ABSTRACT
              This guide reports the opinions of a group of five
computer coordinators from educational software and preview agencies
about software products that seem promising, but have not necessarily
been tested. The 22 software packages reviewed include applications
for math, language arts, science, social studies, health, graphics,
authoring, and database management. In addition to a brief
description of the software package, each entry includes information
on: (1) the publisher; (2) the optimal grade level; (3) topics
addressed; (4) hardware requirements; and (5) price. A list of
software producer addresses and telephone numbers is also provided.

NEW AND PROMISING:
Software Worth A Look

A MicroSIFT Survey of
Educational Software Preview Center Coordinators

Volume I, No. 4

Zita Podany

November 1989

Sponsored by **OERI** Office of Educational
Research and Improvement
U.S. Department of Education

3

This report might be thought of as a tip sheet for educational software. It consists of the opinions of a group of five computer coordinators from educational software preview centers and evaluation agencies. Since these agencies have access to the newest software (often before it is actually published) and since they communicate with a great number of teachers, the Northwest Regional Educational Laboratory considers their opinions about the new software very valuable. Keep in mind, these are products which seem promising—they have not necessarily been thoroughly tested. As with any recommendations, this list should be viewed as a list of products worth investigating further on your own.

This is the fourth quarter in which a *New and Promising* report has been compiled. It is worth mentioning that many products from the last two quarterly lists have still not made it to the market. In this issue, we have tried very hard to distinguish between actual software which is only complete enough for a salesperson to demonstrate.

Algebra Series I-1, I-2, II-1, II-2
     Publisher: IBM   Price: $297.20
     Grades: 7-12
     Topics: Math, Algebra
     Hardware: IBM PC
     Description: Students can practice the basic ideas, skills, and concepts of first -and second -year algebra. Series consists of four parts, sold separately, and is equivalent to a second-year algebra course. Lab packs are available.

Alphabetizing
     Publisher: EBSCO   Price: $49.95
     Grades: Elementary
     Topics: Language Arts, Alphabetizing, Spelling, Special Education, ESL
     Hardware: Apple II family
     Description: A self-paced program to teach students alphabetizing skills by letter or word. Letters and words are randomly generated. Tests and a built-in management feature allow teachers to monitor student progress. Lab packs are available.

Animal Trackers
     Publisher: Sunburst   Price: $65.00
     Grades: 4-10
     Topics: Science, Simulation, Biology, Life Sciences
     Hardware: Apple IIe c GS 64K
     Description: Students investigate different animal habitats and try to identify the animals from their observations and an on-line "field guide." Students can record observations in a computerized "notebook." Three levels of difficulty. Lab packs are available.

Animal Watch: Whale
     Publisher: William K. Bradford   Price: $75.00
     Grades: 1-3
     Topics: Science, Life Sciences, Biology, Language Arts, Writing
     Hardware: Apple II e (enhanced) c c+ GS, 128K
     Description: Students engage in a "whale watch," observing the habits and play activities of the humpback. This program is a part of the Explore-a-Science series promoting reading and writing activities in content areas. Includes a program disk, copyable student disk, five science guidebooks, and a teacher's manual. Lab packs and site licensing is available.

Animated Algebra
     Publisher: Tom Snyder   Price: $59.95
     Grades: 7-12
     Topics: Algebra, Math
     Hardware: Macintosh +, SE, II, 1MB RAM, hard disk is recommended.

Description: Students can evaluate and manipulate mathematical expressions through the animation of algebraic equations and calculations. Includes teacher's guide and lesson plans. Lab packs are available.

Color Me: The Computerized Coloring Kit
Publisher: Mindscape   **Price:** $44.95
Grades: 0-5
Topics: Special Ed., Graphics, Art, Readiness, Language Arts
Hardware: Apple + c e GS 128K, IBM PC/PC jr, Tandy 1000 128K. Mouse, joystick, or Koala Pad required. Printer (optional).
Description: Students develop their potential for creative self-expression through drawing, coloring, and composing pictures. Kit includes a program disk, picture disk, box of crayons, a coloring book binder, and adhesive-backed paper for stickers. Lab packs are available.

Dinosaur Days
Publisher: Pelican Software   **Price:** $39.95
Grades: 2-8
Topics: Database, Science, Life Sciences, Dinosaurs, Language Arts, Writing
Hardware: Apple II family 64K, IBM PC/PC jr. 128K
Description: Graphic database and writing program lets students travel back in time to the world of dinosaurs. Students can create their own dinosaurs and write stories about them. Includes an illustrated workbook. Lab packs are available.

Dinosaur Days Plus
Publisher: Pelican Software   **Price:** $49.95
Grades: 2-8
Topics: Database, Science, Life Sciences, Dinosaurs, Language Arts, Writing
Hardware: Apple II family, requires ECHO II or Cricket.
Description: A talking, graphics database and writing program that allows students to write stories about the dinosaurs they create. Lab packs are available.

Diversi-Tune
Publisher: Diversified Software Research   **Price:** $75.00
Grades: 5-14
Topics: Music, Fine Arts
Hardware: Apple IIGS, MIDI Interface optional
Description: This music program disk contains ten American folk and patriotic tunes. Students can follow along by watching the bouncing ball on the screen.

Exam in a Can Math Skills Series
Publisher: IPS   **Price:**   Basic Math Skills, $79.95
          Algebra I Skills $89.95
          Algebra II Skills $89.95
          Geometry Skills $89.95
Grades: 14
Topics: Tool, Algebra, Math, Geometry, Test Generator, Utility
Hardware: Apple IIe c GS, IBM PC/PS2, Tandy 1000, graphics capable printer.
Description: This algorithm-driven problem generator is available for Basic Math, Algebra I, Algebra II, and Geometry Skills. Problems can be generated in free-response or multiple-choice formats and answers are printed.

Excelsior GRAD
Publisher: Excelsior   **Price:** $185.00
Grades: 14
Topics: Tool, Utility, Database, Gradebook
Hardware: IBM PC/AT 256K/Tandy 256K, requires MS-DOS 2.0 or higher
Description: A student data management system for teachers combining database management with spreadsheet-like grading. Distributed by IBM and is also available in a network version.

HyperStudio: The HyperMedia Authoring Systems
> Publisher: Roger Wagner   Price: $149.95
> Grades: 7-16
> Topics: Tool, Authoring
> Hardware: Apple IIGS, 1.25M
> Description: An authoring system allowing the user to create an interactive environment similar to HyperCard on the Macintosh incorporating graphics, sound, and text. Features include stacks, buttons, links, and other HyperCard -like features. A site license is available.

In the Holy Land
> Publisher: Optical Data   Price: $395.00
> Grades: 9-16
> Topics: ESL, Social Studies, History, Videodisc
> Hardware: Macintosh IMB with 20 MB hard drive, HyperCard, Pioneer 4200 videodisc player, CAV format
> Description: Covers the ongoing conflicts between the Israelis and Palestinians from 1890 to the present. Includes historical news footage, text of original documents, maps, charts, and glossary cards. In-service training and site licensing is available.

International Inspirer
> Publisher: Tom Snyder Productions   Price: $119.95
> Grades: 5-12
> Topics: Social Studies, Simulation, Geography, Maps, Problem Solving
> Hardware: Apple family 64K, MS-DOS 256K
> Description: A program designed to promote cooperative learning as students search worldwide for oil producers, energy consumers, agricultural countries, and urbanized populations. One computer manages the game for the class while students, working in small or whole groups, engage in strategically planning their routes across the world. Includes twenty-four student reference books containing world maps, charts, and geographical information. Lab packs are available.

Learn About Animals
> Publisher: Sunburst   Price: $65.00
> Grades: 0-2
> Topics: Science, Life Sciences, Biology
> Hardware: Apple IIe c GS 128K, Muppet Learning Keys and a printer are optional, mouse is recommended.
> Description: An animated program enabling students to explore the habitats, eating habits, and movements of a variety of familiar animals. Lab packs are available.

Little Shopper's Kit
> Publisher: Tom Snyder   Price: $109.95
> Grades: 0-4
> Topics: Math, Simulation, Arithmetic, Money, Applied Math, Problem Solving
> Hardware: Apple II family, 64K
> Description: Program helps organize shopper's activities by assigning jobs and designating duties. Once the store is in operation, the computer serves as a smart cash register. Kit includes groceries, cash box, play money, reproducible store signs, a classroom idea book, and a teacher's guide.

Mathosaurus Series
> Publisher: Micrograms   Price: $24.95
> Grades: 0-12
> Topics: Arithmetic, Dinosaurs, Math, Numeration
> Hardware: Apple II e c GS, 64K
> Description: Lively, animated dinosaurs help students gain an understanding of beginning number concepts and basic computations. Lab packs are available.

Perception, Inc. (Kit)
>Publisher: Illinois Renewal Institute   Price: $185.00
>Grades: 0-3
>Topics: Readiness, Language Arts, Problem Solving
>Hardware: Apple II + c e GS
>Description: By moving a robotic helper through the rooms of an imaginary production plant, students choose various activities designed to facilitate cooperative learning and to develop higher-order thinking skills. Includes a teacher management system, teacher's guide, ten copies of program dis', a binder with disk holders, and thirty student workbooks.

Personal Science Laboratory
>Publisher: IBM   Price: $476.00
>Grades: 0-12
>Topics: Tool, Science, Simulation, Chemistry, Physical Science
>Hardware: IBM PC/XT/AT/PS2, DOS 3.0 or higher
>Description: A microcomputer-based lab which includes a base unit, temperature, light and pH modules, temperature probes, all necessary cables, and user's guide with a program support diskette.

Redlights, Greenlights, (New Kid in Town)
>Publisher: Interactive Image   Price: $249.00
>Grades: 3-8
>Topics: Simulation, Life Skills, Psychology, Social Studies, Health, Problem Solving
>Hardware: Apple II GS
>Description: A social problem-solving package to help students develop skills which will enable them to function more successfully within the family, school, and community. The computer simulation entitled, *New Kid in Town* (intended for grades 4-6), teaches a six-step decision-making model for handling personal and interpersonal problems. Lab packs and network versions are available.

Smart Choices
>Publisher: Tom Snyder   Price: $119.95
>Grades: 5-12
>Topics: Simulation, Life Skills, Social Studies, Psychology, Health, Problem Solving
>Hardware: Apple II family 64K, IBM PC 256K
>Description: Through observing and practicing positive decision-making strategies in a nonthreatening environment, students can learn to take responsibility for their behavior by developing the necessary skills to cope with peer pressure, sex, drugs, and other pertinent real-life issues. Package includes a teacher and parent guide, detailed lesson plans, thirty student reference books, and reproducible worksheets.

Time Patterns Toolkit U.S. History
>Publisher: Great Lakes Software   Price: $99.95
>Grades: 5-12
>Topics: Social Studies, History
>Hardware: Apple II GS, 512K
>Description: A menu-driven electronic timeline covering U.S. history from 1790 to the present. Pull-down menus enable students to collect information, explore questions, and look for causal relationships about the events and trends that shaped the growth of this country. A graphing feature visually highlights these milestones in U.S. history. Includes a teacher's guide, lesson plans, and a vinyl binder. A lab pack is available. Distribution is handled by Tom Snyder Productions.

Northwest Regional Educational Laboratory

Robert R. Rath, Executive Director
Ethel Simon-McWilliams, Associate Director

The Northwest Regional Educational Laboratory (NWREL) is an independent, nonprofit research and development institution established in 1966 to assist education, government, community agencies, business and labor in improving quality and equality in educational programs and processes by:
- Developing and disseminating effective educational products and procedures
- Conducting research on educational needs and problems
- Providing technical assistance in educational problem solving
- Evaluating effectiveness of educational programs and projects
- Providing training in educational planning, management, evaluation and instruction
- Serving as an information resource on effective educational programs and processes
  including networking among educational agencies, institutions and individuals in the region
