## ABSTRACT

This document is a brief review of resources and readings on Service-Learning and School-to-Work. Service-Learning (SL) and School-to-Work (STW) both extend learning beyond the classroom into real world contexts where broader problem-solving and decision-making skills are addressed. While SL provides opportunities within the community for students to participate in learning activities that use their academic and vocational competencies, STW helps students make tentative career choices and develop educational goals aimed at achieving vocational and personal satisfaction. The document lists 13 commonalities and 3 differences between SL and STW. The document is organized as follows: section 1 contains citations from the National Service Learning Cooperative database involving school-to-work; section 2 lists resources from governmental agencies dealing with SL and STW; and section 3 lists Web sites that have comprehensive discussions of issues, topics, and definitions of SL and STW. ## Introduction

This document has been prepared as a brief review of resources and readings on Service-Learning and School-To-Work. The series, called "Links, Connecting Theory With Practice" is being developed to give practitioners and researchers who contact the National Service Learning Clearinghouse (NSLC) some reference in beginning to look at topics and current issues in service-learning.

Service-Learning (SL) and School-to-Work (STW) both extend learning beyond the classroom into real world contexts where broader problem-solving and decision-making skills are addressed. While service-learning provides opportunities for students to participate in learning activities within their community which utilize their academic and vocational competencies, school-to-work helps students make tentative career choices and develop educational goals aimed at achieving vocational and personal satisfaction.

A comparison of SL and STW shows the following:

### Things in common:

- ◇ Both rely heavily on learning outside the classroom
- ◇ Expect connections between experiences and subject matter learning
- ◇ Better programs involve students in learning experience, site selection and activities
- ◇ Requires good coordination between school and community
- ◇ Requires good communication between school and community
- ◇ Requires teachers who know how community experiences relate to subjects in school
- ◇ Presents logistical challenges to schools for transportation and liability
- ◇ Focuses more on depth and quality than breadth and quantity of learning
- ◇ Provide environments which require social and cognitive learning
- ◇ Produce outcomes which enhance personal, social, psychological, and academic growth
- ◇ Involve adults outside the family in relationships with youth
- ◇ Require problem solving skills which are applied in contexts beyond the classroom
- ◇ Provide career development opportunities
- ◇ Require development of practical skills
- ◇ Both promote citizenship skills; social involvement and productive employment
- ◇ Create great overlap in service occupations.

### Things that are Different

- ◇ Emphasize different practical skills
- ◇ STW tends to involve more private sector; SL involves more public, non-profits
- ◇ Contest of skill development: STW can involve more personal learning, SL involves personal learning with public benefit.

The organization of the document is as follows: Section one contains citations from the NSLC database involving school-to-work. Section two is a listing of resources from governmental agencies dealing with SL and STW. Section three lists website URLs that have comprehensive discussions of issues, topics and definitions of SL and STW.

This document is not meant to be a comprehensive bibliography, but is meant to act as a start in exploring the connections between SL and STW.

## Acquiring These Publications

The easiest and least expensive way to have access to the publications is through your local library. Even if you are not near a university research library, most smaller libraries have inter-library loan agreements at little or no cost to their patrons. The alternative to libraries is to go through commercial document reproduction and delivery services. These offer a convenient way to get copies of serial articles and other documents for those willing to pay for the service. Whenever possible in this document, URL's have been given which may take you directly to the document site.

The following reproduction services are cited in the "Where to obtain this document" section of the citations.

### **UMI (University Microfilms International)**

Reproduces microfiche and paper copy. UMI's order number is listed in the "AVAIL" field of the citations.

### Community as Classroom

Educational Leadership, v52 n8 p17-20 May 1995

Scott Thompson

Serial article, program or program report. A Wisconsin school district has strengthened community education by developing animal welfare and entrepreneurial programs. These and other programs are part of School-Connections, a project of the Institute for Responsive Education. Students work with adult advisers on individually tailored projects, gain real-world experience, and make genuine contributions to the community.

### Creating a Culture of Service: Effective Service Learning

Irving H. Buchen; Carl I. Fertman, 1994

Monograph, classroom guide. Seven part series introduced with a Program Manual which defines service learning, provides a brief history, reviews its use in grades K-12 and with special populations, and outlines the service-learning process. The series continues with six facilitator guides and student workbooks designed to build specific skills. The first book, "Heartbeats of the Community", introduces students to ways of exploring their communities and helps them develop a series of tentative conclusions about the community's key problems and possible solutions. The second book, "Working with Community Agencies", helps students connect with organizations and understand their role in the community. The third book, "Advisory Councils and Career Exploration", involves students in the creation of a council to support the school's service learning program. The fourth book, "Parents as Partners in Service Learning", involves parents in the process as resources. The fifth book, "Getting the Message Out", concentrates on effective promotion and communication. The sixth book, "Empowering Youth", helps students take responsibility for their actions, manage time, organize, and evaluate progress.

Community Service Learning: a Vital Contribution to Educational Reform

Sheryl Joan Shapiro, 1990

Monograph, academic research. Master's thesis, Florida International University, College of Education. Community service learning. Embodies the theories and philosophies of experiential and developmental learning in the context of addressing community needs. The rationale for community service learning programs is the psychological, social, and intellectual development of youth and to provide a forum for positive school community interaction. Planning, implementing, and integrating community service learning programs challenge many of the assumptions and perceptions of schooling, notably the relationships of teachers with their work, colleagues, students and the community, and the measurement and definition of learning. These notions are presented within the broader process of educational change. Teacher culture, in terms of flexibility, autonomy, collaboration, participation in decision making, and collegiality, are discussed as critical elements for adopting and sustaining educational innovations. Community service learning changes the traditional framework for viewing the educational enterprises by creating a learning community of teachers, students, family members and citizens.

Education: How Can Schools and Communities Work Together to Meet the Challenge? A Guide for Involving Community Members in Public Dialogue and Problem Solving

Matthew Leighninger; Mark Niedergang; Topsfield Foundation, Study Circles Resource Center, 1995

Monograph, nonclassroom guide. This guide is designed as a tool to help members of the education sector involve community members in discussions in their community. The first half of the guide presents basic material for conducting a four to seven session discussion program based on the study circle model. Materials dealing with the following discussion topics are included: how schools affect communities and community members' lives; what community members want graduates to know and be able to do; how schools can meet every students' needs, make school safer, deal with racial and ethnic diversity, and provide high quality education with limited resources; and what community members can do to improve high quality education with limited resources; and what community members can do to improve education. The next section presents basic "how to" materials on the following aspects of the study circle process: the structure, goals, and operation of study circles; organizing and leading study circles on education; and suggestions for participants. Concluding the guide is a listing of 13 organizations, 39 publications, and 7 videos dealing with community involvement in improving education, as well as the sources of the 5 "schools that work" stories included in the preceding section.

ERIC-EDRS, order #ED380578

Guide to Work Based Learning Programs: Part II -- Career Experience. First Edition

Ingham Intermediate School District, Mason, MI, 1995

Monograph, nonclassroom guide. This guide, which is one of a series of three designed to provide state and local leaders, policymakers, practitioners, and other stakeholders with information about the work based learning component of the school to work opportunities act, deals with career exposure. The introduction traces the history of school to work initiatives, lists components of successful programs, and explains the guide's purpose and use. Discussed in the remaining six chapters are the following: the school based learning component of school to work programs, career exploration programs, service learning, school based enterprises, career internships, and career academies. Each chapter contains an overview of the program followed by: a description of the program type; participant outcomes; required design criteria; benefits to students, employers, and schools; keys to successful programs; credentials earned through the program; and related resource materials. Throughout the guide, special attention is given to Michigan work based learning programs and related materials and resource organizations. Contains 21 references and glossary.

Legacy of Public Work: Educating for Citizenship

Harry C. Boyte; Nan Skelton, 1997

Serial article, general discussion. From a theme issue in education for democratic life. Public work projects don't just teach young people how to contribute to society. They also help them develop a strong sense of citizenship and the conviction that the country is theirs to shape and strengthen. Increasingly, however, the dynamics of a "marketplace democracy" where we see ourselves as consumers rather than producers of democracy have come to dominate our society. And education mirrors this trend, according to these authors. Schools are no longer connected to the neighborhoods they serve, teachers are no longer community leaders, and the academic disciplines and career preparation programs dominate the curriculum. The authors advocate a return to educating for democracy through public work. Understanding democracy, they say, comes mainly from doing democracy. (Publisher)

New Frontiers: Nontraditional Customized Training

New Directions for Community Colleges, v22 n1 p93-100 Spr 1994

Gary A. Israel

Serial article, program report. Describes five possible future developments for customized training: creating consortia between colleges and business training centers; establishing instructional design centers with faculty functioning as knowledge choreographers to provide up to date services; creating intergenerational service learning programs; implementing total quality management in the United States; and retraining older workers.

New York State Mentoring Program

Matilda R. Cuomo, 1991

Monograph, program report. Address given at the Annual Conference of the Rural Schools Program (Cooperstown, NY, July 38-31, 1991). This conference address discusses New York State programs for children and families, focusing on a mentoring program. New York State has 44 rural counties, which comprise 80% of the state's total area. Rural schools face limited financial resources and access to services. Rural school children are more likely to face failure than urban or suburban children because of rural economic stress, crime, substance abuse, and parental abuse and neglect. With 65,000 children in foster care, New York State has initiated the following efforts to improve the lives of children: (1) New York's Family Album compiles photographs and a profile of children available for adoption; (2) the Pre and Postnatal Parenting Education Hospital Program provides parent education in every New York State Hospital with a maternity unit; (3) the Nutrition for Life curriculum for K-12th grade is free to every school in the state; and (4) the New York State Mentoring Program is a school based program aimed at preventing school drop out. The mentoring program links at risk children with caring, responsible adult volunteers from businesses and organizations. These volunteers help children with school work, personal problems, and development of self esteem and self confidence so that they can stay in school and reach their full potential. Mentors make a 1 year commitment to spend about 4 hours a month with a child. Technical assistance is available to help schools locate, screen, and train mentors.

School Community Business Partnerships. Building Foundations for Dropout Prevention

Harriet Hanauer Bucy, 1990

Monograph, nonclassroom guide. This manual was developed to provide businesses with practical and easily implemented ways to meet the needs of local schools. It provides ideas and approaches for developing partnerships focused on school dropouts by exploring problems and pitfalls and offering solutions. The document has five chapters; a 21-item reference list; a description of the National Dropout Prevention Center's collection of databases, FOCUS; a 13-item listing of additional resources, and sample materials for partnership programs. Chapter 1 discusses recognizing the problem of dropouts. Chapter 2 addresses ways of dealing with the problem and why school efforts are not enough. Chapter 3 describes structuring a community partnership program and includes a planning guide for partnership activities. Chapter 4 provides examples of working partnerships. Chapter 5 discusses how to keep the momentum of a program going through monitoring, public relations and recognition, and evaluation and feedback.

Social Interactions of Secondary Aged Students with Severe Handicaps: Implications for Facilitating the Transition from School to Work.

Journal of the Association for Persons with Severe Handicaps, v15 n2 p69-78

Janis Chadsey Rusch, 1990

Monograph, research report. This study describes the social interactions used by a group of 10 secondary aged students with severe to profound mental retardation, using data gathered through the use of narrative recording procedures. The student's interactions were recorded during school arrival, lunch and vocational training. Results are presented along three dimensions: task versus non task interactions by condition. Results of teacher ratings and parent interviews are also presented. Students interacted 99% of the time with other adults. Students were involved primarily in task related interactions in which the purpose was to direct, question or provide information. Even at lunch, which is primarily a social time for nonhandicapped workers, interactions between teachers and students involved directions, questions and information related to feeding or lunch programs. Though students were judged to be in the fluency and maintenance stages of learning their jobs, they received even more directions, praise and criticism in vocational contexts than in the other contexts. Results are discussed with respect to the implications they have for facilitating the transition from school to work.

Service Learning and School to Work Linkages. AACE Bonus Brief

Bob Bhaerman; American Association for Career Education, 1995

Monograph, information analysis. Prominent school to work observers see a close connection between service learning and school to work programs. Major components of service learning are as follows: active student participation, thoughtfully organized experiences, focus on community needs and school/community coordination, academic curriculum integration, structured time for reflection, opportunities for application of skills and knowledge, extended learning opportunities, and development of a sense of caring for others. The basic components of school to work transition include the following: school based learning, work based learning, and connecting activities to coordinate involvement of employers, schools and students. The reality and importance of both paid and unpaid work in school to work transition have been recognized. Both approaches have much in common: contextualize student learning; provide environments in which students can develop various skills and competencies; have the potential to address such weakness as the lack of relevance of the curriculum or school experience; motivate students to want to learn; both can build meaningful community partnerships; and focus on outcomes as a measurement of acquired skills and knowledge. Differences exist in goals, beneficiaries, payments, and focus. Key issues in linking the two remain to be resolved: differences in terminology and conceptual focus; teacher professional development; community awareness; states' need for guidance; and the question of compensation.

Turning Points: Preparing American Youth for the 21st Century. The Report of the Task Force on Education of Young Adolescents

Carnegie Corp. of New York, 1989

Monograph, general discussion. This report examines the condition of America's young adolescents and how well middle grade schools, health institutions, and community organizations serve them. In its plan for action, the Task Force on Education of young Adolescents of the Carnegie Council on Adolescent Development makes recommendations for new structures for middle grade education. A 15 year old who has been well served in the middle years of schooling will be the following: (1)an intellectually reflective person; (2)a person en route to a lifetime of meaningful work; (3)a good citizen; (4)a caring and ethical individual; and (5)a healthy person. The report reviews the following recommendations for transforming middle schools: (1)create small communities for learning; (2)teach a core academic program; (3)ensure academic success for all students by shaping the educational program to fit the needs of students; (4)empower teachers and administrators to make decisions about the experiences of middle grade students; (5)staff middle grade schools with teachers who are expert at teaching young adolescents; (6)improve academic performance through fostering health and fitness; (7)re-engage families in the education of young adolescents; and(8)connect schools with communities. Eight figures provide various statistical data on adolescents. The following appendices are included: (1)a list of commissioned papers; (2)a list of working papers; (3)a list of consultants and their affiliations; (4)a list of their workshops and attendees; and (5)biographical sketches of task force members.

Workforce Development Institute: 1995 Summary Report

Ansleigh Jones; American Association of Community Colleges, 1995

Monograph, program report. This report provides a summary of the American Association of Community Colleges' (AACC's) second Workforce Development Institute (WDI), held January 18 to 21, 1995 to provide community college workforce service providers with resources and training. Introductory materials describe the WDI, its regional forums, the AACC's related National Community College Workforce Development Database, and WDI participants' response and evaluations to the Institute. The bulk of the report then provides summaries of the following selected WDI sessions: (1)service providers, focusing on diversity and change in the workplace, coalition building, the union perspective, and supplier and service training; (2)school to work, including the future of school to work initiatives, work based and service learning, creating local initiatives, and advanced technological education; (3)workforce skills, highlighting skills assessment and standards, workplace competencies, and issues related to basic skills; (4)marketing, focusing on tips for effective presentations, business strategies, pricing, job analysis and assessment, and grant writing; (5) manufacturing, highlighting competition and cooperation in modern manufacturing, issues related to the manufacturing industry and assessment, and (6)additional sessions related to the role of local government and effective contract training systems. The WDI conference invitation and program, reports from regional forums, and the WDI evaluation form are appended.

### When Is Work a Learning Experience?

Mary Agnes Hamilton & Stephen F. Hamilton

Phi Delta Kappan, May 1997

Discusses seven principles, derived from a youth apprenticeship demonstration project, that make work-based learning effective. The premise is that the workplace is no more magical than schools; simply placing young people in them does not guarantee that they will learn. The seven principles cited identify areas in which adults teaching young people in schools and workplaces must make choices that determine the quality of work-based learning. Although derived from youth apprenticeship programs, these principles may be adapted to other types of work-based learning, particularly as the latter become more intensive.

### Service-Learning and School-to-Work: A Partnership Strategy for Education Renewal

National Association of partners in Education, 1996

Monograph, 24 pages. Results from the Wingspread Summit in September of 1996. Briefly covers these topics: Partnering for Success; Wingspread Conference Overview; Service-Learning and School-to-Work: The Core They Share; Service-Learning and School-to-Work: Education Improves When Sectors Give and Gain; Intersecting Service-Learning and School-to-Work; Opportunities and Recommended Strategies. A listing of Resource Organizations follows the text.

Making the First Chance a Real Chance: Bridging Education and work for all Minnesota Youth and Adults

Minnesota Task Force on Education and Employment Transitions

Leo G. Christenson & John W. Mercer, Eds.

Findings and Recommendations, a report to the 1993 Legislature. An abridged edition of the 1993 report of the Task Force on Education and Employment Transitions. Contains part one of the full report, i.e., the findings and recommendations of the task force. The acknowledgments, preface, task force meeting schedule, and list of speakers shown in the full report are also included. Contents: Chapter One: Make the first chance a real chance for all: An education and employment transitions system is critical; Chapter Two: Characteristics and attributes of Minnesota's system for education and employment transitions; Chapter Three: Recommendations. Appendices: Appendix A: Task Force Meetings, Appendix B: Speakers to the Task Force.

**Website:** <http://www.ncrel.org/>

Contains the "Pathways to School Improvement Internet Server, which has easy to find, concise, research-based information. Provides information on a variety of categories including: Assessment, At-Risk Children and Youth, Goals and Standards, Governance/Management, Leadership, Learning, Literacy, Mathematics, Parent and Family Involvement, Professional Development, Safe and Drug-Free Schools, School-to-Work transition, Science and Technology. Example from the Links School-Based and work-Based Learning page, Paris and Mason describe the importance of linking work-based learning with the school experience: (Excerpt from *Planning and Implementing Youth Apprenticeship and Work-Based Learning*, by Kathleen A. Paris and Sarah A. Mason, 1995, Madison, WI: Center on Education and Work, University of Wisconsin.)

"...Work experience in the community, whether paid or unpaid, should be an integral part of every student's school-to-work transition experience. Although the federal School-to-work Opportunities Act of 1994 gives priority to paid work experience as part of a comprehensive school-to-work transition, not all work-based learning experiences provided to students in high school need to be paid. The spectrum of work-based learning includes youth apprenticeship, paid work experience, cooperative education, job shadowing, business and industry mentoring, simulated work tasks at school or through vocational student organizations, school-based enterprises, and community service."

#### Quest International

<http://www.quest.edu/servicelearning.htm>
