ABSTRACT

In 1997, the Financial Aid Office Staff at Johnson County Community College (JCCC) in Kansas conducted a survey to gauge student satisfaction with the Student Financial Aid Office. Surveys mailed to 3,026 current and prospective JCCC students resulted in 299 usable responses. This report combines results for applicants for two types of financial aid (Federal and non-Federal), and also highlights the differences between each kind of award. Appended are the questionnaire and cover letter, as well as tabulated survey results. Major findings are presented under headings including overall satisfaction, types of financial aid received, ratings of services and contacts, length of wait, student likes and dislikes, interest in scholarship search services, suggested improvements, and Federal aid versus non-Federal aid applicants. In general, overall satisfaction, which averaged 3.8 on a 5-point scale, was seen as generally high but needing improvement. Six recommendations are made, including: (1) review phone procedures to decrease busy signals and waiting time; (2) continue to use modified "triage" procedures to help decrease time in line; (3) develop a comment card to monitor student satisfaction; (4) continue to refer students to free scholarship search web sites; (5) review the cost, staffing, and operational implications of offering additional limited evening hours; and (6) provide checklists to students detailing specific requirements and deadlines for various financial aid options. Objective

Staff in the JCCC Student Financial Aid Office requested a survey be conducted to supplement the findings regarding general ratings of student satisfaction with the Student Financial Aid Office obtained through the JCCC biennial Student and Auxiliary Services Survey.

This survey was conducted for the first time in 1997.

Methodology

Surveys were mailed on December 17, 1997, to a total of 3,026 current and prospective JCCC students, 2,075 of whom had applied for Federal financial aid and 951 of whom had applied for institutional and/or non-institutional financial aid. Two-hundred ninety-nine usable responses were received, producing a 9.9% response rate.

In general, this report combines results for applicants for the two types of financial aid (Federal and non-Federal). Differences in results for applicants for the two types of financial aid are reported on pages 21-22.

Major findings are contained in the bulleted points on the pages that follow. Tabled survey results are contained in Appendix A and a copy of the questionnaire and cover letter are contained in Appendix B. Students' verbatim comments are available as a supplement to this report.

Please direct any questions or comments about this survey, as well as requests for the supplement of students' verbatim comments, to:

- ◆ *The highest level of education completed by just under ninety percent of respondents was an associate's degree or less.*

Two-thirds have a high school diploma, 7% have a vocational certificate, and 16% have an associate's degree (see Table 1, Appendix A, and Figure 1, below).

Figure 1
Highest Level of Education Completed

- ◆ *On average, respondents were enrolled in nine hours at JCCC and through 12/97 had completed 27 hours of college credit at JCCC.*

Table 2 (Appendix A) details the number of credit hours enrolled in at JCCC for Fall 1997 and the number of college credit hours completed at JCCC through December 1997.

- ◆ *The mean age of student respondents was 26 years.*

Table 3 (Appendix A) contains a breakdown of age by category. Just over half were age 23 or younger. Only nine percent of the respondents were 40 years of age or older.

- ◆ *Seventy percent of the respondents were female.*

Table 4 (Appendix A) contains the breakdown of respondents by gender:

OVERALL SATISFACTION

1997 Financial Aid Office Student Satisfaction Survey

- ◆ Overall satisfaction, while generally high, could be improved.

The average rating given for satisfaction is 3.8 (on a five-point scale with 1="very dissatisfied" and 5="very satisfied"), between "neutral" and "somewhat satisfied" (see Table 5, Appendix A).

While the great majority (70%) are satisfied, almost one out of five (19%) report being either "somewhat" or "very dissatisfied". The remaining 11% are neither satisfied nor dissatisfied. (See Table 5, Appendix A, and Figure 2, below).

Figure 2
Overall Satisfaction Rating

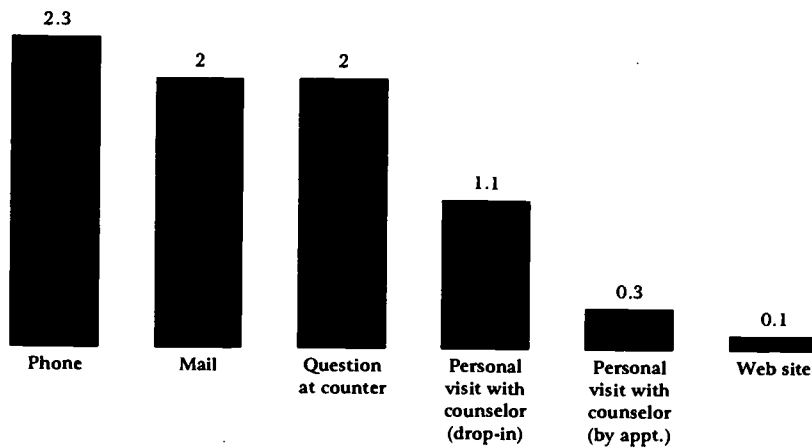

A more detailed discussion of satisfaction/dissatisfaction with the Student Financial Aid Office is found on pages 19-20 in this report.

NUMBER OF CONTACTS

- ◆ *The most-prevalent way to contact the Student Financial Aid Office was by phone.*

On average, students surveyed had 2.3 contacts with the Student Financial Aid Office in the last six months by phone, about two contacts by mail and to ask a question at the counter, and about one drop-in personal visit with a counselor (see Table 2, Appendix A, and Figure 2, below).

Figure 3
Mean # of Contacts with Student Financial Aid Office in Last Six Months by Type of Contact

- ◆ *The two least-prevalent ways of contacting the Student Financial Aid Office in the last six months are web site (96% haven't used) and personal visit by appointment with a counselor (83% haven't used). (See Table 6, Appendix A, and Figure 4, below.)*

Figure 4
Percent of Respondents Who Haven't Had This Type of Contact with Student Financial Aid Office in the Last Six Months

REASON FOR CONTACTING FINANCIAL AID OFFICE

1997 Financial Aid Office Student Satisfaction Survey

- ◆ *The most common reasons given for contacting the Student Financial Aid Office were to carry out some part of the financial aid application process.*

The five top reasons given for contacting the Student Financial Aid Office (see Table 7, Appendix A, and Figure 4, below) were related to the process of applying for and obtaining financial aid: to ask a question about the student's financial aid (82%), to turn in forms/documents (69%), to obtain forms/documents (51%), to check on the status of a financial aid/appeal (47%), and to supply information requested by the Student Financial Aid Office (44%).

Other reasons, each given by one-quarter to one-third of student respondents, related to whether the student qualified for grants/scholarships or student loans, or to determine what kind of financial aid was available.

Making an appointment with an advisor was given by only one in eight respondents and finding out about participation in a federal work-study program was given by only one in twenty-five respondents.

Figure 5
Reasons for Contacting JCCC's Student Financial Aid Office

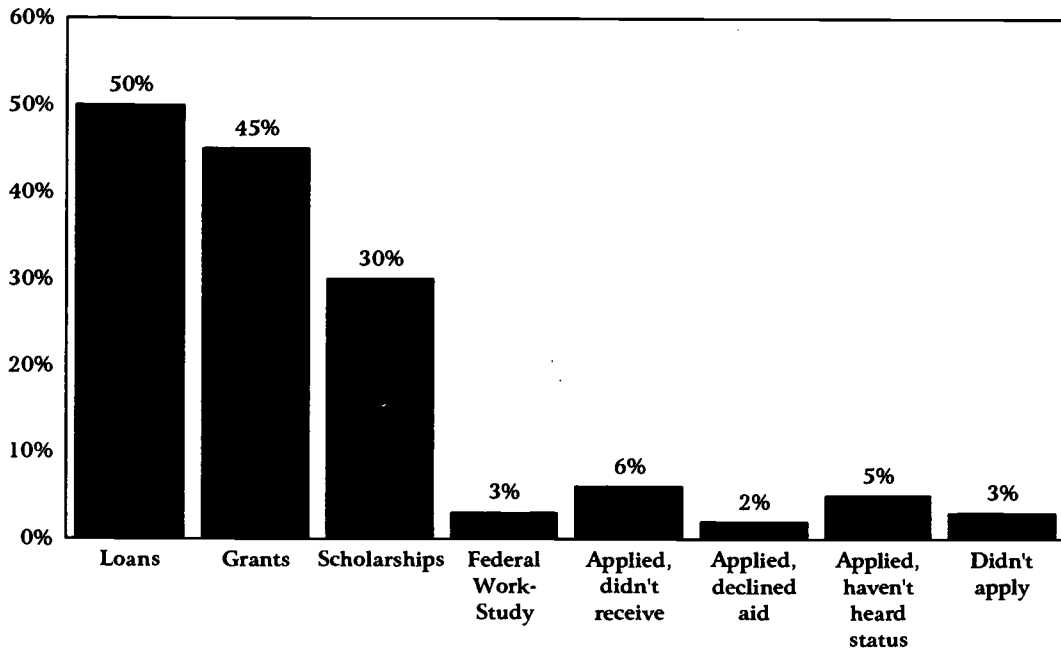

TYPES OF FINANCIAL AID RECEIVED *1997 Financial Aid Office Student Satisfaction Survey*

◆ *Half of the respondents received student loans.*

Table 8 (Appendix A) and Figure 5 (below) depict the proportion of respondents receiving the different types of student financial aid for 1997-98: loans (50%), grants (45%), and scholarships (30%). (Some respondents received more than one type of financial aid.)

Figure 6
Types of Financial Aid Received by Student for 1997-98

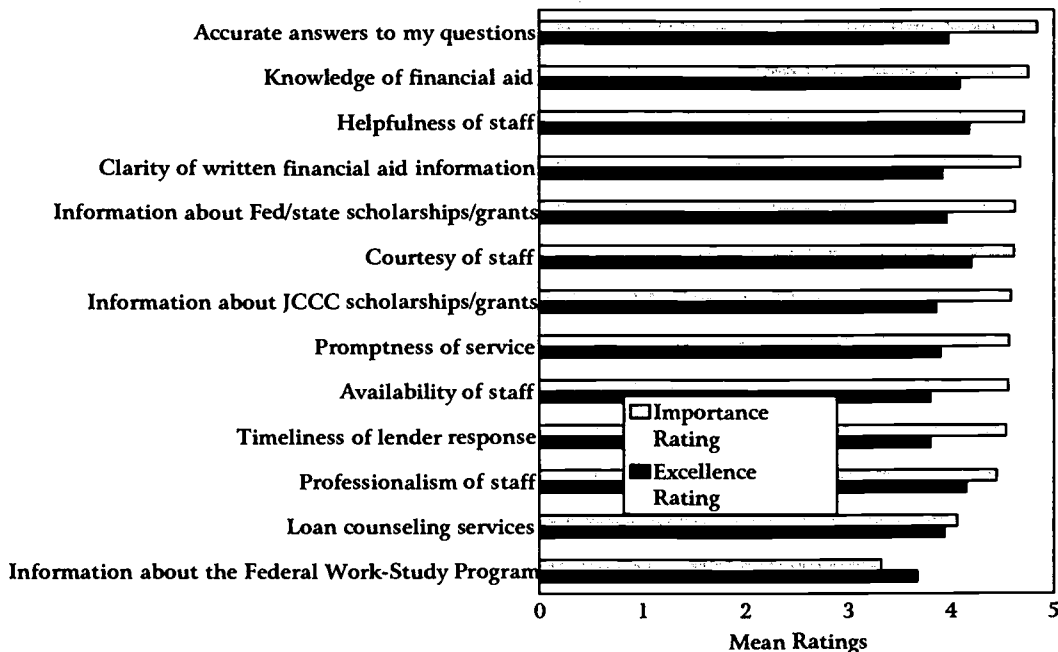

◆ Respondents rate accuracy and knowledge of financial aid most important.

The mean importance ratings given to various aspects of JCCC’s Student Financial Aid Office ranged from a low of 3.32 (on a scale of 1 to 5, with 1=“not very important” and 5=“very important”) for information about the Federal Work-Study Program to a high of 4.84 for accurate answers to my questions (see Table 9, Appendix A, and Figure 7, below). Students perceived all of the aspects of the Student Financial Aid Office listed (with the sole exception of information about the Federal Work Study Program) to be important, as evidenced by mean importance ratings from “important” to “very important”.

The mean excellence ratings given to these same aspects of JCCC’s Student Financial Aid Office ranged from a low of 3.67 (on a scale of 1 to 5, with 1=“poor” and 5=“excellent”) for information about the Federal Work-Study Program to a high of 4.20 for courtesy of staff.

Figure 7
Mean Importance/Excellence Ratings of Selected Aspects of JCCC’s Student Financial Aid Office

◆ The biggest gap between importance and excellence ratings was for accuracy.

As is clear from Figure 7, above, students’ perceptions of Financial Aid Office performance were lower than their perceptions of importance in every case except one (information regarding work-study programs). The magnitude of these differences is shown in Figure 8 on page 8.

- ◆ *After accuracy, the largest discrepancies between importance and excellence are for clarity of written financial aid information, availability of staff, timeliness of lender response, and information about JCCC scholarships/grants.*

Figure 8 (below) depicts the magnitude of the discrepancies, or gaps, between the mean ratings for importance and excellence.

Figure 8
Discrepancies Between Mean Ratings for Importance and Excellence

Note: Discrepancies are based on 5-point scales for both importance and excellence.

NECESSITY OF FINANCIAL AID IN BEING ABLE TO ATTEND JCCC

1997 Financial Aid Office Student Satisfaction Survey

◆ *Financial aid is a crucial factor in many students' being able to attend JCCC.*

Forty-six percent of the respondents indicated they definitely or probably would not have been able to attend JCCC without financial aid from JCCC, while 31% stated that they definitely or probably would still have been able to attend JCCC even if they hadn't received financial aid (see Table 10, Appendix A, and Figure 9, below). Another 14% were uncertain whether or not they would have been able to attend JCCC in the absence of financial aid.

Figure 9
Probability of Attending JCCC in Fall 1997 Without Financial Assistance from JCCC

◆ *Students consider themselves to be moderately knowledgeable about financial aid.*

Students agreed that they carefully reviewed all the written information they receive from JCCC's Student Financial Aid Office (mean=4.5 on a five-point scale with 1="strongly disagree" and 5="strongly agree") but they agreed less strongly that they considered themselves to be fairly knowledgeable about financial aid (mean=3.6). (See Table 11, Appendix A.)

Also, while students who gave an answer agreed that JCCC's Student Financial Aid Office compared favorably with other universities/community colleges, 45% of the total respondents indicated they didn't know how JCCC's office compared.

◆ *Generally, respondent attitudes about the financial aid packet were favorable.*

Respondent consensus was that the financial aid packet was helpful (mean=4.1), answered most of the respondent's questions (mean=3.8), and prompted the respondent to ask additional questions (mean=3.7).

Students registered little agreement with statements that the financial aid packet did not include enough information on specific topics (mean=2.7) and that it contained so much information they were confused (mean=2.5).

◆ *Six in ten respondents didn't know whether the JCCC Financial Aid Fair was helpful.*

Although those that rated the JCCC Financial Aid Fair generally agreed it was helpful (mean rating of 3.8), a significant percentage (60%) didn't know if it was helpful or not. This suggests the possibility that a significant number of respondents may not have been aware of and/or attended this event.

- ◆ *Overall, students rated most types of contacts with the Student Financial Aid Office as “good”. Students rated contacts made by telephone and by web site lower but still above “average”.*

Average ratings for contacts made by mail and personal visits, whether at the counter or by appointment or drop-in with a counselor, are “good” and range from 3.93 to 4.02 (on a five-point scale with 1 = “poor” and 5 = “excellent”). (See Table 12, Appendix A, and Figure 10, below.)

Students rated telephone contacts lower at an average of 3.57. The Web site was also rated lower, 3.39 on average, although this result should be interpreted with caution since it is based on a relatively small number of respondents (n=33).

Figure 10
Rating of Contacts with JCCC’s Student Financial Aid Office

- ◆ *Seventy percent or more of respondents had contacts with the Student Financial Aid Office in a variety of ways: by mail, in person at the counter, by telephone, or in person for a drop-in visit with a counselor.*

About 40% visited with a counselor by a set appointment and 12% had used the Web site.

- ◆ *On their last visit, over half of the respondents had to wait five minutes or less before talking with a Student Financial Aid Office representative.*

Sixteen percent did not have to wait at all to talk with a Student Financial Aid Office representative and an additional 37% waited only one to five minutes (see Table 13, Appendix A, and Figure 11, below).

One in eight respondents waited 16 minutes or longer before talking with a representative.

Figure 11
Length of Wait Before Talking to a Student Financial Aid Representative (Last Visit)

UNSUCCESSFUL CONTACTS

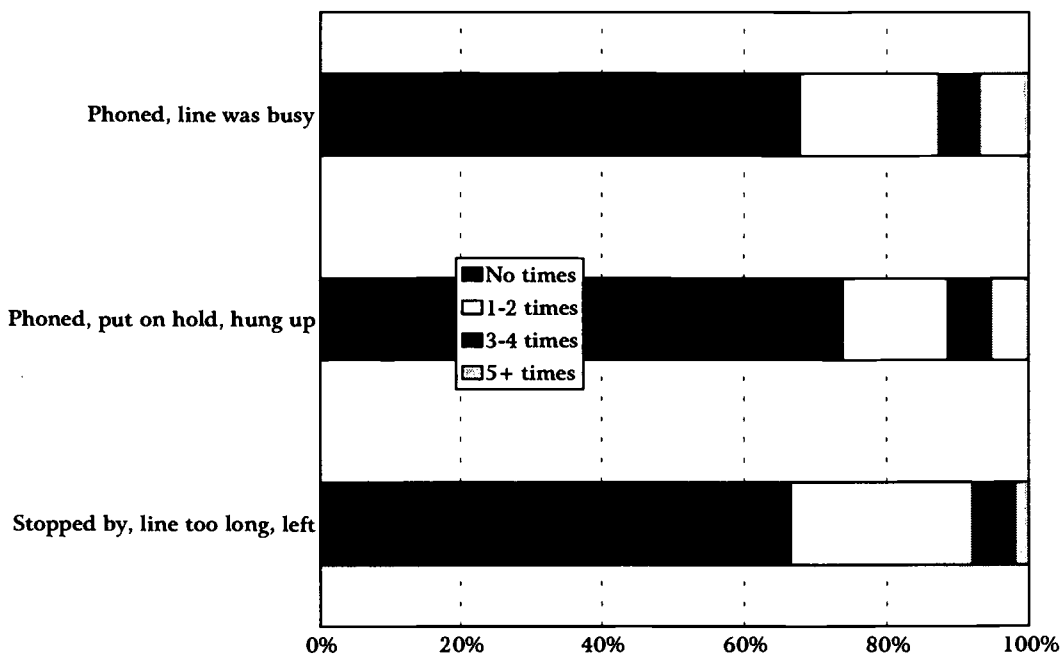

1997 Financial Aid Office Student Satisfaction Survey

- ◆ While respondents generally were able to successfully contact staff at the Student Financial Aid Office, this was not always the case.

Two-thirds (or more) of the respondents indicated there were no times when they had phoned the Student Financial Aid Office and had not been able to get through (either because the line was busy or because they were put on hold for so long they hung up), or when they had stopped by and left because the line or the wait was too long (see Table 14, Appendix A, and Figure 12, below).

About one-third of the respondents had experienced at least one occasion when they phoned and could not get through because the line was busy or had stopped by the office and left because the line or the wait was too long. Just over one-quarter of respondents indicated that, on at least one (or more) occasions(s), they had been put on hold for so long they finally gave up and hung up.

Figure 12
Number of Unsuccessful Attempts to Contact Student Financial Aid Office

- ◆ *A majority of students indicated they were likely to contact JCCC's Student Financial Aid Office from noon-2 p.m.*

Table 15 (Appendix A) and Figure 13 (below) detail time periods when students indicated they were likely or unlikely to contact JCCC's Student Financial Aid Office. Noon until 2 p.m. is clearly the most popular time slot, followed closely by 4 to 6 p.m. and 2 to 4 p.m.

The two morning time slots (8 to 10 a.m. and 10 a.m. to noon) were likely contact times for fewer students.

Figure 13
Likelihood of Contacting JCCC's Student Financial Office During Selected Time Periods

- ◆ *A significant percentage of respondents (39%) indicated they were likely to contact the Student Financial Aid Office from 6-8 p.m.*

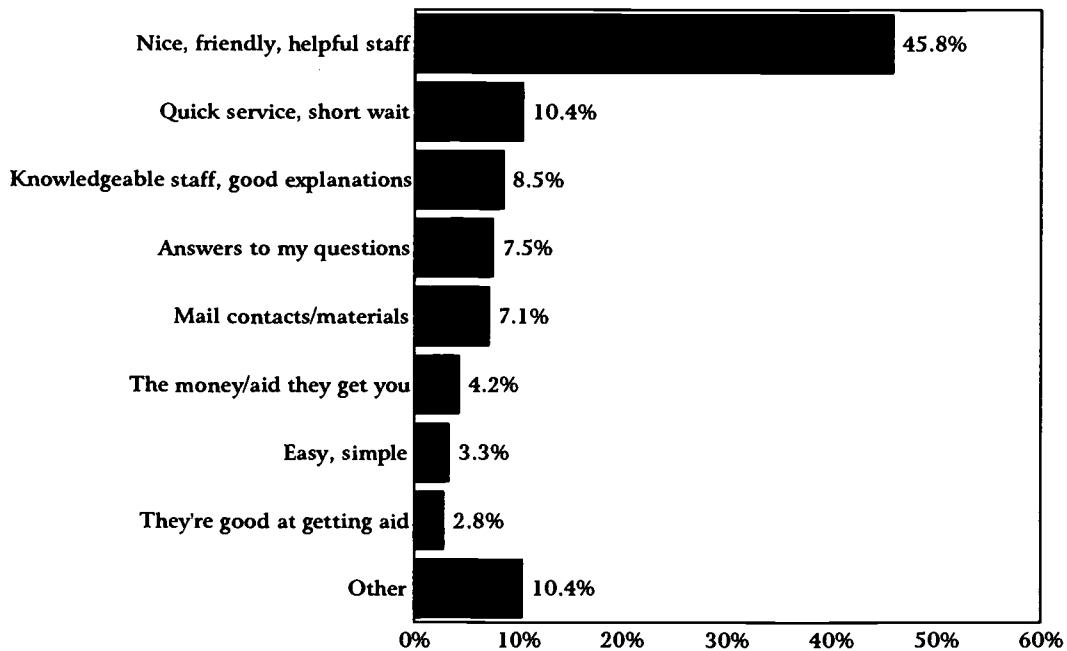

Thirty-nine percent (105 respondents) reported they were likely to contact the office during the 6-8 p.m. time period (if it were available). Of this 39%, almost all (92%) marked at least one alternate time period during which they were likely to contact the Student Financial Aid Office. The most prevalent alternate time period, given by 69% (of the 105 respondents), was from 4-6 p.m. The preference of the majority of this respondent group was evening hours.

- ◆ *“Nice, friendly, helpful staff” heads the students’ list of what they like most about JCCC’s Student Financial Aid Office.*

“Nice, friendly, helpful staff” was cited by 46% of respondents (see Table 16, Appendix A, and Figure 14, below).

In order, the next four positive attributes were: quick service, short wait (10%); knowledgeable staff, good explanations (9%); answers to my questions (8%); and mail contacts/materials (7%).

Figure 14
What Students Like Most About Student Financial Aid Office

STUDENT DISLIKES

◆ *Students' biggest dislike was long lines and long waits.*

Students listed only two main dislikes: long lines and long waits (29%), and difficulty getting through by phone (12%). (See Table 17, Appendix A, and Figure 15, below.)

Figure 15
What Students Like Least About Student Financial Aid Office

INTEREST IN SCHOLARSHIP SEARCH SERVICE

1997 Financial Aid Office Student Satisfaction Survey

- ◆ *Enough students expressed interest in a scholarship search service costing \$15 that a test offering this service is warranted if Financial Aid Office personnel are interested in pursuing this service.*

Over one-quarter of respondents indicated they definitely or probably would use a scholarship search service at a cost of \$15 (see Table 18, Appendix A, and Figure 16, below). An additional one-third indicated they might use it.

Figure 16
Likelihood of Using Scholarship Search Service if it Cost \$15

SUGGESTED IMPROVEMENTS

1997 Financial Aid Office Student Satisfaction Survey

- ◆ *Three of the five most-prevalent suggested improvements relate at least indirectly to waiting to be served.*

Almost twenty percent of respondents suggested that the single most important suggestion for improving any aspect of JCCC's Student Financial Aid Office was to add more staff or counselors (see Table 19, Appendix A). Nine percent suggested improved phone service and 8% suggested less waiting/quicker service.

Eleven percent suggested clearer information.

Eight percent wanted lists of scholarships to be made available.

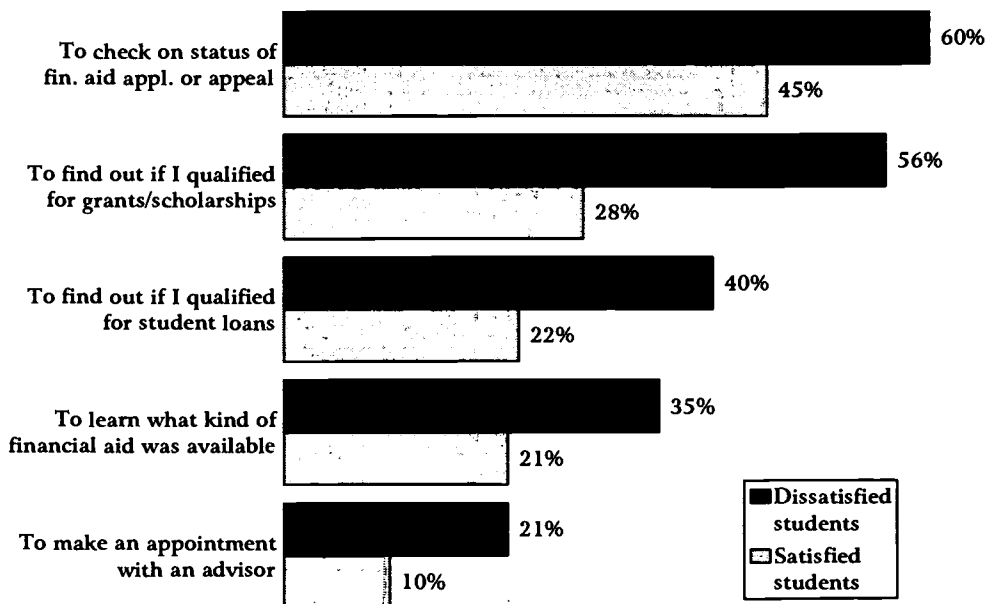

SATISFACTION/DISSATISFACTION *1997 Financial Aid Office Student Satisfaction Survey*

The central issue in this study is student satisfaction: i.e., what contributes to satisfaction or dissatisfaction with the Student Financial Aid Office?

In order to identify the major sources of *dissatisfaction*, responses of the 57 respondents who indicated they were “very” or “somewhat” *dissatisfied* overall with JCCC’s Student Financial Aid Office were compared with the responses of 205 respondents who indicated they were “very” or “somewhat” *satisfied* overall with the office to identify any differences and thus to pinpoint possible sources of dissatisfaction. Major differences are detailed below.

- ◆ *Lower overall satisfaction was evidenced for students who contacted the Student Financial Aid Office for “informational” purposes: to make an appointment with an advisor (mean=3.42); to find out if he/she qualified for grants/scholarships (mean=3.44); to learn what kind of financial aid was available (mean=3.52); to find out if he/she qualified for student loans (3.58). (See Table 20, Appendix A.)*
- ◆ *Eighteen percent of dissatisfied respondents indicated they had applied for financial aid but had not received it; 9% had applied but hadn’t heard if they had received it or not (as compared to two percent and three percent, respectively, for satisfied respondents). (See Table 21, Appendix A.)*
- ◆ *Mean ratings for all aspects of JCCC’s Student Financial Aid Office are substantially lower for students who indicate they are, overall, dissatisfied than for those who are satisfied (see Table 21, Appendix A, and Figure 17, below)*

Figure 17
Reasons Students Contacted Student Financial Aid Office in
Last Six Months by Whether Student Dissatisfied or Satisfied Overall

**SATISFACTION/
DISSATISFACTION (CONT'D)**

1997 Financial Aid Office Student Satisfaction Survey

- ◆ *The biggest discrepancy between satisfied and dissatisfied students' ratings of aspects of the Student Financial Aid Office regards accurate answers to questions. (See Table 21, Appendix A, and Figure 18, below.)*

Figure 18
Mean Discrepancies in Ratings by Students Who Are, Overall, Dissatisfied
Vs. Satisfied with the Student Financial Aid Office

- ◆ *On average, dissatisfied students had 3.6 phone contacts with the Student Financial Aid Office, compared with 2.0 for satisfied students. Drop-in visits were also higher (1.5 compared with 0.9) and questions asked (2.6 compared with 2.0). Generally, for whatever reasons, dissatisfied students make more contacts with the Student Financial Aid Office than do satisfied students (see Table 21, Appendix A).*

FEDERAL VS. NON-FEDERAL AID APPLICANTS

1997 Financial Aid Office Student Satisfaction Survey

- ◆ *Over half of all respondents surveyed who had applied for Federal financial aid received grants/and or loans, while over half of all respondents surveyed who had applied for non-Federal financial aid received scholarships.*

Fifty-three percent of responding applicants for Federal financial aid received grants, 21% received scholarships, and 62% received loans, compared with 18%, 58%, and 11%, respectively, for applicants for non-Federal financial aid (see Table 22, Appendix A, and Figure 19, below).

Figure 19
Financial Aid Received by Type of Aid Applied For

- ◆ *In general, applicants for Federal financial aid rated aspects of JCCC's Student Financial Aid Office higher than did applicants for non-Federal financial aid.*

While most aspects are rated only slightly higher, helpfulness of staff and accuracy of answers are each rated, on average, 0.4 and 0.3 higher by applicants for Federal financial aid (see Table 22, Appendix A).

- ◆ *Applicants for Federal financial aid perceive information about Federal or State scholarships/grants to be more important (obviously) than do applicants for non-Federal financial aid (mean=4.69 compared with mean=4.39). (See Table 22, Appendix A.)*

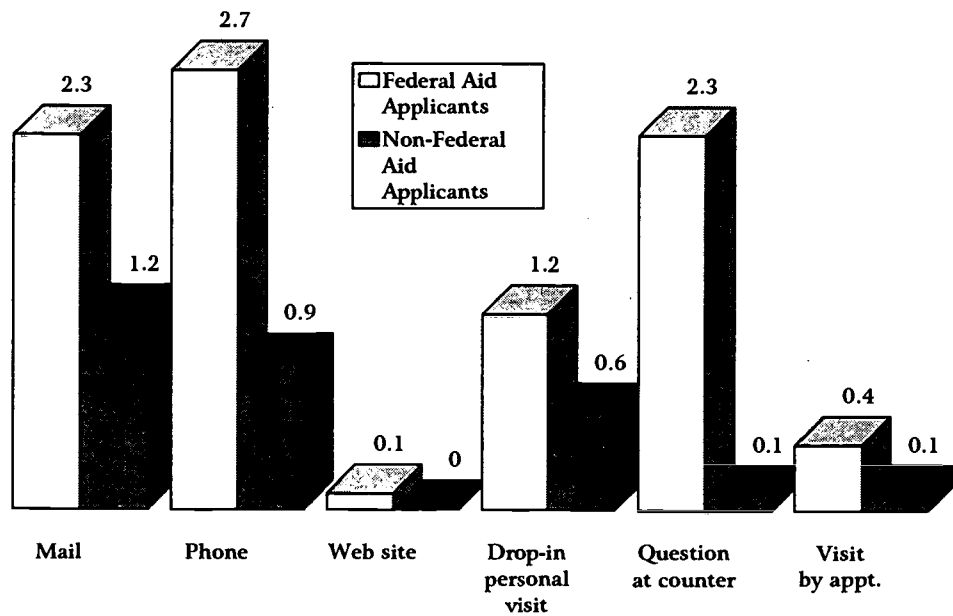

FEDERAL VS. NON-FEDERAL AID APPLICANTS

1997 Financial Aid Office Student Satisfaction Survey

- ◆ Applicants for Federal financial aid had at least twice the number of contacts with JCCC's Student Financial Aid Office in the last six months, regardless of type of contact.

On average, respondent applicants for Federal financial aid had 2.7 phone contacts, 2.3 two mail contacts and questions asked at the Student Financial Aid Office counter, and 1.2 drop-in visit with a Student Financial Aid Office counselor in the last six months, compared to 0.9, 1.2 and 0.1, and 0.6 contacts, respectively, for applicants for non-Federal aid (see Table 22, Appendix A, and Figure 20, below).

Figure 20
Mean Number of Contacts with Financial Aid Office by Type

While most students are satisfied overall with the Student Financial Aid Office, survey results reveal several areas in which potential improvements might be made. Following are recommendations suggested by survey findings. These recommendations must, of course, be considered in light of their feasibility, potential cost, and impact on staffing.

- ◆ *Review phone procedures for opportunities to increase the number of students getting through on their first attempt and to decrease waiting time.*

Necessity of increased phone contact appears to be associated with dissatisfaction. Phone contacts were rated between “average” and “good”, lower than all other types of contacts with the Student Financial Aid Office (other than web site, data about which may be less reliable due to the small number of respondents who had accessed it). Also, a significant number of students - as many as one-third - were unable to get through to the office by phone or were put on hold for so long they gave up.

- ◆ *Continue to use modified “triage” procedures to help decrease time in line and implement a back-up plan to have additional help when the line reaches a certain number of people.*

“Long lines and long waits” were cited by 29% of students as their biggest dislike regarding the Student Financial Aid Office. Also, about one-quarter of the respondents had on at least one occasion left the office without getting the information they wanted because the lines or the wait was too long.

“Screening” the people in line, i.e., having a person not staffing the counter ask each individual in line why they are here, who they want to see, etc., and helping them get the help they need, might help deal with simple problems and issues quickly, thus shortening the line and the amount of waiting time, resulting in increased satisfaction. For instance, if a student knows how long the wait might be and is offered the opportunity to set up an appointment at another time and chooses to do so, he/she should be happier and the line will shorten. People who just came to pick up a packet could be given what they want and be on their way. In addition, when long lines do form, the Student Financial Aid Office may want to implement a back-up plan to call in additional help, possibly even management and administrative staff. Again, student satisfaction should increase because it would be clear that the office is concerned about serving students as quickly and effectively as possible.

- ◆ *Develop a comment card to continuously monitor student satisfaction with Student Financial Aid Office service.*

Making a comment card available to students would allow them a vehicle to communicate with the Student Financial Aid Office on a regular basis, in addition to providing a way to measure student satisfaction in an ongoing fashion.

- ◆ *Continue to refer students to free scholarship search web sites.*

Potential demand for a scholarship search service at a cost of \$15 was sufficient to pilot test offering such a service. However, since the questionnaire was administered, free scholarship search web sites have proliferated and it is recommended that students be encouraged to avail themselves of the free services.

- ◆ *Review the cost, staffing, and operational implications of offering additional limited later evening hours.*

Just under 40% of respondents indicated that they were likely to contact the Student Financial Aid Office from 6-8 p.m. if these hours were available. Over 90% of these respondents indicated they were also likely to contact the office during at least one other time period listed on the survey, most generally from 4-6 p.m. The office is already open until 6 p.m. Monday through Thursday. To more effectively serve a greater portion of students, it might be prudent to periodically offer limited later evening hours of operation.

- ◆ *Provide checklists to students detailing specific requirements and deadlines for various financial aid options.*

One student concern (expressed anecdotally in comments on the survey and inferred from multiple contacts with the Student Financial Aid Office) is not knowing what information is required and having to make return trips to the office. This may be attributed in part to the Banner system, which is programmed to generate letters to the students requesting all additional information needed *one piece at a time, as frequently as weekly*. The ideal, of course, would be *one* letter specifying *all* additional information to be provided by the student. Very specific lists to check off the requirements would be helpful to both the student and to Student Financial Aid Office personnel.

APPENDIX B

Questionnaire and Cover Letter

1997 JCCC FINANCIAL AID OFFICE STUDENT SATISFACTION SURVEY

Dear Student,

Please take a few moments to complete this survey. Survey results will help us determine how JCCC's Student Financial Aid Office can better serve you.

Please mail your completed survey in the enclosed preaddressed, postpaid envelope to the Office of Institutional Research (COM305) *no later than January 12, 1998.*

Thank you for taking the time to complete this survey!

1. **OVERALL**, based on any contact you have had *IN THE LAST 6 MONTHS*, how satisfied are you with JCCC's Student Financial Aid Office? Are you *(Please check ONE.)*

- 1 Very dissatisfied (4)
- 2 Somewhat dissatisfied
- 3 Neither satisfied nor dissatisfied
- 4 Somewhat satisfied
- 5 Very satisfied

If *very dissatisfied* or *somewhat dissatisfied*, please explain: (5-6) (7-8)

2. **APPROXIMATELY** how many times have you had contact with JCCC's Student Financial Aid Office *IN THE LAST 6 MONTHS* in each of the following ways? *(Please fill in the number of times in each blank.)*

- By *mail* ___ times (9-10)
- By *phone* ___ times (11-12)
- By *web site* ___ times (13-14)
- Drop-in* personal visit with a Financial Aid *counselor* ___ times (15-16)
- Asked question at Student Financial Aid Office counter ___ times (17-18)
- Personal visit *by appointment* with a Financial Aid *counselor* ___ times (19-20)

3. Which of the following are reasons you contacted JCCC's Student Financial Aid Office *IN THE LAST 6 MONTHS*? *(Please check as many as apply.)*

- 1 To ask a question about my financial aid (21)
 - 1 To make an appointment with an advisor (22)
 - 1 To obtain forms/documents (23)
 - 1 To turn in forms/documents (24)
 - 1 To supply information requested by JCCC's Student Financial Aid Office (25)
 - 1 To learn what kind of financial aid was available (26)
 - 1 To find out if I qualified for grants/scholarships (27)
 - 1 To find out if I qualified for student loans (28)
 - 1 To find out about participation in a work/study program (29)
 - 1 To check on the status of my financial aid application or appeal (30)
 - 1 Other (please specify) _____ (31)
- (32-33) (34-35)

4. Please indicate **ALL** types of financial assistance you are receiving for 1997-98. *(Please check as many as apply.)*

- 1 Grant(s) (36)
- 1 Scholarship(s) (37)
- 1 Loan(s) (38)
- 1 Federal Work-Study (39)
- 1 Applied, but did not receive financial aid (40)
- 1 Applied, but declined financial aid offered (41)
- 1 Applied, but haven't heard if I received financial aid for 1997-98 or not (42)
- 1 Did not apply for financial aid for 1997-98 (43)

5. How important to you *personally* are each of the following aspects of JCCC's Student Financial Aid Office? (Please circle "9" for "Don't know" or "n/a" if you don't know or if the item does not apply to you.)

	Not at All Important	Not Very Important	Somewhat Important	Important	Very Important	Don't know/ n/a

Financial Aid information obtained through Web site .	1	2	3	4	5	9	(15)

10. Think back to your most recent contact with the Financial Aid Office. How many minutes did you have to wait (if at all) before talking with a student financial aid representative? (Please enter # of minutes.)

_____minutes

(16-17)

11. **IN THE LAST 6 MONTHS, APPROXIMATELY** how many times, *if at all*, have you

Phoned the Student Financial Aid Office and were unable to get through because the line was busy? _____ times (18-19)

Phoned the Student Financial Aid Office, were put on hold, and hung up before talking to anyone because of a long wait? _____ times (20-21)

Stopped by the Student Financial Aid Office and left without seeing anyone because the line or the wait was too long? _____ times (22-23)

12. How likely are you to contact JCCC's Student Financial Aid Office during each of the following two-hour time segments? *(Please circle the appropriate number.)*

	Not at All Likely					Extremely Likely					
8 a.m. - 10 a.m.	1	2	3	4	5						(24)
10 a.m. - noon	1	2	3	4	5						(25)
Noon - 2 p.m.	1	2	3	4	5						(26)
2 p.m. - 4 p.m.	1	2	3	4	5						(27)
4 p.m. - 6 p.m.	1	2	3	4	5						(28)
6 p.m. - 8 p.m. (if available)	1	2	3	4	5						(29)

13. What ONE THING do you like **MOST** about JCCC's Student Financial Aid Office? *(Please be specific.)* (30-31)

14. What ONE THING do you like **LEAST** about JCCC's Student Financial Aid Office? *(Please be specific.)* (32-33)

15. How likely would you be to use a scholarship search service (using a computerized national database) if it cost \$15? *(Please check ONE.)*

- 1 I *definitely would not* use it
 3 I *might* use it
 5 I *definitely would* use it
 (34)
- 2 I *probably would not* use it
 4 I *probably would* use it
 6 I *don't know* if I would use it or not

16. What is the **SINGLE** most important suggestion you have for improving any aspect of the Student Financial Aid Office? *(Please be specific.)* (35-36)

17. What is the highest level of education you have completed? *(Please check ONE.)*

- 1 High school diploma/GED
 3 Associate's degree
 5 Some graduate hours
 7 Doctorate
 (37)
- 2 Vocational certificate
 4 Bachelor's degree
 6 Master's degree
 8 Professional degree

18. *About* how many college credit hours have you *completed* at JCCC through 12/97? _____ hours (38-39)

19. How many credit hours are you enrolled in at JCCC for Fall 1997? _____ hours (40-41)

20. What is your age? _____ years (42-43)

21. Gender: 1 Female 2 Male (44)

Any **COMMENTS** you have about JCCC's Financial Aid Office are welcome. *(Use additional sheets, if needed.)*

December, 1997

Dear JCCC Student/Applicant:

At the request of JCCC's Student Financial Aid Office, the Office of Institutional Research is conducting a survey of students who applied for financial aid through JCCC. The main purpose of this research is to determine the degree of student satisfaction with the Student Financial Aid Office and to identify areas for improvement.

Your opinions about the Student Financial Aid Office are very important! The questionnaire takes approximately 10-15 minutes to complete. Many questions can be answered by checking a box or circling a number.

Please take a few minutes right now to evaluate the Student Financial Aid Office by filling out the entire questionnaire. Then, mail your completed survey to the Office of Institutional Research in the enclosed pre-addressed, postpaid envelope **no later than January 12, 1998**.

If you have any questions about the survey, please call Shirley Weglarz in the Office of Institutional Research at (913) 469-8500, extension 2443. Or, contact her at sweglarz@johnco.cc.ks.us.

Thank you so much for taking the time to help improve services at JCCC!

Sincerely,

Julie Cooper
Program Director
Student Financial Aid

REPRODUCTION RELEASE

(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title: <i>1997 JCCC Financial Aid Office Student Satisfaction Survey</i>		Johnson County Comm. College, Office of Institutional Research	
Author(s): <i>Shirley Weglarz</i>			
Corporate Source: <i>Johnson County Community College</i>		Publication Date: <i>11/98</i>	

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

The sample sticker shown below will be affixed to all Level 1 documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 1

Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) and paper copy.

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE, AND IN ELECTRONIC MEDIA FOR ERIC COLLECTION SUBSCRIBERS ONLY, HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

2A

Level 2A

Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only

The sample sticker shown below will be affixed to all Level 2B documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE ONLY HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

2B

Level 2B

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.
