IDENTIFIERS *Canada

ABSTRACT

This annotated guide to venereal disease instructional materials, available from Canadian sources, was compiled to assist educators and health workers in the presentation of complete up-to-date instruction and information in the school and community. The materials in this guide have been grouped under two major headings: "Printed Materials" and "Audio-Visual Materials." Printed materials are divided into two categories: (1) booklets and pamphlets and (2) charts and posters. Audio-visual materials are divided into seven subsections: (1) films, (2) filmstrips, (3) videotapes, (4) cassettes, (5) multimedia kits, (6) transparencies, and (7) records and tapes. Each item under the subsections is arranged in alphabetical order. All materials are classified according to age group suitability. Addresses and film rental policies of agencies are listed. (MM)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

P R E F A C E

ANNOTATED GUIDE TO VENEREAL DISEASE
INSTRUCTIONAL MATERIALS AVAILABLE IN CANADA

Compiled by

Community Health Promotion
Directorate of Community Health
Health Programs Branch
Department of National Health and Welfare

Community Health Promotion of the Department of National Health and Welfare is pleased to offer a third and revised edition of this annotated guide to venereal disease instructional materials, which are readily available from Canadian sources.

It is hoped that this guide will assist all educators and health workers in presenting a complete range of up-to-date instructional and informational materials in the school and the community.

The materials in this guide have been grouped under two major headings: Printed Materials and Audio-Visual Materials. Printed Materials are divided into two categories: Booklets and Pamphlets, and Charts and Posters. Audio-Visual materials are divided into seven sub-sections: Films, Filmstrips, Videotapes, Cassettes, Multi-Media Kits, Transparencies, and Records and Tapes. For convenience each item under the sub-sections is arranged in alphabetical order. Also, for quick reference, all materials are classified as to their age group suitability, by indicating Level I (elementary levels k-8), Level II (secondary levels 9-12), and Adult. For any additional information on a specific item, we suggest that you contact the respective agency or company concerned.

PRINTED MATERIALS

The major sources of printed materials are the provincial departments of health, who distribute not only their own publications, but those produced by the federal Department of National Health and Welfare, and in some cases, material produced by other agencies.

Provincial health departments prefer to deal only with residents of their provinces. However, in some cases, sample copies may be provided to non-residents, depending on the availability of materials. (See page 34 for addresses of provincial health departments.)

BOOKLETS AND PAMPHLETS:

THE BIRDS AND THE BEES, AND THE BUG, AND THE FACTS ABOUT VD

1973, English and French
Level I, II and Adult

Available free of charge
from Pfizer Company Ltd.,
Pharmaceuticals Division.
Also available through
the PEI, BC and Nfld
departments of health.

BIRTH CONTROL FACTS FOR TEENAGERS

1971, English and French
Level II and Adult.

Available free of charge
from the Family Planning
Division, Department of
National Health and Welfare,
Tunney's Pasture, Ottawa
K1A 1B5

LES JEUX DE L'AMOUR ET LES RISQUES QU'ILS COMPORTENT INFORMATION SUR LES MALADIES VENERIENNES

A question and answer pamphlet
describing the symptoms and
effects of syphilis and
gonorrhoea.

FECONDITE ET PLANIFICATION - RENSEIGNEMENTS A LA PORTEE DES ADOLESCENTS

As well as describing the
various methods of birth con-
trol, a section of this book-
let explains the symptoms,
stages and treatment of
syphilis and gonorrhoea.

...2

BODYGUARDS AND SELF DEFENSE
YOUR VD PROTECTION MANUAL

English only
Level I, II and Adult

Available free of charge to residents of Saskatchewan from the Department of Health.

This pamphlet is similar to "Everything You Always Wanted to Know About VD, But Were Afraid to Ask" except that it includes an opening section on VD prevention.

CONFIDENTIALLY TO GAY PEOPLE

English only
Level II and Adult

Available free of charge to residents of British Columbia from the Department of Health.

Included in this booklet are the facts about syphilis and gonorrhoea, the address of the Gay VD Clinic in Vancouver, as well as a description of the procedure followed at a VD clinic.

CONFIDENTIALLY TO TEENAGERS

English only
Level I, II and Adult

Originally produced by the Department of National Health and Welfare, this pamphlet has been reprinted by the Newfoundland Department of Health. Also available from the Prince Edward Island Department of Health.

This twelve-page booklet uses a question-answer technique to present the basic facts about syphilis and gonorrhoea. Written with young people in mind, this booklet presents the material in a direct, frank manner.

"DOC, I'VE GOT THIS FUNNY SORE..."
GONORRHEA AND SYPHILIS

1972, Bilingual
Level II and Adult

Single copies are available free of charge from the Clinique Rideau Clinic, 160 Chapel Street, Ottawa. Write for prices on additional copies.

"LA VERITE, C'EST QU'IL NE FAUT PAS EMBRASSER LA BELLE-MERE" -
LA GONORRHEE ET LA SYPHILIS

Using a non-technical approach, this bilingual booklet gives the individual the facts on the symptoms, transmission and treatment of syphilis and gonorrhoea.

...3

"EVERYTHING YOU ALWAYS WANTED TO
KNOW ABOUT VD BUT WERE AFRAID
TO ASK"

English only
Level I, II and Adult

Available free of charge to
residents of Saskatchewan from
the Department of Health.

This pamphlet describes the
causes and symptoms of syphilis
and gonorrhoea and gives statis-
tics showing the incidence of
the diseases in Saskatchewan. It
points out the resulting dangers
if VD is untreated, and the im-
portance of contact tracing.

FACTS TO BELIEVE ABOUT
VENEREAL DISEASE

1973, English only
Level I, II and Adult

Available free of charge
through the Prince Edward
Island Department of Health.
Produced by Imagination Inc.
1821 University Avenue,
St. Paul, Minnesota

It is a current, to the point
pamphlet, on venereal disease.
Excellent for dissemination of
VD information through private
physicians' offices, schools,
teenage recreation centres and
hospital waiting rooms.

GONORRHEA: A COMMON VENEREAL
DISEASE

1974, English only
Level II and Adult

Available through the
Newfoundland Department of
Health.

This pamphlet makes reference to
the reported incidence of gonor-
rhea in Newfoundland and includes
basic information on the cause,
spread, symptoms, diagnosis,
treatment and pevention of this
disease.

THE GRIM NEW VENEREAL DISEASE
IN OUR MIDST

1975, English only
Level II and Adult

Available at \$45.00 per 500
copies or 6¢ each for orders
of 5000 and over from the
Reprint Editor, Reader's
Digest, 215 Redfern Avenue,
Montreal 215, Quebec

This reprint recognizes a bizarre
and puzzling venereal disease
called Herpes simplex Virus Type
II as the second most common
venereal disease which has
assumed epidemic proportions. It
states how HSV-2 can be contracte
and where it can develop. New
medical discoveries have emerged
but as yet, a cure for this
menacing virus is still unknown.

HOW TO STOP THE VD THREAT

1973, English only
Level II and Adult

Available at \$60 per 500 copies or 10¢ each for orders of 5000 and over from the Reprint Editor, Reader's Digest, 215 Redfern Ave., Montreal 215, Quebec. Also available to residents of Newfoundland from their Department of Health.

This article examines the causes of the VD crisis and explains what is needed to eradicate this menace. Emphasis is not on the medical aspect but on information that should be made available to the public.

QUESTIONS AND ANSWERS ABOUT VENEREAL DISEASE

1974, English
Level I, II and Adult

Available free of charge to residents of Alberta from the Department of Social Services and Community Health.

This pamphlet enumerates a series of commonly-asked questions about VD and provides practical and concise answers. It also contains the addresses of Alberta's VD clinics.

RHYTHM AND BLUES

English only
Level II and Adult

Available free of charge to British Columbia residents from the Department of Health.

This easy reading and enjoyable handbook provides comprehensive information on venereal disease and birth control. It answers common questions and uses graphics to illustrate some points. Facilities are listed where one can go for help.

THE SCOURGE OF VD

1973, English only
Level II and Adult

Available at \$40 per 500 copies or 6¢ each for orders of 5000 and over from the Reprint Editor, Reader's Digest, 215 Redfern Ave. Montreal 215, Quebec

This reprint from the November 1973 issue of Reader's Digest relates four anecdotes in which a 14-year old girl, a 19-year old boy, a pregnant woman and a young executive each contract venereal disease. A fifth anecdote illustrates the ease of receiving treatment at a Toronto VD clinic.

(The Scourge of VD cont'd)

The reprint also contains questions and answers on syphilis and gonorrhoea condensed from Facts You Should Know About VD But Probably Don't

THE SILENT EPIDEMIC - VD

English only
Level II and Adult

Available to residents of Manitoba free of charge from the Department of Health and Social Development.

This pamphlet contains 42 illustrated facts about venereal disease including symptoms, stages, treatment and results if not treated.

TWENTY QUESTIONS ON VD - CAN YOU ANSWER THEM CORRECTLY?

English only
Level II and Adult

Available free of charge to residents of Newfoundland from the Department of Health.

This questionnaire is designed to assess the reader's knowledge of venereal diseases.

VD

English only
Level II and Adult

Available free of charge to residents of British Columbia from the Department of Health.

This pamphlet gives a brief description of syphilis and gonorrhoea and methods of prevention. Included is information on clinics in British Columbia.

VD

1974, English and French
Level I, II and Adult

Available from all the provincial departments of health.

LE MAL VENERIEN

Produced by the Department of National Health and Welfare, this booklet with coloured illustrations describes how VD can be contracted, the signs and symptoms of syphilis and gonorrhoea and treatment of these diseases. It also stresses the importance of reporting one's sexual contacts to one's doctor.

FACTS YOU SHOULD KNOW

1974, English only
Level I and II

Available from Gage Educational Publishing Ltd., at \$2.65 plus 40¢ for separate teachers' resource notes. P.O. Box 5000, 164 Commander Blvd., Agincourt, Ontario M1S 3C7

This 64-page booklet helps present to young people vital information on VD. It furnishes teachers with material for a ready-made unit on VD that requires a minimum of class time for completion.

VD - THE FACTS

1973, English only
Level II and Adult

Available at 5¢ per copy from the Family Planning Federation of Canada, 88 Eglinton Ave. E., Room 404, Toronto, Ontario M4P 1C9

Produced by the Family Planning Association in England, this illustrated pamphlet answers many key questions about VD such as how to recognize the signs of both syphilis and gonorrhoea and what to do if you think you have contracted a case.

VD HANDBOOK

1972, English and French
Level II and Adult

Published by Montreal Health Press, it is available in single copies for 35¢ from Montreal Health Press Inc./ les presses de la Santé Incorporée, P.O. Box 1000, Station G, Montreal 130, Quebec. Additional copies up to 20, 10¢ each. Bulk price \$80 per 1,000 copies.

LES MALADIES VENERIENNES

This very extensive booklet gives a full anatomical description of those structures which are affected by sexually-transmitted diseases and explains in detail all the venereal diseases, including their transmission, symptoms, complications in females and males, treatment and prevention.

VD IN ONTARIO

1973, English only
Level II and Adult

Available free of charge to residents of Ontario from the Ontario Ministry of Health.

A tabloid newspaper for Ontario residents. Includes the latest VD statistics, addresses of treatment clinics throughout Ontario, a report on the latest research findings, plus other informative articles.

...7

VD - SEXUALLY-TRANSMITTED
DISEASES

1971, English and French
Level II and Adult

Available free of charge to
residents of Ontario from
the Ontario Ministry of
Health.

VENEREAL DISEASE - A SOCIAL
CATASTROPHE

1975, English only
Level II and Adult
Available from Burns and
MacEachern Ltd., for \$1.65
per copy, 62 Railside Road,
Don Mills, Ontario
M3A 1A6

VENEREAL DISEASE IN CANADA
1974

1975, English and French
Level II and Adult

Available free of charge
from Epidemiology Services,
Health Protection Branch,
Department of National
Health and Welfare, 2nd Floor,
Queensway Towers, Ottawa
K1A 1B7

MV - MALADIES TRANSMISES PAR
DES RAPPORTS SEXUELS

This folder gives basic infor-
mation and recent statistics on
the venereal disease problem in
Ontario. In addition, the
addresses and phone numbers of
treatment clinics throughout
Ontario are given.

This paperback covers the
following topics: The Behaviour-
al Aspects of Venereal Disease -
Magnitude of the problem,
History of Venereal Disease,
Pathology of Gonorrhoea, The
Other Venereal Diseases, The
Venereally Related Diseases,
Epidemiological Control, What
Can be Done, Thirty Most Often
Asked Questions About Venereal
Disease.

MALADIES VENERIENNES AU CANADA
1974

A statistical annual report
which discusses the trends in
reported cases of syphilis and
gonorrhoea in Canada. Also in-
cluded are statistics on age
and sex of reported cases,
addresses of provincial directors
of VD control and historical
summaries of the morbidity and
mortality of these diseases.

...8

WHAT IS VD ANYWAY?

1973, English only
Level I, II and Adult

Available free of charge to residents of Manitoba from the Department of Health and Social Development

This 8" x 14" colored sheet outlines in short, to-the-fact, sentences, the definition of VD, its symptoms and results if not treated.

CHARTS AND POSTERS:

VD DISPLAY

English only
Level II and Adult

Produced by the Alberta Department of Social Services and Community Health

The display was patterned after the federal government's pamphlet entitled "VD" using similar graphics and color coordination. The copy is a brief resumé of the information contained in the pamphlet with provincial clinic addresses and corresponding phone numbers. To ensure audience participation, faces and reproductive systems of both gender have been illuminated by alternately flashing lights. It is constructed of five panels seven feet high by three feet wide that are hinged together.

VD FLIP CHART

English only
Level I

Produced by the American Educational Film Co. at the price of \$15.00 per Flip Chart

This is a 14 x 22 cardboard chart with 25 books and 12 cards. It contains information in statistical form from VD Prevention and VD A New Focus.

VD POSTERS

English only
Level II and Adult

Available to residents of Alberta from the Department of Social Services and Community Health.

Two colored posters on venereal disease entitled "Only A Doctor Can Cure Venereal Disease" and "Your Pick Up May Be Your Let Down".

VENEREAL DISEASE CHART

English only
Level II and Adult

Produced by the Alberta Department of Social Services and Community Health

The purpose of this flip chart is to illustrate signs, symptoms, disease incidence and methods of prevention for gonorrhoea and syphilis. There are 15 pages 18" x 22" contained in a three-ring binder.

VENEREAL DISEASE CHART

English only
Level II and Adult

Produced by Denoyer-Geppert Co. it is available for \$10.50 from their agents in various centres across Canada. For the agent nearest you, consult your local telephone directory or write to Denoyer-Geppert Co. 5235 Ravenswood, Chicago, Illinois 60640

This 36" x 44" colored chart illustrates the causes, prevention and cure of venereal diseases. It is handmounted on muslin with wooden rods, top and bottom. (order no. 41341-10)

AUDIOVISUAL MATERIALS

Please note that films available for rent from provincial governments are available to residents of that province only. The rental policies of the commercial distributors are listed on page 36.

CASUAL TIES, CASUALTIES

Producer: Pyramid Films
1972, Color, 13 min.
Level II and Adult

Purchase Source: International Tele
Film Enterprises

Price: \$225.00

Rental Source: Same as above

This is a realistic, non-judgmental film which probes some of the psycho-social aspects of the current VD epidemic. The film focuses on a few hours in the life of Penny; young, promiscuous, naive. At a free clinic, waiting rooms and interviews are punctuated with flashbacks as we learn about her life and thoughts.

CLUSTER TESTING

Producer: United States Public
Health Services
1958, B&W, 23 min.
Adult and Health
Professionals

Rental Source: Canadian Film Institute
Also available from the
Saskatchewan Department
of Health

A film showing how cases of VD can be detected through the cluster testing technique. This film will be of benefit and interest to public health departments, nurses, doctors and particularly those directly involved in venereal disease control.

...10

DANCE LITTLE CHILDREN

Producer: Calvin Productions
1961, Color, 25 min.

Rental Canadian Film Institute
Source: Also available through
the Nova Scotia, Manitoba
and Saskatchewan Depart-
ments of Health and the
Alberta Department of
Social Services and
Community Health

This film gives a full explanation
of the role of the health depart-
ment in tracing down cases of
syphilis. When a case is found,
the film shows the various parental
reactions.

HALF A MILLION TEENAGERS

Producer: Churchill Films
1969, Color, 16 min.
Level II and Adult

Purchase Gordon Watt Films
Source:

Price: \$215.00

Rental Canadian Film Institute
Source: Also available through
the Newfoundland, New
Brunswick and Manitoba
Departments of Health,
Alberta Department of
Social Services and
Community Health and
the Ontario Ministry of
Health Film Library.

UN DEMI-MILLIONS DE MOINS DE
VINGT ANS

The film opens with a presentation
of the great number of persons who
contract syphilis and gonorrhoea
each year. A half a million of
these in the U.S. are teenagers.
The film discusses the organisms
involved, transmission, symptoms,
and damage to tissue when the
diseases are allowed to go un-
treated. It stresses that these
diseases can be cured. It
approaches the subject purely
from the standpoint of health and
disease, avoiding any discussion
of the moral issues involved.
The film is a revised edition of
"A Quarter Million Teenagers".

A HALF A MILLION TEENAGERS...
PLUS

Producer: Churchill Films
1975, Color, 17 min.
Level II and Adult

Purchase Gordon Watt Films
Source:

Price: \$215.00

Rental Available from the
Source: Newfoundland Depart-
ment of Health.

This film describes the preval-
ence of VD among teenagers, the
chain of infection and why the
disease is so difficult to stop.
A boy and girl describe their
experiences with gonorrhoea and
the boy is shown in his visit to
a clinic. It also describes the
symptoms and the progress of
gonorrhoea and syphilis as it de-
velops both in the female and
male.

...11

HOW TO KEEP FROM CATCHING VD

Producer: Jarvis Couillard
1971, Color, 20 min.
Level I and II

Purchase Source: International Tele-
Film Enterprises

Price: \$295.00

Rental Source: Same as above. Also
available from the
Newfoundland Department of Health.

This film explores the symptoms by which a person may suspect he has VD, the cumulative effect of VD if allowed to go untreated, how a doctor examines a man and a woman for VD; how a doctor can simply and certainly cure VD; and most important, what a man and a woman can do to keep from catching VD.

THE INNOCENT PARTY

Producer: Centron Corporation
for Kansas Department
of Health
1959, Color, 18 min.
Level II and Adult

Purchase Source: International Tele-
Film Enterprises

Price: \$288.00

Rental Source: Same as above. Also
available from the
Canadian Film Institute, the New Brunswick
and Saskatchewan Departments of Health, Ontario
Ministry of Health Film Library and the Alberta
Department of Social Services and Community
Health.

Presents the case history of a teenager who contracts venereal disease from a casual contact and transmits it to his girl friend. Emphasizes the need for immediate medical attention. Also depicts emotional effects.

THE INVADER

Producer: Potomac Films
1955, B&W, 45 min.
Level II and Adult

Purchase Source: Centre for Mass
Communication
Columbia University
New York

This film gives the historical background of syphilis and the development of treatment. It illustrates the changing public attitudes towards the disease over the years and discusses methods of treatment.

...12

(The Invader cont'd)

Price: \$203.00

Rental Source: Canadian Film Institute
Also available from the
Manitoba, Saskatchewan
Departments of Health
and the Alberta Depart-
ment of Social Services
and Community Health.

IT TAKES TWO

Producer: BC Department of Health
VD Control Division
1974, Color, 15 min.
Level II and Adult

Purchase Source: Division of VD Control
BC Department of Health

This film presents the facts on gonorrhoea and syphilis very simply. It includes some historical facts, some myths and their clarifications and places to go for help in British Columbia.

KATHY

Producer: Aims Instructional Media
1969, Color, 19 min.
Level II and Adult

Purchase Source: International Tele-
Film Enterprises

Price: \$320.00

Rental Source: Same as above. Also
available through the
Nova Scotia and
Manitoba Departments
of Health

This is a preventative film for the 15-19 age group on the subject of gonorrhoea. Actual doctors interview teenagers revealing major points about this fast-spreading disease. Stresses the need for medical help at even the suspicion of gonorrhoea.

...13

LOOK WHAT'S GOING AROUND

Producer: Churchill Films
1973, Color, 16 min
Level II and Adult

Purchase Source: Gordon Watt Films

Price: \$195.00

Rental Source: Same as above. Also available from City Films.

A film on venereal disease. Set largely in a public health unit clinic, information is presented formally by a physician and a public health investigator. Animation is used to present facts, while lively and frank discussion by a group of young people presents attitudes to help dispel the sense of shame. Subjects emphasized are ease of treatment, symptoms, spread of the disease, the reasons for identifying contacts, and prevention by the use of condoms.

THE LUNATIC

Producer: Centron Educational Films
1972, Color, 23 min
Level II and Adult

Purchase Source: International Tele-Film Enterprises

Price: \$391.00

Rental Source: Same as above.

A film about a girl who abruptly learns that she has contracted a venereal disease. Her reaction to herself, her boyfriend, the disease and her other friends stimulates the viewers to discuss not only VD but a whole range of interpersonal relationships - trust, responsibility, love, etc.

MORE COMMON THAN MEASLES AND CHUMPS

Producer: Dept. of National Health and Welfare
1972, Color, 10 min.
Level I and II

Purchase Source: National Film Board of Canada

Price: \$100.00

Rental Source: National Film Board Regional Centres in all provincial departments of health.

PLUS COMMUNES QUE LA ROUGEOLE OU LES OREILLONS

Produced by two students for the Department of National Health and Welfare, this animated cartoon is designed for children 10-14 years of age, to clear up the misconceptions young people have regarding VD and to develop an awareness of the problem. This film is to be used by the teacher as a means of initiating discussion on the subject of venereal disease.

NON-SYPHILITIC VENEREAL DISEASES

Producer: Sturgis Grant Prod. NY
1965, Color, 30 min.
Professional

Purchase Source: E.R. Squibb & Sons

Price: \$10.00 (rental)

Rental Source: Same as above. Also
available from City
Films

This film discusses the etiology, pathology, diagnosis and present-day treatment of the four most common venereal diseases which are not of syphilitic origin. Gonorrhoea, chancroid, lymphogranuloma venereum and granuloma inguinale are the topics covered in this motion picture. Animated diagrams are used to illustrate the spread of the initial infections through the body if left untreated and the sites where lesions become manifest. These lesions are demonstrated clinically on actual patients, accompanied by detailed descriptions of variations which may be encountered, as well as the patient's symptoms. Treatment of each disease is elaborated on in its respective section.

A PLAGUE ON OUR HOUSE

Producer: Pfizer Pharmaceuticals
1971, Color, 30 min.
Level II and Adult

Purchase Source: Pfizer Pharmaceuticals

Rental Source: Available free of
charge from City Films

This film deals with venereal disease in terms of the rising incidence, the means of control and the need for public awareness of this important social disease.

A QUARTER MILLION TEENAGERS

Producer: Churchill Films
1964, Color, 16 min.
Level II and Adult

Rental Source: Canadian Film Institute
Also available through
Newfoundland, Prince
Edward Island, Nova
Scotia and Saskatchewan
Departments of Health,
the Alberta Department
of Social Services and
Community Health and
the Ontario Ministry of
Health Film Library

A film dealing with the physiological aspects of venereal disease, designed specifically for the teenage audience among whom VD has been increasing sharply. Both gonorrhoea and syphilis are explained in detail; how the organisms enter the body, how the diseases affect tissues and organs, how they can be treated. Treatment is stressed.

...15

A RESPECTABLE NEIGHBORHOOD

Producer: University of Southern California
1961, B&W, 25 min.
Level II and Adult

The film highlights the reactions of one family when they discover their daughter has syphilis. It also shows how one health department works in tracking down cases.

Rental Source: Canadian Film Institute
Also available through the Saskatchewan Department of Health

SYPHILITIC VENEREAL DISEASES

Producer: E.R. Squibb & Sons
1970, Color, 20 min.
Level II and Adult

This film outlines the origin of syphilis, its diagnosis and the laboratory tests involved, symptoms and explanations of the stages of progression; primary, secondary and latent are clearly defined. The film also explains treatment.

Purchase Source: E.R. Squibb & Sons

Price: \$160.00

Rental Source: Available from the Canadian Film Institute. Also available free of charge to residents of Alberta from the Department of Social Services and Community Health

VD

Producer: Holt, Rinehart and Winston
1972, Color, 26 min.
Level II

The film presents interviews between patients and physicians and explains the symptoms and treatment of VD. The last part of the film includes a group discussion where the young people explore the emotional and psychological factors encountered when VD is contracted.

Purchase Source: Media Department, Holt, Rinehart and Winston

Price: \$360.00

Rental Source: Same as above.

VD ATTACK PLAN

Producer: Disney Productions
1973, Color, 14-16 min
Level I and II

Purchase Source: Bellevue Film Dis.

Price: \$240 short version
\$260 long version

Rental Source: Canadian Film Institute
Also available from all
provincial departments
of health.

MALADIE VENERIENNE - PLAN
D'ATTAQUE

A fully-animated Disney produc-
tion which presents the VD facts
in a direct, informative manner.
It tells today's young people
what they need to know. The film
is available in both a short and
long version. In the long version,
a two-minute section on some
preventive techniques is included
at the end of the film. However,
this sequence is included in such
a way that it can be deleted in
the short version, without
affecting the film's continuity.
Produced in Italian, Spanish,
German and Swedish.

VD - A CALL TO ACTION

Producer: Association Films
1969, Color, 27 min.
Level II and Adult

Purchase Source: Association Films

Rental Source: Same as above and
Canadian Film Institute
Also available for pro-
fessional use through
the Saskatchewan Depart-
ment of Health

This film was made on location
in Fall River, Mass. It follows
the busy work day of a nurse
epidemiologist. She and 26 others
in the state trace the sources of
VD infection. The nurses' con-
versations and the film's narra-
tion stress the fact that anyone
can get venereal disease. The
viewer is left in no doubt that
the epidemic is real and that
the nurses' counterparts in every
community need cooperation.

VD EPIDEMIC

Producer: American Broadcasting
Corporation
1967, B&W, 24 min.
Level II and Adult

Purchase Source: McGraw-Hill Ryerson
Limited

Price: \$190.00

Rental Source: Alberta Department of
Social Services and
Community Health

The purpose of this film is to
make the public (especially the
teenager and young adult) aware
of all of the aspects of the
problem of venereal disease -
its rapid increase, the impor-
tance of early treatment, the
significance of proper action
by public health officials and
the high cost in dollars of
health.

VD - EVERY THIRTY SECONDS

Producer: Alfred Higgins Prod.
1972, Color, 17 min.
Level I and II

Purchase Educational Film
Source: Distributors

Price: \$225.00

Rental Educational Film
Source: Distributors. Also
available from the

Health and the
Ontario Ministry of
Health Film Library

The spread of venereal disease among young people has reached such alarming proportions that it is of the greatest national concern. The purpose of this film is to inform young people about the seriousness of venereal disease, to explain how the diseases are transmitted and illustrate how the body and mind are affected.

VD - THE GIFT THAT KEEPS ON GIVING

Producer: Copley Productions
1974, Color, 21 min.
Level I and II

Purchase MacMillan of Canada
Source:

Price: \$325.00

This film documents the activities of teenagers in many parts of the country who volunteered to bring the VD message to their friends. It pinpoints their approach which is simply "You are causing the epidemic". Lively, direct and highly informative, this contemporary film will get across to many who turn off to anything official.

VD - HANDLE WITH CARE

Producer: Cinematic Concepts
1974, Color, 18 min.
Level II and Adult

Purchase MacMillan of Canada
Source:

Price: \$260.00

This film deals with venereal disease on the "feeling" level rather than emphasizing the organic or physical manifestations. As a candid communication of feelings, this is an important film for initiating an awareness of the reality of VD and for helping parents, teachers and students to understand reactions and attitudes of young people who have had the disease. There are no actors in this film, merely people who are open and honest about their sexual experiences.

VD - THE HIDDEN EPIDEMIC

Producer: Encyclopedia Britannica
1973, Color, 23 min.
Level II and Adult

Purchase Source: Visual Education Centre

Price: \$325.00

Rental Source: Same as above. Also available through the Manitoba Department of Health

This film discusses the history of VD. It also gives a detailed description of gonorrhea and syphilis. Patients are interviewed and the symptoms and preventions are examined thoroughly.

VD HOTLINE - OPERATION VENUS

Producer: Paramount Communications
1973, Color, 18 min.
Level I and II

Purchase Source: MacMillan of Canada

Price: \$250.00

Produced by Paramount Communications, in cooperation with the United States Alliance for the Eradication of Venereal Disease, VD Hotline - "Operation Venus" is more than a tool for explaining what VD is and how to cure it. It is a documentary film emphasizing the importance of being responsible, the value of being educated and their rewards for honesty. It can reassure teenagers that they can change their world, with a little help from their friends.

VD - KIDS GET IT TOO

Producer: Moreland-Latchford Ltd.
1972, Color, 14 min.
Level I and II

Purchase Source: Moreland-Latchford

Price: \$236.00

Rental Source: Canadian Film Institute
Also available from all provincial departments of Health

MV - LES ENFANTS AUSSI

Kathy Martin, 14 years old, is in hospital recovering from gonorrhea infection. A young intern assigned to the hospital's VD service talks to Kathy. Their discussion and conversations between the Martin's family physician, Kathy and her parents present dramatic opportunity for explaining the facts about VD and in particular, gonorrhea - how it spreads from person to person, and the importance of recognizing symptoms and being treated quickly.

VD - NAME YOUR CONTACTS

Producer: Moreland-Latchford Ltd.
1967, Color, 22 min.
Level II and Adult

Services and Community
Health

MALADIES VENERIENNES - NOMMEZ
LA PERSONNE

When a youngster seeks treatment for venereal disease, he's usually scared stiff, and embarrassed. It takes a lot of courage, though, to take the next vital step - naming his contacts. The film shows the intertwining of the lives of three groups - teenagers, young adults, and homosexuals and how one person links others in the chain of VD victims.

VD - A NEW FOCUS

Producer: American Educational
Films
1970, Color, 15 min.
Level II and Adult

Purchase Source: Bellevue Film
Distributors

Price: \$250.00

Rental Source: Available from the BC
and Saskatchewan De-
partments of Health
and the Alberta De-
partment of Social
Services and Community
Health.

The film opens with a confrontation between a girl who has been infected and her boyfriend. A physical disease that can be cured has changed their entire relationship. It informs the audience of the simple facts about venereal disease; gonorrhea and syphilis. It emphasizes the ease of cure in the early stages and makes clear that those who suspect they may have VD must seek immediate medical treatment from the many places it is available.

VD - PREVENT IT

Producer: Alfred Higgins Prod.
1972, Color, 11 min.
Level I and II

Purchase Source: Educational Film
Distributors

Price: \$150.00

Rental Source: Same as above. Also
available from the
New Brunswick Depart-
ment of Health

This film demonstrates that VD is easily prevented. It discusses the types of venereal diseases, their long range effects if untreated, and specific precautions to take.

VD PREVENTION

Producer: American Educational
Films
1974, Color, 11 min.
Level I and II

Purchase Source: Bellevue Film Distrib.

Price: \$150. (\$160 with flip
chart)

Rental Source: Same as above

This film clearly outlines the methods of prevention... the care necessary to stop infection. Discusses cleansing measures, prophylactics, preventive medications and regular VD check ups. Essential for a complete and effective program to combat the pandemic of venereal disease. Host narrated by Adrienne Barbeau

VD QUESTIONS, VD ANSWERS

Price: \$236.00

Rental Source: Available from most
provincial departments
of health and the
Canadian Film Institute

MALADIE VENERIENNE - VOYEZ VOTRE
MEDECIN

This is a story, simply told, that helps to convey the message its title implies: that is, thanks to the advances of modern medicine, venereal disease could practically be eradicated if everyone clearly understood its nature and its possible consequences. Emphasis is placed on the duty which each person who has been exposed to infection owes to himself or herself and to the community.

VD TRUTH OR CONSEQUENCES

Producer: Max Miller/Avanti
Films
Color, 28 min.
Level II and Adult

Purchase Source: City Films

Price: \$350

Rental Source: Same as above

This film runs through the prevailing misinformation and myths that have conspired to make venereal disease the epidemic it is today. The film is designed to help the viewer learn how to prevent venereal disease and how to recognize the more obvious symptoms. We learn that women are 80% asymptomatic and what the symptoms are for men as well as women and what to expect in the examination and treatment of the major venereal diseases, gonorrhea and syphilis. This film stresses the very personal responsibility of those with VD of naming their contacts and the protective anonymity provided for those who do so. Information about public health clinics and free clinics is provided for those who do not want to be examined and/or treated by their family doctor.

VD - A VERY COMMUNICABLE DISEASE

Producer: Aims International
Media Services
1972, Color, 19 min.
Level II and Adult

Purchase Source: International Tele-
Film Enterprises

Price: \$320

Rental Source: Same as above. Also
available from the
Canadian Film Institute,
and on a loan basis
from the Saskatchewan
and Newfoundland Depart-
ments of Health and
from the Ontario
Ministry of Health Film
Library

The film follows the day of several young people planning to produce a film on venereal disease. Their discussions with doctors and subsequent visit to a VD clinic provide information for young people about the seriousness of VD; how it can be caught, the symptoms and stages of both syphilis and gonorrhea. It emphasizes the importance of naming one's contacts. Also incorporated is a short section on preventive measures which can easily be deleted by the purchaser without affecting the film's continuity.

VENEREAL DISEASE

Producer: Ontario Ministry of Health
1974, Color, 8 min.
Level I

Rental Ontario Ministry of
Source: Health Film Library

An introductory film on gonorrhoea and syphilis featuring Dr. R. Persad, Medical Consultant, Venereal Disease, Ontario Ministry of Health. It outlines basic facts, identifying symptoms and treatment of VD in Ontario. There is a brief cartoon sequence in the film.

VENEREAL DISEASES

Producer: John Wiley & Sons Inc.
1974, Color, 17 min.
Level II and Adult

Purchase John Wiley & Sons Inc.
Source:

Price: \$214.25

Rental Same as above.
Source:

This film begins in a public health clinic where a doctor discusses the taboos surrounding VD and how they keep young people from getting proper treatment. Emphasis is on the confidential nature of treatment at a clinic and the need for VD to be accepted as a "normal" disease. The film shows causes, symptoms and treatment for gonorrhoea and syphilis. Misconceptions and fears young people have about VD are brought across and dispelled. Concludes with a small group discussion in which a doctor and young people discuss how they can protect themselves against VD, detect symptoms and seek treatment.

YOU GOT WHAT?

Producer: Cinika (USA)
1971, Color, 23 min.
Level II and Adult

Purchase Franciscan Films
Source: San Francisco, Ca.

Rental Canadian Film
Source: Institute

This film is designed to aid teachers with the problem of VD awareness and care in our under twenty-five generation. The film communicates with the "now" generation and reaches the most sophisticated young adult. It brings to the classroom combined entertainment and information, including a graphics sequence and documentary coverage of the experience of a young man and a young woman undergoing confidential care at their local public health unit.

FILMSTRIPS:

ABOUT VD

Producer: National Film Board
of Canada
1975, Color, Silent
13 minutes-38 seconds
Level Adult

Purchase

Source: National Film Board

Price: \$6.00

The filmstrip consists of animated stylized illustrations concerning the transmission, symptoms and effects of the two major venereal diseases, syphilis and gonorrhea. A short opening sequence states that VD is sexually transmitted. The film deals first with syphilis, then gonorrhea; illustrations of the basic facts are presented.

strip
\$6.55 individual
cassette

This program is intended to face head-on the subject of venereal disease. It recognizes the difficulty of approaching the subject due to students' natural sensibilities and therefore uses both a historical and clinical approach in its introductory filmstrip. The second strip deals with the disease on a personal level. Teenagers will be given straight answers to direct questions on this vital subject. Moralistic approaches are not used but understanding and sound advice are presented. The guide is included at the end of the filmstrip.

\$9.50 - 40 frames with
record

Rental: Available from the New
Brunswick, Newfoundland
and Nova Scotia Depart-
ments of Health

QUE SAVEZ-VOUS DES MALADIES VENERIENNES?

This film was designed principally for male audiences over 15 years of age. The producers have attempted to capture the attention of viewers by a combination of cartoons and clinical photographs (humour and tragedy). Facts about venereal diseases are portrayed by cartoons, taking a light-hearted look at human behaviour. This is counterbalanced by actual photographs of early genital sores and late complications of syphilis infection. Two versions of the filmstrip are available: one with captions and the other accompanied by a record.

HOW TO GET SYPHILIS

Producer: Sunburst Communications
1974, Color, 12 minutes
Level I, II and Adult

Purchase Source: International Tele-Film
Enterprises

Price: \$24.00

A unique program that presents this sensitive topic with candor and good taste to today's students using colorful eye-catching graphics and positive story line. The program explores the causes and cure of syphilis and makes a strong case for periodic medical examinations. Refreshing in concept and design.

VENEREAL DISEASE - WHAT I NEED TO KNOW

Producer: Moreland-Latchford
1975, Color, 6 strips
Level I, II and Adult

Purchase Source: Moreland-Latchford

Price: \$35.00

The two filmstrips "What is Syphilis" (11 minutes) and "What is Gonorrhoea" (8 minutes) provide factual information about the characteristics, symptoms and treatment of syphilis. "How Does VD spread" (9 minutes) clearly defines the means by which gonococcus germs and the spirochetes of syphilis travel from person to person. "How is VD Cured" (11 Minutes) demonstrates the symptoms of gonorrhoea, syphilis and explains how infections can be treated. "Name Your Contacts" (9 minutes) provides factual information about gonorrhoea, syphilis, how they spread, where to go for treatment. "The History of Venereal Disease" (11 minutes) demonstrates the historical persistence of VD infection and spread through generation after generation of mankind.

VENEREAL DISEASE - WHO ME?

Producer: Guidance Associates
1973, Color,
Part I: 70 frames
Part II: 55 frames
Level I

Purchase Source: Longman Canada

Price: \$53.50
record or cassette

Part I establishes that both gonorrhoea and syphilis are nationwide epidemics. Program clearly explains and illustrates basic facts about the nature of VD germs, transmission, immediate and long-term effects, signs to look for. Part II explains attitudes which prevent people from seeking treatment and thus cause VD to spread. Discusses the importance of seeking immediate treatment from a private doctor or VD clinic; explains how to find clinics within the community. Emphasizes the importance of telling possible VD contacts they may be in danger.

ADDRESSES AND FILM RENTAL POLICIES OF AGENCIES LISTED

FEDERAL

With regard to films, National Health and Welfare makes available to the public, well over a dozen films on venereal diseases. Distribution of these films is done through the Canadian Film Institute, 303 Richmond Road, Ottawa, Ontario.

It is the policy of the Canadian Film Institute to charge a daily rental fee, based on the length of the film, to cover service expenses plus postage. The charge is for the date of showing only, with allowances made for postal time. The rental fee is \$7.50 per day with two exceptions: rental for The Invader is \$8.50 per day and More Common Than Measles and Mumps, \$5.50 per day. If it is necessary to borrow a film for a longer period than one day, the rates are as follows: 2 days - 1½ times the daily rate; 3 days - 2 times the daily rate; 1 week - 2½ times the daily rate; and 2 weeks - 5 times the daily rate. When ordering, borrowers should give full particulars as to time, place and purpose of the proposed showing, giving where possible, second and third choices of both titles and of showing dates.

PROVINCIAL GOVERNMENTS

Almost all provincial departments of health maintain Film Libraries which include a number of films on VD. Policies vary by province, but in general, the films may be borrowed by any responsible person, organization or institution in the specific province. They do not generally charge rent for the films but those borrowing films are expected to pay express charges one way and are financially responsible for irreparable film damage. For information about the policy established in your province, write the address listed below:
