AUTHOR Hardesty, Larry  
 TITLE Survey of the Use of Slide/Tape Presentations for Orientation and Instruction Purposes in Academic Libraries.  
 PUB DATE Jan 76  
 NOTE 183p.  
 EDRS PRICE MF-\$0.76 HC-\$9.51 Plus Postage  
 DESCRIPTORS \*Audiovisual Aids; \*Audiovisual Instruction; Behavioral Objectives; \*Bibliographies; \*Library Instruction; Library Surveys; Phonotape Recordings; Slides; State of the Art Reviews; \*University Libraries

ABSTRACT

Eighty-eight academic libraries were surveyed to determine what kinds of slide/tape library instruction materials are available for purchase or loan. The conclusions reached were: (1) there are less than a dozen libraries that have produced presentations of sufficient quality and adaptability to be widely used; and (2) the slide/tape format demands time, expertise, and resources that are often underestimated. For each responding library a summary of the purpose, course use, subject, producer, financing, and evaluation of the slide/tape presentations is included. Four tables and the appendixes contain the survey questionnaire and the prices of Kodak slide Projectors and 3M Wollensak tape recorders as of December 1975. Also included is a reprint of a 17 page bibliography on audio-visual techniques and library instruction compiled by the University Library, The University of Michigan.

# USE OF SLIDE/TAPE PRESENTATIONS IN ACADEMIC LIBRARY INSTRUCTION AND ORIENTATION

## Introduction

A survey of the literature indicates that more and more academic librarians are becoming committed to a philosophy of active educational librarianship. Numerous methods of instruction and orientation in the use of academic libraries are being tried. Both because no library probably has enough librarians to be everywhere when questions need to be answered and because of the search for more effective and efficient methods of instruction and orientation, many librarians are using some form of media. Among the most popular formats is the slide/tape presentation, which consists of 35 mm slides synchronized with taped narration.

Slide/tape presentations offer certain advantages over other types of media. Among the advantages are, as outlined by Frank Earnshaw, University Librarian, University of Bradford, England:

1. The cost, in production and equipment is relatively low compared with film or videotape.
2. The presentation is easy to update by replacing one or two slides or rerecording part of the commentary, whereas an out-of-date film has to be completely remade.

- 3. The equipment is easy to operate and robust in terms of normal handling, making it possible for a student to use equipment with minimal guidance."<sup>1</sup>

Because of these characteristics the Standing Conference on National and University Libraries (SCONUL) in Great Britain chose the slide/tape format in 1970 as the format to be used in a cooperative project among academic libraries in that country. The purpose was to produce audiovisual aids that could be used to educate any library user in any library.<sup>2</sup>

This format has proved to be equally popular in the United States. In a survey conducted in 1971, Verna V. Melum found "colored slides with synchronized tape for use in classrooms with or without the presence of a librarian"<sup>3</sup> to be one of the most popular approaches to reaching large numbers of students in library orientation and instruction.

Problem

A major problem with the use of the slide/tape format, as with any other audiovisual format, for library instruction and orientation is the lack of suitable materials. Little of worth has been produced commercially, and librarians often have difficulty fitting what is available to their individual needs. Several solutions have been proposed, and the one most often implemented is the local production of what is needed.

---

<sup>1</sup>Frank Earnshaw, "An Example of Cooperative Development of Library-Use Instruction Programs," Educating The Library User, ed. John Lubans, Jr. (New York: R. R. Bowker Co., 1974), pp. 392-393.

<sup>2</sup>Ibid., p. 392.

<sup>3</sup>Verna V. Melum, "1971 Survey of Library Orientation And Instruction Programs," Drexel Library Quarterly, Vol. 7, (July/October, 1971); p. 228.

This solution is only partial. One librarian has noted "most of the local productions tend to be amateurish in comparison with commercial tapes, radio, and television, and, therefore, are not exciting to students."<sup>4</sup> Even with the advantages offered by the slide/tape format, a great deal of time, expertise, and resources are needed for local production. According to one librarian using this format, "One aspect of the problem is that the idea of a slide/tape presentation is so deceptively simple."<sup>5</sup> Millicent Palmer has reported that experienced producers of media programs have estimated up to a minimum of 300 man-hours necessary for a media specialist to develop a twenty-minute slide/tape program.<sup>6</sup> Considering the problems with local media productions, the Carnegie Commission on Higher Education has warned, "In itself, reliance on instructional materials of one's own design is not a pure virtue. To utilize poorly designed materials when better ones are available is shortsighted."<sup>7</sup>

A second solution has been offered by Thomas Kirk of Earlham College. He has suggested "funding agencies and foundations should be supporting the development of instructional materials that are deliberately created

to be as widely adaptable as possible."<sup>8</sup> While this may be the best solution in the long run, it is dependent upon the cooperation of the various funding agencies and foundations. While there has already been funding by the Council of Library Resources and the National Endowment for the Humanities for projects involving library instruction and orientation, the funds were not specifically for the development of widely adaptable media presentations. The media presentations that have resulted have yet to make a serious impact on academic library orientation and instruction.

### Rationale

Until further such efforts by the various funding and grant agencies, a partial solution to the lack of suitable audiovisuals for academic library orientation and instruction might be to make known as widely as possible those locally produced instructional materials that are of sufficient quality and adaptability to be used widely. It was with this idea in mind that a survey of academic libraries who had reported using some form of slide/tape presentations for library orientation and instruction was conducted by this writer. It was hoped that exemplary presentations would become known and available to more libraries, and better presentations would result from the sharing of experiences in producing slide/tape presentations.

## Method

On May 8, 1975, 151 letters (Appendix A) with survey forms (Appendix B) were sent out to various academic libraries, ranging from those serving small community colleges to those serving major universities, who had reported using some form of slide/tape instruction or orientation. The bulk of the names had been provided by Mary Bolner, then director of Project LOEX of Eastern Michigan University, either from Project LOEX's membership survey or from the following sources:

ACRL Bibliographic Instruction Committee's Academic Library Bibliographic Instruction: Status Report 1972

Directory of Bibliographic Instruction Programs Offered By New England Academic Libraries, 1974, compiled by Jan Baranowski and Paula F. Mark.

Wisconsin Association of Academic Libraries' Task Force On Instruction in Academic Libraries' Library Instruction Programs: A Wisconsin Directory, 1973.

California Clearinghouse On Library Instruction's Everything You Ever Wanted To Know About LIBRARY INSTRUCTION\* \*but didn't have time to ask, 1974

Keith M. Cottam, "Library Use Instruction In Tennessee's Academic Libraries: An Analysis And Directory," Tennessee Librarian, Vol. 26, (Summer/Fall, 1974), pp. 73-79.

After five weeks a second letter was sent to those libraries who had not responded to the first letter. By late September, 121 libraries had responded. In November nine more letters (Appendix C) and survey forms were sent to a second group of libraries. The names were provided by Carolyn Kirkendall, Project Director of LOEX. Eight of these libraries responded for a total response rate of approximately 81% out of 160 libraries.

## Results

A total of 129 academic libraries responded to the survey. Of those responding, twenty-one indicated they did not use any form of slide/tape presentations, and four libraries provided incomplete and unusable.

A total of 104 libraries indicated that they were using or soon planned to start using some form of slide/tape presentations in their library instruction and orientation programs. This included six academic libraries who reported using 3-M's Sound-On-Slide system. Eight of those responding requested their names be withheld. Table 1 indicates the distribution of the libraries responding by number of volumes in the library, full-time-equivalent (FTE) student enrollment of the institution, and the highest degree offered by the institution.

An attempt was made to distinguish between slide/tape presentations used for orientation purposes and those used for instructional purposes. While the dichotomy is not complete, orientation presentations generally are designed to do one or all of the following: introduce students to the physical arrangement of the library; acquaint students with the services offered by the library; make students aware of the availability of librarians to help them; and, in general, to foster a positive attitude on the part of the students towards the library and librarians. Instructional presentations usually attempt to teach students how to use a specific library item, such as Readers' Guide. Of course, one presentation might attempt to do both, and the librarian completing the survey form had to decide which category the presentation best fit.

A total of 258 presentations were identified. Eighty-eight presentations were indicated to be orientation presentations, 147 instructional programs on specific library items, and twenty-three presentations on miscellaneous topics, such as library search strategies for particular disciplines. The instruction programs were divided as followed:

Title	Number of Presentations
Indexes and Abstracts	71 including
Readers' Guide	14
Biological Abstracts	3
Book Review Digest	1
Canadian Periodical Index	1
Chemical Abstracts	3
Cumulative Index To Nursing Literature	2
Engineering Index	2
ERIC	5
Essay and General Literature Index	3
Index Medicus	2
MLA Bibliography	2
New York Times Index	2
Science Citations Index	3
Sheppard's Citations Index	1
Sociological Abstracts	1
Card Catalog	34
Reference Items	27 including
Encyclopedias	6
Microforms	2
Government Documents	13
Miscellaneous	23 including
Library Research	5
Others	18

One of the main purposes of the survey was to find out what libraries developed which could be made available to other libraries and adapted to their needs. Of those libraries responding to the question, forty-seven

(46%) believed that their presentations could be adapted for use by other libraries, and fifty-five (54%) indicated that they did not believe their presentations to be readily adaptable.

Asked if they would make their presentations available to other libraries, thirty-six indicated they would make their presentations available. Some of these were libraries who did not believe their presentations adaptable, but would make them available as models to others. Also, some indicated more than one method by which they would make their presentations available. Thirteen indicated they would sell copies of their presentations, sixteen indicated they would loan their presentations, and ten indicated they would loan their presentations to be duplicated by the borrower. In addition to these thirty-six libraries, five libraries indicated they would make available scripts or tapes of presentations to other libraries. This question was not specifically asked, and a larger number of libraries might be willing to make such materials available than indicated.

A second purpose of the survey was to gather the experiences of libraries in using slide/tape presentations so they could be shared. In answering these questions, respondents often supplied more than one answer even though asked to indicate primarily how they used the presentations. This caused the total to often go over the 104 libraries responding. The following are the responses to selected questions:

8. Who is primarily responsible for offering individual presentations to the viewers:

- |  |              |
|--|--------------|
| a. professional librarians                           | 71 responses |
| b. library support staff members                     | 13           |
| c. classroom faculty                                 | 14           |
| d. student aide                                      | 5            |
| e. individual views presentations without assistance | 28           |

9. Where are the presentations mainly viewed:

- |   |              |
|---|--------------|
| a. in classrooms                          | 37 responses |
| b. in learning labs                       | 10           |
| c. near library item to be used           | 36           |
| d. other (usually an area in the library) | 30           |

14. Have your slide/tape presentation(s) been evaluated:

- |          |              |
|----------|--------------|
| a. Yes   | 59 responses |
| b. No    | 38           |
| c. Other | 1            |

15. Indicate all that apply. If your presentations have been evaluated, by whom:

- |                          |              |
|--------------------------|--------------|
| a. librarians            | 45 responses |
| b. classroom instructors | 32           |
| c. students              | 47           |
| d. question not apply    | --           |
| e. other                 | 4            |

16. Indicate all that apply. If your presentations have been evaluated, what was the method:

- |                                     |              |
|-------------------------------------|--------------|
| a. formal test of users             | 13 responses |
| b. questionnaire completed by users | 37           |
| c. interviewing users               | 31           |
| d. question not apply               | --           |
| e. other                            | 4            |

17. Full name and model number of hardware used:

A majority of the libraries used various models of Kodak slide projectors and Wollensak cassette tape players. A distant second choice was Singer Caramate combination slide projectors and tape players. Various other equipment was used, including 3-M's Sound-On-Slide system which, strictly speaking, may not be considered a slide/tape format, but the two formats are very similar.

Tables 2 and 3 illustrate the answers given to question 13:

Approximately how many \_\_\_\_\_ and what percent \_\_\_\_\_  
 fill in number fill in number  
 of your student body view the slide/tape presentations each academic  
 year?

**TABLE 2**  
**NUMBER OF STUDENTS VIEWING**  
**SLIDE/TAPE PRESENTATIONS EACH ACADEMIC YEAR**

Number of Students	Number of Presentations
Less than 100	3
100 to 499	29
500 to 999	15
1,000 to 1,999	20
2,000+	11
Total Responding	78

**TABLE 3**  
**PERCENT OF STUDENT BODY VIEWING**  
**SLIDE/TAPE PRESENTATIONS EACH ACADEMIC YEAR**

Percent of Student Body	Number of Presentations
0-5%	14
6-10%	19
11-25%	25
26-50%	10
50-100%	2
Total Responding	70

Librarians were also asked to estimate the cost of each slide/tape presentation. Table 4 indicates the results.

TABLE 4  
ESTIMATED COST OF EACH SLIDE/TAPE PRESENTATION

Estimated Cost	Number of Presentations
0-49 dollars	24
50-149	10
150-249	7
250-499	6
500-999	14
1000+	2
<b>Total Presentations</b>	<b>63</b>

To determine the popularity of other media presentations, two questions were asked:

20. Indicate all that apply. What other types of mediated library instruction/ orientation does your library use?

a. slides only	20 responses
b. tapes only	25
c. videotapes	26
d. filmstrips	16
e. films	10
f. other	2

21. Indicate any method of mediated library instruction your library has discontinued using. Place the appropriate letter indicating the primary reason for discontinuation in the blank provided. (more than one reason was usually cited)

1. slide/tapes	4 responses
a. too difficult to up-date	2
b. lack of effectiveness	1
c. patrons not like it	1
2. slides only	3 responses
a. lack of effectiveness	2
b. other miscellaneous reasons	2
3. tapes only	1 response
a. lack of effectiveness	1
b. lack of use	1
c. patrons not like it	1
4. videotapes	13 responses
a. too expensive	4
b. too time-consuming	10
c. lack of effectiveness	3
d. patrons not like it	1
e. other miscellaneous reasons	3
5. filmstrips	4 responses
a. too difficult to up-date	1
b. lack of effectiveness	2
c. lack of use	1
d. patrons not like it	1
e. other miscellaneous reasons	1
6. films	3 responses
a. too difficult to up-date	1
b. lack of use	1
c. patrons not like it	1

A summary of the individual responses to the survey is included at the end of this section.

### Conclusions

While a survey using a mailed questionnaire has certain limitations, the results of this survey should give an approximate state of the art of the use of slide/tape presentations for orientation and instruction purposes in academic libraries. While numerous presentations were identified, this survey appeared to fall short of its goal of identifying a large number of exemplary presentations that are widely available. This is not to say that there do not exist many excellent programs, but most are largely useful within one institution. Probably less than a dozen libraries have produced presentations of sufficient quality and adaptability to be widely used, and hardly a handful have produced presentations with this specific purpose in mind. What is available may often serve as excellent models for other local productions, but few of the presentations available can be used without modification by other than the producing library. Some libraries have attempted to create programs that could be used widely in order to justify time, expense, etc. It might be well if more libraries kept this in mind in their local productions.

A major cause of the problem of the lack of widely useful presentations is, despite the advantages of slide/tape presentations, they are, as previously indicated, "deceptively simple". The slide/tape format still demands time, expertise, and resources. It would appear from the results of this survey that these ingredients are often under estimated.

### Suggestions

While this survey's purpose was not to create a "how-to-do-it" guide, no doubt something can be gained from the collective wisdom of those who have already attempted the creation and use of slide/tape presentations. A bibliography on audiovisual techniques and library instruction has been compiled by Peggy Ann Kusnerz and Marie Miller for use at the November 12-14, 1975 conference "Media and Messages" at the University of Michigan. The section concerning slide/tape presentations and general audiovisual techniques has been included at the end of this section with their permission.\* Anyone planning to produce a slide/tape presentation should read several of the works they have cited.

Several key ingredients to the successful creation of slide/tape presentations have become evident as a result of this survey. First, time is of great importance. More than one respondent noted that "it takes a lot of time." In fact, one individual heavily involved in slide/tape production warned, "ALWAYS ALLOW MORE TIME THAN YOU THINK IT COULD POSSIBLY TAKE!"<sup>8</sup> The relative ease by which a slide/tape presentation can be made no doubt leads some to a false sense of security, but the estimate of 300 hours for a twenty minute production may not be unrealistic--particularly for the novice.

---

<sup>8</sup>Based on personal correspondence between Martha Hackman, Assistant for Instructional Planning, California State University, Los Angeles, and the writer.

\*Complete copies of this bibliography may be obtained by contacting the Library Extension Service, 2360 Bonisteel Blvd., The University of Michigan, Ann Arbor, Michigan, 48105

Money is, of course, important in almost anything libraries want to do, and the production of slide/tape presentations is no exception. Generally, the respondents to this survey gave conservative estimates for the costs of the productions. Slide/tape presentations are not cheap. They may be cheaper than many other audiovisual presentations, but this still does not make them cheap. Equipment alone to view the presentations can be several hundred dollars. If labor costs are included, the costs can be unbelievably high. Beulah Howison, Coordinator of Public Services at the University of Wisconsin-Stout, an institution heavily involved in audiovisual instruction, has advised at least a hundred dollars an audiovisual instructional package.<sup>9</sup> This figure is no doubt reasonable if labor costs and equipment costs do not have to be included. From the responses to this survey, few libraries keep an accurate account of the cost--which would appear to be a key ingredient in evaluating the results.

Resource personnel are vital. Ms. Howison has also advised librarians not to get involved in media production, "Unless you have an excellent A-V Department to work with you."<sup>10</sup> Not everyone can take good photographs, develop a suitable sound track, or write an effective script. While it may take only a few minutes to learn the basics of manipulating the equipment, to produce an effective slide/tape presentation takes much longer.

<sup>9</sup>Based on personal correspondence between Beulah Howison, Coordinator of Public Services, University of Wisconsin-Stout, and the writer.

<sup>10</sup>Ibid.

A second need for resource personnel is for evaluation of the presentations. It is evident that relatively few of the librarians responding did any serious evaluation of their presentations. Almost forty percent did no formal evaluations by their own admission. Many of the others admitted to using their evaluation devices very loosely. Good evaluation is a necessary part of the use of an instructional program. What a librarian may think to be very effective, might be viewed very differently by students. If the librarian developing the presentation is not familiar with evaluation techniques, then resource personnel within the institution should be consulted.

There is no easy road to good slide/tape presentations. Apparently few can be adopted without change from other institutions, and local production is difficult. They need to be well-planned and developed for a specific purpose. Several librarians indicated that the presentations were best used in connection with a course assignment. Just making a presentation "available" for students to view seldom generated enough viewing and learning to justify the effort spent in production. Perhaps because presentations work best when used with a particular assignment it is difficult to create presentations that are widely useful.

Librarians have to have in mind exactly how students are to view and use the presentations. Even a simple slide projector or tape recorder can baffle a student--yet many librarians indicated they expect students to use such equipment without assistance. One library even developed a

filmstrip to show students how to use microfilm readers and then found that students had to be shown how to use the filmstrip projector. If librarians have to show students how to use the equipment individually in order to learn how to use a library tool, it may be just as efficient and much cheaper to show them how to use the library tool individually. Some libraries have attempted to custom design equipment more suited for individual use without instruction, but as Mrs. Katharine Cipolla, Media Services Librarian at Massachusetts Institute of Technology, has warned, "Commercially available equipment is commercially repairable."<sup>11</sup> Finally, even though slide/tape presentations are popular and offer several advantages, librarians should not be dogmatic in their use. Other types of media presentations can be very effective for certain types of instruction.

While the general tone of these "Suggestions" may should discouraging, it is not really meant to be. It is only hoped that librarians will use the suggestions in developing a better approach to slide/tape productions. As one librarian noted, "It is very time consuming! It is challenging! It is drudgery! It is maddening! I wouldn't have missed the experience for anything."<sup>12</sup>

ANTELOPE VALLEY COLLEGE

Mrs. Mercedes M. Taylor  
Assistant Librarian  
Roy A. Knapp Library  
3041 W. Ave. K  
Lancaster, California 93534

Associate Degree Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand
  4. Presentation Subjects: General Library Orientation (25 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In learning labs and near library item to be used
  7. Produced By: Audio-Visual Services of the institution
  8. Financed By: Audio-Visual Services
  9. Number of Viewers/Year: Information not provided
  10. Evaluation: Evaluated by librarians, classroom faculty, and students by interviewing users
  11. Equipment: Kodak Ektagraphic Slide Projector; Wollensak Cassette Tape Recorder 2520 AV or 2522 H20
  12. Availability: Most of the information is general, but slides apply only to this library; not available for loan
  13. Comments: "Our slide/tape program has been successful in putting the services of the library over to the students. It takes the place of long lectures and library tours."

UNIVERSITY OF ARKANSAS

Richard H. Reid  
Assistant Director of Public Services  
University Libraries  
Fayetteville, Arkansas 72701

Doctorate Granting Institution  
10,001-15,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Have used slide/tapes for orientation, but no longer use the tape portion of the program
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand
  4. Presentation Subjects: General Library Orientation (30 minutes)
  5. Presented By: Library support staff member
  6. Viewing Locations: In the library audio-visual viewing room
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 1200 or 10% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students by questionnaires completed by users and interviewing users
  11. Equipment: Ampex 1100 Reel to Reel Tape Recorder; Kodak 750 Carousel Slide Projector; Kodak Carousel Sound Synchronizer
  12. Availability: Not adaptable to other libraries
  13. Comments: Dropped tape portion of presentation. Live presentation with the slides has helped 100%. Once the original slide/tape presentation was established, there was a tendency for neglect to set in and updating and repair not quickly performed.

UNIVERSITY OF ARKANSAS AT LITTLE ROCK

Steve Parker  
Reference Librarian/Instructor Library Science  
University of Arkansas at Little Rock Library  
33rd & University  
Little Rock, Arkansas 72204

Master's Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
2. Courses Using Presentations: No complete program offered
3. Presentation Access Control: Any user or group on demand
4. Presentation Subjects: General Library Orientation (6 minutes); Periodical Indexes (2 minutes); Card Catalog (4 minutes)
5. Presented By: Individual may view presentations without assistance
6. Viewing Locations: In the library's reference area
7. Produced By: The library (Approximate cost: \$500)
8. Financed By: Grant funding
9. Number of Viewers/Year: Approximately 1000 or 18% of the student body
10. Evaluation: Evaluated by librarians, classroom instructors, and students through formal test of users; questionnaire completed by users, and interviewing users
11. Equipment: Singer Caramate 8805
12. Availability: Not adaptable to other libraries
13. Comments: "At present time we have only one slide/tape program in operation. It is intended to serve as a general orientation to the UALR library, but there are some elements of library instruction..." "The slide/tape program has been very favorably received by students, faculty, and librarians alike."

Linda F. Fisk  
Assistant Librarian  
Behrend College Library  
Erie, Pennsylvania 16510

Master's Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily freshman English classes
  4. Presentation Subjects: "Information Shock-How To Cope" with mainly Readers' Guide as an example (3 minutes); Social Science Index (2 minutes); other indexes and abstracts (2 minutes); card catalog (6 minutes); and bibliographies (3 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In seminar room of the library
  7. Produced By: The library (Approximate cost: \$35 in materials-staff time not totaled)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 380 or 25% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Kodak Model AF Slide Projector; Wollensak Model 2551 AV Sync. Tape Recorder
  12. Availability: Adaptable to other libraries, but not available at the present time due to heavy use and risk of loss or damage
  13. Comments: "Our slide/tape intends to instruct in the use of the card catalog and the indexes to periodicals and to make viewers aware of other bibliographies. This may be too much to give students in 18 minutes." Stress the variety of resources and necessity of asking a librarian

**BOSTON COLLEGE**

**Jan Baranowski**  
**Chief Reference Librarian**  
**Bapst Library**  
**Chestnut Hill, Massachusetts 02167**

**Doctorate Granting Institution**  
**10,001-15,000 FTE Students**  
**500,000+ Volumes in the Library System**

- 
- 1. Purpose of Presentations:** Use slide/tapes for orientation
  - 2. Courses Using Presentations:** No complete program offered
  - 3. Presentation Access Control:** Mainly incoming freshmen and transfer students
  - 4. Presentation Subjects:** General Library Orientation ("The information is locational or directional and is not meant to be instructional.")
  - 5. Presented By:** Professional librarian; also librarians instruct volunteers from a student service-oriented group on how to present the slide/tape
  - 6. Viewing Locations:** Conference Room in the Student Union Center
  - 7. Produced By:** The library and audio-visual services
  - 8. Financed By:** The library
  - 9. Number of Viewers/Year:** Approximately 2,500 or 20% of the student body
  - 10. Evaluation:** Evaluated by librarians and Boston College Orientation Committee
  - 11. Equipment:** Kodak Ektagraphic Slide Projector Model E-2
  - 12. Availability:** Not adaptable to other libraries
  - 13. Comments:** "The slide/tape program has been most successful in creating an awareness among incoming students of the types of library services and facilities available at Boston College."

Theodore F. Gould  
 Educational Services Program Coordinator  
 Shields Library  
 Davis, California 95616

Doctorate Granting Institution  
 15,001-20,000 FTE Students  
 500,000+ Volumes in the Library System

1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
2. Courses Using Presentations: No complete program offered
3. Presentation Access Control: Any user on demand
4. Presentation Subjects: General Library Orientation: "Libraries of the University of California at Davis" (12 minutes);  
 Card Catalog: "Instruction in the use of Subject Headings and Subject Catalog" (12 minutes)
5. Presented By: Individual views presentation without assistance
6. Viewing Locations: Near library item to be used
7. Produced By: The library (Approximate cost for each: \$25)
8. Financed By: The library
9. Number of Viewers/Year: General Library Orientation: Shown continuously Monday through Friday during Registration Week and the first two weeks of classes, Fall Quarter, 1974 (1,114 viewers)  
 Card Catalog presentation available by loan at Loan Desk and viewed by 60 students during 1975/75 year.  
 No formal evaluation
10. Evaluation: No formal evaluation
11. Equipment: EDCO Carrel (Slide/tape rear projection-used with Kodak Carousel 650 slide projector) for general orientation continuous showing
12. Availability: Adaptable to other other libraries and available for loan for duplication. Local examples from the Card Catalog presentation might have to be replaced
13. Comments: Plan to adapt Card Catalog presentation to endless loop cassette and play it continuously during peak periods of library use. Students will then have only to sit down, pick up a set of earphones, watch and listen.

Barbara Silver  
Coordinator of Reference Department  
Santa Barbara, California 93126

Doctorate Granting Institution  
10,001+15,000 FTE Students  
500,000+ Volumes in the Library System

---

1. Purpose of Presentations: Use slide/tapes for orientation
2. Courses Using Presentations: No complete program offered
3. Presentation Access Control: Viewed primarily by entering students
4. Presentation Subjects: General Library Orientation (25 minutes)  
Search Strategy (25 minutes)
5. Presented By: Professional librarian
6. Viewing Locations: In library class space
7. Produced By: The library (approximate cost for each: \$300)
8. Financed By: The library
9. Number of Viewers/Year: Approximately 750-800 or 8% of the student body
10. Evaluation: No information
11. Equipment: Kodak Ektagraphic Slide Projector Model AF-2
12. Availability: Not adaptable to other libraries
13. Comments: None

CALIFORNIA STATE UNIVERSITY, FRESNO

Stephie Hillman  
Assistant University Librarian  
University Library  
Fresno, California 93740

Master's Granting Institution  
10,000-15,000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand or any user at specified times during designated orientation periods
  4. Presentation Subjects: General Library Orientation (12 minutes) followed by a tour of approximately 30 minutes. Library handbooks are distributed at the start of the program
  5. Presented By: Student aide
  6. Viewing Locations: In library's large group study rooms
  7. Produced By: The library (Approximate cost: \$50)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 950 or 8% of the student body
  10. Evaluation: Evaluated by librarians and students in an upper division level audio-visual education course by written comments from the students
  11. Equipment: Kodak Carousel Slide Projector Model AF-2; Wollensak Tape Recorder Model 2548 or 2552; or Optisonic Sound-O-Matic Model I, II, or III
  12. Availability: Not adaptable to other libraries
  13. Comments: "The slide/tape program represents only a very small part of the Library's orientation and instruction program. The largest part is represented by lecture. . . One very positive aspect of our slide/tape program is the ease with which it can be revised."

CARL SANBURG COLLEGE

Mrs. Margaret Wainer  
Director

Carl Sanburg College Learning Resources Center 0-50,000 Volumes in the Library  
P.O. Box 1407 South Lake Storey Road  
Galesburg, Illinois 61401

Associate Degree Granting Institution  
1001-5000 FTE Students

1. Purpose of Presentations: Use slide/tapes for orienation; use slide/tapes for instruction on major library items
2. Courses Using Presentations: No complete program offered
3. Presentation Access Control: Any group on demand
4. Presentation Subjects: General Library Orienation (7 minutes);  
Reference Items (20 minutes)
5. Presented By: Library support staff member
6. Viewing Locations: In classrooms
7. Produced By: Orientation produced by the library; Reference Items a commercial production by Library Filmstrip Center, Wichita, Kansas (Approximate cost: \$23)
8. Financed By: The learning resource center
9. Number of Viewers/Year: Approximately 350 or 33% of the student body
10. Evaluation: Evaluated by librarians, classroom instructors, and students by interviewing users
11. Equipment: Wollensak 2561 AV Tape Player; Kodak Ektographic A 2 Slide Projector
12. Availability: Not adaptable to other libraries
13. Comments: "We dropped a previously produced videotape because it lacked flexibility for purposes of revision." "Our only purpose for producing an LRC orientation was for attitude adjustment of students having prior poor experience with libraries. We are student/service oriented and all requests are honored."

**CARSON-NEWMAN COLLEGE**

Mildred Iddins  
Head Librarian  
Carson-Newman College Library  
Jefferson City, Tennessee 37760

Bachelor's Degree Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily only particular groups
  4. Presentation Subjects: Reference Items: MLA Bibliography, 1 hour;  
Government Documents: Monthly Catalog and Use of Government Documents, 30 minutes
  5. Presented By: Professional librarian
  6. Viewing Locations: In library classroom
  7. Produced By: Audio-visual services
  8. Financed By: Audio-visual services
  9. Number of Viewers/Year: Approximately 500 or 33% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Information not given
  12. Availability: Adaptable to other libraries and available for loan
  13. Comments: No additional comments

CASTLETON STATE COLLEGE

Hans Raum  
Assistant Librarian  
Coolidge Library  
Castleton, Vermont 05735

Master's Granting Institution  
1001-5000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for instruction on major library items
  2. Courses Using Presentations: Besides general library orientation, a 3 credit "Library Resources & Services" optional course is offered
  3. Presentation Access Control: Any group on demand by the instructor; the students enrolled in the above mentioned course
  4. Presentation Subjects: Periodical Indexes (15 minutes); Card Catalog (10 minutes);
  5. Presented By: Professional librarian
  6. Viewing Locations: In media area of library
  7. Produced By: Periodical Indexes commercially produced (producer not specified; approximate cost: \$20); Card Catalog program produced by the library
  8. Financed By: The library
  9. Number of Viewers/Year: "Too new to generalize yet"
  10. Evaluation: No formal evaluation
  11. Equipment: Kodak Carousel Slide Projector; "any model cassette tape player"
  12. Availability: Adaptable to other libraries and available for loan and for loan for duplication
  13. Comments: "No media, including slide/tapes, is as effective as a 'hands-on' session in the library, in which students get to use materials pertinent to them for up-coming term papers, etc. Motivation for interest is then provided by the prof."

**Associate Degree Granting Institution**  
**5001-10,000 FTE Students**  
**50,000-100,000 Volumes in the Library System**

- 
- 1. Purpose of Presentations:** Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  - 2. Courses Using Presentations:** No complete program offered
  - 3. Presentation Access Control:** Primarily Freshman English classes and Communication and Learning classes
  - 4. Presentation Subjects:** General Library Orientation (15 minutes) with about 2 minutes on each of the following: Periodical indexes, Card catalog, Reference items, and Microform items.
  - 5. Presented By:** Professional librarian
  - 6. Viewing Locations:** Extension Center library
  - 7. Produced By:** The library and AV deptment of the Learning Resource Center (Approximate cost: \$50)
  - 8. Financed By:** The library
  - 9. Number of Viewers/Year:** Approximately 300 or 20% of the student body at the Extension Center only
  - 10. Evaluation:** Evaluated by librarians, classroom instructors, and students by interviewing users
  - 11. Equipment:** Sawyer 35mm Slide Projector, Cassette with purler Soundomatic
  - 12. Availability:** Not adaptable to other libraries
  - 13. Comments:**

"The slide/tape presentation is always accompanied by a lecture which adapts and adjusts the content to the level and special needs of a particular class."  
"These answers apply only to the major Extension Center."  
Very favorable response, even applause by students

CENTRAL MICHIGAN UNIVERSITY

Cecily Little  
Assistant to the Director  
Central Michigan University Library  
Mt. Pleasant, Michigan 48858

Master's Granting Institution  
10,001-15,000-FTE Students  
500,000+ Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for a complete program of library instruction ("some of our programs may be put on videotape")
  2. Courses Using Presentations: Optional course for academic credit
  3. Presentation Access Control: Primarily presented to students enrolled in above mentioned course
  4. Presentation Subjects: General Library Orientation (20 minutes); Periodical Indexes (30 minutes); Card Catalog (2 presentations, 20 minutes each); Reference Items (3 presentations, 30 minutes each); Government Documents (not yet completed); Book Indexes (25 minutes) New York Times (20 minutes)
  5. Presented By: Presented by librarians who teach library skills course
  6. Viewing Locations: In learning labs
  7. Produced By: Audio-Visual Services
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 350 or 2% of the student body
  10. Evaluation: Evaluated by instructional programmer who aided in development of programs from formal tests by users and questionnaires completed by users
  11. Equipment: No information provided
  12. Availability: Some are adaptable to other libraries; price has not been determined
  13. Comments: "Three more programs are being prepared. About 85% of our students felt that the slide/tape programs aided in the mastery of the content of the unit they were studying. We are still developing and evaluating..."

CHAFFEY COLLEGE

Priscilla Fernandez  
Reference Librarian  
Chaffey Library  
5885 Haven Ave.  
Alta Loma, California 91701

Associate Degree Granting Institution  
1001-5000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: Periodical Indexes (10 minutes); Card Catalog (12 minutes); Guide To Art History (5 minutes); Guide To American History (10 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In periodical or audiovisual room of library
  7. Produced By: The library ("cannot estimate costs, but approximately 50 hours time each")
  8. Financed By: The library
  9. Number of Viewers/Year: 1412 or 10.7% of the student body
  10. Evaluation: Evaluated through interviewing viewers
  11. Equipment: "Kodak slide projector and any type of cassette player"
  12. Availability: Adaptable to other libraries and price available on request
  13. Comments: "We now use sound on slide for subject orientation and general library orientation. The problem we found is that slide/tape is not as flexible as sound on slide which we now are adapting for use for all instruction formally done by slide/tape."

CITRUS COMMUNITY COLLEGE

Aline Crawley Wisdom  
Librarian  
Citrus Community College Library  
18824 East Foothill  
Azusa, California 91702

Associate Degree Granting Institution  
5001-10,000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: General Library Orientation (10 minutes); Periodical Indexes (10 minutes); Card Catalog (10 minutes); Audio-Visual Materials (10 minutes)
  5. Presented By: Individual may view presentations without assistance
  6. Viewing Locations: In the foyer area of the library
  7. Produced By: Audio-Visual Services
  8. Financed By: Library Resource Center which includes both print and nonprint materials
  9. Number of Viewers/Year: Information not provided
  10. Evaluation: No formal evaluation
  11. Equipment: Tel-A-Story Projector
  12. Availability: Adaptable to other libraries
  13. Comments: No additional comments

COLORADO STATE UNIVERSITY

Betty L. Hacker  
Assistant Reference Librarian  
Colorado State University  
Fort Collins, Colorado 80521

Doctorate Granting Institution  
15,001-20,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tape for orientation; use slide/tape for instruction on major library items; use slide/tape for orientation of new staff members
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: Periodical Indexes (8 minutes); Card Catalog (5 minutes); Government Documents (6 minutes)
  5. Presented By: Individual views presentations without assistance
  6. Viewing Locations: Near Library Item to be used
  7. Produced By: Combination of CSU Libraries and Office of Educational Media: (Approximate cost: Periodical indexes, \$610; Card Catalog, \$1068; Government documents, \$610)
  8. Financed By: The library and a grant from CSU Office of Instructional Development
  9. Number of Viewers/Year: No information provided
  10. Evaluation: Evaluated by librarians and students through formal test of users, questionnaires completed by users, and interviewing users
  11. Equipment: Custom-made
  12. Availability: Scripts provided only, free of charge upon request; Script of Government Documents presentation adaptable to other libraries, other presentations are not
  13. Comments: Final Report, March 1974 on the AIM-LO Project is available on request; Summary of project enclosed (see next page)

PROJECT AIMLO  
COLORADO STATE UNIVERSITY

WHO: Colorado State University Libraries

WHAT: AIMLO (Auto-Instructional Media for Library Orientation)

WHEN: Funded by CSU Office of Instructional Development, May, 1971.  
Programs developed and units assembled, Summer, 1971.  
In continuous use at CSU Libraries since September, 1971.

WHY: To provide self-service instruction in basic library techniques for patrons from a student body of 17,000. To provide information at the time and point of need. To supplement services of the reference staff.

HOW: Three self-contained units were designed: one audio-only device with message repeater (audio-announcer) -- one sound-on-slide projector with recycler -- one slide projector with message repeater -- and cabinets to house each unit. Programs were written to explain use of the card catalog, of periodical indexes, and of the Monthly Catalog of U.S. Publications. Colored slides were prepared to illustrate the programs. Audio-visual programs depict a dialogue between an inquiring student and the reference librarian; audio-only programs are narrated by the reference librarian. Programs are activated when the user lifts a telephone receiver, and automatically recycle. Length of program is 5 to 9 minutes. The instructional units are placed near their appropriate points of use.

HOW MUCH:	<u>Equipment</u>	
	Unit 1 - Kodak Ektagraphic slide projector with 3" lens	
	Orrtronic Audio Announcer Syncro-Repeater and accessories	\$428.10
	Unit 2 - 3-M model 525 Projector-Recorder (Sound-on-Slide) with 3" lens, Model 325 Recycle Unit, slide tray and accessories	888.00
	Unit 3 - Orrtronic Audio Announcer Repeater and accessories	126.95
	Cabinets for above (custom-built, total for all 3 units)	364.05
	<u>Supplies</u> (slides, electric cord, etc.)	100.00
		TOTAL \$1,907.10

WHAT RESULTS: Evaluation forms voluntarily filled out by students show high level of interest, understanding of programs, and receptive attitude toward new media. Automatic counters, recording each use of unit, indicate usage significantly exceeding expectations. Mechanical performance has proved to be excellent, with few technical problems.

WHAT NEXT: Plans include development of new programs, covering additional research sources, and based in part on requests by users; possible acquisition of new teaching units for other areas of the library.

WHERE: COLORADO STATE UNIVERSITY LIBRARIES, FORT COLLINS, COLORADO 80521  
Contact: Richard C. Stevens, Betty Hacker, or Barbara Aro 303-491-5911

CYPRESS COLLEGE

Mr. Gail Lamm  
Librarian  
9200 Valley View  
Cypress, California 90630

Associate Degree Granting Institution  
5001-10,000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group or user on demand
  4. Presentation Subjects: General Library Orientation (26 minutes) including Orientation (5 minutes); Periodical Indexes (5 minutes); Card Catalog (5 minutes); Reference Items (5 minutes); Pamphlet File (1 minutes); Microform Items (2 minutes); and Audio-visual materials (3 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms
  7. Produced By: The library and audio-visual services  
(Approximate costs: \$15 per slide for eighty slides equals \$1200)
  8. Financed By: The college and the library
  9. Number of Viewers/Year: Approximately 300 or 2% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Kodak Carousel Slide Projector; VM Cassette Player with automatic drop
  12. Availability: Not adaptable to other libraries
  13. Comments: "The color slides as well as a well thought-out narration by a good narrator tends to keep the attention of the student." "We find that the slide/tape presentation is the best in the media field."

**DARTMOUTH COLLEGE**

**Mrs. June I. Hicks**  
**Associate Director of Library Services**  
**Dartmouth College Library**  
**Hanover, New Hampshire 03755**

**Doctorate Granting Institution**  
**1001-5000 FTE Students**  
**500,000+ Volumes in the Library System**

- 
- 1. Purpose of Presentations:** Use slide/tapes for orientation
  - 2. Courses Using Presentations:** No complete program offered
  - 3. Presentation Access Control:** Any group on demand; primarily viewed by freshmen
  - 4. Presentation Subjects:** General Library Orientation (20-25 minutes) including orientation, periodical indexes, card catalog, reference service, government documents, microform items, branch libraries, circulation procedures, and reserve book procedures.
  - 5. Presented By:** Professional librarian
  - 6. Viewing Locations:** In an auditorium with a large screen and a seating capacity of 200
  - 7. Produced By:** The library with photographs for slides done by college photographer's office (Approximate cost: \$50, not including personnel or equipment)
  - 8. Financed By:** The library
  - 9. Number of Viewers/Year:** Approximately 1000 or 25% of the student body
  - 10. Evaluation:** Students fill out evaluation card after viewing the program; originally used a formal test
  - 11. Equipment:** 3M sound-on-slide projector  
Hitachi Tape Player, Model TPQ201
  - 12. Availability:** Not adaptable to other libraries
  - 13. Comments:** Have an audio taped library tour produced by the library which cost approximately \$50, not including personnel and equipment

DAVID LIPSCOMB COLLEGE

James E. Ward  
Director  
Crisman Memorial Library  
Nashville, Tennessee 37203

Bachelor's Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily freshman for General Library Orientation; student library assistance for card catalog program; and history students for the two history presentations
  4. Presentation Subjects: General Library Orientation (15 minutes); Card Catalog (17 minutes); Reference Sources and Periodicals in History (two 30 minute presentations)
  5. Presented By: Professional librarian
  6. Viewing Locations: In the classroom primarily and a few in the library
  7. Produced By: The library (Approximate cost: General Library Orientation, \$100; Card Catalog, \$100; and History Program, \$200)
  8. Financed By: The library and audio-visual services
  9. Number of Viewers/Year: Approximately 700 or 33% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Kodak Carousel Slide Projector; Wollensak Cassette System 2550 AV
  12. Availability: All adaptable except the orientation presentation; Script and 21-page annotated bibliography is available for History Program for \$4 for both or \$2 each
  13. Comments: "We are very pleased with the few programs which we developed so far. The only problem seems to be the time and qualified personnel needed to develop good programs--both which often are difficult to achieve in small colleges."

DELAWARE TECHNICAL AND COMMUNITY COLLEGE

Helen Barnett  
Library Director  
Stanton Campus  
Box 1260  
Newark, Delaware 19711

Associate Degree Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orienation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand; primarily viewed by nursing students, formerly all incoming freshmen
  4. Presentation Subjects: Readers' Guide (9 minutes); Cumulative Index to Nursing Literature; Card Catalog (12 minutes); Research Papers (10 minutes)
  5. Presented By: Professional librarians; nursing instructors
  6. Viewing Locations: In classrooms and nearly library items to be used
  7. Produced By: Card Catalog produced by the library (Approximate cost: over \$150); Research Paper produced by the library (Approximate cost: \$100); Readers' Guide produced by Library Filmstrip Center; Cumulative Index to Nursing Literature produced by publisher of this index.
  8. Financed By: The college
  9. Number of Viewers/Year: Formerly all 500 freshmen; now about 60-80 students or about 10% of the student body
  10. Evaluation: Evaluated by librarians informally
  11. Equipment: Kodak Slide Projector and a cassette tape player
  12. Availability: Not completely adaptable but would duplicate tapes for someone if provided blank tapes
  13. Comments: "Faculty prefers orientation on specific subject as it comes up in class, tailored to a particular need. On card catalog - too detailed, somewhat repetitive. Over-all we noticed new students better at using card catalog after presentation."

UNIVERSITY OF DENVER

Richard J. Beeler  
Reference Librarian  
Penrose Library  
Denver, Colorado 80210

Doctorate Granting Institution  
5001-10,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: General Library Orientation (9 minutes); locations of those items listed i.e. periodical indexes, card catalog, reference items, government documents, and microform items, but no instruction
  5. Presented By: Individual views presentation without assistance
  6. Viewing Locations: In the library lobby
  7. Produced By: The library (Approximate cost: \$950, including cost of equipment and rear projector unit)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 600 or 1% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Kodak 760H Carousel Slide Projector; Cousino Audio Announcer Continuous Cartridge Player
  12. Availability: Not adaptable nor available to other libraries
  13. Comments: "No evaluation to report. We have had heating problems with the equipment due to the rear projection case we are using. The slide/tape unit is used only for general orientation. The presentation needs updating at present."

UNIVERSITY OF DETROIT

Aline Smith  
Reference Librarian  
Main Library  
4001 West McNichols  
Detroit, Michigan 48221

Doctorate Granting Institution  
5001-10,000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation and for training student assistants
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily directed towards faculty
  4. Presentation Subjects: General Library Orientation: "Book's-Eye View of the Library" (behind the scenes look at our closed stack library) approximately 12 minutes long;  
"Hidden Treasures in the Univ. Of Detroit Library" (remind faculty of depth of collection) 10 minutes long;  
"3M Theft Detection System" (train student assistance) 12 minutes long
  5. Presented By:
  6. Viewing Locations: Professional librarian presents program in conference room
  7. Produced By: The library with assistance of professional photographers who donated both time and film
  8. Financed By: The library
  9. Number of Viewers/Year: No information provided
  10. Evaluation: Faculty members evaluated the two shows primarily prepared for them by completing questionnaires
  11. Equipment: Wollensak 2570 Tape Recorder; Kodak Carousel Slide Projector
  12. Availability: Scripts provided and presentations may be viewed at the library; closed stack libraries could adapt some of the ideas
  13. Comments: "Our slide/tape program is in its infancy."  
"The evaluations of the Library-Faculty meeting were highly favorable."

EASTERN MICHIGAN UNIVERSITY

Hannelore B. Rader  
Orientation Librarian  
Eastern Michigan University Library  
Ypsilanti, Michigan 48197

Master's Granting Institution  
15,001-20,000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No, complete program offered
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation (20 minutes)
  5. Presented By: Professional librarian, library support staff member, classroom faculty, student aide, or individual may view presentation without assistance
  6. Viewing Locations: In lobby of library
  7. Produced By: The library with assistance from audio-visual services and speech department
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 4,000 or 23% of the student body
  10. Evaluation: Evaluated by students through questionnaire completed by users and interviewing users
  11. Equipment: Wollensak Cassette Tape Recorder 2551; Kodak Carousel Slide Projector
  12. Availability: Not adaptable to other libraries; is available for loan as a model
  13. Comments: "Our slide/tape program is now fully automated located in the lobby so that anyone may use it any time as an introduction to the library. Our patrons have indicated that they don't like slide/tape presentations and that to them this is not an effective method of library instruction."

EL CAMINO COLLEGE

Vonna L. Brown  
Reference Librarian  
El Camino College Library  
via Torrance, California 90506

Associate Degree Granting Institution  
15,001-20,000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand
  4. Presentation Subjects: General Library Orientation (22 minutes) including Periodical Indexes (7 minutes), Card Catalog (5 minutes) Reference Items (5 minutes), and Pamphlet Material (2 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: Classroom in the library, equipped with screen, and black-out curtains
  7. Produced By: Audio-Visual Services
  8. Financed By: The college
  9. Number of Viewers/Year: Approximately 1500 or 10% of the student body
  10. Evaluation: No formal evaluation; "each fall at the beginning of the term we use for the non-professional staff and receive comments from them." Also comments from librarians
  11. Equipment: Kodak Ektagraphic Slide Projector and Teléx slide/sync unit
  12. Availability: Certain parts adaptable to other libraries; available for loan for duplication
  13. Comments: "We find it useful for the orientation of many classes but we do not always use it if a special-subject lecture is more suitable for a given class. The program seems to be most effective if the instructor has motivated the students by making a specific assignment which will demand their knowledge of the library ..."

**FREE WILL BAPTIST BIBLE COLLEGE**

Judy J. Shrewsbury  
Head Librarian  
Free Will Baptist Bible College Library  
3606 West End Avenue  
Nashville, Tennessee 37205

Bachelor's Degree Granting Institution  
0-1000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation
  5. Presented By: Professional librarian, library support staff member, and classroom faculty
  6. Viewing Locations: In classrooms
  7. Produced By: No information provided
  8. Financed By: Audio/visual services
  9. Number of Viewers/Year: Very small percentage
  10. Evaluation: Evaluated by librarians by interviewing users
  11. Equipment: No information provided
  12. Availability: Adaptable to other libraries; no information on availability provided
  13. Comments: "Our library is just starting in this area."

# GATEWAY TECHNICAL INSTITUTE

Araxie Kalvonjian  
Chairman  
3520 30th Ave.  
Kenosha, Wisconsin 53140

Associate Degree Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: Offer an optional course for non-credit
  3. Presentation Access Control: Any group on demand; primarily communication, speech, and adult basic education classes
  4. Presentation Subjects: Readers' Guide (5 minutes); Business Periodicals Index (3 minutes); Applied Science and Technology Index (3 minutes); Card Catalog (5 minutes); Reference Items (5 minutes); Microform Items (2 minutes)-- All appear to be part of one presentation
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms
  7. Produced By: The library (Approximate cost: \$250)
  8. Financed By: "Summer extended contracts for librarians"
  9. Number of Viewers/Year: Approximately 400 or 25% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through formal tests of users and questionnaires completed by users
  11. Equipment: Kodak Carousel Slide Projector
  12. Availability: Adaptable to other libraries, available for sale but not arrived at price yet
  13. Comments: "Mostly positive-liked the ability to stop and give a more explanatory aspect if needed on items not clear to the user."

GAVILAN COLLEGE

Kathryn A. Young  
Director of Library  
Gavilan College Library  
Gilroy, California 95020

Associate Degree Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation (20 minutes); Card Catalog (20 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms and near library item to be used
  7. Produced By: Readers' Guide program produced by Library Research Associates (Approximate cost: \$35); Orientation and Card Catalog programs produced by the library (Approximate cost: \$10 each)
  8. Financed By: The library
  9. Number of Viewers/Year: "Varies greatly"
  10. Evaluation: No formal evaluation
  11. Equipment: 3-M Sound-On-Slide; Singer Caramate
  12. Availability: Adaptable to other libraries
  13. Comments: "Commercially produced material could be better. As in all other learning situations, students are not always motivated to complete a self-paced program."

HAMPSHIRE COLLEGE

Gai Carpenter  
Director  
Harold F. Johnson Library Center  
Amherst, Massachusetts 01002

Bachelor's Granting Institution  
1001-5000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for instruction on major library items; Use 3-M's Sound-On-Slide system
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: Biological Abstracts, ERIC, Sociological Abstracts, Bioresearch Index (all 7-12 minutes long); "coverage of looseleaf services in preparation"
  5. Presented By: Individual views presentations without assistance
  6. Viewing Locations: Near library item to be used
  7. Produced By: The library (Approximate cost: \$5-\$10, labor costs not included)
  8. Financed By: The library and grant funding
  9. Number of Viewers/Year: Not known
  10. Evaluation: Evaluated by librarians and students through interviewing users
  11. Equipment: 3-M Sound Slide System Model 525/125
  12. Availability: Adaptable to other libraries; "slides and/or tape may be duplicated; slides plus typed script may also be purchased at cost of duplication"
  13. Comments: "The point-of-use instructional materials save reference staff much redundant individual instruction of students, and give the student freedom to repeat any portion of the presentation. They are relatively simple to prepare and can be easily modified and updated as needed."

HARTNELL COLLEGE

Marlys Maher  
Public Services Librarian  
Hartnell College Library  
156 Homestead Ave.  
Salinas, California 93901

Associate Degree Granting Institution  
1001-5000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand; primarily freshman English and other groups requesting orientation
  4. Presentation Subjects: General Library Orientation; Readers' Guide; Cumulative Index To Nursing Literature; Essay And General Literature Index
  5. Presented By: Professional Librarian; or individual may view presentations without assistance
  6. Viewing Locations: In classrooms or near library item to be used; "Also used in foyer 1st of term, where they were played continuously"
  7. Produced By: Cumulative Index To Nursing Literature produced by publisher, Box 871, Glendale CA 91206 (Approximate cost: \$32); others by audio-visual services
  8. Financed By: The college
  9. Number of Viewers/Year: Approximately 300 or 10% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Any synchronized slide/tape equipment
  12. Availability: Adaptable to other libraries and the Readers' Guide and Essay and General Literature Index program for sale for \$30
  13. Comments: No additional comments

HARVARD UNIVERSITY

Allan E. Erickson  
Science Specialist in the Harvard University Library  
Godfrey Lowell Cabot Science Library  
One Oxford Street  
Cambridge, MA 02138

Doctorate Granting Institution  
10,001-15,000 FTE Students  
100,000-250,000 in the Library

- 
1. Purpose of Presentations: "This library has just started to collect and produce slides and tapes for slide accompanied personal orientation, tape instruction on major indeces accompanied with sample pages and slide tape instruction on major indeces in the sciences and LC classification. The whole project is in the stage of preparation and only slide accompanied personal orientation and slide accompanied Integrated Bibliographic Instruction takes place at this time.
  2. Courses Using Presentations: All other forms will be introduced in September 1976."
  3. Presentation Access Control: Plan to make them adaptable to other libraries and available for loan for duplication.
  4. Presentation Subjects:
  5. Presented By:
  6. Viewing Locations:
  7. Produced By:

## INDIAN VALLEY COLLEGES

Ann Coder  
Library Director  
Indian Valley Colleges Library  
Novato, California 94947

Associate Degree Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for a complete program of library instruction
  2. Courses Using Presentations: Optional course for academic credit
  3. Presentation Access Control: Students enrolled in the optional course for academic credit
  4. Presentation Subjects: Periodical Indexes (20 minutes); Card Catalog (10 minutes); Reference Items (10 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms and in learning labs
  7. Produced By: "Using Subject Periodical Index" commercially produced (no source indicated); "Using the Card Catalog," and "Using Encyclopedias" produced by local audio-visual services of the institution
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 100
  10. Evaluation: Evaluated by librarians, classroom instructors, students through formal test of users, questionnaire completed by users, and interviewing users
  11. Equipment: Wollensak Tape Recorder; Kodak Slide Projector; Singer Caramate Slide Projector
  12. Availability: Adaptable to other libraries and available for loan for duplication
  13. Comments: No additional comments

INDIANA UNIVERSITY-BLOOMINGTON

Monty M. Maxwell  
Chairman Instruction/Orientation Committee  
Indiana University Libraries  
Bloomington, Indiana 47401

Doctorate Granting Institution  
30,000+ FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Four presentations in preparation and intended for instruction on major library items (May 20, 1975)
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Plan for any user on demand
  4. Presentation Subjects: Plan for periodical indexes (20 minutes); book location through card catalog (20 minutes); and interpreting card catalog (20 minutes)
  5. Presented By: Plan for individual to view presentations without assistance
  6. Viewing Locations: Plan to be viewed near library item to be used
  7. Produced By: The library and audio-visual services
  8. Financed By: The library will finance software and some equipment and upkeep; audio-visual services will purchase and modify equipment
  9. Number of Viewers/Year: No information provided
  10. Evaluation: One presentation evaluated by librarians and students by a questionnaire completed by users
  11. Equipment: Howe study carrels, modified to use Kodak Ectograph Slide Projectors, Ortronic Syncor-recorder (or Syncor-repeater for playback only), and Ortronic Phone hand-sets
  12. Availability: Not easily adapted to other libraries
  13. Comments: "From our experience with delays in local hardware development, we cannot recommend purchasing equipment which needs to be modified."

The Committee on Instructional Programs has prepared a comprehensive listing of all AV programs on library instruction available in the IU Library system as of January, 1974. If you have interest in or need of a specific program cited in the following bibliography, please contact the person suggested. If you have interest in the overall survey, please contact Nancy Vossmeier, Bloomington, RCL or Wilson Luquire, Bloomington, Catalog Department.

LIBRARY INSTRUCTION AV PROGRAMS, I.U. SYSTEM

A BIBLIOGRAPHY PREPARED BY

January, 1974

COMMITTEE ON INSTRUCTIONAL PROGRAMS

USE OF PROGRAM	DESCRIPTION (Summary)	CURRENT USE	PROGRAM AND SOURCE COST	DATE PROGRAM PRODUCED	EQUIPMENT NEEDED	EQUIPMENT SOURCE, COST	FOR FURTHER INFORMATION CONTACT:
<u>2. Administration</u>							
<u>Main Library</u>							
Locating Materials in the Library	Slide/tape automated program in stationary carrel	Assist users in Main Library	Local, I.U.	1973	Carousel slide projector, cassette tape recorder	Approx. cost for 1 modified carrel with auto. program: 600 dollars	Julie Kilson, Catalog Dept., 337-1911
Periodical Indexes	Slide/tape automated program in stationary carrel	Assist users of Main Library in using Periodical Indexes	Northern Ill. Univ., locally adapted. 35 dollars	1974	Carousel slide projector, cassette tape recorder	Approx. cost for 1 modified carrel with auto. program: 600 dollars	Julie Kilson
Public Card Catalog	Slide/tape automated program in stationary carrel	Assist users of Main Library in using Card Catalog	Local, I.U.	1972 revised in 1974	Carousel slide projector, cassette tape recorder	Approx. cost for 1 modified carrel with auto. program: 600 dollars	Julie Kilson
<u>Undergraduate Library</u>							
Guided Tape Tour of UCL (including Main)	Guided tour of Main Library concentrating on UCL	Tour guide	Local, I.U. 120 dollars	January, 1974	Audio cassette playback unit	Any commercial cassette unit	Monty Maxwell UCL, 337-9857
How to Find a Book in UCL	Locating books in UCL through the card cat. including charge-out procedures	Tape used in conjunction with catalog card blow-ups; Station of UCL tape tour	Local, I.U. 100 dollars	Summer, 1973	Audio cassette playback unit	Any commercial cassette unit	Monty Maxwell
Researching Term Papers	Illustrates the use of popular reference sources for researching term papers	Station of UCL tape tour (Optional)	Local, I.U. 100 dollars	Fall, 1973	Audio cassette playback unit	Any commercial cassette unit	Monty Maxwell
UCL's Listening Room Facilities	An introduction to listening room facilities	Station of UCL tape tour (Optional)	Local, I.U. 100 dollars	In progress	Audio cassette playback unit	Any commercial cassette unit	Monty Maxwell
UCL's Periodicals and Periodical Indexes	A guide to and introduction to UCL's Periodicals and Indexes	For student instruction; Station of UCL tape tour (Optional)	Local, I.U.	In progress	Carousel slide projector, cassette tape recorder	Approx. cost for 1 modified carrel with auto. program: 600 dollars	Monty Maxwell

NAME OF PROGRAM	DESCRIPTION (Summary)	CURRENT USE	PROGRAM AND SOURCE COST	DATE PROGRAM PRODUCED	EQUIPMENT NEEDED	EQUIPMENT SOURCE, COST	FOR FURTHER INFORMATION CONTACT:
Johns Library	Cassette tape describing facilities and services of Biology Library	Assist users of Biology Library	Local, I.B.	June, 1973	Audio cassette playback unit	Any commercial cassette unit	Sabina Sinclair Biology Library 337-9792
Chemistry Library	Slide/sound adapted from Bellstein pamphlet: 19-20 minutes	Assist Chemistry patrons in use of Bellstein	Local, I.B.	1972	3M sound/slide projector/recorder (Chea. is converting 3M program to Morelco Pip Machine)	3M machine plus trays and aux. equip. costs 1,000 dollars	Felix Green Chemistry Library 337-9452
Chemical Abstracts	Slide/sound adapted from C.A. services publication	Assist Chemistry patrons in use of Chem Abstracts	Local, I.B.	1972	3M sound/slide projector/recorder (The Morelco Pip Machine is open carrel)	3M machine plus trays and aux. equip. costs 1,000 dollars	Felix Green
Sadtler Spectra-Treatise	Slide/sound adapted from commercial script; locally adapted and arranged	Assist Chemistry patrons in use of Sadtler Spectra-Treatise	Part commercial; locally adapted	1972	3M sound/slide projector/recorder (The Morelco Pip sound equip. is via headphones)	3M machine plus trays and aux. equip. costs 1,000 dollars	Felix Green
Science Citation Index	Slide/sound adapted from publications of Institute for Science Information: 17 mins.	Assist Chemistry patrons in use of Science Citation Index	Local, I.B.	1972	3M sound/slide projector/recorder	3M machine plus trays and aux. equip. costs 1,000 dollars	Felix Green
Using the Card Catalog	Slide/sound: 16 minutes	Assist Chemistry patrons in use of card catalog	Local, I.B.	1972	3M sound/slide projector/recorder	3M machine plus trays and aux. equip. costs 1,000 dollars	Felix Green
Education Reading Room	Video tapes: 30 minutes	Assist Education Reading Room patrons	Local, I.B.	Unknown	Video player	Unknown	Richard Mann Instructional Mktg. Ctr., Educat. Bldg. 337-7978
All about ERIC	Filmstrip and reel/reel tapes: 15 minutes	Introduction to ERIC	Photo Lab, Inc. 3825 Georgia Ave., N.W. Wash., D.C. 20011	1972	Filmstrip projector reel/reel recorder	Commercial equip.	Lois Lehmann Education Read. Room 337-1798
Introduction to ERIC	Filmstrip: 10 mins.	Set of 3 color filmstrips and 3 reel/reel tapes to assist users of ERIC	Center for Research and Development in State Educat. Leadership Teaching-Research: a division of the Oregon State System of Higher Education; locally adapted; 16.50	Unknown	Filmstrip projector reel/reel recorder	Commercial equip.	Lois Lehmann
How to use ERIC	Filmstrip: 6 mins.			Unknown	Filmstrip projector reel/reel recorder	Commercial equip.	Lois Lehmann
ERIC Advanced Training Program	Filmstrip: 7 mins.			Unknown	Filmstrip projector reel/reel recorder	Commercial equip.	Lois Lehmann

NAME OF PROGRAM	DESCRIPTION (Summary)	CURRENT USE	PROGRAM AND SOURCE COST	DATE PROGRAM PRODUCED	EQUIPMENT NEEDED	EQUIPMENT SOURCE, COST	FOR FURTHER INFORMATION CONTACT:
Instruction for 'PROLE' Computer Search	General 8 minute instruction	Assist patrons in making an ERIC PROMS search	Local, I.U.	1972	Reel/reel recorder	Any commercial reel/reel recorder	Lois Lehman
Use of the ERIC System	A 6 minute overview of using ERIC	Assist patrons in using ERIC	Local, I.U. I.U. Commission on Teacher Education	1971	Reel/reel recorder; slides	Any commercial reel/reel recorder; slide projector	Lois Lehman
Print Materials for Teachers	Tape, notebook, bibliography (user keeps hard copy of bibl.) 10 minutes	Assist teachers in selecting materials	Local, I.U.	October, 1972	Reel/reel recorder; or cassette recorder	Any commercial reel/reel or cassette recorder	Lois Lehman
Using the Education Library (Education Reference Sources)	How to use: ERIC, ERIC, ERIC, ERIC; 25 minutes	Instruction in educational research	Local, I.U.	June, 1973	Reel/reel recorder	Any commercial reel/reel recorder	Lois Lehman
Journalism Reading Room							
Tour of Main Library for Journalism Students	Adoption of Main Library to needs of Journalism students, accompanied by handouts	Assist patrons in Journalism Reading Room	Local, I.U.	Fall, 1971	35mm projector; cassette recorder; rearview screen unit	Kodak 35mm projector; any cassette recorder; 375 dollars per unit	Jeff Martensfeld Journalism 337-4534
ERIC Library							
Music Library Orientation Program	Slide/tape program	New student orientation; assist patrons of Music Library; Training program for new student employees	Local, I.U.	1974	Slide projector; cassette recorder	Commercial slide projector; commercial cassette recorder	David Fenske Music Library 337-4240
I.U.-Pt. Wayne							
Instructional Tour of the Library	Using the I.U.-Pt. Wayne Library	Instruction in use of the library	Local, I.U.-Pt. Wayne	October, 1973	Slide/tape cassette	Singer Graflex Caramate; Slides/tape cassette; 299.00 dollars	Ruth Krus I.U.-Pt. Wayne 3467
IUPUI, Indianapolis							
School of Dentistry Library							
Index to Dental Literature	Tape recording on use of Dental Literature	Assist patrons in using Dental Literature	Local, IUPUI	Unknown	Cassette recorder	Any commercial tape recorder (cassette)	Elen Caspell School of Dentistry Library, 7204

NAME OF PROGRAM	DESCRIPTION (Summary)	CURRENT USE	PROGRAM AND SOURCE COST	DATE PROGRAM PRODUCED	EQUIPMENT NEEDED	EQUIPMENT SOURCE, COST	FOR FURTHER INFORMATION CONTACT:
<u>Indiagopolis Law School Library</u>							
Legal Bibliography	How to use and interrelationships of law materials	Instruction for Law Library Patrons	Local, IUPUI	1973	Overhead projector	Commercial overhead projector	Christine Stearns Law Library, IUPUI 6028
<u>School of Medicine Library</u>							
Chemical Abstracts	How to use Chemical Abstracts	School of Medicine Library patrons	Local, IUPUI	January, 1968	Video recorder and video monitor	Aspek video recorder and video monitor	Elaine Whittinger School of Medicine Library, IUPUI
Cumulative Index to Nursing Literature	Nursing literature bibliography	School of Medicine Library patrons	Local, IUPUI	August, 1968	Video recorder and video monitor	Aspek video recorder and video monitor	Elaine Whittinger
Index Medicus	Guide to Index Medicus	School of Medicine Library patrons	Local, IUPUI	August, 1968	Video recorder and video monitor	Aspek video recorder and video monitor	Elaine Whittinger
International Nursing Index	International Nursing literature bibliography	School of Medicine Library patrons	Local, IUPUI	August, 1968	Video recorder and video monitor	Aspek video recorder and video monitor	Elaine Whittinger
Library Orientations	An introduction to the School of Medicine Library	School of Medicine Library patrons	Local, IUPUI	July, 1968	Video recorder and video monitor	Aspek video recorder and video monitor	Elaine Whittinger
<u>IU, South Bend</u>							
Tour of IUSB Library	Audio walking tour of library	IUSB Library patrons	Local, IUSB	May, 1973	Cassette recorder	Any commercial cassette recorder	Kathryn Large Reference

## Appendix C

Library Instruction A-V Programs  
I. U. System

## I.U. BLOOMINGTON

## Main Library

1. Locating Materials, a slide/tape automated program in a stationary carrel designed to assist users in the Main Library. Locally produced in 1973. Requires a carousel slide projector and a cassette tape recorder. Approximate cost for one modified carrel with automated program: \$600.
2. Periodical Indexes, a slide/tape automated program in a stationary carrel designed to assist users of the Main Library in using periodical indexes. Locally adapted in 1974 at a cost of \$35 from a film produced at Northern Illinois University. Requires a carousel slide projector and a cassette tape recorder. Approximate equipment cost: \$600.
3. Public Card Catalog, a slide/tape automated program in a stationary carrel designed to assist users of the Main Library in using the card catalog. Locally produced in 1972, and revised in 1974. Requires a carousel slide projector and a cassette tape recorder. Approximate equipment cost: \$600.

## Undergraduate Library

1. Tape Tour, a guided tour of the Main Library, concentrating on the Undergraduate Library. Locally produced in 1974 at a cost of \$120. Requires an audio cassette playback unit.
2. How to Find a Book, an audio tape used in conjunction with catalog card blow-ups, designed to assist in locating books in the Undergraduate Library through the card catalog, including charge-out procedures. Optional Tape Tour station. Locally produced in 1973 at a cost of \$100. Requires an audio cassette playback unit.
3. Researching Term Papers, an audio tape illustrating the use of popular reference sources for researching term papers. Optional Tape Tour station. Locally produced in 1973 at a cost of \$100. Requires an audio cassette playback unit.
4. UGL's Media Center, an audio tape introduction to the Media Center facilities. Optional Tape Tour station. Under production. Requires an audio cassette playback unit.
5. UGL's Periodicals and Periodical Indexes, a sound-slide guide and introduction to UGL's periodicals and indexes. Optional Tape Tour station. Under production. Requires

## I.U. BLOOMINGTON

## Undergraduate Library

a carousel slide projector and a cassette tape recorder.

6. Tracking the Wild Bibliography, a video tape supplemented computer assisted instruction presentation on the PLATO system, providing instruction in identification and location of bibliographies. Under production. Requires a PLATO terminal, a specially modified video tape playback unit, a television monitor or receiver, and a specially developed interface device.

## Biology Library

1. Tour of Biology Library, a cassette tape describing facilities and services of the Biology Library. Locally produced in 1973. Requires an audio cassette playback unit.

## Chemistry Library

1. Beilstein Handbuch der Organischen Chemie, a 15-20 minute slide/sound presentation adapted from a commercial pamphlet. Locally produced in 1972. Requires a 3M sound/slide projector/Recorder which, with the trays and auxiliary equipment, costs \$1,000. (Also available for playback on the Norelco PIP machine.)
2. Chemical Abstracts, a slide/sound presentation adapted from C.A. Services publications. Locally produced in 1972. (Also available for playback on the Norelco PIP machine.)
3. Chemistry Library Tour, a 10 minute slide/sound program to assist Chemistry patrons in the use of the Chemistry Library. Locally produced. Requires a 3M sound/slide projector/recorder.
4. Sadtler Spectra-Treatise, a slide/sound presentation locally adapted from a commercial presentation in 1972 to assist Chemistry patrons in the use of Sadtler Spectra. Requires a 3M sound/slide projector/recorder. (Also available for playback on the Norelco PIP machine.)
5. Science Citation Index, a 17 minute slide/sound presentation adapted from publications of the Institute for Science Information to assist Chemistry patrons in the use of Science Citation Index. Locally produced in 1972. Requires a 3M sound/slide projector/recorder.
6. SDI Service, a 20 minute slide/sound presentation currently being produced locally to explain Chemistry's SDI service. Requires a 3M sound/slide projector/recorder.
7. Using the Card Catalog, a 16 minute slide/sound presentation to assist Chemistry patrons in the use of the card catalog in the Chemistry Library. Locally produced in 1972. Requires a 3M sound/slide projector/recorder.

## I.U. BLOOMINGTON

### Education Reading Room

1. Education Library Services at I.U., a 30 minute video tape designed to acquaint users with Education Reading Room services and facilities. Locally produced. Requires a video tape player and monitor.
2. All About ERIC, a 15 minute filmstrip with reel to reel tape which serves as an introduction to ERIC materials. Produced in 1972 by Photo Lab, Inc., 3825 Georgia Ave. N.W., Washington, D.C. 20011. Requires a filmstrip projector and a reel to reel recorder.
3. Introduction to ERIC, How to Use ERIC, and ERIC Advanced Training Program, a set of 3 color filmstrips and accompanying reel to reel tapes designed to assist users of ERIC materials. Produced by the Center for Research and Development in State Education, Leadership Teaching Research (a division of the Oregon State System of Higher Education. Requires a filmstrip projector and a reel to reel recorder.
4. Instruction for 'PROBE' Computer Search, an 8 minute tape designed to assist patrons in making an ERIC PROBE search. Locally produced in 1972. Requires a reel to reel recorder.
5. Use of the ERIC System, a 6 minute sound-slide overview of using ERIC. Locally produced in 1971. Requires a slide projector and a reel to reel recorder.
6. Print Materials for Teachers, a 10 minute tape designed to assist teachers in selecting materials. Locally produced in 1972. Requires either a reel to reel or cassette recorder.
7. Using the Education Library; Education Reference Sources, a 25 minute tape designed to provide instruction in the use of ERIC, EPIE, NICEM, and DATRIX. Locally produced in 1973. Requires a reel to reel recorder.
8. ERIC: What It Is, How to Use It, a set of 3 filmstrips and cassette tapes produced in 1974 by the ERIC Clearinghouse for Social Studies/ Social Sciences Education of Boulder, Colorado. Requires a filmstrip projector and a cassette recorder.

### Geology Library

1. Geology Library Reference Tools, a slide presentation intended to be an introduction to reference tools in the Geology Library. Originally locally produced in 1966 and currently being updated. Requires a slide projector.

### Graduate Library School Library

1. GLS Library Tape Tour, a 30 minute video tape orientation to the GLS Library, intended for both individual and group viewing. Locally produced in 1975. Requires a one inch reel to reel video tape player and a television monitor.

## I.U. BLOOMINGTON

## Halls of Residence Libraries

1. Orientation to I.U. Libraries, a sound-slide presentation designed for showing to students in the halls of residence. Locally produced in 1975. Requires a slide projector and a cassette recorder.

## Journalism Library

1. Tour of Main Library for Journalism Students, a sound-slide presentation made especially for students of journalism. Locally produced in 1971. Requires a slide projector and a cassette recorder.

## Music Library

1. Music Library Orientation Programs (one for graduate students, another for undergraduates), slide/tape presentations locally produced in 1974 at a cost of \$110, but currently being revised. Requires a slide projector and a cassette recorder.

## IU-PU, FT. WAYNE

1. Instructional Tour of the Library, a slide/tape presentation locally produced in 1973. Requires a Singer Graflex Caramate which was acquired at a cost of \$299.

## IUPUI, INDIANAPOLIS

## School of Dentistry Library

1. Index to Dental Literature, a tape designed to assist patrons in using dental literature. Locally produced. Requires a cassette recorder.

## School of Medicine Library

1. Chemical Abstracts, a video tape presentation on the use of Chemical Abstracts. Locally produced in 1968. Requires a video recorder and monitor.
2. Cumulative Index to Nursing Literature, a video tape presentation. Locally produced in 1968. Requires a video recorder and monitor.
3. Index Medicus, a video tape presentation. Locally produced in 1968. Requires a video recorder and monitor.
4. International Nursing Index, a video tape presentation. Locally produced in 1968. Requires a video recorder and monitor.

## I.U., SOUTH BEND

1. Tour of IUSA Library, an audio walking tour of the library. Locally produced in 1973. Requires a cassette recorder.

**JACKSON STATE COMMUNITY COLLEGE**

Van H. Veatch  
Library Director  
Jackson State Community College  
Jackson, Tennessee 38301

Associate Degree Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: Included as part of an optional course for academic credit
  3. Presentation Access Control: Any group on demand but primarily viewed by freshman orientation class
  4. Presentation Subjects: General Library Orientation (18 minutes) including sections on periodical indexes (3 minutes), card catalog (3 minutes), reference items (3 minutes), and microform items (1 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms
  7. Produced By: The library and audio-visual services
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 300 (freshman) or 16% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: No information provided
  12. Availability: Not adaptable to other libraries
  13. Comments: No additional comments

KEARNEY STATE COLLEGE

Larry Hardesty  
User Services Coordinator  
Calvin T. Ryan Library  
Kearney, Nebraska 68847

Master's Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand
  4. Presentation Subjects: General Library Orientation (8 minutes); ERIC (2 presentations, 7-8 minutes each)
  5. Presented By: Professional librarian
  6. Viewing Locations: In a library classroom
  7. Produced By: The library and audio-visual services
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 400 or 10% of the student body
  10. Evaluation: Evaluated by students through questionnaire completed by users
  11. Equipment: Orientation program: 2 Kodak Carousel Slide Projectors; Wollensak Cassette Tape Play; and a dissolve unit; ERIC programs: Kodak Carousel Slide Projector; and Wollensak Cassette Tape Player
  12. Availability: Adaptable to other libraries; Orientation program available on loan through LOEX of Eastern Michigan
  13. Comments: "Orientation program used as an introduction to a two-week unit on a general library search process in freshman English; not intended to be instruction, but to develop a positive student attitude towards the library."

LESLEY COLLEGE

Lawrence Marble  
Director  
Lesley College Library  
29 Everett Street  
Cambridge, Massachusetts 02138

Master's Granting Institution  
1001-5000 FTE Students  
50,000-100,000 Volumes in the Library

---

1. Purpose of Presentations: Use slide/tapes for orientation
2. Courses Using Presentations: No complete program offered
3. Presentation Access Control: Primarily new students
4. Presentation Subjects: General Library Orientation (7 minutes)
5. Presented By: Professional librarians
6. Viewing Locations: Near library item to be used
7. Produced By: Audio-Visual Services (Approximate cost: \$50)
8. Financed By: The library
9. Number of Viewers/Year: Approximately 200 or 25% of the student body
10. Evaluation: No formal evaluation
11. Equipment: Singer Caramate Slide Projector (playback only)
12. Availability: Not adaptable to other libraries
13. Comments: "The production has been too recently produced to make any comment."

LOS ANGELES TRADE-TECHNICAL COLLEGE

Henry Lash  
Coordinator Institutional Services Center  
Los Angeles Trade-Technical College Library  
400 W. Washington, California 90015

Associate Degree Granting Institution  
5001-10,000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation.
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Faculty, on request
  4. Presentation Subjects: General Library Orientation; Periodical Indexes;  
Card Catalog; Reference Items
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms
  7. Produced By: The library and audio-visual services
  8. Financed By: The library and audio-visual services
  9. Number of Viewers/Year: Approximately 100 or 5% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: No information provided
  12. Availability: Adaptable to other libraries
  13. Comments: "Not as flexible as special tailor-made lectures"

MACOMB COUNTY COMMUNITY COLLEGE

Barbara Colinsworth  
Associate Dean, Learning Resource Center  
Center Campus Library  
16500 Hall Rd.  
Mt. Clemens, MI 48043

Associate Degree Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on only a few major library items
  2. Courses Using Presentations: Part of an academic credit class
  3. Presentation Access Control: Any user or group on demand; "Several slide/tape programs are located in the open learning center-- students may select to use them at any time."
  4. Presentation Subjects: Readers' Guide and Ready Reference, 9 minutes; Card Catalog, 14 minutes; Reference Collection, 18 minutes, Research Paper, 15 minutes; Encyclopedias, 3 presentations (14, 19, and 18 minutes long)
  5. Presented By: Individual views presentations without assistance
  6. Viewing Locations: In learning labs
  7. Produced By: Library Filmstrip Center (7.50 each)
  8. Financed By: The library
  9. Number of Viewers/Year: Information not provided
  10. Evaluation: No formal evaluation
  11. Equipment: Information not provided
  12. Availability: All items used available from Library Filmstrip Center, 3033 Aloma, Wichita, Kansas 67211
  13. Comments: "We have used only commercially available slide/tape, therefore the material is general in nature..." Library orientation is given by professional librarian on duty.

MADISON AREA TECHNICAL COLLEGE

Mrs. Janet Jeffcott  
Librarian  
Technical Center  
211 N. Carroll Street  
Madison, Wisconsin 53701

Associate Degree Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction
  2. Courses Using Presentations: Use in optional course for non-credit; "participation is virtually 100%"
  3. Presentation Access Control: Any group on demand
  4. Presentation Subjects: Periodical Indexes; Card Catalog; and Reference Items
  5. Presented By: Library support staff member
  6. Viewing Locations: Near library item to be used
  7. Produced By: The library and audio-visual services
  8. Financed By: The college
  9. Number of Viewers/Year: Approximately 1200 or 100% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through formal tests of users
  11. Equipment: Information not provided
  12. Availability: Some presentations are adaptable to other libraries; availability not indicated
  13. Comments: No additional comments

MANKATO STATE COLLEGE

Dale K. Carrison  
Director of Libraries  
Mankato, Minnesota 56001

Master's Granting Institution  
5001-10,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation; program in process (May 19, 1975) to use slide/tapes for complete program of library instruction
  2. Courses Using Presentations: Optional course for academic credit
  3. Presentation Access Control: Any user or group on demand; subject oriented classes; and students enrolled in optional course for academic credit
  4. Presentation Subjects: Complete information available upon request
  5. Presented By: Professional librarian, library support staff member, or individual views presentation without assistance
  6. Viewing Locations: Mainly viewed near library item to be used
  7. Produced By: The library; no cost statistics available
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 1,500 or 14% of the student body
  10. Evaluation: Evaluation by librarians, classroom instructors, and students through questionnaires completed by users and interviewing users
  11. Equipment: Caramate unit, standard slide projector, and cassette playback unit
  12. Availability: Most presentations are adaptable to other libraries and for sale for duplication costs
  13. Comments: "Works well-evaluation is generally positive"

December 4, 1975

Mr. Larry Hardesty  
Reference Librarian  
DePauw University  
Greencastle, Indiana 46135

Dear Mr. Hardesty:

Here is an updated listing of our library instruction kits, all of which may, for convenience, be grouped into five general categories. These packages have been utilized with varying degrees of success. Some, quite honestly, have not lived up to our expectations; therefore, for what it's worth, I have also included an overall evaluation, based on an arbitrary, subjective scale of one (1) through five (5), from highly useful through very questionable value.

<u>TYPE</u>	<u>INTENDED AUDIENCE</u>	<u>FORMAT</u>	<u>EVALUATION</u>
<u>1. Facilities/Collections</u>			
Curriculum	USERS	Audiotape	3
Educational Resource Center	USERS	Audiotape	2
Government Publications	USERS	CARAMATE	2
Library tour	USERS	Audiotape	1
Map Collection	USERS	Audiotape	1
Minnesota collection	USERS	Audiotape	2
State and Urban	USERS	CARAMATE	NEW
United Nations	USERS	CARAMATE	NEW
<u>2. Inservice for staff</u>			
Media System Orientation	staff, especially part-time workers	CARAMATE	1
Regular book circulation		CARAMATE	1

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

Katharine G. Cipolla  
Media Services Librarian  
Barker Engineering Library  
Room 10-500 MIT  
Cambridge, Massachusetts 02139

Doctorate Granting Institution  
5001-10,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: General Library Orientation (5 minutes); Engineering Index (3 minutes); NASA STAR/ International Aerospace Abstracts (5 minutes); Author/Title Card Catalog (3 minutes); Subject Card Catalog (3 minutes)
  5. Presented By: Individual views presentations without assistance
  6. Viewing Locations: Near library item to be used
  7. Produced By: The library (Approximate cost: \$700 each including viewer)
  8. Financed By: Grant funding
  9. Number of Viewers/Year: "No way to know"
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through questionnaire completed by user
  11. Equipment: Specially designed at MIT
  12. Availability: Engineering Index Program is currently in use elsewhere and is available for loan for duplication; others are specific to this institution
  13. Comments: "Our evaluation shows a clear preference for audio tapes with annotated "sample pages" from the item discussed, over tape/slide presentations." Slide/tapes "useful for orientation to the library and collections-adaptable to catalog instruction."

## PROGRAMS AVAILABLE FOR LOAN AND DUPLICATION

### "Barker Engineering Library Subject Catalog"

2½ minutes

synchronized sound-slide program

The program is a brief introduction for the new user of the library. No attempt is made to cover the wide range of individual, complex problems that can arise.

### "Barker Engineering Library Author-Title Catalog"

2½ minutes

synchronized sound-slide program

This program was made with the same intent as the program on the Subject Catalog.

### Engineering Index

3 minutes

synchronized sound-slide program

Discusses scope and arrangement of Engineering Index with some emphasis on subject headings; citation content; and the author index.

### NASA STAR

5 minutes

audio program with sample pages

Discusses scope and arrangement of STAR and its use as a current awareness tool and as a retrospective searching tool.

### Science Citation Index

5½ minutes

audio program with sample pages

This program emphasizes the Citation Index with less discussion of the Source Index and the Permuterm Index.

### Chemical Abstracts

10 minutes

audio program with sample pages

Brief introduction to the Index Guide, Subject Index, weekly Keyword Subject Index, Author Index, Formula Index, Index of Ring Systems, and HAIC Index.

### International Aerospace Abstracts/NASA STAR

9 minutes

audio program with sample pages

Discusses the similarities in format, information access, and type of literature indexed and abstracted in STAR and IAA, with emphasis on the subject indexes.

### Government Reports Index

7 minutes

audio program with sample pages

Discusses access to report literature via Government Reports Announcements and Government Reports Index.

MCMMASTER UNIVERSITY

Tafila A. Spence  
Orientation Librarian  
Mills Memorial Library  
Hamilton, Ontario, Canada L8S 4L6

Doctorate Granting Institution  
10,001-15,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: General Library Orientation (12 minutes; currently being edited down to 8 minutes)
  5. Presented By: Individual may view presentation without assistance
  6. Viewing Locations: In classrooms and in the library
  7. Produced By: Audio-Visual Services (\$350 plus library staff time for original; \$100 annual updating costs, plus library staff time)
  8. Financed By: the library
  9. Number of Viewers/Year: Approximately 1,000 or 9% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through interviewing users
  11. Equipment: For large groups: 2 Kodak Carousel Ektagraphic Slide Projectors; Kodak Carousel Dissolve Control Model 1; Sony TC 252 Stereo Reel-to-Reel Tape Recorder
  12. Availability: For individual viewing: Use 16mm film/strip sound cart. Not adaptable to other libraries
  13. Comments: "Comments from users and instructors have been all very positive. Some of their criticism is...particular sections were too long. The general opinion is that the program is both entertaining and informative, but perhaps we are trying to do too much in one session."

MIAMI-DADE COMMUNITY COLLEGE

Mary Malcolm  
Librarian  
North Campus  
11380 N.W. 27 Ave.  
Miami, Florida 33167

Associate Degree Granting Institution  
15,001-20,000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Two of three programs are directed to any user on demand, but the program that gets the most use is directed to freshman orientation classes
  4. Presentation Subjects: General Library Orientation: "Where To Get Smart With Really Trying" (15 minutes); "Getting Started on Library Research," and "Research Paper" (3 parts)
  5. Presented By: Classroom faculty
  6. Viewing Locations: In classrooms
  7. Produced By: Audio-Visual Services
  8. Financed By: The library and audio-visual services
  9. Number of Viewers/Year: Approximately 6000 or 34% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students by a critique by faculty at a preview showing and questionnaire completed by users
  11. Equipment: "Hardware is custom-built to our specifications" Use reel-to-reel tape recorder and two Kodak Carousel Model B-2 or 580 Slide Projectors with synchronization
  12. Availability: "As to content, 2 could be adapted" Inquire as to availability
  13. Comments: "Good color photography, carefully-selected music, professional narration, and care taken to make programs brief but informative have helped to make them generally appealing." Some technical problems; students ranked physical introduction to the library first of the presentation

MIAMI-DADE COMMUNITY COLLEGE

Susan Gray  
Librarian/Readers' Service  
South Campus  
11011 S.W. 104 Street  
Miami Florida 33176

Associate Degree Granting Institution  
5001-10,000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily freshman English classes
  4. Presentation Subjects: General Library Orientation entitled "Introduction to Library Research" (30 minutes); "Guide to Research Writing"
  5. Presented By: Classroom faculty
  6. Viewing Locations: In classrooms
  7. Produced By: Audio-Visual Services
  8. Financed By: Audio-Visual Services
  9. Number of Viewers/Year: Information not available
  10. Evaluation: Evaluated by librarians and classroom instructors; "All interested faculty were invited to view and criticize them before they were ever used in the classroom."
  11. Equipment: AF-2 Kodak Carousel Slide Projector; Sony 230 reel-to-reel tape recorder
  12. Availability: Adaptable to other libraries, but presently not available
  13. Comments: "When the slide/tape was transferred to videotape, the use declined. We would like to do more with slide/tapes in the way of shorter presentations on specific sources as time, staff and money permits."

UNIVERSITY OF MICHIGAN

Sheila Rice  
Orientation/Instruction Librarian  
Undergraduate Library  
Ann Arbor, Michigan 48104

Doctorate Granting Institution  
30,000+ FTE Students  
500,000+ Volumes in the Library System.

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily new students: freshman, transfer students, incoming graduate students
  4. Presentation Subjects: General Library Orientation with descriptions of the parts of the library system
  5. Presented By: Orientation committee
  6. Viewing Locations: Information not provided
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 1200 or 20%-25% of the new students
  10. Evaluation: Informally by the library staff
  11. Equipment: Kodak Carousel Slide Projector; and unspecified tape recorder
  12. Availability: No adaptable to other libraries
  13. Comments: "We have not and probably will not develop much in the way of mediated instruction in the near future. At present, I am much more involved in do-it-yourself that are primarily printed: signs, guides, workbooks, etc." Can be viewed by large audience, but often try to present more than can possibly be conveyed.

MICHIGAN STATE UNIVERSITY

Clarice C. Dawson  
Undergraduate Librarian  
Michigan State University Library  
East Lansing, Michigan 48824

Doctorate Granting Institution  
30,000+ FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily freshman
  4. Presentation Subjects: General Library Orientation
  5. Presented By: Professional librarian
  6. Viewing Locations: Near library item to be used
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 2000-3000 or 12-14% of the student body (including users of an audio tape walking tour)
  10. Evaluation: No formal evaluation
  11. Equipment: "Use a carousel projector and a cassette tape player. It's not automatic-it has to be switched manually"
  12. Availability: Not adaptable to other libraries
  13. Comments: "We have not used our slide/tape as much this year as we did. It's a little out of date."  
An audio walking tour aimed at the disadvantaged student is available at the reference desk.

UNIVERSITY OF MISSOURI-COLUMBIA

Mary Ryan  
Undergraduate Librarian  
Elmer Ellis Library  
Columbia, Missouri 63105

Doctorate Granting Institution  
20,001-30,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Do not use slide/tapes; "For the past 5 years we have use 3-M Sound On Slide system for orientation and for instruction on only a few major library items"
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand
  4. Presentation Subjects: General Library Orientation (10 minutes); Readers' Guide (5 minutes); Card Catalog (3 minutes)
  5. Presented By: Professional librarian and/or support staff member depending upon program
  6. Viewing Locations: In library conference room for small groups; in undergraduate library for orientation
  7. Produced By: The library and audio-visual service
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 200-300 or 1% to 2% of the student body
  10. Evaluation: Evaluated by librarians and students through questionnaires completed by users
  11. Equipment: 3-M Brand Model 525 Projector Recorder and sound on slide cartridge
  12. Availability: Not available for loan; "about 90% is unique to our subject divided library"
  13. Comments: "Sound on Slide system rather than a tape program allows information to be easily updated. It also allows editing out of portions for briefer presentations if desired. The media presentations, we have found, needs to be supplemented by discussions and walking tours of the library during orientation to be effective."

MONTGOMERY COLLEGE

Juan Elbers  
Library Instruction Librarian  
Rockville Campus Library  
Rockville, Maryland 20850

Associate Degree Granting Institution  
5001-10,000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand; primarily freshman students
  4. Presentation Subjects: General Library Orientation (10 minutes)
  5. Presented By: Individual may view presentation without assistance
  6. Viewing Locations: In the library
  7. Produced By: Audio-Visual Services
  8. Financed By: Audio-Visual Services
  9. Number of Viewers/Year: Approximately 300 or 4% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through completion of a worksheet and a questionnaire
  11. Equipment: Information not given
  12. Availability: Not adaptable to other libraries
  13. Comments: "Our slide/tape has been successful as an orientation device. It relieves librarians from repeating simple location and organization information to group after group... However, used alone-without the Library Handbook and librarian involvement-it is not a successful teaching device..."

MORaine VALLEY COMMUNITY COLLEGE

Elizabeth Teo  
Assistant Librarian  
Moraine Valley Community College Library  
Palos Hills, Illinois 60465

Associate Degree Granting Institution  
5001-10,000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on only a few major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation including 5 minutes on overall location of materials, 3 minutes on Readers' Guide, 2 minutes on card catalog, 1 minute on reference items, and 1 minute on audiovisual resources; also separate filmstrip on Readers' Guide
  5. Presented By: Professional librarian
  6. Viewing Locations: Near library item to be used
  7. Produced By: General Library Orientation: the library (\$25 for materials and 35 hours labor) and audio-visual services (\$10); Readers' Guide from Library Filmstrip Center (\$20)
  8. Financed By: The library and audiovisual services
  9. Number of Viewers/Year: Approximately 1700 or 19% of the student body
  10. Evaluation: Optional test is available
  11. Equipment: Kodak Ektagraphic slide projector model AF-2, Sound-O-Matic I synchronized cassette player by Optisonics
  12. Availability: Not adaptable to other libraries
  13. Comments: "The slide-cassette program developed and used at Moraine is intended as a short general introduction to the resources of the library, to be supplemented with personal instruction by the library staff..."

UNIVERSITY OF NEW MEXICO

Mack Homestead  
Coordinator of Orientation  
Zimmerman Library  
Albuquerque, New Mexico 87131

Doctorate Granting Institution  
15,001-20,000 FTE Students  
500,000+ Volumes in the Library

- 
1. Purpose of Presentations: In the process (May 21, 1975) of completing a slide/tape presentation for tour of the library and instruction on major library items
  2. Courses Using Presentations: No complete program offered.
  3. Presentation Access Control: Any group on demand
  4. Presentation Subjects: General Library Tour, including periodical indexes, card catalog, reference items, government documents, and microform items (40 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: Large theatre and classrooms
  7. Produced By: The library with instructional media center's cooperation (Approximate cost: \$212)
  8. Financed By: The library
  9. Number of Viewers/Year: Plan for approximately 2,000 to 4,000+ or 20% to 50% of the student body
  10. Evaluation: Not finished yet
  11. Equipment: Information not provided
  12. Availability: When finished it will be adaptable to other libraries and ought to be available for loan or sale
  13. Comments: "believe it is a creative non-hackneyed one although the proof will lie with the finished product."

NEW YORK UNIVERSITY

Lou Pzarson and Gerald Zaslarsky  
Reference Librarians  
Bobst Library  
70 Washington St. S.  
New York, New York 10012

Doctorate Granting Institution  
30,000+ FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand; used for orientation day showings
  4. Presentation Subjects: General Library Orientation (12 minutes); Reference Items (10 minutes); Instructional Materials (9 minutes)
  5. Presented By: Library support staff member; professional librarian
  6. Viewing Locations: General Library Orientation: on library mezzanine  
Instructional Materials: in Instructional Materials Center
  7. Produced By: Instructional Material Center and Library  
(approximate cost for each: \$500)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 5 to 10% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through interviewing users
  11. Equipment: Kodak Ektagraphic Projectors; Wollensak Cassette Recorder 2551; Wollensak Dissolve Unit AV33
  12. Availability: Not adaptable to other libraries; available for loan, for loan for duplication, and for sale; for specific price contact Gerald Zaslarsky
  13. Comments: "Use of programs gives us exactly the message that needs to be conveyed to students. It also frees staff from repetition of giving same speeches. Most difficulty in obtaining agreement as to content of programs."

NORTH CAROLINA CENTRAL UNIVERSITY

Miss Pennie E. Perry  
Chief Librarian  
James E. Shepard Memorial Library  
Durham, North Carolina 27707

Master's Granting Institution  
1001-5000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily new students
  4. Presentation Subjects: General Library Orientation (15 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: Near library item to be used
  7. Produced By: The library and audio-visual services
  8. Financed By: The library
  9. Number of Viewers/Year: Information not provided
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through formal test of users and questionnaires completed by users
  11. Equipment: Information not provided
  12. Availability: Not adaptable to other libraries
  13. Comments: "Our presentation introduces the student to the staff, shows where materials are located in the library, and gives a brief summary of some uses of specific materials. The presentation needs updating."

NORTH CAROLINA STATE UNIVERSITY AT RALEIGH

D.H. Hill Library  
Raleigh, North Carolina 27607

Doctorate Granting Institution  
15,001-20,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation; Use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily new students and Freshman English classes
  4. Presentation Subjects: General Library Orientation (25 minutes total with 10 minutes on periodical indexes, 5 minutes on card catalog, 5 minutes on government documents)  
Periodical Indexes (28 minutes with periodical indexes 20 minutes, card catalog 3 minutes, gov. doc. 5 minutes)
  5. Presented By: Library support staff member
  6. Viewing Locations: Small theater in the library
  7. Produced By: The library produced the General Library Orientation presentation; the program on periodicals and library indexes is adapted from a commercial program from University of Illinois. "We did our own tape and inserted slides of our library."
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 3,000 or 20% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through questionnaires completed by users and interviewing users
  11. Equipment: Information not provided
  12. Availability: Program on indexes is adaptable, but not available at this time
  13. Comments: "We have had a favorable response to the slide/tape program, but people still want a walk-around tour. Mainly because a card catalog looks like a card catalog, etc., and people need to know how to physically locate places."

NORTH DAKOTA STATE UNIVERSITY

Michael M. Miller  
Instructional Services Librarian  
North Dakota State University Library  
Fargo, North Dakota 58102

Doctorate Granting Institution  
5001-10,000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation (20 minutes); Periodical Indexes (10 minutes); Card Catalog (10 minutes); Government Documents (10 minutes); and ERIC (15 minutes)
  5. Presented By: Professional librarian or individual may view presentations without assistance
  6. Viewing Locations: In classrooms and in carrels
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 1500 or 35%-45% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through questionnaires completed by users and interviewing users
  11. Equipment: Optisonic Tape Pulsing Recorder; Kodak Ektagraphic Slide Projector
  12. Availability: Adaptable to other libraries; additional information available on request; scripts, slides, and tapes are available for purchase
  13. Comments: "Because of the lack of staff, we have done little actual test evaluation ourselves, however, when the program was used in the classroom, instructors . . . included questions in their tests." Programs will be successful only if the librarians most closely related to individual or group instruction will make use and promote them.

# NORTH DAKOTA STATE UNIVERSITY

Fargo, North Dakota 58102

THE LIBRARY

Thank you for your interest in our Library Instruction Slide and Tape Programs.

The programs have been designed specifically for use here at the North Dakota State University Library. However, they could be well adapted to fit the needs of other libraries.

Many of the requests about our programs suggest sending the materials on preview. We wish that we could provide such preview privileges; however, economically this will not be possible. If your library is seriously considering purchasing our programs, then we will try to make an exception and send you our preview set. As you will note, the programs can be purchased with the tape and script separately.

In finalizing our cost figures for the programs, we evaluated the amount of time and effort, labor, photography and other factors it took to produce the programs. The following includes the cost for the programs:

THE MONTHLY CATALOG -- WHAT'S IT ALL ABOUT? (40 slides, 1 cassette tape, written script, \$23); (cassette tape and written script only, \$10).

THE CARD CATALOG -- WHAT'S IN IT? (64 slides, 1 cassette tape, written script, \$32.60); (cassette tape and written script only, \$10.00).

PERIODICALS AND THEIR USE! (62 slides, 1 cassette tape, written script, \$31.80); (cassette tape and written script only, \$10).

YOU AND YOUR UNIVERSITY LIBRARY! (90 slides, 1 cassette tape, written script, \$43); (cassette tape and written script only, \$10).

The programs were featured at the 1972 American Library Association Conference in Chicago at the "Library Instruction Clinic" and at the 1974 Canadian Library Conference in Winnipeg.

Further information is also enclosed that may be of some assistance to you.

Best wishes for a successful library instruction program. If I can be of any assistance, please let me know.

Sincerely yours

Michael M. Miller  
Instructional Services Librarian  
Telephone: 701-237-8876

110

9/1972

NORTH DAKOTA STATE UNIVERSITY'S LIBRARY INSTRUCTION PROGRAM  
North Dakota State University Library  
Fargo, North Dakota 58102  
(701) 237-8876

I am pleased to give you further information about the NDSU Library Instruction Program regarding its development and use. To those of you who stopped at the Library Instruction Clinic during the American Library Association Conference in June at Chicago, I say thank you for your interesting and favorable comments.

Attempting to answer most of the questions received, I shall single out those most often asked:

WHAT TYPE OF EQUIPMENT ARE WE USING?

Presently we are using the slide/tape programs with a Kodak Automatic Focus Extagraphic Projector. It is important that the projector used has automatic focus, since the cassette tape has been pulsed to automatically move the slides. However, if you already have other Kodak projectors, the system will still work. We use a Sound-o-Matic Cassette Programmer Recorder produced by Optisonics Corporation. Perhaps one of your local media dealers has this available. There are, of course, other cassette programmers, but for the cost, sound and useability this recorder has been found to be most satisfactory. The recorder has a silent pulsing unit which is easy to handle. For costs, consult an audio-visual dealer. It is important to remember that close proximity for equipment repairs is a point to consider.

HOW IS THE PROGRAM PRESENTED WITH LARGE GROUPS?

Initially, one projector was used with the Optisonics Recorder with the appropriate size lens. To add a further dimension to the programs, the Kodak Dissolve Control Unit was added; perhaps you have seen this used. It provides the ability for a more professional looking program where the slides have a fading effect with the new slide appearing slowly onto the screen. To use a dissolve control, however, two Extagraphic projectors are needed which are connected to the dissolve control. The Optisonic recorder is plugged into the dissolve control automatically moving the complete program. We feel the dissolve control has certainly enhanced our programs!

WHAT TYPE OF BACKGROUND MUSIC DID WE USE AND WHO DID THE NARRATION?

After carefully listening to music at a local radio station's record library, I found soft sounding instrumental music such as the following to be most appropriate: Paul Mauriat, Charlie Byrd, Percy Faith, Hollyridge Strings and Roger Williams. Our programs are geared to the undergraduate student; therefore, background music that he can identify himself with was included....this means the slower songs of popular music.

May I suggest that when taping a program leave time at the beginning and at the end of the program for music without narration, perhaps 20 seconds each. This allows for the viewer to get settled as well as quieting the audience before the actual narration. I may not be making myself clear, but I have found this to work effectively.

Initially, we were fortunate to have an excellent campus radio announcer for narration. Now we are using student voices (male and female) suggested by the Speech Department. The interest has been most enthusiastic; students know this is

valuable learning experience. The facilities of the FM-Stereo campus station is available for recording. If you don't have a campus radio station, inquire at the local stations or with persons in the community who have good recording equipment. They can give you many suggestions for recording sessions.

We found our narrators sometimes moving along too quickly, thus not providing enough time for the slides to be changed. Slides moving too quickly can detract from an otherwise good program. When using a Kodak Dissolve Control, more time is also needed for changing slides.

#### IS IT POSSIBLE TO VIEW OUR PROGRAMS?

Unfortunately, we do not have complete duplicate slide sets of each program that we use. I would be hesitant to send our slides of the present programs at this time; the programs are being used frequently. However, I may make some exceptions in the future. The cost for duplicating the slides would be 25¢ for each slide. These are the number of slides in our completed programs: "You and Your University Library" -- 100 slides; "The Monthly Catalog--What's It All About?" -- 39 slides; "Periodicals and Their Use!" -- 60 slides; and "The Card Catalog--What's In It?" -- 62 slides. The cost for duplicating each cassette tape is \$3.50.

I believe our programs could be adaptable to most library situations with changes to meet the local situation.

#### WOULD WE CONSIDER SOME COOPERATIVE ARRANGEMENTS?

Yes, definitely! When we began our Library Instruction Media Program in 1971 we looked at what was being done elsewhere; cooperative efforts were begun which helped in our planning and development. It takes much thought and time in developing a slide/tape program; this letter is a source of cooperation. Many have asked for copies of our scripts; copies are enclosed. We do hope that when you develop your programs you will send your scripts. We are most interested in programs not covered in the enclosed scripts regarding specific areas of reference, specific abstracts, and so forth.

Our cassette tapes are presently being revised for new tapings; copies can be sent to you later.

#### WHAT ABOUT OUR ERIC SLIDE/TAPE PROGRAM?

Initially we wrote our own script, but then we discovered the ERIC Clearinghouse at the University of Colorado had completed a program specifically for their CHES Clearinghouse for public sale. We previewed it and decided to purchase it at \$30.00, which is not expensive considering 60 slides and a cassette tape included. There is no background music, and the program has been done very well in a humorous fashion. The address is Social Science Education Consortium, Inc., 855 Broadway, Boulder, Colorado 80302.

The National Audiovisual Center, Washington, D. C. 20409 has available a set of three filmstrips and accompanying record on the use of ERIC--Introduction to ERIC, How To Use ERIC, and ERIC Advanced Training Program...all for \$5.00. They do need up-dating but are a good beginning in your planning efforts for an ERIC program. I believe that a new program has been developed but am not certain.

### WHAT ABOUT OUR SELF-GUIDED TOUR?

A copy of the tour is enclosed. A student from the Speech Department did the narration.

We have found this also to be popular with our students. Immediately at the entrance to the Library, a floor sign tells about the self-guided tour and the slide/tape programs; this has been one of our most effective methods of promotion besides just leaving on the slide/tape programs with students stopping to watch.

You can use earphones with the self-guided tour, but thus far we haven't had need to use them. Using light weight tape recorders the students listen directly to the recorder, the factor of the volume being too loud has not been noticeable.

### WHERE CAN WE GET FURTHER INFORMATION?

Read the article by Verna V. Melum of Northern Illinois University, who has been a leader with library instruction, in the Wilson Library Bulletin, September, 1971, pages 59-66, titled "Library Orientation in the College and University." It will be well worth the time.

NIU has also developed a program for sale on library indexes in subject fields with 80 slides or filmstrip and tape for \$30.00. Write to Northern Illinois University, Communications Services, Room 115-A, Altgeld Hall, Dekalb, Illinois 60115 for more information.

The ALA Committee on Instruction in the Use of Libraries sponsored the SHOW AND TELL "A Clinic on Using Media in Library Instruction" at ALA in Chicago. A good brochure was produced; for more information and to receive the brochure write to ACRL Committee on Library Instruction, American Library Assn., 50 East Huron Street, Chicago, Illinois 60611. The clinic proved to be one of the "hottest" items at the conference.

The Technological Applications Project at Box 1028, Corvallis, Oregon 97330 should have some interesting materials available for dissemination. Included will be multi-media library instruction programs from around the country.

A clearinghouse for information on Library Use and Instruction is being developed at Eastern Michigan University Library. It's called LOEX (Library Orientation Exchange). To participate in the Project LOEX, request a questionnaire from: Mary Butterfield, Project LOEX, University Library, Eastern Michigan University, Ypsilanti, Michigan 48197. Note page 221 of the September, 1972, issue of College and Research Libraries News.

Irving Lieberman developed a working bibliography of commercially available audio-visual materials for the teaching of library science. You'll find it in the University of Illinois, Graduate School of Library Science, Occasional Papers, no. 94. It may be of some assistance even though it is four years old.

My article in the Mountain-Plains Library Quarterly, May, 1972, pages 22-24, presents further ideas and locations.

You may want to look at copies of the Drexel Library Quarterly, which presents articles on Library Instruction. Note the July/October, 1971, issue titled

"Academic Library Instruction--A Bibliography 1960-1970." Watch for a new edition concerning Library Instruction.

Besides reviewing research through Library Literature, consult Current Index to Journals in Education under the subject heading "Library Instruction;" you'll find an excellent list of articles.

CAN YOU HELP US?

Yes, you certainly can! Let me know developments and media programs in your area and what you are doing.

It was a pleasure telling you about what we are doing.

My very best wishes.

Michael M. Miller  
Instructional Services  
North Dakota State University Library  
Fargo, North Dakota 58102

SOME ADDITIONAL NOTES AND ANSWERS....

HOW MUCH DID IT COST TO EQUIP ONE OF OUR CARRELS?

The approximate cost, including the Kodak projector, Optisonics tape recorder, outlets and carrel construction, was \$525.00.

HOW MANY STUDENTS USUALLY VIEW THE PROGRAM AT ONE TIME?

One, two or three students, and if more than one person is watching a program with another program being viewed, then we have the students use earphones.

HOW MANY STUDENTS HAVE VIEWED THE PROGRAMS?

Including the large and small classroom presentations, about 3,000 have viewed the general program You and Your University Library; our enrollment is 6,500. The specific programs such as Periodicals and Their Use are used on an individual basis and sometimes in the classroom.

DOES YOUR EQUIPMENT RETURN ITSELF TO STARTING POSITION AUTOMATICALLY?

The cassette tape has been pulsed so that the last slide shown in the program becomes the first slide once again. However, if the program is stopped before the complete program has been viewed, then manual re-setting is required.

ARE HEADPHONES USED?

Yes, when more than one program is viewed at the same time.

HOW DO WE RATE THE ADVANTAGES OF THE SELF-GUIDED TOUR VS. THE SLIDE/TAPE PRESENTATIONS?

The slide/tape programs were developed for the purposes of presenting an over-all concept for the student unfamiliar with a University Library. The first program, You and Your University Library, stresses the Library as the center of learning and an academic service of the university. The tour provides the opportunity for the patron to actually see the physical arrangement of the Library. We encourage students to first view the slide/tape program and then take the tour.

Should you need more information about our Library Instruction Program, please feel free to write.

Michael M. Miller  
Instructional Services  
North Dakota State University Library  
Fargo, North Dakota 58102

NORTHEASTERN UNIVERSITY

Arlíne Willar  
Assistant Librarian for Public Service  
Dodge Library  
360 Huntington Ave.  
Boston, Massachusetts 02115

Doctorate Granting Institution  
30,000+ FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily freshman classes, but used in a variety of courses
  4. Presentation Subjects: General Library Orientation (20 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms and learning labs
  7. Produced By: The library and audio-visual services
  8. Financed By: Audio-Visual Services
  9. Number of Viewers/Year: Approximately 3000 or 10% of the student body
  10. Evaluation: Evaluated by librarians and students through use of user questionnaires and formal testing
  11. Equipment: Panasonic Tape Recorder; Kodak Carousel Slide Projector and Programmer
  12. Availability: Not adaptable to other libraries
  13. Comments: "From one year of evaluations we slowed the timing of slide changes. We are now in the midst of redesigning our program based on that result. We do not have a formal evaluation as yet. We use test scores to determine how much students have learned."

NORTHERN ILLINOIS UNIVERSITY

Maurine I. Cottew  
Reference and Orientation  
University Libraries  
DeKalb, Illinois 60115

Doctorate Granting Institution  
15,001-20,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items; use sound filmstrip
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand; shown to classes at professors' request
  4. Presentation Subjects: Periodical Indexes (10 minutes) includes eight major indexes
  5. Presented By: Professional librarian; classroom faculty
  6. Viewing Locations: In library classroom
  7. Produced By: The library and audio-visual services together (Approximate costs: Supplies, \$55, Camera, \$125; Slide Projector, \$125; Tape Recorder, \$160; Narrator, \$25; Lab Processing Slide Sequences To Filmstrip And Answer Print, \$75; Photography and art labor not included)
  8. Financed By: The library and audio-visual services together
  9. Number of Viewers/Year: Approximately 300-500 or 1-2% of the student body
  10. Evaluation: "When it was first done test scores before and after were compared--favorable results. Now we depend on faculty & student feedback."
  11. Equipment: Additional information available upon request
  12. Availability: Adaptable to other libraries and available for loan to preview or for sale; additional information available upon request; as filmstrip and record: \$15.
  13. Comments: Additional information available upon request  
"Well received by both students and faculty who have seen it. The greatest advantage is in saving the librarian from presenting the same material over and over."

NORTHWESTERN UNIVERSITY

Adele W. Combs  
Assistant University Librarian for Public Service  
Northwestern University Library  
Evanston, Illinois 60201

Doctorate Granting Institution  
5001-10,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand; primarily new students
  4. Presentation Subjects: General Library Orientation
  5. Presented By: Library Support Staff Member
  6. Viewing Locations: In library's conference or meeting rooms
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 1,100 or 12% of the student body
  10. Evaluation: "Only very informally by students and librarians"
  11. Equipment: Sony Superscope Stereo Cassette Recorder CS-200S;  
Kodak Carousel 850 Projector
  12. Availability: Not adaptable to other libraries
  13. Comments: "Many positive comments - helpful for orientation to a large, complex building if followed by tour.  
Negative: Too 'hard sell' (Mostly from library staff)

OBERLIN COLLEGE

Kathryn Weil  
Science Librarian  
Oberlin College Library  
Kettering Building  
Oberlin, Ohio 44074

Master's Degree Granting Institution  
1001-5000 FTE Students  
500,000+ Volumes In The Library System

- 
1. Purpose of Presentations: Use slide/tapes for instruction on only a few major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: Chemical Abstracts; Biological Abstracts (in production)
  5. Presented By: Professional librarian
  6. Viewing Locations: Near library item to be used
  7. Produced By: Chemical Abstracts: American Chemical Society (approximate cost \$250); Biological Abstracts: the library (\$500 paid to a student to do graphics) and audio-visual services (cost not known yet)
  8. Financed By: The library and grant funding
  9. Number of Viewers/Year: Information not provided
  10. Evaluation: Formal Evaluation planned
  11. Equipment: Information not provided
  12. Availability: Chemical Abstracts presentation available from American Chemical Society; Biological Abstracts presentation may be available in the future for a fee
  13. Comments: Would not recommend getting involved in slide/tape production without resources of professional people. "Without course motivation these self-help teaching tools lie stagnant."

COLLEGE OF PHARMACY-OHIO STATE UNIVERSITY

Virginia B. Hall  
Assistant Prof. & Head, Pharmacy Library  
Pharmacy Library  
500 West 12th Ave.  
Columbus, Ohio 43210

Doctorate Granting Institution  
0-1000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for a complete program of library instruction
  2. Courses Using Presentations: Required course for academic credit (4 tapes to beginning class during their orientation course; 1 for a senior class; 1 for Pharmacy graduate students)
  3. Presentation Access Control: Primarily only the above groups
  4. Presentation Subjects: General Library Orientation; Periodical Indexes; Card Catalog; Reference Items; Search Methods; Pharmacological literature and library tools
  5. Presented By: Individual views presentation after librarian instructs in the use of equipment
  6. Viewing Locations: Near library item to be used
  7. Produced By: Audio-Visual Services (written by librarian, slides made and narrated by the College of Pharmacy Office of Educational Development)
  8. Financed By: The college
  9. Number of Viewers/Year: Approximately 270-280 or 50% of the student body
  10. Evaluation: Evaluated by librarians through questionnaires completed by users
  11. Equipment: Kodak Carousel 750H; VM Playback 752 AV
  12. Availability: Adaptable to other libraries and available for loan and for loan for duplication if credit is given to OSU College of Pharmacy
  13. Comments: "We find talks given to groups not effective. We do not feel the evaluation has been adequate and could be done in a more organized way. However, comments have been favorable. I think the students prefer learning this way." "New slides and tapes need to be replaced frequently."

ORAL ROBERTS UNIVERSITY

Janice Syeduilar  
Oral Roberts University Library  
7777 South Lewis  
Tulsa, Oklahoma 74102

Master's Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: Required as part of freshman orientation
  3. Presentation Access Control: Primarily freshman
  4. Presentation Subjects: General Library Orientation, 1 hour; Periodical Indexes, 1 hour; Card Catalog, 1 hour; Reference Items, 1 hour; Education Books in Reference, 1 hour
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: "Varies because student body is growing"
  10. Evaluation: Evaluated by librarians, classroom instructors, and students by interviewing users
  11. Equipment: Information not provided
  12. Availability: Not adaptable to other libraries
  13. Comments: Currently revising productions and bringing them up-to-date. Freshman orientation program has changed and use of the presentations may also change for 1975-76 academic year.

## LIBRARY ORIENTATION

### ORAL ROBERTS UNIVERSITY

We have prepared this mimeographed fact sheet in response to several inquiries we have received regarding our library orientation program. We hope it will answer your questions, and we would be pleased to hear about your programs.

A new building and a new school present several problems. Our program must be fluid enough to adapt to major changes in physical conditions, procedures and methods, staff, and a new student enrollment which has grown from 150 to 950. For this reason we continue to experiment with many methods and media.

Basically our program consists of the following:

1. Qualifying examination (50 multiple choice questions) and a card catalog problem (involving actually going from catalog to shelf to locate book) which is administered to all new students before enrollment. A second section is scheduled for October to pick up all new students who arrive late.
2. Video-tape of the Learning Resources Center.
3. Lecture by the Reference Librarian with special emphasis on Library of Congress system, ORU hardware, and staff.
4. Four class meetings featuring tape-slide presentations with response sheets to be completed by students. These lectures cover the use of indexes, current events materials, and the card catalog.

Students who score 75 or above on #1 and attend #2 and #3 are excused from #4.

Students who score 70 - 74 may be excused from #4 at the discretion of the Reference Librarian in which case she schedules only one lecture which summarizes the four class meetings and discusses major mistakes from qualifying test.

All of our material may be presented live, on individual programmers, on classroom monitors, or on our dial access system. Slides may be replaced if necessary; tapes need up-dating almost every year. This flexibility allows the Reference Librarian to choose the facilities which best fit the problems of the current semester.

Keeping records is extremely time-consuming but vital. Generally much of the mechanics can be handled by students or non-professional help.

In addition to this program we are trying to develop materials which will be presented to students at other times when they particularly need the information. Several tape-slide lectures are presented to freshman English classes which are working on research papers. On request we have prepared tape-slide and/or video instructions for upper-classmen working on research in English and Education.

Because our program is so flexible that printed materials are quickly outdated, we do not have any samples available for distribution. Our tests and response sheets are geared to our individual collection.

ORANGE COAST COLLEGE

Wendell Westfall  
Librarian  
2701 Fairview Road  
Costa Mesa, California 92626

Associate Degree Granting Institution  
10,001-15,000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: Readers' Guide (7 minutes); Business Classes Orientation/Instruction (20 minutes)
  5. Presented By: Professional librarian or an individual may view presentations without assistance
  6. Viewing Locations: In classrooms or near library item to be used
  7. Produced By: The library and audio-visual services
  8. Financed By: The library
  9. Number of Viewers/Year: Information not provided
  10. Evaluation: Evaluated by librarians and classroom instructors through interviewing users
  11. Equipment: Information not provided
  12. Availability: Readers' Guide program is adaptable to other libraries
  13. Comments: No additional comments

PACIFIC UNION COLLEGE

Barbara H. Phipps & Harry Bruington  
Associate Librarian/Associate Professor L.S.  
Pacific Union College Library  
Angwin, California 94508

Master's Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items; use slide/tapes for complete program of library instruction
  2. Courses Using Presentations: Used for optional course for academic credit; part of Freshman English for 75/76 academic year
  3. Presentation Access Control: Any user, group, or member of above mentioned courses on demand
  4. Presentation Subjects: General Library Orientation (7 minutes); Periodical Indexes (10 minutes); The Card Catalog (13 minutes); Dictionaries (7 minutes); Encyclopedias (8 minutes); Geographical and Biographical Sources (7 minutes); Literary References (10 minutes); Religious References (8 minutes); Parts of the Book (4 minutes); Dewey Decimal System (7 minutes)  
Presented by a professional librarian
  5. Presented By: In classrooms
  6. Viewing Locations: The library and audio-visual services
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 100 or 5% of the student body; "Next year all freshman (600-700) will see general orientation programs and ones with below minimum library-use test scores will see all (between 200-300)
  10. Evaluation: Evaluated informally by librarians and classroom instructors; have used formal tests and questionnaires some
  11. Equipment: Sold State Hitachi Tape Recorder TPQ-201; Kodak Ektagraphic Slide Projector E-2
  12. Availability: Adaptable to other libraries in most respects, and available for loan and for loan for duplication
  13. Comments: No additional comments

PACIFIC UNIVERSITY

Donna Shaver  
Reader's Services Librarian  
Harvey W. Scott Memorial Library  
Forest Grove, Oregon 97116

Master's Degree Granting Institution  
0-1000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use of slide/tapes for orientation (presentation currently being developed-June 9, 1975)
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: General Library Orientation(10-15 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: Near main entrance during orientation
  7. Produced By: Audio-Visual Services-written and directed by Reader Services Librarian (Approximate cost: \$15)
  8. Financed By: The library
  9. Number of Viewers/Year: Not yet in operation
  10. Evaluation: Not yet in operation
  11. Equipment: Not yet decided
  12. Availability: For orientation to this library only
  13. Comments: No additional comments

MEDICAL COLLEGE OF PENNSYLVANIA

Carol Fenichel  
Reference Librarian  
Florence A. Moore Library of Medicine  
3300 Henry Avenue  
Philadelphia, PA 19129

Doctorate Granting Institution (M.D.)  
0-1000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tape instruction on only major library items
  2. Courses Using Presentations: Various courses involve the presentations
  3. Presentation Access Control: Students enrolled in particular courses using the presentations
  4. Presentation Subjects: Periodical Indexes: Index Medicus, 5 minutes; Chemical Abstracts, 5 minutes; Biological Abstracts, 5 minutes, Science Citation Index, 5 minutes; MEDLINE System (3 programs of 18, 12, and 15 minutes each)
  5. Presented By: Professional librarian
  6. Viewing Locations: Near library item to be used
  7. Produced By: The library produced the four biomedical indexes (cost not given); 2 MEDLINE's programs by NMAC, and one by University of Nebraska (cost not given)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 40 or 10% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: "Standard Carousel"
  12. Availability: Not adaptable to other libraries
  13. Comments: Use slide/tapes for different purposes not able to include on questionnaire

## PENSACOLA JUNIOR COLLEGE

Eileen Carey  
Librarian  
Milton Center-Pensacola Junior College  
Canal Street  
Milton, Florida 32570

Associate Degree Granting Institution  
5001-10,000 FTE Students  
50,000-100,000 Volumes in the Library

1. Purpose of Presentations: Use slide/tapes for complete program of library instruction
2. Courses Using Presentations: Optional course for academic credit
3. Presentation Access Control: Students enrolled in above mentioned course or any user on demand
4. Presentation Subjects: General Library Orientation (8 minutes); Periodical Indexes (10 minutes); Card Catalog (12 minutes); Reference Items (10 minutes), including dictionaries, encyclopedias, and biographical tools
5. Presented By: Individual may view presentations without assistance after professional librarian or library support staff member demonstrates use of equipment in first part of course
6. Viewing Locations: In learning labs
7. Produced By: Library and audio-visual services produced general orientation, card catalog, and dictionaries. Readers' Guide revised from production by Library Filmstrip Center (Approximate cost: \$25), as well as One Volume Encyclopedias (\$25) and biographical tools. Library Indexes from Northern Illinois Univ. (\$25)
8. Financed By: The library and audio-visual services
9. Number of Viewers/Year: Approximately 1200 or 10% of the student body
10. Evaluation: Evaluated by students through formal test of users and questionnaire completed by users
11. Equipment: Singer Caramate 8805 (12 units in use) and use Kodak Slide Projector 750H and Audiotronic Cassette Tape 146 if demand exceeds supply of Caramates
12. Availability: Partially adaptable to other libraries; typed scripts could be lent, but productions not cleared for publication
13. Comments: "If material is worthwhile, and well presented, on equipment that works--with a librarian available to give individual help as needed--then, both the good students and the slower students are enthusiastic about what they have gained from the course."

PHILLIPS UNIVERSITY

Shirley Haines  
Reference Librarian  
Zollars Memorial Library  
Enid, Oklahoma 73701

Master's Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Viewed primarily by freshman and new students
  4. Presentation Subjects: General Library Orientation (simulated tour of the library)
  5. Presented By: Professional librarian
  6. Viewing Locations: A-V room
  7. Produced By: The library through the cooperation of a reference librarian and A-V technician (approximate cost: \$25)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 200 or 16% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Kodak Carousel Slide Projector for classroom viewing  
Singer Caramate Slide Projector for individual viewing
  12. Availability: Not adaptable to other libraries
  13. Comments: None

PLYMOUTH STATE COLLEGE

Robert V. McDermid  
Assistant College Librarian  
Herbert H. Lamson Library  
Plymouth, New Hampshire

Master's Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation; Periodical Indexes; and Card Catalog
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms and near library items to be used
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 400 to 600
  10. Evaluation: Informally edited and changed yearly
  11. Equipment: Available on library remote access system
  12. Availability: Possibly audio tape on Readers' Guide adaptable to other libraries; available for loan for duplication
  13. Comments: No additional comments

PORTLAND STATE UNIVERSITY

Library Orientation Instruction Committee  
Portland State University Library  
P.O. Box 1151  
Portland, Oregon 97207

Doctorate Granting Institution  
5001-10,000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand
  4. Presentation Subjects: General Library Orientation (12 minutes)
  5. Presented By: Information not provided
  6. Viewing Locations: Library lecture room
  7. Produced By: The Library A-V Dept. (which serves the entire institution) at an approximate cost of \$1775, not including any labor costs
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 830 or approximately 5% of total student headcount
  10. Evaluation: No formal evaluation
  11. Equipment: 3 Kodak Ektagraphic Model B2 slide projectors with zoom lenses; Spindler & Stuppe Quadra Que I; 3 safelock stands, 3 tripod screens, auxillary speaker; 6 AC outlets
  12. Availability: Not adaptable
  13. Comments: "Our slide/tape presentation is a fast-moving entertaining program which presents the library as a growing organism. Often after the presentation a walking tour of the building is given." Equipment awkward, updating difficult, and can not be used with students whose ability to speak English is limited.

PROVIDENCE COLLEGE

Joseph H. Doherty  
Director  
Phillips Memorial Library  
Providence, Rhode Island 02918

Master's Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: All freshman students
  4. Presentation Subjects: General Library Orientation (12 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In a classroom in the library
  7. Produced By: "Library Staff Planned Program and Audio-Visual Department Did Technical Work" (Approximate cost: \$50)
  8. Financed By: The college
  9. Number of Viewers/Year: Approximately 800 or 25% of the student body
  10. Evaluation: Evaluated by students through a questionnaire completed by users
  11. Equipment: 2 Kodak Carousel 700 Slide Projectors used simulatenously and Wolensak 3-M Cassette System, Model 2551
  12. Availability: "The ideas are adaptable; the program is geared to this library"
  13. Comments: "The slide/tape program was designed to give students a general idea of how the library is arranged, how to start a search for different types of material, and who to ask for help. We fee that this is not the time to present a very serious program on library research. We have many programs to supplement the orientation one."

COLLEGE OF THE REDWOOD

Robert Krogh  
Assistant Librarian  
College of the Redwood Library  
Eureka, California 95501

Associate Degree Granting Institution  
5001-10,000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items; use slide/tapes for a complete program of library instruction
  2. Courses Using Presentations: Optional course for academic credit
  3. Presentation Access Control: Students enrolled in the above mentioned course
  4. Presentation Subjects: General Library Orientation (15 minutes); Periodical Indexes (8 minutes); Reference Items (10 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In learning labs
  7. Produced By: The library and audio-visual services
  8. Financed By: The library and audio-visual services
  9. Number of Viewers/Year: Approximately 30 or .03% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Kodak Carousel Slide Projector; Wollensak Cassette Tape Recorder
  12. Availability: Orientation Program not adaptable; other programs adaptable, but presently not available to other libraries
  13. Comments: "Production by A-V and drama depts with excellent results. Scripts by Library personnel"

UNIVERSITY OF RICHMOND

Mrs. Kate J. DuVal  
Project Librarian  
Boatwright Memorial Library  
Richmond, Virginia 23173

Master's Granting Institution  
1001-5000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Classes in which professor requests showing
  4. Presentation Subjects: General Library Orientation; Periodical Indexes
  5. Presented By: Professional librarians; Classroom faculty
  6. Viewing Locations: In classrooms
  7. Produced By: "Members of Library-Faculty Partnership- Principally members of the English Department" (Approximate cost: \$90)
  8. Financed By: Grant Funding from the Council On Library Resources and National Endowment For The Humanities
  9. Number of Viewers/Year: Information not provided
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through informal discussions
  11. Equipment: Wollensak Tape Recorder 2570; Kodak Carousel Slide Projector 850H
  12. Availability: Not adaptable to other libraries
  13. Comments: "Continued evaluation and change is anticipated. As reference books or other areas are highlighted, the original will again be modified. Generally the program was well-received. Timing was poor at first. Slide change needed to occur in logical part of sentence."

Mrs. Gladys M. Taylor  
 Head, Reference Department  
 Wallace Memorial Library  
 1 Lomb Memorial Drive  
 Rochester, New York 14623

Master's Granting Institution  
 5001-10,000 FTE Students  
 100,000-250,000 Volumes in the Library

1. Purpose of Presentations:

"Slide/tape orientation program was used prior to move to new campus and new library in 1968."

2. Courses Using Presentations:

"With newer equipment, and the availability of media specialists, we are in the process of returning to slide/tape presentations for the purpose of instruction. We usually make a sharp distinction between orientation and instruction."

3. Presentation Access Control:

4. Presentation Subjects:

**ADDITIONAL COMMENTS**

"For a couple of years, we conducted walking tours of the library to orient the incoming students. One year, 600 students participated, but other years there was little interest, and they began to be known as 'The Death March.'"

5. Presented By:

6. Viewing Locations:

We then began a series of library liberation days, with a carnival-type atmosphere-4000 students came to the first one! The students followed a designated trail throughout the building and were rewarded with refreshments at the end. In this way, they learn where the library is, where some items are located, and where there is a bunch of friendly people ready to help them."

7. Produced By:

8. Financed By:

9. Number of Viewers/Year:

10. Evaluation:

11. Equipment:

12. Availability:

13. Comments:

**SADDLEBACK COLLEGE**

William Weisgerber  
Director of Instructional Media  
28000 Maroverite Parkway  
Mission Viejo, California 92675

Associate Degree Granting Institution  
1001-5000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on only a few major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand; any group on demand
  4. Presentation Subjects: General Library Orientation (8 minutes); Periodical Indexes (5 minutes); Card Catalog (6 minutes); and Reference Items (7 minutes)
  5. Presented By: Individual may view presentations without assistance; also presented by professional librarian, library support staff, classroom faculty and student aides
  6. Viewing Locations: In learning labs
  7. Produced By: Audio-Visual Services
  8. Financed By: Audio-Visual Services
  9. Number of Viewers/Year: Approximately 750 or 10% of the student body
  10. Evaluation: By librarians, classroom instructors, and students through use of questionnaires completed by users and interviewing users
  11. Equipment: AF Milliron Model 201
  12. Availability: Not adaptable to other libraries
  13. Comments: "Good results-more programs in production"

ST. LAWRENCE UNIVERSITY

Lynn Case  
Reference Librarian  
Owen D. Young Library  
Canton, New York 13617

Master's Granting Institution  
1001-5000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand
  4. Presentation Subjects: General Library Orientation (10 minutes); Periodical Indexes (8 minutes) including abstracts, sample entries from Reader's Guide, how to find periodicals, etc.; Reference Items (5 minutes) including a general show on using bibliographies, finding items, etc.
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms
  7. Produced By: The library with assistance by student photo service and the radio station (Approximate cost: \$30 per presentation)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 350 or 20% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: 2 Singer Caramate Units; a Wollensack Tape-Synchronizing Unit; 2 Kodak Carousel Slide Projectors
  12. Availability: Adaptable to other libraries and available for loan
  13. Comments: "We've received mixed reactions to the shows--some students think they are really good; others feel they are too simplified. We are going to rework them to slow them down a bit."

**SAN DIEGO MESA COLLEGE**

Jill Parsons  
Reference Librarian  
Library San Diego Mesa College  
7250 Artillery Dr.  
San Diego, California 92111

Associate Degree Granting Institution  
5001-10,000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group or user on demand; use for classes on career planning, vocational nursing, Chicano studies, technical English, business communications
  4. Presentation Subjects: General Library Orientation (24 minutes); Readers' Guide (8 minutes); Essay and General Literature Index (10 minutes)
  5. Presented By: Library support staff and classroom faculty; "some are being adapted for use on a Caramate and will be set up for individual viewing by students"
  6. Viewing Locations: In classrooms
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: General Library Orientation: 2600; Indexes: 2000; Career Information: 1000
  10. Evaluation: Evaluated by classroom instructors and students by comments offered informally
  11. Equipment: Wollensak 2550 tape recorder, and Kodak Slide Projector B 2.
  12. Availability: No information provided
  13. Comments: "Slide/tape presentations can be updated, a useful factor in keeping up with radical changes in our library. Equipment is easily operated by teachers."

Judith S. Wainwright  
Head of Reference Department  
Gleeson Library  
San Francisco, California 94117

Master's Granting Institution  
5001-10,000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: "Use slides only at present. Slide/tapes being prepared for Foreign Students (Orientation Program)" (May 22, 1975)
  2. Courses Using Presentations:
  3. Presentation Access Control:
  4. Presentation Subjects:
  5. Presented By:
  6. Viewing Locations:
  7. Produced By:
  8. Financed By:
  9. Number of Viewers/Year:
  10. Evaluation:
  11. Equipment:
  12. Availability:
  13. Comments: "We have only used slides up to now mostly because we are a small institution and feel that the presentations by a librarian whom the students will see around all the time is more effective than a taped presentation."

UNIVERSITY OF SASKATCHEWAN

C. Ashley Thomson  
Instruction and Information Services Librarian  
Saskatoon, Saskatchewan S7N 0W0

Doctorate Granting Institution  
15,001-20,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: Readers' Guide (5 minutes); Canadian Periodical Index (5 minutes); Card Catalog (10 minutes); Book Review Digest (5 minutes)
  5. Presented By: Individual views presentations without assistance
  6. Viewing Locations: Near library item to be used
  7. Produced By: The library (Approximate cost: \$150 for all presentations)
  8. Financed By: The library
  9. Number of Viewers/Year: "Hard to estimate"
  10. Evaluation: No formal evaluation
  11. Equipment: Coxco Sound Slide Combination synchronized cassette tape recorder and day-light viewing rear screen projector Model SP-120
  12. Availability: Adaptable to other libraries and available for loan
  13. Comments: "Our slide tape programs have not been used as much as we would have liked." Problem with physical arrangements so programs can be placed in areas convenient to users, and, also lack enough equipment. Expect to be able to correct both problems.

COLLEGE OF THE SEQUOIAS

William R. Woods  
Assistant Librarian  
College of the Sequoias  
Visalia, California 93277

Associate Degree Granting Institution  
1001-5000 FTE Students  
50,000-100,000 Volumes in the Library

---

1. Purpose of Presentations: "We do not have a 'tape' program as yet to go with our slide presentation. The talk is given by a staff member."
2. Courses Using Presentations: No complete program offered
3. Presentation Access Control: Any group on demand
4. Presentation Subjects: General Library Orientation (10 minutes);  
Periodical Indexes (5 minutes); Card Catalog (15 minutes);  
Microform Items (5 minutes);  
Reference Items (5 minutes)
5. Presented By: Professional librarian
6. Viewing Locations: In classrooms
7. Produced By: The library and audio-visual services
8. Financed By: The library
9. Number of Viewers/Year: Approximately 750-1000 or 33% of the student body
10. Evaluation: Evaluated by classroom instructors, students, and others through questionnaires completed by users
11. Equipment: Any projector and slide tray
12. Availability: Not adaptable to other libraries
13. Comments: "Our presentation is highly individualized... it can be altered in content and time to present things relevant to each group."

**SHELBY STATE COMMUNITY COLLEGE**

Joseph Lindenfeld  
Director of Library Services  
Learning Resources Center  
P.O. Box 4568  
Memphis, Tennessee 38104

Associate Degree Granting Institution  
1001-5000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for a complete program of library instruction
  2. Courses Using Presentations: Required course for academic credit
  3. Presentation Access Control: Primarily the freshman students enrolled in the required course
  4. Presentation Subjects: General Library Orientation (8 minutes); Periodical Indexes (10 minutes); Card Catalog (10 minutes); Reference Items (10 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms
  7. Produced By: McGraw-Hill Company (Approximate cost: \$50); Library Filmstrips (Approximate cost: \$100)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 600 or 20% of the student body
  10. Evaluation: Evaluated by librarians and students (method not provided)
  11. Equipment: Singer Caramate Slide Projector Cassette Tape Player
  12. Availability: Adaptable to other libraries
  13. Comments: "Right now we have not developed anything. We are using commercial filmstrips cut into slide/tape format with varying results."

**SIMON FRASER UNIVERSITY**

**Lawrence Thomas**  
**Assistant University Librarian for Collections**  
**Simon Fraser University Library**  
**Burnaby, British Columbia Canada**

**Doctorate Granting Institution**  
**5001-10,000 FTE Students**  
**500,000+ Volumes in the Library System**

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Primarily viewed by new students
  4. Presentation Subjects: General Library Orientation (10 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms
  7. Produced By: The library (Approximate cost: \$150)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 350-400 or 14% of the new enrollment
  10. Evaluation: Evaluated by librarians informally
  11. Equipment: No information provided
  12. Availability: Not adaptable to other libraries
  13. Comments: No additional comments

SOUTHERN COLORADO STATE COLLEGE

Eloise Phelps  
Head, Reference Department  
Southern Colorado State College Library  
Pueblo, Colorado 81001

Master's Degree Granting Institution  
5001-10,000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: General Library Orientation (9 minutes); Periodical Indexes (12 minutes); Card Catalog (2 tapes, 10 minutes each); Reference Items (in process); Government Documents (8 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In learning labs
  7. Produced By: The library and audio-visual services
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 1000 or 20% of the student body
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through use of questionnaires completed by users and interviewing users
  11. Equipment: Information not provided
  12. Availability: Tour not adaptable, but other could be adapted, plan to have them available for sale
  13. Comments: "We feel that our slide tape program used in cooperation with our individualized, programmed course for learning library skills is the best combination we have found for motivating students to make efficient and effective use of the library resources and personnel." "We hope to summarize our complete results for a journal article."

SOUTHERN ILLINOIS UNIVERSITY

Judy Williford  
Head Librarian, Undergraduate Library  
Morris Library  
Carbondale, Illinois 62901

Doctorate Granting Institution  
15,001-20,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user on demand
  4. Presentation Subjects: Readers' Guide (3 minutes)
  5. Presented By: Information not provided
  6. Viewing Locations: Use tape cassette only near library item to be used
  7. Produced By: Audio-Visual Services
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 360 or 3% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Use Audio Announcer Tape Repeater - Orrtronics Inc. for tape cassette
  12. Availability: Adaptable to other libraries and will send a copy of the script on request
  13. Comments: "Students seem unwilling to use audio equipment. 3 minutes may be too long. Students would rather have librarian's assistance."

STANFORD UNIVERSITY

Janice Lane  
Reference Librarian  
J. Henry Meyer Memorial Library  
Stanford, California 94305

Doctorate Granting Institution  
10,001-15,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation including card catalog; PAIS, Social Science and Humanities Index, Readers' Guide (12 minutes); Periodical Indexes (9 minutes); "How To Use The Library For Term Paper Research" (8 minutes)
  5. Presented By: Individual may view presentations without assistance
  6. Viewing Locations: "As a display unit-library lobby"
  7. Produced By: The library (Approximate costs: Meyer Library Orientation, \$250; Indexes and Abstracts, \$75; and Library Research, \$50)
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 200-300 or 6% of the student body
  10. Evaluation: Evaluated by librarians and students through questionnaire completed by users
  11. Equipment: Singer-Graphlex Caramate Model 8806 (record capability)
  12. Availability: Not very easily adaptable to other libraries
  13. Comments: "We have found our presentations very useful as display units (we use continous-loop cassettes so that they run non-stop) and for special classroom presentations. Evaluations were by student questionnaire and about 85% responded favorably."

STATE UNIVERSITY OF NEW YORK AT BUFFALO

Mrs. Diane Parker  
Head of Reference Department  
Lockwood Library  
Buffalo, New York 14214

Doctorate Granting Institution  
20,001-30,000 FTE Students  
500,000+ Volumes in the Library System

1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items; use slide/tapes for a complete program of library instruction (Law Library)
2. Courses Using Presentations: Law Library is planning a series to be completed by September 1, 1975 for an optional non-credit course; Contact Karen Mundy of Law Library for more information
3. Presentation Access Control: Any user or group on demand; Law Library program primarily only for law students
4. Presentation Subjects: General Library Orientation: Undergraduate Library (10-15 minutes); Law Library (8 minutes); Health Science Library (6 minutes) Periodical Indexes: Index Medicus Guide (7 minutes); Science Citation Index (20 minutes) Sheppard's Citations (15 minutes)
5. Presented By: Professional librarian
6. Viewing Locations: In classrooms for Undergraduate Library program; Near library item to be used for Health Science Library and Law Library programs
7. Produced By: Index Medicus: Washington University Medical School; Science Citation Index: Inst. for Scientific Information; Others by Undergraduate Library, Law Library, and Health Sciences Library (Approximate cost: \$12 for materials)
8. Financed By: The library
9. Number of Viewers/Year: Undergraduate Library: Approximately 400 or 1.7% of the student body; Law Library: Approximately 300 or 75% of law students; Health Sciences Library: not known
10. Evaluation: Undergraduate Library presentation evaluated by librarians and students through questionnaire completed by users and by interviewing users
11. Equipment: Undergraduate Library: (2) Kodak Ektagraphic Projectors, one Wollensak tape recorder w/sync, and one Kodak dissolve unit; Law Library: Singer Caramate; Health Sciences: Kodak 760H Slide Projector, Bell & Howell Cassette playback unit
12. Availability: Law Library presentation adaptable to other libraries and available for loan
13. Comments: No additional comments  
Contact Nancy Fabrizzio for information on Health Sciences Library presentations, and Mary Jane Platov for information on Undergraduate Library presentations

STATE UNIVERSITY OF NEW YORK AT GENESEO

William J. Lane  
Associate Librarian  
Milne Library  
Geneseo, New York 14454

Master's Granting Institution  
1001-5000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete course offered
  3. Presentation Access Control: Any group or user on demand
  4. Presentation Subjects: General Library Orientation (30 minutes, including sections on card catalog, Readers' Guide, The New York Times Index, and Special Collections; Card Catalog (5 minutes); Government Documents (5 minutes)
  5. Presented By: Professional librarian or individual may view presentation without assistance
  6. Viewing Locations: Shown either in classrooms or near library items to be used
  7. Produced By: Audio-Visual Services
  8. Financed By: Audio-Visual Services
  9. Number of Viewers/Year: Information not provided
  10. Evaluation: Evaluated by classroom instructors and students through using questionnaires completed by users and interviewing users
  11. Equipment: Rear Projection Theater from Motiva Ltd. with a Kodak Carousel Slide Projector
  12. Availability: Not adaptable to other libraries
  13. Comments: Use tapes only in portable cassettes for instruction on Biological Abstracts and Psychological Abstracts

Anne Commerton  
 Director of Libraries  
 Penfield Library  
 Oswego, New York 13126

Master's Granting Institution  
 5001-10,000 FTE Students  
 250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use with specific subject orientation
  2. Courses Using Presentations: "Proposal in the Faculty Assembly for optional credit course"
  3. Presentation Access Control: Any user on demand; any group on demand; and in one session subject oriented classes
  4. Presentation Subjects: General Library Orientation (8 minutes); Government Documents (5 minutes)
  5. Presented By: Individual may view presentations without assistance; also presented by professional librarians
  6. Viewing Locations: Near library item to be used; in learning labs; and in classrooms
  7. Produced By: Audio-Visual Services in cooperation with the library
  8. Financed By: Audio-Visual Services
  9. Number of Viewers/Year: Approximately 3200 or 40% of the student body
  10. Evaluation: "They have been shown at NYLA; other library regional conferences and loaned on request"
  11. Equipment: Wollensak 2515 tape recorder and Kodak Carousel Slide Projector
  12. Availability: Available for loan; Charge for duplication presently under consideration; Government Documents presentation adaptable to other libraries; General Orientation not
  13. Comments: "The general orientation one we have had for 3 years (with updates) and have received many requests to loan it. The documents one is less than 2 months old and we have had little chance to get comments. We hope to do much more in this area."

Herbert J. Sorgen  
Librarian

SUNY Agricultural & Technical College Library  
Delhi, New York 13753

Associate Degree Granting Institution

1001-5000 FTE Students

0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation (5 minutes);  
Engineering Index (2 minutes)
  5. Presented By: Individual may use presentations without assistance
  6. Viewing Locations: In classrooms and near library item to be used
  7. Produced By: General Orientation program produced by the library;  
Engineering Index program produced by Massachusetts  
Institute of Technology
  8. Financed By: Audio-Visual Services
  9. Number of Viewers/Year: Approximately 800 or 33% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Singer Caramate
  12. Availability: Engineering Index is adaptable to other libraries;  
Orientation program is not; they are available for loan  
and for loan for duplication
  13. Comments: No additional comments

SUNY COLLEGE AT BROCKPORT

Peter P. Olevnik  
Head of Reference  
Drake Memorial Library  
Brockport, New York 14420

Master's Granting Institution  
5001-10,000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access/Control: Freshman composition students
  4. Presentation Subjects: Reader's Guide (3 minutes); New York Times Index (2 minutes); Card Catalog (3 minutes); Reference Items (15 minutes); Locating Periodicals In The Library (4 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In library seminar room; plan to use in library's special materials center
  7. Produced By: The library and audio-visual services
  8. Financed By: The library and audio-visual services
  9. Number of Viewers/Year: Approximately 200 or 2% of the student body
  10. Evaluation: Evaluated by College Educational Communications Center through formal test of users, questionnaire completed by users, and interviewing users
  11. Equipment: 3-M Sound-On-Slide Projector 625 with portable rear screen projector; Audiotronics portable tape player
  12. Availability: Portions are adaptable to other libraries, but not available at the present time
  13. Comments: "I am writing an article now on our program."

**TARRANT COUNTY JR. COLLEGE**

John Lolley  
Director Library Services  
Tarrant County Jr. College, South Campus  
5301 Campus Dr.  
Ft. Worth, Texas 76119

Associate Degree Granting Institution  
5001-10,000 FTE Students  
50,000-100,000 Volumes in the Library

- 
1. Purpose of Presentations: Formerly used slide/tapes for library orientation
  2. Courses Using Presentations: Used as part of a required course for academic credit in freshman orientation
  3. Presentation Access Control: Freshman orientation classes
  4. Presentation Subjects: General Library Orientation including periodical indexes (5 minutes), card catalog (5 minutes), and reference items (5 minutes); Total presentation was 17 minutes long
  5. Presented By: Professional librarian
  6. Viewing Locations: Programmed Learning Centers which are housed in the library
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 1000 or 9% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Information not provided
  12. Availability: Not adaptable to other libraries
  13. Comments: "Slide/tapes and hardware required and use are simply too expensive for large institutions. The learner must be involved more directly with library resources than mere viewing and listening about them."

UNIVERSITY OF TENNESSEE

Jess A. Martin  
Director  
Center for the Health Sciences Library  
800 Madison Ave.  
Memphis, Tennessee 38163

Doctorate Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items; use slide/tapes as part of a program of library instruction
  2. Courses Using Presentations: Used in both a required and an optional course for academic credit
  3. Presentation Access Control: Any group on demand; and students enrolled in the above mentioned courses
  4. Presentation Subjects: General Library Orientation (25 minutes);  
Periodical Indexes (7 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms and near library items to be used
  7. Produced By: The library and audio-visual services
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 400 or 20% of the student body
  10. Evaluation: Evaluated by interviewing users
  11. Equipment: Chanel Master Cassette Player/Recorder Model 6394;  
Kodak Carousel Model 800 Slide Projector; International  
Audiovisual 16mm Optical Projector
  12. Availability: Adaptable for other libraries, not available for loan
  13. Comments: "We have found it rather difficult to develop a slide presentation that would satisfy the varying needs of our users."

UNIVERSITY OF TENNESSEE AT CHATTANOOGA

Joseph A. Jackson  
Prof. and Director of Libraries  
University Library  
Chattanooga, Tennessee 37401

Master's Granting Institution  
5001-10,000 FTE Students  
100,000-250,000 Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete program offered; used as requested by faculty as a part of another course
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation (30 minutes); Periodical Indexes (12 minutes); Card Catalog (5 minutes); Reference Items; Government Documents (2 minutes); Microform Items; (2-5 minutes); and other specialized literature searches by subject
  5. Presented By: Professional librarian
  6. Viewing Locations: Near library item to be used
  7. Produced By: Audio-Visual Services
  8. Financed By: The library and audio-visual services
  9. Number of Viewers/Year: Approximately 1000 or 19% of the student body
  10. Evaluation: Evaluated by librarians, classroom faculty, and students by interviewing users
  11. Equipment: "Standard hardware from AV"
  12. Availability: Not adaptable nor available to other libraries
  13. Comments: "This is our first year to work with our program. It has been very successful with good evaluations from faculty and students."

UNIVERSITY OF TENNESSEE AT MARTIN

Joel Stowers  
Director  
Paul Meek Library  
Martin, Tennessee

Master's Granting Institution  
1001-5000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: No complete course offered
  3. Presentation Access Control: Primarily freshman English classes
  4. Presentation Subjects: General Library Orientation (19 minutes); Periodical Indexes (7 minutes); Card Catalog (7 minutes); Reference Items (5 minutes); Government Documents (9 minutes); and Microform Items (7 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: Seminar room of library
  7. Produced By: The library
  8. Financed By: The library
  9. Number of Viewers/Year: Approximately 1500 or 30% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: Montage Narrator 1000 (slide synchronizer); Kodak 850H Slide Projector
  12. Availability: Not adaptable to other libraries
  13. Comments: "The slide/tape program is much more effective than the slide/lecture combination. Teachers and students have commented favorably on the content and organization of the material. The only negative feature is the frequent updating necessary."

UNIVERSITY OF TOLEDO

Julia Baldwin  
Documents Librarian  
University of Toledo Libraries  
2801 Bancroft Street  
Toledo, Ohio

Doctorate Granting Institution  
15,001-20,000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations      Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations      No complete program offered
  3. Presentation Access Control:      Any user on demand
  4. Presentation Subjects:      General Library Orientation; Government Documents (in preparation, total time 5 minutes); Business Report Writing (in preparation) for English 190
  5. Presented By:      Professional librarian
  6. Viewing Locations:      Motivas are in lobby; government documents presentation will be in documents collection; English 190 will be given in study room in library
  7. Produced By:      Audio-Visual Services (Approximate cost: \$30 for program)
  8. Financed By:      The library
  9. Number of Viewers/Year:      Approximately 10% of the student body
  10. Evaluation:      "The orienation motivas were evaluated 'fleetingly' before beginning the gov. docs. presentation" by observing students
  11. Equipment:      Motiva Rear Projection Unit with Kodak Ektagraphic AF2 projector and audio announcer repeating tape player
  12. Availability:      Orientation motiva's are not adaptable; government documents could be adapted; not available yet
  13. Comments:      "We find that although students do use the motivas, they still prefer to ask their questions directly. In evaluating, we felt that they were not placed well and didn't have proper signs for use." Classroom presentations are more successful with slide accompaniment. ...takes incredible amount of time.

TOWSON STATE COLLEGE

Richard T. Shotwell  
Reference Librarian  
Towson State College Library  
Baltimore, Maryland 21204

Master's Granting Institution  
5001-10,000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: No information provided
  4. Presentation Subjects: General Library Orientation (10 minutes)
  5. Presented By: Individual views presentation without assistance
  6. Viewing Locations: In the library lobby
  7. Produced By: The library and audio-visual services (Approximate cost: \$500)
  8. Financed By: Grant funding
  9. Number of Viewers/Year: Approximately 500 or 20% of the student body
  10. Evaluation: Evaluated by students through questionnaire completed by users
  11. Equipment: No information provided
  12. Availability: Not adaptable to other libraries
  13. Comments: "Freshman orientation used 5 slide/tapes, including libraries, not received well. Too much in short time, saturated w/media. Dropped after 1 yr."

VIRGINIA COMMONWEALTH UNIVERSITY

Doris Mitchell  
Assistant Reference Librarian  
James Branch Cabell Library  
901 Park Avenue  
Richmond, Virginia 23227

Doctorate Granting Institution  
15,001-20,000 FTE Students  
250,000-500,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand; primarily business classes and freshman English
  4. Presentation Subjects: General Library Orientation (10 minutes); Periodical Indexes (8 minutes); Card Catalog (6 minutes); Reference Items (10 minutes); Government Documents (2-3 minutes); Microform Items (3 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In classrooms
- 
7. Produced By: Audio-Visual Services (Approximate Cost: \$80-\$100, excluding staff labor)
  8. Financed By: The library
  9. Number of Viewers/Year: No information provided.
  10. Evaluation: Evaluated by librarians, classroom instructors, and students through using a questionnaire completed by users
  11. Equipment: No information provided
  12. Availability: "This was our first attempt. We feel that there is much we can do to improve it."
  13. Comments: "Our slide/tape presentation is no longer being used in the orientation program because we have moved into three additional floors of our present library." Not offered in the library and users felt far removed from sources. Too long and not allow users to ask questions.

John Bazuzi  
 Reference Librarian  
 Tompkins-McCaw Library  
 Box 667 MCU Station  
 Richmond, Virginia 23298

Doctorate Granting Institution  
 1001-5000 FTE Students  
 100,000-250,000 Volumes in the Library

1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
2. Courses Using Presentations: No complete program offered
3. Presentation Access Control: Any user or group on demand
4. Presentation Subjects: Periodical Indexes such as Science Citation Index; Special Library functions such as computerized bibliographic services, i.e. Medlines
5. Presented By: Professional librarian
6. Viewing Locations: In classrooms and near library items to be used
7. Produced By: "Medline in Context" by National Library of Medicine (Approximate cost not provided); "Use of Chemical Abstracts" by American Chemical Society (Approximate cost: \$160); "Use of Science Citation Index" by Institute for Scientific Information (free)
8. Financed By: The library
9. Number of Viewers/Year: Approximately 500 or 25% of the student body
10. Evaluation: No formal evaluation
11. Equipment: Information not provided
12. Availability: Adaptable for other libraries and available for loan
13. Comments: "Our slide/tape packages are for specific indexes or services and are only used with presentations made by librarians. Occasionally an instructor would borrow a specific program to use with his class."

UNIVERSITY OF WASHINGTON

Anne B. Passanelli  
Undergraduate Programs Librarian  
Odegård Undergraduate Library  
Seattle, Washington 98195

Doctorate Granting Institution  
30,000+ FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for basic instruction in literature-searching in one particular class of physiology
  2. Courses Using Presentations: No complete program offered
  3. Presentation Access Control: Any group on demand; particularly orientation tour groups and new library staff
  4. Presentation Subjects: General Library Orientation (30 minutes), can be sub-divided into smaller programs for special groups; Literature Search in Physiology (30 minutes)
  5. Presented By: General Library Orientation: Professional Librarian; Physiology Program: Classroom Faculty
  6. Viewing Locations: In library's media center
- 
7. Produced By: The library with a faculty member from physiology preparing the text of the physiology program
  8. Financed By: General Library Orientation: the library  
Physiology Program: grant funding
  9. Number of Viewers/Year: Approximately 1000 or 3% of the student body
  10. Evaluation: Only informally by other librarians in system
  11. Equipment: Spindler Suppe Slide Synch; Ektagraphic Projectors (3); Sony 770 Stereo Soundtrack
  12. Availability: Orientation Program not adaptable; Physiology Program might be; For sale: Slides 20¢ each (300 in Orientation Program, 80 in Physiology Program); 5¢ per page for script; Audio tracks are \$3 each
  13. Comments: No comments.

COLLEGE OF WILLIAM AND MARY

Dortha H. Skelton  
Reference Librarian  
Earl Gregg Swem Library  
Williamsburg, Virginia 23185

Doctorate Granting Institution  
1001-5000 FTE Students  
500,000+ Volumes in the Library System

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for major library items; use to train new staff members, area school librarians, and to aid others in similar works
  2. Courses Using Presentations: "We are asking for an optional course with academic credit."
  3. Presentation Access Control: Any group on demand; primarily used by freshmen and transfer students
  4. Presentation Subjects: General Library Orientation (5 minutes); Periodical Indexes (5 minutes); Card Catalog (5 minutes); Reference Items (5 minutes); Government Documents (5 minutes); Microform Items (5 minutes); Rare Books, Manuscripts and Museum (5 minutes)
  5. Presented By: Professional librarian
  6. Viewing Locations: In the theater of the library
  7. Produced By: The library and audio-visual services
  8. Financed By: The library and audio-visual services
  9. Number of Viewers/Year: Approximately 500 or 10% of the student body
  10. Evaluation: No formal evaluation
  11. Equipment: 3-M Sound-On-Slide System
  12. Availability: Not adaptable but available for loan through Interlibrary Loan and LOEX (other libraries have borrowed it); "we could make a standardized version for \$45"
  13. Comments: "Our program has not been evaluated officially; we depend on faculty and student feedback. It has been favorable. Faculty recommend it to new students and new faculty, and student response is great."

UNIVERSITY OF WISCONSIN CENTER MARSHFIELD

Georgiane C. Bentzler  
Specialist - Librarian  
Learning Resource Center  
2000 West Fifth Street  
P.O. Box 487; Marshfield, WI. 54449

Associate Degree Granting Institution  
0-1000 FTE Students  
0-50,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orienation; use slide/tapes for instruction for major library items; use slide/tapes for a complete program of library instruction.
  2. Courses Using Presentations: Part of an academic credit course
  3. Presentation Access Control: Any group or user on demand; Students enrolled in the academic credit course
  4. Presentation Subjects: General Library Orientation (20 minutes); Periodical Indexes (30 minutes); Card Catalog (30 minutes); Writing a Research Paper (2 programs about 30 minutes each)
  5. Presented By: Individual may view presentations without assistance
  6. Viewing Locations: In classrooms and learning labs
  7. Produced By: Research Paper from Everett/Edwards (Approximate cost: \$25); Indexes in subject fields from Norther Illinois University (Approximate cost: \$30) Self-Guided Tour, Finding Periodical Articles, and Card Catalog produced by the Learning Resource Center
  8. Financed By: The library and grant funding
  9. Number of Viewers/Year: Varies with enrollment
  10. Evaluation: Evaluated by students through questionnaire completed by users
  11. Equipment: Kodak Carousel Slide Projector
  12. Availability: Adaptable to other libraries; loan within institution
  13. Comments: No additional comments

UNIVERSITY OF WISCONSIN-STOUT

Beulah C. Howison  
Coordinator of Public Services  
Pierce Library  
Menomonee, Wisconsin 54751

Master's Granting Institution  
5001-10,000 FTE Students  
100,000-250,000 Volumes in the Library

- 
1. Purpose of Presentations: Use slide/tapes for orientation; use slide/tapes for instruction on major library items
  2. Courses Using Presentations: Library was funded for 30 individually paced learning packages using a variety of formats. Final report available upon request.
  3. Presentation Access Control: Any user or group on demand
  4. Presentation Subjects: General Library Orientation; Periodical and Newspaper Indexes; Chemical Abstracts; Using the Card Catalog; ERIC; Dictionary of Occupational Titles; Two NTIS presentations (one promotional and one how to use); and various others, i.e. Food Science, Power Technology
  5. Presented By: General Library Orientation primarily presented by classroom faculty; others may be viewed by individual without assistance
  6. Viewing Locations: Near library item to be used
  7. Produced By: The library and audio-visual services (Approximate cost: \$40 for supplies only. "No labor costs or professional costs included. If you added that the cost would be incredible.")
  8. Financed By: The library and grant funding with labor and professional support from audio-services
  9. Number of Viewers/Year: Approximately 20% of the student body
  10. Evaluation: Some have been evaluated by classroom instructors and students through use of formal test of users, questionnaires completed by users, and interviewing users
  11. Equipment: Available upon request
  12. Availability: Adaptable to other libraries and available for sale; Price list available upon request
  13. Comments: "Most of our classroom presentations are slide/lecture. We found the tape did not receive the positive response that the same lecture delivered by a librarian produced. We have all of our presentations (slide/tape) so they can be used individually as well as in a classroom."

UNIVERSITY OF WISCONSIN  
**STOUT**  
MENOMONIE WISCONSIN 54751

April 4, 1975

Mr. Terry Franco  
Reference Librarian  
Kearney State College  
Kearney, NB 68847

Dear Mr. Franco,

This follows my letter of April 1, 1974. At long last, the "Self-Paced Instructional Packages Utilizing Library Resources" are in use. The Final Report of this project has been accepted for inclusion in the April issue of the R.I.E. number OE098999.

A copy of each package in its original format is available for loan from WILS (Wisconsin Interlibrary Loan Service), Memorial Library, University of Wisconsin, 728 State Street, Madison, WI 53706.

We are enclosing:

1. Guides To Using Library Resources
2. Description of Reproduction of Guides...
3. Itemized Cost of Guides...
4. Ordering Procedure

Please let us know should you wish further information.

Sincerely,

*Beulah C. Howison*

DESCRIPTION OF REPRODUCTION OF GUIDES TO USING LIBRARY RESOURCES

34247  
The thirty-one packages are available to any University of Wisconsin system campus at a cost of \$373.27. The itemized list of prices for each package indicate parts of the package that may be deleted. No special packaging is available except as listed. A 5% charge will be added to the invoice to cover the cost of handling and mailing. Minimum order \$25.00.

For libraries not a part of the University of Wisconsin system, the packages identified by an asterisk are available now. Copyright clearance is being requested for the remainder of the packages.

The original copy of each package is handcrafted with special emphasis on color and design. It is not feasible to produce handcrafted copies for distribution. Guides are to be reproduced in these forms:

Audio Tapes	Copies of original tapes.
Book	Copies of pages reproduced on 3M copier, black/white.
Box and Cover Photo	Box to hold slide/tape packages with 8 x 10 colored photograph of original cover.
Covers	8 x 10 colored photographs of the original cover.
Covers of Sound Pages	8 x 10 colored photographs mounted on the face of the Sound Page.
Floor Plans	Offset press.
Objectives, Tests & Handouts	Originals, on an offset press.
Script	Copies of narration on audio tapes and sound pages reproduced on 3M copier, black/white.
Slides	Copies of originals.
Tray	To hold slides.

(Inside Address)

Dear

Recently, instruction in the use of the academic library has received increased attention. While not the only method, use of slide/tape presentations is probably the most popular. Unfortunately, many libraries are unable to provide the necessary resources for their production, or, if resources are available, there is much unnecessary duplication of efforts.

The purpose of this survey is to determine the present state of the art concerning slide/tape library instruction. It is hoped through distribution of the results, exemplary presentations will become known and available to more libraries. Duplication of efforts may be avoided and presentations may become available to libraries who do not have the resources for their original production.

Since, according to Mary Bolner, Project Director of LOEX, you have used or are using the slide/tape method of instruction at your library, please take a few minutes to share your experience with others. While the emphasis of this survey is on systematic programs consisting of several individual presentations, possibly with accompanying assignments for academic credit, information concerning use of slide/tape library instruction at your library is important, even if it consists of only one presentation. Anonymity will be given if so desired.

Dissemination of the major results is planned through a journal article. Complete results will be made to respondents prior to publication, and they will also be made available to the ERIC system for distribution.

Your cooperation will be necessary for the success of this project and will be most appreciated.

Sincerely,

Larry Hardesty  
User Services Coordinator

Appendix B: Survey Questionnaire

Slide/Tape Library  
Instructional Program Survey

Optional Information

Date: \_\_\_\_\_

Name: \_\_\_\_\_

Position: \_\_\_\_\_

Library: \_\_\_\_\_

Institution: \_\_\_\_\_

Address: \_\_\_\_\_

Do Not  
Write In  
this Space

Circle one response except where indicated:

1. Highest degree offered by your institution:

- a. Associate Degree    b. Bachelor's    c. Master's  
d. Doctorate

2. Full-Time Equivalent Student Enrollment (FTE):

- a. 0-1000    b. 1001-5000    c. 5001-10,000  
d. 10,001-15,000    e. 15,001-20,000  
f. 20,001-30,000    g. 30,000+

3. Number of volumes in your library:

- a. 0-50,000    b. 50,000-100,000    c. 100,000-250,000  
d. 250,000-500,000    e. 500,000+

4. Circle all that apply. What type of use does your library make of slide/tape presentations.

- a. Do not use slide/tapes.  
b. Use slide/tapes for orientation.  
c. Use slide/tapes for instruction on only a few major library items.  
d. Use slide/tapes for a complete program of library instruction (which may consist of several related presentations, accompanying assignments, and academic credit.)  
e. Other \_\_\_\_\_

Do Not  
Write In  
This Space

5. Circle all that apply. If a complete program is offered through slide/tapes, is it offered as:

- a. required course for academic credit
- b. optional course for academic credit
- c. required course for non-credit
- d. optional course for non-credit
- e. other (specify) \_\_\_\_\_

6. Primarily to whom are your slide/tape presentations directed:

- a. any user on demand
- b. any group on demand
- c. primarily only particular groups  
ie. Freshman English Classes (specify) \_\_\_\_\_
- d. students enrolled in course(s) such described in question number 5
- e. other \_\_\_\_\_

7. Indicate all that apply. What library material are presented in the slide/tape presentations, and what is the approximate length of each: (example Periodical Indexes: Reader's Guide, 5 minutes; Education Index, 6 minutes)

- a. General Library Orientation: \_\_\_\_\_
- b. Periodical Indexes: \_\_\_\_\_
- c. Card Catalog: \_\_\_\_\_
- d. Reference Items: \_\_\_\_\_
- e. Government Documents: \_\_\_\_\_
- f. Microform Items: \_\_\_\_\_
- g. Other: \_\_\_\_\_

Do Not  
Write In  
his Space

8. Who is primarily responsible for offering the individual presentations to the viewer:

- a. professional librarian
- b. library support staff member
- c. classroom faculty
- d. student aide
- e. individual views presentations without assistance
- f. other \_\_\_\_\_

9. Where are the presentations mainly viewed:

- a. in classrooms
- b. in learning labs
- c. near library item to be used
- d. other \_\_\_\_\_

10. Who produced each presentation:

a. Commercially Produced:

(Presentation)	(Company)	(Approximate Cost)
_____	_____	_____
_____	_____	_____
_____	_____	_____

b. The Library:

(Presentation)	(Company)	(Approximate Cost)
_____	_____	_____
_____	_____	_____
_____	_____	_____

c. Audio-Visual Services of Your Institution:

(Presentation)	(Company)	(Approximate Cost)
_____	_____	_____
_____	_____	_____
_____	_____	_____

d. Other:

(Presentation)	(Company)	(Approximate Cost)
_____	_____	_____
_____	_____	_____
_____	_____	_____

11. Who primarily financed your slide/tape presentations:
- a. the library
  - b. audio/visual services
  - c. the college or university
  - d. grant funding
  - e. other \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
12. If the individual presentation(s) are viewed as part of a series with possible accompanying assignments, how long does it take the average viewer to complete the viewing of all the presentations and any accompanying assignments:
- a. less than one week
  - b. one to two weeks
  - c. three to six weeks
  - d. one semester
  - e. no time limit
  - f. question not apply
  - g. other \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
13. Approximately how many \_\_\_\_\_ and what percent \_\_\_\_\_  
fill in number fill in number  
of your student body view the slide/tape presentations each academic year?
14. Have your slide/tape presentation(s) been evaluated:
- a. Yes
  - b. No
  - c. Other \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
15. Indicate all that apply. If your presentations have been evaluated, by whom:
- a. librarians
  - b. classroom instructors
  - c. students
  - d. question not apply
  - e. other \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Do Not  
Write In  
This Space

16. Indicate all that apply. If your presentations have been evaluated, what was the method?

- a. formal test of users
  - b. questionnaire completed by users
  - c. interviewing users
  - d. question not apply
  - e. other \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

17. Full name and model number of hardware used:

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

18. Is your presentations adaptable to other libraries?

- a. Yes
  - b. No
  - c. Other \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

19. Indicate all that apply. If your presentations are adaptable, are they:

- a. available for loan
  - b. available for loan for duplication
  - c. for sale (state price for each) \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

d. other \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

20. Indicate all that apply. What other types of mediated library instruction/orientation does your library use?

- a. slides only
  - b. tapes only
  - c. videotapes
  - d. filmstrips
  - e. films
  - f. other \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

Do Not  
Write In  
This Space

22. Would you please comment on the positive as well as the negative aspects of your slide/tape program. Particularly what were the results of any evaluation of your presentation? Please enclose material used for any formal evaluation.

Dear

Recently, instruction in the use of the academic library has received increased attention. While not the only method, use of slide/tape presentations is probably the most popular. Unfortunately, many libraries are unable to provide the necessary resources for their production, or, if resources are available, there is much unnecessary duplication of efforts.

The purpose of this survey is to determine the present state of the art concerning slide/tape library presentations. It is hoped through distribution of the results, exemplary presentations will become known and available to more libraries. Also, libraries can share their experiences in producing slide/tape presentations.

Originally, this survey was conduct last May, but since that time Carolyn Kirkendall, Director of Project LOEX, has indicated to me that your library is using some form of library slide/tape presentations for either instruction or orientation. Would you please take a few minutes to share your experiences with others.

While the emphasis of this survey is on systematic programs consisting of several individual presentations, possibly with accompanying assignments for academic credit, information concerning any use of slide/tape presentations at your library is important, even if it consists of only one presentation. Anonymity will be given if so desired.

A summary of the results of this survey will be made available to respondents at their request. Complete results will be made available to Project LOEX and to the ERIC system for distribution.

Your cooperation will be necessary for the success of this project and will be most appreciated.

Sincerely,

Larry Hardesty  
Reference Librarian

## Slide Projectors and Supplies

Page	CAT. No.	Product Description	List
AV-C2		KODAK EKTAGRAPHIC Slide Projector, Model AF-3	
	147 0665	AV343R with EKTANAR 3-inch f/3.5 Lens (rack focusing) (L)	\$294.50
