ABSTRACT

This final report begins with a three-page narrative of a statewide needs assessment of vocational, technical, and adult education (VTAE) instructors and administrators on technical staff training needs in Wisconsin. Statewide composite results for areas of need are presented for eight survey questionnaires sent to staff in these areas: management (373 respondents); instructional (769); agriculture (73); business education (207); marketing and distributive education (47); health occupations (211); home economics (63); and trade and industry (323). The majority of the document consists of appendixes containing the pilot test critique form; questionnaires; and district data tables, categorized by management staff and instructional staff. Data tables for management staff illustrate major staff development needs in these topical areas: trends and forecasting, delivery systems, needs assessment, curriculum and evaluation, and management. Data tables for instructional staff illustrate major staff development needs in these topical areas: business and industry, curriculum, equipment, public relations, student needs, instruction, and other. Statewide VTAE Staff Training Needs Assessment

Final Report

Introduction

The VTAE Administrators of Instructional Services Committee recommended in October, 1986 that a systematic statewide needs assessment process was needed to gather information from instructors and administrators on technical staff training needs. Upon the recommendation of the in-service sub-committee, the University of Wisconsin-Stout, Center for Vocational, Technical and Adult Education (CVTAE) submitted a proposal to Jim Urness, WBVTAE, to do a statewide needs assessment of VTAE staff. This is the first time a comprehensive needs assessment has been done. The project was approved and began February, 1987.

The core of the needs analysis was a set of eight questionnaires. These were developed by CVTAE Center staff with input from several VTAE district personnel. The following questionnaires were developed:

<u>Survey Number</u>	<u>Area</u>
7286	Management
7287	Instructional Staff
7288	Agriculture
7289	Business Education
7290	Marketing and Distributive Education
7291	Health Occupations
7292	Home Economics
7293	Trade and Industry

The purpose of the questionnaires was to identify technical updating needs of VTAE management and staff. Specific areas of need were identified and grouped by area. For example, major areas of need, or topics on the management questionnaire (#7286) were Computer Applications, Trends and Forecasting, Delivery Systems, Needs Assessment, Curriculum and Evaluation and Management. Specific items of need were developed for each of the areas listed above. This same format was followed for each survey.

The questionnaires were piloted in two VTAE districts; Southwest and District One during February and March, 1987. Staff were asked to critique the questionnaires making suggestions for additions, deletions, or changes in format (See Appendix A). In addition to the pilot sites review, individuals with expertise in the survey areas were contacted for their input. This process was most helpful in building relevant items to assess the needs that staff have and provide the base with which to build a technical updating plan.

Following the pilot, the questionnaires were revised (See Appendix B). They were then distributed to each VTAE district on April 10, 1987. The districts duplicated the number of copies needed of each survey. The surveys were then returned to UW-Stout CVTAE for processing in early May. Fourteen of the sixteen VTAE districts responded.

Initial results were shared at the Summer Conference of VTAE Administrators for Instructional Services held in Stevens Point, July 26-28, 1987. Dr. Howard Lee, Co-Director CVTAE, met with each district's staff, explaining their district's data and assisting in data interpretation. Tables were developed identifying the major needs for the 7286 Management and 7287 Instructional Staff Surveys for each district (See Appendix C). Composite data tables were developed and shared for each of the eight surveys (See Appendix D). Composite results were also shared with Bob Karrow, UW-Stout Continuing Education and the Industrial/Marketing Department Staff.

Statewide Composite Results

Survey 7286 - Management Staff (N=373): The strongest needs were reported in the trends and forecasting area, with the mean (\bar{X}) of 4.31 on a 5 point scale for forecasting needs of business and industry. "Future trends and developments in vocational education" (\bar{X} of 4.11) and "Identify current and future projections of educational needs of older adults and other special populations" (\bar{X} of 4.17) were also indicated as priority areas.

Survey 7287 - Instructional Staff (N=769): The following major needs were reported in the area of Public Relations. "Recruiting and retention of students" was rank #1 with a \bar{X} of 4.18. "Marketing of post high school education" was 2nd with a \bar{X} of 4.08, indicating this was viewed as quite important by respondents.

Survey 7288 - Agriculture Staff (N=73): Nine items with a \bar{X} of 4.0 or greater was rated. The three items with top ranking include "Financial management (farm)" (\bar{X} of 4.61), "Business records analysis" (\bar{X} of 4.50) and "Using the computer in farm management" (\bar{X} of 4.42).

Survey 7289 - Business Education Staff (N=207): Staff indicated their needs were "Articulation with business and industry" (\bar{X} of 4.21), "Presentations from business and industry" (\bar{X} of 4.05) and "Microcomputers and the office - the effect on entry level skills" (\bar{X} of 4.01).

Survey 7290 - Marketing and Distributive Education Staff (N=47): Results show that staff prioritized their #1 need to be "New trends in marketing education (business/corporations visits to discuss trends)" (\bar{X} of 4.13) and "Visiting business/industry personnel hiring graduates" (\bar{X} of 4.11).

Survey 7291 - Health Occupations Staff (N=211): Major needs indicated more "Evaluation techniques (clinical and classroom)" (\bar{X} of 4.08) and "Exposure to new equipment and technology" (\bar{X} of 4.04).

Survey 7292 - Home Economics Staff (N=63): More needs were rated by the Home Economics Staff than any other group. "Identifying changing client needs" (\bar{X} of 4.78), "Developments in business and industry" (\bar{X} of 4.57), "Working with new technologies and products in the cosmetology industry" (\bar{X} of 4.56), "Assisting children in building positive self esteem" (\bar{X} of 4.53) and "New and emerging careers within the an occupational area" (\bar{X} of 4.22) were among the top. There were 27 items with a mean of 4.0 or greater.

Survey 7293 - Trade and Industry Staff (N=323): Staff reported major topics of need to be "Maintain contact with employers" (\bar{X} of 4.25) and "Job opportunities related to my program" (\bar{X} of 4.21).

In three areas, health occupations, home economics and trade and industry, the data was sorted by area taught. This was done because these vocational disciplines have multiple distinct areas within the discipline and the staff would have different areas of need. For example, within the home economics discipline, a food service instructor would have some different needs than a child care instructor. This sorting of the data allowed us to get a more accurate picture of the technical updating needs within these three areas.

Generally, staff surveyed wanted the courses/workshops delivered in their own school. Regional workshops ranked second.

A complete set of data was given to Jim Urness (WBVTAE). Each district was given a set of their district's data. CVTAE, UW-Stout, has a copy of the statewide composite data.

Recommendation:

Now that the needs are known, proposals need to be developed and funded to address the technical training needs on a local, regional and state level. Proposals may take the form of:

1. Specific course/offerings at the local or regional basis to address a specific technical need. The course/offerings may be offered for credit/non-credit through a university/technical college.
2. Specific proposals to address the need of VTAE's to keep abreast of current trends in business/industry. This could take the form of a regional conference to address trends by business/industry and VTAEs.
3. Specific proposals to facilitate systematic sharing of curriculum/innovation/procedures among VTAE's and other similar institutions nationally.
4. Proposals to address specific instructional/administrative professional needs of VTAE staff.
5. Proposals to follow up VTAE's to determine the utilization of the needs assessment.
6. Proposal to address the refinement of all the instruments to permit more accurate data collection.
7. An overall proposal to fund a part-time position to coordinate technical training needs/workshops on a regional/state basis.

Title of Survey Reviewed: VTAE Instructional Technical Update
Needs Assessment (7250.A)

VTAE STAFF TRAINING NEEDS ASSESSMENT

- PILOT FOR THE QUESTIONNAIRE -

UW-Stout is currently developing a systematic statewide needs assessment which would gather in-service and technical training data from vocational instructors and administrators. Your VTAE district has been selected as a pilot site to review the surveys. There are surveys for instructors in each vocational area, an instructional professional development survey and a survey for management.

Please review the attached survey, making any suggested changes directly on the survey. Also, rate the survey using the chart below. Place a check (✓) in the appropriate column.

DO NOT COMPLETE THE SURVEY AT THIS TIME.

	3 GOOD	2 ADEQUATE	1 NEEDS IMPROVEMENT
1. Instructions			
2. Scope and content of items			
3. Organization of items			
4. Response format			

Comments/Suggestions:

Thank you for your input. The questionnaires will be revised based on staff input. They will then be sent to all VTAE districts for distribution to staff. Data will then be tabulated and analyzed for each district, and a statewide composite developed for needs analysis of VTAE instructional and administrative staff technical update training.

Please return by Thursday, March 12, 1987, to campus contact:

Southwest Technical Institute
District One-Eau Claire

Jim Olds
William Boyle

They will forward to Stout. Thank you.

**Appendix B
Questionnaires**

May 5, 1987

(Sent to Instructional Services Staff)

During the last two years the Stout Advisory Committee and the Instructional Services Administrators have discussed the importance of a needs assessment for VTAE staff development and technical updating. With continuing technological changes, it is important to assist VTAE staff in keeping up-to-date. In order to do this, the VTAE system funded this project to identify statewide priorities for staff development activities and projects. In addition, the survey data can be used by districts to identify their unique staff development needs.

Enclosed are copies of the VTAE Technical Training Needs Assessment questionnaires. The project is designed to gather and report training needs of VTAE program staff. There are eight questionnaires which need to be copied on colored paper, if possible, and then distributed to the appropriate full-time program staff.

1. Management Professional Development: (run on GOLDENROD) (7286)
Distribute to all management personnel.
2. Instructional Professional Development: (run on GREEN) (7287)
Distribute to a sample of staff - 50 percent from each vocational area and 100 percent of general education staff.
- o The following vocational area questionnaire distributed to all staff in the area:
 3. Agriculture (run on SALMON) (7288)
 4. Business Education (run on TAN) (7289)
 5. Health Occupations (run on YELLOW) (7290)
 6. Home Economics (run on BLUE) (7291)
 7. Marketing (run on PINK) (7292)
 8. Trade and Industry (run on WHITE) (7293)

Page 2

Attached is a guide for administering the surveys to help increase the reliability of responses. Please return all questionnaires as soon as possible.

If you have any questions, please feel free to contact any of us.

Thank you for your cooperation in this important project.

Sincerely yours,

HOME ECONOMICS
VTAE Technical Update Questionnaire

Please list your district: _____

The area that best describes what I teach:

- _____ (1) Child Care
- _____ (2) Hospitality/Food Service/Baking
- _____ (3) Clothing Services/Interior Design/Floral Design
- _____ (4) Cosmetology

1. Your vocational position is: (check all that apply)

- _____ (1) Home Economics Instructor
- _____ (2) Home Economics Coordinator/Division Chairperson
- _____ (3) Administrator
- _____ (4) Other (please list) _____

Directions: This survey is designed to indicate your technical updating needs as a VTAE staff member. Review each topic listed and indicate on the right the importance you would place on it for your own need. Circle N/A (not applicable) if the topic does not apply to you. Use the following scale.

- KEY: 1 = Not Important
2 = Somewhat Important
3 = Important
4 = Quite Important
5 = Very Important
NA = Not Applicable

TOPICS/AREA OF NEED	1	2	3	4	5	NA
	Not Important	Somewhat Important	Important	Quite Important	Very Important	Not Applicable

● GENERAL

- | | | | | | | |
|---|---|---|---|---|---|----|
| 2. Current developments in business and industry. . . | 1 | 2 | 3 | 4 | 5 | NA |
| 3. Developing business and industry contacts. . . . | 1 | 2 | 3 | 4 | 5 | NA |

TOPICS/AREA OF NEED	Importance Scale					
	1 Not Important	2 Somewhat Important	3 Important	4 Quite Important	5 Very Important	NA Not Applicable
4. New and emerging careers within an occupational area	1	2	3	4	5	NA
5. Impact of healthy and safety issues on the industry	1	2	3	4	5	NA
6. Managing a business.	1	2	3	4	5	NA
7. Entrepreneurship	1	2	3	4	5	NA
8. Accounting procedures.	1	2	3	4	5	NA
9. Marketing.	1	2	3	4	5	NA
10. Staff communications	1	2	3	4	5	NA
11. Cost effective planning and management	1	2	3	4	5	NA
12. Insurance issues	1	2	3	4	5	NA
13. Identifying changing customer/client needs	1	2	3	4	5	NA
14. Enhancing customer relations	1	2	3	4	5	NA
15. State of the art equipment	1	2	3	4	5	NA
16. New developments in computer software.	1	2	3	4	5	NA
17. New developments in computer hardware.	1	2	3	4	5	NA
18. Understanding new products and uses.	1	2	3	4	5	NA
19. Serving the special populations within business/industry.	1	2	3	4	5	NA
20. Government rules and regulations	1	2	3	4	5	NA
● CHILD CARE						
21. Provide up-to-date programming/curriculum for the young children	1	2	3	4	5	NA
22. Assisting children in building positive self esteem	1	2	3	4	5	NA
23. Intergenerational programs	1	2	3	4	5	NA

. . . continue . . .

TOPICS/AREA OF NEED	Importance Scale					
	1	2	3	4	5	NA
24. Developing different options for providing child care (i.e., day care for the sick child, after/before school care, infant care)	1	2	3	4	5	NA
25. Providing for communications with parents/guardian	1	2	3	4	5	NA
26. Helping families cope.	1	2	3	4	5	NA
27. Providing referrals for dysfunctional families	1	2	3	4	5	NA
28. Child custody issues impact on child care industry	1	2	3	4	5	NA
29. Procedures for identifying and reporting abuse (i.e., verbal and physical abuse).	1	2	3	4	5	NA
● HOSPITALITY/FOOD SERVICE/BAKING						
30. Identifying the changing customer needs.	1	2	3	4	5	NA
31. Emerging technologies (i.e., irradiation process)	1	2	3	4	5	NA
32. Front office automation.	1	2	3	4	5	NA
33. New developments in tourism.	1	2	3	4	5	NA
34. Building a positive industry image	1	2	3	4	5	NA
35. New math applications for the industry	1	2	3	4	5	NA
36. Developments in purchasing and receiving	1	2	3	4	5	NA
37. Production standards	1	2	3	4	5	NA
38. New baking techniques.	1	2	3	4	5	NA
39. New food preparation techniques.	1	2	3	4	5	NA
● CLOTHING/INTERIOR DESIGN/FLORAL DESIGN						
40. Computer aided design.	1	2	3	4	5	NA
41. New design concepts.	1	2	3	4	5	NA

TOPICS/AREA OF NEED	Importance Scale					
	1	2	3	4	5	NA
42. New developments in textiles	1	2	3	4	5	NA
43. Identifying changing client needs.	1	2	3	4	5	NA
44. Emerging technologies in the clothing and design industry (i.e., new automated production).	1	2	3	4	5	NA
45. Knowledge of new techniques.	1	2	3	4	5	NA
46. Knowledge of new/emerging production standards .	1	2	3	4	5	NA
● COSMETOLOGY						
47. Helping students understand the profession of cosmetology.	1	2	3	4	5	NA
48. Updating on skin care concepts	1	2	3	4	5	NA
49. Sales/marketing for the cosmetology industry . .	1	2	3	4	5	NA
50. Information on the artificial nail industry. . .	1	2	3	4	5	NA
51. Working with new technologies and products in the cosmetology industry	1	2	3	4	5	NA
52. Product ingredients/chemistry for cosmetology. .	1	2	3	4	5	NA
53. Developing and meeting competency standards in the industry	1	2	3	4	5	NA
54. Other: _____ .	1	2	3	4	5	NA
55. Other: _____ .	1	2	3	4	5	NA
Indicate your preference: I prefer updating be offered:

This survey was developed in consultation with Renee' Ramsay, District One Technical Institute; Diane Barton, Southwest Wisconsin Vocational-Technical Institute; and Marian Timmerman, Area Vocational, Technical and Adult Education District 4.

TRADE & INDUSTRY
VTAE Technical Update Questionnaire

Please list your district: _____

- _____ (1) General
- _____ (2) Automotive/Diesel
- _____ (3) Drafting/Design
- _____ (4) Machine/Tool/Manufacturing
- _____ (5) Electronics/Communication
- _____ (6) Graphics/Printing

1. Your vocational position is: (check all that apply)

- _____ (1) Trade & Industry Instructor
- _____ (2) Trade & Industry Coordinator/Division Chairperson
- _____ (3) Administrator
- _____ (4) Other (please list) _____

Directions: This survey is designed to indicate your technical updating needs as a VTAE staff member. Review each topic listed and indicate on the right the importance you would place on it for your own need. Circle N/A (not applicable) if the topic does not apply to you. Use the following scale.

- KEY:
- 1 = Not Important
 - 2 = Somewhat Important
 - 3 = Important
 - 4 = Quite Important
 - 5 = Very Important
 - NA = Not Applicable

TOPICS/AREA OF NEED	Importance Scale					
	1	2	3	4	5	NA

● GENERAL

2. Robotics and robotics applications	1	2	3	4	5	NA
3. Computer applications in T&I	1	2	3	4	5	NA
4. Integrating CAD/CAM into the curriculum.	1	2	3	4	5	NA
5. Interfacing of computer in T&I areas	1	2	3	4	5	NA
6. Personal computer use.	1	2	3	4	5	NA
7. Computer programming - Pascal - Fortran	1	2	3	4	5	NA
8. Statistical quality control and process control.	1	2	3	4	5	NA
9. Lasers (applications in industry and fundamentals).	1	2	3	4	5	NA
10. In-service on telecommunication systems.	1	2	3	4	5	NA
11. How to integrate electron IC'S with other disciplines.	1	2	3	4	5	NA
12. Micro-processor technology	1	2	3	4	5	NA
13. Integrated circuit technology - new devices.	1	2	3	4	5	NA
14. Applications of computers to electrical transmission and distribution.	1	2	3	4	5	NA
15. State-of-the-art electrical generation	1	2	3	4	5	NA
16. Interface electronics and micro-processor with industrial equipment	1	2	3	4	5	NA
17. Digital read-out systems, digital electronics.	1	2	3	4	5	NA
