comparison**

The 2001-02 established goals for students of Aboriginal ancestry in all SIAST programs, including Apprenticeships and Basic Education, were met at the Kelsey, Wascana and Woodland Campuses. Woodland Campus exceeded the established goal of 25.0 percent by 20.6 percent. The overall SIAST enrollment figures for students of Aboriginal ancestry indicate that there was an increase of 1.4 percent from 2000-01.

Historical trends focus on the Certificate and Diploma programs and exclude Apprenticeship and BE programs. When enrollment for the Certificate and Diploma programs only are considered to maintain consistency in the data, the numbers show that the proportion of Aboriginal students at Kelsey, Wascana and Woodland increased, while Palliser had a slight decrease when compared to 2000-01. (See Table A4)

Kelsey's enrollment numbers increased 2.3 percent in certificate and diploma programs. The number of students enrolled in SIAST certificate and diploma programs increased by 1.4 percent overall.

### **5.2.3 Students of Aboriginal Ancestry – Proportion of Graduates**

Overall, the 2001-02 graduate Certificate and Diploma figures for students of Aboriginal ancestry at SIAST decreased very slightly from the 2000-01 figures. Kelsey and Palliser Campuses recorded slight increases, while Woodland had an increase of 2.0 percent. A decrease of 1.6 percent occurred Wascana Campus. (See Table A5)

### 5.3 STUDENTS WITH DISABILITIES

The following tables are a summary of students with disabilities application, enrollment, and graduate rates by division and campus, for the period of July 1, 2001 to June 30, 2002.

Division	Applicants			Enrolled			Graduates		
	Total	Dsbl	%	Total	Dsbl	%	Total	Dsbl	%
Agriculture & Business	1,423	96	6.7	1,230	63	5.1	464	13	2.8

### **5.3.1 Students with Disabilities – Application Rate Comparison**

In 2001-02, there was an increase of 1.1 per cent in the proportion of applicants with disabilities at Woodland Campus. For SIAST overall, the percentage has remained the same at 4.1 percent. (See Table B3)

### **5.3.2 Students with Disabilities – Enrollment Rate Comparison**

In 2001-02, the enrollment rate of students with disabilities increased only at Kelsey campus for certificate/diploma programs, and at Kelsey and Wascana Campuses when looking at total enrollment. SIAST-wide, the enrollment rate has risen to 5.1 percent when all programs, including Basic Education and Apprenticeships, were taken into consideration, and to 5.2 percent when just Certificate and Diploma programs were tallied. Wascana Campus exceeded the goal, where 8.6 percent of the total enrollment, and 5.6 percent of students in Certificate and Diploma programs, were students with disabilities. Kelsey Campus, at 6.4 percent, also exceeded its goal for students enrolled in Certificate and Diploma programs. (See Table B4)

### **5.3.3 Students with Disabilities – Proportion of Graduates**

The percentage of graduates with disabilities decreased at the Kelsey, Palliser and Woodland Campuses, but increased somewhat at Wascana Campus. The overall SIAST percentage remained unchanged at 3.3 percent in 2001-02. The SIAST percentage had rebounded in 2000-01 after four years of slight decreases. (See Table B5)

## 5.4 STUDENTS OF VISIBLE MINORITY

The following tables are a summary of students of visible minority application, enrollment, and graduate rates by division and campus, for the period of July 1, 2001 to June 30, 2002.

Division	Applicants			Enrolled			Graduates		
	Total	VM	%	Total	VM	%	Total	VM	%
Agriculture & Business	1,423	63	4.4	1,230	55	4.5	464	13	2.8

#### **5.4.1 Students of Visible Minorities – Application Rate Comparison**

The application rate for students of visible minorities to the Certificate and Diploma programs increased at three of the campuses in 2001-02. For SIAST overall, the percentage increased from 2.5 to 3.2 percent. (See Table C3)

#### **5.4.2 Students of Visible Minorities – Enrollment Rate Comparison**

As identified in section 4.2.1 of the report, enrollment goals for visible minorities have not been established, either SIAST-wide or for the individual campuses. Therefore, the long-term goals were used as a guide. Total enrollment figures for Kelsey, Palliser and Woodland indicate a slight increase, while the percentage at Wascana decreased. Overall, the SIAST-wide percentage for total enrollment remained at 2.2 percent.

Enrollment of students of visible minorities in Certificate and Diploma programs increased on a SIAST-wide basis (from 1.8 to 2.2 percent), and, with the exception of Wascana, at the individual campuses. Palliser was the only campus to meet their goal for Certificate and Diploma programs. (See Table C4)

#### **5.4.3 Students of Visible Minorities – Proportion of Graduates**

The overall percentage of graduates of Certificate and Diploma programs at SIAST, who indicated they were members of a visible minority, decreased by 0.1% from the 2000-01 figures. In 2001-02, the rate of graduates of visible minorities increased at Wascana and Woodland, while declining at Kelsey and Palliser. (See Table C5)

## 5.5 WOMEN STUDENTS

The following tables are a summary of women student application, enrollment, and graduate rates by division and campus, for the period of July 1, 2001 to June 30, 2002.

Division	Applicants			Enrolled			Graduates		
	Total	Wom	%	Total	Wom	%	Total	Wom	%
Agriculture & Business	1,423	888	62.4	1,230	750	61.0	464	32.6	70.3
Community Services	1,421	973	68.5	928	645	79.3	42.8	313	73.1

### **5.5.1. Women Students – Application Rate Comparison**

The proportion of applications from women increased at Wascana and Woodland Campuses for Certificate and Diploma programs. At Kelsey and Palliser, the rate declined very slightly. The rate of female applicants for Certificate and Diploma programs for SIAST remained constant at 55.5 percent. (See Table D3)

### **5.5.2 Women Students - Enrollment Rate Comparison**

The total enrollment figures (which include the Apprenticeship and BE programs) for women students indicate that the participation goals were met at Wascana and Woodland Campuses in 2001-02. However, the percentage of women enrolled at Palliser Campus (26.0%) was well under the established goal and Kelsey dropped 10 percentage points to 38.4 percent, which placed them under the goal. The SIAST total enrollment represented a decrease of 2.4 percent from the 2000-01 figures.

Comparison of the 2001-02 Certificate and Diploma female enrollment figures to those of 2000-01, shows there was a decrease of 2.5 percent SIAST-wide, while rates increased at Woodland and Wascana Campuses. All campuses, except Palliser, met the participation goals for women students in Certificate and Diploma programs. (See Table D4)

The enrollment figures of female students in predominately male programs rose at Kelsey (3.7 per cent), Palliser (1.4 percent) and Woodland (6.7 percent) Campuses in the technology division. Enrollment in industrial division programs rose at Palliser Campus by 2.7 percent and at Wascana Campus by 1.4 percent. (See Table D6)

### **5.5.3 Women Students – Proportion of Graduates**

The percentage of women graduates from Certificate and Diploma programs increased SIAST-wide, as well as at three campuses in 2001-02. The increases were significant at Wascana and Woodland campuses. At Kelsey the percentage of women graduates fell four percentages to 63.1 percent. Overall, the proportion of women graduates from Certificate and Diploma programs increased from 52.4 percent in 2000-01, to 56.3 percent in 2001-02. (See Table D5)

## 5.6 WOMEN STUDENTS IN PREDOMINATELY MALE PROGRAMS

The following table provides a summary of women students' (in predominately male programs) application, enrollment, and graduate rates by division and campus, for the periods of July 1, 2000 to June 30, 2001 and July 1, 2001 to June 30, 2002.

Campus/Division	Applicants		Enrolled		Graduates	
	00-01	01-02	00-01	01-02	00-01	01-02
<b>Kelsey Campus</b>						
Industrial Training	3.7	5.9	6.8	5.5	5.1	4.3
Technology	11.3	7.5	8.9	12.6	8.1	12.8
<b>Palliser Campus</b>						
Industrial Training	9.1	6.0	5.8	8.5	6.0	6.6
Technology	15.8	16.3	14.4	15.8	20.5	13.8
<b>Wascana Campus</b>						
Industrial Training	6.4	6.2	5.0	6.4	2.1	5.0
Technology	2.4	1.4	5.0	2.9	9.7	6.2
<b>Woodland Campus</b>						
Industrial Training	5.0	1.5	5.7	3.5	8.3	4.2
Technology	21.4	5.3	15.3	22.0	18.8	9.2

### 5.6.1 Women Students – Predominantly Male Divisions

For 2001-02, application, enrollment and graduation rates of women in male-dominated programs were analyzed by Division and Campus only, rather than at a program level. The Technology and Industrial Divisions have historically contained the male-dominated programs, although there are some variations among individual programs.

Comparison of participation rates to the short-term goal of 30% female participation in male-dominated programs reveal that this goal remains unmet, when analyzed on a Division-wide basis, in the Technology and Industrial Divisions of all campuses.

The predominately male programs are primarily in the Industrial and Technology Divisions. The restructuring of SIAST resulted in some programs being reassigned to different divisions, and with this realignment, particularly of the predominantly male programs, SIAST can now provide a two year historical comparison for women applicants, enrollments and graduates in these programs. While this report focuses on women enrolled in the Industrial and Technology Divisions, statistics for predominantly male programs assigned to other divisions are included in alternate formats in Appendix A and C.

## 5.6.2 Predominantly Male Programs at SIAST

Several SIAST Divisions have programs with reserved seating for women. Below is a list of programs by division by campus. Programs that do not have equal representation of women for five consecutive years will maintain their targeted status.

### Kelsey Campus - Saskatoon

<u>Technology</u>	CAD/CAM Engineering Technology Electronics Technician Electronics Systems Engineering Technology Mechanical Engineering Technology Power Engineering Technician Power Engineering Technology Process Operator Technician

Micro-Electronics Technician

## 6.0 GRADUATE EMPLOYMENT ANALYSIS

### Graduate Employment Analysis

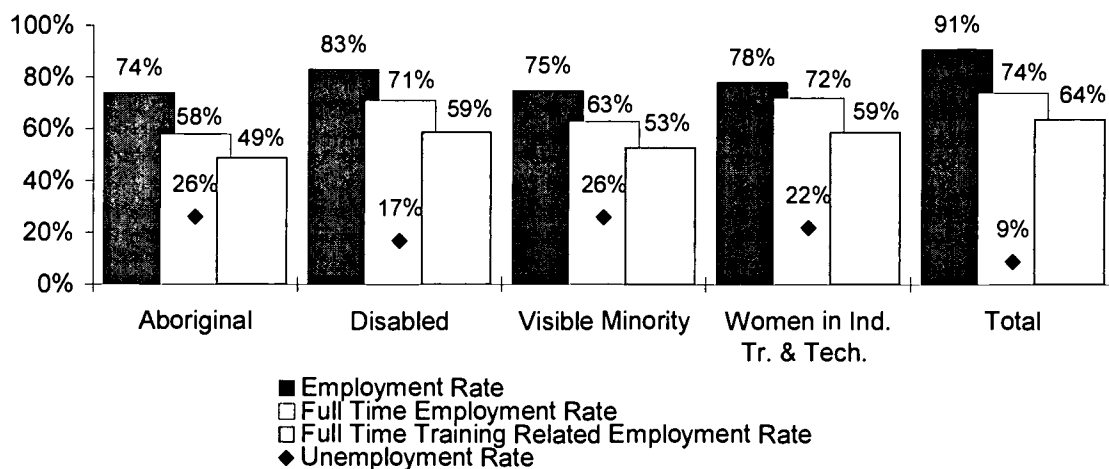

Each fall SIAST conducts a survey of its graduates from the previous academic year. The survey asks the graduates a variety of questions including questions concerning their employment status at that time. The results of the survey are published (approximately) in the spring of the following year. The latest report is titled, 2001 SIAST Graduate Employment Statistics Report.

The following figure illustrates the employment rates for graduates responding to the latest survey. The rates represent the percentage of those graduates in the labour force that are employed. The labour force is defined as those graduates who are working or actively looking for work. Full Time is defined as working 30 hours a week or more. Training Related Employment is employment in an occupation directly related to the graduate's program of study.

Employment rates were above 74% for all groups. The percentage of graduates working Full Time ranged from 58% to 72%. Graduates working Full Time in a Training Related occupation ranged from 49% to 64%. Unemployment rates ranged from 9% to 26%.

Overall 91% of all SIAST grads were employed. An analysis of the respondents shows that 9 percent of the graduates were of Aboriginal ancestry, 4 percent were disabled, less than 2 percent were persons of visible minority, 6 percent of the industrial trade graduates were women and 23 percent of the technology graduates were women.

**Figure 6.4.A SIAST Graduates - Employment Rates of 2000-01**

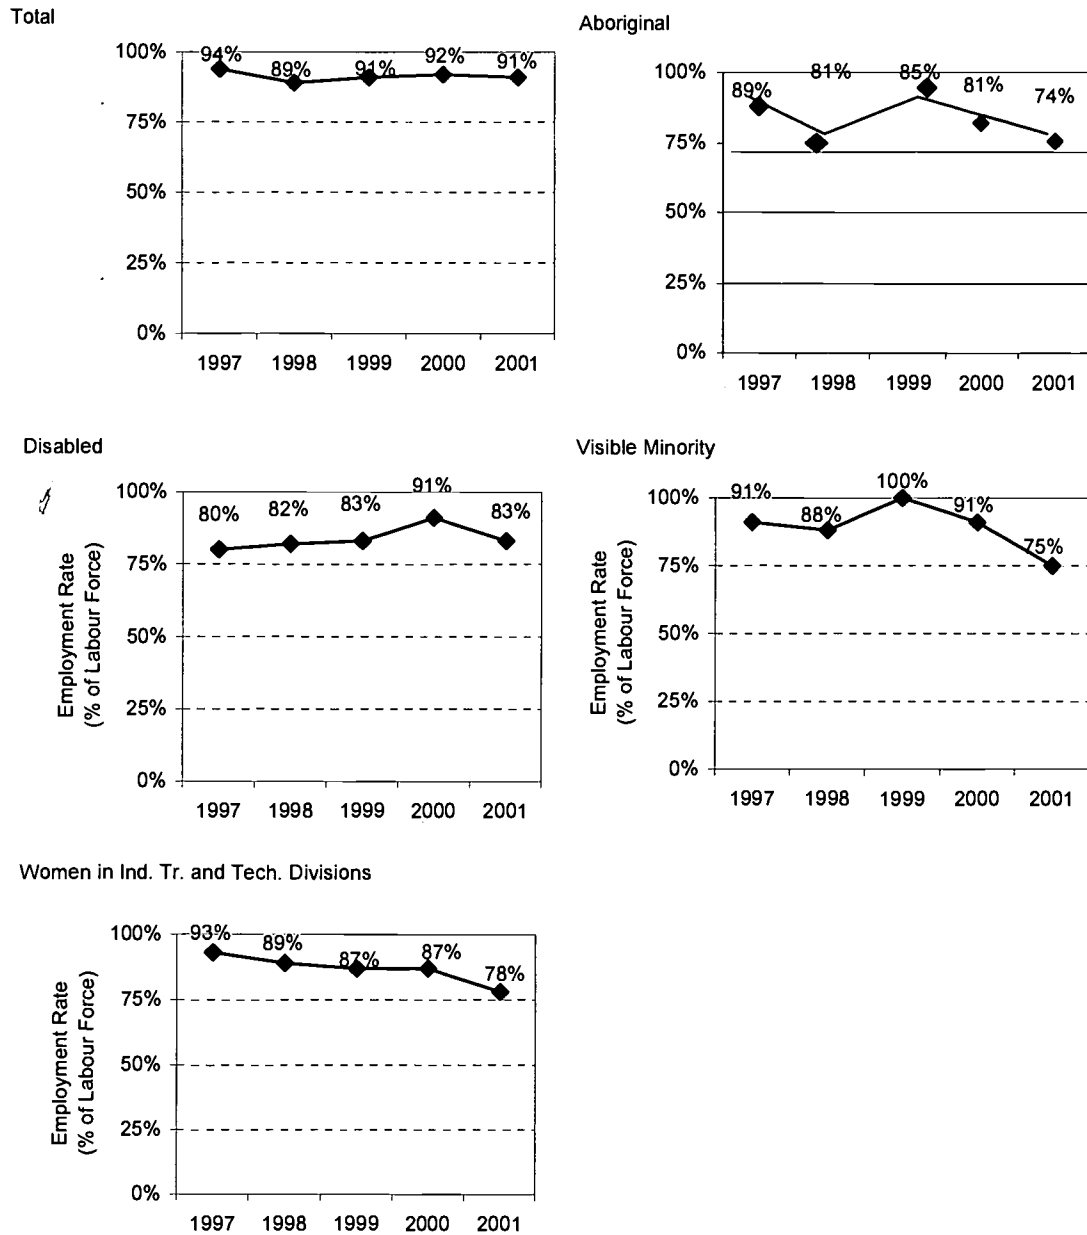

Source: 2001 SIAST Graduate Employment Survey

Historically, the employment rates for SIAST graduates are favorable – remaining above 70% over the last 5 years for all groups. From 2000 to 2001, employment levels increased as a Total and for the Disabled graduates. It remained the same for Women in the Industrial Training and Technology Divisions and decreased slightly for the Aboriginal and Visible Minority graduates.

**Figure 6.4.B**  
**SIAST Graduates - Employment Trends**

Source: 2000 SIAST Graduate Employment Survey

## 7.0 SPECIAL MEASURES

## 7.1 RECRUITMENT

A variety of initiatives are used to recruit Education Equity students to SIAST. These include, but are not limited to, promotional materials, participation in Career and Job Fairs, high school visits, Girls Exploring Trades and Technology (GETT) camps, Campus Open Houses and Spend-A-Days.

Information about the Education Equity Program is available to individuals, agencies and the public through Education Equity brochures, the SIAST Calendar, application form and the Communicator. The Communicator is an annual newsletter of student and staff contributions with a focus on the four equity groups. The Aboriginal Student's Guide and the Education Equity Student's Guide to Scholarships, Awards and Bursaries, published biannually, is distributed provincially. Its purpose is to provide Education Equity students, from any of the four designated groups, with information about financial support.

Information about the SIAST Education Equity Program is available on the internet through the SIAST home page located at [www.siastr.sk.ca](http://www.siastr.sk.ca).

Brochures and displays use inclusive language with photographs and illustrations of designated group members. Spend-A-Day activities at each campus introduce potential students to the campus and the services available. Tours are given to First Nation Band groups by Aboriginal center staff. Education Equity coordinators/counsellors maintain close contact with community and provincial agencies. Consultations occur regularly with sponsoring agencies and advocacy groups such as Canadian National Institute for the Blind (CNIB), The Learning Disabilities Association of Saskatchewan (LDAS), Saskatchewan Deaf and Hard of Hearing Services (SDHHS), and Employability Assistance for People with Disabilities (EAPD). Presentations about education equity and campus programs are made in the community upon request. Student Recruitment Liaison officers promote the program during visits to high schools and provide information to over 5,000 students annually, including Band and other schools with high Aboriginal enrollments. All campuses participate annually in the Interprovincial Association on Native Employment (IANE) Career Fairs in Lac La Ronge, Saskatoon, Prince Albert, North Battleford and Regina. SIAST participates in the Athabasca Flying Career Symposium traveling to remote northern areas biannually.

Girls aged eleven to fourteen participate in activities which introduce them to predominantly male occupations. Each campus provides GETT camps in a slightly different format to meet the needs of their participants. In previous years, Wascana has provided IMGETT (Indian and Metis Girls Exploring Trades and Technology) camps for Aboriginal girls.

### 7.1.1 Recruitment Office Activities

Student Recruitment staff includes the Student Recruitment Liaison, SUTIL (Saskatchewan University and Technical Institute Liaison) Traveler, four new Student Advisors and a Centennial Summer Student.

In the second year of implementation of the Student Recruitment Strategy, the team focused externally on developing a large recruitment network, building close relationships with stakeholders and providing improved customer services. The team increased their communication and personal contact with potential students, counsellors, Aboriginal groups and career and employment agencies and organizations.

- SIAST continued with representation on numerous Aboriginal planning committees to host regional and provincial career/job fairs. Some of these associations included: the Interprovincial Association on Native Employment (IANE) - Prince Albert and Regina chapters; the Federation of Saskatchewan Indian Nations and the Saskatoon Tribal Council Choices Committee, and the Metis Employment and Training of Saskatchewan Inc. - Saskatoon.
- Student Recruitment distributed Education Equity information including posters, pamphlets, monitoring reports, and student newsletters both in counsellor packages and to individual students.
- With the involvement of the Education Equity Advisor, Recruiting successfully selected and employed an Aboriginal Student Liaison under the Centennial Summer Student program. This individual travelled throughout northern Saskatchewan for four months serving as a role model for the success and support of the Education Equity program. The budget allowed for the extension of this individual and the Department also added a designated Aboriginal Recruitment Assistant position.
- They successfully negotiated a designated Aboriginal Student Ambassador position, and; therefore, were able to ensure a more appropriate representative and role model at Aboriginal recruitment events.
- Through increased promotion and exposure of the Student Recruitment Team, they have developed inter-dependent relationships with counsellors and agencies that serve potential students. The new ambassador's position provided Aboriginal representation on the team.
- Their database has almost doubled in the last year and now includes 1200+ recruitment contacts.

- Members of the team have increased their knowledge of recruitment practices and trends through professional development opportunities including an international recruitment and retention conference and cultural awareness training.
- Without an umbrella like SUTIL, many of our Aboriginal partners in the province still operate quite independently, and every year SIAST gets more requests to participate in their widely scattered recruitment activities. With the current budget and personnel, it is impossible and not economically feasible to respond to all opportunities. Our challenge is to assist our Aboriginal partners to schedule their activities in a more co-ordinated provincial approach.
- Recruitment had their annual visitation of the northern communities of Ile la Crosse, Candle Lake, Buffalo Narrows, Meadow Lake, and Montreal Lake. The intent, this year, was to have an exploratory visit to gauge SIAST's presence in the communities and how effective recruitment had been in these communities

## 7.2 ADMISSIONS

The services provided by equity program staff, the use of printed materials and seat allocation percentages are described below.

Education Equity Counsellors, counsellors for students of Aboriginal ancestry, and new Student Advisors provide pre-admission consultation, new student orientations, coordinate funding and provide training for faculty and staff. Education Equity Counsellors and learning specialists arrange for verification of disability and coordinate accommodations to make admission procedures, tests and programs more accessible. Often these efforts include consultation with external resource people to enhance student supports. Individualized programs are designed for students whose circumstances prevent them from completing the entire program in traditional delivery modes.

The SIAST application form provides information about the Education Equity Program and invites applicants to self-identify. Applicants receive a copy of the Education Equity brochure and information about the program when they begin courses. Student handbooks include information on the Education Equity Program.

To promote achievement of it's 2001-02 participation goals, the Institute allocates a percentage of seats for qualified education equity applicants in all Certificate and Diploma programs. Allocated spaces that are not filled by those applicants are later made available to other applicants. In 2000-01, SIAST adopted an admissions policy of "first qualified, first admitted", maintaining a wait list of applicants. This policy has the potential for increasing access for equity students as admission can be through the equity seat allocation or the new admission policy. The seat allocation

percentages are reviewed annually at SEEC and approved at Senior Management Council.

If programs have successfully maintained the equity student percentage for five consecutive years, seats are no longer designated for that program. With the implementation of the new admissions policy, an annual scrutiny of all programs is necessary to monitor the percentage of seats held by equity students as SIAST seeks to achieve both reaching and maintaining its participation goals.

SIAST allocated the following percentages of spaces for 2001-2002:

Persons of Aboriginal Ancestry

- 12.2% Kelsey, Palliser, Wascana - all programs.
- 25.0% Woodland - all programs.

Persons with Disabilities

- 5.0% All campuses - all programs.

Women

- 30.0% All campuses - all programs.

No seats are allocated for students of visible minorities as some of the barriers identified in earlier research are those of inadequate English language preparation, difficulty evaluating foreign credentials and prior learning and concern about systemic bias in entry tests. None of these will be alleviated by seat allocation.

Seat designation will remain the same for 2002-2003. Individual programs that wish variances from these percentages must make the request to the SIAST Education Equity Committee through their Campus Education Equity Committee. This is to allow programs who have not had equity applicants for a number of years to fill their programs at an earlier date.

The participation rates of women students in some programs either meet or exceed short-term participation goals. However, until that rate of participation is constant over time, it cannot be said that women's participation is yet significant. Therefore SEEC recommends that until a program's long term participation rate has been met for five consecutive years, the program must be designated under represented by women students. There are several programs that will be reviewed this year to determine their five year participation rates.

The Nursing Education Program of Saskatchewan (NEPS) program initiated discussion with SEEC recommending that quota management practices in NEPS be harmonized between the SIAST Nursing Division and the University of Saskatchewan, College of Nursing by selecting all Aboriginal students who successfully compete in the competitive admissions process first, and then applying the quota to the remaining student pool. It was

identified that the University of Saskatchewan used different processes to determine Aboriginal student quotas in their programs than SIAST. As a result, fewer Aboriginal students may be admitted to NEPS under SIAST procedures than under University procedures. SEEC was supportive of this action, and selection for 2002-03 was completed using this process. The Nursing Education Program of Saskatchewan (NEPS) is the only program at SIAST using a competitive admission process.

### 7.3 RETENTION

In November, 1998 the SIAST Board approved the policy, Accommodations Provided For Persons With Disabilities To Meet Certification Requirements. This Policy describes how SIAST will provide reasonable accommodation up to the point of undue hardship. See Appendix D for a copy of the policy.

Services provided by Education Equity staff include: assisting with program application; coordinating funding with agencies; identifying necessary accommodations; providing staff training; coordinating orientations and spend-a-day programs; providing mentor support and student support networks and working with placement services, employers and agencies to help students find work.

Services provided for students with disabilities include survival handbooks, tutorials, peer tutoring, test accommodations, note takers, interpreters, scribes, readers and others. The following technical aids for students with disabilities are available at the campuses: Kurzweil Personal Readers; telewriters; spell checkers; tape recorders; cassette players; computers and enhancements; various ergonomic devices; recreation equipment; infrared translation and other devices for hard of hearing; speech synthesis software and wheelchair lifts. Occupational Health and Safety Committees coordinate emergency exit plans.

Saskatchewan Learning's Post-Secondary office of Employability Assistance for Persons with Disabilities (EAPD) considers requests for additional funding from individuals that require extensive interventions. The student loan application is identified to EAPD.

The PSEST student financial assistance office has redefined part-time student. Disabled students who enroll in less than 30% of a course load are eligible to apply for an opportunities grant.

### 7.4 FOLLOW-UP ACTIVITIES

Placement services are available to Education Equity students through Student Employment Centre (SEC) staff. SEC staff, Education Equity Coordinators and Program Heads provide follow-up on employment for graduates. Equity staff help to coordinate job placements with agencies and employers, especially those with employment equity programs. SIAST is a

member of the Saskatchewan Employment Equity Practitioners Association (SEEPa). Graduates are surveyed by SIAST and Saskatchewan Learning in the annual survey of graduates. An Aboriginal Graduate Employment Statistics report has been produced since 1991. Graduate Employment Statistics reports for students with disabilities, women, and visible minority students were introduced in 1996-97.

## **7.5 STAFF DEVELOPMENT ACTIVITIES**

Staff development activities at each campus are designed to meet identified needs. SEEC provides SIAST-wide training when all campuses will benefit while CEEC provides training which meets local needs. New faculty receive orientations from equity staff. The SIAST Education Equity Faculty Handbook is complete and will be used as the tool for orientations throughout SIAST including the Board.

## **7.6 WOMEN IN TRADES AND TECHNOLOGIES (WITT)**

This was the first year that there was a provincial mandate for the women's facilitator.

Through combined resources and cooperative efforts the following activities were facilitated:

- Established and chaired a province-wide GETT committee. The role of the committee was to implement the recommendations of the 10 year survey completed in 2000, and to facilitate transition from a variety of models to a single model of GETT camps.
- Delivered a train-the-trainer workshop for Instructors from all campuses.
- Worked with SaskWITT to produce the GETT "how-to" Manual.
- Partnered with Palliser GETT Coordinator to design a Women in Technology Evening Exploratory Course. This program and the Women in Trades program are generic models for future use at all campuses.
- Appointed to a position on the Canadian Apprenticeship Forum as a WITT representative. Attended an apprenticeship conference in June in Vancouver as the incoming representative.

## **8.0 SIAST EDUCATION EQUITY SPECIAL FUND**

---

The goal of the SIAST Education Equity Program is to ensure the participation of designated group students at the levels they exist in the adult population of Saskatchewan. The program takes measures to identify, eliminate, and reduce systemic practices which may have the effect of creating discriminatory barriers. The program provides special measures which will increase opportunities and support for designated group students.

To meet this goal SIAST provides \$520,000 annually to the SIAST Education Equity Program. This allocation provides for training, research, communication and services to Education Equity students. The allocation is divided between the four campuses and the SIAST-wide committees to meet both local and SIAST-wide needs. The SIAST and Campus Education Equity Committees approve, implement and monitor enhancement proposals. Over 60 projects were delivered this year for all designated student groups; students of Aboriginal ancestry, those with disabilities, visible minorities and women.

Project ideas come from many levels within SIAST; management, programs, individual faculty/staff and equity committees. The fund helps achieve common goals and meet student needs.

### **8.1 EDUCATION EQUITY SPECIAL FUND CRITERIA**

**The following criteria applies only to the Special Fund. Additional criteria has been developed for Funding for Learning Accommodations.**

**The Special Fund can be used for such things as special projects, staffing, training, promotional activities and research, provided that:**

- **Campuses or the SIAST Administrative Office.**
- **SIAST.**
- **through SEEC, about special projects which might benefit all.**

### **8.2 PROPOSAL DEVELOPMENT, APPROVAL AND REVISION**

The SIAST Education Equity Committee or the Campus Education Equity Committee (whichever committee is appropriate) coordinates proposal development and approves proposals and revisions.

**BEST COPY AVAILABLE**

### **8.3 MONITORING AND EVALUATION**

The Campus Education Equity Committee Chairs or the SIAST Education Equity Committee Chair (whichever committee is appropriate) monitors proposals.

Upon completion of a project, the appropriate Chair will provide the SIAST Education Equity Committee with a summary including final cost, description of materials produced, an indication whether the project met objectives and recommendations forthcoming from the project.

The Chair of the SIAST Education Equity Committee will provide the Dean of Student Affairs & Services with regular updated status reports on all approved projects, and a final report on the Education Equity Special Fund will be included.

## **9.0 SPECIAL FUND PROJECTS, ACTIVITIES AND ISSUES**

### **9.1 SIAST-WIDE**

#### **9.1.1 SIAST-Wide Projects**

##### Aboriginal Student Leadership Conference

The Seventh Annual Aboriginal Student Leadership Conference was held at Cedar Lodge at Blackstrap Lake. The conference provides leadership skill development and cultural activities. Don Burnstick, an Aboriginal entertainer and workshop presenter, was the keynote speaker.

##### GETT Camp Program Evaluation

SEEC supported the development of a comprehensive "how-to manual" for developing GETT Camps, supplemented with resource materials.

##### Communicator Newsletter

A newsletter for staff, students and advocacy groups is printed annually.

##### Aboriginal Cultural Awareness Program

SEEC members and campus Education Equity committee members received training in the second and fifth modules of the Aboriginal Cultural Awareness Program. The second module covered culture and language, and the fifth module covered workforce issues.

##### Aboriginal Recruitment and Retention Plan

The Counsellors for Aboriginal students group continues to develop a strategy paper relevant to Aboriginal retention. Discussions were held to examine adding recruitment to the plan, and to develop a plan that encompassed staff and student initiatives and strategies.

##### Cultural and Wellness Workshops

Winston Wuttanee, nationally known Aboriginal entertainer and workshop presenter on topics of culture and wellness, made presentations to staff and students at each of the campuses.

##### Tutorial Support

A draft document describing a systematic approach to providing tutorial support to students was developed.

## Committee Structure

The SIAST Education Equity Committee expanded its representative membership to include the Women in Trades and Technology (WITT) facilitator.

### **9.1.2 SIAST-Wide Activities**

- In consultation with Registrars and Education Equity Counsellors, efforts are ongoing for earlier identification of equity students, maintenance of student records in as complete form as possible, and standard acceptance response letters for equity students.
- The counselors for Aboriginal students group researched and recommended a standardized rate of pay for elders. The recommended rate of pay is dependent on the type of activity attended.
- Response letters for applicants with a disability or of Aboriginal descent were developed for an automated response from Registration services. Each letter outlines documentation the students need to submit and encourages them to contact a counselor to discuss processes that will assist the students to be successful at SIAST.
- Ways to verify First Nations or Metis ancestry were defined for use by applicants, Registration Services and Counseling.
- Education Equity, the Recruitment Office and the counselors for Aboriginal students continued with their co-operative efforts to establish working relationships with Aboriginal groups whom have a stake in the education and training of their students/clients, attend career fairs and school visitations.
- Education Equity and the Saskatchewan Apprenticeship and Trade Commission continued discussion and reached agreements regarding distribution of assessment reports for apprentice students.
- The Nursing Education Program of Saskatchewan (NEPS) consulted with SEEC regarding the harmonization of the quota management practices between the SIAST Nursing Division and the University of Saskatchewan College of Nursing. SEEC supported their proposal that the admission practices will select all Aboriginal students who successfully compete in the competitive admissions process first and then the quota will be applied to the remaining students pool to admit Aboriginal students.

- SEEC was invited to respond to a draft document discussing how to assess cultural competency in the interview process.
- The SIAST Education Equity Advisor:
  - Attended National Aboriginal Career Symposium in Ottawa.
  - Was appointed to the City of Saskatoon Race Relation Committee.
  - Member of SIAST Harassment Prevention Committee.
  - Attended two day workshop presented by Mediation Saskatchewan entitled "Communication in Conflict".
  - Active participant on focus group to assess cultural competency.
  - Attended Canadian Association of Colleges and Universities Student Services National Conference in Fredericton.
  - Participated on city-wide planning committee for the National Aboriginal Day activities organized for the City of Saskatoon.
  - Was invited to speak at Palliser Campus Professional Development Day.
  - Invited to give a presentation at the Saskatchewan Adult Basic Education Association (SABEA) conference.
  - Attended one day PLAR Workshop titled "Applications for Aboriginal Learning" delivered by Dianne Hill.
  - Attended three day workshop, titled "Aboriginal Access to Post-Secondary Education", which focused on Prior Learning assessment and its application within Aboriginal Programs and Learning, delivered by Dianne Hill.
  - Attended Jane Elliot's "Anatomy of Racism" lecture at University of Regina.
  - Attended various special events, hosted at the four SIAST campuses, relevant to target groups.

### **9.1.3 SIAST Wide Opportunities**

- SEEC is committed to establishing an editorial team, which will be responsible for the publishing of “The Communicator”, articles for Campus Pipeline, or other public interest articles about Education Equity. The editorial team will be responsible for examining alternate formats for communication purposes.
- The SIAST Education Equity Advisor and several SIAST staff had the opportunity to attend a three day workshop on “Learning as Transformation: An Aboriginal Perspective on Prior Learning Assessment and Recognition and Portfolio Development”. Discussions need to continue with the PLAR facilitator to examine methods of determining skill identification and knowledge that have provided learning outcomes within the Aboriginal culture. The workshop was preceded by a one day presentation.
- The upcoming budget supports the review of Education Equity’s current practices and funding allocations to assess our current state and desired state. All functions and operations of the SIAST Education Equity program will be examined to identify strategic direction and evaluate the effectiveness of the services that are currently offered to constituent groups within the current administrative practices, processes and policies. The review should consider the campus needs within the provincial framework of SIAST.

### **9.1.4 SIAST Wide Issues**

- The increasing demand for services to on-campus, apprentice and extension students continues to put extreme pressure on equity resources - human, financial and technological.
- Education Equity is currently not included in the cost pricing formula used to determine the cost for an extension program, or in the training protocol agreement with the Saskatchewan Apprenticeship and Trade Commission. Discussion should be entered into with the SIAST managers responsible for each group.
- The virtual campus planning and development continues to move ahead. The provision of equity services for those students participating in this type of instructional delivery has a number of unknown factors.
- It is projected that the number of students that study through distance education or the virtual campus, or one of these methods in combination with being on campus will increase the demand for services, and will effect the type and delivery of these services.

- SIAST is responding to the changing demographics in Saskatchewan by refocusing their Aboriginal student recruitment initiatives. Retention strategies will need to be developed and implemented to ensure that our Aboriginal students have a supportive learning environment.
- There is a need for increased communication regarding the practices of the Education equity program as all areas and divisions are not aware or do not understand the approaches and procedures employed by the staff in equity, that will benefit the student and provide a better learning experience.
- Social demographics and population figures indicate that the number of Aboriginal peoples in this province is continuing to increase. The Aboriginal population base will be a factor in the future success of SIAST. There will be a significant increase and ongoing demand for services delivered by the equity program, particularly tutors to assist Aboriginal students in the areas of English writing and reading, and full time Elders to counsel students and staff.
- SIAST has an increasing number of students with disabilities. This target group places a great demand on the provision of equity services from personnel and for equipment.
- There is a need to more closely monitor the process of billing students who have received the Canada Study Grant to assist with tutoring costs. This will ensure that the funds are used according to the guidelines of SEEC, and in line with the provisions within the Canada Study Grant for documentation of appropriate expenditure.

## **9.2 KELSEY CAMPUS**

### **9.2.1 Kelsey Campus Projects**

#### Partners for the Future

Funding provided to support the Partners for the Future Golf Tournament. The tournament was designed to work with the business community to increase awareness of the Aboriginal graduates at Kelsey Campus.

#### Conversational Cree Classes

Noncredit beginning and intermediate conversational Cree classes were hosted for Kelsey Campus students. Classes were held at noon and were open to both Aboriginal-language speakers and non-Aboriginal-language speakers. The classes were very well received by the student population - several students expressed concern that their Cree had "gotten rusty" and they did not feel confident using the language. They felt self-conscious speaking Cree with older members in their community. Recognition, by means of a certificate of completion was awarded. Instruction was provided by the Poundmaker Cree Nation.

#### Learning Specialist

The learning specialist provided psycho-educational assessments for students with learning disabilities, diagnosed and prescribed alternate learning strategies, liaised and consulted with program heads/coordinators and instructors, provided individual and group learning strategy instruction and tutorial assessment, and facilitated necessary learning and exam accommodations. Worked with all equity students to develop and improve learning strategies.

#### Accessible Furniture for the newly developed computer lab

Recent relocation of the Learning Centre allowed for shared space with the Aboriginal Activity Centre. This shared space allowed for the consolidation of the computer equipment from the Learning Centre and the Aboriginal Activity Centre into one laboratory area that could be shared by those accessing the Learning Centre and the Aboriginal Activity Centre. The additional free space in the Aboriginal Activity Centre afforded an area for additional activities. The lab was furnished with computer tables designed for access.

## Diversity Week

Kelsey Campus celebrated the tenth anniversary of equity at SIAST by hosting a week of events that celebrated the diversity of our students and staff. Activities included a leadership workshop presented by Don Burnstick on "The Emerging Warrior", a comic performance by Don Burnstick based on his comedy routine "You Might be a Redskin", open houses at the Aboriginal Activity Centre, as well as a highly successful showing of fashions and cultures from around the world. Students and staff were also demonstrating and selling crafts in the hallway outside the cafeteria.

### **9.2.2 Kelsey Campus Activities**

- The Kelsey Aboriginal Student Activity Centre hosted a celebration of National Aboriginal Peoples' Day, which included a buffalo burger barbeque.
- Eight students attended the two day AWASIS Conference, an STF special subject council on Indian Metis Education.
- Sponsorship for a basic Education student who demonstrated exceptional promise in story writing to attend the Young Aboriginal Writers' Conference at the SIFC Northern Campus in Prince Albert. The student had the opportunity to learn from authors and develop a career plan that focused on his talent. The student also had the opportunity to debrief with his communications instructor on the presented methodologies of Aboriginal writing, This information would be used by the instructor to refine the writing process she was exploring with regards to teaching Aboriginal learners English skills.
- Various resource and assessment materials were purchased for use by Learning Centre specialists and equity counsellors.

### **9.2.3 Campus Issues**

- The cost of the learning specialist is funded from the campus fund.
- There is a need to more closely monitor the process of billing students who have received the Canada Studies Grant.
- The Saskatchewan Apprenticeship and Trade Commission field consultants need to notify SIAST in a more timely manner for accommodations to be put in place. The year we experienced a deaf person in our training without any notice. Advance notice is essential to ensure accommodations are made.

## 9.3 PALLISER CAMPUS

### 9.3.1 Palliser Campus Projects

#### Girls Exploring Trades and Technologies (GETT) Camp

A GETT Coordinator was hired to set up and supervise GETT camps, provide support to Women in Technologies. The individual held several support groups meetings for women in predominantly male Industrial and Technical programs throughout the year. The coordinator attended two training programs for Instructional skills at Wascana - one for the Women in trades Evening Exploratory course and one for the GETT Camp Instructors. She planned the delivery of two GETT Camps to be held in July and August 2002.

#### Student Lounge

Opened the new Aboriginal Student Lounge. The lounge is named Mamawetoutan, which translated from Cree means "Let's Come Together". The lounge provides a place where students of Aboriginal ancestry can meet other students for fellowship.

#### Specialty Equipment

Worked with the Palliser Foundation and the Lions club to arrange the lending of special equipment for a visually impaired student.

### 9.3.2 Palliser Campus Activities

- Hosted an Education Equity luncheon which was attended by many outside agencies including SDHHS, Saskatchewan Apprenticeship and Trade Moose Jaw Branch, City of Moose Jaw, Palliser Retirees, and students from Moose Jaw Public schools.
- Hosted Tipi Raising, Sweetgrass ceremony and buffalo meat stew and bannock luncheon to commemorate the opening of the Aboriginal Student Lounge
- Celebrated Louis Riel Day on November 15, with fiddling and story telling by Senator Boyer from North Battleford,
- Developed the Communicator, a newsletter widely distributed to Agencies, Metis organizations, Band Councils, Tribal Councils, Apprentices, and various other organizations throughout the province
- Hired tutors, scribes, note takers, invigilators, and interpreters for Education Equity students.

- Accompanied students to a Job Fair in Saskatoon.
- Continued liaison with agencies including: SDHHS, CNIB, WCB, Saskatchewan Apprenticeship and Trade Commission, Student Loans, EAPD, Career Headways, CanSask. Career Centres.
- Conducted presentations on Diversity in the Technology programs.
- Funded students' transportation to attend three day SIAST Aboriginal Leadership Conference at Black Strap Lake

### **9.3.3 Palliser Campus Issues**

- Palliser Campus does not have a Learning Assistance Centre and is not able to provide the same level of academic support services that are available at the other campuses. The need for a Learning Centre to assist in the provision of accommodations for students with disabilities is a high priority.
- A test center is needed to provide Equity students with Exam accommodations. Currently rooms are booked throughout the school depending on availability.

## 9.4 WASCANA CAMPUS

### 9.4.1 Wascana Campus Projects

#### Tutor Support

Provided tutor, recorder, note taking and interpreting services to numerous full-time and Extension students. Tutoring services are offered on an individual or small group basis to students experiencing barriers to their success in specific areas of their academic pursuit. Although some tutoring is around basic academic skills, most tutoring arrangements involve tutors with program content knowledge to provide short-term assistance to a student to master a specific area of knowledge or skill. Usually, this represents a barrier presented as a result of a learning disability or academic deficit related to the student's equity status. This project has been extremely successful in assisting students to overcome these barriers.

#### Metis and Indian Cultural Events

This initiative has once again been well received by students and staff. The opportunity to take part in a variety of events that are designed to enhance knowledge of and pride in Aboriginal cultures. Through an agreement with Basic Education, a part-time administrative support position was put in place to assist with planning these events for a portion of the year.

#### Aboriginal Cultural Awareness Event

The 11<sup>th</sup> Annual Aboriginal Cultural Awareness Event was held at Wascana Campus for partners to network with government agencies, education institutions, students, staff and community organizations via workshops, displays, and cultural activities. This event has a long history on our campus of raising awareness and promoting pride in the Aboriginal cultures represented among our students and staff.

#### Orientation Programs for Women

- Women in Trades Exploratory Programs are six week, interactive, evening classes in shop skills and related career training information, followed by individualized information sessions. A women in Trades Evening Exploratory Program was delivered in the fall. The course provided an overview of several occupations through hands-on skills practice in several trades clusters. The instructors were all women who worked in a variety of sectors and either have Journey papers or are SIAST program graduates. The delivery of the WIT Exploratory course differed from the usual this year. Half of the participants were Instructors and shop assistants and a train-the-trainer course was

piggybacked to the class. Prior to and following the regular course, the trainers received additional training in Instructional skills for industrial training for women.

- Several, three hour career information workshops were planned on campus in conjunction with the CAN/SASK centre, to assist women in assessing their suitability for further training in industrial or technical occupations.
- We partnered with several school divisions and community based organizations to deliver "Female Accessing Careers in Technology" fairs.

#### Equipment Acquisition

- Five additional ergonomic chairs for students use.
- New FM system for use with hearing impaired students in the classroom.
- Integrated Visual and Auditory Continuous Performance Test for use with ADD and ADHD assessments.
- WAIS III and WMS III software to assist in the provision of psycho-educational assessments.

#### Dental Hygiene Workshop

A workshop was presented by the Reel Anti-suppressant Popular Theatre Group where students experience, feel and then discuss discrimination. This workshop is becoming a yearly event and may be offered to students in other programs.

#### Equity Adaptive Equipment Depot

A "depot" for storage and tracking of equity adaptive equipment purchased for student use through equity has been acquired.

#### GETT

- Three, one week Girls Exploring Trades and Technology (GETT) camps provide opportunities for 30 grade 7 and 8 girls to explore occupations and skills in industrial and technology occupations under the guidance of female role models. This year was the eleventh anniversary of GETT camps with an alumnae reunion held to mark the event.
- The kindergarten project saw GETT alumnae and others involved in visiting 56 kindergarten classrooms. During these visits, kindergarten

students were exposed to tools, trades and technologies as options for their future.

- Several, one day GETT alumnae camps were hosted for grade 9 - 12 girls that had been previously involved with GETT camps.

#### **9.4.2 Wascana Campus Activities**

- Nursing Education Program of Saskatchewan at the Wascana Campus has hired a NAPN facilitator for Wascana Campus. Our Counsellor for Aboriginal students, and several of our counsellors, have worked very closely with this individual to enhance services to Aboriginal nursing students.
- Talking Circles, provided through Basic Education, are held regularly and are open to all Wascana students.
- The Wascana Campus Education Equity Committee, in partnership with the Campus Director's office has assisted in the development of a space for use by students with physical disabilities requiring attendant services. The facility provides an area for eating and receiving personal care and will be equipped with a sink, washer/dryer, stretching tables and accessible washroom and shower facilities. The grand opening was held in October for this very valuable addition to our equity resources.
- Education Equity information sessions were provided for all students entering Wascana. These sessions are provided as part of the student orientations.
- Continued liaison with funding and advocacy agencies with a view to providing increased access to equity students.
- Organized spend-a-day experiences as well as individual program orientations and campus tours to assist equity students in program selection.
- Formed the Wascana Aboriginal Students' Association (WASA), which is affiliated with the Wascana Students' Association. WASA recently received a grant of \$11,000 from an external foundation to assist them in the development of their association.
- Continued work with the SIAST Education Equity Committee to ensure common practice across the province with respect to equity policies and service offerings.

- Equity sensitive counselling services provided to all students.

#### **9.4.3 Wascana Campus Issues**

- Continued discussion with senior management to ensure the goals of Education Equity are well understood and supported.
- The new Wascana Campus facility did not include replacement of the carpentry shop located at the Winnipeg North Centre. This facility was extensively used for our orientation programs for women. Although there is a SIAST carpentry facility off-site (Pakwa Park), it is not as conducive to our women's programming due to location and isolation from the other shop facilities at the main campus. We are still working to address this situation.

## 9.5 WOODLAND CAMPUS

### 9.5.1 Woodland Campus Projects

#### Cultural Art

Classes provided students with the opportunity to learn the skill of moccasin making, beading and other art.

#### Application Fee Sponsorship

This provided the means for Aboriginal students to apply for technical programs.

#### Learning Accommodation Tutors

Tutoring is provided to students diagnosed with learning disabilities or intellectual disabilities in all program areas. (Technical, Basic Education, Apprentice and Extension programs)

#### Elder Services

Elders provided counselling and cultural support services to Aboriginal students and staff.

#### Cultural Advisor

A Cultural Advisor provided advisement on Aboriginal Cultural activities and conducted Sweat Ceremonies for the Aboriginal Activity Centre.

#### Aboriginal Tutor

Tutoring assistance is provided to meet the increased need to students with math, reading, and written work challenges.

#### Early Childhood Education Tutor

Aboriginal students in the Early Childhood Education program received weekly tutoring specific to grammar and writing skills.

#### Learning Specialist

Testing, planning and instructor support for students with learning disabilities is provided by the Learning Specialist. This position is partially funding by Woodland Education Equity.

#### Annual Aboriginal Cultural Awareness Event 2002 "Our Culture, Our Health, Our Wellbeing"

This one-day event included workshops and cultural activities to enhance staff and students awareness of Aboriginal health issues.

#### Tipi Painting

Funding was provided to have a local Aboriginal artist paint murals on the Tipi.

#### Women in Predominately Male Programs Luncheon

Students and staff were invited to attend a luncheon and hear the guest speaker talk about Women in Trades and Technology.

#### Annual Aboriginal Honour Ceremony

Funding was provided for the guest Elders. The ceremony was held in June.

#### Equipment Acquisition

Ergonomic chairs were purchased to assist students with chronic physical disabilities or chronic injury.

### **9.5.2 Woodland Campus Activities**

- "Walk the Talk" event was held on the National Elimination of Racism day.
- Sponsored two Basic Education students to attend SABEA Student Conference.
- International Women's Day Event was hosted by Woodland Campus and co-sponsored with the Prince Albert Council of Women; funding was received from the Women's Secretariat.
- ACAP - Aboriginal Cultural Awareness Program Training Workshops were provided for the IRM (Integrated Resource Management) program students and some Woodland Faculty.
- The Aboriginal Activity Centre continued to provide cultural, academic, social, and spiritual support to all students.
- The Campus Education Equity Committee welcomed new members.
- The Education Equity Handbooks were used as a reference and resource to aid many faculty instructing equity students.

### **9.5.3 Woodland Campus Issues**

- Home Care Services and Special Needs Transportation needed for wheelchair students attending programs. Services to be set up prior to the students start date.
- The Academic Centre and the Technical Centre are about a block apart. The pathway between them goes through a graveled parking lot. The gravel makes it difficult to cross for individuals in a wheelchair or on crutches.
- The need for psycho-educational testing and one-on-one tutoring is increasing yearly.
- There is a need for a Cree/Dene speaking tutor.
- In the near future a mechanical lift will be needed to assist wheelchair students in using the washroom facilities.
- Elder services/Aboriginal Spiritual Advisor support to students and staff is needed on a daily basis.

## **10.0 HIGH COST ACCOMMODATIONS**

---

The High Cost Student Fund was developed in 1995-96 to provide SIAST with a mechanism to respond to requests for service or technical aids that are not currently covered under the Special Fund or the Funding For Learning Accommodations, or that are not funded elsewhere. The fund was renamed High Cost Accommodations in March, 1998. This fund directly addresses the unique problem of high cost accommodations which is a barrier to access for persons with disabilities.

This funding is for individual student accommodations related to an academic need. The fund provides two main types of accommodations: "people" supports (attendant care, interpretive services) and technical equipment (which becomes the property of the SIAST Education Equity Program).

In April, 1998, the SIAST Education Equity Committee moved to suspend the funding to High Cost Accommodations. A review of Education Equity will take place in 2002-03.

---

Recommendations of this review include:

1. That discussions take place between SIAST and Saskatchewan Learning regarding:
  - Provision of high cost accommodations
  - Appropriate funding mechanism and allocation for SIAST Education Equity accommodations
2. That a workable Student Management Plan for equity students generally and high cost students specifically, be developed to address issues of:
  - Accommodation
  - Efficient utilization of service providers
3. That discussions take place between SIAST, Saskatchewan Learning Post Secondary sector and the Union regarding:
  - Equity service providers who are not SIAST employees, but are working on campuses, giving rise to issues of:
    - Supervision
    - Quality control
    - Facility usage
    - Insurance/occupational health and safety

## **11.0 FUNDING FOR LEARNING ACCOMMODATIONS**

---

In 1994-95 the Direct Student Access Fund was established for students to apply for funds for program related accommodations when other funds are not available. The name of the fund was changed to Funding for Learning Accommodations in March, 1998. The Campus Education Equity Committee approves applications for funding. A maximum of \$1,500 is available to a student in each fiscal year. Wherever possible, student accommodations are provided for several students simultaneously to maximize resources.

Each Campus Education Equity Committee was allocated \$12,000 for Direct Student Access in 2001-02. When these funds are exhausted the committees re-allocate special project funds to carry through to year-end. This fund is not the only SIAST source of individual student accommodation. Each campus allocates money to the equity committees, counselling departments and equity staff from their core budgets for this purpose. The actual amount spent on program related accommodations well exceeds the \$48,000 provided under the Direct Student Access Fund.

Learning accommodations may include the provision of services such as tutors, notetakers, scribes, readers, proctors, etc.

Individual support services (care-givers) are provided as are capital equipment (computers, software and enhancements, telewriters); enhancements to student workstations and ergonomic postural supports. Such equipment becomes the property of the Campus Education Equity Committee.

The SIAST Education Equity Program has special measures in place which seek to ensure equitable access and opportunity for education and training in SIAST programs. Funding for Learning Accommodations is designed to allow individual members of designated student groups to apply for accommodations that meet their individual needs.

**BEST COPY AVAILABLE**

## **12.0 SIAST AND DUMONT TECHNICAL INSTITUTE**

---

### **12.1 FEDERATION AGREEMENT**

A federation agreement between SIAST and the Dumont Technical Institute (DTI) was signed in June 1994. The federation agreement was repeated for 2001-02. Through this federation agreement DTI is able to offer a wide range of accredited skills training throughout Saskatchewan.

DTI accesses basic education training seats from the Regional Colleges and SIAST campuses.

Courses offered through Dumont Technical Institute in accordance with the SIAST Federation Agreement are included in the following table.

<b>Course Name</b>	<b>Course Location</b>	<b>Enrolled</b>
Business Administration	Saskatoon	16
Computer Support Spec	Yorkton	13
Basic Carpentry	Batoche	10
Licensed Practical Nursing	Prince Albert	16
Licensed Practical Nursing	Meadow Lake	08
Home Maintenance	Cumberland House	06

Source: August 2002, Dumont Technical Institute

### **13.0 TERMS AND CONDITIONS FOR THE CONTINUED APPROVAL OF THE SIAST EDUCATION EQUITY PROGRAM**

---

Pursuant to **Regulation 42 of The Saskatchewan Human Rights Code**, that the Saskatchewan Human Rights Commission continues approval of the Education Equity Program of the Saskatchewan Institute of Applied Science and Technology (SIAST) with the following terms and conditions for 2001-2002:

1. SIAST will provide an annual report by October 31, 2002. This report will include information on actions taken during the year to implement the plan, progress made, difficulties encountered and any changes to the plan under consideration.
2. The annual report will include statistics for Aboriginal persons, persons with disabilities, female persons and visible minority persons. It will show application process, enrollment, graduation and leaver reporting. This information will be provided for SIAST and each of its divisions.
3. The annual report will continue to provide information on the following:
  - Agreements between SIAST and Dumont Technical Institute.
  - Accommodations of students with disabilities, including students with intellectual disabilities.
  - Under-representation of female students in courses attended predominately by male students, i.e. courses with less than 45 percent female students.
  - Expansion of its Education Equity Programs to Adult Basic Education (ABE) and Extension Programs.
4. SIAST will report on specific measures developed to reduce barriers to designated student groups.
5. SIAST will report on progress in identifying and removing systemic barriers in pre-admission and post-admission entry tests and curricula.
6. SIAST will report on the functions of the SIAST Education Equity Program committees.
7. SIAST will continue to consult with the Commission on the implementation of the recommendations of the review of the High Cost Student Fund.
8. SIAST will report on staff training in relation to education equity.
9. SIAST will report on the application of the policy on accommodation for students with disabilities to meet certification requirements.
