ABSTRACT

This program, included in "Effective Reading Programs..., * serves 184 disadvantaged white and Spanish-speaking children ranging in age from four to seven and having pretest reading scores of at least one grade level below expectancy. Individualized reading instruction and multilevel grouping are the focus of this program, begun in 1970. A diagnostic-prescriptive reading profile is developed for each student, and instruction is based on objectives. Classrooms feature learning and interest centers. Learning packages are organized to teach specific skills and are coded for use by the teacher, aide, or parent or by the child independently. The packets emphasize self-correcting and self-pacing activities and employ a multimedia approach. The materials include linguistics and phonics textbooks, worksheets, workbooks, library books, audiovisual media, and manipulative devices. Intergroup relations are stressed through a bicultural enrichment program, and parent and community involvement is emphasized in a school advisory program, volunteer program, and home visits. (TO)

					•		•	(Year)

(61

How many program participants and classes (groups) are there in your program? If this is a school-based program, indicate enrollment by class and grade level.

(62

Grade or Other Level	Number of Participants	Number of Classes or Groups
Preschool	45	3
Multi-Age 4,5,6 Multi-Age 5,6,7	28 29	1.
Multi-Age 6,7	27	1·
Kindergarten Second Grade	28 27	

Please list the major instructional strategies used to help clients improve their reading-related skills. Briefly describe, if necessary.

"Individualized Diagnostic Prescriptive Procedures.

Individual and small group instruction based on objectives - emphasizing se f-assessment and self-pacing activities.

Use of Learning Packages (coded for use by 1 teacher, 2 aide, 3 parent.

child independently) to teach specific skills

Multi-Media community-oriented, bilingual library and Learning Center

Are there any major program features (e.g., parent involvement) which are not included in your list of instructional strategies above and are not included in your list of key program objectives in the chart at the end of this questionnaire? If so, please list up to three (3) of these major program features. Briefly describe, if necessary.

- 1. Parent involvement through school advisory committee, volunteer program and home visits.
 - Intergroup relations bicultural enrichment program.

SCHOOL? Does your DISTRICT have stated educational goals? Yes

OBJECTIVES

State reading program goals and objectives; include both affective and cognitive. TITLE I PROPOSAL

- Overall three year objectives are to move Washington School Reading scores towards normal distribution pattern.
- 2. In 1972-73 in Reading to make 1.1 months gain for each month in the program.
- 3. To develop independent work habits and self-to direction.
- 4. To improve students self-esteem.
- 5. To improve parent-student attitude towards school.
- fo improve teacher ability to use Reading materials effectively.

EVALUATION

Yes

List major evaluative instruments and/or procedures used to assess degree of achievement for these objectives.

List and describe the materials and methods used in the reading program including software and hardware.

BASIC TEACHING APPROACHES & TECHNIQUES

decreased dependency on the teacher through use of programmed instructional materials. Use of volunteer tutors and parents is on a one to one basis. Individual diagnosis and prescriptions provide specific needed skills. Each student is made aware of his needs and strengths and is encouraged to set his own pace and move independently There is a 5 to 1 pupil to adult ratio in the Reading Lab. and classroom. through the prescribed program.

MATERIALS AND EQUIPMENT

Sullivan Series, Systems 80, Electronic Futures inc., word cards, SRA, Learning Systems Inc., cassettes, State texts (with workbooks and ditto masters), Open Court program materials, filmstrips, 16 mm. projector, listening posts, electric typewriter with headsets.

LIBRARY PROCRAM DESCRIPTION (personnel, equipment, space, materials)

Washington School to be staffed by para-professionals. Included will be materials for both children and adults and plans are to maintain evening and weekend hours. the process of developing a Bilingual - Bicultural Library Community Center at The Anaheim City School District in cooperation with the City of Anaheim is in

School George Washington

Describe Diagnostic-Prescriptive Components of the Instructional Reading Program.

needs assessment and standardized pre-test information. The Metropolitan Reading Readiness Test Form B, Murphy Durrell and the Cooperative Primary Forms 12A and 23A are given to each child to provide this information. A Prescriptive Profile Card is prepared for every child based on the

A Reading skills inventory supplements publisher's assessment devices to specific reading prescription which is then entered on the profile card. The Quick Assessment device is used in the Reading Lab. to determine provide on-going needs information.

School George Washington

For responsibility to learner -- assessing pupil strengths and weaknesses and planning instruction. DESCRIBE THE TEACHER ROLE AND RESPONSIBILITIES IN IMPLEME TING THE READING PROGRAM:

Setting specific objectives for each child Administering pre-tests (Title I) and other assessment devices Planning program to meet individual needs

For selection of techniques and materials.

Teacher makes the decision as to the appropriate program, techniques and materials that will best meet needs of individual children.

For parent involvement -- participation.

Teacher encourages, seeks and provides in-service help to parents who will work in the classroom with children.

For reporting to parents.

Planned and scheduled parent conferences (at least 4 per year). Home visitations are made and parents are given a choice between a report card or a conference.

Describe the staffing pattern of the personnel involved in the reading program, including paraprofessional, classified and volunteer people.

Describe how reading skills acquired by the student as a result of his specific reading instruction are applied, reinforced, or expanded in other areas of the curriculum.

selection of appropriate reading materials, the child can broaden multi-cultural awareness. Through development of skills in the his range of experiences in areas where interest was initially Reading skills are used to develop new hobbies and interests, as well as provide background for Social Studies, Science and awakened through the reading program. The child is encouraged to explore reading materials independently and bring this interest into the home where other family members can share.

Extensive reading also creates awareness in pre-vocational areas and leads with encouragement to further exploration.

Field trips are also used to broaden the childs experiential world, develop new interests, and extend his reading experiences into his non-school life.

- 13. Performs other related duties as required.

JOB DEFINITION FOR TEACHERS

BASIC FUNCTIONS

The teacher works as a member of the instructional staff under the direction of his assigned Principal. The duties and functions of the teacher are directed toward a diagnostic and prescriptive approach to instruction. The identification of each pupil's instructional levels and formulation of realistic and obtainable objectives are the primary responsibilities of the teacher utilizing the advice and aid of the building Principal. The teacher is responsible for the progress of each pupil under his direction. The teacher's instructional program is keyed to the content of What We Teach and the levels of instruction in District Goals and Objectives.

TYPICAL RESPONSIBILITIES

- 1. Identifies and adjusts instructional objectives in terms of student need using District goals and objectives as guidelines.
- 2. Prepares and executes plans for effective teaching.
- 3. Evaluates pupil progress in relation to instructional objectives using available resources.
- 4. Maintains classroom control conducive to a suitable learning environment.
- 5. Performs other professional and public relations oriented duties normally expected of teachers such as:
 - (a) Parent-Teacher conferences.
 - (b) Conferences with administrators and other teachers regarding students.
 - (c) District committees, as assigned by the Superintendent or his designated representative.
 - (d) Back-to-school night programs.
 - (e) Selected PTA activities.
 - (f) Sponsorship and supervision of student activities.
 - (g) Teacher inservice programs.
 - (h) Open houses.
 - (i) Faculty meetings.
 - (j) Other meetings and functions related to the instructional program as may be designated by the Superintendent or his representative.

J.J

EARLY CHILDHOOD EDUCATION

WASHINGTON SCHOOL

Objectives

The major objective of this project is to develop a model for bringing the four year old child into the regular school system by inclusion in a multi-level prekindergarten, kindergarten and grade 1 classroom, to implement individualized instruction/learning and continuous progress.

childhood program should achieve significant growth in <u>learning readiness</u>, <u>language recognition and response</u>, <u>conceptual development</u>, <u>perceptual skill</u>, <u>mathematics achievement</u>, <u>attitude and social maturity</u>. The benefits derived by <u>older children serving as models</u> for younger children will also be observed and evaluated.

Additional program objectives are to:

- -bring about institutional change and provide a higher degree of individualized instruction through the requirement of multi-age grouping.
- explore methods appropriate to individualization of instruction.
- -evaluate effective programs of early childhood education.
- -develop adequate in-service meetings to train personnel (administrators, teachers, para professionals) to work effectively in multi-age groupings.
- -initiate innovative programming by emphasizing programs providing varied experiences and enviornment and flexibility of choice.
- -involve parents in planning, operation and evaluation of the project.
- -develop in the target population those social and interpersonal relationships which act as mediators in the learning process.

Program Description and Procedures

This program proposes to establish multi-age groupings of children in regular classrooms as a vehicle to encourage and require a more individual instructional approach to the participants.

The hypotheses of the program are as follows:

- 1. Beginning four-year-olds, after three years in the program, will exceed other first graders in control classes on standardized reading and mathematics tests.
- 2. Five and six-year-olds will have more positive attitudes toward school and will have made greater social growth than their counterparts in control kindergarten and first grade classes.
- 3. Four and five-year-olds will show measured growth in reading and mathematics.
- 4. The multi-age classroom will increase their abilities to individualize instruction.

The chief reason for choosing a multiage format for the program was to help children and adults break out of the constraints of grade level thinking. We know that each child is a unique individual, but we have not traditionally organized our schools in keeping with this knowledge. Even our graded textbook adoptions deny individual differences. In the multiage classroom instruction by necessity becomes more individualized, children are treated as individuals and allowed to learn as individuals.

Main Activities

- 1. Include preschoolers in multiage classes consisting of 4-5-6 year olds together for instruction.
- 2. Explore strategies and materials in attempting to create a climate for individuality.
- 3. Use adult volunteers in the program to give more individual attention to pupils.
- 4. Encourage crossage tutoring, building on student strengths.
- 5. Hold teacher and parent conferences (individual and groups) regarding progress of children.

- 2 -

LOW ENROLLMENT

- 1. Enrollments at Washington have dropped well below district averages at most grade levels. Average class size in the district is about 27. At Washington, with the adult-pupil ratio about 9 to 0, there are possibilities for a variety of groupings.
- 2. FEWER TITLE I CHILDREN gives us more flexibility as far as staffing and planning for individual needs. Also makes possible as it has in the past the trying out of new concepts and ideas here, with Washington acting as a kind of pilot area and programs that are successful here can be expanded to other schools in the district.
- First, there has been an effort to provide a good primary setting an environment appropriate to the education of young children. The addition of preschool classes and the transferring of 3rd grade have both been moves in that direction.

Secondly, thought has been given to moving towards the State Guidelines for Early Childhood Education -(copies of which are here) and this plan envisions an eventual 4-8 year old ungraded primary program.

- 4. One way of beginning to implement this long range planning is with a multi-age grouping a grouping in one class of 3 different age groups in this case 4, 5, and 6 year olds. This would be the beginning of a move toward the ungraded certain basic skills at their own pace and groupings are according to skills rather than age.
- 5. Because of the enrollment factors it may be possible to release a teacher to assist where needed here it would probably be in kindergarten and in the multi-age class.

 (See chart for one possible arrangement.)

Several steps to take -

- a. select teacher
- b. select students
- c. inservice teacher
- d. starting date
- e. parent meeting
- f. evaluation design
- g. materials
