DESCRIPTORS \*Career Awareness; \*Career Education; Curriculum Guides; Elementary Education; \*Elementary School Curriculum; English Curriculum; Fine Arts; Instructional Materials; Intermediate Grades; \*Learning Activities; Mathematics Curriculum; Occupational Information; Resource Materials; Science Units; Social Studies Units; Student Projects; \*Units of Study (Subject Fields)

IDENTIFIERS Missouri (Sedalia)

ABSTRACT

Designed to supplement the existing curriculum at the fifth and sixth grade levels, this curriculum guide contains activities for the following subject areas: Social studies, math, fine arts, science, and language arts. Each subject area includes units of study which provide information (in column form) on career related activities, resources, and evaluation/outcome. The career related materials can be developed with suggested activities and materials designed to (1) promote the student's understanding of himself and others, (2) provide occupational information, (3) explore the world of work, (4) and assist the student in finding out about himself as part of the preparation for decisionmaking. Audiovisual materials, sources of free career information, field trip procedures, and a list of guest speakers and field trip sites (for the Sedalia, Missouri area) are appended. (TA)

## ACKNOWLEDGMENTS

This guide represents the efforts and assistance of many people. Special appreciation is expressed to the designated elementary participants which provided expertise and information for the development of this guide.

This guide was developed by designated teachers in three one-day workshops and is designed for use as an aid in providing career development activities for elementary teachers in grades five and six. Funds for the development of the guide were provided through a federal grant under the provisions of Part D of Public Law 90-576.

## FOREWORD

This guide is designed to supplement the existing curriculum at the fifth and sixth grade levels.

It is further the purpose of this guide to suggest and outline a developmental program of follow-up activities, instead of adding to the curricula of the intermediate grades and can be implemented within the existing framework of the school. The career related materials can be developed with suggested activities and materials designed to (1) promote the student's understanding of himself and others, (2) provide occupational information, (3) explore the world of work and (4) assist the student in finding out about himself as part of the preparation for decision making. In essence, it may be said that such a developmental program at the intermediate level is designed to help the student recognize that educational experiences are a means of achieving life goals.

This compilation of ideas, sample activities and other information has been done with the desire and hope that it can serve a useful purpose, as a resource, in the hands of classroom teachers and counselors.

Robert L. Brown

## CAREER EDUCATION--THE STEP BEYOND

A basic purpose of American education is the preparation of people for living and, within that context, preparation of people for a career. Career Education is the development of attitudes and appreciations toward workers and the benefits each worker receives and gives as a contributing member of society. Career Education can be the focal point for developing an educational awareness of the use of skills and knowledge taught in the schools and used by adults in the working world. Career Education can be the center of the curriculum which joins school, family and community into a joint effort of educating the young. Career Education is concerned with the total development of a student. This means providing experiences for students to conceptualize the career development concepts which should be introduced to pre-schoolers and developed through high school.

Career development, which is a lifelong process, begins at a very early age when the child role plays various occupations in his play. He begins very early to establish his view of work and a view of himself as a worker. Career development proceeds much the same way as emotional, social, intellectual and physical development progress. Before one is ready for the next level, certain concepts must be conceptualized. The child goes through the following stages. The AWARENESS STAGE, which covers the preschool period through grade six, is a period when the child not only becomes aware of himself and other people physically, emotionally and socially, but he also gains intellectual skills and knowledge. While in this stage, the child becomes interested in what adults do. He is interested in knowing how he gets the goods and services which he enjoys. He also enjoys "putting on occupational roles" by role playing the many occupations with which he has become acquainted. The EXPLORATION STAGE, which usually covers the middle or junior high school age level, is a time for some actual exploring of a variety of occupations. It is a time of self-assessment and of consideration of the various types of careers available to the individual. The student should, by this time, be able to identify who he is and that his interests and abilities are to make decisions and be prepared to adjust and change those decisions, to formulate some preferences for particular occupations and to identify various life styles he may wish to pursue. A tentative decision may be made by grade nine in order to begin the PREPARATION STAGE. This stage will last as long as necessary for the acquisition of skills and knowledge needed to enter and progress through one's occupational career.

Career Education, then, is the education of the child of today in a manner which will make his life useful and productive in the world he will live in tomorrow. It is preparing the future adult to develop the philosophy that work has value and meaning to the individual and to society. It provides an exposure to a wide variety of possible careers so that the young adult can make a career choice on the basis of his self-knowledge, his particular needs, abilities, interests and the needs of society.

## THE LITTLE BOY\*

Once a little boy went to school.  
He was quite a little boy.  
And it was quite a big school.  
But when the little boy  
Found that he could go to his room  
By walking right in from the door outside,  
He was happy.  
And the school did not seem  
Quite so big anymore.

One morning,  
When the little boy had been in school awhile,  
The teacher said:  
"Today we are going to make a picture."  
"Good!" thought the little boy.  
He liked to make pictures.  
He could make all kinds:  
Lions and tigers,  
Chickens and cows,  
Trains and boats--  
And he took out his box of crayons  
And began to draw.

But the teacher said, "Wait!"  
It is not time to begin!"  
And she waited until everyone looked ready.  
"Now" said the teacher,  
"We are going to make flowers."  
"Good!" thought the little boy.  
He liked to make flowers.  
And he began to make beautiful ones  
With his pink and orange and blue crayons.  
But the teacher said, "Wait!  
And I will show you how."  
And it was red, with a green stem.  
"There," said the teacher  
"Now you may begin."

The little boy looked at the teacher's flower.  
Then he looked at his own flower.  
He liked his flower better than the teacher's  
But, he did not say this.  
He just turned his paper over  
And made a flower like the teacher's  
It was red, with a green stem.

\*By Helen E. Buckley

On another day,  
When the little boy had opened  
The door from the outside all by himself,  
The teacher said:  
"Today we are going to make something with clay."  
"Good!" thought the little boy.  
He liked clay.  
He could make all kinds of things with clay:  
Snakes and snowmen,  
Elephants and mice,  
Cars and trucks  
And he began to pull and pinch  
His ball of clay.

But the teacher said"  
"Wait! It is not time to begin."  
And she waited until everyone looked ready.

"Now," said the teacher,  
"We are going to make a dish."  
"Good!" thought the little boy.  
He liked to make dishes,  
And he began to make some  
That were all shapes and sizes.

But the teacher said, "Wait!  
And I will show you how,"  
And she showed everyone how to make  
One deep dish.  
"There," said the teacher  
"Now you may begin."

The little boy looked at the teacher's dish.  
Then he looked at his own.  
He liked his better than the teacher's  
But he did not say this.  
He just rolled his clay into a big ball again  
And made a dish like the teacher's.  
It was a deep dish.

And pretty soon  
The little boy learned to wait,  
And to watch,  
And to make things just like the teacher.  
And pretty soon  
He didn't make things of his own anymore.  
Then it happened  
That the little boy and his family  
Moved to another house,  
In another city,  
And the little boy  
Had to go to another school.

This school was even bigger.  
Than the other one.  
And there was no door from the outside  
Into his room.  
He had to go up some big steps,  
And walk down a long hall  
To get to his room.  
And the very first day  
He was there  
The teacher said:  
"Today we are going to make a picture."  
"Good!" thought the little boy,  
And he waited for the teacher  
To tell him what to do.  
But the teacher didn't say anything.  
She just walked around the room.

When she came to the little boy  
She said, "Don't you want to make a picture?"  
"Yes," said the little boy,  
"What are we going to make?"  
"I don't know until you make it," said the teacher.  
"How shall I make it?" asked the little boy.  
"Why, any way you like," said the teacher.  
"And any color?" asked the little boy.  
"Any color," said the teacher,  
"If everyone made the same picture,  
And used the same colors,  
How would I know who made what,  
And which was which?"  
"I don't know," said the little boy,  
And he began to make a red flower with  
a green stem . . . . .

## GUIDE UTILIZATION

The activities included in this guide can be adapted for use in any subject area; however, some of the activities lend themselves for use more easily than others in a certain subject area. The format used for this activity guide attempts to point out suggested areas for specific usage.

The subject areas used to group the activities in this volume are as follows: fine arts, language arts, math, science, and social studies.

Listed with many activities are resource materials. Once again, these items are merely suggestions and do not have to be used specifically.

Also included on each page is a column entitled Evaluation/Outcome. This space is intended to be used for indicating a desired outcome for each activity. It is felt that many times the best outcomes from a particular activity are easily measured. Therefore, this column is included so that nonmeasurable objectives could be used with this guide, and so that each teacher might want to include his/her own objectives in this space.

GOALS OF THE AWARENESS PROGRAM

FOR GRADES FIVE AND SIX

1. The students shall have experiences that relate to life goals and occupations.
2. The students shall learn the importance of responsibility and dignity of work in becoming a worthwhile citizen.
3. The students shall further develop understanding of self as an individual, in relation to home, school and society.

12

# SOCIAL STUDIES

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Construct an inverse kind of "family tree".</p> <p>Begin with primitive man who did his own work completely.</p> <p>Show by a branching system how the divisions of labor developed.</p> <p>Outline needs of culture being studied--discuss and list resulting jobs--can be done with pictures.</p> <p>Do above activity with our culture. Could limit it to local area along with general needs (food, shelter, clothing).</p> <p>Take above list of occupations. Divide into small groups. Have students rank them from most to least important.</p> <p>Visit a factory if one is available. Project to follow up: plan to make an assembly line project (Christmas card). Divide class into teams. Assign each team a quota of 15 cards. Have each team divide labor--make paper right size, fold cards (stress neatness and accuracy) cut design, paste design on folded paper, write greeting.</p> <p>At the conclusion, display work of all groups. Discuss advantages and disadvantages of an assembly line.</p>	<p>Encyclopedias</p> <p>Social studies books</p> <p>Class discussion Text</p> <p>Class discussion</p> <p>Group discussion</p>	<p>Children will be able to visualize the progression of division of labor that led to today's specialization.</p> <p>Student recognizes relationship between culture needs and existence of jobs.</p> <p>Becoming aware of the many jobs being done locally to satisfy needs.</p> <p>Should result in recognition of fact that no jobs can be ranked over others--all are interdependent.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Choose a large building, business, area, etc., and list as many occupations involved as possible. Discuss also, if that particular job was eliminated, how the operation would be affected. Example: hospital doctors, nurses, administrators, aides, cooks, nutritionist, builders, factories and their workers who made equipment, research scientist, computer workers, electricians, plumbers, electrical plant workers, truckers, packaging companies for medicines, ambulance drivers, phone operators, school, restaurant, factory, hotel, library, etc. Have class make mural to depict interdependence of all these people.</p>		<p>Make students aware of division of labor and interdependence. Make students aware of importance of all jobs.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Make a list of needs of families in our culture.</p> <p>Prepare "choice pictures" of various needs with approximate yearly cost.</p> <p>Food--pictures showing various qualities of fare with varying yearly costs.</p> <p>Shelter--pictures of varying qualities of housing with appropriate year y costs (include utilities).</p> <p>Clothing, vacations, insurance, etc.--same as above.</p> <p>Cards with family size.</p> <p>Cards with jobs and approximate yearly income.</p> <p>Hand out a card to each student. He has to fill needs of the size family he received, using the job income he received.</p> <p>Read and dramatize a story -- book about someone whose occupation particularly interests you.</p>	<p>Student prepared cards with pictures</p> <p>Teacher prepared prices</p> <p>Catalogs</p> <p>Magazines</p> <p>Newspapers</p> <p>Student research</p> <p>Career booklets</p> <p>Price cards taped to blackboards and placed around room</p> <p>Paper</p> <p>Pencils</p> <p>Many books are available about famous people and their childhoods that describe how the person was led to a career.</p>	<p>Students recognize relationship between job they choose and the choices they must make in terms of need.</p> <p>Children will be able to relate their own lives to those of others before them.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Have each child write his favorite subject in school on a piece of paper. They must:</p> <ul style="list-style-type: none"> <li>A. Tell why they chose it.</li> <li>B. What they expect to do with the knowledge learned in that area.</li> </ul> <p>List work or careers of parents--also, other members of their family.</p> <p>Learn the skills needed for the particular job of your father.</p> <p>Help children understand that any job is worth doing if it is desired by the jobholder. Accept your parents' jobs as worth knowing and talking about.</p> <p>List some occupations and one that you are interested in. Then, tell the training that is required for it.</p> <p>In a given social studies assignment, list occupations named in the lesson. Name people you are acquainted with, who may have or do the same type work.</p> <p>Consult your classroom newspaper (classified section). Make a list of the highest paying job listings. Tell why this happens.</p> <p>Identify uniforms and dress of different jobs. See how this affects other type jobs because it offers work to industries.</p>	<p><u>What Could I Be?</u> Introducing the world of work to children, SRA, 1960.</p> <p>Reference books</p> <p>Classroom Newspaper</p>	<p>Shows ability to express interest in future work.</p> <p>Become aware of jobs by members of the family and how these jobs affect the home unit and the community.</p> <p>Performance objective--Write a short story about your parents' work.</p> <p>Will be able to see that education is needed in training for a job.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Invite someone to classroom to explain various jobs. Let students ask questions of their choice.</p> <p>Let children choose their own tasks to perform in the schoolroom. This will show they know their own abilities.</p>		<p>Be able to see the endless life careers one may pursue.</p> <p>Be able to identify own abilities.</p>
<p>Use filmstrips, films, etc., to show various workers in different situations. Ask questions, such as (a) What is the worker's problem? (b) Is the worker qualified for his job? (c) What further training does he need?</p>		
<p>List important events in life of a person in our culture--birth, starting school, graduation, job choice, marriage, death. Role playing in groups of these events and ceremonies.</p>	Students	Student becomes aware of future events in his life--self-awareness.
<p>List similar events in life of person in culture being studied. Role playing as above.</p>		Student realizes the similarities as well as the differences between cultures.
<p>Personal satisfaction after above activity, discuss choices made.</p> <p>Less education = less money?</p> <p>Job enjoyment makes up for less money?</p> <p>Job dislike isn't compensated for by more money?</p> <p>Wise choices make less money liveable.</p>	Class discussion using materials from first activity.	Student becomes aware again of choices--both in job and lifestyle.
<p>Each child construct a family tree of occupations in his family.</p>	Magazines	

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>This could be done in poster size and the occupations could be pictured either by cutting out magazine pictures or by hand drawn illustrations or even by symbols for the occupations such as the barber pole, etc.</p> <p>This activity can draw a child's family into classroom activities and discussions with the child about his future as well as his past.</p> <p>Parents whose occupations are of interest and who are willing may be invited to come to the class and talk to the children about his career. (Options for students who don't have ancestors, parents: child could use a famous person, fictitious occupations. Use your imagination.)</p> <p>Have children choose one well-known person from current events, television, or past history who they respect or would like to be like. The children should find out all the different jobs that person has had. Have them describe these jobs to the class, telling what the job is like and what you would have to do to prepare for that career. If the person lived in the past, is the job useful today?</p> <p>Discuss what personality traits these people have that makes them respected by the children. What would you have to improve about yourself to make yourself more like them?</p>		<p>Children will be able to:</p> <p>define "ancestors."</p> <p>understand how the occupations of our ancestors affect our choice of careers.</p> <p>develop a line of communication with their parents concerning their future careers.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Read one of the following: the Declaration of Independence, the U. S. Constitution, the Gettysburg Address, or other important documents or speeches. Memorize part of a selection which child feels is especially significant. Point out the careers of these great writers of the above documents.</p> <p>Dramatize some of the rights guaranteed by the Bill of Rights. (Role playing is exercised here.)</p> <p>Make a chart showing contributions to America by such persons as George Washington, Thomas Jefferson, Horace Mann, Theodore Roosevelt and others.</p> <p>Visit a town meeting on a proposal for developing some civic project, such as a public park, library or other project in your community. Bring out the role of politicians in public life. Make models of some historic building such as Independence Hall or the U. S. Capitol (an architect).</p> <p>Visit places of local, state or national interest. Point out how many occupations were required at these places.</p> <p>Make a time line showing important steps in the development of American democracy. Show what new jobs were created by each development.</p>	<p>Compton's Encyclopedia Other references</p> <p>Teacher--a file of teaching ideas</p>	<p>Child will become aware of the fact that every American has a priceless heritage of freedom and can express his views as an individual.</p> <p>Children will become aware of what it means to live in a free nation.</p> <p>Will see how democracy works.</p> <p>Child is aware of how people work, play and govern themselves.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Show on a large map the territorial expansion of the U. S. Tell why new territory expanded job demands.</p> <p>Take pictures of:</p> <ol style="list-style-type: none"> <li>Activities that show group freedom.</li> <li>Activities that show individual freedom.</li> </ol> <p>Point out that freedom gives people the right to choose what work they like and what to do.</p> <p>Draw cartoons showing people at various jobs.</p> <p>Using pictures, show mechanized farming, a slum clearance, superhighway, reforestation, national parks, or other features of present-day America. The child will become aware of all the job opportunities these projects afforded.</p> <p>List inventions that have improved our standard of living. Tell why these inventions afforded new job opportunities.</p> <p>Write a letter to the editor of the local paper praising or protesting some article. This will show that individual child is aware of his belief of the right to be heard.</p> <p>Display posters of various parts of the U. S. tell why or why not you would like to live there. Ask questions such as:</p> <ol style="list-style-type: none"> <li>Were any of your ancestors from there?</li> <li>Where were you born?</li> <li>Where were your parents born?</li> <li>Does geographical location affect health?</li> </ol>	<p>Newspaper and magazines</p> <p>Newspaper</p>	<p>A greater awareness of their opportunities and responsibilities is developed.</p> <p>Stimulates interest and challenges their abilities.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Make a vocabulary list of words that have taken on more definite meaning for you during this study, such as freedom, liberty, privilege, etc.</p> <p>Select examples of American Literature that reflect life in the U. S. during our country's growth. Bring out careers, such as poet, essayist, author and publishers.</p> <p>Make list of articles in your home which are considered part of your heritage. Discuss work involved in their making.</p> <p>Show films and filmstrip relating to your heritage.</p> <p>Prepare a brief "Who's Who" of persons prominent in our country today and which one you would like to pattern your life's work after.</p>	<p>"The World of Mankind" Follett</p> <p>"Free to Be You and Me" McGraw-Hill</p> <p>When You Grow Up, Trend Enterprise</p>	<p>Child takes pride in enlarging his vocabulary so he can work independently.</p>

10

29

30

CAREER FIELD ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Given a list of 5 occupations, a child will be able to identify at least one skill in each occupation that requires training.</p> <p>Identify one skill in each of the jobs advertised in the classified section of a daily paper. Name the subjects that you are now studying that would help you develop each skill.</p> <p>Have student interview a parent (brother or sister) who have part-time employment. How does this job relate to careers that they expect to enter?</p> <p>What additional education and training they will need to enter the career of their choice?</p> <p>Have students conduct interviews with students who go to college. Name their career goal. How much additional training or education will they need? Do their hobbies or interests relate to careers of their choice?</p> <p>As an area is being studied, students could work in small groups and determine the effect geographical conditions would have on types of occupations found there.</p>	<p>Ad section of city paper</p>	<p>Education as training for career in the world of work.</p> <p>Geographical locations determine some types of jobs.</p>

11

LEARNER RELATED ACTIVITIES	RESOURCES	EVALUATION OUTCOME
<p>Have students set up "interest centers" with books, stories, newspaper articles, collections, crafts, that pertain to areas being studied and discuss occupations that would be present.</p> <p>Show film, <u>Food from the Sea</u> so students will see getting a living from the sea can be an occupation.</p> <p>To demonstrate how technology changed occupation possibilities in a farming area.  Write an implement company requesting catalog of machinery.  Use pictures to make a bulletin board showing different uses of equipment.  Discuss various jobs available in agricultural region.</p> <p>Have students make a mural illustrating "Man and Change Maker." Start with a base drawing of ground, sky, water. Make cutouts of manmade things to add to base drawing. Include roads, bridges, houses, cars, telephone poles, airplanes, ships, factories, etc. Discuss different occupations needed in each of these things and skills involved as education, experience.</p> <p>Have students think of jobs they have read about or seen on TV that no longer exist (use are being studied) and the reasons why:  Needs of society  Usefulness  Economics  Industry and Production  Technology</p>	<p><u>Food from the Sea</u>, Harvey Films Association, 1509 Santa Monica Blvd., West Los Angeles, CA</p>	<p>Research, collecting organization and art display.</p> <p>Using skills to get information.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Show filmstrip, <u>Our Changing World</u>.</p> <p>Interview one worker who has been in his occupation at least 10 years to see how technology and science have changed his work.</p> <p>Group activity: Students may research on how to begin a newspaper and the different jobs that are available in the industry. Examples of books available are: <u>Let's Go To a Newspaper</u>, Spatin, Laura, Putnam; <u>I Want To Be a News Reporter</u>, Green, Clara, Children's Press.</p> <p>Guest speaker: a newspaper employee. Students should have list of questions made prior to visit.</p> <p>Field trip: Student's may, if possible, visit local newspaper establishment or printing company.</p> <p>Filmstrips: Show filmstrip on newspaper industry. Examples:  <u>Here's How We Print</u>  <u>The Newspaper in America</u>  <u>The Newspaper Reporter</u></p> <p>Students may develop their own newspaper by role playing situations dealing with setting up their paper, selection of staff, etc. The students will actually produce and distribute a paper.</p>	<p>Department of Education, San Diego County, Audio-visual Service, San Diego, CA</p> <p>Community</p> <p>San Diego Democrat Walker Publishing</p> <p><u>Putting Four School Newspaper to Work</u>  Paper, stencils, typewriter, etc.</p>	<p>Students will discuss the function of a newspaper; its role in the community; its organization; and the different jobs available in the newspaper industry.</p>

13

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Make a visit to a grain elevator to observe how grain is stored, how grain is moved in and out of storage, buys the grain, how grain is sold, and other ways operators of grain elevators earn money.</p> <p>Field trip: Make a visit to a grain exchange or a grain broker or invite a broker to talk to students in the classroom.</p> <p>Film or filmstrip: Show films or filmstrips that explain movement of grain from farm to market and people and occupations employed. Examples: FOCUS ON AMERICA "Farmer" "Agriculture/Farming" "Agriculture/Processing"</p> <p>Have students explore books to increase their knowledge of farm industry. <u>Agriculture U.S.A.: America's Most Basic Industry</u>, Lent, Henry B.; New York, Dutton. <u>Men at Work in the Great Plains States</u>, Rubican, Harry; New York, Putnam</p> <p>Reports: Have students make reports on the comparison of forestry workers in Latin America and Canada with those of the U. S.</p>	<p>AG*op Services, Inc., 103 E. Pine, MFA Exchange, 2200 Clinton Rd., Sedalia, MO</p> <p>Community</p> <p>SRA</p> <p>School library</p> <p>Films, <u>From Farm to Market</u>, Encyclopedia Britannica <u>U. S. Great Plains: The Wheat Farmer</u>, Encyclopedia Britannica</p> <p>State Forestry Division, Jefferson City, MO University of Mo., Forestry Division, Columbia, MO U. S. Dept. of Agriculture, Washington, DC "Living as American Neighbors" Follett and Company</p>	<p>Students should be able to determine various aspects of farm industry, employment, economy, etc. To acquaint students with the world of work.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Films and filmstrips: Show filmstrips in the classroom depicting forestry services and careers.</p> <p>Panel discussion: Have a panel discussion in the classroom concerning jobs associated with the forest industry. Examples: ranger, conservation agent, fire fighter, lookout tower attendants, logger, etc.</p> <p>Bulletin board: This may be prepared in the form of a chart to prepare for a future in forestry. Ideas and information may be taken from: "Forest Technicians," "Foresters," "Forest Firefighters," "Park Ranger," "So You Want To Be a Forester," "Forestry Schools in the U. S.," "Forest Service," etc.</p> <p>Guest speaker: Invite an agent from the forest service to visit the students.</p> <p>Read books related to the forestry service.</p>	<p>Films and filmstrips, <u>Hardwood Forest Community Structure, Forest Conservation Today, SVE; Forester, SRA; Forest Conservation, Forest Producers, Forest Ranger, Tree Bank, University of Mo., Columbia, MO</u></p> <p>Encyclopedia</p> <p>WORK Pamphlets SRA</p> <p>State Forestry Division, Jefferson City, MO 65101</p> <p><u>The How and Why Wonder Book of Trees; Tall Trees, Holbrook; Northern Woodlot Needs; See Through Forest</u></p>	<p>To expose the students to the many jobs provided in the forestry service; to develop information and respect concerning those positions. To develop a respect for the world of work.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Have the class figure the amount of feed required and the cost of the feed using the following information. In Missouri, the average daily gain for steers from weaning at 150 lbs. to slaughter is 2 ½ pounds. At one year, the heifer should weigh about 850 pounds. A calf eats 8 pounds of feed to produce one pound of gain.</p> <p>Have some students interested in medical and scientific fields investigate and report to the class some of the health problems faced by a livestock producer. How does he use preventive medicine? Have any of the drugs used on animals affected the consumer? What pests present problems? What insecticides or sprays are used?</p> <p>Invite local farmer, livestock producer, businessmen, plumber, professional persons to discuss their work and how knowledge and skills in subject areas effects their success and competence. Focus on specific examples, record keeping, measuring, planning, computational activities, etc.</p> <p>Ask the class to listen to the farm report on radio and TV and read the agricultural news in newspapers and magazines. What kinds of information do they give? Of what importance are they to the farmer? What kinds of ads do they have? Are they different from ads usually seen or heard in non-farm areas? Are the topics different according to the time of year? Why?</p> <p>A field trip to a local radio or TV station or newspaper including an interview with the station business manager, focusing upon the relationship between ad income and programming content, etc.</p>	<p>Radio, TV Newspapers, magazines</p>	<p>Lead student to appreciate that all occupations require the daily use of knowledge and skills in school subject areas.</p> <p>The student will become aware of the interdependence between media and community.</p> <p>Student will become aware of some of the practical considerations in news coverage, advertising and program planning.</p> <p>Student will be exposed to various career opportunities in the news media.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Obtain copies of farm implement catalogs. Designate some students as salesmen and some as customers. Allow students to obtain "best price" for needed equipment. Students may determine total cost (sales tax, commission, etc.). This activity will correlate very well with math unit on percentage and commission.</p> <p>Guest speaker: Invite several local farmers to the classroom to explain their farm operation and the equipment necessary to the students. If possible, these should represent various types (cattle, hog, grain, etc.). Students should have questions prepared in advance.</p> <p>If possible, following the guest speaker, students could make one or more trips to various farms in the area and view the actual equipment in use. Another alternative is to visit local implement dealers to view equipment.</p> <p>Cut pictures from brochures and catalogs obtained to make a collage mural of modern farming operations and equipment.</p> <p>Encourage some interested students to investigate local occupations which are supportive to the production of livestock or row crops such as the veterinarian, extension agent, farm equipment salesman, feed company operator, seed salesman, etc. Have students make a bulletin board display showing the interdependence of these workers. If possible, show how a decision made by one of these workers will affect the work of others.</p>	<p>John Deere and Company, John Deere Road, Moline, IL</p> <p>International Harvester, 401 N. Michigan Ave., Chicago, IL</p> <p>Community</p> <p>Community farms: Gibson Implement Co., Harvey Bros. Co., Stevenson Tractor Co., Sedalia Implement Co.</p> <p>Catalogs Brochures Art supplies</p> <p><u>Food From Farm to Home</u>, Water Buehr, William Morrow &amp; Co., Inc., New York, NY <u>Agriculture U.S.A.</u>, Henry B. Lent, E. P. Dutton &amp; Co., Inc New York, NY, 1968.</p>	<p>Efficient use of farm tools brings about changes in economy and lifestyle.</p> <p>Students should be able to determine change in farm economy from use of various tools.</p> <p>Given a decision "situation" student will prepare a brief oral report on how such a decision may affect related services and occupations.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Have the class investigate how a livestock producer knows how many animals to raise and when he should sell them. What are some factors which influence his decisions? Listen to the stock market report for two weeks. Record and graph the findings.</p> <p>Students research the types of jobs available in the military and the advantages and disadvantages of a military career. In this activity students would visit local recruiter or invite him to school for an interview based on class-developed questionnaires and observation forms. Sample questions might include:</p> <p>What career opportunities are there for women and minorities?</p> <p>What are the fringe benefits in terms of medical help, educational opportunities, travel, retirement, job training, vocation, etc.?</p> <p>What are the intangible rewards of a military career (like opportunities to exercise leadership)? What are the intangible drawbacks (loss of autonomy)?</p> <p>What are the disadvantages of a military career? Unpleasant travel? Conflicts between obeying orders and following one's conscience? Loneliness or boredom?</p>	<p><u>The Farm Community</u>, Encyclopedia Britannica, Educational Films, Inc., 1969, film.</p> <p><u>Meat - From Range to Market</u> Encyclopedia Britannica, Educational Films, Inc., 1973, film.</p> <p>Local recruiter</p> <p>Recruitment literature</p> <p>Career military persons as well as enlisted members</p> <p>Military base or National Guard Unit</p>	<p>Examples:</p> <p>Farmer decides to switch from cattle to swine operation.</p> <p>Farmer expands farming operation from 600 acres to 1,000 acres.</p> <p>Machinery dealer sells farmer larger, more expensive, but more efficient tractor, plow, disc, etc.</p> <p>Write a brochure on the advantages and disadvantages of a military career.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Invite a representative of a public employment office or a personnel worker from a large company to visit the class and discuss:</p> <ul style="list-style-type: none"> <li>Basic skills required for almost all employment.</li> <li>Varying degrees of specialization required.</li> <li>The effect of school records on applications for employment.</li> <li>The effect of personal references on employment opportunities.</li> <li>The problems typical of the "hard core" unemployed.</li> <li>The relationship between school and employment opportunities.</li> <li>What happens to unskilled people.</li> <li>What schools could do to help prevent the problems of the unemployed.</li> <li>How school habits can become work habits.</li> <li>What he or she learned in school that helps with his or her present work.</li> </ul> <p>Arrange with local company/factory employment offices to have students individually fill out job application blanks and, if possible, be given a job interview (group or individual).</p>	<p>State employment office</p> <p>Large company personnel manager</p>	<p>After the speaker leaves, have students review the interview and note the key points that divide people who are successful at work from those who are unsuccessful. List the positive traits in one column with the corresponding negative traits in a second column. In a third column, note whether or not the same positive characteristics are typical of successful students, or "no" if it does not apply.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Make a list of the careers you can think of and name people you know in any career on your list. Start with your own community.</p> <p>Use films, filmstrips and other audiovisual aids to present career clusters to pupils.</p> <p>Use role playing, student newspapers, etc., to gain insight into students' personalities.</p> <p>Bulletin board: showing areas or careers in oceanography. This may also be made as a collage. These may include underwater archeologist, marine surveyor, oceanographer, occupations relating to fishing, tourism, etc. in the ocean.</p> <p>Filmstrips: To emphasize careers in oceanography as well as famous men and women in the field. Examples: Emphasis may be placed upon industries which have developed as a result of sea exploration, (oil, food, water, etc.).</p> <p>Students may write and enact the lives of famous aquanauts: Scott Carpenter, Jean Jacques Cousteau, J. Richard, etc.</p> <p>Books: Read books pertaining to oceanography.</p>	<p>Magazines Newspapers Help from parents</p> <p><u>School and Community</u>, January 1976</p> <p>Catalogs, books, art supplies Bell Telephone Company Missouri Oil Council, 208 Madison St., Jefferson City, MO 65101</p> <p><u>The Restless Sea; Horizons Deep, Horizons Wide; Oceanography I and II; Oceanography Loops</u> SVE</p> <p>Childcraft Vol. 12 World Book</p> <p><u>Reading to Learn, Harcourt Level 5; Cavalcades; Builders of the Bridge, Enough for Everyone; Wide Horizons, The Tide in the Attic, Scott Foresman</u></p>	<p>Begin to realize how conforming to rules and accepting responsibility relates to worker's success in any career.</p> <p>Student becomes aware of his abilities, his weaknesses and his strengths, and realizes that everyone is an individual.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Use display of books  <u>I Want To Be a Forester</u>  <u>I Want To Be a Musician</u>  <u>I Want To Be a Beauty Operator</u>  <u>I Want To Be an Architect</u></p> <p>Filmstrips.  <u>People at Work</u></p> <p>Use <u>Career Flashcards</u> by Counselor Films, Inc. These are designed to integrate career awareness in the classroom.</p> <p>Choose occupation--outline steps for attaining it.  --cartoon strip of person carrying out steps (with possible obstacles??)  --role playing of steps  --compare with how person attains life's occupation in culture being studied</p> <p>Choose an occupation from culture being studied. Describe required preparation--role playing, written, drawings.</p> <p>Use same or similar occupation in <u>our</u> culture. Describe required preparation--role playing, written, drawings.</p>	<p>PZ 10, B 1472, IB  ML 3930, A 2, .G74  PZ 10, B 1472, I B  PZ 10, B 1472, I B</p> <p>A library of six occupations which shows by a filmstrip, a cassette, and booklets what goes on in various occupations.</p> <p>Reference books, career library books, <u>Popeye Comics</u> (career), interviews, class visitors  Text, class discussion</p> <p>Text, class discussion</p> <p>Student research, interviews  Career booklets</p>	<p>The student will recognize relationship between preparation and attaining the job he desires.  Student realizes opportunities and options to him which may not exist in other cultures.</p> <p>Student will become aware of differences and similarities (in preparing for job) between ours and studied culture.</p>

22

53

54

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Have students discuss necessity of laws. Have students make up some rules that would help solve a problem they are having. Discuss their qualifications for having made up those rules:</p> <ul style="list-style-type: none"> <li>Aware of problem and its causes.</li> <li>Know limitations of the school.</li> <li>Will be subjected to those rules.</li> </ul> <p>Have students find out the qualifications needed to be a lawyer; town councilman; congressman--state and U. S.; judge; President.</p> <p>Discuss reasons for these qualifications.</p> <p>Turn to acknowledgments in social studies text. Go through the names to see what kind of people were involved in making of the text.</p> <p>Make a step by step list of what happens from the time the book is written until it gets to school (printers, salesman).</p> <p>Discuss what is the difference between the writing of a text and the writing of a novel.</p> <p>Have children write a book as a class, setting up committees for script writers, illustrators, printers, cover design, binding.</p> <p>Have students choose a subject for a historical account. Perhaps their birth, the visit of a relative, Christmas morning, accident that happened to a person in their family, an incident at school like last week's football game, etc.</p>		<p>Students become aware of need for rules and laws.</p> <p>Students become aware of who makes our laws and their qualifications.</p>

23

24

57

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Teacher explains map to be studied--explains symbols and how to read map as to direction and scale. Start with map of the U. S. because of its familiarity. Locate where you live in U. S. and tell job of your parents.</p> <p>Have children locate states where friends or relatives live. Tell <u>why</u> they live there.</p> <p>Identify all states--name ones you have visited.</p> <p>Have children assemble puzzle maps of U. S. to learn location of states.</p> <p>Note important highways across U. S., learn to read signs and scale for distance.</p> <p>Know directions and place them on maps as directed. Place mountains, railroads on map by following symbols.</p> <p>Make a map collection of various kinds and explain their use such as a road map, city map, weather map, etc.</p> <p>Plan a trip on a map and travel through several states. Be sure to visit places of industrial value.</p>	<p>U. S. map</p> <p>U. S. map</p> <p>Collect them from various places.</p>	<p>Be able to read and follow routes on a map where careers may demand you be.</p> <p>To know why certain geographic areas afford careers because of health, demand or other reasons.</p> <p>Be able to see why some areas of the country demand larger and better roads because of their industrial nature, etc.</p> <p>To see how maps help us and why a career can be had by making maps.</p> <p>Children will be able to identify geographic features and major cities--can see why industries may be located here.</p>

CAREER-RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME																		
<p>Introduction: We have talked about the size of the planets and how far each one is from the sun. Our chart of size and distance has been up for several days, and I know many of you have been studying and discussing it. Today, we are going to start using this information to help us really understand what these figures mean. Big figures are fun to know, but we should know what they mean.</p> <p>Procedure:</p> <p>Divide the class into two groups and each group will take half of the planets to work with.</p> <p>Make the planets and place them on the paper to the exact scale. The distance and the size will correspond but they will be scaled down to the proper size for the picture.</p> <p>After each planet has been made and placed in the exact position, paste them to the strip of paper.</p> <table border="1" data-bbox="131 1167 751 1381"> <thead> <tr> <th>Chart Heavenly Body</th> <th>Diameter in Kilometers</th> <th>Distances from the Sun in Kilometers</th> </tr> </thead> <tbody> <tr> <td>Sun</td> <td>700,000</td> <td>58,000,000</td> </tr> <tr> <td>Mercury</td> <td>2,400</td> <td>110,000,000</td> </tr> <tr> <td>Venus</td> <td>6,200</td> <td>150,000,000</td> </tr> <tr> <td>Earth</td> <td>6,400</td> <td>230,000,000</td> </tr> <tr> <td>Mars</td> <td>3,400</td> <td>278,000,000</td> </tr> </tbody> </table> <p>(continued on next page)</p>	Chart Heavenly Body	Diameter in Kilometers	Distances from the Sun in Kilometers	Sun	700,000	58,000,000	Mercury	2,400	110,000,000	Venus	6,200	150,000,000	Earth	6,400	230,000,000	Mars	3,400	278,000,000	<p>A strip of white paper 80 centimeters wide and 6 meters long</p> <p>A chart of size and distance placed in the classroom</p> <p>Construction paper</p> <p>Paste</p>	<p>The students will be able to identify all nine planets in the correct order from the sun.</p>
Chart Heavenly Body	Diameter in Kilometers	Distances from the Sun in Kilometers																		
Sun	700,000	58,000,000																		
Mercury	2,400	110,000,000																		
Venus	6,200	150,000,000																		
Earth	6,400	230,000,000

CAREER RELATED ACTIVITIES			RESOURCES	EVALUATION/OUTCOME
Jupiter	71,400	1,430,000,000		
Saturn	60,400	3,880,000,000		
Uranus	23,800	4,500,000,000		
Neptune	22,300	4,500,000,000		
Pluto	6,400	5,900,000,000		
<p>To form the shape of the Big Dipper Constellation, suspend round pieces of paper representing stars by strings or thread from the classroom ceiling. The strings should be of different lengths.</p> <p>Try to make the constellation cover about a four-foot radius. Have children look up to the ceiling from their chairs or desks. They will see the familiar constellation, the Big Dipper. Have each child draw exactly what he sees. The children will find that each picture differs slightly, depending upon where the artist was sitting in the room. To some the dipper will appear to hold water, to others it will look as if it is pouring water out, and to others it will appear to be standing on one end.</p>			<p>Thread of string Paper Pins or tacks</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Find a box about the size of a large shoe box. Remove one of the smaller ends. Line the box with aluminum foil. Tape the lid on the box.</p> <p>Get pieces of heavy cardboard, each large enough to fit over the open end of the box. Draw the shape of one star group, called a constellation, on each piece. Use colored crayons to circle each star in the constellation.</p> <p>Punch holes in each cardboard diagram where the circles representing stars appear. Put a flashlight inside the box.</p> <p>Turn the light on. Now place each card, in turn, over the open end of the box. The constellations they appear in the sky can be seen.</p> <p><u>Extending Idea</u> Underexposed and discarded 35mm film slides can be perforated with a pinpoint in the form of various constellations. The slides can be projected on a screen or in a viewer and the constellations identified.</p>	<p>Box about the size of a large shoe box Aluminum foil Tape Heavy cardboard (large enough to fit over the open end of the box) Crayons Flashlight A nail to punch holes in the cardboard diagram</p>	<p>This project will help the students to identify several constellations.</p>

# LANGUAGE ARTS

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Discuss how people communicate their feelings to other people. Bring out jobs that use different forms of communicating in the work as space travel, airports, police, fire-fighters, etc.</p> <p>Play the game of Charades and try to communicate ideas and feelings.</p> <p>Discuss the advantages of good handwriting. Why is good handwriting needed when filling out an application form? What job requires good, neat handwriting?</p> <p>Divide the class into two-man teams. One will be assigned as an observer of his team member. The observer will keep a checklist of each time his teammate uses a language arts or math skill to accomplish an assigned task.</p> <p>When reading a story that would have occurred many years ago, bring out the jobs that are noticed in the story that are not in use any more. Discuss why we do not have these jobs any more and what has replaced them in today's society.</p> <p>Have the children list several jobs and the qualifications needed for that job. This should be followed by a decision of whether or not that particular child would be qualified for that job. What would be good points in favor of this job and his bad points. Discuss the possibilities for this job in your area.</p>		

120

242

243

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>An art project that would go along with career education would be to make a mobile. The objects used could be different tools of a particular occupation, such as for a carpenter, you could have saws, hammer, paint brushes, or ladders. (These would be drawings of the objects.) Or different types of workers could be the objects on the mobile.</p> <p>When producing a craft or other art object, the children could try two different methods of making the object. One way would be for one person to make the entire object by himself. The other way would be to use the assembly line method. After both methods have been tried, discuss which was more efficient, more fun, and how the children felt about the product when it was completed. Was there more self-pride involved with the one made entirely by one person? Did this affect the time it took to complete?</p> <p>An extended activity for the class would be to produce a class newspaper. This would acquaint them with the process of producing a newspaper and also with the many different jobs needed to be done in order to produce a finished product.</p> <p>The first thing needed to be done would be to decide what positions and jobs are needed to produce the paper. For example, ad salesmen, writers, typists, proofreaders, cartoonists,</p>		

121

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>editor, and any others they feel are needed. To fill these positions the application forms could be used to determine who would be the best choice for the job.</p> <p>To get money to buy the paper needed, some children who are good salesmen could sell ads to appear in the paper and want ads.</p> <p>The children chosen as writers and cartoonists need to write these articles. Then the proofreaders need to prepare the articles. The paper needs to be reproduced by children that can operate the duplicating machines.</p> <p>In this activity, it should be important to provide the child with a job he is qualified for and enjoys.</p> <p>Another extended activity would be for the class to start and operate a store. Many people and abilities are needed for this project. You would need some to design the store front, someone to make the small crafts or articles to sell, salesmen, and someone to keep track of the books. The application forms the children could make would help to fill these positions. They could also sell pencils, paper, or other items needed at school.</p> <p>A store would need to be set up and someone to keep it in order. A system of keeping track of how much money is needed and made would have to be set up. Here again the children should be reminded to choose people that would best be suited to a job. Cooperation would also be a need.</p>	<p>Cardboard for store front Small articles to be made and sold</p>	

122

40

247

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Plan and direct a talent show featuring the children of the class. This could be presented before some of the other classes to give them self-confidence. This will show that we all have things that we are good at.</p> <p>Discuss the jobs that the children have to do at home and why he enjoys doing some more than others. Maybe they are outside jobs or inside jobs.</p> <p>Personality folders--Each child would develop a personality folder on himself. Besides helping the children realize something about themselves, this would be a good and useful tool for the teacher to use and look over. In the folder could be a self-portrait, autobiography, checklist of feelings, sheet of likes and dislikes, and strong and weak points of the individual. The children could also decorate the outside of their folder.</p>	<p>Manila folders</p>	

123

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Give report on famous person in area that interests child.</p> <p>Set up a role playing situation where the children are involved in difficult situations. Examples could be disagreements between playmates, between themselves, parents, etc. After these are completed, talk about how they felt while involved, how they had to cooperate, and how they had to give and take to overcome the situation.</p> <p>Have children draw a picture of an occupation they are interested in and then have them write a story about it.</p> <p>Do role playing. Have children pretend they are applying for job in different areas. They can take turns being the interviewer and the applicant.</p>		

124

250

251

OBJECTIVE: There is an interdependency between various jobs within occupational areas, as well as a hierarchial structure.

GRADE LEVEL OR SUBJECT Language Arts AREA OR UNIT OF STUDY Industrial Field Trip

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>After a field trip to an industry or place of business, students will discuss the various tasks associated in the production of the product or service in regard to the interdependency of jobs involved. Students will then order the jobs according to the degree of responsibility required in handling each task, placing them in a hierarchial structure using a flow-chart technique.</p> <p>Students will interview parents, teachers, or community workers to identify how they contribute to one another's success. As they share the results of their interviews, the students will discuss various outcomes if people did not do their jobs at home, work, school, community, and government.</p> <p>Students will take a simple American luncheon--hamburger, french fries, and coke--and list all of the occupations and jobs involved in producing it from its inception to the usability stage.</p> <p>COKE--sugar workers, glass workers            CONDIMENTS--canneries, salt mineral            BUN--bakers, mill workers, packaging manufacturer            FRENCH FRIES--gardeners, truck drivers            HAMBURGER--cattle buyers, butchers, food inspectors</p>	<p>Field trip within the community, such as a factory or newspaper office</p> <p>Encyclopedia</p>	<p>At the end of this unit, students will be able to list occupations and show how a commodity depends upon the interdependence of the occupations; and give examples of how a stoppage or a breakdown in a chain of occupations affects the end product.</p>

125

OBJECTIVE: Self-understanding is vital to career decision and work performance.

GRADE LEVEL OR SUBJECT Language Arts

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>To help their skills in following directions the children could practice filling out these application forms and questionnaires. An extension of this would be to have the children take one job in particular and make out an application form of their own. This could even be one of the jobs that needs to be done in the classroom, such as collecting papers, cleaning the floors, etc. To make up an application form of their own, they would have to consider what type of person would be needed to do this job effectively.</p> <p>If some of the children know how to do a craft activity, they could present a "how to" talk and demonstration before the class. They should be conscious of presenting it in a step-by-step manner. The other children could then try doing this to see if they could follow the directions.</p> <p>A role playing situation could be used to depict an employer training a person for a particular job.</p>	<p>Job application forms or questionnaires</p>	

134

270

271

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>When giving the children a list of words to use in practicing alphabetical order, the words could be names of jobs or professions. This could familiarize some of the children with terms they may not know about.</p> <p>This game uses the whole class. The children are to take turns naming jobs or occupations in alphabetical order. For example, the first child names a job starting with the letter "A," the second child must then name the job the first person names, and then add one of his own starting with the letter "B." This continues until someone cannot remember all of the terms and then you start over.</p> <p>A secretary could be invited to speak to the class. She will talk about all the times she needs to use alphabetical order. The children could observe her when she is filing.</p>	<p>A secretary to come and speak to the class.</p>	

135

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Present to the class a picture that could be interpreted in several ways. The children would then write an original story about what they see in the picture. This shows the different attitudes, interests, and thinking levels of the children.</p> <p>Each child will write a biography of himself. After reading them aloud, the children try to guess who it is.</p> <p>The children are to write a story about what they think the world will be like in twenty years. This could also include what they think they have learned this week or this year that will be of importance to them while living in this future world.</p> <p>An extension of the activity above, they could include in their story the types of jobs that would be available in this time period. They should also include what kinds of qualifications would be needed for these jobs.</p> <p>To give practice in letter writing, the children could choose some person that would be familiar with a particular occupation and then write a letter asking this person to come and speak to the class about his profession. A thank you note should also be written.</p>		

136

274

275

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>In a unit using the reference skills, the children could choose a job they are interested in. This should preferably be an area of occupation that they do not know a lot about. Their job would be to find institutions, companies, or people to write to that could give them information on the occupation they are interested in. This would also include letter writing skills when they are corresponding. Another follow-up activity would be to give an oral presentation to the class on this subject.</p> <p>Using the dictionary, the children should be encouraged to use the dictionary any time they come across an occupation they know nothing about.</p>	<p>Dictionaries</p>	

137

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>To go along with a story they have just read, the children could prepare a skit. This would use the skills of getting along with others, cooperating, preplanning, and consideration of another's feelings and ideas.</p> <p>After the children are more familiar with the concept of the job interview, they should be able to dramatize a job interview.</p> <p>Photography contest: If several students have cameras, a contest may be organized for the best photograph in several categories: scenery, people, close-ups, etc. Students may choose a committee of judges.</p>	<p>Students, cameras, film, etc.</p>	<p>To develop a broader knowledge of photography. To create an awareness in the student of the jobs available to a competent photographer.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Reports and discussion: Students may prepare reports relating to cameras and photography and present them to class in a panel discussion form.</p> <p>Bulletin board: Make listing of jobs available to a good photographer and photographic examples of each for display. Examples: portraits, advertising, newspaper and magazine, military, business, oceanography, etc.</p> <p>Media materials: cassette tape, "Photographs" film, "Camera and Cameras"</p> <p>Guest speaker: Invite a local photographer to the classroom to discuss his career and demonstrate to students some of the "tools of his trade."</p> <p>Books and pamphlets: Students may read additional materials to obtain information related to photographers and photography.</p> <p>Examples: <u>Eyes in Russia</u>, Margaret Bourke-White  <u>Portrait of Myself</u>, M. Bourke-White  <u>News Cameraman</u>  <u>Photographic Repairman</u>  <u>Portrait Photographer</u>  <u>Photographer Career Information</u></p>	<p>Encyclopedia Childcraft Vol. 8 and 10</p> <p>Magazines, newspaper, encyclopedia, art supplies</p> <p>SRA Eastman Kodak, Rochester, NY</p> <p>AMS Press Simon and Schuster SRA SRA SRA SRA</p>	<p></p>

139

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Drawing: Let children draw a plan of their house or apartment. Discuss amount of detail to be included and general form and size of drawing.</p> <p>Observation and research: Students may study the varieties of architectural styles available in their neighborhood by drawing and photographing several. They should find out what each style is called and when built. This information would make an excellent bulletin board display.</p> <p>Interview: Arrange for an architect and builder to address the class.</p> <p>Field trip: If possible, students could visit a building site to determine style of architectural differences in ideas, people and industries employed, materials, etc.</p> <p>Extra reading: Interesting books may be obtained from the library. Examples: <u>From Stones to Skyscrapers</u> by Thea Bergere; <u>Architecture, My Way of Life</u> by Edward Durrell Stone.</p>	<p>Paper, rulers, pens, etc.</p> <p>Cameras, paper, etc.</p> <p>Local architects and builders</p> <p>School or public library</p>	<p>Students should obtain information and understanding of architecture and building as art medium as well as career field.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Allow children to write short articles about their mothers' different occupations and report to class.</p> <p>The above reports would create an excellent opportunity for role playing.</p> <p>Bulletin board displays depicting mothers varied "world of work."</p> <p>Filmstrips depicting "new" careers of working mothers (engineers, truck drivers, etc.) and their importance to the working world.</p> <p>Students may investigate books about unusual mothers. Examples might be human beings raising animal babies as members of the family, animal mother adopting babies of another species, etc. Examples: "This Man Was Mother to a Duck," "Born Free," "Ape in the House," "Artic Wilderness," "Ring of Bright Water," "The Quail, Robert."</p>	<p>Magazines, newspapers</p> <p>School curriculum center Library</p>	<p>To increase understanding of the role of mothers in society.</p>

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>After taking the following inventory, students will list jobs that relate to the summary of interests.</p> <p style="text-align: center;">TAKING INVENTORY ON MYSELF!</p> <p>Think about yourself--what you like to do. Imagine that you have a block of free time. Check the boxes next to the activities you like to do most of all.</p> <p><input type="checkbox"/> Help a younger child learn to ride a bike</p> <p><input type="checkbox"/> Spend the afternoon in a museum by yourself</p> <p><input type="checkbox"/> Read a book                      <input type="checkbox"/> Write a story</p> <p><input type="checkbox"/> Put together a model airplane</p> <p><input type="checkbox"/> Cook a meal or bake</p> <p><input type="checkbox"/> Plant a vegetable garden</p> <p><input type="checkbox"/> Care for a pet rabbit</p> <p><input type="checkbox"/> Help someone repair a radio</p> <p><input type="checkbox"/> Help your mother take care of a sick relative</p> <p><input type="checkbox"/> Listen to music                      <input type="checkbox"/> Play a musical instrument</p> <p><input type="checkbox"/> Go for a hike                      <input type="checkbox"/> Play baseball</p> <p><input type="checkbox"/> Study the stars or observe the sky</p> <p><input type="checkbox"/> Do a jigsaw puzzle</p> <p>Now look at the activity boxes that you checked. Are your choices similar in some ways?</p> <p><input type="checkbox"/> indoors                                      <input type="checkbox"/> outdoors</p> <p>Nearly all the things I like to do are--</p> <p><input type="checkbox"/> slow-moving, and take patience</p> <p><input type="checkbox"/> fast-action, busy activities</p> <p>Most of my activity choices mean doing things--</p> <p><input type="checkbox"/> alone    <input type="checkbox"/> with others</p>	<p><u>Scholastic Newstime</u> March 28, 1974</p>	

CAREER RELATED ACTIVITIES	RESOURCES	EVALUATION/OUTCOME
<p>Nearly everything that I like to do takes--  <u>  </u> lots of physical energy  <u>  </u> mental energy or "brain work"</p> <p>After checking the list and writing the related jobs, students will find magazine pictures that fit their interests. Each student will display an on-going "personal bulletin board" for the pictures and relevant job articles.</p>		<p>At the end of this unit, students will be able to list hobbies that show a definite carry-over to the world of work; and list interests that show pertinent relationships to a vocation or career.</p>

AUDIO-VISUAL MATERIAL

The establishment of an audiovisual library is included as a part of the Career Education Project housed at State Fair Community College. It is to be developed throughout the three-year span of the project. After this time, it will continue to operate for school personnel in the community college district.

The library is housed in the Learning Resources Center at State Fair Community College. All school personnel in the Career Education Project and the community college district have lending privileges. A handbook containing complete check-out information along with necessary forms is available through each principal, counselor and librarian as well as from those teachers who were designated to work with the project during the 1975-76 school year.

The Career Education Resource Library has been reorganized to better meet your needs. It has been divided into the three following levels:

Elementary materials will be recognized by the use of a yellow dot over the catalog number. In addition ELEM will be included in the catalog number. Example: KT  
ELEM  
CE1

Junior High/Senior High materials will be recognized by the use of a green dot over the catalog number. In addition JRSR will be included in the catalog number. Example: KT  
JRSR  
CE2

Elementary-Junior High/Senior High will be recognized by the use of both a yellow and green dot. In addition both ELEM and JRSR will be included in the catalog number. Example: KT  
ELEM  
JRSR  
CE3

For your convenience, we have color coded the sections included in this resource list. The color codes are as follows:

Elementary Materials	Yellow
Junior High/Senior High	Green
Combination ELEM/JRSR	Blue

Recommendations and evaluations of materials in the Career Education Resource Library are available to anyone interested. The Assistant Librarian in the CERL and AV Specialist will always be available to assist all teachers with the use of the library.

If you visit the Career Education Audiovisual Library in the Learning Resources Center, you will be able to locate materials more quickly by noting the color coded labels. All of the materials other than books and periodicals are color coded. The color and code is as follows:

<u>Item</u>	<u>Code</u>	<u>Color</u>
Kit (a combination of two or more media designed to be used as a unit)	KT	Black
Cassettes	CT	Red
Posters, Charts	PA	Orange
Filmstrips	FS	Green
Games, Puzzles	GA	Blue
Realia (actual objects or specimens)	RE	Brown

## PROCEDURE FOR CHECKING OUT MATERIALS FROM CAREER EDUCATION RESOURCE LIBRARY

### To Reserve:

1. Reservation cards will be available in all school offices.
  - A. Be sure to state desired material in order of preference.
  - B. Be sure to send cards to Career Education, State Fair Community College, Sedalia, MO 65301; or give cards to component specialists on their visits.
2. All reservations received will be posted up on a three month rotating calendar which will be placed in the Career Education Resource Library in SFCC.
3. Reservations made more than three months in advance will be filed with the Resource Library Assistant and will be transferred to the three month calendar at the appropriate time.
4. Reservations may also be called in to the SFCC Library, phone 826-7100, ext. 27. (Ask for Career Ed. Resource Library Ass't. or Career Ed. AV Specialist)
5. Confirmation of dates will be sent to teachers immediately upon booking.

### To Checkout:

1. Use checkout form available.
2. When materials are due, make arrangements to have this returned as close to due date as possible.
3. When the extension of any of the materials is desired, please call Resource Library Assistant or Career Ed. AV Specialist to check to see whether or not it has been previously reserved or inquire at component specialists.

### To Return:

1. Return all materials to Career Ed. Resource Library by:
  - A. Component specialist or any career ed. staff member
  - B. Mail
  - C. Bringing material to SFCC Career Ed. Resource Library
  - D. Student enrolled in area Vo-Tech school program at SFCC

### To Evaluate:

1. Evaluation forms are sent with the materials requested. Please fill out and return with materials.
2. If Student Reaction Forms are sent, please have your students complete them and return them with materials.

### Overdue Materials:

Reminders will be sent to all teachers with overdue material.
