## ABSTRACT

The Career Exploratory Program management system is designed to assist the local school teacher/coordinator in the organization and management of the program. The system defines and describes the accountability line from teacher-coordinator, through the Career Planning and Placement Center teacher/coordinator and the local school principal to the Director of Career Development Programs. Included in this manual are: (1) a statement of the school district's educational philosophy, (2) a description of the Career Exploratory Program, and (3) a listing of the work experience education goals, the district goals and expectancies, the student terminal performance objectives, and the teacher/coordinator facilitating objectives. The teacher/coordinator objectives are designed to provide a framework and procedure that will assist students in accomplishing the performance objectives through a variety of exploratory experiences provided by career stations. The teacher/coordinator and student objectives are arranged into two 9-week frames to facilitate the collection of evaluation data at the same time as the quarterly student grades are issued. A number of program and evaluation forms are appended. (SB)

## CAREER EXPLORATORY PROGRAM

### INTRODUCTION

The Work Experience Education Program is part of an overall San Mateo Union High School District program in career development.

This Career Exploratory Program management system is designed to assist the local school teacher/coordinator in the organization and management of the program. It defines and describes the accountability line from the teacher/coordinator through the Career Planning and Placement Center teacher/coordinator and the local school principal to the Director of Career Development Programs.

The performance accounting format provides measurable objectives which detail the responsibilities of the teacher/coordinator and his students. The program design provides a management system which will generate data for the improvement, planning, and evaluation of the program.

The objectives included in this document are predicated on the existence of a Career Planning and Placement Center at the school. The teacher/coordinator at a school without a career center may need to modify certain objectives to compensate for reduced staff support and to arrange for students to use the career information materials at the counseling office and/or the school library when they are completing related learning activities.

The teacher/coordinator facilitating objectives and the student performance objectives are arranged into two nine-week time frames to facilitate the collection of evaluation data at the same time as the quarterly student grades are issued.

## CAREER EXPLORATORY PROGRAM

### PHILOSOPHY

The growth of technology and the ever-increasing complexity of our society have progressively removed young people from contact with the world of work, until most of them know little of occupational characteristics and requirements. This has signaled the need for some form of occupational orientation and exploration in the educational system.

Recognizing these needs, the San Mateo Union High School District has determined that learning experiences be directed toward helping individuals develop a positive self-image and personal value system; to use the processes of decision-making; to understand change and how it may be influenced; to recognize the interdependence of peoples; to value his cultural heritage; and to develop a commitment to a democratic society.

### PROGRAM DESCRIPTION

Work Experience Education is a method of instruction consisting of programs that use the cooperative efforts of the school and community to assist the students to develop occupational understanding from direct participation in the work environment.

The Career Exploratory Program provides a series of opportunities for students to systematically sample and observe a variety of conditions of work that will contribute to their career development. The students will participate in a series of Career Planning and Placement Center-directed activities which will assist them to relate their personal assets and their experiences at career exploratory stations to future educational and career decisions. The major focus of this program is career exploration and guidance.

### PROGRAM GOALS AND EXPECTANCIES

Work Experience Education Goals. The following Work Experience Education Goals have been formulated for the Career Exploratory Program. A student enrolled in Work Experience Education will:

1. Examine the school curriculum and will be able to determine which courses or programs will aid him in gaining the knowledge and the occupational skills necessary to enter into the career of his choice.
2. Appreciate the importance of work in order to fulfill his basic needs and his quest for self-esteem.

## CAREER EXPLORATORY PROGRAM

3. Obtain knowledge about the nature and characteristics of those career opportunities which are related to his present and anticipated future goals, values, abilities, and interests.
4. Develop an understanding of the individual's role in establishing positive and harmonious relationships between worker and work environment.
5. Identify job-entry level proficiency requirements in an occupational area.

District Goals and Expectancies. The Career Exploratory Program assists students to achieve the following district educational goals and expectancies:

3.0 *To understand and accept themselves and others.* The student should:

- Understand the causes of his behavior
- Recognize and assess the many roles people play in groups
- Work with diverse groups and individuals to attain mutual goals
- Examine his personal long-range goals in relation to his evolving self-concept
- Evaluate and adjust his vocational and educational objectives in terms of knowledge about himself and the world of work
- Assess and appraise his aptitudes, interests, and achievements in relation to vocational and individual objectives

4.0 *To be aware of and sensitive to value systems.* The student should:

- Be aware of his own value system and the influences which mold such systems
- Realize that individuals with different value systems may solve common problems by working together

6.0 *To apply the processes of problem solving.* The student should:

- Recognize and define the problem
- Recognize and define techniques necessary for problem solving and decision making
- Identify, gather, and use all available sources of information
- Analyze the data
- Organize and report data using written, verbal, modeling, drawing, or other appropriate means

## CAREER EXPLORATORY PROGRAM

7.0 To have a comprehensive and accurate knowledge of the world of work.  
The student should:

- Know about a wide variety of occupational fields and the required education and training necessary for entry-level employment and advancement in these fields
- Make occupational choices in line with his interests and abilities, and in terms of the opportunities open to him
- Recognize that occupational changes occur in a modern technological society
- Recognize the dignity of all useful work
- Use occupational information that is available to him

### STUDENT TERMINAL PERFORMANCE OBJECTIVES

The terminal behaviors associated with the Career Exploratory Program are those skills or behaviors that students will exhibit or possess as a result of completing the program.

1. 95% of the students will have spent approximately 130 hours in observation and/or participation at 6 or more career stations.
2. 95% of the students will have participated in approximately 50 hours of related guidance, or related learning activities.
3. 90% of the students who have completed the program will express a "tentative" decision about pursuing a career.
4. 100% of the students who have decided to pursue a career in the field which they explored will prepare a career education plan covering their high school education, post high school education, or entry-level employment.
5. 100% of the students will demonstrate, upon request, the knowledge and skills needed to use the information sources available in the Career Planning and Placement Center to find the following for any of the common careers identified in the Dictionary of Occupational Titles.
  - the job description
  - the duties of the job
  - working conditions
  - salary
  - occupational outlook for the future
  - training required for the job
  - how to enter into the labor market
  - where to obtain additional information

## CAREER EXPLORATORY PROGRAM

### EVALUATION

The Career Exploratory Program evaluation and reporting system will follow the Career Development Programs guidelines for nine-week reporting cycles as described below to provide feedback for program monitoring and for the improvement of the program operation.

1. Immediately at the close of each nine-week time frame the Career Exploratory Program teacher/coordinator will do the following:
  - Examine his objectives to determine the degree of accomplishment of each objective.
  - Examine his students' records and performance objectives to determine the degree of accomplishment of each objective.
  - Prepare Form 1, Teacher/Coordinator Objectives, and Form 2, Student Objectives.

The report is produced by photocopying Forms 1 and 2, and marking in the blank at the end of each objective either a percentage of accomplishment where the blank shows a % symbol or a yes or no statement.

- Prepare Form 3--Narrative Report; refer to Appendix 2.2.

The narrative report must include the reasons for partial or nonaccomplishment of teacher/coordinator's and student's objectives. The teacher/coordinator's account should include suggestions for program revision and the modification or elimination of performance objectives. Constraints such as time, budget, supplies, equipment, etc. should be included in this section.

2. Three days following the close of the time frame the Career Exploratory Program teacher/coordinator's reports should be submitted to the Career Planning and Placement Center Program teacher/coordinator for review and transmittal to the Career Development Programs office.
3. Five days following the close of each time frame the Career Planning and Placement Center Program teacher/coordinator will submit through the local school principal the program evaluation reports to the district director of Career Development Programs.
4. The Career Development Programs office will review the reports in order to determine where additional assistance and support is needed. The Career Development Programs office will act as an informational and retrieval center for all Work Experience Education Programs.
