ABSTRACT

This courseware evaluation rates the "Inflammation" program developed by Lane Community College in Eugene, Oregon. (This program--not contained in this document--introduces students to the possible causes, signs, and protective benefits of inflammation.) Part A describes the program in terms of subject area (allied health, nursing), and hardware requirements (Apple II+, IIe, IIC), indicates its suitability for use as a tutorial for grades 11-adult, and gives a time estimate for use (30 minutes). Availability information includes cost (\$5.00), loan policies (four weeks), and address of the seller, the Oregon Department of Education. Part B contains the evaluation criteria in eight categories; reviewer ratings appear as yes, somewhat, no, and not applicable, with explanatory comments. Part C summarizes the evaluation. This courseware received ratings of "yes" in the categories of subject matter technical presentation, student interaction, program interaction, and documentation; and "somewhat" in the category of student evaluation, because individual and class performance results are unavailable to the teacher. Work behavior and applications programs categories were not applicable. The program is recommended for use as a tutorial. (SK)

INFLAMMATION
COURSEWARE EVALUATION
FOR
VOCATIONAL AND TECHNICAL EDUCATION

The evaluation of this courseware program was conducted by a team participating in the Courseware Evaluation Network. The Network, established in 1985, is coordinated by the National Center for Research in Vocational Education under the sponsorship of the U.S. Department of Education, Office of Vocational and Adult Education. The purpose of the Network is to identify and evaluate microcomputer courseware, and to disseminate courseware reviews for vocational and technical education.

Each Network team includes three members, at least one of which is, or recently has been, a vocational or technical teacher in the subject matter area of the courseware being evaluated. The evaluation represents a synthesis of the opinions of the team members. It is suggested that the evaluation be used as a first screening device for courseware and that the teacher also evaluate the courseware program on the basis of specific student needs.

The Courseware Evaluation: Form and Guide used for all of the Network evaluations was developed by the National Center and is available through its cost-recovery system.
