ABSTRACT
        This participant workbook on electronic aid offices is
intended to be used in a two-day workshop that provides hands-on computer
instruction and addresses regulatory requirements for participating in
electronic processes of the U.S. Department of Education (ED). The materials
encompass eight training sessions that cover the following topics: How ED
communicates with schools; setting up the electronic office; electronic
application processing; determining student eligibility; managing Title IV
funds electronically; reporting; managing the data systems; what's on the
horizon; and how to access ED services. Specific contents cover:
ED-designated processes with each deadline date; technical specifications for
ED-required electronic processes; the functions of different data processing
systems and how schools interface with the system; student financial
assistance program Web sites; a checklist for implementing new electronic
processes; a chart showing the electronic flow of applicant data; setting up
a browser; actual sections of financial aid reports; case management
regulations; notification requirements; loan counseling requirements; and
reporting payment data for different student financial aid programs. The
materials include simulations, various illustrations and flow charts,
reference sources for each session, and a glossary. (SW)

ED-DESIGNATED PROCESSES AND DEADLINE DATES

Deadline Date	Designated Electronic Processes
January 1, 1998	✦ Participate in the <u>Title IV Wide Area Network (TIV WAN)</u>*. ✦ For the 1998–99 processing year[1] and beyond: • Receipt of Institutional Student Information Records (ISIRs).[2] • Adding your institution to the <u>Central Processing System (CPS) Record</u>*. • On-line access to the National Student Loan Data System (NSLDS).
July 1, 1998	✦ Access the "Info for Financial Aid Professionals" web site or the Student Financial Assistance Bulletin Board System (SFA BBS). ✦ Submission of the Application for Approval to Participate in Federal Student Aid Programs (recertification, reinstatement, and changes) through the Internet. ✦ Submission of the <u>Fiscal Operations Report and Application to Participate (FISAP)</u>* to the Title IV Wide Area Network (TIV WAN). Diskettes and magnetic tapes/cartridges eliminated.
July 1, 1999	✦ For the 1999–2000 award year and beyond: Report Federal Pell Grant Payments electronically or on magnetic tape or cartridge to the Title IV Wide Area Network (TIV WAN). Diskettes eliminated. ✦ Submit Student Status Confirmation Report (SSCR) data electronically or on magnetic tape or cartridge to the National Student Loan Data System (NSLDS). Diskettes eliminated. ✦ Submit Federal Perkins Loan Data electronically or on magnetic tape or cartridge to the National Student Loan Data System (NSLDS). Diskettes eliminated.

[1] The application processing cycle lasts 18 months. For the 1998–99 award year, application processing begins in January 1998 and applications for that year will be accepted until June 30, 1999.

[2] The Secretary realizes that processing Title IV aid upon the receipt of an ISIR, rather than the paper Student Aid Report (SAR), may be new for some institutions. In order to provide these institutions sufficient time to implement electronic procedures to receive ISIRs, the Secretary will not assess any penalties against an institution that is not able to comply with this requirement on January 1, 1998. However, beginning July 1, 1998, all institutions are expected to be receiving ISIRs electronically for any Title IV applicant who has listed that institution on the applicant record in the CPS.

7

TECHNICAL SPECIFICATIONS
FOR ED-REQUIRED ELECTRONIC PROCESSES

	Current Minimum Configuration (Depending Upon Volume and Usage)	Minimum Configuration Required by January 1999
Equipment	✦ IBM or fully IBM-compatible PC ✦ 66 MHz* Processor 486DX2 ✦ 16 MB RAM* ✦ 300 MB* Hard Disk Space ✦ 14,400 bps* or higher baud Hayes or comparable Modem* ✦ 3.5"/1.44 MB Diskette Drive ✦ SVGA Monitor* ✦ Standard Keyboard ✦ Printer capable of printing on standard paper (8 ½" x 11") ✦ 4x CD-ROM* Drive with sound board[1]	✦ IBM or fully IBM-compatible PC ✦ 200 MHz Pentium Processor or compatible ✦ 64 MB RAM ✦ 4.0 GB* SCSI* Hard Drive ✦ 56K Analog Modem ✦ 3.5"/1.44 MB Diskette Drive ✦ SVGA Monitor ✦ Windows 95 Keyboard ✦ Laser printer capable of printing on standard paper (8 ½" x 11") ✦ 12x CD-ROM Drive with sound board[1]
Software	✦ MS-DOS version 6.2 or higher; Windows 3.1, 3.11, or 95 ✦ Internet Service Provider (ISP)[2] ✦ Netscape Navigator* 3.0 or 3.01 (domestic), Microsoft Internet Explorer 4.0, or other web browser*[3]	✦ 32 bit operating system* (Windows 95* or Windows NT 4.x*) ✦ Internet Service Provider (ISP)[2] ✦ Netscape Navigator 3.0 or 3.01 (domestic), Microsoft Internet Explorer 4.0, or other web browser[3]
Phone Line	✦ Dedicated phone line	✦ Dedicated phone line
Diskettes	✦ 3.5" high-density double-sided diskettes	✦ 3.5" high-density double-sided diskettes

[1] Required if institutions want to use the EDExpress Tutorial and the AWARE software.

[2] Will be necessary to access the "Information for Financial Aid Professionals" web site or the Student Financial Assistance Bulletin Board System (SFA BBS) and for submission of the Application for Approval to Participate in Federal Student Aid Programs (recertification, reinstatement, and changes).

[3] Currently must use Netscape Navigator 3.0 or 3.01 (domestic) or Microsoft Internet Explorer 4.0 in order to utilize FAFSA on the Web. The Department is currently testing other web browsers that will be made available to the public in the near future.

10

DEPARTMENT OF EDUCATION
ELECTRONIC PROCESSES USED BY SCHOOLS

Data Processing System	Function	How Schools Interface With System
Central Processing System (CPS)	✦ Process applicant data • Perform system edits and database matches • Calculate EFC • Send processed data results to applicants, schools, and other ED systems	✦ Collect applicant data (including changes) via EDExpress or school-developed system and submit data via Title IV WAN *(Applicant data also provided by student using FAFSA/Renewal FAFSA on the Web, FAFSA Express, Student Entry mode of EDExpress, or paper FAFSA/Renewal FAFSA)* ✦ Receive Institutional Student Information Record (ISIR) via: • Title IV WAN and EDExpress or interface with school's mainframe computer; or • Magnetic tape or cartridge
National Student Loan Data System (NSLDS)	✦ National database of Title IV loan information and selected grant data • Interface with CPS for determining student eligibility • Process Student Status Confirmation Report (SSCR) data • Calculate Title IV default rates • Provide data to other ED systems	✦ Obtain financial aid history information via Title IV WAN *(Financial aid history information also obtained from ISIR)* ✦ Collect and format SSCR data via EDExpress or school's mainframe computer and submit data via Title IV WAN ✦ Submit Federal Perkins Loan Program and Title IV overpayment data via Title IV WAN
Campus-Based System (CBS)	✦ Process Fiscal Operations Report and Application to Participate (FISAP) data • Edit data • Make tentative and final campus-based program awards • Report school campus-based awards to ED's financial systems	✦ Collect FISAP data via EDExpress or school's mainframe computer and submit data via Title IV WAN *(beginning in Summer 1998)*

11

DEPARTMENT OF EDUCATION ELECTRONIC PROCESSES USED BY SCHOOLS (CONT'D)		
Data Processing System	**Function**	**How Schools Interface With System**
Direct Loan Origination Center (LOC)	✦ Process origination record, promissory note, and disbursement data • Edit data • Send acknowledgments to school • Submit data to Direct Loan Servicing System	✦ Collect and edit origination record, promissory note, and disbursement data via EDExpress or school's mainframe computer and submit data via Title IV WAN
Postsecondary Education Participants System (PEPS)	✦ Database of all participants (schools, lenders, guaranty agencies) in federal student aid programs	✦ Apply for recertification of Title IV eligibility and submit updated school data via ED's web site
Education Central Automated Processing System (EDCAPS) Grant Administration and Payment System (GAPS)	✦ Process school requests and expenditures of Federal Pell Grant, Direct Loan (DL), Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Perkins Loan, and Federal Work Study (FWS) funds	✦ Request, draw down, and report disbursements of Federal Pell Grant, DL, FSEOG, Federal Perkins Loan, and FWS funds via the Internet
Pell Grant Recipient and Financial Management System (PGRFMS)	✦ Database of Federal Pell Grant recipients ✦ Manage the disbursements and accounting of Federal Pell Grant funds to schools	✦ Submit Federal Pell Grant payment data (including changes) via: • Title IV WAN and EDExpress or interface with school's mainframe computer; • Magnetic tape or cartridge; or • Diskette[1]
Communication System[2]	**Function**	**How Schools Use System**
Title IV WAN	✦ Electronic network for the exchange of data between ED's databases and schools	✦ EDconnect software to transmit batched data ✦ NET*CONNECT software to gain on-line access to ED's systems
The Internet	✦ Disseminate ED announcements, publications, and electronic versions of Title IV applications using the Info for Financial Aid Professionals web site	✦ Access web site via: ifap.ed.gov

[1] Effective 7/1/99, diskettes will be eliminated.
[2] Also includes the Student Financial Assistance Bulletin Board Service (SFA BBS). The SFA BBS will be phased out during 1998.

12

Notes

Title IV WAN

✦ Electronic link between schools and ED databases

✦ School participation in Title IV WAN required beginning 1/1/98

✦ Participate in Title IV WAN using ED-provided software or software developed by school or vendor that meets ED specifications
ED databases

January 16, 1998   1-1

Title IV WAN Highway

PGRFMS
CBS
LOC
CPS
TITLE IV WAN
YOUR SCHOOL
PEPS
NSLDS

January 16, 1998   1-2

13

Notes
EDconnect

◆ Used to transmit batched data between school and ED databases

◆ Destination point: each location sending or receiving data

- May designate more than one destination point

- Each destination point has mailbox in Title IV WAN

◆ Schools specify when they want to send and receive data transmissions

January 16, 1998   1-3

14

EXAMPLE: SCHOOL DESIGNATES A SINGLE DESTINATION POINT

Central Processing System (CPS)

CPS
Title IV

EXAMPLE: SCHOOL DESIGNATES MULTIPLE DESTINATION POINTS

Central Processing System (CPS)

CPS Title IV WAN Mailbox

National Student Loan Data System (NSLDS)

NSLDS Title IV WAN Mailbox

Applicant Data

Student financial aid history data

SSCR Data

FAO Title IV WAN Mailbox

RO Title IV WAN Mailbox

Financial Aid Office (FAO)

Registrar (RO)
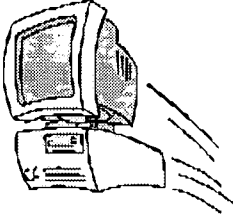

SCHOOL

NOTE: Even though the registrar's office is a destination point for transmitting SSCR data between the school and NSLDS, the financial aid office also can be a destination point for transmitting data between the school and NSLDS.

16

Notes

EDconnect (cont'd)

✦ If transmitting data to ED databases:

- Sort electronic records by data record type and processing year
- Group or batch each type of record into a single file
- Name file(s)
- Move file(s) to EDconnect Transmission Queue

January 16, 1998   1-4

EDconnect (cont'd)

✦ If retrieving data ED sent to school's mailbox:

- Prepare electronic request
- Request must specify which data file(s) school wants to retrieve

January 16, 1998   1-5

17

EXAMPLE: FILE NAME

EAPS98IN.001

| Type of data (Electronic Applications) | Year | Input File (from the school to CPS) | Number of batches of this type created |

18

Notes

NET*CONNECT

✦ Used to access ED databases on-line

- On-Line Query functions

- May only access databases for which school is authorized

✦ On-Line Query also allows school to check status of data transmissions, current month's invoice, and destination and institutional information

January 16, 1998   1-6

19

PARTICIPANT SIMULATION
NET*CONNECT

✦ To help you become more acquainted with how to use NET*CONNECT, we have developed a simulation exercise for you to complete.

✦ Before you begin, let's review the instructions for completing the simulations used in this training. The participant simulation exercises illustrate how to use ED's software. Each exercise contains pop-up text boxes that will guide you through the steps of the exercise. As you work through the steps, you must:

1. Perform the activity described in the pop-up text window; or

2. Click on the advance arrow (**➔**) at the top of the pop-up text window.

✦ If you click on the advance arrow, the computer will complete the activity for you. If you want to return to a previous step, click on the reverse arrow (**←**) at the top of the pop-up text window.

✦ Each simulation is subdivided into topics. You can go to a particular exercise by clicking on the topic button at the top of the pop-up text window and making a selection.

✦ After completing the simulation, you exit by clicking on the exit button at the top of the pop-up text window.

✦ The simulation will take approximately 10 minutes to complete. If you have any questions while working through the simulation, you should ask for assistance.

1998-99 Electronic Aid Office *January 30, 1998*

SESSION 2

SETTING UP YOUR ELECTRONIC OFFICE

OVERVIEW

A. ED Requirement to Use Electronic Processes

B. Steps in Setting Up a School's Electronic Operations

  1. Model for Setting Up Electronic Operations

  2. The Assessment and Implementation Checklist
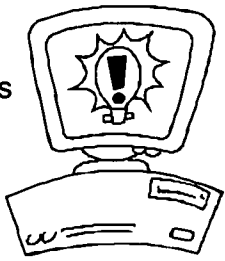

SOURCES FOR FURTHER STUDY

✦ Federal Regulations 34 CFR, Part 668 [Section 668.16(o)]

✦ Federal Register Notice, September 19, 1997 (Deadline dates for schools to use electronic processes to meet administrative capability requirements)

✦ 1998-99 Action Letter #2, Dear Colleague Letter GEN-97-11 (Information regarding deadline dates for schools to use electronic processes)

28

Notes

Why Use Electronic Processes?

✦ Must participate in ED-designated electronic process (see 11/29/96 Final Regulation)

- Participation used as a measure of school's administrative capability

- Improves delivery of Title IV funds and protects federal fiscal interests

- Experience is essential to implementation of Project EASI's delivery system

January 16, 1998   2-1

Participate in ED's Required Electronic Process

✦ Use:

- ED-provided software or

- Software developed by school or vendor that meets ED specifications or

- Combination of ED-provided software and school- or vendor-developed software or

- Third-party servicer

January 16, 1998   2-2

29

STEPS FOR IMPLEMENTING NEW ELECTRONIC PROCESSES

Implementation Steps	Activities
Step 1: Obtain Institutional Approval and Commitment	1. Obtain: ◆ Commitment of senior administration ◆ Cooperation of other institutional offices ◆ Sufficient financial resources 2. Establish task force

Step 2: Evaluate Current Processes	1. Identify all functions for administering financial aid programs.
	
	2. For each function, answer:
	◆ What activities must be performed and in what order?
	◆ What data are needed?
	◆ Where do the data come from?
	◆ How is each activity performed?
	◆ Who performs each activity?
	◆ When function is completed:
	  • Who needs the data and when?
	  • How are data retained and maintained?
	  • Who maintains and retains the data?
	
	3. Identify which activities:
	◆ Must be performed using ED processes
	◆ Are already automated, but should be upgraded
	◆ Are manually performed, but can be automated

Step 3: Determine Platform and Software	1. Determine system design by analyzing:
	◆ Number of school's financial aid applicants and recipients
	◆ Volume of data and processing flow
	◆ How frequently each electronic process will be performed
	◆ Processing systems school currently is using
	◆ Technical staff and financial resources needed
	
	2. Determine whether to use ED-, school-, vendor-developed, or combination of processing software by:
	◆ Establishing software's essential requirements
	◆ Viewing a demonstration of the software
	◆ Getting feedback from current users
	◆ Asking software provider:
	  • Whether newer version being developed?
	  • How users notified of upgrades?
	  • How upgrades distributed?
	  • What technical support is provided?

Step 4: Develop a Model for Incorporating Electronic Processing	1. Develop implementation model detailing: ◆ Functions/activities performed by electronic processes ◆ How new processes will replace existing processes ◆ How new processes will be integrated with existing systems ◆ Staff responsibilities and training needs ◆ Priority for implementing each function's process ◆ Tasks, time frame, and resources needed to implement each process ◆ Each function's data processing schedule

Notes

Assessment and Implementation Checklist

◆ Evaluates current operations by identifying electronic processing needs

◆ Evaluates all financial aid operations, not just those functions using electronic processes

◆ Plans implementation of new or upgraded systems

January 16, 1998   2-3

31

FINANCIAL AID OPERATIONS ASSESSMENT AND IMPLEMENTATION CHECKLIST

Function	How is function performed (manually, by PC, and/or mainframe computer)?		Automate/ upgrade process? (If yes, list platform and software)	Who performs function (school office, servicer, student)?		Priority and deadline for automating/ upgrading process
	Now	Future		Now	Future	
Participate in Title IV WAN (NEW 1-1-98)						Current requirement
Access ED information and documents (e.g., Dear Colleague Letters, announcements, Federal Registers) from the Info for Financial Aid Professionals Web site or SFA BBS[1] (NEW)						7/1/98[2]
Apply for recertification of Institutional Title IV eligibility (NEW)						7/1/98[3]
Update information on school's Application for Approval to Participate in Federal Aid Programs (NEW)						7/1/98[3]
Access NSLDS on-line (NEW 1-1-98)						Current requirement
Determine student eligibility: ◆ Enter and transmit applicant data to CPS						

[1] Although 1997-98 Action Letter #2 states that schools must have the ability to print these documents in PDF, there is no ED requirement that schools maintain paper copies of these documents.

[2] Because ED expects to phase out the SFA BBS during 1998, schools should be prepared to access ED's web site.

[3] Effective 7/1/98, schools must use the Title IV WAN to apply for recertification and to report changes in their application.

32   33

FINANCIAL AID OPERATIONS ASSESSMENT AND IMPLEMENTATION CHECKLIST (CONT'D)

Function	How is function performed (manually, by PC, and/or mainframe computer)?		Automate/ upgrade process? (If yes, list platform and software)	Who performs function (school office, servicer, student)?		Priority and deadline for automating/ upgrading process
	Now	Future		Now	Future	
◆ Obtain processed applicant data (i.e., ISIR) **[NEW 1-1-98]**						Current requirement[4]
◆ Request additional information or documentation from student						Current requirement
◆ Report changes in applicant data to CPS: **[NEW 1-1-98]**						
• Add school to CPS record if not listed on SAR/SAR Acknowledgment						
• Correct or update applicant data						
• Make professional judgment adjustments						
◆ Obtain reprocessed applicant data from CPS (ISIRs) **[NEW 1-1-98]**						Current requirement[4]
◆ Obtain and review ISIRs resulting from postscreening process **[NEW 1-1-98]**						Current requirement
Package financial aid awards						
Originate Direct Loans						Current requirement
Certify FFEL applications						

[4] ED will not assess any penalties against a school unable to comply with this requirement on 1/1/98. However, beginning 7/1/98 all schools must be receiving ISIRs electronically for any Title IV applicant who has listed that school on the applicant record in the CPS.

34   35

FINANCIAL AID OPERATIONS ASSESSMENT AND IMPLEMENTATION CHECKLIST (CONT'D)

Function	How is function performed (manually, by PC, and/or mainframe computer)?		Automate/ upgrade process? (If yes, list platform and software)	Who performs function (school office, servicer, student)?		Priority and deadline for automating/ upgrading process
	Now	Future		Now	Future	
Notify students of amount of Title IV funds awarded, how and when those funds will be disbursed, and which FFEL or Direct Loan funds are subsidized and which are unsubsidized						
Notify Federal Perkins, Direct Loan, and FFEL borrowers of date and amount to be disbursed, and borrower's right to cancel all or portion of the loan						
Conduct loan counseling: ◆ Entrance interview ◆ Exit interview						
Request and draw down: (NEW) ◆ Campus-based funds ◆ Federal Pell Grant funds ◆ Direct Loan funds						Early 1998[5] Early 1998[5] Current requirement
Disburse student aid funds: ◆ To student's account at the school ◆ To student or parent borrower's bank account						

[5] ED will implement the new Grant Administration and Payment System (GAPS) in early 1998. Schools not having the technology to access GAPS on-line may request funds by telephone.

37

36

FINANCIAL AID OPERATIONS ASSESSMENT AND IMPLEMENTATION CHECKLIST (CONT'D)

Function	How is function performed (manually, by PC, and/or mainframe computer)?		Automate/upgrade process? (If yes, list platform and software)	Who performs function (school office, servicer, student)?		Priority and deadline for automating/upgrading process
	Now	Future		Now	Future	
Report:						
◆ Campus-based program expenditures (NEW)						Early 1998[6]
◆ Federal Pell Grant Program payment data (NEW)						7/1/99[7]
◆ Overpayments of Title IV funds to NSLDS (NEW)						
◆ SSCR data to NSLDS (NEW)						7/1/99[8]
◆ Federal Perkins Loan data to NSLDS (NEW)						7/1/99[9]
◆ FISAP (original submission and subsequent edit corrections) (NEW)						7/1/98[10]
◆ Direct Loan Program expenditures						Current requirement
Archive records						

[6] Under the new GAPS system, schools will receive Cash Quarterly Confirmation Statements. Unless the school's records do not agree with these statements, no certification of the school's expenditures and credit balances is required until the school completes the annual Federal Cash Award Certificate at the end of the fiscal year.

[7] Submission of Federal Pell Grant payment data by diskette will be eliminated.

[8] Submission of SSCR data by diskette will be eliminated.

[9] Submission of Federal Perkins Loan data by diskette will be eliminated.

[10] Submission of FISAP data by diskette will be eliminated. Schools must be able to submit the FISAP due on 10/1/98 via Title IV WAN.

SESSION 3

ELECTRONIC APPLICATION PROCESSING

OVERVIEW

A. How to Get Applicant Data to the CPS

   1. How Data Are Entered

   2. FAFSA on the Web and Renewal FAFSA on the Web

      a. Instructor Demonstration (Information only—not presented in EAO Workshop)

      b. Participant Simulation

   3. EDExpress Application Processing

      a. FAA Entry Mode

      b. Instructor Demonstration

      c. Participant Simulation

   4. FAFSA Express

      a. Advantages of Electronic Application Processing

      b. Instructor Demonstration (Information only—not presented in EAO Workshop)

      c. Participant Simulation

B. Sending and Receiving Data

   1. Exporting Data

      a. Instructor Demonstration

      b. Participant Simulation

   2. Retrieving and Importing Data

      a. Instructor Demonstration

      b. Participant Simulation

   3. Downloading ISIRs Using Custom or Vendor Software

   4. Adding a School to the CPS Record

   5. Correcting and Updating Applicant Data

      a. Reporting Professional Judgment Adjustments

      b. Instructor Demonstration

42

      c. Participant Simulation

Notes

Electronic Methods

◆ FAFSA on the Web

◆ EDExpress application processing

◆ FAFSA Express

44
ELECTRONIC FLOW OF APPLICANT DATA

EDExpress

Student (spouse, parents) completes a paper FAFSA, Renewal FAFSA, or echo document; student or administrator completes data entry.

School transmits application data to the CPS. School responsible for maintaining application records.

FAFSA Express

Student uses FAFSA Express software on PC at school, EOC, library, or downloads software to home computer. Software allows transmission of application data to the CPS.

Student prints and mails signature page to processor or CPS sends student Reject SAR for signature. Signed SAR returned to processor.

FAFSA on the Web

Student completes on-line application. Software allows transmission of data to CPS.

Student prints and mails signature page to processor or CPS sends student Reject SAR returned to processor.

Renewal FAFSA on the Web

Student uses PC or MAC with Internet access and Netscape Navigator or MS Internet Explorer Web browser to get to web site.

Student must apply for Electronic Access code (EAC) on the Web site before completing Renewal FAFSA on the Web.

If new address, student **cannot** complete Renewal FAFSA on the Web. May complete paper Renewal FAFSA or original FAFSA, using FAFSA on the Web, FAFSA Express, EDExpress, or a paper FAFSA.

If student at same address as prior year, EAC mailed within 7 to 10 days. After receipt of EAC, student completes Renewal FAFSA and transmits to CPS.

Dependent student prints and mails signature page to processor or CPS sends dependent student SAR for signature. No signature page required for independent students.

CPS edits data, performs matches, calculates EFC, prints and mails SAR to students; transmits ISIRs to schools.

Student receives SAR.[1] Schools or servicers receive ISIRs.

[1] Student will receive SAR Information Acknowledgment if application entered by FAA.

46

45

Notes

FAFSA on the Web

✦ Located at:

www.fafsa.ed.gov

January 16, 1998   3-2

47

SETTING UP YOUR BROWSER

Netscape Navigator 3.0 - 3.04

1. Select **Options**.
   Select **Security Preferences** from the pull-down menu.
   Select tab called **General**.
   Make sure **Enable SSL v2** and **Enable SSL v3** boxes are checked.

2. Select **Options**.
   Select **Network Preferences** from the pull-down menu.
   Select tab called **Cache**.
   Make sure **Allow Persistent Caching of Pages through SSL** box is NOT checked.

3. Select **Options**.
   Select **Network Preferences** from the pull-down menu.
   Select tab called **Languages**.
   Make sure **Enable JavaScript** box is checked.

Netscape Navigator 4.0 - 4.03

1. Select **Window**.
   Select **Security Info** from the pull-down menu.
   Select **Navigator** from the list at the left.
   Scroll down to the category called **Advanced Security (SSL) Configuration**.
   Make sure **Enable SSL v3** box is checked.
   Click on **Configure SSL v3** button.
   Make sure **RC4 encryption with a 128-bit key and an MD5 MAC** is checked.
   Close the screens by clicking the OK button.

2. Select **Edit**.
   Select **Preferences** from the pull-down menu.
   Select **Advanced** from the category tree on the left.
   Make sure **Enable JavaScript** box is checked.
   Close screens by clicking the OK button.

Internet Explorer 4.0

1. Select **View**.
   Select **Internet Options** from the pull-down menu.
   Select **Advanced** from the tabs at the top of the dialog.
   Scroll down to the list of options and make sure the following are set:

   - **Security**
     - SSL 2.0 is checked
     - SSL 3.0 is checked

2. Select **Security** from the tabs at the top of the dialog.
   Select **Internet Zone** from the Zone drop down box.
   Select the **Medium (more secure)** check box.

48

Notes

Renewal FAFSA on the Web

◆ Applicant must live at same address printed on paper Renewal FAFSA

◆ Applicant must request an Electronic Access Code (EAC) at web site before updating Renewal FAFSA

January 16, 1998   3-3

49

ELECTRONIC ACCESS CODE (EAC) PROCESS FOR USING RENEWAL FAFSA ON THE WEB

Applicant accesses FAFSA on the Web and selects Renewal Application/Request EAC option.

↓

Applicant enters personal identifiers: Social Security Number, first two letters of the last name, and date of birth.

↓

FAFSA on the Web checks for applicant's record in Renewal Application database.

↓

If the applicant's record is found, applicant confirms if prior year application address is current.

If address is current, applicant receives EAC within 8-10 days.

↓

Applicant receives EAC and returns to Renewal FAFSA Web site to update and/or complete the application.

If address is not current, applicant cannot use Renewal FAFSA on the Web. Applicant is instructed to use paper Renewal FAFSA, EDExpress Renewal FAFSA, or complete an original application using FAFSA on the Web, EDExpress, or a paper FAFSA.

If address has changed, applicant instructed to use paper Renewal FAFSA, EDExpress Renewal FAFSA, or complete an original application using FAFSA on the Web, EDExpress, or a paper FAFSA.

50

PARTICIPANT SIMULATIONS
HOW TO USE ED SOFTWARE IN THE TITLE IV APPLICATION PROCESS

✦ To help you become more acquainted with how to use ED software in the application process, we have developed simulations for you to complete.

✦ Before you begin, let's review the instructions for completing the simulations used in this training. The participant simulations consist of one or more short exercises that illustrate how to use ED's software. Each exercise contains pop-up text boxes that will guide you through the steps of the exercise. As you work through the steps, you must:

1. Perform the activity described in the pop-up text window; or

2. Click on the advance arrow (➔) at the top of the pop-up text window.

✦ If you click on the advance arrow, the computer will complete the activity for you. If you want to return to a previous step, click on the reverse arrow (←) at the top of the pop-up text window.

✦ Each simulation is subdivided into topics. You can go to a particular topic by clicking on the topic button at the top of the pop-up text window and making a selection.

✦ After completing the simulations, you exit by clicking on the exit button at the top of the pop-up text window.

✦ These simulations will take approximately 80 minutes to complete. If you have any questions while working through these simulations, you should ask for assistance.

51

Notes

EDExpress
Application Processing

- ✦ Checks application for data entry errors

- ✦ Calculates Estimated Family Contribution

- ✦ Prints copy of application record
January 16, 1998   3-4

FAFSA Express

- ✦ Access software via ED's web site:

  www.ed.gov/offices/OPE/express.html

January 16, 1998   3-5

52

ADVANTAGES OF ELECTRONIC APPLICATION PROCESSING METHODS

FAFSA on the Web

Student Advantages	Notes
✦ Student enters own data using any computer (PC or Mac). ✦ Student able to save FAFSA data if unable to complete application during the initial entry. ✦ Program encrypted to ensure privacy.	✦ Needs PC or Mac with Internet access. ✦ Only accessible through domestic Netscape or MS Internet browsers. ✦ Needs printer to print signature page; if no signature page is printed, CPS will print and mail out a reject SAR to student within 6 days. ✦ If applicant prints signature page, CPS will hold the record and wait for the signature page for a maximum of 14 calendar days. Once the page is received, the CPS will process, print, and mail out a SAR to student within 6 days.

School Advantage	Notes
✦ School not required to maintain application records.	✦ Needs PC or Mac with Internet access.

Renewal FAFSA on the Web

Student Advantages	Notes
✦ Student only updates data element items that have changed. ✦ Independent students do not need to submit a signature page. CPS will process, print, and mail out a SAR to student within 6 days.	✦ Applicants cannot use if they have moved from prior application address. ✦ Students must first request Electronic Access Code (EAC) before completing Renewal Application. ✦ ED responds to EAC request by mail within 8–10 days. ✦ Dependent students need to submit a parent signature page. If dependent applicant prints signature page, CPS will hold the record and wait for the signature page for a maximum of 14 calendar days. Once the page is received, the CPS will process, print, and mail out a SAR to student within 6 days.

School Advantage	Notes
(Same as FAFSA on the Web)	(Same as FAFSA on the Web)

53

BEST COPY AVAILABLE

ADVANTAGES OF ELECTRONIC APPLICATION PROCESSING METHODS (CONT'D)

EDExpress for Windows

Student Advantages	Notes
✦ Student can request copy of the entry record. ✦ Estimated EFC is calculated at the time of initial application entry.	✦ Student must enter data at school.

School Advantages	Notes
✦ School sets reject, dependency, and assumption override codes. ✦ Software calculates estimated EFC and taxes paid. ✦ School can control data entry process. ✦ Processed results returned within 72 hours.	✦ Needs office space and equipment. ✦ Staff needed for data entry of application information. ✦ Student must provide all FAFSA information before data are entered. ✦ School must maintain application record including original FAFSA signature.

FAFSA Express

Student Advantages	Notes
✦ Application layout is the same as the paper FAFSA. ✦ Student enters own data using any IBM-compatible PC with a modem. ✦ Software can be downloaded from the ED World Wide Web page. ✦ Student may save data onto diskette.	✦ Data cannot be saved onto computer's hard drive. ✦ Needs printer to print signature page; if no signature page is printed, CPS will print and mail out a reject SAR to student within 6 days. ✦ If applicant prints signature page, CPS will hold the record and wait for the signature page for a maximum of 14 calendar days. Once the page is received, the CPS will process, print, and mail out a SAR to student within 6 days.

School Advantage	Notes
✦ School is not required to maintain application records.	✦ Needs printer to print signature page.

Notes

Receiving ISIRs

✦ Beginning with the 1998-99 processing year, schools are required to receive ISIRs through:

- Title IV WAN

- Magnetic tape or

- Cartridge

January 16, 1998   3-7

MESSAGE CLASSES FOR ISIRS

Code	Description
SARA990P	Automatic Institutional Student Information Records
EAPS990P	Electronic Initial Applications
REAP990P	Renewal Applications
SARR990P	Corrections
CUPS990P	Duplicate Requests

58

Notes

Adding School to CPS Record

◆ Add your school code no later than 30 days after receiving SAR

◆ School or student can update school code on SAR and ISIR
January 16, 1998   3-8

Making an Electronic Correction or Update

◆ Enter changes on EDExpress screen

◆ Transmit them to CPS via Title IV WAN

◆ Receive an ISIR with new processed data

January 16, 1998   3-9

Borrower Tracking

✦ Obtain complete history of borrower's Title IV loans; and

✦ Identify possible sources of correct address data

January 16, 1998   4-16

Postscreening

✦ Effective 1998-99

✦ Notifies schools of certain eligibility changes after prescreening

✦ Revised SARs/ISIRs automatically generated when eligibility changes

January 16, 1998   4-17

76

Notes

NSLDS Change Indicator

✦ If information changed since last CPS transaction, "#" will print *in front* of the status field for:

- Overpayments
- Defaulted loans
- Discharged loans
- Loan satisfactory repayment arrangements
- Active bankruptcy

January 16, 1998   4-18

EDExpress Packaging Module

✦ Establishes funds, account balances, and monitor expenditures for each aid source

✦ Establishes award methodologies

✦ Creates fund reports

January 16, 1998   4-19

77

Notes

EDExpress Packaging Module (cont'd)

◆ Establishes student's financial record

◆ Tracks Satisfactory Academic Progress

◆ Creates document tracking letters

◆ Prints award letters

January 16, 1998   4-20

Packaging

| FINANCIAL AID OPERATIONS ASSESSMENT AND IMPLEMENTATION CHECKLIST | | | | | | |

◆ Package financial aid awards

January 16, 1998   4-21

PARTICIPANT SIMULATION
PACKAGING

✦ To help you become more acquainted with packaging, we have developed a simulation exercise for you to complete.

✦ Before you begin, let's review the instructions for completing the simulation used in this training. The participant simulation exercises illustrate how to use ED's software. Each exercise contains pop-up text boxes that will guide you through the steps of the exercise. As you work through the steps, you must:

1. Perform the activity described in the pop-up text window; or

2. Click on the advance arrow (➜) at the top of the pop-up text window.

✦ If you click on the advance arrow, the computer will complete the activity for you. If you want to return to a previous step, click on the reverse arrow (←) at the top of the pop-up text window.

✦ Each simulation is subdivided into topics. You can go to a particular topic by clicking on the topic button at the top of the pop-up text window and making a selection.

✦ After completing the simulation, you exit by clicking on the exit button at the top of the pop-up text window.

✦ This simulation will take approximately 20 minutes to complete. If you have any questions while working through this simulation, you should ask for assistance.

MANAGING YOUR TITLE IV
FUNDS ELECTRONICALLY

OVERVIEW

A. Notification Requirements

B. Loan Counseling Requirements

   1. Entrance and Exit Interviews

   2. What Does "Reasonably Available" Mean?

C. Requesting and Drawing Down Funds

   1. Education Central Automated Processing System (EDCAPS)

   2. Grant Administration and Payment System (GAPS)

   3. Information and Training on EDCAPS/GAPS

D. Disbursing Financial Aid Electronically

   1. Electronic Disbursement of FFEL Funds to School

   2. Electronic Delivery of Funds

### SOURCES FOR FURTHER STUDY

✦ Federal Regulations 34 CFR, Parts 668, Subparts B and K, 673, 674, 676, 682, 690, and 685

✦ Dear Colleague Letter ANN-97-4 (Changes in Title IV numbers used by participating institutions)

✦ Federal Student Financial Aid Handbook, Chapter 3

✦ The Blue Book, July 1995

✦ Instructor Guide for Fiscal Officer Training, August 1997

✦ GAPS Regional Training material

81

Notes

Cash Management Regulations

◆ Meet Title IV student and borrower notification requirements

◆ Meet loan counseling requirements

◆ Meet certain requirements for requesting, drawing down, maintaining, and disbursing Title IV funds
January 16, 1998   5-1

Notification Requirements

◆ Notify student *and his or her parent* of amount of Title IV funds to be received and how and when funds will be paid

◆ Notify student which funds are from subsidized loans and which are from unsubsidized loans

◆ Notify student when school credits student's account with Perkins Loan, Direct Loan, or FFEL Loan funds

January 16, 1998   5-2

82

Notes

Notification

FINANCIAL AID OPERATIONS ASSESSMENT AND IMPLEMENTATION CHECKLIST

◆ Notify students of amount of Title IV funds awarded, how and when those funds will be disbursed, and which FFEL or Direct Loan funds are subsidized and which are unsubsidized

◆ Notify Federal Perkins, Direct Loan, and FFEL borrowers of date and amount to be disbursed, and borrower's right to cancel all or portion of the loan

January 16, 1998   5-3

Conduct Loan Counseling

FINANCIAL AID OPERATIONS ASSESSMENT AND IMPLEMENTATION CHECKLIST

Conduct loan counseling:

◆ Entrance interview

◆ Exit interview

January 16, 1998   5-4

83

Loan Counseling Requirements

✦ Initial loan counseling for first-time Stafford borrowers can be conducted:

• Over the Internet

• Through the use of software programs

January 16, 1998   5-5

Loan Counseling Requirements (cont'd)

✦ Counseling may be provided by computer-based technology if you:

• Provide borrower with information that meets loan counseling requirements

• Ensure that borrower cannot circumvent or leave before counseling is complete

• Have financial aid counselor or another Title IV knowledgeable individual reasonably available to answer questions

• Document that borrower completed counseling before delivery of loan funds

January 16, 1998   5-6

84

Notes

Loan Counseling Requirements (cont'd)

✦ Counselor is "reasonably available" by providing borrower with:

• Telephone number where:

–Counselor can be reached, or

–Borrower can leave message

• E-mail address where borrower can send questions electronically

January 16, 1998   5-7

EDCAPS
Education Central Automated Processing System

85
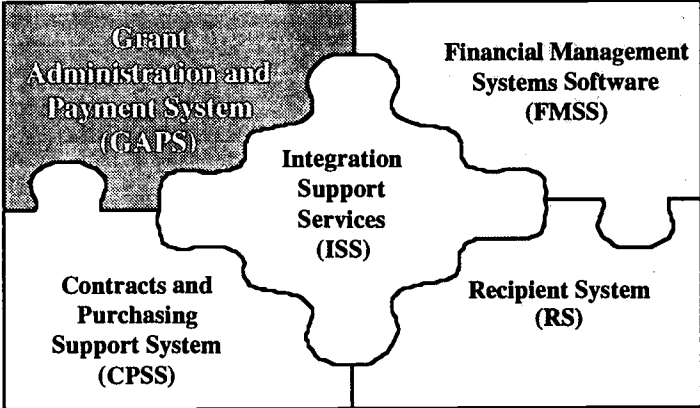

Notes

Requesting Funds

✦ New drawdown procedures affect:

- Federal Pell Grants

- Direct Loans

- FSEOG

- Federal Perkins Loans

- FWS

January 16, 1998   5-9

Requesting and Drawing Down Funds

FINANCIAL AID OPERATIONS ASSESSMENT AND IMPLEMENTATION CHECKLIST				
Function	How is function performed (manually, by PC and/or mainframe computer)?	Automated/ upgrade process? (if yes, list platform and software)	Who performs function (school office, servicer, student)?	Priority and deadline for automating/ upgrading process

Request and draw down:

✦ Campus-based funds **NEW**

✦ Federal Pell Grant funds

✦ Direct Loan funds

January 16, 1998   5-10

86

Notes

EDCAPS/GAPS

- ◆ Access to more timely and accurate information
- ◆ Ability to request funds on-line
- ◆ Flexibility to modify payment requests and reallocate drawdown amounts between awards
- ◆ Immediate updates and notification of award changes
- ◆ Use of the Internet
- ◆ Simplified way to report

January 16, 1998   5-11

Payment Requests Menu
January 16, 1998   5-12

87

Notes

EDCAPS/GAPS
School Adjustment Options

✦ Making another payment request if school did not draw sufficient funds

✦ Modifying next payment request if school drew down too much and plans to make another drawdown payment request within 3 business days

✦ Returning funds to ED if school cannot use funds or move them for use under another Title IV program

January 16, 1998   5-13

EDCAPS/GAPS

✦ You can make adjustments if:

• Funds already have been deposited to your account and

• Net amount is zero

January 16, 1996   5-14

88

Notes

For Additional Information on EDCAPS/GAPS

✦ Contact account representative

✦ Call Financial Payment Group at (202) 401-1237

✦ E-mail: GAPS_Payments@ed.gov

✦ Access web page:
www.ed.gov/offices/OCFO/

January 16, 1998   5-15

Disbursing Student Aid Funds

| FINANCIAL AID OPERATIONS ASSESSMENT AND IMPLEMENTATION CHECKLIST | | | | |

Disburse student aid funds:

✦ To student's account at the school

✦ To student or parent borrower's bank account

January 16, 1998   5-16

89

Notes

Disbursing Financial Aid Electronically

✦ EFT roster must identify:

• Each borrower by name and Social Security number

• Loan amount for each borrower

• Student by name and Social Security number if a PLUS

January 16, 1998   5-17

Electronic Delivery of Funds

✦ Credit student's account at school

✦ Transmit funds directly to student or parent borrower-designated bank account, with student's or parent's written authorization

January 16, 1998   5-18

90

PARTICIPANT SIMULATIONS
HOW TO USE EDCONNECT FOR REQUESTING, RECEIVING, UPDATING, AND TRANSMITTING SSCR DATA

◆ To help you become more acquainted with how to use EDconnect for requesting, receiving, updating, and transmitting SSCR data, we have developed simulation exercises for you to complete.

◆ Before you begin, let's review the instructions for completing the simulations used in this training. Each exercise contains pop-up text boxes that will guide you through the steps of the exercise. As you work through the steps, you must:

1. Perform the activity described in the pop-up text window; or

2. Click on the advance arrow (➜) at the top of the pop-up text window.

◆ If you click on the advance arrow, the computer will complete the activity for you. If you want to return to a previous step, click on the reverse arrow (←) at the top of the pop-up text window.

◆ Each simulation is subdivided into topics. You can go to a particular topic by clicking on the topic button at the top of the pop-up text window and making a selection.

◆ After completing the simulations, you exit by clicking on the exit button at the top of the pop-up text window.

◆ These simulations will take approximately 10 minutes to complete. If you have any questions while working through these simulations, you should ask for assistance.

DIRECT LOAN RECONCILIATION MODIFICATIONS FOR 1998-99

✦ Loan Origination Center (LOC) initiates monthly reconciliation process by transmitting to schools Direct Loan School Account Statement (DLSAS).

DLSAS Component	Description	Comments
Cash Summary	✦ Summary of: • All disbursements, adjustments, and cancellations for booked loans acknowledged by LOC during the month • All drawdowns received by school as reported to LOC by EDPMS • Excess cash returned by school and received by LOC • All accepted loan transactions for loans not yet booked at the end of the month	✦ Period covered is academic year: • Beginning cash balance on first month's summary = $0 • Beginning cash balance for subsequent monthly summaries = ending cash balance from previous month
Cash Detail	✦ Detail of: • All cash drawdowns • Excess cash returned	
Loan Detail	✦ Detail of: • Booked disbursements, adjustments, and cancellations LOC acknowledged that month, sorted by Loan ID • Accepted but unbooked disbursements, adjustments, and cancellations for AY to date, grouped by ID	✦ Optional DLSAS reconciliation component: • Schools not wanting this component, must contact their LOC Customer Service Representative • Regardless of whether school completes this component, school can request loan detail for any month

✦ Measurement Tool Reports (which include Booked Status Report and Cash Summary List) help a school identify:

• Loans on school's system that have not been booked

• Whether LOC needs promissory note and/or disbursement record to book the loan

✦ The Blue Book, July 1995

✦ 1997-98 EDExpress Application Processing

✦ Direct Loan Training Guide, April 1997

116

Notes

Data Management

✦ Process and manage data

✦ Maintain database integrity

January 16, 1998   7-1

Electronic Recordkeeping Requirements

✦ Except for ISIRs, must be able to retrieve all records in hard copy or other ED-acceptable formats

✦ Must maintain ISIR data in the format in which the data were received

January 16, 1998   7-2

117

Notes

Maintaining ISIR Data

◆ During award year, maintain ISIR data on diskette or magneetic tape or cartridge

◆ After award year, archive ISIR data to diskette or other computer format

January 16, 1998   7-3

Batching and Tracking Data

◆ How and where data are stored

◆ How to select data for transmission

◆ How to identify each data batch sent or retrieved through Title IV WAN

January 16, 1998   7-4

118

Notes

Data Management

◆ Tracking Data

- Identify data batches
- Locate data files
- Develop a production schedule
- Implement a data processing log
- Import data acknowledgments
- Troubleshoot

January 16, 1998   7-5

Data Management (cont'd)

◆ Software Tools and Utilities

- EDExpress Batch Activity Database

- Title IV WAN On-Line Query

- EDconnect Mailbox Query

- EDconnect Activity Log

- EDconnect Transmission Queue

January 16, 1998   7-6

119

Notes

Batch Activity Database

✦ Batch ID number

✦ Number of records in batch

✦ User ID of individual who created batch

✦ Time and date batch was created

✦ Import or export file name

January 16, 1998   7-7

Title IV WAN On-Line Query

✦ On-Line Query

  • Review current contents of your electronic mailbox

  • Track batches sent in and out of your Title IV WAN mailbox including size of files and date batch was sent or retrieved

January 16, 1998   7-8

120

Notes

EDconnect

✦ Activity Log
  • Send Records
  • Receive Records
  • Request Records
  • Password Change Records
  • Transmit Records
  • Error Records

January 16, 1998   7-9

121

SAMPLE PRODUCTION SCHEDULE

Monday	Tuesday	Wednesday	Thursday	Friday
Enter/send initial applications	Enter/send corrections	Enter/send Pell Payment data	Enter/send corrections	Enter/send initial applications
	Retrieve automatic ISIRs		Retrieve automatic ISIRs	
Retrieve processed Pell data (Wednesday entry)	Retrieve processed correction ISIRs (Thursday entry)	Retrieve processed application ISIRs (Friday entry)	Retrieve processed application ISIRs (Monday entry)	Retrieve processed correction ISIRs (Tuesday entry)
Run backup	Run backup	Run backup	Run backup	Run backup
				Run database maintenance
				Archive data

For this production schedule:

✦ Automatic ISIRs are retrieved twice a week.

✦ Processed application ISIRs are retrieved 3 days after the initial applications are entered.

✦ Processed correction ISIRs are retrieved 3 days after corrections are entered.

✦ Processed Pell data are retrieved 3 days after the Pell Payment data are sent.

123

APPLICATION PROCESSING TROUBLESHOOTING TIPS

Data Entry

✦ What is the status flag of the student's record?
N = Not Ready, R = Ready to Send, B = Batched

Export

✦ Is there a batch ID in the Batch Activity Database?
Look at the date.

✦ Was a file created and what is the message class?
Review the directory where export files are stored.

Transmit

✦ Was the batch transmitted to the network?
Check the Activity Log or the Transmission Queue in EDconnect.

Data Process

✦ Has the batch been processed by CPS?
Use NET*CONNECT to view your network mailbox.

Receive

✦ Was the file received from Title IV WAN?
Check the Activity Log in EDconnect.

Import

✦ Were the records imported into EDExpress?
Check the Batch Activity Database for the batch ID.

Management

✦ What records were imported?
Print a list using batch ID as the selection criterion.

PARTICIPANT SIMULATION
HOW TO REPAIR, COMPACT, AND VERIFY A DATABASE
AND HOW TO ACCESS AND ARCHIVE THE EDCONNECT ACTIVITY LOG

✦ To help you become more acquainted with how to repair, compact, and verify a database and how to access and archive the EDconnect Activity Log, we have developed a simulation for you to complete.

✦ Before you begin, let's review the instructions for completing the simulation used in this training. The participant simulation consists of one or more short exercises that illustrate how to use ED's software. Each exercise contains pop-up text boxes that will guide you through the steps of the exercise. As you work through the steps, you must:

1. Perform the activity described in the pop-up text window; or

2. Click on the advance arrow (➔) at the top of the pop-up text window.

✦ If you click on the advance arrow, the computer will complete the activity for you. If you want to return to a previous step, click on the reverse arrow (←) at the top of the pop-up text window.

✦ Each simulation is subdivided into topics. You can go to a particular topic by clicking on the topic button at the top of the pop-up text window and making a selection.

✦ After completing the simulation, you exit by clicking on the exit button at the top of the pop-up text window.

✦ The simulation will take approximately 15 minutes to complete. If you have any questions while working through the simulation, you should ask for assistance.

GLOSSARY

This glossary provides you with a brief explanation of previously identified terms which have been used throughout the training materials. Other terms listed in this glossary have been included to provide you with additional clarification and a broader understanding of electronic terminology.

Acknowledgment record — An electronic confirmation that a particular process or function has been completed.

Activity Log — Utility in EDconnect that lists requests to send and receive data from the network.

Adobe Acrobat Reader — Software used to read PDF files.

Algorithm — A step-by-step procedure for solving a problem.

Archive — Storage of files for historical records.

ASCII — (American Standard Code for Information Interchange) The most common format for text files in computers and on the Internet. In an ASCII file, each alphabetic, numeric, or special character is represented with a 7-bit binary number (a string of seven 0s or 1s).

Batch (record, file, data) — A group of records assembled into one file for transmitting processing. Each batch contains a header record, detail record, and trailer record.

Batch Activity Database — Utility in EDExpress that contains information about data batches that have been imported and exported.

Batch ID — A unique number that identifies a batch of documents. For example: the Application Processing batch identifier consists of the cycle year (9 for 98-99), the school code, the date the batch was created and the time the batch was created. The Batch ID #A900100919980101080039 would represent document for the cycle year 9 (98-99), school ID 001009, exported on January 1, 1998 (19980101) at 8:00:39 (080039).

Bit — The fundamental unit of computer information. Computers do all their work by manipulating a series of high and low electrical currents. A high current is represented by the digit 1 and a low current by the digit 0. These 1s and 0s or bits are used to represent everything that goes on inside your computer.

bps — Abbreviation for bits-per-second. A measurement of how fast data is moved from one place to another.

Browser — Software used to display and interact with various kinds of Internet resources. There are two kinds of browsers: those that display only text and those that support graphics.

CD-ROM — (Compact Discs-Read Only Memory) An optical storage technology that uses compact discs for read-only storage. CD-ROMS use the same technology as a stereo CD player.

Contracts and Purchasing Support System (CPSS) — The EDCAPS system that deals with pre-award, post-award, and purchasing processes.

CPS — (Central Processing System) The CPS is a Title IV automated system that performs data matches, calculates the applicant's expected family contribution (EFC), and returns the processed applicant data within 72 hours for printing the ISIR.

Database — Collection of data organized for rapid search and retrieval.

Data Release Number (DRN) — A personal identification number reported on a SAR that schools participating in EDE can use to request a student's ISIR if the school is not listed on the student's application.

Destination Point — A physical location that receives and transmits Title IV data through Title IV WAN. A destination point can be an office within a postsecondary institution, a servicer for an institution, or a state agency. A destination point can represent multiple institutions, or a school can have multiple destination points.

DOS — (Disk Operating System) The system installed on your computer that assembles and executes programs.

Drawdown — Ordering funds through GAPS.

DUNS Number — Data Universal Numbering System (DUNS) identifier assigned by Dun and Bradstreet that will be used as the identifying number to access EDCAPS/GAPS.

EBCDIC — (Extended Binary Code Decimal Interchange Code) This is a character code set commonly used by IBM mainframe systems.

EDconnect — Software used to send and receive batched data through Title IV WAN.

EDExpress — Software that allows users to enter, edit, manage, and report Title IV student application data. It also lets the user package awards, originate direct loans, print Direct Loan Program promissory notes, and collect and format FISAP data for transmission to ED.

EDPMS 272 — An electronic or paper financial report that schools use to report on cash disbursements. Used to determine if federal funds are being disbursed in accordance with cash management requirements. EDPMS 272 is being replaced by the Quarterly Confirmation Statement and Award Certification Statement, which is part of EDCAPS/GAPS.

Education Central Automated Processing System (EDCAPS) — A new financial management system that integrates ED's financial systems, through which the new financial and reporting procedures are implemented. EDCAPS replaces EDPMS.

Education Payment Management System (EDPMS) — The central repository for payment transactions for schools receiving campus-based, Federal Pell Grant, and Direct Loan funds from ED. EDPMS is being replaced by EDCAPS/GAPS.

Electronic Data Interchange (EDI) — A standard format for exchanging data.

Electronic Pell Payment Data (EPPD) record — An electronic record a school uses to report payment data for a Federal Pell Grant recipient to PGRFMS. An EPPD contains disbursement information as well as information regarding the recipient's enrollment status, expected family contribution, and cost of attendance.

Electronic Processed Pell Payment Data (EPPPD) record — An electronic record PGRFMS returns to a school containing information the school submitted on an EPPD and indicating whether the EPPD was accepted or rejected.

Electronic Funds Transfer (EFT) — In the context of Title IV disbursement, the transfer of funds from the lender to the school or from the school to a student's personal bank account.

Encryption — A means of securing data by arranging it in an apparently random sequence of characters.

Entity Identification Number (EIN) — A school identifying number consisting of a nine-digit core Employer Identification Number (EIN) assigned by the IRS and a prefix and suffix assigned by the ED Central Registry System. This number appears on the Federal Pell Statement of Account.

Export — A function in EDExpress which creates a batch of data records that are ready to be transmitted to a data processing service.

Export File Name — Message class name in EDExpress for export file.

Federal Cash Award Certification Statement — EDCAPS/GAPS annual statement reporting award expenditures. It contains award drawdowns for year ending June 30.

Federal Cash Quarterly Confirmation Statement — EDCAPS/GAPS quarterly statement containing award authorization information and drawdown activity for the quarter.

Financial Management Systems Software (FMSS) — The EDCAPS system that provides general ledger and funds management.

BEST COPY AVAILABLE

144

First level verification — Process for editing and formatting Perkins Loan Database Extract Files.

Fiscal Operations Report and Application to Participate (FISAP) — Annual application used by schools to apply for Title IV campus-based funds and to report their use of Title IV campus-based funds.

Function keys — Special keys on the keyboard that have different meanings depending on which program is running. Function keys are normally labeled F1 to F10 or F12 (or F15 on Macintosh).

GB — (Gigabytes) A unit of measurement meaning approximately 1,000 megabytes.

Grant Administration and Payment System (GAPS) — New grant portion of EDCAPS that replaces EDPMS/MEERS. It supports ED's grant planning and award management for discretionary, formula, and fellowship programs and block grants.

HTTP — (HyperText Transport Protocol) The protocol for locating or moving hypertext files in the Internet.

Hypertext — Text that, when chosen by a reader, links to another point in the document or to another document.

Hypertext Markup Language (HTML) — Software language used to format documents for display on the World Wide Web. HTML documents may include text and graphics, formatting, and hypertext links to other information available through the Web.

Import — A function in EDExpress which pulls data records that fit a specific format into the software database.

Integration Support Services (ISS) — The EDCAPS system that contains an integrated data dictionary, system-wide security, interfaces, training, documentation, overall hardware and telecommunications, technical support functions, and services support.

Interface — Equipment or programs designed to communicate information from one system of computing device or programs to another.

Internet Service Provider (ISP) — A company that provides users with access to the Internet. The user or subscriber pays a fee to the ISP to gain entry to the Internet without having to maintain a server.

Loan Origination Center (LOC) — ED contractor responsible for certain Direct Loan functions including receiving loan origination records, promissory notes, and disbursement records to book Direct Loans. The LOC also is responsible for calculating funding needs, requesting funds, and receiving excess cash for some schools. 145

Mailbox Query — Information about data batches that have not been retrieved.

Mainframe computer — A large computer capable of processing large volumes of data and supporting many concurrent users. The CPS is an example of an IBM mainframe computer.

Maximize — The Maximize command enlarges the active window to fill the available space. A view or document window expands to fill the EDconnect window, whereas the EDconnect application window expands to fill the entire screen.

MB — (Megabyte) A unit of information measurement meaning approximately one million bytes. Commonly used to indicate capacity of RAM, of disk storage, and file size.

MEERS (Monthly Electronic Expenditure Report System) — The system through which schools report cash expenditures and resolve problems with ED accounts. MEERS is being replaced by EDCAPS/GAPS.

Memory Management software — Software that can provide sufficient memory to one or more processes in a computer system, particularly when the system does not have enough memory to satisfy multiple processing requirements concurrently. QEMM by Quarterdeck is a memory management software product..

Message Class — A term used to describe a file of grouped records. A specific message class is used to identify the type of data contained in a batch file.

Message Class Manager — List of the message classes that are available to send and receive in EDconnect.

Microsoft Internet Explorer — A World Wide Web browser developed by Microsoft.

MHz — (Megahertz) A unit used to measure the speed of a computer's components. One megahertz is one million cycles per second.

Modem — A device used to transmit and receive data between computers across telephone lines.

MS DOS — The disk operating system produced by Microsoft and used with IBM and IBM compatible personal computers (PCs). Your computer relies on its operating system to assemble and execute programs.

NET*CONNECT — Dial-up software used for directly accessing ED's databases.

Netscape Navigator — A World Wide Web browser developed by Netscape Communications Corporation.

Network — Two or more computers connected together to share resources.

Office of Postsecondary Education Identifier (OPEID) — A randomly assigned school identifier for Department oversight functions.

On-Line Query — Title IV WAN function in NET*CONNECT for accessing information about status of transmissions.

Operating System — The programming responsible for basic hardware resources on a computer such as keyboard, monitor, drives, memory, and CPU time.

OPE Web site — ED's Office of Postsecondary Education's web site. Through this Web site, schools can access ED's Financial Aid for Students, Info for Financial Aid Professionals, News & Highlights, Exploring Other Web sites, and Funding for Institutions web sites.

Payee Identification Number (PIN) — Identification number randomly assigned to school as an identifier to access EDPMS. Will be replaced by the DUNS number.

Pell Grant Recipient and Financial Management Systems (PGRFMS) — A Title IV automated system that supports the operational mission of the Federal Pell Grant Program managed by the Federal Grant Systems Division. Serving the recipients of grants from the Pell Grant Program, PGRFMS contains data on Pell Grant recipients and manages the disbursement and account of Pell Grant funds to institutions.

PIN/Hash code — **(Personal Identification Number)** An assigned Electronic Access Code (EAC). This code is assigned to applicants using Renewal FAFSA on the Web. It is the Personal Identification Number (PIN) which has been converted into an electronic code for security purposes on the Internet.

Platform — A hardware standard, such as IBM PC-compatible or Macintosh. Devices or programs created for one platform cannot run on others without additional software or hardware.

Portable Document File (PDF) — A type of graphic file that preserves the original typeface and layout of documents.

Protocols — Rules for governing the format of messages exchanged between computers.

Recipient System (RS) — The central recipient database for EDCAPS.

RAM — (Random Access Memory) The working memory of the computer into which application programs are loaded and executed. All data in RAM is lost when you turn your computer off.

ROM — (Read Only Memory) Memory that can be read but not written to. ROM contains the basic computer functions which cannot be changed.

147

SCSI (Small Computer Systems) — (Pronounced "scuzzy") A high-speed interface that can connect to computer devices such as hard drives, CD-ROM drives, floppy drives, tape drives, scanners, and printers. SCSI can connect up to seven devices; each one is given an identification number from 0 to 7, which is set with a manual switch. Newer versions of SCSI can connect up to 15 devices.

Second level delta processing — Process for comparing the Perkins Loan Current Submittal File with the Previous Submittal File to select only new loan records or previously submitted loan records with data element changes.

Server — A computer that can distribute services or resources. A server is often a piece of hardware or software that provides access to information requested from it. A server is also called a host computer.

Smartfields — Transmission Queue field that automatically loads appropriate data into other fields when you are manually adding records to the TQ. For example, supplying the Message Class in a receive request causes all the necessary fields to automatically fill.

SSCR Roster File — Electronic file of Student Status Confirmation Reports sent from NSLDS to the school.

SSCR Submittal File — Electronic file of SSCRs sent from the school to NSLDS.

Store-and-forward data transmission — Function of EDconnect software that allows the exchange of data between schools and ED databases.

Student Status Confirmation Report (SSCR) — Report on which a school is required to confirm and report enrollment status and enrollment status effective date for students receiving federal loans.

Submittal Files — The Submittal File, Current Submittal File, and Rewritten Submittal File are different stages of the same Perkins Loan records file. When the Database Extract File is formatted, edited, and error-free, it becomes a Current Submittal File. The Current Submittal File becomes a Submittal File (ready for transmission to NSLDS) after it is compared to the Previous Submittal File to eliminate duplicate records submitted in the previous cycle. The Rewritten Submittal File is a duplicate of the Submittal File retained by the school to use for comparison in the next submission cycle. The Rewritten Submittal File in the current cycle becomes the Previous Submittal File in the subsequent cycle.

SVGA Monitor — (Super Video Graphics Array) A video picture standard for viewing images on an electronic screen.

Systems backup — Copying databases and other electronic documents, software programs, and database connections to tape decks, CD-ROMs, and/or diskettes.

Title IV WAN — (Title IV Wide Area Network) ED network that provides an electronic link between schools and ED's databases.

Transmission Queue — Utility in EDconnect that lists the pending requests to send and receive data.

Uniform Resource Locator (URL) — An address pointing to certain sites on the World Wide Web.

UNIX — A computer operating system that is designed for use by many people at the same time. It is the most common operating system for servers on the Internet.

User-Defined Query — Utility in EDExpress that allows the user to select a particular set of records by constructing a logical statement or defining a set of criteria that describes the population to be selected.

WAN — (Wide Area Network) Any internet or network that covers an area larger than a single building or campus.

Web browser — A program used to access and view information on the World Wide Web.

Web page — Any HTML file available on the World Wide Web and accessed through a unique URL.

Windows 95 — A version of Microsoft Windows released in 1995. It is a complete operating system that runs on top of MS-DOS. It provides 32-bit application support, pre-emptive multi-tasking, threading, and built-in networking.

Window NT 4 — (Windows New Technology, Version 4) A version of Microsoft Windows released in 1997. A 32-bit operating system which requires a pentium processor or equivalent, at least 16 MB of RAM, and at least 110 MB of free disk space.

World Wide Web — A hypermedia based system for accessing Internet resources. It is commonly referred to as the Web or WWW; it lets users download files, listen to sound, view video files, and jump to other documents or Internet sites by means of hypertext.

Video card — The expansion board that generates the signal required by a monitor to display text or graphics.

149

TABLE OF MEASUREMENTS UNITS FOR COMPUTERIZED DATA

Bit: The smallest unit of computerized data

Bytes: 8 bits

Kilobyte: 1.024 bytes

Megabyte: 1,000 kilobytes or approximately one million bytes

Gigabyte: 1,000 megabytes or approximately one million kilobytes

Terabyte: 1,000 gigabytes or approximately one million megabytes

150
