

## Education Savings Accounts

### Student eligibility requirements: Primary requirements

March 2021

Below is the most common eligibility requirement for education savings account programs and the number of states that have them.

- **Students with a disability: Four** states. Generally, these programs require eligible students to have an identified disability and an Individualized Education Program. **One** state's criteria for eligibility includes students with an identified disability, along with other factors, such as residing in a low-performing school district or being a child of an active duty member of the armed forces.

Note: Some states require students to attend a public school prior to participating in a private school choice program. Please refer to the "Student eligibility requirement: Previous public school attendance" data point to see which states and programs have such requirements for the given private school choice program.
