ABSTRACT

This report describes the activities of the New York State Higher Education Services Corporation (HESC) during the 1995-96 fiscal year. It provides an overview of student and parent financial aid programs, including the Tuition Assistance Program (TAP), the largest state grant program in the United States. Major advances reported for 1995-96 included efforts to emphasize student access, college affordability, and academic achievement, such as legislation that will permit HESC to join with the federal government and out-of-state colleges to guarantee student loans in other states, advances in default prevention, and growth in HESC's electronic funds transfer program. Seventeen tables provide data on student loans (including number and amount of loans guaranteed, loans outstanding, collections on defaulted loans, and default purchases and trigger rates), grants and scholarships (including TAP recipients and expenditures by level of study and institution type and number and dollar amount of scholarships and awards), aid administered by HESC, aid applications received and processed, training workshops, customer services, and publication and video distribution. The report also includes financial statements. (MDM)

Highlights

	1995-96	<i>Change from 1994-95</i>
Overall Program:		
Total Applications for Aid	921,000	-3.2%
Total Aid Administered	\$2,179,825,000	-10.4%
Training of College, High School, and Bank Personnel	2,893	+12.2%
Grants and Scholarships:		
Tuition Assistance Program (TAP) Awards	\$615,889,000	-2.4%
Average Undergraduate TAP Award	\$2,216	+4.0%
Other Grant/Scholarship Awards	\$24,852,000	-6.4%
Student Loans:		
Loans Approved	380,435	-19.3%
Dollar Value of Loans Approved	\$1,539,084,000	-13.2%
Average Loan	\$4,046	+7.5%
Loans Outstanding	\$8,216,572,000	+14.7%
Student Loans In Repayment (at Year End)	\$5,704,766,000	+13.8%
Total Loans Purchased	\$247,816,000	+21.7%
Collection on Defaulted Loans (excludes IRS income tax offset)	\$133,444,000	+.3%

President

Letter from the Governor

The New York State Higher Education Services Corporation is the nation's foremost college financial assistance agency for students and their families. HESC helps make college affordable and assures access to New York's outstanding public and independent universities, community colleges, and career schools.

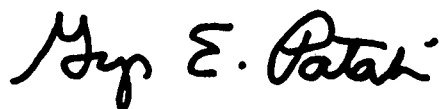

Each year, approximately one half million students and their families receive Tuition Assistance Program grants, scholarships, or other awards, or participate in the Federal Family Education Loan Program administered by HESC. New York's Tuition Assistance Program (TAP) is the nation's largest effort to assist students to afford college—larger than the next three state programs combined.

New Yorkers are proud of their students who pursue a college education. It is their ladder to personal fulfillment and economic independence. I am committed to continuing our efforts to assist students and their families to meet the costs of a college education through availability of grants and loans.

Major changes were adopted by the Legislature during 1996 in order to emphasize student achievement and college academic standards. Next year, 5,000 outstanding New York students will receive awards of \$500 or \$1,000 for each year of study at a New York college. Additionally, the Legislature approved my recommendation to establish a "C" average requirement for Tuition Assistance Program awards in the fifth semester of study to assist students toward timely completion of their education. Students without a high school diploma will be required, before qualifying for a Tuition Assistance Program grant, to pass an approved ability-to-benefit test, assuring that they can perform at acceptable academic standards.

The future of New York rests on the education of our citizens. We all must be prepared to work in an information society across international borders that requires higher and higher levels of academic and career skills. It is my priority to help students reach the educational gateway to employment and lifelong independence.

Yours truly,

Letter from the Chairman

During this year, HESC has again worked diligently to meet the challenges of administering student financial aid programs. The Board and the staff maintained and enhanced HESC's quality financial aid services to New York's students, schools, and lenders in the face of reduced government resources, increased competition among aid providers and administrators, and uncertainty about the future of the federal loan programs.

HESC has continued to improve its electronic loan processing options and to streamline Federal Family Education Loan (FFEL) Program loan processing for students, families, schools, and lending institutions. The Agency has entered into a dynamic partnership with lending institutions to insure that the FFEL services offered in New York State are the best available.

During this year, HESC also embarked on a major initiative to improve the State financial aid processing systems. The redesigned Grants and Scholarships processing systems will simplify processing for students and schools and will improve HESC's ability to respond to changes in circumstances which occur during a student's educational career.

As Chair of the Board of Trustees during this year, I have been proud to support these initiatives. Although my term as a member of the Board has ended, I know that the new Board members and officers will support the Agency as it prepares to meet new challenges in its pursuit of continued excellence.

Sincerely,

Matthew Schure
Chairman of the Board of Trustees

Letter from the President

The Higher Education Services Corporation (HESC) was formed more than two decades ago, an amalgam of a public benefit corporation, the Higher Education Assistance Corporation, and a State program of grants and scholarships. Its public policy mission serves students and families, colleges and schools, banks and financial institutions, and federal and State agencies.

In 22 years, HESC has assisted millions of students in gaining access to the education so necessary for their success. The Corporation has also effectively assisted colleges in the business of student financial aid through provision of efficient telecommunication and computer-based grant and loans systems. For State and federal government, HESC administers the grant, scholarship, and loan programs at the least cost to the taxpayer.

For the more than 300,000 students who qualify for income-based Tuition Assistance Program (TAP) awards each year, HESC facilitates access to college or a career school education. For the almost 250,000 students and families who participate in the Federal Family Education Loan (FFEL) Program, HESC assures a means to meet the cost of college.

Major advances during 1995-96 included:

- ◆ Governor Pataki's successful effort to emphasize student access, college affordability and academic achievement. Changes approved by the State Legislature will establish 2,000 new scholarships of academic excellence of \$1,000, and 3,000 scholarships of \$500 to be awarded in 1997. Additionally, students reaching their fifth semester of study must achieve a "C" average, while those seeking Tuition Assistance Program awards without high school diplomas must pass an approved ability-to-benefit test.
- ◆ Implementation of a program change in TAP to encourage students to complete 2-year programs promptly and graduate. Students in 2-year programs now can receive a maximum of 3 years of TAP payments. TAP also now covers up to 90 percent of tuition at public institutions, compared to 100 percent in the past.
- ◆ Additional legislation that will permit HESC to join with the federal government and out-of-state colleges to guarantee student loans in other states. As the federal student loan marketplace changes due to the Federal Direct Education Loan Program, this new authorization will

We Serve Our Student Customers

- ✓ The New York State Financial Aid Administrators Association and the New York State Higher Education Services Corporation annually sponsor **Financial Aid Awareness Month (FAAM)**. The nation's largest public information campaign for student financial aid, FAAM annually reaches tens of thousands of New Yorkers with application assistance and program information to help them pay for their college education.
- ✓ Hundreds of thousands of New York students rely on **HESC publications** as their first source for State and federal financial aid information.
- ✓ HESC provides a unique **video service**—up-to-date information from New York's financial aid professionals—to high schools, colleges, and community organizations.
- ✓ Over 100,000 high school students and their families get college planning help from HESC at **college fairs and other public events**.
- ✓ HESC developed a financial aid **home page on the World Wide Web**, providing students with additional access to information about State and federal financial aid programs and services. The home page links to other home pages to get information on colleges, private scholarships, and aid estimates.
- ✓ The **Ready, Set, Go!** Project provides timely information to middle school youngsters, high school students, and their parents and guardians. HESC publishes three newsletters focusing on career awareness, exploration, and career options. Students learn about the connection between career choices and the schooling they require; and planning and paying for these educational opportunities beyond high school.

The Ready, Set, Go! Project receives grants from:

American Express Foundation
Chase
Cornell University
Crestar Bank
Fleet Bank

provide HESC the ability to efficiently maintain its services to New York. This advance will also retain New York's lending and financial services companies in the federal student loan program. New York banks, from the largest multinational financial institutions to the smallest regional banks, have been founding and sustaining partners with New York State to provide students and parents access to affordable loans.

- ◆ Advances in default prevention. HESC's default rate dropped to 2.9 percent of loans in repayment, reflecting HESC's effective efforts to avoid defaults by working with students on repayment plans before a default occurs. HESC avoided a record number of defaults this year, bringing the total number of students in repayment up to 710,000. HESC also recovered \$133.4 million in defaulted funds.
- ◆ Growth of HESC's Electronic Funds Transfer (EFT) program. HESC's EFT has transmitted more than \$1 billion directly to schools since the program started in 1993, speeding processing, reducing paperwork and putting money to work for the student and schools more quickly.
- ◆ Expansion of New York State tuition award benefits to include Persian Gulf veterans, and to support graduate-level study by both Vietnam and Persian Gulf veterans.

Other advances are happening at light speed, into a future of Web sites, information links, instant approval of loans, and enhancements to Electronic Funds Transfer from banks to colleges to students. Telecommunication and computer advances via the Internet and dedicated communications lines are affording HESC many ways to better serve our customers—students and parents, colleges, and financial institutions.

In this first year of my stewardship, HESC is actively reclaiming its public policy mission by re-engineering its administrative systems and seeking to redesign its programs to benefit students and colleges and to lessen costs to the State and federal government.

Our renewed HESC mission is to:

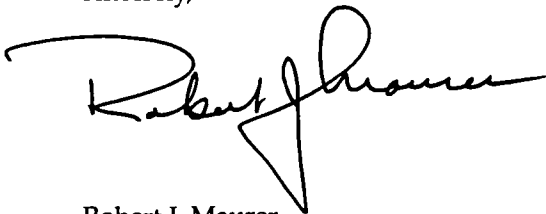

- ◆ Assure that income is not a barrier to educational attainment. All students who qualify have access to grants and scholarships, loans, and coordinated federal and private financial aid.
- ◆ Offer the lowest cost of origination and repayment for students and parents who borrow.

- ◆ Simplify and expedite delivery of TAP and other awards, student and parent loan approvals, and disbursements—with less paperwork, fewer complications, and with flexibility to meet differing college operational environments.
- ◆ Provide information to students from middle school through college about access to, and affordability of, a college education via the Internet, publications, and interactive computer information programs.
- ◆ Assist colleges to maintain an efficient and effective, business-like financial aid system, from admission to graduation.
- ◆ Reduce the cost of administration of grants and loans programs to the State and federal government.
- ◆ Assure that New York's lenders and community banks, as the single largest employer in New York, continue to be able to participate in the federal student loan program.
- ◆ Join with other state student loan guarantee agencies to share system technologies and to establish strategic business partnerships, thereby reducing costs and improving service to students and colleges.

To accomplish these objectives, HESC will continue to work with colleges and financial institutions to pursue the business of education in an efficient and effective means. HESC will continue its partnership with college financial aid officers, bursars, registrars, and college presidents to lessen the administrative costs of financial aid at the school level. With New York financial institutions and other state guarantee agencies, HESC will seek to streamline and simplify the process and lower the costs of the student loan program to the borrower.

Finally, in partnership with students, parents, colleges, and lenders, HESC will continue to be an advocate for students, to reach their goals of a college education at an affordable cost.

Sincerely,

Robert J. Maurer
President

- ✓ HESC annually **trains over 3,000** school, college, and lender administrators at workshops, conferences, and customer service meetings.
- ✓ **Opportunity Assessments** are a new approach for HESC and schools to collaboratively improve service to students while reducing costs. These intensive, two-day visits with top school administrators result in an agreed-upon implementation plan with follow-up support from HESC. HESC has scheduled or conducted several visits, with more to come.
- ✓ **On-site program implementation visits**, technical electronic processing visits, and technical regulatory compliance visits to our customers.
- ✓ **Over 12,000 telephone inquiries** about FFEL Program policies were answered.
- ✓ **Technical computer assistance** is available on a 24-hour basis.

Overview

Student & Parent Financial Aid Programs

PROGRAM		ACTIVITY		HIGHLIGHT
Tuition Assistance Program	Largest state grant program in the U.S.	286,154 recipients	\$615,889,000	<ul style="list-style-type: none"> ◆ System redesign in process ◆ TAP Task Force appointed
		SUNY - 47,450	SUNY - \$163 million	
		CUNY - 41,073	CUNY - \$138 million	
		Independent - 36,994	Independent - \$238 million	

TAP provides from \$275 to \$3,900 per year for undergraduate or \$75 to \$550 for graduate study in New York State. A companion part-time study program provides up to \$2,000 per year.

Other Grants and Scholarships	Special-purpose or selected recipient program	27,052 awards	\$24,852,000	<ul style="list-style-type: none"> ◆ New programs for Persian Gulf veterans and top high school graduates
--------------------------------------	---	---------------	--------------	--

Programs include awards for children of deceased or disabled veterans, correction and police officers, and firefighters; Vietnam and Persian Gulf veterans; and those pursuing study for the professions.

Loans	Guarantee	380,435 loans	\$1,539,084,000	<ul style="list-style-type: none"> ◆ Pre-Approved Loan processing increased by 1,600%
	Disbursement	Electronic disbursement possible for 80% of volume		<ul style="list-style-type: none"> ◆ Hit \$1 billion in electronic loan disbursements

HESC offers student and parent loans for up to \$5,500 per year for undergraduates depending on the year in school and for up to \$10,000 per year for graduate students. In coordination with lenders and loan servicers, HESC offers a full range of support services including debt counseling as a means of default prevention.

Services

PROGRAM	ACTIVITY	HIGHLIGHT
Service to Students and Families	Walk-in counseling, outreach events, home page publications, videos, TDD, loan servicing, debt management	<ul style="list-style-type: none"> ◆ Introduced Web site: www.hesc.com ◆ Introduced high school and parent newsletters to complement middle school newsletter ◆ Multi-guaranty agency World Wide Web Home Page "Mapping Your Future" site: www.mapping-your-future.org
Service to Schools, Colleges, and Lenders	Full range of administrative support services for college and lender administrators	<ul style="list-style-type: none"> ◆ Introducing 2-day "opportunity assessments" at selected institutions
Electronic Financial Aid Network-EFAN	Ongoing software development	<ul style="list-style-type: none"> ◆ 89% of loan applications came through EFAN ◆ PATH for Windows in '97 ◆ Focus and user groups ◆ Distributed new ABLE-2 for calculation of loan amounts, expected family contribution, Pell, and TAP
Perkins Loan Servicing	Service for all colleges	Under construction
Alternative Loans	Meet the costs of education not covered by FFEL and PLUS	<ul style="list-style-type: none"> ◆ Under construction - joint processing of FFEL with lenders' private loans ◆ Investigating a statewide lender-financed alternative loan
Service to Professional Organizations	Exchange views and solutions with professional organizations	<ul style="list-style-type: none"> ◆ Reach out to registrars, financial aid professionals, business officers, admissions officers, bursars, consumer bankers ◆ Major presence at the NYSFAAA, SUNYFAP, and NYSOBBA annual conferences
Debt Management	Default prevention services for lenders, students, and schools	<ul style="list-style-type: none"> ◆ \$1.5 billion in delinquencies and defaults avoided ◆ \$133 million collected in loan payments ◆ Operate a nationally acclaimed default prevention effort ◆ Establish repayment assistance program ◆ Implemented administrative wage garnishment

HESC NEW YORK STATE HIGHER EDUCATION SERVICES CORPORATION

HESC is committed to working with and serving its educational institution customers so that they can assure affordable access to students. HESC is striving to meet the financial aid needs of all students, and is developing ways to tap all available resources—State and federal grant programs, work-study programs, loans, college-based grants, and family contribution.

THE CHANGING ENVIRONMENT

New York's integrated approach to student financial aid administration has served the higher education community well for over two decades. Recent changes in federal loan programs have served as a catalyst for HESC to re-examine the way we meet the needs of our diverse group of customers—students, parents, colleges, and financial institutions. HESC's strong leadership, and the college and student loyalty earned over the years, have prevented severe loan volume losses experienced by many agencies in other states. Because of our quality of service, HESC remains in a solid financial position.

HESC PROFILE

Twenty-two years ago, New York's Higher Education Services Corporation was created by joining

the State's Tuition Assistance Program (TAP) grants and scholarship administration and the designated federal student loan guarantee agency (formerly an autonomous public benefit corporation). The intent of this merger was to create an effective, coordinated administrative program to assist students in affording college.

State expenditures for grant and scholarship programs have grown over 74 percent just since 1991. During the same period, increases were achieved in federally supported Pell grants, work-study programs, and in the availability of student loans. The State and federal programs offered to New Yorkers provide the most generous financial support of students found anywhere in the United States.

This past year, HESC processed 566,400 applications for TAP and other grants and scholarships, awarding over \$640 million to 342,300 eligible New Yorkers attending the State's public and private colleges and business schools.

In 1995-96, HESC employees processed and approved 380,435 Federal Family Education Loan (FFEL) Program applications, guaranteeing \$1.5 billion in loans to almost 250,000 students. HESC's outstanding guarantee portfolio is \$8.2 billion. There are 710,000 students in repayment.

HESC relies heavily on its computer and electronic data

A record \$133.4 million in defaulted loans was collected by HESC (excluding IRS offsets) and millions of dollars more in delinquent loans were successfully averted and returned to lenders as active accounts.

Default Loan Finance processed over 248,000 requests for Pre-Claim Assistance:

- 80% were averted***
- 73,000 default claims were processed***
- 13% of default claims were averted***
- \$1.5 billion default avoidance***
- \$133.4 million collected***

HESC received and processed 366% more National Student Loan Clearinghouse transactions over the previous year.

processing operations, its telecommunications systems, and its large numbers of support personnel. HESC functions as a debt collection coordination agency and a major distributor of money through an Electronic Funds Transfer (EFT) system—transmitting over \$1 billion since 1993.

HESC REDESIGN

To improve its competitive position, HESC began redesigning its administration, its grants and scholarship programs, and its customer services in 1995-96. This redesign includes:

Student Loan Program Streamlining

To assist the State's \$1.5 billion bank-based student loan business and to better serve the State's educational institutions, HESC is strengthening its position as a one-stop-shopping financial aid agency, serving students and parents while lowering administrative costs to colleges. HESC is streamlining its administration of loans to achieve lowered costs and increased revenues. This goal is being reached by:

- ◆ Cooperating with lenders to launch a Re-engineered FFEL Program that is competitive with the operational conveniences of the federal direct loan product — colleges can originate loans, receive the student's loan proceeds, and track the student's records — all without paper, all electronically.
- ◆ Enhancing service to its lending and college customers by disbursing over \$1 billion through its Electronic Funds Transfer (EFT)

system. There is also an EFT Refund process, which allows participating schools to return unused student loans to lenders.

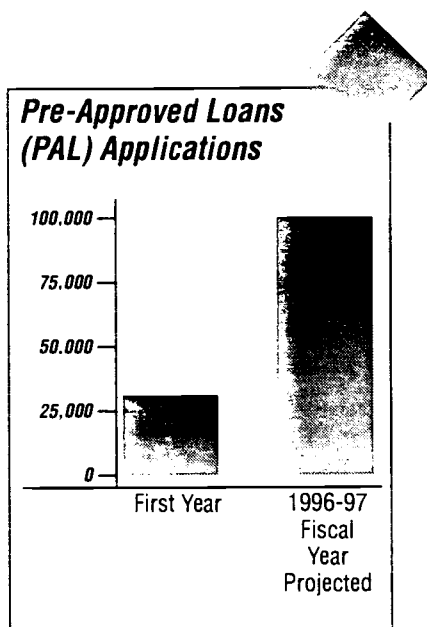

- ◆ Building a HESC business plan for the new student loan marketplace by:

- Developing new products — alternate loans, an organized New York secondary market, financial aid management advisory services, loan servicing, and Perkins loan program servicing capacity;
- Generating non-FFEL income to support TAP administration and other New York State student financial aid initiatives.

- ◆ Gaining legal authorization from the Governor and the Legislature to lend and guarantee student loans outside New York State. Chapter 202 of the Laws of 1996 means that HESC can lead New York banks to market in other states, bringing revenue and loan servicing jobs to New York.

- ◆ In fall 1996, HESC introduced The Options Program to provide a comprehensive package of financial aid services to meet each school's individual needs. The program integrates TAP and loan functions and will provide origination and servicing of supplemental loans, Perkins Loans servicing, and Title IV verification support.

- ◆ Developing specialized and customized financial aid program proposals for universities and colleges.

Tuition Assistance Program Reform

The first redesign of the Tuition Assistance Program (TAP) automated processing systems since 1979 is underway. The redesigned system will improve service to students and schools through use of the latest technology.

In response to inquiries and concerns expressed by constituents, HESC set out to broaden the understanding of the Governor's 1996-97 Executive Budget proposals. These activities included:

- ◆ Explaining TAP Budget proposals at professional conferences, holding regional dialogues with financial aid directors, authoring articles, and meeting with college presidents and student and college special interest groups.
- ◆ Estimating TAP costs by studying coordination of State and federal benefits, the method of wealth determination for students and parents, and cost of attendance as the foundation of student financial requirements.
- ◆ Seeking the support of SUNY, CUNY, and the Commission on Independent Colleges and Universities (cicu) for use of the federal Expected Family Contribution (EFC) methodology for determining TAP awards and use of tuition and non-tuition costs of attendance in determining the amount of the awards.
- ◆ Creating an alternative TAP concept paper shared broadly with the HESC Trustees, SUNY, CUNY, cIcu, and student and financial aid advocacy groups.
- ◆ Working with the State Department of Labor and the State

Education Department to create a federally funded InVEST program to support students, welfare recipients and the unemployed to gain access to short-term academic skills programs at community and senior colleges, career schools, and community-based organizations, that lead to placement in jobs.

Management Initiatives

HESC has created an administrative and processing operation that is nationally recognized for its efficiency and first-class service to schools throughout the student loan industry. In 1995, HESC developed and launched a Re-engineered student loan product, in cooperation with the major FFEL lenders and the financial aid community, that closely parallels the benefits of the direct loan program. The success of Re-engineered FFEL is based on processing innovations that provide the simplest, most efficient loan process available. This response by HESC management has minimized direct loan intrusion into New York as compared to other states.

HESC has simplified its grants and scholarship processing system to reduce State payroll costs. HESC has advanced its outdated grants and scholarship processing system, which was designed over 16 years ago. In anticipation of future processing needs, HESC's computer system is being completely redesigned, allowing for the implementation of a fully integrated, centralized processing system.

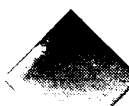

Since November 1995, HESC has instituted a number of management initiatives:

- ◆ Introduction of a Quality Assurance program, beginning with development of a corporate mission

Nearly four million student records for TAP and other awards were converted from paper, microfiche, and tape cartridges to CD-ROM. This increases the speed for retrieval of records and significantly decreases data storage space needs.

An additional 45 schools began to use or increase use of HESC electronic media options in processing TAP transactions.

HESC and the Office of State Comptroller implemented a fully automated voucher system. This streamlined payment process reduces the number of payment vouchers from 27,000 to less than 500 per year and decreases the average time to process vouchers from 22 to 15 days.

and goals statement, and Capital Idea\$ — an employee suggestion program that generated nearly 1,000 ideas for cost reduction, program improvements or customer satisfaction. HESC also made nearly 2,000 changes suggested by our customers through the Customer Service Representative visits.

- ◆ HESC re-examined its office space requirements and determined where improvements in work flow, office layout, or consolidation could reduce space, and therefore, lease costs. The elimination of non-essential leased space resulted in a savings of \$136,000 a year.
- ◆ HESC renegotiated maintenance and service contracts to reduce costs. HESC modified its mainframe computer hardware and software maintenance contracts to allow for a single annual payment, rather than 12 monthly payments, for a savings of approximately \$78,000 a year on the cost of the maintenance services and reduced administrative expenses associated with processing multiple invoices.
- ◆ HESC mails over 8 million letters and packages annually, making it one of the State's larger users of the U.S. Postal Service. During 1995-96, HESC intensified its efforts to reduce costs by increasing the use of pre-sort mail services, and by negotiating a 9 percent discount with United Parcel Service for package delivery. HESC updated mailing lists to reduce undeliverable and returned mail. As part of the Governor's initiative to identify areas for outsourcing where economically sensible, HESC negotiated a contract with an outside firm to provide billing

Administrative Services — Highlights —

Consolidation of office space to reduce rental charges and improve workflow.

Renegotiation of maintenance contracts to reduce annual costs.

Increased use of pre-sort mailing services and effective contracting to reduce mailing costs.

Increased use of the Electronic Financial Aid Network (EFAN) to improve communication with lenders and schools.

Approximately 180 Agency activities were successfully reviewed for compliance with HESC's Internal Control Policy.

services for defaulted student loans. When fully implemented, this contract will speed the processing and reduce billing costs.

- ◆ Efforts to expand technological solutions that reduce the costs of HESC's operations intensified during 1995-96. HESC's Electronic Financial Aid Network (EFAN) improves communication with lenders and schools while reducing postage, paper, and printing costs.
- ◆ To maintain executive-level dialogue with colleges, President Maurer visited 21 institutions since May of 1996. Many of these visits resulted in an Opportunity Assessment to assist institutions in customizing HESC grants and loans systems with their individual administrative and operating environments. The visits also guide HESC in the development of its products and services.
- ◆ Opportunity Assessments — an in-depth study of institutional operations and policy and subsequent analysis by a multi-disciplinary team — result in a report of recommendations and implementation steps to the institutional management. HESC began this initiative with visits at New School for Social Research, Broome Community College, Hamilton College, Hofstra University, Manhattan College, Pratt Institute, and SUNY Binghamton.

FUTURE PLANS

HESC is a major participant in a \$1.5 billion a year student and parent loan program activity in New York. This activity provides New York's national, regional, and community banks with a profitable financial product and origination and loan servicing jobs.

This level of activity also makes it possible for HESC to link grants and awards with student and parent loans and soon, alternative loans, in a continuum of student financial aid services for colleges. The administrations student financial aid policy formulation will mirror the level of commitment by colleges to keeping this guaranty and lending business in New York State.

Recent bank mergers could affect student loan servicing employment in New York. Several student loan secondary markets transfer loans previously owned and serviced by New York banks to out-of-state servicers. Alternate loan products offered by other guarantee agencies or out-of-state lenders further deprive New York of financial service jobs. Collectively, these student loan business practices and activities represent a growing trend in lost private sector employment in New York's leading employment sector—financial services.

Direct loans, in effect U.S. Treasury competition with New York lending institutions, threaten to further erode New York's financial interest in the student loan effort.

HESC has begun an active campaign to reverse this trend by reorganizing the State's FFEL Program, working with colleges and lenders and seeking

to better serve students and colleges. By aggregating business for New York-based private sector lenders and servicers, HESC is leveraging its loan guarantee systems by:

- ◆ Developing an alternate student loan processing system which will use HESC's loan origination, tracking and student repayment systems, coordinating payment and collections with the FFEL Program—thus helping students in repayment and assisting colleges to speed origination and disbursement;
- ◆ Developing alternative funding sources for graduate and undergraduate supplemental and FFEL Program loans, in cooperation with private lenders, to lower the cost to student and parent borrowers;
- ◆ Organizing regional and community banks, affected by lost

volume due to direct loans and increasing servicing costs, to remain in the FFEL Program by simplifying and supporting their origination, servicing, ownership or sale of loans through HESC—thus maintaining the local economic benefit of colleges participating in the FFEL Program;

- ◆ Evaluating ways to assist SUNY and private colleges in financial servicing functions now provided by out-of-state vendors;
- ◆ Developing a broader HESC loan servicing capacity for alternative loans, out-of-state FFEL Program loans and adding a consolidated billing feature to HESC service capabilities; and,
- ◆ Encouraging student loan program participants to establish origination, servicing and collections capacity in New York for the more than \$8.2 billion of HESC outstanding loans.

Just as the future promises to challenge HESC on many levels, the job market will continue to demand more from graduates of our educational institutions. By maintaining its aggressive, pro-active responses to the changing needs of students and parents, HESC will continue to provide excellent service to New York's schools and colleges. HESC's mission is to ensure that all New Yorkers have access to the educational opportunities necessary to succeed in today's world.

Guaranty Agency Joint Efforts

The Higher Education Services Corporation has joined five other guaranty agencies as part of a joint effort to improve service: California Student Aid Commission, Great Lakes Higher Education Corporation, Northstar Guarantee, Inc., Pennsylvania Higher Education Assistance Agency, and Texas Guaranteed Student Loan Corporation.

Current joint efforts include:

- ***developing Internet-based information services to students;***
- ***exploring development of production and transaction software, with each agency contributing information on the services it does best; and***
- ***sharing information on issues of common interest and working on development of a joint position paper to present to Congress as that body considers reauthorization of the Higher Education Act.***

Financial Aid Programs for New York State Students

All programs are described using provisions applicable to the 1996-97 academic year unless noted otherwise. Programs with Remaining Payments lists programs in which students who received an award in the past will continue to be paid; no new awards will be made.

Programs Administered by HESC

Grants

Aid for Part-Time Study (APTS)
Tuition Assistance Program (TAP) and Supplemental
Tuition Assistance Program (STAP)

Federal Family Education Loan Programs

Federal PLUS Loans
Federal Stafford Loans
Unsubsidized Federal Stafford Loans
Federal Consolidation Loan Program

Loan Related Programs

Repayment Assistance Program for Defaulters
Regents Loan Forgiveness Program
Rehabilitation Loan Program
Renewed Eligibility for Title IV Aid
Smart Pay Program

Scholarships

Primary Care Service Corps
Memorial Scholarships for Families of Deceased Police
Officers and Firefighters
Regents Health Care Opportunity Scholarships
Regents Professional Opportunity Scholarships
Robert C. Byrd Honors Scholarships
Merit Scholarships (1997-98)

Awards

Persian Gulf Veterans Tuition Awards (PGVTA)
Regents Awards for Children of Correction Officers
Regents Awards for Children of Deceased and Disabled
Veterans
Vietnam Veterans Tuition Awards (VVTA)

Programs with Remaining Payments

Empire State Scholarships of Excellence
Regents Awards for Children of Deceased State
Correction Officers and State Civilian Employees of a
Correctional Facility (Attica Award)
Empire State Public Employees Scholarship Program

Other Federal/State Financial Aid Programs for New York State Students

New York State Opportunity Programs

College Discovery (CD)
Educational Opportunity Program (EOP)
Higher Education Opportunity Program (HEOP)
Search for Elevation and Education through Knowledge
(SEEK)

Other Programs

Health Professions Student Loans (HPSL)
State Aid to Native Americans
Tuition Assistance for People with Disabilities and
Visual Impairments
National Guard Tuition Assistance

Federal Programs

Aid to Native Americans
Armed Forces Loan Repayment Program
Federal Pell Grant Program
Federal Perkins Loans
Federal Supplemental Educational Opportunity Grant
(FSEOG)
Federal Work-Study (FWS) Program
Montgomery GI Bill
Reserve Officer Training Corps (ROTC) Scholarships
Veterans Administration Educational Benefits

Table 1
Student Loans Guaranteed

State Fiscal Year	All Programs Combined ¹		
	Number	Amount (\$ thousands)	Average
1991-92	357,060	\$1,103,985	\$3,092
1992-93	399,522	1,202,994	3,011
1993-94	453,359	1,555,942	3,432
1994-95	471,264	1,774,061	3,764
1995-96	380,435	\$1,539,084	4,046

380,435 student loans were guaranteed for \$1.54 billion in 1995-96, ranking HESC in the top three student loan agencies nationally.

The average student loan guaranteed by HESC in 1995-96 increased by 7.5% to \$4,046. Since 1991-92, the average loan has increased by 31%.

¹ Includes Federal Stafford Loans (Subsidized and Unsubsidized), Federal Supplemental Loans to Students, Federal PLUS Loans, and Federal Consolidation Loans.

BEST COPY AVAILABLE

Consolidated student loan dollar volume grew by 26.9% over last year, up to \$134.2 million, and PLUS parent loans rose by 9.5% to \$144.6 million.

In August of 1996, HESC passed the \$1 billion mark in cumulative Electronic Fund Transfer (EFT) dollars awarded through its Federal Family Education Loan (FFEL) Program. The fast growth of this payment option reflects its clear advantage over other payment methods.

The value of student loans outstanding in the HESC portfolio jumped by over \$1 billion to \$8.2 billion — an increase of 14.7%.

Independent Auditors' Report

Board of Trustees
New York State Higher Education
Services Corporation

We have audited the accompanying balance sheets of the Guaranteed Student Loan Programs of the New York State Higher Education Services Corporation (HESC) as of March 31, 1996 and 1995, and the related statements of revenue, expenses and changes in fund balances, and cash flows for the years then ended. These financial statements are the responsibility of HESC's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Guaranteed Student Loan Programs of the New York State Higher Education Services Corporation as of March 31, 1996 and 1995, and the results of its operations and its cash flows for the years then ended in conformity with generally accepted accounting principles.

NEW YORK STATE HIGHER EDUCATION SERVICES CORPORATION GUARANTEED STUDENT LOAN PROGRAMS

Notes to Financial Statements

March 31, 1996 and 1995

(1) ACCOUNTING POLICIES AND GENERAL

(a) *Nature of Operations*

New York State Higher Education Services Corporation (HESC) is an agency of New York State created in 1974 under Chapter 942 of the Laws of 1974 (NYS) and is primarily responsible for the administration of New York State's financial aid programs, including the federal and State loan guarantee programs. The general purpose of HESC is to improve postsecondary educational opportunities of eligible students through centralized administration of New York State's financial aid programs.

(b) *Basis of Presentation*

The accompanying financial statements reflect HESC's Guaranteed Student Loan (GSL) programs activities only and are prepared on the accrual basis of accounting. The GSL programs consist of predominantly the Federal Family Education Loan (FFEL) Program under which banks and other lending organizations issue loans to eligible students for qualified study at eligible schools that are guaranteed by the U.S. Department of Education (ED). In addition, the GSL programs include the residual activity of a State guaranteed loan program in which no new loans have been guaranteed since 1984.

HESC also administers the Tuition Assistance Program under which students apply for payments to attend particular educational institutions based on family income and/or academic achievement. The financial statements of the Tuition Assistance Program are not included in the accompanying financial statements.

In the prior year, HESC presented the GSL programs activities in the financial statements in two funds, the Guaranteed Student Loan Fund and Insured Student Loan Administrative Account. During the current year HESC determined a combined presentation to be preferable to the two fund presentation. The prior year financial statements have been combined and reclassified to conform with the current year presentation for comparative purposes. The effect on the prior year was to reduce revenues and expenditures by \$35,189,110 related to activity between the two funds, with no affect on fund balances.

HESC is discretely presented as a component unit in the State of New York's financial statements.

(c) *Cash Equivalents*

Cash equivalents are short-term investments with remaining maturities of three months or less when purchased (generally short-term United States Treasury Bills and collateralized repurchase agreements). Cash equivalents are recorded at cost, which approximated market value at March 31, 1996 and 1995. The carrying value of treasury bills is adjusted for accretion of purchase discounts.

(d) *Purchases of Defaulted Loans*

Purchases of loans in default are recorded as an expense at the time of payment to lenders and a reimbursement (reinsurance) receivable from the ED is recognized for the federal guaranteed portion. Purchases of loans in default are recorded net of amounts repurchased by lenders.

Reimbursement to the federal government for collections on defaulted loans is recorded at the time such collections are received. Generally, the FFEL Program was reimbursed at the rate of 27% for costs incurred in collecting defaulted loans. Reimbursement on consolidations and rehabilitation loans is limited to 18.5%.

(e) **Insurance Premiums**

Student loan insurance premiums are recognized as a receivable upon notification of loan disbursements by lenders. Insurance premiums and related direct costs are deferred and amortized on a straight-line basis over the average life of the loan guarantees to match revenues with expenses over the period the loans are serviced.

(f) **Furniture, Fixtures and Equipment**

Furniture, fixtures and equipment are charged to operations when purchased and are not capitalized with the exception of certain leased equipment. HESC leases computer hardware under capital leases from the New York State Office of General Services through certificates of participation. The leased equipment is amortized on a straight-line basis over the life of the lease, and is removed from HESC's records when fully amortized. Leased equipment is as follows:

	1996	1995
Computer hardware	\$ 1,040,390	3,010,190
Less accumulated amortization	<u>(1,012,833)</u>	<u>(2,772,689)</u>
	<u>\$ 27,557</u>	<u>237,501</u>

(g) **Reclassifications**

Certain amounts for 1995 have been reclassified to conform to the 1996 presentation.

(2) **DUE TO NEW YORK STATE**

HESC has received revenue from New York State in excess of expenditures for the State loan program and has recorded a liability to the State. Changes in the accrued liability are as follows:

	1996	1995
Accrued liability, beginning of year	\$ 2,956,523	3,350,802
NYS revenue in excess of (less than) expenditures	266,309	(585,889)
Accrued interest payable	<u>195,056</u>	<u>191,610</u>
Accrued liability, end of year	<u>\$ 3,417,888</u>	<u>2,956,523</u>

(3) **GUARANTEED STUDENT LOANS OUTSTANDING AND IN DEFAULT**

As of March 31, 1996 and 1995, HESC was the guarantor of loans outstanding with original principal amounts of approximately \$11,845,000,000 and \$12,800,000,000, respectively, made to students by participating lending institutions.

Approximately 98% of that amount is guaranteed by ED, with a small amount guaranteed by the State of New York. At March 31, 1996 the unpaid balance was approximately \$8,217,000,000.

HESC management anticipates that a certain portion of the loans outstanding as of March 31, 1996, will go into default status requiring HESC to purchase loans from lenders. Because the majority of the funds required to purchase defaulted loans are reimbursed by the ED, the net cost to HESC is estimated by management to be no more than 2% of the amounts purchased. These unreimbursed costs will be incurred in future years as loans default and will be partially offset by the annual amortization of insurance premiums. A fund balance reserve for future default loans of \$52,500,000 has been established to meet the anticipated uninsured losses, as well as certain administrative service costs over the life of the loans. The reserve and deferred student loan insurance premiums combined total approximately \$110,400,000.

(4) **REIMBURSEMENT OF ADMINISTRATIVE COST**

HESC bills and collects Administrative Cost Allowances (ACA) from ED for costs incurred in administering the FFEL Program. Reimbursement is limited to the lessor of administrative costs incurred or 1% of all new loans guaranteed each quarter.

HESC also bills and collects Supplemental Preclaim Assistance (SPA) from ED for administrative expenses incurred in attempting to avert losses on loans that eventually go into default. Effective October 1, 1993, SPA of 1% of the unpaid principal balance and accrued interest on the loan is claimed for each account on which SPA was performed between the 120th and 270th day of delinquency and the aversion was successful.

The reimbursement of State loan program administrative costs are netted against the State funds expended for federal program costs resulting in an amount due to New York State of \$266,309 in fiscal year 1996 and \$585,889 due from New York State in fiscal year 1995.

During the years ended March 31, 1996 and 1995, HESC recognized the following:

	1996	1995
ACA revenue	\$ 13,701,843	16,345,792
SPA revenue	3,292,501	2,784,698
Reimbursement of state loan program administrative costs	<u>141,032</u>	<u>164,955</u>
Reimbursement of administrative cost	<u>\$ 17,135,376</u>	<u>19,295,445</u>

(5) RECEIVABLE FROM U.S. DEPARTMENT OF EDUCATION

For the years ended March 31, 1996 and 1995, the amount receivable from U.S. Department of Education consisted of the following:

	1996	1995
Reinsurance receivable	\$ 49,458,520	44,537,171
ACA receivable	10,380,529	6,187,441
SPA receivable	<u>937,423</u>	<u>919,140</u>
	<u>\$ 60,776,472</u>	<u>51,643,752</u>

(6) ADVANCES FROM U.S. DEPARTMENT OF EDUCATION

HESC has received, in prior years, non-interest bearing advances from the ED for the purpose of helping to strengthen the FFEL Program through the infusion of additional working capital. Under the terms of the agreement, HESC will be required to repay these advances at such time as the amount of federally guaranteed loans outstanding (approximately \$8,217,000,000 as of March 31, 1996) is reduced to less than \$54,950,000.

(7) LEASES

HESC has entered into a variety of leases, primarily for the use of office space and equipment, which are accounted for as operating leases. The operating lease for office space expired March 31, 1995. The space has been subsequently leased on a month-to-month basis. In addition, HESC has an option to purchase equipment under leases which are accounted for as capital leases.

Future minimum payments under all noncancelable leases having initial or remaining terms in excess of one year as of March 31, 1996, are as follows:

Fiscal Year	Capital Leases
1997	\$ 27,152
1998	<u>2,534</u>
	29,686
Less amount representing interest	<u>1,008</u>
Obligations under capital leases	<u>\$ 28,678</u>

Total rental expense (including utilities) for the years ended March 31, 1996 and 1995, under operating leases approximated \$2,746,000 and \$2,596,000, respectively.

(8) PENSION BENEFITS

Substantially all employees of HESC are members of the New York State and Local Employees' Retirement System (System), a cost-sharing, multiple employer public employee retirement

system. The State Comptroller is sole trustee and administrative head of the System. The System issues a publicly available financial report that includes financial statements and required supplementary information which may be obtained by writing to New York State and Local Employees' Retirement System, Alfred E. Smith Office Building, Albany, New York 12244.

The System provides retirement benefits as well as death and disability benefits. All benefits vest after ten years of accredited service. Retirement benefits are established by the New York State Retirement and Social Security Law. Retirement benefits and contributory requirements depend upon the point in time at which an employee last joined the System. Most members of the System who joined before July 27, 1976 are enrolled in a noncontributory plan; HESC contributes the entire amount determined to be payable to the System. Personnel who joined the System after July 27, 1976 are required by law to contribute three percent of their gross salary; HESC contributes the balance payable to the System for these employees.

Effective April 1, 1990, the State Legislature amended the Retirement and Social Security Law and mandated a change in the actuarial funding method from the aggregate cost funding method to a modified projected unit credit funding method. This new method utilized a rolling amortization period for differences between actuarial assets and actuarial accrued liabilities, of which approximately 17% of such differences were recognized as credits each year in determining the funding amount. The legislated change was later found by the State Court of Appeals to be unconstitutional. Consequently, the System returned to the aggregate method on April 1, 1994 using a four-year phase-in.

HESC paid to the New York State Comptroller's Office \$1,080,473 for 1996, \$352,661 for 1995 and \$708,163 for 1994 to cover required employer contributions for retirement benefits. These payments made represent 4.65%, 1.43%, and 3.08% of covered payroll for each of the years, respectively.

(9) POST RETIREMENT HEALTH CARE BENEFITS

HESC provides certain health care benefits for retired employees. Substantially all of HESC's employees may become eligible for these benefits if they reach their normal retirement age while working for HESC. Substantially all of the costs of providing retirees' health care benefits are paid by the State of New York and are included in the fringe benefit rate charged to HESC.

(10) EMPLOYEES' VACATION PAY BENEFITS

HESC's policy is to account for the costs of employees' vacation pay benefits as they are paid rather than when earned. This policy has not had a material effect on the results of operations of any individual year. However, generally accepted accounting principles require that such costs be accrued as earned. HESC has determined that the liability for employees' vacation pay benefits approximates \$2,064,000 and \$2,115,000 as of March 31, 1996 and 1995, respectively. This liability is not reflected in HESC's financial statements.

(11) DEFERRED COMPENSATION

New York State offers its employees, including HESC employees, a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the State (without being restricted to the provisions of benefits under the plan), subject only to the claims of the State's general creditors. Participants' rights under the plan are equal to those of general creditors of the

State in the amount equal to the fair market value of the deferred account for each participant. The assets and liabilities related to this plan are recorded in the State's financial statements.

(12) CASH AND CASH EQUIVALENTS

HESC invests excess cash in short-term United States Treasury Bills and in collateralized short-term repurchase agreements. The HESC's cash and cash equivalents at March 31 were as follows:

	1996	1995
Treasury bills	\$ 111,167,809	98,593,020
Repurchase agreements	<u>21,360,000</u>	<u>28,840,000</u>
Subtotal	132,527,809	127,433,020
Cash in New York State Comptroller's short-term investment pool	1,632,854	1,457,869
Petty cash and travel imprest accounts	<u>65,000</u>	<u>65,000</u>
Total Cash and Cash Equivalents	<u>\$ 134,225,663</u>	<u>128,955,889</u>

HESC requires collateral of federal government obligations or agency instruments guaranteed by the federal government pursuant to investments in repurchase agreements and delivery to its Trustee (agent) of all securities purchased and collateral for repurchase agreements, regardless of the seller institution.

As of March 31 the cost and market value of cash equivalents are as follows:

Held by HESC's agent in HESC's name

	Cost	Market Value
1996	\$ 132,527,809	133,180,751
1995	127,433,020	128,082,023

HESC actively manages the investment of its cash balances to minimize its uninvested funds. Cash balances are generally invested in short-term repurchase agreements until such time that it anticipates that checks written will be charged to its bank accounts. Included in the bank balances are approximately \$2,282,200 for 1996 and \$216,400 for

1995 which were collected from lenders to be paid to schools under an electronic funds transfer program. At March 31, the bank balances were as follows:

	1996	1995
Outstanding bank checks	\$ 27,839,542	24,954,108
Bank balance	<u>(12,971,848)</u>	<u>(15,811,683)</u>
Bank checks outstanding, net of bank balances	<u>\$ 14,867,694</u>	<u>9,142,425</u>

(13) INSURANCE PREMIUMS

HESC defers and amortizes the student loan insurance premiums received and certain loan origination costs incurred and paid on a straight-line basis over the average lives of the loans (ten years). The deferred student loan insurance premiums (\$57,909,647 and \$57,419,011, respectively) were received and the deferred expenses (\$8,218,158 and \$7,559,912, respectively) were incurred and paid during the ten fiscal years preceding March 31, 1996 and 1995, respectively.

(14) TRANSFER TO NEW YORK STATE

During the fiscal year ended March 31, 1995, HESC transferred to New York State \$2,500,000. This amount represented a portion of the State loan guarantee program funds no longer needed for program administration. A determination was made by the State to transfer these funds to the State for other purposes. HESC recognized this transfer as an expense of its State loan guarantee program.

(15) CONTINGENCIES

HESC has various issues outstanding which may result in payments to ED. The issues relate to potential violations of rules and regulations established by ED to administer the federal loan program. No liability has been recorded in the financial statements since the amounts cannot be determined. However, in management's opinion, the ultimate liabilities will not be material.

Management diligently attempts to interpret ED's rules and regulations, and believes that their implementation of policies and procedures properly adheres to those rules and regulations.

The Department of Education Federal Family Education Loan Program Final Rule dated April 29, 1994, implemented new federal policy for the federal student loan program forgiving loans, made on or after January 1, 1986, of borrowers unable to complete a course of study in which they were enrolled because of the school's closure. Under previous regulations governing the federal student loan program, if a school closed during a term, the student borrower was only released from the obligation to repay the pro rata portion of the loan for the period from when the school closed until the

normal end of the term. HESC had been complying with the provisions of New York State Education Law which prohibits lenders and HESC from pursuing collection of any portion of a student's loan for the term during which the school closed. The operation of this New York State law resulted in prior years' forgiveness of a larger portion of loans than the federal regulations authorized. A \$300,000 reserve is included in other liabilities for those loans not meeting the criteria for reimbursement under the new federal regulations.

(16) OTHER RESERVES

In accordance with federal regulations, these funds are available only for Federal Family Education Loan Program purposes.

HESC Advisory Groups

HESC acknowledges the advisory groups and focus groups who regularly provide input to development of HESC programs and services.

Services for Students and Their Parents

- A single source for the New York State Tuition Assistance Program, Scholarships, and the Federal Family Education Loan Program
- Special "800" line for student loan status inquiries
- Publications and Web site to provide student financial aid information
- Walk-in Information Center where students and parents can receive personal assistance
- Student financial aid videos to explain federal and New York State student financial aid programs and how to apply for them
- Servicer Unit to assist and help find resolutions for students with secondary markets, loan servicers, or lender discrepancies
- Co-sponsor of Financial Aid Awareness Month (FAAM) each January with the New York State Financial Aid Administrators Association (NYSFAAA). FAAM is a statewide, public education effort to encourage college attendance and to provide financial aid information
- Ready, Set, Go! Early Awareness Project to provide student financial aid information as part of the school curriculum to students in grades 6 through 12 and to parents
- Outreach programs to bring student financial aid information to students and parents at college fairs and public events

Services for Colleges and Lenders

- Customer Service Representatives to meet the needs of the financial aid and lending community
- Training workshops for lender and college professionals
- Technical Assistance visits to help institutions meet State and federal requirements
- Solutions Team visits to help institutions select and install the electronic services most appropriate to their needs
- Loan counseling and debt management materials to assist in counseling borrowers
- Special telephone service units to provide administrative assistance and policy guidance to lenders and college aid professionals
- Loan processing reports, update bulletins, and loan volume statistical reports to provide regulatory guidance and funding information
- Advisory groups to ensure that client needs are recognized and addressed
- Help Desk to resolve problems that institutions may have in using the electronic services offered by HESC
- Electronic Financial Aid Network (EFAN) to provide quick and efficient processing and tracking of students' loans and State grants. (EFAN includes all of HESC's electronic products and services for mainframe communications, networks, personal computers, tapes, and diskettes.)
- Program Access To HESC (PATH) to provide unified access to HESC microcomputer products and an easy-to-use, menu-driven system
- Pre-Approved Loan (PAL) to provide paperless Application/Promissory Note processing with rapid resolution of any application errors
- TRANSFORMER (a feature of PATH software) to convert existing electronic files into the HESC format, thereby reducing data entry

Services for Other Organizations and Governments

- Monitor changes in federal loan and grant policy
- Analyze and provide costings of legislation and budget proposals
- Analyze studies and special reports
- Reach out to other higher education professionals

- INQUIRY to allow online access to information on students' grant and loan records. (Lenders can also check the status of Pre-Claim Assistance requests and Default Claims.)
- Escrow EFT (Electronic Funds Transfer) to enable lenders to disburse electronically Federal Stafford and Federal PLUS proceeds via HESC to colleges, thereby eliminating paper checks and speeding fund disbursement
- Online updates to allow schools or lenders to make immediate changes in students' records

- E-mail to allow communication with HESC staff and receipt of HESC bulletins and notices on the Internet and on other electronic networks
- Computer software (ABLE-2) to estimate grants, scholarship, and loan eligibility

(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title: New York State Higher Education Services Corporation Annual Report	
Author(s):	
Corporate Source: New York State Higher Education Services Corporation	Publication Date: 1995-96

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic/optical media, and sold through the ERIC Document Reproduction Service (EDRS) or other ERIC vendors. Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following two options and sign at the bottom of the page.

<input type="checkbox"/> Check here For Level 1 Release: Permitting reproduction in microfiche (4" x 6" film) or other ERIC archival media (e.g., electronic or optical) and paper copy.	The sample sticker shown below will be affixed to all Level 1 documents <div style="border: 1px solid black; padding: 5px; margin: 5px auto; width: 200px;"> <p align="center">PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY</p> <p align="center">_____</p> <p align="center"><i>Sample</i></p> <p align="center">_____</p> <p align="center">TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)</p> </div> <p align="center">Level 1</p>	The sample sticker shown below will be affixed to all Level 2 documents <div style="border: 1px solid black; padding: 5px; margin: 5px auto; width: 200px;"> <p align="center">PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN OTHER THAN PAPER COPY HAS BEEN GRANTED BY</p> <p align="center">_____</p> <p align="center"><i>Sample</i></p> <p align="center">_____</p> <p align="center">TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)</p> </div> <p align="center">Level 2</p>	<input type="checkbox"/> Check here For Level 2 Release: Permitting reproduction in microfiche (4" x 6" film) or other ERIC archival media (e.g., electronic or optical), but <i>not</i> in paper copy.
---	--	---	--

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but neither box is checked, documents will be processed at Level 1.

<p><i>"I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic/optical media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries."</i></p>
