ABSTRACT

This courseware evaluation rates the Drugs--Effect and Control program developed by Marshware/Marshfilm. (The program--not contained in this document--includes Drugs--Who's in Control and Their Effect on You.) Part A describes the program in terms of subject area and hardware requirements (Apple II, color monitor); indicates its suitability for use as application, drill, tutorial, simulation, or gaming in grades 7-12; and gives a time estimate (30 minutes). Accompanying material includes teacher guides. Availability information includes backup policy (\$10.00 within 30 days of purchase). Part B contains the evaluation criteria in eight categories; reviewer ratings appear as yes, somewhat, no, and not applicable, with explanatory comments. Part C summarizes the evaluation. The program received yes ratings in all categories: subject matter, technical presentation, student and program interaction, documentation, student evaluation, work behaviors, and application programs. Reviewers found the program easy to use and a good introduction to drug information and group interaction, but expressed a need for more difficult questions for upper-level students. The program is highly recommended. (SK)

COURSEWARE EVALUATION

FOR

VOCATIONAL AND TECHNICAL EDUCATION

The evaluation of this courseware program was conducted by a team participating in the Courseware Evaluation Network. The Network, established in 1985, is coordinated by the National Center for Research in Vocational Education under the sponsorship of the U.S. Department of Education, Office of Vocational and Adult Education. The purpose of the Network is to identify and evaluate microcomputer courseware, and to disseminate courseware reviews for vocational and technical education.

Each Network team includes three members, at least one of which is, or recently has been, a vocational or technical teacher in the subject matter area of the courseware being evaluated. The evaluation represents a synthesis of the opinions of the team members. It is suggested that the evaluation be used as a first screening device for courseware and that the teacher also evaluate the courseware program on the basis of specific student needs.

The Courseware Evaluation: Form and Guide used for all of the Network evaluations was developed by the National Center and is available through its cost-recovery system.
