## ABSTRACT

This edition focuses on statistical data supplied by Michigan public libraries, public library cooperatives, and those public libraries which serve as regional or subregional outlets for blind and physically handicapped services. Since statistics in Michigan academic libraries are typically collected in odd-numbered years, they are not included here. The statistical tables itemize sources of library income, types of expenditures, library materials and collection totals, circulation and interlibrary loan traffic, reference transactions, patrons, hours, and staff. Automation trends, like the presence and use of online public access catalogs, fax document delivery, full-text databases, dial access to library catalogs, and microcomputers for public use, are also numerically outlined. Tables and data summaries also report on the activities of Michigan library cooperatives and of regional and subregional libraries which serve the blind and physically handicapped. (BEW)

## *Introduction*

This 1994 edition of the *Directory of Michigan Library Statistics* presents the most current statistical data supplied by public libraries, public library cooperatives and those public libraries which serve as regional or subregional outlets for blind and physically handicapped services. Statistical data for academic libraries is collected only once every two years on odd-numbered years. Thus academic statistics are not included in this edition.

For the first time, this year's publication features juvenile service and document delivery service statistics, as well as a library cooperative continuing education report. The automation sections provide new and expanded information on the usage of technology.

# Statistical Analysis

## Statewide Statistical Summary for Michigan Libraries

In the following pages, the Library of Michigan presents a summary of related public library statistical tables which can prove useful to state and local decision-makers as all work to improve the quality of public library service and programs. The following tables, graphs and charts enable library planners to compare their library activities with other comparable libraries and to evaluate present conditions. National averages from the Federal-State Cooperative System for Public Library Data (FSCS) are also presented for comparison.

Librarians, trustees and governmental administrators must keep in mind that libraries have varying funding and service patterns, even libraries of similar size, and that a single data element cannot tell the entire story. All data must be interpreted in an appropriate context and in terms of the library's overall service program. Statistical data can only suggest patterns and indicate areas which may need improvement or special attention by the local decision-makers.

### Statistical Summary Overview

Selected summary statistics, for the public libraries reporting by the 1 February 1994 deadline, can assist in determining how well each library is supported and how well it is serving the needs of its community. For comparative purposes, the 1991 and 1992 data is also presented. Michigan's per capita average are calculated by dividing the data element by the total population figures of the reporting libraries.

<i>Measure</i>	<i>Michigan Average 1991</i>	<i>Michigan Average 1992</i>	<i>Michigan Average 1993</i>

## Michigan Public Libraries

In the Spring of 1994, the National Data Resource Center provided a report listing comparative data for Michigan Public Libraries on a national basis. The report ranked Michigan on a per capita basis with all 50 states and the District of Columbia. The statistical data below compares the library reporting period of 1990/91 and 1991/92. All statistics were reported, compiled and sent by the Library of Michigan to the U.S. Department of Education in July. Michigan is a member of the national data collection system called the Federal State Cooperative System (FSCS). The State of Michigan's national rankings fall primarily in the middle range for the past two years with a few notable exceptions. In some cases the national reporting of per capita averages may vary slightly from the figures reported on this page due to rounding and due to using Michigan's total census population figure and not the total population figures of the reporting libraries.

 † Other income includes **federal grants**, interest, gifts, overdue fines, photocopy and service fees, contract fees, rental fees, and proceeds of fundraisers.  
 †† Some public libraries are reflected twice since they receive local income from millage and appropriations.

## Income Per Capita

Income per capita relates total library income to the population served by the public libraries. This statistic reflects the library's financial support in relation to population. Libraries in communities with a lower state equalized evaluation might require higher library millage votes in order to generate a satisfactory level of income. The statistic is determined by dividing the total income reported by public libraries by the state's population.

### Federal-State Cooperative System for Public Library Data

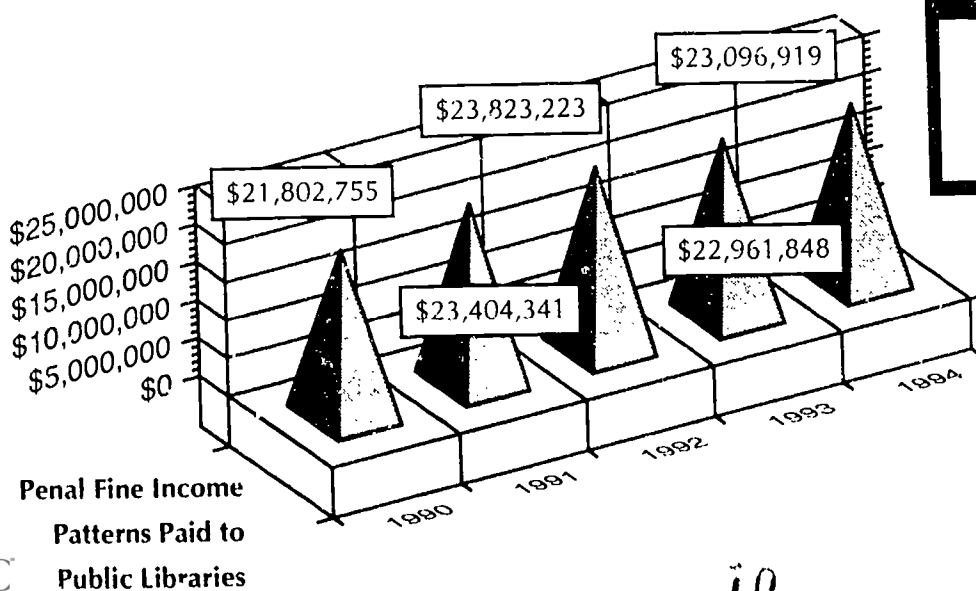

#### % of Local Income Support to Total Income

	1991	1992
• National Average	76.8%	78.6%
• Michigan Average	79.8%	82.2%

## Penal Fine Income Patterns

(1990-1994)

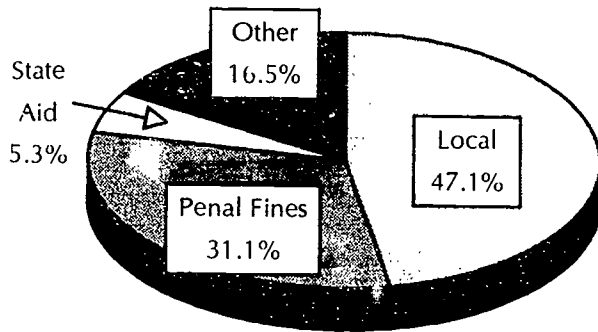

In Michigan, fines collected from offenders for violation of state penal laws are collected by the courts and sent to the county treasurer. The penal fines are disbursed to the public libraries on a per capita basis either annually or on a payment schedule adjusted by the county treasurer and the libraries in the county.

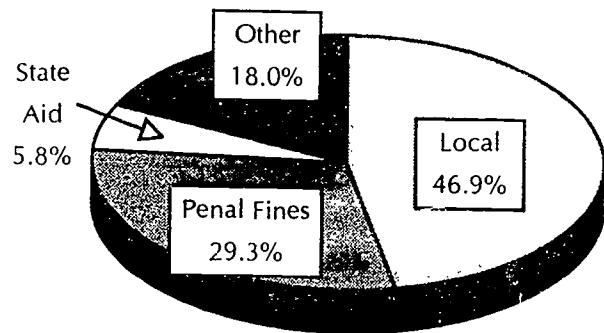

### Michigan Fact (FSCS)

Total Income Per Capita is \$17.61 for 1992. National Ranking is 26

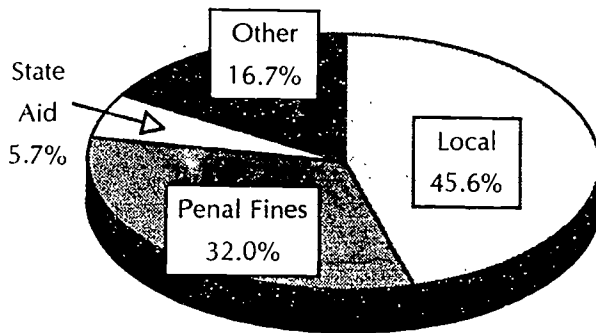

## *Funding Pattern for Libraries in Each Class when Grouped by the Population Served*

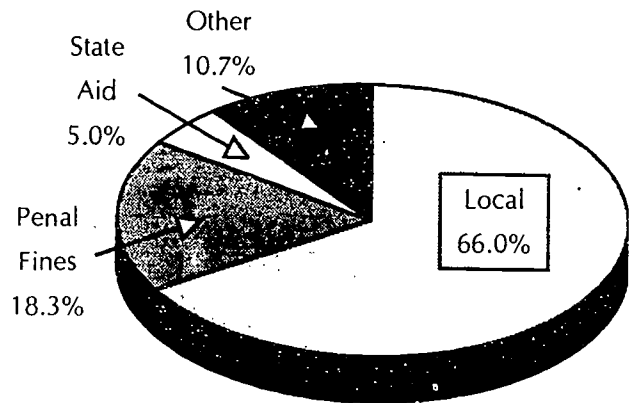

**Group 1 (0-3,999)**

**Group 2 (4,000-6,999)**  
75 Public Libraries

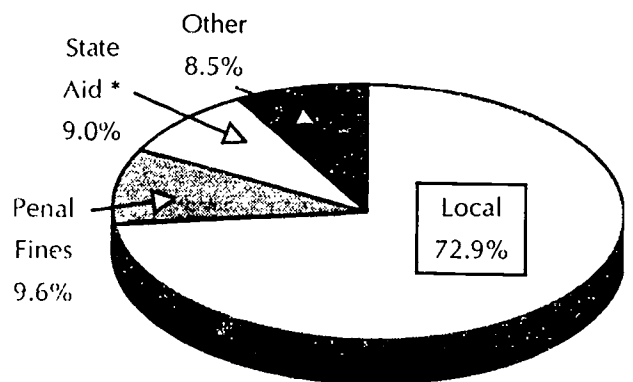

**Group 3 (7,000-11,999)**  
85 Public Libraries

**Group 4 (12,000-25,999)**  
59 Public Libraries

**Group 5 (26,000-49,999)**  
31 Public Libraries

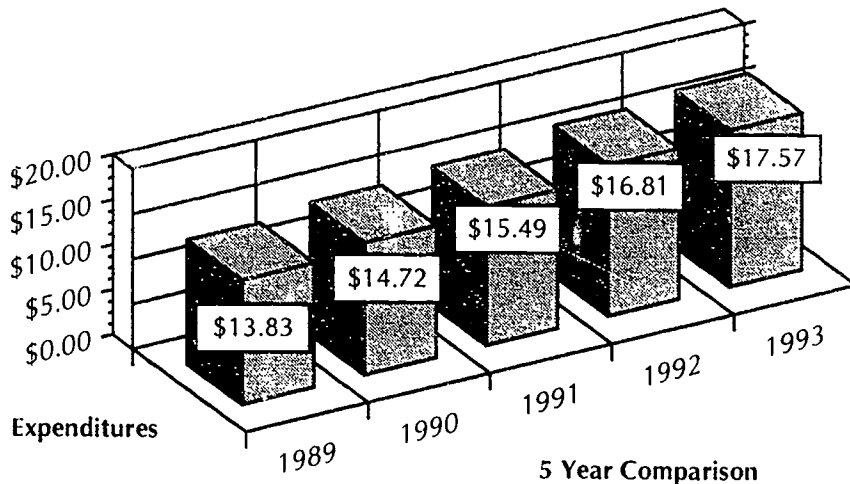

**Group 6 (50,000 and over)**  
42 Public Libraries

\* Includes the Detroit Equity grant of \$5.76 million

**Conclusion:** Although the state average indicates that local tax income provides 68.8% of library funding, this average is significantly lower for class I-III libraries. The small libraries remain very dependent upon penal fines income. State aid provides a greater proportion of income for the Group 6 libraries. However, the state aid percentage decreases to an average of 4.2% for Group 6 libraries when the Detroit State Equity grant is not considered.

## Expenditure Per Capita

Expenditure per capita relates library expenditures to the population served by the public libraries. This statistic reflects the library's expenditure support in relation to population. Libraries in communities with a low tax base must usually generate a proportionally greater financial effort to support adequate library services. This statistic is determined by dividing the total expenditure of reporting public libraries by the state's library service population.

*Federal-State Cooperative System for Public Library Data*

**1992 Percentage of Expenditure Category Average**

## *Expenditure Pattern for Libraries when Grouped by the Population Served*

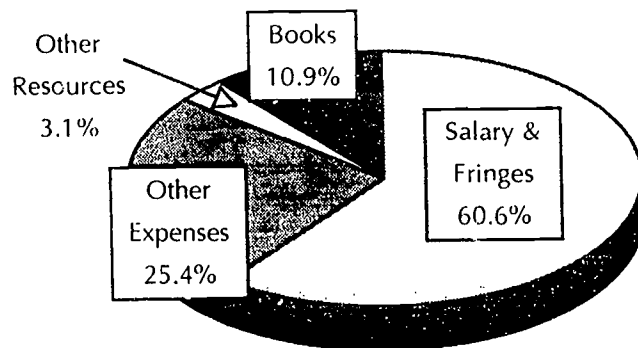

**Group 1 (0-3,999)**  
82 Public Libraries

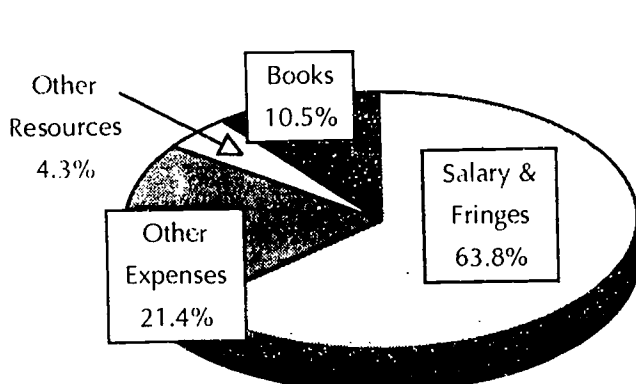

**Group 2 (4,000-6,999)**  
75 Public Libraries

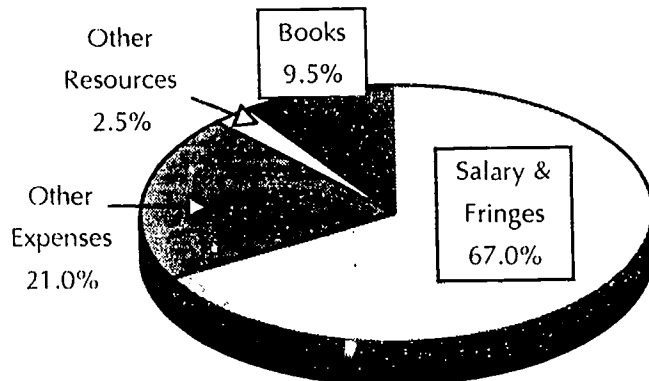

**Group 3 (7,000-11,999)**  
85 Public Libraries

**Group 4 (12,000-25,999)**  
59 Public Libraries

**Group 5 (26,000-49,999)**  
31 Public Libraries

**Group 6 (50,000 and over)**  
42 Public Libraries

**Conclusion:** The expenditures data clearly indicates that as the public libraries serve a larger population a greater share of the library's expenditures go to support salaries and fringes. Expenditures for books and other resources remain above or near the state average of 13.1% for all six group sizes.

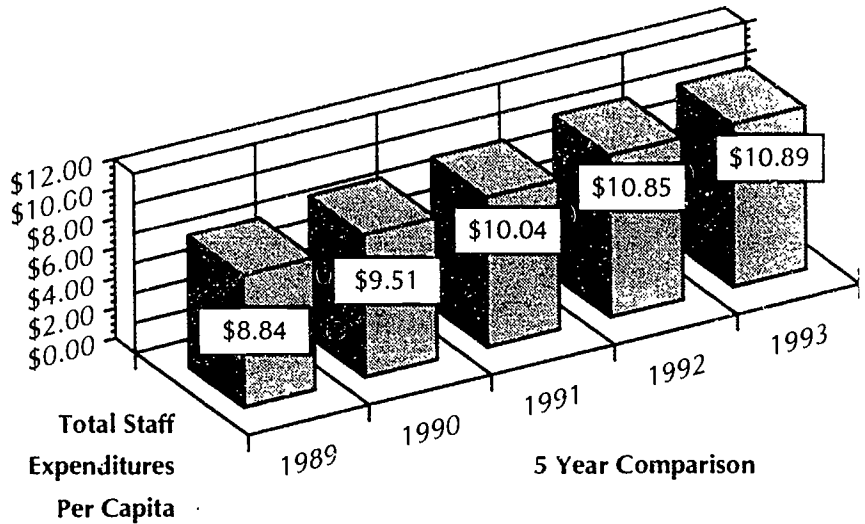

## Total Staff Expenditures Per Capita

Total staff expenditures per capita relates the cost of staff to the population served by the public libraries. This statistic reflects the level of support for the staff that manages and delivers library services. This statistic is determined by dividing salaries and fringes expenditures by the population served.

*Federal-State Cooperative System for Public Library Data*

**Staff Expenditure Per Capita**

	1991	1992
• National Average	\$11.34	\$12.13
• Michigan Average	\$10.04	\$10.85

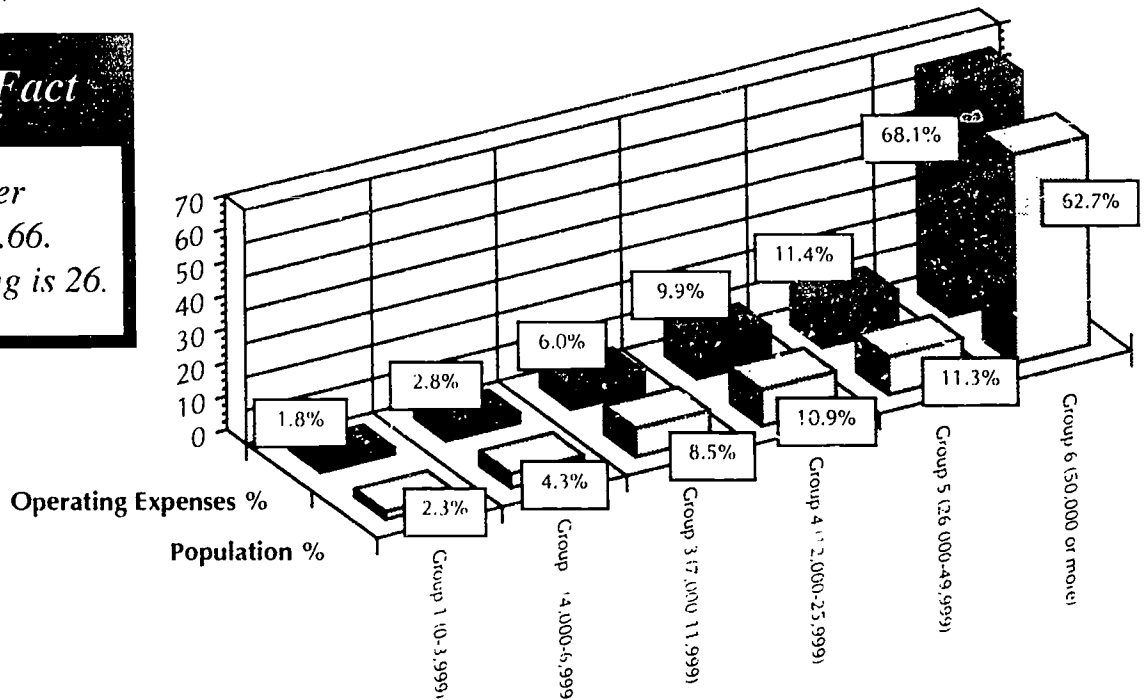

## Operating Expenses Grouped by Population Served

The following chart reflects the percentage of the total reported operating expenses for the various public library groups. Interpreting the chart: i.e. Group 1, (libraries serving 0 - 3,999 persons), serves 2.3% of the state's population with reported operating expenses of 1.8% of state's total compared to Group 4, (libraries serving 12,000 - 25,999), which serves 11.3% of the state's populations with reported operating expenses of 9.9% of the state total.

**Michigan Fact**

Salaries per Capita is \$8.66.  
National Ranking is 26.

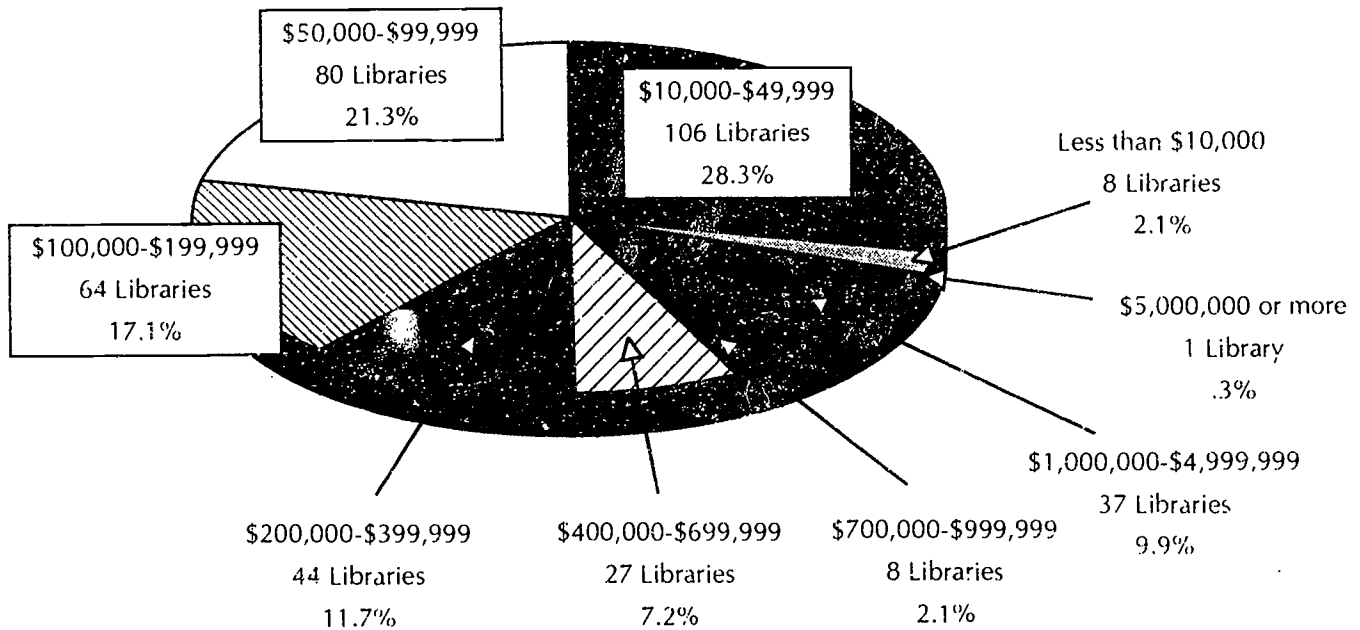

**Conclusion:** Smaller libraries expend proportionally less monies than larger public libraries when comparing total expenditures percentage to the percentage of Michigan population that they serve.

## Libraries Grouped by Total Expenditures

375 of Michigan's public libraries provided a detailed breakdown of their expenditures for 1993. An exact comparison of actual expenditures is not possible since the legal structure, the physical location and municipal services to the library are not consistent across the state. For example, many public libraries do not have to pay rent, utilities, maintenance services and other related service charges while other public libraries do. With this qualification, the following chart is provided that groups Michigan libraries by the total of reported expenditures.

Conclusion: 193 or 52% of Michigan's 375 reporting public libraries operate on less than \$100,000 in actual expenditures annually.

1992 Data

## Collections

Collection size varies greatly both between and among the size groupings of public libraries. The following chart identifies the number of libraries in each category when ranked by the size of their collection, as well as the percentage of all Michigan libraries in each group.

**375 Libraries Reported Collections**

### Total Volumes Available

The five year trend for volumes available at Michigan public libraries is presented below.

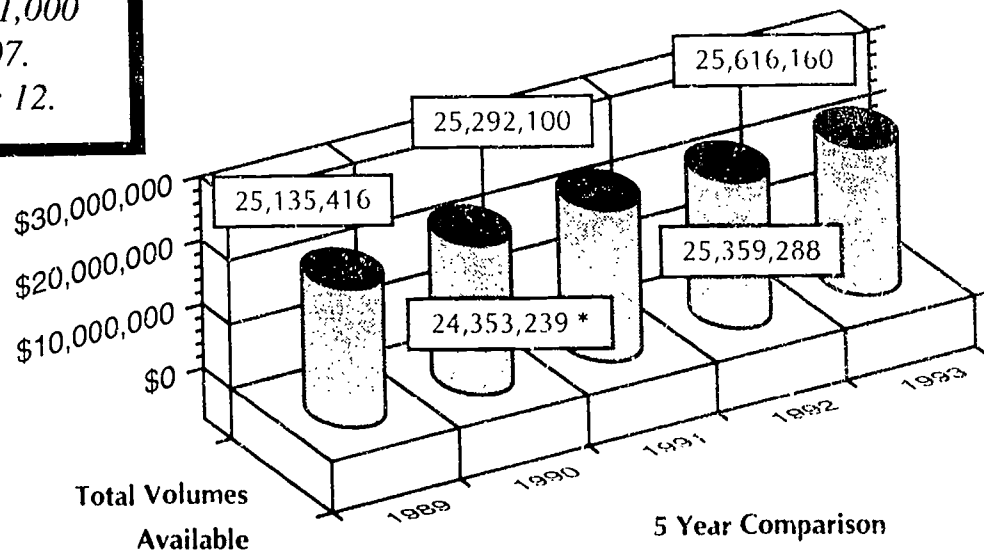

*Federal-State Cooperative System for Public Library Data*

**Collection Expenditures Per Capita**

	1991	1992
• National Average	\$2.75	\$2.84
• Michigan Average	2.13	2.31
Michigan Ranking	34	34

**Michigan Fact (FSCS)**

Video Collection per 1,000 Population is 37.07.  
National Ranking is 12.

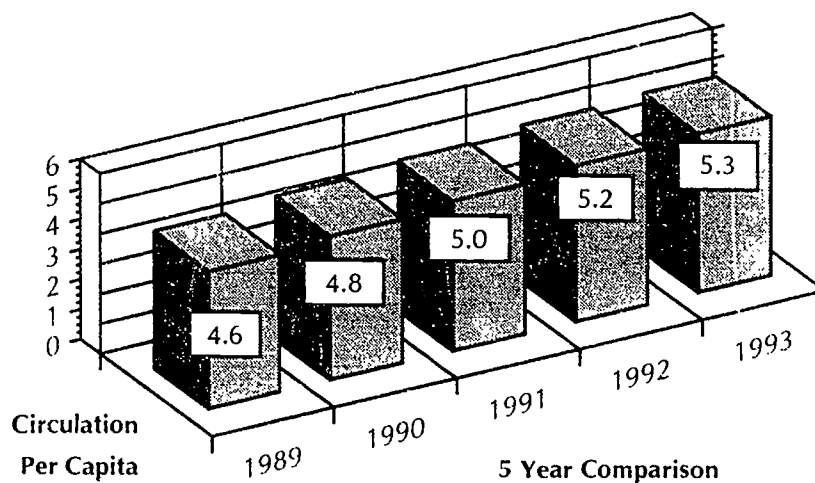

\* The 1990 figure is lower due to a definition change resulting in a revised total that differs by over a million items from that reported previously.

## Circulation Per Capita

Circulation per capita relates to the number of items circulated by public libraries and the populations they serve. This statistic is one measure of the state's use of the public libraries. The statistic is determined by dividing the total state annual circulation by the total state population served. The chart reflects the state's per capita trend over the past five years.

<i>Federal-State Cooperative System for Public Library Data</i>		
<i>Annual Attendance Per Capita</i>		
	1991	1992
• National Average	3.70	4.01
• Michigan Average	4.10	3.20
Michigan Ranking	27	28

Slight differences occur when circulation per capita is broken out by the public library size groups. A two year comparison of circulation per capita is reflected in the following chart.

Population Groups	Number of Libraries 1993	Population Served 1993	Circulation Per Capita Average		
			1991	1992	1993
0 - 3,999	83	214,791	4.8	5.3	5.9
4,000 - 6,999	75	402,192	5.6	5.8	5.7
7,000 - 11,999	85	791,855	5.4	5.7	5.8
12,000 - 25,999	59	1,013,312	5.2	5.6	5.8
26,000 - 49,999	31	1,057,724	5.4	5.9	6.2
50,000 or more	42	5,851,748	4.7	4.9	4.9
<b>Statewide Totals</b>	<b>375</b>	<b>9,331,622</b>	<b>5.0</b>	<b>5.2</b>	<b>5.3</b>

A high per capita indicates heavy use of the library's circulating resources while a low rate could indicate the library has extensive non-circulating materials, low resident awareness or collections not meeting user needs. Factors influencing this statistic include hours open for service, age and breadth of collections, and location and type of library facilities.

## Juvenile Services

Two years ago, public libraries began to provide statistical data on services to person's 14 years or younger. For 1993/94, 333 or 89% of the reporting public libraries provided juvenile statistical data. FY 1993/94 is establishing a base year for future year comparisons. Some interesting observations can be made.

Expenditures	Juvenile Collection Expenditures	Total Book Print Material Expenditures	% that Expended for Juvenile
Group I	\$132,888	413,405	32.1
Group II	242,420	731,973	33.1
Group III	378,404	1,356,210	27.9
Group IV	495,761	1,773,410	28.6
Group V	555,960	1,964,098	28.3
Group VI	1,870,316	10,710,188	17.5
	3,675,749	16,949,284	21.7

**Observation:** It appears that about 22% of all collection expenditures by public libraries are for juvenile materials.

Holdings	Juvenile Holdings	Total Collection Holdings	% of Holding that are Juvenile
Group I	285,996	1,078,734	26.5
Group II	397,283	1,510,428	26.3
Group III	618,572	2,576,627	25.2
Group IV	695,196	2,861,029	24.3
Group V	782,674	3,010,559	26.0
Group VI	2,651,874	15,721,398	16.9
	5,431,595	26,758,775	20.3

**Observation:** It appears that total collection holdings and the percentage spent on juvenile materials annually is fairly consistent. Percentage of juvenile holdings to expenditures for each group is not significantly different.

## Document Delivery Services

For two years, public libraries have been requested to provide statistical data regarding document delivery services. The statistical data is still questionable since many public libraries did not provide document delivery data. The following are summary charts of services within a region and outside of a region and the percentage of respondents.

### WITHIN REGION

#### Document Delivery Within Region of Cooperation

CLASS SIZE	Number Reporting	Response Rate (FAX)	INTRA-Region FAX Items	Response Rate (Article)	INTRA-Region Articles	Response Rate (Books)	INTRA-Region Books	Response Rate (AV)	INTRA-Region AV

STATE TOTALS	375	13%	806	10%	702	38%	24,422	3%	51

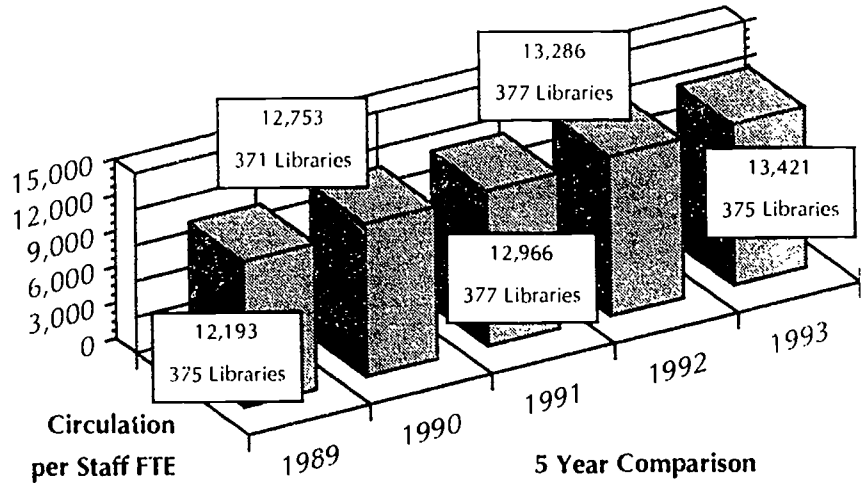

**Observation:** As expected, the movement of library resources within a region is much greater than movement outside of region. 66% of public libraries interloan book materials within the region while only 38% send materials outside the region.

## Circulation per Staff FTE

Circulation per Staff FTE relates to the number of items circulated by public libraries and the number of paid staff employed adjusted for a 40 hour work week. The statistic is derived by dividing the total state annual circulation by the state's total full-time equated persons. The chart reflects the state's circulation per staff FTE trend over the past five years.

**Michigan Fact (FSCS)**

*Interlibrary Loans per 1,000 Pop. is 40.72. National Ranking is 18.*

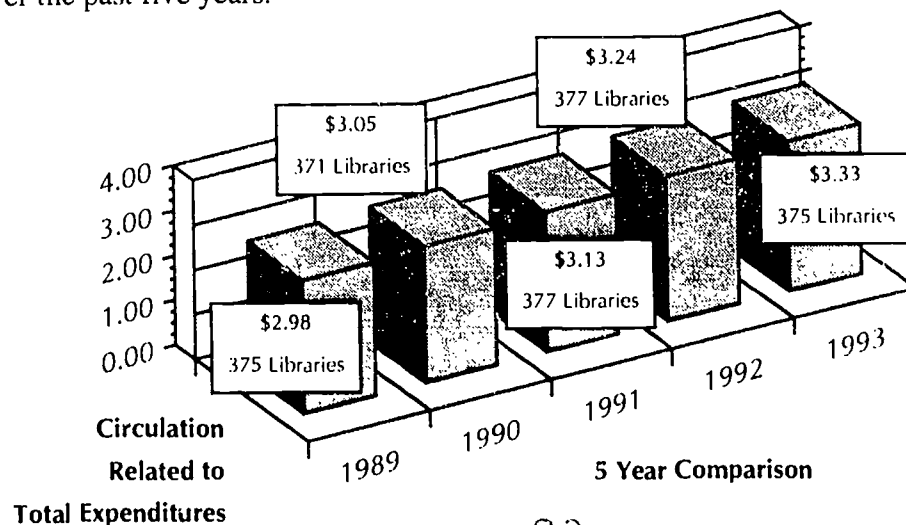

## Circulation Relative to Total Dollars Expended

Circulation compared to the total expenditures of a library can provide an annual cost per use average for public libraries. The statistic is calculated by dividing the state's total expenditures by the total annual circulation as reported by public libraries. The chart reflects the state's circulation relative to expenditure trends over the past five years.

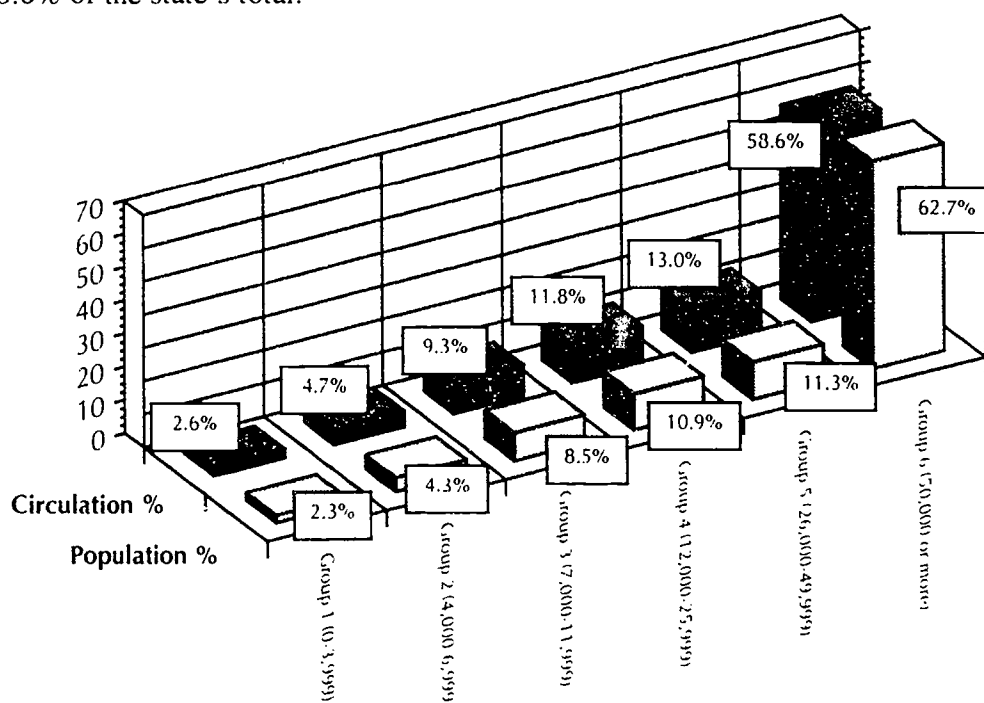

**Michigan Fact (FSCS)**

*Reference Transactions per reported library is .84. National Ranking is 19.*

## Circulation by Library Service Population

The following chart reflects the percentage of the state's total circulation of resources for each group when arranged by the size of the public library service population. Interpreting the chart - i.e. Group 2, (libraries serving 4,000 - 6,999), serves 4.3% of the state's population with circulation of 4.7% of the state's total compared to Group 6, (libraries serving 50,000 or more), serving 62.7% of the state's population with circulation of 58.6% of the state's total.

## Staffing Cost Per Circulation Transaction

This chart reflects the staffing costs (Wages & Fringes) compared against circulation statistics for population groups. In general, larger public libraries have higher circulation transaction costs because more staff are involved in non-circulation activities such as technical services, reference, administration and consultative services.

## Staff per 1,000 Population

For the second year in a row, in Michigan only .39 persons work in public libraries for each 1,000 citizens. Therefore, there is only one library employee for every 2,500 Michigan residents.

### Library of Michigan Staff Certification

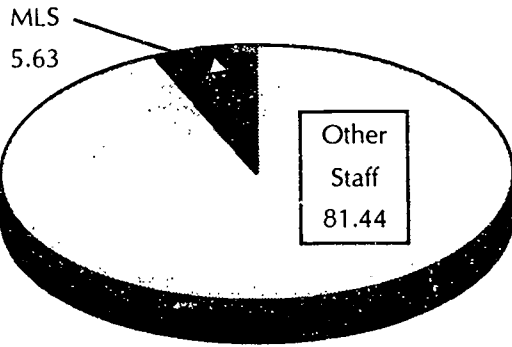

The Library of Michigan certification records reflect a total of 3,187 certified persons. A breakdown of certified staff actively employed in libraries of various types as of September 1994 is shown below.

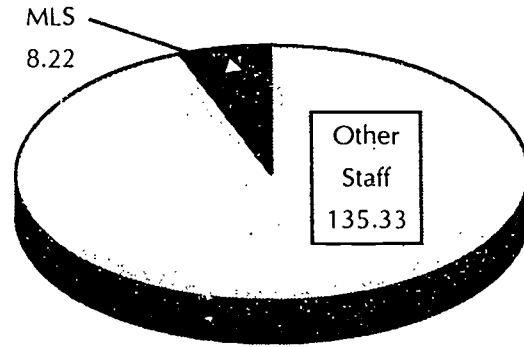

#### Certification

- I Librarian's Permanent Professional Certificate (MLS with 4 or more years experience)
- II Librarian's Professional Certificate (ALA accredited Master of Library Science degree)
- III Special Professional Certificate (Master's degree in any subject)
- IV Limited Professional: Class A (Bachelor of Library Science or enrolled in library school)
- V Limited Professional: Class B (Bachelor's degree in any subject)
- VI Library Technician's Certificate (accredited Associate of Library Technology degree)
- VII Certificate of Library Experience (Beginning Workshop must renew every 3 years)

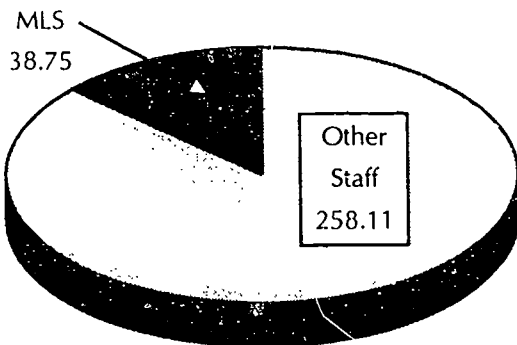

## Certified Librarians Grouped by Library Service Population

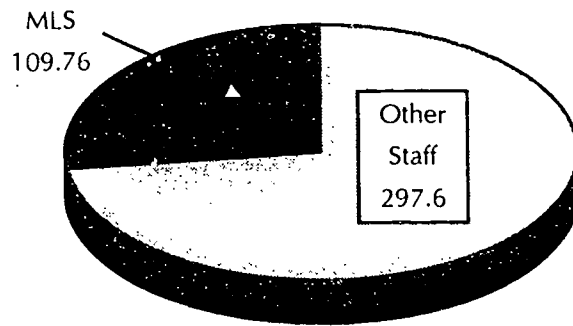

**Group 1 (0-3,999)**  
Total FTE's 87.07  
Total Libraries 82

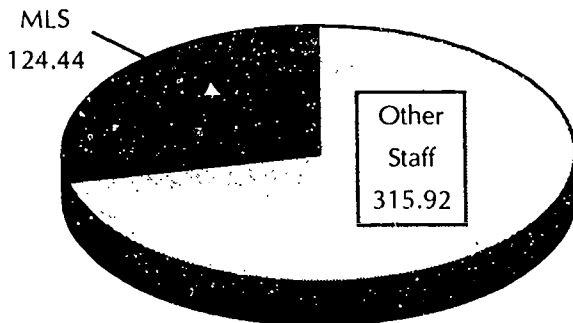

**Group 2 (4,000-6,999)**  
Total FTE's 143.55  
Total Libraries 75

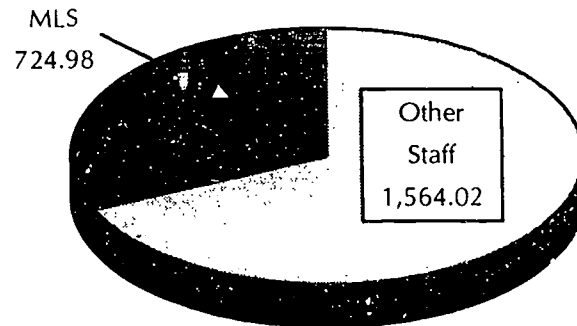

**Group 3 (7,000-11,999)**  
Total FTE's 296.86  
Total Libraries 85

**Group 4 (12,000-25,999)**  
Total FTE's 407.36  
Total Libraries 59

**Group 5 (26,000-49,999)**  
Total FTE's 440.36  
Total Libraries 31

**Group 6 (50,000 and over)**  
Total FTE's 2,289.00  
Total Libraries 42

**Conclusion:** The above charts reflect the full-time staff equivalents for public libraries. Group 1 libraries reflect a state low with only 6.5% of their total FTE employees having Master of Library Science Degrees (MLS). The highest percentage is Group 6 in which 31.7% of the total FTE's have an MLS. 71.7% (724.98) of all Masters Degree librarians employed in Michigan are in the 42 Group 6 public libraries.

<b>Statewide Totals</b>	375	3,664.20	9.77		

\* One Library has no paid employees; uses volunteers.

The state average reflects that a low of 1.05 persons to a high of 54.50 persons worked in public libraries. However, this statistic can be misleading since the larger public libraries, Groups 5 & 6, employ 74.5% of all staff persons, while representing only 19.5% of the total established public libraries. Many of the small public libraries average less than 1 full-time employee since the library's hours open are less than 40 hours per week. The 1992 overall state-wide average was 9.65 persons. For 1993 this average rose to 9.77 persons.

### Hours Open Per Week

Population Group	Number of Libraries 1993	Number of Outlets	Average Duplicated Hours Open Per Library Outlet		
			1991	1992	1993
0 - 3,999	83	87	26.6	27.4	27.3
4,000 - 6,999	75	87	31.1	32.2	32.1
7,000 - 11,999	85	117	33.9	35.4	34.8
12,000 - 25,999	59	101	37.5	38.0	34.3
26,000 - 49,999	31	81	35.7	35.6	35.0
50,000 - over	42	416	23.5	23.5	24.1
<b>Statewide Total</b>	375	889	28.5	28.9	28.7

**Conclusion:** The average large public library offers fewer hours open per week, per outlet, than the average small library. The statewide average is 28.7 duplicated hours with the libraries serving 26,000-49,999 persons offering the most hours per outlet at 35.0.

## Circulation and Services

Turnover Rate indicates the number of times each library item circulates during the year if circulation is spread evenly through library collections. The rate is calculated by dividing the state's total annual circulation by the state's total items available.

*Federal-State Cooperative System for Public Library Data*

	1991	1992
• National Average	6.1	6.4
• Michigan Average	5.0	5.2
Michigan Ranking	37	37

Total circulation as reported by Michigan's public libraries.
