DESCRIPTORS Abstracts; \*Bibliographies; \*Exceptional Child Education; \*Handicapped Children; \*Physical Education; \*Recreation

ABSTRACT

The selected bibliography of physical education and recreation for handicapped children contains approximately 70 abstracts with indexing information explained to be drawn from the computer file of abstracts representing the Council for Exceptional Children Information Center's complete holdings as of July, 1972. Abstracts are said to be chosen using the criteria of availability of document to user, currency, information value, author's reputation, and classical content. Preliminary information explains how to read the abstract (a sample abstract is included which identifies the different parts of the abstract), how to use the author and subject indexes, how to purchase documents through the Educational Resources Information Center Document Reproduction Service (two order blanks are provided), an order blank for Exceptional Child Education Abstracts in which the abstracts are originally published, a list of indexing terms searched to compile the bibliography, and a list of journals from which articles are abstracted for the bibliography. Publication date of documents abstracted ranges from 1965 to 1971.

## The CEC Information Center on Exceptional Children

With a grant from the US Office of Education, the CEC Information Center was established at The Council for Exceptional Children to serve as a comprehensive source of information on research, instructional materials, programs, administration, teacher education, methods, curriculum, etc. for the field of special education. The Center functions as the Clearinghouse on Exceptional Children in the Educational Resources Information Centers (ERIC) program and also as a member center in the Special Education IMC/RMC Network. In addition, the CEC Center's program includes a commitment to a concentrated effort towards the development of products which will interpret research results into educational methods and practices.

### How to Use This Bibliography

The *Exceptional Child Bibliography Series* was initiated by the CEC Information Center to answer the need for rapid responses to specific requests for information. The volume of information requests received by the Center is analyzed and used as a guide in preparing special topic bibliographies in the field of exceptional child education. Abstracts contained in the bibliographies are drawn from the computer file of abstracts which represents the CEC Information Center's complete holdings as of the date indicated on each bibliography.

Selective editing by Information Specialists is performed on each bibliography. From the total number of abstracts drawn from the file on a particular topic, selection is made of only those judged to best meet the following criteria: availability of the document to the user, currency, information value, author's reputation, and classical content. The number of abstracts selected to appear in a bibliography may vary from one to 100, depending on the amount of suitable information available. Updating of bibliographies as new material becomes available is accomplished when the volume of new material reaches 25 percent of presently available material on a given topic.

### How to Read the Abstract

Each abstract contains three sections—bibliographic data, descriptors, and a summary of the document. The bibliographic section provides the document's identifying number (ED and/or EC), publication date, author, title, source, and availability. The descriptors indicate the subjects with which a document deals. The summary provides a comprehensive overview of the document's contents and in some cases document availability is announced here.

### How to Use the Indexes

Some bibliographies in *Exceptional Children Bibliography Series* contain author and/or subject indexes. In these bibliographies, readers seeking work on a specific aspect of the general topic may consult the subject index to be referred to specific abstract numbers. Abstracts dealing with several topics may be identified by finding the same abstract number under two or more subjects in the subject index.

### How to Purchase Documents

Documents with an ED number and EDRS availability indicated may be purchased from the ERIC Document Reproduction Service (EDRS). For your convenience an order form is provided on the back cover of this bibliography.

Abstracts appearing in the bibliographies have also been published in *Exceptional Child Education Abstracts*, the quarterly abstract publication of the Council for Exceptional Children. Approximately 750 abstracts covering the broad range of exceptionality appear in each issue. (Subscription order form below.)

Number of pages. Use this figure to compute cost of hard copy. → 44p.

Institution(s) → Western Interstate Commission For Higher Education, Boulder, Colorado; United Cerebral Palsy Research And Education Foundation, Inc., New York; Rehabilitation Services Administration (DHEW), Washington, D. C.

Contract or grant number → VRA-546T66

Descriptors—subject terms which characterize content → Descriptors: exceptional child education; cooperative programs; vocational rehabilitation; vocational education; administration; mentally handicapped; state agencies; cooperative education; educational coordination; cooperative programs; state federal aid; administrative problems; communication problems; equalization aid; work study programs; handicapped; cost effectiveness

Summary → Five papers discuss cooperative work study agreements between schools and vocational rehabilitation services in the western states. Areas discussed include the advantages of cooperative agreements, the forms and disadvantages of third party agreements, basic concepts of the programs, and an outline form to use when applying for matching funds; the relationship of special education, rehabilitation and cooperative plans, programs, and agreements; and California's past and present work study programs for the mentally retarded. Also reviewed are research demonstrating the economic feasibility of vocational training for the educable mentally retarded in the public schools and communication problems in work study programs. The conference summary considers the purposes, goals, essence of, and necessity for cooperative agreements. (MK)

## ABSTRACTS

### ABSTRACT 10093

EC 000 382 ED 017 088  
Publ. Date 66 94p.  
**Recreation and Physical Activity for the Mentally Retarded.**  
Council For Exceptional Children, Washington, D. C.  
American Assn. For Health, P. E. And Recreation, Washington, D. C.  
EDRS Price 0.50

Descriptors: exceptional child education; physical education; curriculum; mentally handicapped; recreation; physical activities; recreational activities; recreational programs; art activities; creative activities; handicrafts; music activities; educational objectives; teaching guides

Special educators, physical educators, parents, and volunteers can provide recreation for the mentally handicapped. Background information about the mentally handicapped and their special needs in a recreational program are considered. Objectives of play and of recreational programs and suggestions for program implementation and instruction are presented. Specific examples of varied types of activities are listed. Included is a 114-item annotated bibliography. This document was published by the Council for Exceptional Children and the American Association for Health, Physical Education, and Recreation, 1201 16th Street, N.W., Washington, D.C. 20036, \$2.00. ### ABSTRACT 10121

EC 000 739 ED 016 319  
Publ. Date 66  
Fait, Hollis F.  
**Special Physical Education, Adapted, Corrective, Developmental.**  
EDRS Price 0

Descriptors: exceptional child education; curriculum; physical education; handicapped children; children; psychological characteristics; program administration; teaching procedures; visually handicapped; aurally handicapped; cerebral palsy; orthopedically handicapped; cardiac (persons); mentally handicapped; socially maladjusted; mental illness; mental retardation; nutrition; games; physical fitness; dance; older adults

Written for prospective physical education teachers in a variety of settings, the book has three objectives--(1) to introduce briefly the nature of various handicapping conditions, (2) to delineate their psychological implications, and (3) to suggest suitable games and activities. Historical background, a basis for understanding the handicapped, administrative principles, and characteristics of an effective adapted physical education program are provided. The following disorders are considered--visual handicaps, auditory handicaps, cerebral palsy, orthopedic defects, heart conditions, convalescence, nutritional disturbances, other physical conditions requiring

adapted physical education, mental retardation, social maladjustment and mental illness, and aging. The following activities and topics are treated--basic skill games, rhythms and dance, individual sports, dual games, team games, swimming, weight training, outdoor education, corrective body mechanics, and developmental programs for physical fitness. An appendix includes suggested films and filmstrips for teachers, film sources, record sources, professional organizations, societies and associations, and periodicals. This document was published by the W.B. Saunders Company, Philadelphia, Pennsylvania. (DF)

**Recreation and Socialization for the Brain Injured Child.**  
New Jersey Assn. For Brain Injured Child., East Orange  
EDRS Price 0.50;4.60

Descriptors: exceptional child education; learning disabilities; recreation; ophthalmology; parent counseling; recreational programs; children; socialization; minimally brain injured; recreational activities; social recreation programs; games; program administration; perceptual motor coordination; perceptual development; primary grades; guidance; parent attitudes; adolescents; summer programs; day schools; day camp programs; program planning

Designed for parents and specialists planning therapeutically oriented recreational and socialization programs for brain injured children, this document contains 13 chapters by different authors. Activities discussed are generally noncompetitive, emphasizing structure and limit. Discussed are (1) the role of the optometrist with the inadequate learner, (2) organization and administration of recreational programs, (3) activity guides, (4) games and exercises for adolescent boys, (5) recreation and socialization activities for the adolescent girl, (6) instructional swimming programs, (7) a therapeutic recreation program, (8) organization of a summer day camp, (9) an individual and group perceptual motor training program, (10) a day school recreation program, (11) perceptual motor training for early primary grade children, (12) guidance for parents, and (13) parent counseling. Views from parents are reported. A supplement treats preschool perceptual skills and optometric visual care. Concerned organizations, resources, and a 50-item bibliography are provided along with individual bibliographies for some chapters. (JD)

**The Development and Evaluation of Three Types of Physical Education Programs for Educable Mentally Retarded Boys. Final Report.**  
Boston Univ., Massachusetts, School Of Educ.  
EDRS Price 1.00;10.56

Descriptors: exceptional child research; mentally handicapped; physical education; educable mentally handicapped; psychomotor skills; athletics; males; adolescents; children; physical fitness; social adjustment; Latchaw Motor Achievement Test; AAHPER Youth Fitness Battery; Cornell Social Adjustment Index

Three physical education programs, skill oriented, play oriented, and free-play oriented, were developed. These programs were examined initially by seven experts and then subjected to a pilot study. The revised programs were taught by research assistants to six experimental groups which included 82 boys at two state schools for the mentally retarded. The instructional period was 39 class hours (13 weeks) in duration exclusive of time taken for purposes of evaluation. The programs were evaluated on the basis of pretests and posttests which ascertained achievement levels in items relating to physical fitness, motor ability, and social adjustment. Major conclusions were (1) that the skill oriented groups at both schools indicated significant improvement in a greater number of test items than did the others, (2) that these same two groups indicated a more uniform improvement in motor ability items, (3) that the skill oriented group at one school indicated significantly better performances than the other groups at that school in the pull-ups and volleyball wall volley, (4) that both the skill oriented and free-play group at this school were significantly better than the play oriented group in the basketball wall pass. A major recommendation is that a skill oriented physical education program, similar to the one developed in this study, be utilized for educable mentally retarded boys. (UM)

### ABSTRACT 10384

EC 000 861 ED 015 594  
Publ. Date 65  
Daniels, Arthur S.; Davies, Evelyn A.  
**Adapted Physical Education, Principles and Practice of Physical Education for Exceptional Students. Second Edition.**  
EDRS Price 0

Descriptors: exceptional child education; recreation; physical education; handicapped; recreational activities; physical activities; anatomy; adjustment problems; adolescents; amputees; aurally handicapped; camping; cardiac (person); cerebral palsy; children; college students; emotionally disturbed; epilepsy; handicapped children; physically handicapped; special health problems; student adjustment; visually handi-

capped; mentally handicapped; emotionally disturbed; administration

The three purposes of this book are (1) to show how physical education activities may be adapted for exceptional students at all levels of school, (2) to serve as a practical guide to physical education personnel who wish to work for full development of each student, and (3) to serve as a text for students in training, teachers, and therapists. Part 1 defines the problem in terms of children to be served, society's changing attitudes toward those with disability, and adjustment problems. It also reviews anatomy, kinesiology, and physiology of exercise. Part 2 considers physical education in relation to children with specific disabilities such as amputations, heart conditions, cerebral palsy, epilepsy, poliomyelitis, visual and auditory handicaps, and special health conditions. Programs for children with emotional instability, behavior problems, or mental retardation are discussed briefly. Part 3 considers a number of administrative-organizational topics and the values of aquatics and camping. A final chapter examines several questions related to life after the school program is completed. Selected bibliographies follow each chapter. This document was published by Harper and Row, Publishers, 49 East 33rd Street, New York, New York 10016, and is available for \$8.50. (DF)

**Recreation for the Mentally Retarded--A Community Based Program.**  
New York Assn. For Help Of Retarded Children, N. Y.  
EDRS Price 0.50; 4.20

Descriptors: exceptional child research; recreation; mentally handicapped; community programs; interagency cooperation; interagency planning; community agencies (public); educable mentally handicapped; trainable mentally handicapped; demonstration projects; children; adolescents; young adults; self care skills; agency role; questionnaires; participant satisfaction; parent reaction; recreational programs; social agencies; program evaluation; recreational activities; community services; program planning; interpersonal competence; New York City

The major objective of this 3-year research and demonstration project was to test the feasibility of extending the responsibilities of community work agencies in New York to include the mentally retarded. The 13 participating group work agencies received financial support as well as consultative, intake, and professional training services from the project staff. In all, 27 groups of retardates (IQ's 35 to 75) were created, numbering from 10 to 15 members. Activities were predominantly task or-

intended for the youngest group (ages 8 to 12), unfocused and expressive for the adolescents (ages 13 to 17), and concerned with group goals and needs for the young adults (ages 18 to 30 and over). Self care skills were stressed with the peer groups serving as mechanisms to increase social skills. The turnover rate, about 58 percent of the participants, was highest in the children's and adolescents groups in low income areas. Parent questionnaires, coming primarily from the families of children remaining in the program, indicated satisfaction with the program's content and context as well as with the changes noticed in the retarded child or adult. However, convenience and location of the agency was a major complaint (made by 38 percent of 56 respondents), and a need was demonstrated for a continuation of programs to reduce social isolation (less than one-third of the participants established friendships which carried over outside the meetings). Agency directors, whose attitudes were conducive to the permanent establishment of suitable recreational programs, revealed in personal interviews a favorable view of serving the handicapped. The maintenance of favorable attitudes by agency directors and staffs and of interagency cooperation was found essential to the continuation of the recreational program as was the presence of the following environmental conditions--outside rather than local funding, lack of social disorganization in the community, and less need for comprehensive programs. Results indicated that expansion will occur in the next 10 years and that the program was both needed and feasible. Future plans are outlined. A seminar program, a weekly group progress record form, and a narrative meeting record are provided. (JD)

**Recreation for Retarded Teenagers and Young Adults.**  
EDRS not available  
Abingdon Press, 201 Eighth Avenue South, Nashville, Tennessee 37202 (\$4.95).

Descriptors: exceptional child education; mentally handicapped; recreation; program planning; family (sociological unit); activities; group activities; adolescents; young adults; music; games; recreational programs; hobbies; handicrafts; community involvement; social development

Intended for recreational leaders, classroom teachers, volunteers, and parents, the text presents guidelines for planning and conducting activities for mentally retarded youth and young adults. Consideration of understanding the maturing retardate and his social needs includes different kinds of beneficial social experiences, the maturing retardate, establishing purposes and goals for

organized recreation, and areas of development. Discussion of an organized program treats the roles of director, parents, and volunteers; the program structure; and flexibility and growth. Also presented are the following: group activities such as music, games, and parties; special interests in sports, handicraft, nature and hobbies, and homemaking hobbies; and family centered activities in the community and at home. Supplementary materials listed are 17 periodical articles, 55 books and pamphlets, and 15 sources of continuing information (DF)

**The Effect of Structured Physical Activity on the Motor Skill Development of Children with Learning Disabilities (Minimal Brain Dysfunction).**  
Memphis State University, Tennessee  
EDRS mf, hc

Descriptors: exceptional child research; learning disabilities; physical education; minimally brain injured; physical activities; motor development; skill development; tests; psychomotor skills; perceptual motor coordination; perceptual motor learning; children; special programs; Johnson Test of Motor Skill Development

Students in 24 perceptual development classes for the minimally brain injured were studied to determine the effect of structured physical activity on motor skill development, to compare this effect with the effect of unstructured activity, and to determine the effect of an increased amount of time of physical activity. The Johnson Test of Motor Skill Development was administered before and after an 8-week program. The experimental group of classes was given structured physical activities; the control group had regular play periods. Results indicated a statistically significant difference between the experimental and control groups ( $p < .01$ ) with increased motor skill development occurring in the experimental group. Schedules and diaries recording structured activities used in the experimental group are included. The Johnson Test, four tables, four illustrations, and a 19-item bibliography are provided. (LE)

EDRS not available  
Abingdon Press, 201 Eighth Avenue South, Nashville, Tennessee 37202 (\$4.00).

Descriptors: exceptional child education; recreation; mentally handicapped; art activities; music activities; recreational activities; dramatic play; art materials; childrens games; choral speaking; classroom games; dance; educable mentally handicapped; games; handicrafts; instrumentation; painting; playground activities; singing; trainable mentally handicapped; music; art

Activities suitable for mentally retarded children of less than 6 years in mental age are described in detail. The need to play and goals for play are discussed. Chapters consider informal and imaginative play, follow the leader, choral speaking, table work and games, handicrafts, music, and miscellaneous games. A list of 32 books and pamphlets of project ideas and background information on retardation is included. (JW)

**Project on Recreation and Fitness for the Mentally Retarded.**  
Hamilton City School District, Ohio  
EDRS not available  
Charles E. Merrill Co., 1300 Alum  
Creek Drive, Columbus, Ohio 43216.

Descriptors: exceptional child research; mentally handicapped; community programs; physically handicapped; physical education; vocational education; educable mentally handicapped; trainable mentally handicapped; orthopedically handicapped; camping; work experience programs; perceptual motor learning; teaching methods; socialization; physical education facilities; physical activities

All educable (IQ 50 to 75) and trainable (IQ 30 to 50) mentally handicapped and orthopedically handicapped children (16,000) in special education classes in Hamilton, Ohio, participated in a physical education program of vigorous movement and varied indoor and outdoor activities. Two full time instructors, 80 volunteers, and a part time secretary made up the project staff. Five gymnasiums were used and over 3,500 students were taken on outings in the woods. Educable students were tested with a modified version of the Youth Fitness Test and, in general, the curve of the means of each test followed the same curve of the norm although the means were greater. However, there was a large difference in individual performances. In a work training experience, 31 boys over 16 years of age constructed trails and a camping area on a recreational site which resulted in an improvement in community attitude. Physical facilities, materials, and equipment of the work program are described; instructional methods and some specific activities and games used in the physical education program are presented. Teacher and student evaluations of the program were favorable. (SN)

Descriptors: exceptional child research; mentally handicapped; art; learning disabilities; physical education; minimally brain injured; behavior change; social development; motor development; emotional development; intellectual development; individualized instruction; group instruction; elementary school students; educable mentally handicapped; age differences; physical activities; sex differences

The investigation examined the role of physical activity programs in the modification of the motor, intellectual, social, and emotional development of educable mentally retarded children and minimally brain injured children. Forty-nine classes of children (275 educable mentally retarded and 206 minimally brain injured) participated in 20 weeks of instructional programs. Classes were randomly assigned to one of four treatments: two were physical education programs (one individually oriented, the other group oriented); one was an art program (Hawthorne effect); the fourth, a control (usual program). A battery of 32 tests was administered prior to and at the end of the experiment. Children in the special experimental programs elicited greater positive changes in their motor, intellectual, and emotional behavior than those in the control program. Of the special programs, the physical education programs were superior in modifying motor performance, the art program in altering emotional behavior, and neither was superior in modifying intellectual behavior. The individually oriented physical education program elicited greater gains than the group oriented program in measures of motor, intellectual, and emotional behavior. Positive behavior changes occurred more frequently in the older than younger, more often in the brain injured than the retarded, and more frequently in the boys than the girls. (Author)

**A 1966 Summer Program for Children with Physical, Multiple and Mental Handicaps, June 22, 1966 to August 17, 1966, Program Evaluation.**

Milwaukee Public Schools, Wisconsin, Division Of Curriculum And Instruction  
EDRS mf,hc

Descriptors: exceptional child research; recreation; mentally handicapped; physically handicapped; multiply handicapped; summer programs; children; program evaluation; program descriptions; student evaluation; tests; questionnaires; test results; physical fitness; parent attitudes; attitudes; student attitudes; teacher attitudes; Doman Delacato Profile; Hayden Physical Fitness Test

This summer program for handicapped children was designed to meet the special needs of these children for socialization and better use of leisure time and to provide data which would enable the division of municipal recreation and adult education to plan future programs. Both the mentally handicapped children's program (54 participants) and the program for physically or multiply handicapped children (51 participants) consisted of games, crafts, musical activities, and field trips. Base line data were obtained from descriptions of the children by the director, the Hayden Physical Fitness Test, and an adaptation of the Doman-Delacato Profile. Questionnaires for children, staff, and parents were used for program evaluation. Results showed the range of physical fitness. The four children tested with the Doman-Delacato Profile scored on four of the five possible scoring levels, excluding the highest level. Children's questionnaire results showed a higher percentage of happy responses than either neutral or sad responses to questions about the program. Staff ratings of the program ranged from satisfactory to outstanding. Parent responses also indicated a high degree of satisfaction. (JZ)

Descriptors: exceptional child education; physically handicapped; physical education; state programs; program planning; guidelines; special programs; remedial programs; financial needs; physical activities; administration; physical handicaps; equipment; facilities; financial support; course content; course organization; California

The 1967 California Legislature enacted regulations which enable local school districts to provide appropriate physical education programs for severely physically handicapped children who cannot be served in regular programs. After a summary of regulations on eligibility, class size, and reimbursement proce-

dures, attention is given to the following: designing physical education programs to meet individual needs; procedures for initiating instruction in remedial physical education; guidelines for judging severity of disabilities; apportionment of financial allowances; requirements for a suitable teaching station; and essential equipment and supplies. Course objectives, policies for developing a course of study, and class procedures and organization are stated; an outline of course content is provided. Two appendixes include the medical evaluation form and the form for the physician's recommendation for physical education and other physical activities. (DF)

Descriptors: exceptional child education; visually handicapped; physical education; curriculum; recreation; blind children; case studies (education); residential schools; day schools; leisure time; games; childrens games; classroom games; primary grades; secondary grades; intermediate grades; achievement rating; athletics; athletic programs

A practical rather than a theoretical reference guide, the book discusses the need of the blind or visually impaired child for physical education. Past and present programs in public and residential schools, recreation and leisure time activities (a guide for parents), sports and interscholastic competition, active games, contests, relays, and wrestling are described. The study also considers physical fitness, achievement scales, and grade levels. An appendix lists successful blind teams and athletes and several exercises and tests. (KH)

Descriptors: exceptional child education; mentally handicapped; physical education; teaching methods; physical fitness; psychomotor skills; athletics; athletic activities; measurement instruments; reinforcement; rewards; tests; athletic equipment; medical evaluation; inservice teacher education; volunteers; parent participation; public relations; program evaluation

The Project on Recreation and Fitness for the Mentally Retarded and the objectives of such programs are reviewed. Activity areas surveyed include physical fitness, motor ability, sports skills, special events, and recreation. Also considered are the following: testing and measuring individual progress, including psychomotor and physical fitness tests, developmental profiles, and awards; medical examinations; and facilities, equipment, and supplies. Inservice education and training are discussed, as well as activities for volunteers and parents; public relations and information needs are considered. A guide for program evaluation and a 38-item bibliography are provided. (JK)

**Physical Activities for the Mentally Retarded; Ideas for Instruction.**

American Association For Health, Physical Education, And Recreation, Washington, D. C.

EDRS mf

American Association For Health, Physical Education, And Recreation, 1201 Sixteenth Street, N. W., Washington, D. C. 20036 (\$2.00).

Descriptors: exceptional child education; mentally handicapped; physical education; teaching methods; skill development; perceptual motor coordination; body image; unit plan; recreational activities; physical education facilities; games; psychomotor skills; athletic equipment; athletics; physical activities; student evaluation

A viewpoint regarding physical education and recreation for the retarded is

presented, and the development of fundamental motor skills, including postural orientation, locomotor, and other skills, is detailed. Teaching techniques are suggested, and activities are outlined on three levels: level 1, basic movement patterns, fundamental motor skills, initial perceptual development, primitive conceptual formation, and development of self awareness, body concept, and self image; level 2, activities of low organization in which patterns, movements and skills developed at level 1 are applied to increasingly complex situations; and level 3, adapted and lead-up activities in which patterns, movements, and skills are used to prepare the individual for participation in sports, games, and higher organized activities. Sample units on bowling and softball (level 4 activities), a classification index of all activities, a 15-item annotated bibliography, and a form for evaluation of and suggestions for the document are also included. **Teaching Physical Education to Mentally Retarded Children.**

EDRS mf,hc

T. S. Denison And Company, Inc., 5100 West 82nd Street, Minneapolis, Minnesota 55431 (\$4.98).

Descriptors: exceptional child education; physical education; mentally handicapped; teaching methods; trainable mentally handicapped; class organization; basic skills; games; athletic activities; physical fitness; tumbling; recreational activities; human posture; athletic equipment; music activities

Methods for teaching physical education activities and skills to mentally retarded children are presented. General objectives are listed and the physical education program is outlined. Hints are offered for teaching the retarded child; and basic skills and rhythms are described. The following are then described: rhythm games, a volleyball unit, and lead-up games, softball skills and lead-ups, basketball hints, soccer skills, a physical fitness activities unit, a stunts and tumbling unit, and relaxation activities. A summary reviews objectives, problems, and methods of physical education. (JK)

**A Summer School Outdoor Educational Program for Culturally Disadvantaged Educable Mentally Retarded Children. Status Report.**

Iowa University, Iowa City, University Hospital School  
Office Of Education (DHEW), Washington, D. C.

EDRS mf,hc

OEG-3-6-068646-1750

Descriptors: exceptional child research; mentally handicapped; disadvantaged youth; recreational programs; student evaluation; outdoor education; summer programs; camping; science instruction; homemaking skills; educable mentally handicapped; physical education; self concept; sociometric techniques; personal adjustment; tests

Fourteen culturally deprived educable mentally handicapped children (ages 126 to 168 months, IQ's 52 to 86) participated in a 7-week project to determine the effectiveness of correlating classroom instruction with camping and outdoor educational activities. The subjects were first tested for current knowledge and attitudes about science, recreational camping, and themselves; they also received instruction in homemaking, science, and camping. Then the subjects practiced on campsite what they had learned in the classroom. Finally they were evaluated by the same instruments as earlier and were given opportunity to react to the camping experience. It was concluded that the activities offered will not replace those of physical education programs and that the experiences gained and the subjects' ease in verbalizing seemed to enhance their self concept and family status. A significant change in the positive direction was noted in the subjects' concept of the magnitude of their problems in reading, health, and personal adjustment; their knowledge of natural science also showed a significant gain. No significant changes occurred in group status, although there was some shifting of children in the middle of the sociogrametric region. Recreational activity preferences were altered, although not significantly in favor of those offered. (JD)

Descriptors: exceptional child services; mentally handicapped; recreation; institutionalized (persons); recreational programs; recreational activities; games; handicrafts; guides; institutional personnel; music

A recreation handbook for ward personnel in residential facilities for the mentally retarded contains ideas for games and crafts and also presents reasons for recreation and the attendant's role in providing recreation and selecting activities. Explanations for the 64 active games, 24 music and rhythm activities and 24 quiet and table games include number of players, play area required, equipment and materials, preparation for activity, playing rules, and adaptations. Equipment and materials needed and directions are given for 53 arts and crafts and for constructing inexpensive games and equipment. Appendixes include information on service and professional organizations; general publications on mental retardation and recreation, arts and crafts, and music and rhythm; sources of equipment and supplies; and facilities which participated in an attendant training project. Descriptors: exceptional child education; handicapped children; physical education; administration; physical activities; games; teaching methods; physical education facilities; human posture; physically handicapped; special health problems; mentally handicapped; emotionally disturbed; visually handicapped; aurally handicapped; neurologically handicapped; adults

Programs in adapted physical education are presented preceded by a background of services for the handicapped, by the psychosocial implications of disability, and by the growth and development of the handicapped. Elements of conducting programs discussed are organization and administration, class organization, facilities, exercise programs (selection, assignment, and teaching), an exercise for tension reduction, and adapted games and sports. Problems of specific disabilities and programs for the unfit which are considered are the following: posture malalignment, cardiovascular disorders, musculoskeletal disorders (acute, chronic, and congenital), mental retardation, emotional disturbances, sensory disorders, neurological and other disorders, and adult fitness and aging. Also included are photographs, a glossary, and four appendixes with exercise diagrams. (JM)

Descriptors: exceptional child services; visually handicapped; recreation; adults; incidence; social work; individual characteristics; handicrafts; dance; dramatics; group activities; language arts; music activities; recreational activities; socialization; leadership qualities; volunteers; administration; program planning; administrative policy

The effects of blindness in adults, activity programs, and the administrative

technicalities of these programs are discussed. A definition of blindness, historical background, and mention of social group work serve as introduction to the impact of blindness. Under these activities are included the following subjects: arts and crafts, study and participation in dance and drama, group activities and social events, literary and language activities (braille, lectures, reading groups, music appreciation and contribution), nature outings, sporting events, and miscellaneous ventures. The qualifications of paid and volunteer staff are considered as is their training. The chain of administration, programing, financing, and physical facilities, including operational problems, are included in addition to the practical problems of recruiting, transporting, and charging patients for the services.  Mar 1970

Descriptors: exceptional child research; mentally handicapped; physical fitness;

educable mentally handicapped; sex differences; motor development; psychomotor skills; testing; intelligence level; AAHPER Physical Fitness Tests

A modification of the AAHPER Youth Physical Fitness Test was administered to a national sample of 4,235 educable retarded boys and girls, ages 8 to 18 years. Age changes in performance followed essentially the same trends as in normal children, although the retarded of both sexes were substantially behind standards on normal children. Sex differences in performance of the retarded were similar to those noted in normal children, the boys showing superiority in all tests at all ages. Intercorrelations among the test items were low for both sexes at all age levels and of approximately the same magnitude as in children of normal intelligence. (Author)

 EDRS mf,hc

Descriptors: exceptional child services; mentally handicapped; camping; recreational; day camp programs; recreational

activities; administration; program planning; community programs; program evaluation

An introduction to the need for day camp activities and recreational facilities for the retarded precedes a discussion of the problems involved: the recreational needs must be defined along with the nature of the programs; locations must be found; the costs of transportation and salaries must be assumed and budgeted; programs must be flexible and properly evaluated; and parents must cooperate with recreational staff. Information is supplied concerning various day camp programs with special attention to the Kennedy Center and the Y.M.C.A. Camp Tepee. Also considered is leisure time recreation centering around a program to supplement the half day school with a half day recreation program. The activities are reported as successful and it is suggested that they continue and increase. (JM)

EDRS mf

American Association For Health, Physical Education And Recreation, 1201 Sixteenth Street, N. W., Washington, D. C. 20036 (\$2.00).

Descriptors: exceptional child education; mentally handicapped; teaching methods; swimming; recreational activities; reinforcement; games; recreation; recreational facilities; sequential approach; records (forms); program administration; physical education

A guide for teaching the retarded to swim begins with a general discussion of retardation, the need for individualization, and staff qualifications. Factors discussed in program organization and administration include community agencies, staff training, examples of records and forms, and first aid procedures. Suggested methods consider perceptual motor abilities, a multisensory approach, breaking down skills sequentially, transfer of training, motivation, awards, discipline, swimming readiness, orientation, entering the water, innovations, assistive devices, movement exploration, and circuit and interval training. Step-by-step procedures for mastering different floating and swimming positions are described and illustrated by sketches. A variety of water stunts and games are included as are recommendations for pool facilities. Behavior modification techniques are discussed and photographs are provided throughout. (RJ)

Physical education programs for both the physically handicapped and the mentally handicapped are described. Medical approval and consultation are stressed, and medical excuse forms, mobile units, prescriptive programs, an adaptive pilot project, and survey reports are discussed. Programs mentioned are teaching through testing, posture improvement, high school programs, hiking and swimming, activities for the visually handicapped, and sports activities. Programs for the mentally handicapped include camping, daily exercise and recreation, special skills development, and specialized olympics. Information is also presented on research and observation of physical possibilities, insight into individual problems, three successful projects, and suggestions of what to teach. (JM)

**A History of Recreation for the Mentally Retarded.**  
University Of Illinois, Urbana, Children's Research Center  
EDRS not available  
Children's Research Center, 210 Education Building, University Of Illinois, Urbana, Illinois 61801.

Descriptors: exceptional child services; mentally handicapped; recreation; historical reviews; literature reviews; recreational programs

Periodical literature from 1920 to 1968 concerning recreation for the mentally handicapped is reviewed for the purpose of tracing over time the changes in philosophy and practice of providing recreation services to this group. It is demonstrated that the literature from 1920 to 1945 was concerned with the value of recreation and had moralistic overtones, with child maintenance and behavior control the major concern. The literature shows how, from 1945, recreation was recognized as a fundamental human need for the mentally handicapped. Later literature reflects the realization of the need for research, the formation of national organizations such as the National Association for Retarded Children (NARC), and the expansion of recreation services. From the time of President Kennedy's appointment of a panel to study the problem of mental retardation, the literature shows a concern for the experimental approach. (GD)

Descriptors: exceptional child education; handicapped children; exercise (physiology); perceptual motor coordination; psychomotor skills; music activities; physical activities

Described are exercises which involve coordinated movement and educational themes in conjunction with music, and which are designed for mentally and physically handicapped children. The methodical step-by-step description of rhythmic movement as used with music is presented as an aid in the educational process of exceptional children. Pictures and diagrams accompany the directions. Exercises are indexed according to suitability for various handicaps (trainable or educable mentally handicapped, slow learners, blind, deaf, other physical handicaps) and according to the learning or particular aspect of coordination involved (balance, counting, running, social behavior, speech improvement, etc.). The exercises are also suggested for normal children of preschool and elementary age. (KW)

**Trampoline Activities for Atypical Children.**

EDRS no: available

Peck Publications, 4067 Transport Street, Palo Alto, California 94303 (\$1.50).

Descriptors: exceptional child education; physical activities; physical education; neurologically impaired; physically handicapped; mentally handicapped; emotionally disturbed; perceptual motor coordination; trampolines

A discussion of trampoline use with atypical children includes advice on selecting a trampoline, safety rules, and basic orientation. Pre- and post-trampoline activities are described, as well as how to teach trampoline activities. Use of the trampoline for activities of balance and agility is discussed. Basic drops and complex combinations are explained. Also provided are discussions of body image and use of the trampoline to encourage thinking. Appended is a checklist of trampoline skills. (MS)

**Developing Controls from Without.**

Devereux Foundation, Devon, Pennsylvania

EDRS not available

Devereux Foundation, Devon, Pennsylvania 19333.

Descriptors: exceptional child education; emotionally disturbed; socially maladjusted; camping; self control; behavior change; camp counselors; counselor role; controlled environment; therapeutic environment; Devereux Schools; Pennsylvania

Therapeutic camping (for socially and emotionally maladjusted children) in the Devereux program is described. Emphasis is placed on helping children and adolescents develop controls through structure, rewards, and punishment. The role of the adult in the day-to-day life of the child as an important agent of control is stressed. Camping episodes are used to illustrate control measures used and staff communication problems which can affect these measures. The roles of the setting, the counselor, and the rules and regulations are described. (CD)

**Recreation's Role in the Rehabilitation of the Mentally Retarded.**

Oregon University, Eugene, Rehabilitation Research And Training Center In Mental Retardation

Social And Rehabilitation Service (DHEW), Washington, D. C., Office Of Research, Demonstrations, And Training

EDRS not available

Rehabilitation Research And Training Center In Mental Retardation, Department Of Special Education, University Of Oregon, Eugene, Oregon 97403.

Proceedings Of A Conference (Eugene, Oregon, May 19-21, 1969).

Descriptors: exceptional child education; mentally handicapped; rehabilitation; recreation; conference reports; physical activities; physical recreation programs; handicrafts; camping; leisure time; recreational programs

The monograph presents the proceedings from a conference sponsored by the Rehabilitation Research and Training Center in Mental Retardation of the University of Oregon (held May 19-21, 1969). Topics concerning recreation's role in the rehabilitation of the mentally handicapped include the following: the role of therapeutic recreation specialists, the recreational needs of the retarded, characteristics and prevalence of the condition of mental handicaps, current status of recreation programming, the role of the municipal recreation department, guidelines for change, and interaction between institution and community.

Also provided are separate papers describing the concepts of programing through the areas of arts and crafts, bowling, habitative camping, music, special Olympics, scouting, swimming, and equipment design. The federal impact on recreation with the mentally handicapped is discussed, and a seminar summary and evaluation are included. (RD)

**Swimming Techniques for Children with Learning Disabilities.**

EDRS not available

Developmental Learning Materials, 3505 North Ashland Avenue, Chicago, Illinois 60657 (\$2.00).

Descriptors: exceptional child education; learning disabilities; swimming; teaching methods; curriculum; teaching guides

It is suggested that a pool program be an integral part of the education of children with learning disabilities. Swimming as a training technique is approached as a generalization of other activities. Some swimming problems are noted and teaching hints listed. Facets of the swimming program outlined are the child's initial experience with the water, entry into the pool, breath control, supports, leg action, arm action, and stunts. Specific teaching techniques for each phase are suggested. (KW)

**Sequenced Instructional Programs in Physical Education for the Handicapped.**

Los Angeles Unified School District, California

Bureau Of Elementary And Secondary Education (DHEW/OE), Washington, D. C.

EDRS mf,hc

Descriptors: exceptional child education; physical education; handicapped children; curriculum guides; program guides; sequential learning; skill development

The curriculum guidelines for a comprehensive physical education program consist of developmentally sequenced skills and instructional activities appropriate for handicapped children from early preschool age (18 months) through high school. Suggested activities and materials are arranged in color-coded sections on motor and movement skills, playground and recreation skills, rhythm, swimming, and physical fitness. Information provided for each activity includes level of difficulty, sequence-teaching progressions, suggestions for lesson implementation, source materials, and codes to indicate appropriateness to the handicapping condition. **Some Implications of Movement.**  
EDRS not available  
Special Child Publications, Inc., 4535 Union Bay Place, N. E., Seattle, Washington 98105 (\$4.65).

Descriptors: exceptional child education; perceptual motor learning; motor development; physical activities; physical education; theories; mentally handicapped; visually handicapped; movement education

The book deals with movement experiences and how they may be used beneficially by children with mild or more severe sensory-motor deficiencies. Critically examined are some current theories concerning movement and sensory-motor or perceptual-motor programs, with evaluation supported by research data when possible. Some positive suggestions for improvement through movement are made, the author noting that, while it is simplistic to consider movement the basis of the intellect, there certainly are some kinds of classroom behavior for which fine or gross muscle control is essential for successful performance. The relations between movement, intelligence, and perception are explored, and the nature of movement behavior detailed, including recent research in motor learning and athletics. The role of movement behavior in the education of children is examined. The final section, elaborating upon the use of motor activities in the education of exceptional children, concentrates upon the mentally retarded and the blind. (KW)

**Recreation in Total Rehabilitation.**  
EDRS not available

Charles C Thomas, Publisher, 301-327 East Lawrence Avenue, Springfield, Illinois 62703 (\$10.50).

Descriptors: handicapped; recreation; special health problems; rehabilitation; physical activities; hobbies; games; art; music; dance

The concrete suggestions in the textbook on recreation for the ill and handicapped are intended to be useful to institutional administrators, medical personnel, students, and all those providing or planning recreation for patients. The philosophy of recreation in rehabilitation, and general procedures in developing a broad recreation program are presented. Problems in institutions serving the ill and handicapped, such as hospitals, special schools, and rehabilitation centers, are pointed out. Following this general orientation to the subject, Part 2 concentrates upon the needs of various patients and the medical indications for recreational activities. Attention is given to the following categories of illness or handicap as related to recreation: acute illness, convalescence, and chronic disease; motor or physical disabilities; impaired vision, hearing, and speech; mental divergence and social behavior; and psychopathology (reactions to stress, classification and causes for psychopathic reactions, and psychological needs which recreation may satisfy). Part 3, covering media for recreation, details how various types of recreation can be applicable for the ill and handicapped. Examined are music, the graphic and plastic arts, crafts, hobbies, literature and the theater, games and sports, dancing, and special events and parties. (KW)

Descriptors: exceptional child education; mentally handicapped; physical education; curriculum development; curriculum guides; program descriptions; recreation; Wisconsin

Described is the first phase of a project concerned with the development of a

program and a resource guide in the area of physical education and recreation for the mentally retarded in Wisconsin. Phase 1 consisted of a 6-week summer program to give intern physical education teachers practical teaching experience with trainable and educable mentally retarded children (N equals 58), with the intent of developing sequential curriculum guidelines composed of behavioral objectives and workable suggested activities to implement the state curriculum. Outlined is the daily program in the five areas of instruction: physical education, crafts, ceramics, music, and woodworking. Behavioral objectives are presented for 30 skills which are components of motor ability and more complex sports skills. Activities and annotated resource materials are listed for all five areas of instruction in sample unit and daily lesson plans. Expanding upon this preliminary organization of a physical education and recreation program, Phase 2 of the project will develop a comprehensive multi-year program for an entire school and publish a resource guide. **Physical Education for the Blind.**  
EDRS not available  
Rehabilitation Teacher; V3 N4 P15-32  
Apr 1971

Descriptors: exceptional child education; visually handicapped; blind; physical education; teaching methods; physical activities

The discussion of physical education for blind students points out why and in what ways they have even greater need of physical education than do physically normal children. Basic plans used in the teaching of blind classes are described, but it is urged that in most cases it is best for the blind students to be integrated into the activities of regular physical education classes. Characteristics of a good physical education teacher of the blind, and factors which the teacher must consider in program planning are enumerated. Touched upon are the child's need for individual attention and teaching methods. Guidelines for selecting games and activities are presented, including descriptions of the ways in which the blind can participate in various sports and games by modifying the activity involved. (KW)

Descriptors: exceptional child education; handicapped children; swimming; teaching methods; lesson plans; physical education

The instructional manual is intended as a guide for teaching personnel working with students whose disabilities require a foundation in basic aquatic skills before regular swimming instruction can be attempted. Lesson plans and exercises are presented for the various developmental stages involved in the acquisition of aquatic skills: pre-conditioning to the idea of water activities, developing functional coordinating skills on land, developing self confidence and body buoyancy associations, developing basic aquatic skills, developing functional water skills resulting in elementary swimming attempts, and developing basic and then elementary swim skills which lead to actual swimming. Instructions for specific teaching techniques, procedures, and activities at each stage of development are detailed. (KW)

**The Art of Learning Through Movement.**  
EDRS not available  
Ward Ritchie Press, 3044 Riverside Drive, Los Angeles, California 90039 (\$7.50).

Descriptors: physical activities; kinesthetic perception; class activities; elementary school students; creative expression; teaching guides; movement education

Directions for a wide range of kinesthetic, creative movement experiences for children of all ages are given. Various kinds of learning and increased self awareness which result from each type of activity are pointed out. Hints for teaching techniques as well as music to be used are provided, in addition to photographic illustrations. Categories of movement experiences covered include the following: involvement through stories; involvement through fantasy to stimulate imagination and curiosity and exercise creativity; vigorous movement to release energy and tensions; group experiences for learning to trust others; games; movement isolations for learning about oneself; dramatic play for learning about the world; movements expressing emotion to release tensions; moving through space to understand physical relationships. General hints for teachers using these movement experiences are offered, as are suggestions for using movement in other classroom subjects. It is concluded that these movement experiences help a child become more self-disciplined, skilled in motor perception, aware and proud of himself, confident in bearing and posture, and accepting of classroom challenges. **Planning Recreational Activities for the Retarded Child, at Home.**  
 Canadian Association for the Mentally Retarded, Toronto, Ontario  
 EDRS not available  
 Canadian Association for the Mentally Retarded, 149 Alcorn Avenue, Toronto 7, Ontario, Canada (\$0.25).

Descriptors: exceptional child education; trainable mentally handicapped; recreation; leisure time; parent role; home-bound; mentally handicapped; parent education

The suggestions for planning recreational activities are addressed to parents and apply particularly to the trainable mentally retarded child who is not enrolled in a school program but remains at home. The discussion of the purposes and goals of providing recreational activities points out that such activities will not only keep the child occupied and happy but can play a part in his development and learning. The advantages for both the child and the family of planning ahead for leisure activities are mentioned. A plan for facilities at home is presented, indicating equipment and materials to have in each room of the house and in the yard. Activities for various parts of the day at home are suggested, as well as away-from-home activities which can be arranged by the parent. (KW)

Descriptors: physically handicapped; hobbies; recreational programs; physical activities; males; scouting

Designed to assist Scout leaders working with physically handicapped boys, the booklet offers ideas for program content and for aiding the handicapped boys in Boy Scout advancement. How Scouting can help handicapped boys physically and emotionally, and what the Scout leader should know about a boy's handicap are discussed. Suggestions are made for leading an all-handicapped unit and for leading a nonhandicapped unit containing one or two handicapped boys. Suggestions concern program planning, level of activity, help from parents, how to deal with physical activities and sports, and how to help handicapped boys meet the advancement requirements in Scouting. Information on equipment and appliances often used by the physically handicapped is given, and some of the common physical disabilities which the Scout leader may encounter are described. (KW)

 Charles E. Merrill Publishing Company, 1300 Alum Creek Drive, Columbus, Ohio 43216 (\$1.95).

Descriptors: exceptional child education; learning disabilities; perceptual motor learning; perceptual motor coordination; physical development; physical education; physical activities

The volume presents a series of physical education activities for teaching basic perceptual-motor processes to children with inadequate or incomplete perceptual-motor learnings. Believing that a relationship exists between perceptual-motor development and academic

achievement. the author advises children to experience motor experimentation. The author adapts common procedures in physical education to emphasize perceptual-motor learnings and adds new procedures where needed. Games and group activities are stressed to increase fun. Although organized around the physical education program. some of the following activities may be adapted for use in the classroom: fundamental locomotor movements. exercises. game activities. jump rope activities. balancing activities. rhythmic activities. stunt activities. bean bag and ball handling activities. obstacle course. movement exploration. and auxiliary activities. (CB)

**The Effects of Summer Camp Experience on Male Adolescent Diabetics.**  
EDRS not available  
Rehabilitation Research and Practice Review; V2 N3 P29-38 Sum 1971

Descriptors: exceptional child research; special health problems; diabetes; camping; personality development; personality change; adolescents; males; social development

To determine the effects of a 4-week summer camp experience. designed to have therapeutic effects on self concept. independence. self reliance. competence. and personal responsibility. on 16 adolescent diabetic boys and 7 matched non-diabetic campers (the control group). five standard psychological or personality tests. both objective and projective. were administered before. immediately after. and 6 months after camp. Weekly counselor reports and post camp reports by campers were also used as qualitative evaluation. Results indicated nominal. initial experimental-control group differences. and slight increments in sociability (diabetics) and dominance (controls). Overall positive changes in the control group were greater (added self control. social presence. and ability to make a good impression). Major decrements occurred in scores for many variables on the followup posttest. In both groups the boys apparently suffered losses in the

syndrome of personality characteristics which the camp experience was designed to enhance. Qualitative data were consistent with the test results. (Author/KW)

**Try Trampolining with Handicapped Children.**  
EDRS not available  
Teaching Exceptional Children; V3 N4 P181-8 Sum 1971

Descriptors: exceptional child education; handicapped children; physical activities; physical education; physical development; equipment utilization; skill development; trampolines

Use of the trampoline as a tool for motor diagnosis. remediation. and development with low performing handicapped children is discussed. Cited is previous use of the trampoline to diagnose finer motor disturbances which remain unnoticed in other physical movements. to assess gross body control (postural adjustment. balance. coordination). and to encourage physiomotor development. Also reviewed are studies concerning accidents on the trampoline. A lower accident incidence with handicapped children is expected if the suggested safety procedures and appropriate steps in learning stunts are followed. Gradual familiarization to encourage confidence and security in the child is emphasized. Trampolining as a reinforcer is suggested. A trampolining checklist for handicapped children is presented. outlining the gradual progression of skills from the familiarization level through elementary bounces and stunts. (KW)

To order ERIC REPORTS include complete information for all order form items. Please print or type all information clearly.

1. Complete "bill to" and "ship to" addresses. Be sure to complete "ship to" address if different from "bill to". A like "ship to" address may be completed as "SAME". Include zip code.
2. Order by printing ED number in designated space. ED accession numbers are listed in Research in Education (RIE). RIE may be purchased from: Superintendent of Documents, GPO, Washington, D.C. 20402.
3. Include number of copies (1, 2, 3, etc.) to be ordered in appropriate space. Use MF space for microfiche copies, use HC space for hard copy (paper). Check RIE for availability of document in MF and HC.
4. Include price from the rate schedule. (Refer to price schedule on back.) Prices are also published in current issues of RIE.
5. Some ED numbers represent a series of titles, and will be billed by title, not ED number. A list of applicable ED numbers is available.
6. Extend number of copies and price for total price for each entry.
7. Add items 1 through 15 and insert amount in "Sub-Total" box.
8. Add state sales tax for Illinois and Maryland or check box and cite tax exemption number for Illinois and Maryland only.
9. Add "Sub-Total" and "Tax" and insert amount in "Total" box.
10. Indicate payment method desired. Payment must accompany all orders of \$10.00 or less. Make all drafts payable to EDRS.
11. Sign AUTHORIZATION and date order.
12. Include only 15 entries per form. Complete and sign additional forms if required.
13. Quality warranty. LIPCO will replace products returned because of reproduction defects or incompleteness. The quality of the input document is not the responsibility of LIPCO. Best available copy will be supplied.

ERIC DOCUMENT REPRODUCTION SERVICE is operated by Leasco Information Products, Inc. for the U.S. Office of Education.

401 - 500	16.45
Each Additional 100 pages or portion thereof.	3.29

1. Book Rate or Library Rate postage is included in above prices.
2. The difference between Book Rate or Library Rate and first class or foreign postage (outside the continental United States) rate will be billed at cost.

## TERMS AND CONDITIONS

### 1. PRICE LIST

The prices set forth above may be changed without notice; however, any price change will be subject to the approval of the U.S. Office of Education Contracting Officer.

### 2. PAYMENT

The prices set forth above do not include any sales, use, excise, or similar taxes which may apply to the sale of microfiche or hard copy to the Customer. The cost of such taxes, if any, shall be borne by the Customer.

Payment shall be made net thirty (30) days from date of invoice. Payment shall be without expense to LIPCO.

### 3. REPRODUCTION

Materials supplied hereunder may only be reproduced by not-for-profit educational institutions and organizations; provided however, that express permission to reproduce a copyrighted document provided hereunder must be obtained in writing from the copyright holder noted on the title page of such copyrighted document.

### 4. CONTINGENCIES

LIPCO shall not be liable to Customer or any other person for any failure or delay in the performance of any obligation if such failure of delay, (a) is due to events beyond the control of LIPCO including, but not limited to, fire, storm, flood, earthquake, explosion, accident, acts of the public enemy, strikes, lockouts, labor disputes, labor shortage, work stoppages, transportation embargoes or delays, failure or shortage of materials, supplies or machinery, acts of God, or acts or regulations or priorities of the federal, state, or local governments, (b) is due to failures of performance of subcontractors beyond LIPCO's control and without negligence on the part of LIPCO, or (c) is due

to erroneous or incomplete information furnished by Customer.

### 5. LIABILITY

LIPCO's liability, if any, arising hereunder shall not exceed restitution of charges.

In no event shall LIPCO be liable for special, consequential, or liquidated damages arising from the provision of services hereunder.

### 6. WARRANTY

LIPCO MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO ANY MATTER WHATSOEVER, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

### 7. CHANGES

No waiver, alteration, or modification of any of the provisions hereof shall be binding unless in writing and signed by an officer of LIPCO.

### 8. DEFAULT AND WAIVER

a. If Customer fails with respect to this or any other agreement with LIPCO to pay any invoice when due or to accept any shipment as ordered, LIPCO may without prejudice to other remedies defer any further shipments until the default is corrected, or cancel this Purchase Order.

b. No course of conduct nor any delay of LIPCO in exercising any right hereunder shall waive any rights of LIPCO or modify this Agreement.

### 9. GOVERNING LAW

This Agreement shall be construed to be between merchants. Any question concerning its validity, construction, or performance shall be governed by the laws of the State of New York.

To order ERIC REPORTS include complete information for all order form items. Please print or type all information clearly.

1. Complete "bill to" and "ship to" addresses. Be sure to complete "ship to" address if different from "bill to". A like "ship to" address may be completed as "SAME". Include zip code.
2. Order by printing ED number in designated space. ED accession numbers are listed in Research in Education (RIE). RIE may be purchased from: Superintendent of Documents, GPO, Washington, D.C. 20402.
3. Include number of copies (1, 2, 3, etc.) to be ordered in appropriate space. Use MF space for microfiche copies, use HC space for hard copy (paper). Check RIE for availability of document in MF and HC.
4. (include price from the rate schedule. (Refer to price schedule on back.) Prices are also published in current issues of RIE.
5. Some ED numbers represent a series of titles, and will be billed by title, not ED number. A list of applicable ED numbers is available.
6. Extend number of copies and price for total price for each entry.
7. Add items 1 through 15 and insert amount in "Sub-Total" box.
8. Add state sales tax for Illinois and Maryland or check box and cite tax exemption number for Illinois and Maryland only.
9. Add "Sub-Total" and "Tax" and insert amount in "Total" box.
10. Indicate payment method desired. Payment must accompany all orders of \$10.00 or less. Make all drafts payable to EDRS.
11. Sign AUTHORIZATION and date order.
12. Include only 15 entries per form. Complete and sign additional forms if required.
13. Quality warranty. LIPCO will replace products returned because of reproduction defects or incompleteness. The quality of the input document is not the responsibility of LIPCO. Best available copy will be supplied.

ERIC DOCUMENT REPRODUCTION SERVICE is operated by Leasco Information Products, Inc. for the U.S. Office of Education.

Orders are filled only from ED accession numbers. Titles are not checked. Please be sure you have supplied the correct numbers.
