ABSTRACT

This courseware evaluation rates the Orthographic Projection program developed by Hobar Publications. (The program--not contained in this document--uses computer graphics to present abstract visual concepts such as points, lines, and planes.) Part A describes the program in terms of subject area and hardware requirements (Apple II), indicates its suitability for use as drill or tutorial in grades 9-12, and gives a time estimate (20 minutes per project for 7 projects). Accompanying materials include student and teacher manuals. Availability information includes backup policy (\$7.50 for replacement disk) and contact address. Part B contains the evaluation criteria in eight categories; reviewer ratings appear as yes, somewhat, no, and not applicable, with explanatory comments. Part C summarizes the evaluation. Yes ratings were given for subject matter and technical presentation; somewhat for student interaction and documentation; the other categories were not applicable. Reviewers found the program to be well done and a concise presentation. Weaknesses were some directions, overlapping of points or lines, and difficulty moving from one drawing to the next. The program is recommended for group instruction. (SK)

COURSEWARE EVALUATION

FOR

VOCATIONAL AND TECHNICAL EDUCATION

The evaluation of this courseware program was conducted by a team participating in the Courseware Evaluation Network. The Network, established in 1985, is coordinated by the National Center for Research in Vocational Education under the sponsorship of the U.S. Department of Education, Office of Vocational and Adult Education. The purpose of the Network is to identify and evaluate microcomputer courseware, and to disseminate courseware reviews for vocational and technical education.

Each Network team includes three members, at least one of which is, or recently has been, a vocational or technical teacher in the subject matter area of the courseware being evaluated. The evaluation represents a synthesis of the opinions of the team members. It is suggested that the evaluation be used as a first screening device for courseware and that the teacher also evaluate the courseware program on the basis of specific student needs.

The Courseware Evaluation: Form and Guide used for all of the Network evaluations was developed by the National Center and is available through its cost-recovery system.

### Part B: Courseware Evaluation Criteria

Indicate the applicability of each section to the courseware being evaluated by checking either "\_\_\_ A" (applicable) or "\_\_\_ N/A" (not applicable). If a section is not applicable, proceed to the next section. If a section is applicable, check the column that indicates how well the courseware meets each criterion. Include any comments.

VIII. APPLICATION PROGRAMS ___ A ___XN/A (to be completed for application programs only)					
1. Program is adaptable to the needs of the student.					
2. Commands are easily remembered.					
3. Information is easily manipulated.					
4. Corrections are easy to make.					
5. Program includes all necessary variables.					
6. Program performs reliably.					
7. Program efficiently achieves its intended purpose.					
8. Trial data are supplied for learning to run the program.					
9. Program provides for use of printer when hard copy of information is advantageous.					
10. Program moves from operation to operation efficiently.					
11. Program is compatible with other application programs.					
12. Program has a supplementary tutorial program available.					

**Part C: Courseware Evaluation Summary**

**1. SUMMARY COMMENTS**

Identify strengths of the courseware:

Well done. Concise presentation.

Identify weaknesses of the courseware:

Directions weak.

Difficult moving from one drawing to the next.

Points and lines overlap in some cases.

Describe uses of the courseware in an instructional setting:

Using it in groups to teach a number of lessons.

**2. SUMMARY OF SECTION**

Rate the quality of the courseware for each applicable section of this form by checking the appropriate column; if not applicable, check N/A.

	YES	SOME- WHAT	NO	N/A
I. SUBJECT MATTER: Content has educational value.	X			
II. TECHNICAL PRESENTATION: Program is free of malfunctions.	X			
III. STUDENT INTERACTION: Students are actively involved with the program.		X		
IV. PROGRAM INTERACTION: Feedback is effectively employed.				X
V. STUDENT EVALUATION: Evaluation adequately measures student progress.				X
VI. DOCUMENTATION: Documentation is sufficient to run the program.		X		
VII. WORK BEHAVIORS: Program assists students in developing positive work attitudes and skills.				X
VIII. APPLICATION PROGRAMS: Program performs the task for which it is intended.				X
