IDENTIFIERS *California. (San Benito County)

ABSTRACT

A sparsely populated, agricultural area, San Benito County (California) provides library services in conjunction with the Hollister city library and in cooperation with the San Juan Bautista city library. Financing comes from the county general fund. There are no written goals or policy statements and no professionally trained librarians. As indicated by an opinion survey, citizens appreciate the existing library service and are aware of its limitations. The presence of these limitations is verified in a comparison of the county's library services with others of similar size and wealth and with commonly accepted library standards. Some possibilities for improvement are: the formation of an advisory board to aid the library and advise the county supervisors; a specific library tax; a materials selection policy and some collection weeding; expanded services; and hiring of trained librarians. The recommended plan calls for contracting for bookmobile and administrative services from Santa Clara County, joining the South Bay Cooperative Library System, bringing the San Bautista library into the county system, hiring trained staff, and expanding the materials budget. Survey instruments, data tables, and other working papers for the study are appended. (LS)

ACKNOWLEDGEMENTS

Throughout the course of this survey, Kathryn Dooling, San Benito County Library Director and her staff have been extremely helpful and cooperative, providing information and sharing their knowledge of the library and the community which it serves. The Advisory Committee members have continuously added information and reacted to all aspects of the survey as well as invested their time and energy into fact finding about public library service.

A significant amount of assistance and support has also come from the following librarians: Barbara Campbell, Santa Clara County Librarian, June Hymas, Gilroy Librarian, and various staff members from the Santa Clara County Library; Charles Atkins, Santa Cruz County Librarian, and various staff members from the Santa Cruz County Library; Stephen Klein, Lake County Library Director; and Elizabeth Hallum, Lassen County Librarian.

Special acknowledgement is given to Cy Silver, California State Library Chief of Library Development Services and Dr. Cortus Koehler, California State University at Sacramento Professor of Public Administration for their advice and encouragement; and to Pat Link, Library Development Services clerk-typist for her patience, speed and endurance in working with the survey correspondence, tabulation and revisions.

I. Introduction

Request for and scope of survey

In March of 1975 the San Benito County Board of Supervisors requested California State Librarian Ethel S. Crockett to analyze and evaluate existing library service in San Benito County.¹ Mrs. Crockett accepted the request, and Gail McGovern, a consultant with the Library Development Services Bureau of the State Library, was designated to perform the survey.

This survey is intended to provide the Board of Supervisors and the library staff with recommendations which can be used as guidelines for planning the future library program for the residents of San Benito County.

Methodology

The San Benito County Board of Supervisors appointed a survey advisory committee in April, 1975² and with its concurrence, a work plan was adopted and implemented by the State Library consultant.³

The following techniques were utilized to obtain data and develop recommendations:

- 1 see Appendix A
- 2 see Appendix B
- 3 see Appendix C

1. Written and verbal communication with advisory committee; library staff and selected county residents. This provided the consultant with:
 - a) valuable insight concerning the library and the community.
 - b) input for, and reaction to, design of data collection instruments and other research techniques.
 - c) regular review of survey progress.
 - d) regular discussion concerning future activities.
2. A literature search identified items pertinent to the survey, including information about the library, the community, and recent research and standards. These items are listed in Appendix D.
3. An information needs questionnaire printed in English and Spanish. This was mailed to all households in the county and a separate set given to high school students. The questionnaire provided opportunity for added citizen input into the planning process and increased public awareness of the library program. The questionnaire responses were used in developing the recommendations of this survey. Detailed results of the tabulated questionnaires are presented in Appendix G.
4. A comparison of the San Benito County library with other libraries and with commonly accepted library standards. This comparison was done by selecting indicators of the ability of the library to respond to the needs of its users. Data about these indicators was gathered from San Benito County Library and from a comparison group of libraries from similar areas in California.

II. Summary of findings and recommendations.

San Benito County residents have recognized the need for and value of library service for over fifty years. San Benito County has a well cared for library and a dedicated library director and staff.

A citizen opinion survey was conducted in San Benito County, which showed that the residents appreciate the existing service, but more importantly, are aware of the limitations of the present level of service and desire a more responsive service level. Evidence of the limitations of the present service level was also found by comparing key indicators of ability to provide library service in San Benito County and comparison jurisdictions of similar size and wealth. A comparison of the service level of the San Benito County Library with commonly accepted service standards reinforced these findings.

San Benito County must decide if it wishes to maintain the present level of service which is not as responsive to the needs and interests of its residents as it both should and could be. Or if it wishes to provide the needed and desirable level, building on the foundation of the existing program.

Two feasible alternatives for improved local library service are presented. The recommended one, Plan A, is based on a contractual agreement with Santa Clara County for administrative and bookmobile services. The other, more costly, alternative proposes the hiring of a certified Librarian for San Benito County and the County's operation of its own bookmobile service.

In any case, San Benito County must have a professional librarian to administer the library, whose initial task would be to design a plan to implement whichever of the two alternatives is chosen. A separate tax rate should be set for the San Benito County Library to support the desired improved level of service.

No library on its own can provide everything. Only through gaining access to resources of other libraries - both materials and expertise - can the San Benito County Library offer the widest range of services to its residents. For over a decade California public libraries have demonstrated the practicality of cooperative library systems. Libraries who are members of cooperative systems share their services and materials to enrich the resources available to their users. For those reasons, it is recommended that San Benito County join the neighboring South Bay Cooperative Library System.

A brief comment concerning San Juan Bautista; it is obviously too small a jurisdiction to provide adequate library service on its own. It should consolidate its library service program with San Benito County. In addition, San Juan Bautista Library too should join the South Bay Cooperative Library System.

San Benito County Library would benefit from both a formally appointed County Library advisory group and a Friends of the Library organization. The former would provide knowledgeable, ongoing citizen input into the library decision-making process, and the latter would provide awareness and understanding of the library throughout the overall community.

It is recognized that adoption and implementation of the

recommendations in this report will require a significant increase in financial support for library service. Although in comparison with the present support level, this increase may seem large, the resulting support level will be comparable to that of similar jurisdictions. In fact, the recommended increase would amount to less than the cost of buying one book per citizen each year.

This report provides the basis for planning and deciding the future of public library service for San Benito County. Although the California State Library stands ready to provide additional technical assistance and encouragement, real accomplishments can come only with the commitment, support and involvement of the citizens of San Benito County.

Location

San Benito County is located in California's central region;¹ it is approximately 100 miles south of San Francisco, 300 miles north of Los Angeles, and 25 miles inland from Monterey Bay. The county is bounded on the north by Santa Clara and Santa Cruz Counties, on the east by Fresno and Merced Counties and on the west and south by Monterey County.

Geographic Characteristics

The county is about 1,396 square miles in area, approximately 70 miles long and 20 miles wide. It is sparsely populated with a 1975 population of 19,600. Most of the population is located in the Northwestern part of the county around the city of Hollister, which is the county seat and has a population of 8,575. The city of San Juan Bautista is located approximately 8 miles west of Hollister and has a population of 1,200. These are the only two incorporated areas within the county. San Benito County topography is characterized by broad plains, cultivated rolling hills, rugged mountain peaks, meandering rivers and streams, small valleys and deep canyons. Elevations vary from 135 to 5,250 feet above sea level.

Business and Industry

The major economic activity in the county is agriculture with annual production of fruit, grains, row crops and livestock exceeding \$35 million in value. Of the county's 893,440 acres, 570,000 are devoted to the agricultural industry. Much of the other industry in the county is related to agriculture (e.g., canning, food processing). Employment statistics for 1973 show a total work force of 7,360 with

¹ see map on cover.

3,500 workers in agriculture related jobs. Other major business activities include wholesale-retail trades employing 932, services - 690, government - 907, non-agriculture related manufacturing - 632 and mining - 161.

Local efforts are being directed toward attracting new industries to the county and reducing the dependence on agriculture for employment.

Several tourist and recreational attractions bring visitors to the county. The Mission San Juan Bautista attracts more than 300,000 people annually. Pinnacles National Monument, a 12,818 acre area with camping facilities and Fremont Peak and Hollister Hills State Parks, scenic viewpoints, attract about 170,000 visitors annually.

Transportation

Transportation is automobile oriented in San Benito County due to its rural nature. At present there are no permanent taxis in the county, but San-Trans, a local dial-a-ride bus operation, provides service between Hollister and San Juan Bautista. Greyhound service provides interregional bus transportation to Hollister, San Juan Bautista and Aromas. County residents use air and rail passenger service facilities in nearby counties. The Hollister Airport is at present used only for general aviation purposes and the Southern Pacific Railroad provides railfreight service to Hollister.

In 1970 there were about 640 households (with an average household consisting of 3.34 persons) that had no automobile available for transportation. In general this figure includes people who are unable to drive, have no automobiles or are handicapped.

Population

The 1970 Census shows San Benito County population to be 18,226 with the following breakdown:

under 18	6812	38%			
18-24	1875	10%			
25-44	4036	22%	median age 26.8		
45-64	3623	20%		49%	51%
over 65	1880	10%		male	female
	<hr/>			<hr/>	<hr/>
	18,226			8994	9232

racial: Anglo. 51.4% Sp. 44.9% Black .3% Other 1.5%
 Jap. .6% Chi. .2% Fil. .8% Am. Ind.. .3%

The majority of the population is concentrated in and near the cities of Hollister and San Juan Bautista. In 1970 about 13,000 people were located in the Hollister area and 3,000 in the San Juan Bautista area. About 200 people were located in the north county area and 600 each in the southern and eastern portions of the county.

Employment

San Benito County has historically had a high rate of unemployment. Since the county is a rural agricultural area with seasonal labor, high unemployment occurs during the months of the year when crops are not being harvested on a large scale. During the 1964-69 period the average annual unemployment rate in California was 5.1% while for the same period San Benito County experienced a rate of 11.5%. With the addition of more non-agricultural related employment, the county unemployment rate has been somewhat moderated, but still averages about 9% annually.²

²San Benito, Transportation Plan, 1972, p. 27.

The 1969 median family income in San Benito County, as shown in the 1970 Census, was \$8,940. The 1969 California median family income was \$10,730. About 470 (10.7%) of the families were below the poverty level while about 738 (16.9%) of the families received \$15,000 or more.

Education

There are 10 elementary school districts located in population centers throughout the county and one high school district located in Hollister. There are two private elementary schools in Hollister. The county had a 1973-74 ADA figure of 4,819. San Benito County belongs to a joint community college district; whose campus is located in the city of Gilroy in Santa Clara County.

Of the total population over 25 years old, 9,532 according to the 1970 Census, 5,333 people (56%) has less than a high school education. The remaining 44% had graduated from high school. 7% of the total were college graduates.

Local government

San Benito County, a general law county, was incorporated February 12, 1874. The cities of Hollister and San Juan Bautista, both general law cities, were incorporated March 26, 1874, and May 4, 1896, respectively. The County Board of Supervisors, consisting of five elected district representatives, governs the county. The cities of Hollister and San Juan Bautista are both administered under a Mayor-City Council form of government. The county and two cities formed the San Benito County Council of Governments to jointly guide county growth and development.

IV. Library Service in San Benito County

A. Description of existing service.

Background Information

The San Benito County Library was founded in February 1918. The Hollister and San Juan Bautista libraries, which were founded in 1884 and 1905 respectively affiliated with the newly established county library. In 1960 the Hollister and San Benito County libraries consolidated and moved into the present county library headquarters at 470 Fifth Street in Hollister. Although the San Juan Bautista Library is still affiliated with the county library, it remains a separately funded and administered library operation.

Governance and financial support

The library director is directly responsible to the Board of Supervisors. The library is supported by an allotment of funds from the county general fund; there is no dedicated tax rate for library service.

In FY 1974/75 library expenditures totalled \$42,978, which works out to a per capita expenditure of \$2.36 for library service and an equivalent tax rate of .045. FY 1974/75 library expenditures were \$35,786 for salaries (83.26%), \$6,440 for library materials (14.98%) and the remaining \$752.00 for operating expenses (1.76%)

There are no written library goal or policy statements.

Collection Resources and Services

The library has available for use a total of 47,188 volumes (46,000 titles and 1,188 duplicates), 72 magazine titles, 4 newspaper titles and 383 phonograph records. The County Library staff estimates the borrowers' registration file contains 16,000 names. There is no program for removing inactive names from the file.

Reference, interlibrary loan and reader advisory services are offered to individuals and visiting classes during the 58 hours per week (Mon-Fri 8-5, 7-9, Sat 2-5) the library is open. No specialized services are provided either through special programs or assigned staff to special client groups (e.g. children's, bilingual, etc.)

During FY 1974/75 total circulation of library materials was 56,122, of which 55,810 was print material and 312 phonograph records. Juvenile circulation accounted for 15,239 of the total (27%). The library staff answered 8,289 reference questions at the library and sent none on for interlibrary reference. The library borrowed 22 items on interlibrary loan and lent 40 items to other libraries.

Library personnel

The library employs a staff of five (4 FTE). Position classifications are library director, assistant director, and clerk (levels I & II). No staff member possesses formal professional training in library science.

Physical Facilities

The library is located within walking distance of the central business district, sharing a building with the county superintendent of schools. The building is adjacent to the majority of county offices. The library occupies 8800 square feet and has 7734 linear feet of shelving. There is seating available for 54.

B. Evaluation of existing service, with recommendations

Introduction

San Benito County Library service was compared with that of three other public libraries: Gilroy, Lake County and Lassen County. Those were chosen because of overall similarity to San Benito, in population size and assessed valuation of area served.

Key indicators of service ability were selected for this study, and uniform data relating to those indicators was specially gathered from the four libraries as well as from the FY 1974/75 annual reports submitted to the State Library. Detailed results of this data gathering is shown in Appendix E.

Services of the San Benito County Library were also compared with commonly-accepted standards for library service.¹

San Benito County can also be seen in the perspective of the 39 California public library jurisdictions serving areas with populations between 10,000 and 25,000. Appendix F is preliminary data tabulated from annual reports from 1974/75 submitted to the State Library.

Detailed results of the citizen opinion survey conducted are presented in Appendix G.

¹ see Appendix D.

Governance and community involvement

San Benito County supervisors have shown their interest in library service by requesting this survey, and by many other actions over the years. As with any Board of Supervisors, they have a great many other concerns as well; the Library is but one of them. This circumstance is natural to modern government, and is no different in San Benito County than in any other. It is desirable to find a way to provide the Library with continuous, broad-based advice, to complement the overall policy control which the Board of Supervisors properly exercises with the necessarily limited time it has for library matters.

A formally-appointed advisory group would provide knowledgeable, ongoing citizen advice to the County Library at no added cost to the county. Such a group would allow representation of a diverse number of interests and viewpoints, and allow the Librarian to test ideas and gain community understanding in an efficient manner. And it does so without lessening the ultimate authority of the Board of Supervisors to set policy, approve budgets, and hire staff.

Not only is an advisory group desirable, but also the formation of a Friends of the Library organization. While the advisory group would provide community input into the library decision-making process, the Friends organization would promote increased overall community awareness and understanding of the library. The Friends would foster a favorable climate for overall community support for the library - its program, its resources and meeting its needs. The group could focus on objectives

such as the following: increasing financial support for the library, sponsoring cultural and related programs for the community, stimulating volunteer service for the library, and stimulating increased usage of existing library resources. For specific assistance with the formation, purpose, objectives and activities of a Friends of the Library group, the following source is recommended: American Library Association. Friends of the Library: Organization and Activities, 1962.

Financial Support

The \$42,978 budget in 1974/75 no doubt is close to the overall amount the library can expect from the general fund. This is because departments of county government, in an inflationary time, have to contend for their share of a general fund whose size is limited by the rate ceiling imposed by SB 90. If improvement in library service is to be achieved, without a reduction in the service levels of other needed programs, an alternative to general fund support for library service must be found.

The Board of Supervisors can levy a separate tax rate up to \$.30 for county library service, under Rev. & Tax. Code sec. 2216 and 2263, and Education Code sec. 27263. Rev. & Tax. Code sec. 2216 defines a county library as a special district; Rev. & Tax. Code. sec. 2263 authorizes levying a separate tax for special districts if the district's enabling statute names a separate tax rate; and Education Code sec. 27263 names a separate \$.30 maximum tax rate for county libraries. (However, the County Librarian's salary must still be paid from the general fund (Education Code sec. 27207.)) The implication of all this is, that San Benito County possess a considerable potential for funding improved library service if it should desire to do so.

Collection

One of the library's major responsibilities is the development of its collection. This involves setting policy, planning, management, selection, procurement, repair and withdrawal.

Materials selection is an art, involving knowledge of many factors and professional judgement. It should not proceed by chance or personal interest of individual staff members, but by written objectives and policies. Objectives must deal with the types of materials to be included and not to be included. San Benito County Library does not use these principles.

A plan for collection development including objectives and selection policies must be developed for the San Benito County Library and adopted by the Board of Supervisors.² A careful plan will aid in the wise expenditure of funds. Community input is vital to the establishment of the library's plan; a permanent advisory committee for the San Benito County Library would provide this needed and valuable input to the library director and the Board of Supervisors.

The American Library Association Library Bill of Rights and a procedure for handling complaints should be adopted by the San Benito County Library.³

The implementation of the plan, i.e. selection and withdrawal of materials is the responsibility of the professional librarian. The librarian has the responsibility of choosing materials for values of interest, information and enlightenment of all people in the community. No material should be excluded because of race, nationality, political

² see samples in Appendix H.

³ Ibid.

or religious views of the writer. The library must strive to provide the fullest presentation of all points of view concerning the problems and issues of our time. Materials should be removed from or added to the collection only if done in accord with the selection policy of the library.

As materials selection is continuous so should be weeding the collection of outdated and wornout items. The small library must have a collection that is alive, attractive and usable. There are a variety of reasons for weeding - such obvious ones are lack of space in the library, items in poor condition or outdated. Other reasons are especially important in a small library such as more attractive shelves for the reader (dreary shelves are a discouragement even to the most enthusiastic user) and efficiency for the staff (time is wasted searching for materials when items not used are on the shelves and cards on file in the catalog). A small library must be weeded and pruned so that the weeds will not overrun it.

San Benito County Library should develop standards for weeding to be based on its materials selection policy when established. Replacement of items in poor condition should be considered. Removing little used and obsolete materials need not deny access to them for San Benito County residents. Through membership in a cooperative library system (as discussed in section V) San Benito County Library will be able to provide such materials easily and cost effectively.

As seen in Table VI, the percentage of recent outstanding titles in San Benito's collection is significantly low. Table V - the profile of 24 selected subjects - indicates only 35% of San Benito's holdings were published in the last 16 years.

San Benito should work towards attaining the following materials goals:

- Maintain a well weeded book stock of at least 2 books per capita (60% of which should have been acquired within the last 10 years).
- Add no less than .17 volumes per capita annually.
- Maintain a periodicals collection of at least 100 titles with indexed items retained for 10-15 years and provision for photocopy.
- Maintain a sound recordings collection of at least 2,000 recordings adding at least 250 annually.
- Provide access to at least 1,000 16mm film titles through membership in a film circuit.
- Other forms of materials should be acquired as needed (e.g. slides, filmstrips, closed circuit television, 8mm films)
- Access to larger and more specialized collections through membership in a cooperative library system and network.
- Special emphasis should be given to the acquisition of materials to serve the large population of Spanish speaking in the community.

In regard to the borrower's registration file, it is most unlikely that 16,000 San Benito or nearby area residents are currently utilizing the services of the library. The file should be weeded and kept current so that it would reflect present library use. The same staff efficiency considerations also apply here as in weeding of the materials collection.

Service

In any library, activities should be designed to facilitate the use of library resources and planned in relation to other facilities and services in the community. San Benito County should use commonly-accepted standards as guidelines for developing its own library service program. The library should adopt a written statement of service objectives.

In developing its service objectives San Benito County should accomplish the following:

- The library must consider needs of the community in its program of service.
- The library should establish a varied schedule of hours to permit all citizens easy access to library materials and services.
- The library should be able to supply material of even the most specialized nature by using its own resources or borrowing from another library.
- The library should have a positive program of guidance to individuals in the use of all types of materials (through e.g. personal consultation, publicity, lists, displays, lectures, story hours, book talks, film and music programs, discussion groups, and other appropriate means.)
- The library should maintain complete and up-to-date information about community organizations and actively seek to bring library services to them. Examples of services are assistance in program planning, providing speakers, discussion leaders, film programs, displays, etc.

Library Personnel

A well trained staff is of primary importance. It must be qualified to select materials, to organize them for service and to help citizens utilize them to best advantage. San Benito County Library possess a dedicated, hard working, and pleasant staff well appreciated by library patrons. However, without professional direction and leadership not only are needed programs (as discussed earlier in this section) requiring professional librarians not present, but the existing staff cannot make optimum use of its very real talents. Sample job descriptions for proposed new positions and integration of existing staff is provided in Appendix I.

Maintenance applies not only to physical facilities and collections; it also applies to personnel. Personnel are the single largest cost category for libraries. All personnel from the director on down must have their skills continuously updated through a library funded program of staff development. San Benito County must provide staff development opportunities for new and existing personnel to make the most of this valuable resource. Joining the South Bay Cooperative System would in part provide the San Benito County Library with needed staff development opportunities.

Physical Facilities

The San Benito County Library provides .48 square feet per capita. Standards suggest .6 square feet per capita; however, since San Benito County has a pleasant and attractive facility which is adequate for present needs, change is not a high priority. When the necessary weeding (see discussion on page IV-B-5) has been accomplished the 7,734 linear feet of shelving provided will also be adequate for present needs. Standards suggest five seats per 1,000 population for those

libraries serving populations between 10,000 and 35,000; San Benito County provides approximately three seats (which seems adequate at present) per 1,000 population.

C. Description of Citizen Opinion Survey⁴Mail Sample

Questionnaires were mailed to all households in San Benito County (approximately 7,600) to determine citizen information needs.⁵ The data obtained has already been used in developing recommendations in this survey; however, it will be of even more value in future planning for San Benito County library service.

Responses were received from 740 citizens (9.7%). The largest responses came from individuals in the 25-44 (44%) and 45-64 (30%) age ranges.

Hollister area residents accounted for 77% and San Juan Bautista 13% of the responses.

The bulk of the responses fell into the following occupational categories: 27% professionals, 22% homemakers, 16% clerical workers and 12% retired.

36% of the respondents have a high school education, 35% a college education, 21% have engaged in graduate study and 7% have finished elementary school.

2% of the responses were written in Spanish.

Services and programs people would use were rated as follows:

- 51% photocopying machines
- 44% reference service
- 39% special events for children and young people
- 36% motion picture film programs
- 34% lists of materials on various topics
- 31% speakers or programs on various topics
- 24% meeting rooms for local organization use

⁴Detailed results of this survey are presented in Appendix G.

⁵A sample questionnaire is included in Appendix G.

22% typewriters or calculators .

17% bookmobile stops

Citizen interest in topical information ranged as follows:

41% local history; 39% crafts; 37% consumer information and gardening; 34% medical and health care; 31% genealogy and travel; 29% news and current events; 27% home repair; 24% cooking; 21% money management, animal care, language instruction; psychology and agriculture; 19% auto repair; 18% games and sports and ecology; 15% religion; and 13% job hunting and sociology.

Only 10% of the respondents indicated they had not visited a public library during the last year. The remainder of responses were 1-6 times - 20%; 6-12 times - 21%; and 35% over 12 times; 14% did not respond to this item.

In response to the distance they lived from the nearest library in San Benito County, 67% answered less than 5 miles, 17% 5-10 miles, 4% 10-15 miles, 4% over 15 miles and 8% did not respond to this item.

In response to the question concerning how selected topics affect library usage the percentages were as follows:⁶

location	POSITIVE	NEGATIVE
Location of library	42%	4%
Hours library is open	33%	15%
Your own magazine subscriptions	15%	12%
Your own book club subscriptions	9%	10%
Your own newspaper subscriptions	11%	11%
Your health	13%	4%
Weather	9%	6%
Attitude of library staff	43%	7%
Materials library has	37%	23%
Availability of transportation	12%	5%
Access into library building	21%	5%

⁶The remainder either checked no effect or did not respond to these items.

150 citizens took the time to include additional comments of their own. Of these 25% offered favorable comments on the service they now receive, 59% suggested ideas for improved service and the remaining 16% commented upon the questionnaire format and content and personal reasons for their limited use of library resources.

The following selected quotes were taken directly from questionnaires:

73 year old retired male

"The library services in our area are very satisfactory. The librarians are most cooperative."

34 year old housewife

"I have found the library not to have books I have wanted but most willing to send for them for me."

67 year old retired female

"We are very proud of our efficient library. The staff is always courteous, well-informed, and willing to be of service if any help is needed."

63 year old self-employed male

"The library staff have always been very friendly, helpful and cooperative to me."

52 year old housewife

"For a small town (county) library - it is very efficient."

40 year old housewife

"Library staff are very pleasant, but better trained personnel could give better service. An improved reference collection as well as a trained reference librarian are needed."

23 year old female winery worker

"Did not know where Library was until I asked someone!"

36 year old male teacher (listed under other as negatively affecting his use of the library)

"trained librarian (lack of), organization of library materials,

children's library aide (lack of), many outdated and poorly cared for materials."

49 year old housewife (written in Spanish)

"I wish we could have a library with materials in Spanish as other places have."

34 year old male computer applications specialist (written in Spanish)

"At present books and other materials available are a detriment to the community. An inventory needs to be made considering local needs and special preferences listed in this survey so that service may be improved for the benefit of the entire community, particularly high school students and Gavilan College students."

42 year old male engineer

"The last 3 times I have traveled to Hollister for library service, it was closed. Just don't know what the hours are. Apparently I have guessed wrong, so far. Have had to go to Gilroy because they are consistently open, and I don't waste time and gasoline - and I usually find what I am looking for. Many times in using Hollister library, books are ancient. That is OK for some things such as ranch buildings, but not much use for present technology in farm animals, and the like. Provide more current literature before adding the extras."

39 year old housewife (listed under other as negatively affecting her use of the library)

"lack of current books and lack of staff who knows how to help."

56 year old male manager

"Hollister is very poorly stocked with books, magazines. Very little information on agriculture (orchards). As a new resident I found the library inadequate, disappointing. Nice building,

though - but not much in it!"

25 year old female teacher

"I usually do not find what I am looking for and have just about given up going to the library. Our library is very outdated, by this I mean most of the materials were published so long ago that most of the text doesn't even apply any more. We also need reference materials on the local area, and a copy machine in the library."

29 year old male farmer

"How about a cooperative service with other districts so material could be ordered and borrowed from a wider selection?"

High School Sample

A separate set of questionnaires (1500) was given to the San Benito Joint Union High School in order to gather additional input for future library program planning. Responses received totalled 864 (57.6%).

3% of the responses were written in Spanish.

Services and programs students would use were rated as follows:

- 49% typewriters or calculators
- 44% motion picture film programs
- 39% photocopying machines
- 34% special events for children and young people
- 27% reference service to locate information
- 22% lists of materials on various topics
- 16% meeting rooms for local organization use
- 14% speakers or programs on various topics
- 13% bookmobile stops

Student interest in topical information ranged as follows:

- 47% games and sports; 46% how to find a job; 39% auto repair; 33% crafts; 30% travel; 29% how to manage money;

27% home repair and construction; 26% news and current events; 25% cooking and your family tree/genealogy; 23% animal care; and agriculture; 20% medical and health care; 17% local history and gardening; 15% consumer information, psychology and ecology; 12% language instruction; 10% sociology; and 7% religion.

Materials available for loan were rated as follows:

44% tapes and cassettes; 41% books, pamphlets and other printed material; 38% tape players; 37% magazines and newspapers and motion picture films, filmstrips, slides; 28% film projectors; 26% phonograph records; 21% music scores and sheet music; 16% foreign language materials; 15% material for the blind or physically handicapped; and 13% art prints.

Only 18 students included additional comments of their own. All of the comments reflected suggested improvements; the following selected quotes were taken directly from questionnaires:

15 year old female

"The library should get newer, more up-to-date books."

16 year old male

"My main problem is that by the time athletic practice is over, the library is closed. It is also closed weekends and holidays."

18 year old female

"1. Our library should have more magazines that are listed in the Reader's Guide. When I find an article I need for reference they never have the magazine (especially

science).

2. Books should be updated, most reference books are at least 10 or more years old and are not that accurate today."

15 year old female

"Students should be let freely into adult book section for school research purposes."

D. Comments concerning the citizen opinion survey.

Statistics concerning mail questionnaires have shown that they are best responded to by persons with a considerable amount of education (i.e. even many college graduates have little facility for writing, and of those who do, few have the patience or motivation to write as fully as they might speak). Given this fact as well as suggested criteria for questionnaire design, the San Benito County Library questionnaire was designed to be short answer, easy to fill out, simple to return, sponsored by a group known by the community, and presented in a context that would motivate the respondent to cooperate in returning the questionnaire. However, even under the best of circumstances a 10% return is normal; San Benito's response was 9.7%. People who do return them are most likely to be the less mobile (and thus more likely to have actually received the questionnaire), the more interested and the more literate segments of the population.

In looking at the San Benito responses it is evident that the above mentioned factors had an influence on the results. Even though the majority of county residents (according to the 1970 census) have less than a high school education, only 7% of the respondents fell into this educational level. Although 44.9% of the population of the county is Spanish surnamed, only 2% of the responses were actually completed in Spanish and only 16% of the respondents indicated Spanish as the language they most commonly use. (The relationship between Spanish surname and Spanish language use is a matter of speculation.)

Information of interest concerning the 10% of the respondents

who indicated they had not visited a public library (i.e. the nonusers) follows:

age breakdown

under 18 - 0
 18-24 - 6%
 25-44 - 30%
 45-64 - 32%
 over 65 - 29%
 no answer - 3%

education

elementary - 18%
 high school - 31%
 college - 34%
 graduate study - 12%
 no answer - 5%

92% lived less than 11 miles from the nearest library in San Benito County.

Those respondents who specified why they did not use the library indicated the following as negatively affecting their library usage:

Location of the library	- 5%
Hours the library is open	- 4%
Your own magazine subscriptions	- 14%
Your own book club subscriptions	- 10%
Your own newspaper subscriptions	- 12%
Your health	- 4%
Weather	- 3%
Attitude of library staff	- 1%
Materials library has (books, etc.)	- 12%
Availability of transportation	- 5%
Access into library building	- 1%
Parking	- 3%

The responses submitted written in Spanish fell into the following categories:

age

under 18 - 0
 18-24 - 8%
 25-44 - 54%
 45-64 - 38%
 over 65 - 0

education

elementary - 47%
 high school - 15%
 college - 23%
 graduage study - 15%

All of the Spanish language respondents lived less than five miles from the nearest library in San Benito County.

23% had not visited a public library during the last year. The only reasons indicated for the non use were lack of transportation and an individual book club membership.

What is clear is that overwhelmingly the respondents do represent the traditional base of library use and support - the ones who are oriented to education, community, and career development. And that although many find things they like about the library, most clearly would like the library to be more responsive than it is in collections, hours, and services.

E. San Juan Bautista Library Service

Description

The city of San Juan Bautista has maintained a library since 1905. The city library maintains an affiliation with the county library, but remains a separately funded and administered library operation.

The library director is directly responsible to the City Council. The library is supported by a 10¢ library tax as well as additional monies from the city general fund. The Library Auxiliary, which functions as a Friends of the Library organization, also contributes funds to supplement the library budget. In FY 1973-74, library expenditures totaled \$2,602. No more than \$200 per year is spent for the purchase of new materials.

The library has available for use approximately 4,000 volumes. A monthly temporary loan book rotation service is supplied by the county library; this provides forty books each month. Library hours are Monday and Friday 2-6 and Wednesday 2-6, 6:30-8:30 (12 hours per week). During FY 1973-74 the total materials circulation was 3,310.

The library employs a library director and a janitor. The library director has not received regularized in-service training in providing library service.

The library is located within walking distance of the central business district. The building occupies 320 square feet with seating available for 12.

Evaluation

The efforts of San Juan Bautista in providing local library service for its residents are certainly commendable. The library director is dedicated, hard working and enthusiastic, and the Library

Auxiliary is most supportive of the library. However, it is obvious that the present financial support is not sufficient to provide adequate library service for residents of San Juan Bautista.

Even though public demand has led to the support of the present facility, and the possibility of an enlarged facility in the not too distant future, this is not the most efficient nor effective means of providing library service for the residents of San Juan Bautista.

Unless ample resources, or a good-sized budget for both staff and materials is provided, a fixed facility is not the best solution. Bookmobile service would provide the most effective and efficient library service for San Juan Bautista. A bookmobile has the advantage of mobility. It can give service in a number of areas; locations which prove unsuccessful can easily be changed. If demographic conditions alter so can the bookmobile's stops. A bookmobile can provide as many or more volumes than San Juan Bautista now owns and they would be a lively current collection, continuously renewed.

Recommendations

In its decision making concerning library service for San Juan Bautista, the first question is will the San Benito County Library provide bookmobile service? Without question county-wide bookmobile service is the most cost-effective way of meeting San Juan Bautista's library service needs. In this case the City of San Juan Bautista should if at all possible not maintain a fixed facility for public library service.

If the City has not yet done so, it should explore whether the conditions of the Luck estate can be satisfied if other than basic public library service is provided in the new building. (e.g. Would it be satisfactory to have a small library limited to local history

purposes, which would in effect be the museum's library? This would need only a few dollars a year for collection maintenance, and staffing could be an easy additional responsibility for the museum attendant. Or would it be satisfactory to have a library as a museum display, showing what a small public library was like in the early days of San Juan Bautista?)

It is evident that in any case San Juan Bautista would benefit by membership in the South Bay Cooperative Library System (see reasons outlined in section V), and consolidation with the San Benito County Library. Consolidation would provide uniform service county-wide and more effective use of the San Juan Bautista library tax dollar paid into the county library fund. If the County does not provide bookmobile service and San Juan Bautista continues to maintain a fixed facility, it is recommended that the City retain responsibility for its maintenance. The County should provide personnel and collection resources.

V. Interlibrary Cooperation

Citizens need similar library resources whether they live in cities, suburbs or rural areas. They have wide interests and the ability to use information to improve their way of life. They benefit from the services of skilled librarians who can anticipate and locate information they desire, and guide them in using and interpreting resources wherever they choose to live.

Although the needs of citizens in rural areas are similar to those of more populous areas, the financial resources are frequently inadequate to provide the wide range of materials and services of specialized staff to meet those needs.

For over a decade California public libraries have demonstrated the practicality of cooperative library systems in all sorts of situations. Libraries, as members of cooperative library systems working together, can share their services and materials and thereby enrich the resources available to their communities and meet the full needs of their users.

Libraries which cannot maintain minimum service standards must weigh the advantages of remaining independent against the needs of the community. When citizens are not clearly better served by the library working alone, some degree of autonomy must be sacrificed. When a jurisdiction with substandard library service fails to reach out to joint action with other libraries, citizens of the area suffer.

A local library upon joining a library system assumes a new role - being the vital link connecting the user with the full resources of the system and through the system to resources of the state and nation. The local library is neither weakened nor eliminated; its system membership enables it to bring to its community resources and services previously unattainable.

The South Bay Cooperative Library System consists of five member libraries - Santa Clara County and the Cities of Mountain View, San Jose, Santa Clara and Sunnyvale. The system offers its members the following benefits:

1. Equal access - access to all of the services offered by each individual member library are available to all residents of the area served by the system. Examples of services offered are: depository collection of California State publications, foreign language collections, special subject collections, film collections, filmstrips and slides, extensive phonograph record collections, sheet music, paintings, original and reproductions, and special programs for children and adults.
2. Interlibrary loan - member libraries use teletype machines for rapid communication to request materials for their users. Member libraries receive requested material by means of a coordinated delivery system.
3. Interlibrary reference - member libraries forward questions they cannot answer adequately to the system reference headquarters located at the San Jose Public Library. The System purchases reference materials member libraries could not individually afford.
4. In-service training - the System sponsors training programs at which staff can acquire new skills and keep abreast of new developments.
5. Special projects - the System is eligible to receive federal funds for the demonstration of new services (e.g. outreach to senior citizens, shut-ins and the handicapped, literacy program, cable television).

As a member of the South Bay Cooperative System¹ San Benito County Library would benefit from those system services. The library would be able to offer county residents access to a wider range of materials and services.

Requirements for system membership are listed in Education Code secs. 27111-27146. Principal requirements are:

- a. tax rate support of \$2.50 per capita (San Benito in 1974/75 reported an equivalent rate of \$2.36) (sec. 27131 (f)).
- b. maintenance of effort, that the rate for a given year not be lower than the preceding year (sec. 27131 (g)).
- c. allowing residents of other member jurisdictions within the same system, to use San Benito County Library on the same basis as San Benito residents (sec. 27131 (a)).

¹In recommending cooperative library system membership for the San Benito County Library, the Monterey Bay Area Cooperative Library System was also considered. Both systems would offer enriched resources to San Benito County; however, for the following reasons the South Bay System is recommended:

San Benito County Library and Santa Clara County Library (a member of the South Bay System) already have a reciprocal borrowing agreement.

Santa Clara County Library administers the Gilroy Library located only 13 miles from Hollister. Many San Benito County residents shop in Gilroy.

The South Bay System offers larger and richer resources than the Monterey Bay System.

VI. CONCLUSION.

Alternative Plans

Three alternatives are presented. An approximate tax rate is included with each using the current San Benito County rule of thumb that each cent raises \$8,500. The first two alternatives (Plans A and B) provide for the desirable improved library service for the residents of San Benito County. They both propose bookmobile service, as it is the best means of supplying library service in areas of sparse population density.

All three alternatives assume that San Benito County Library will become a member of the South Bay Cooperative Library System. The rationale for membership in a library system is discussed in Section V.

Plan A (Recommended)

This plan suggests a contractual agreement with Santa Clara County.

In considering this alternative these points are of primary interest:

1. This plan would extend resources available in San Benito County by making available through contract the resources of an established materials collection organized and ready for almost immediate use. Due to economies of scale, the same funds would provide more materials available for use more quickly.
2. Contractual service would provide access to services and materials which would be prohibitive for San Benito County to provide alone (e.g. book catalog, film collection, expertise of many librarians trained in a variety of subject areas, delivery service).

3. Contractual service would enable San Benito County to avoid the responsibility of purchasing, operating and staffing a specialized vehicle.

Personnel (descriptions of these positions are found in Appendix I)

1 Library Director	\$16,000
1 Children's Librarian	14,000
1 Reader's Advisor	13,000
1 Library Assistant	9,500
2 Library Clerk II	16,000 (\$8,000 each)
1 Library Clerk I	7,000
	<u>75,500</u>
Fringe benefits (15%)	11,325
	<u>86,825</u>
Part-time help	3,000
	<u>89,825</u>

Materials

Print and nonprint	\$15,000
Periodicals	1,200

Operating Expenses

Contract Services	
Administrative	\$15,000
Bookmobile	\$25,000

Equipment

Miscellaneous	\$ 500
---------------	--------

Total \$146,525

Plan B

Should San Benito County wish to provide library service without contractual agreement with another library, the following expenditure for service is recommended.

In considering this alternative these points are of primary interest:

1. All library employees would be on the county payroll, including bookmobile staff (driver clerk and a library assistant).
2. All materials in the library will be purchased, owned and permanently housed by San Benito County.
3. Fewer and less diverse materials will be available to residents of San Benito County.
4. San Benito County would be solely responsible for purchase, operation and maintenance of the bookmobile.

Personnel (descriptions of these positions are found in Appendix I)

1 County Librarian	\$18,000
1 Children's Librarian	14,000
1 Reader's Advisor	13,000
2 Library Assistant I	19,000 (\$9,500 each)
1 Bookmobile Driver Clerk	8,000
1 Library Clerk II	8,000
2 Library Clerk I	14,000 (\$7,000 each)
	<u>\$94,000</u>
Fringe benefits (15%)	14,100
	<u>\$108,100</u>
Part-time help	3,000
	<u>\$111,100</u>

Materials

Print and Non-print	\$20,000
Periodicals	1,200

Operating Expenses

Supplies, travel, publicity	1,000
Bookmobile maintenance	5,000

Equipment

Bookmobile	45,000*
Miscellaneous	500
	<hr/>
Total	\$183,800

**Approximate tax rate - 19¢

*This is a first year capital outlay expenditure. A well maintained bookmobile generally will provide 10-15 years of service.

**Tax rate does not include \$20,700, the County Librarian's salary, as it must be taken out of general funds (Education Code 27207).

Present Service Level

This alternative would leave existing library service in San Benito County essentially as is.

In considering this alternative the following points are of primary interest:

1. Library service in San Benito County would remain passive rather than play an active role in the community.
2. The service would not be upgraded to better respond to the needs of county residents.

Of course, San Benito can continue with its existing untrained personnel and effect some minor improvements, especially in light of membership in the South Bay Cooperative Library System. Possible improvements include: a) the system could provide professional assistance with the development of selection and weeding criteria; b) the library could install a copier, and rearrange its hours open to respond to citizen requests as noted in appendix G; c) the borrowers file could be made current; d) a Friends of the Library organization could be established; and e) The Board of Supervisors could establish a permanent advisory group.

However, it is unlikely that the above could make a significant change in the ability of the library to respond to the needs of San Benito County residents.

Decisions

The steps that are to be taken next are discussed below. They are independent of each other, but all are necessary for creating vital library service for San Benito County.

DECISION I

Join the South Bay Cooperative Library System. The application must be received and approved by the System and transmitted to the California State Library by September 30 of any given year. Funds awarded to the System for its new member become effective July 1 of the year following (e.g. if the San Benito County Library, the San Juan Bautista Library, or both, join the South Bay System by September 30, 1976, the System would receive additional funds for expenditure in the fiscal year beginning July 1, 1977.)

For each new member the system receives \$10,000 annually for each of the first two years under existing State law. This money is used by the system to help it and the new member mesh their services. The System in addition receives added ongoing per capita grants for its increased population.

Both San Benito County Library and San Juan Bautista Library should independently apply for membership in the system. If the two libraries consolidate after they have separately joined the system, the newly consolidated library (i.e. the enlarged San Benito County Library) will receive a minimum of \$10,000 annually for each of two years under existing State law.

DECISION II

Improve the services of the San Benito County Library by adopting recommended Plan A or alternative Plan B. According to whether Plan A

or B is chosen, hire a library director and contract for service with Santa Clara County, or hire a San Benito County Librarian. Assign that person the initial task of drawing up a plan to implement the recommendations in this study.

DECISION III

Establish a separate tax rate for the San Benito County Library as outlined in Section IV-B. Note: if San Juan Bautista retains administrative and fiscal control of its library, a separate county library tax may not be levied in San Juan Bautista.

DECISION IV

Ascertain the relationship of the San Juan Bautista Library to the San Benito County Library service program.

- (a) It is likely that if the county does not choose to provide bookmobile service, then San Juan Bautista will provide its public library service from the new museum building.
- (b) If the county does decide to provide bookmobile service, then the county must learn to what extent, if any, San Juan Bautista wishes to utilize the new building for public library service (see Section IV-E).

DECISION V

Apply for federal funds to the California State Library. The funds would assist the county in initial implementation of either Plan A or B. A California State Library consultant will assist the county in writing an application. Of course, there is no guarantee at this point that funds will be available, or awarded if available.

DECISION VI

Appoint a permanent advisory committee for the San Benito County Library (see discussion in Section IV-B).

Concluding Remarks

Although San Benito County has shown its concern by providing library service for over fifty years, it is evident that limited fiscal support has prevented the library staff from giving responsive service.

San Benito County Library has a solid foundation of resources, collection and personnel, upon which it can continue to build. The county also has the fiscal ability to support library service at a responsive level. Of course, this report will need extensive study and discussion and, decisions will not come overnight. The California State Library remains ready to provide additional assistance in San Benito County's efforts to respond to the library and information service needs of its residents.

With continuous community input and support from an advisory group and a Friends of the Library organization, and with professional direction and an adequate financial base, San Benito County can make significant improvements in its library service.

It is now up to San Benito County decision makers - both its Board of Supervisors and its citizens.

Board of Supervisors

SAN BENITO COUNTY
ROOM 204, COURT HOUSE
HOLLISTER, CALIFORNIA
95023
TELEPHONE 637-4641

March 18, 1975

San Benito County
Board of Supervisors
Hollister, Ca. 95023

Upon the motion of Supervisors Herman Botelho and seconded by Supervisor John Vassalo and carried by unanimous vote of the board of supervisors it was approved, towit:

Said Board of Supervisors recognizes the need for a study of the San Benito County Library.

Said Board of Supervisors desires said study.

Said Board of Supervisors would and will give serious consideration to effecting changes as a result of said study, should alternative recommendations prove feasible.

Above minute order of the Board of Supervisors of San Benito County are hereby attested to by:

Donald P. Lewis
CLERK OF THE BOARD.

Appendix B - Information on Advisory Committee

Committee Makeup

The San Benito County Board of Supervisors appointed the following committee members:

<u>Name</u>	<u>Representing</u>	<u>Occupation</u>
Patrick Bates	County government	Administrative Asst. to the Board of Supervisors
Kathryn Dooling	County Library	Library director
Carol Fish	Grand Jury Education Committee	District administrative aide to Assemblywoman Egeland
Jane Hammond	South County	Homemaker
Jane Herbert	Grand Jury Education Committee	Homemaker
Marian Hublit	San Juan Bautista	Businesswoman
Ruth Huston	Grand Jury Education Committee	Bookkeeper
Marian Pearce	Hollister	City Editor, Hollister Free Lance
George Shore	County government	County Supervisor

Purpose and function

The Advisory Committee provided continuous input for the survey concerning the library and the community.

They functioned as local survey contact people and established local communication channels for information about the survey and its purpose.

Their knowledge proved invaluable in designing and publicizing the citizen opinion survey.

Activities

The consultant met with the committee as a whole at 7 general meetings.

Samples of communications to the community designed by the consultant and the committee are appended.

Tours of nearby libraries and bookmobile stops, and general information on public library service in California, added to committee members' ability to assess and evaluate their local library service. Committee members received copies of the following items:

News Notes of California Libraries, winter 1972

California Library Laws

*Quick Guide to Assessing Library Services

Packet of material describing Santa Clara County Library Services

**Preprint--FY 1974/75 statistics for public libraries serving populations of 10,000 to 25,000 people.

A few Advisory Committee members took the time to comment upon their involvement with the survey as follows:

"I have been very pleased with the Library survey. It has become even more evident over the past months that a professional consultant was most important for an objective view of present services and for formulation of future possibilities....The library tour was of great value. It really helped to see some of those 'future possibilities' in action, especially the Gilroy Library, which can someday offer increased library services to its residents....."

"I found my association with the survey group both pleasant and enlightening....."

*See sample appended.

FOR IMMEDIATE RELEASE February 17, 1976 Contact Gail McGovern
Library Consultant

San Benito County residents will have an opportunity to tell the County Board of Supervisors what their information needs are in a survey to be conducted for the county by the California State Library.

An information questionnaire, pertaining to use and services of the San Benito County Library, will soon be mailed to every household. The questionnaire will be printed in both English and Spanish languages, and should be returned in the enclosed prepaid envelope by March 19.

The survey will give all county residents an opportunity to express opinions on the type and extent of information services which are most important to them. Responses to the questionnaire will be tabulated at the State Library and incorporated into a report with recommendations which the state will submit to the Board of Supervisors.

The Board has appointed a Survey Advisory Committee to work with the State Library comprised of: Patrick Bates, Kathryn Dooling, Carol Fish, Jane Hammond, Jane Herbert, Marian Hublit, Marian Pearce, and George B. Shore.

ANUNCIO INMEDIATO

26 de febrero de 1976

Contacto:
Yolanda J. Cuesta,
Consultante

Los residentes del Condado de San Benito tendrán la oportunidad de expresar sus opiniones sobre los servicios bibliotecarios que necesitan y desean. Un cuestionario refiriendos a los servicios y uso de la Biblioteca del Condado de San Benito ha sido enviado a cada domicilio en el condado. El cuestionario ha sido preparado en inglés y en español y debe ser regresado en el sobre incluido antes del día 19 de marzo de 1976.

El cuestionario forma parte de un estudio completo que será conducido por la Biblioteca del Estado de California para asistir al condado en formular un plan de servicios bibliotecarios que responda a los intereses de la comunidad. Respuestas al cuestionario serán tabuladas e incorporadas en un reporte con recomendaciones que sera preparado por el estado y presentado a la Junta Administrativa del Condado.

Una Comisión de Consejo para asistir en el estudio ha sido nombrada por la Junta Administrativa del Condado. Miembros de la Comision incluyen: Patrick Bates, Kathryn Dooling, Carol Fish, Jane Hammond, Jane Herbert, Marian Hublit, Ruth Huston, Marian Pearce, and George B. Shore.

February 20, 1976

Dear Organization President,

As you know, citizen opinion surveys are an important means by which local governments obtain feedback on public services. The information collected is very useful in setting priorities for resource allocation and assessing existing programs.

The California State Library is currently conducting a survey pertaining to use and services of the San Benito County Library for presentation to the Board of Supervisors.

An information questionnaire will soon be mailed to every household in the county. This questionnaire should be returned in its prepaid envelope by March 19, 1976. If a household has inadvertently been missed, additional questionnaires will be available at the San Benito County Library. Questionnaire responses will be tabulated at the State Library and incorporated into a report with recommendations which the State Library will then submit to the Board of Supervisors.

We are contacting you and other community leaders in order to help us obtain as wide a variety of responses as possible. Please encourage members of your organization to return their questionnaires.

Thank you for your help.

Sincerely,

Survey Advisory Committee

Members: Patrick Bates, Kathryn Dooling, Carol Fish, Jane Hammond, Jane Herbert, Marian Hublit, Ruth Huston, Marian Pearce and George B. Shore.

Estimado Presidente,

Estudios de la comunidad son muy importantes para obtener las ideas y opiniones de los residentes sobre diferentes servicios públicos. La información obtenida en estos estudios sirve para asistir a sus oficiales en formular programas de servicios para la comunidad.

La Biblioteca del Estado de California presentemente está conduciendo un estudio de los servicios y el uso de la Biblioteca del Condado de San Benito. Una parte de este estudio consiste de un cuestionario que será enviado a cada domicilio en el condado. El cuestionario le dará a usted la oportunidad de expresar sus ideas y opiniones sobre la clase de servicio que usted necesita y espera de su biblioteca. Respuestas al cuestionario serán tabuladas por la Biblioteca del Estado e incorporadas en un reporte de recomendaciones que será presentado a la Junta Administrativa del Condado de San Benito.

Por medio de esta carta queremos pedir su ayuda para obtener una gran variedad de respuestas. Por favor anime a los miembros de su organización a que respondan al cuestionario.

Mil gracias por su cooperación.

Sinceramente,

Comision de Consejo
Estudio de la Biblioteca del Condado de San Benito

February 27, 1976

Dear Supermarket Manager,

A survey of information needs of San Benito County residents is now being conducted by the California State Library. A questionnaire (see sample enclosed) is being mailed to every household in the county. Questionnaire responses will be tabulated and incorporated into a report with recommendations, which will be submitted to the San Benito County Board of Supervisors.

We are contacting you and other community leaders in order to help us obtain as wide a variety of responses as possible. Please return your questionnaire and encourage your customers, friends and neighbors to do the same.

Enclosed are 100 copies of a letter to San Benito County residents designed to encourage their participation. We would be most appreciative if you could post a copy if space is available, and have the other copies available for individuals to pick up while visiting your supermarket.

Thank you for your help.

Sincerely,

Survey Advisory Committee

Members: Patrick Bates, Kathryn Dooling, Carol Fish, Jane Hammond, Jane Herbert, Marian Hublit, Ruth Huston, Marian Pearce and George B. Shore

SACRAMENTO, CA 95809

February 27, 1976

Dear Resident of San Benito County,

As you know, citizen opinion surveys are an important means by which local governments obtain feedback on public services. The information collected is very useful in setting priorities for resource allocation and assessing existing programs.

The California State Library is currently conducting a survey pertaining to use and services of the San Benito County Library for presentation to the Board of Supervisors.

An information questionnaire will soon be mailed to every household in the county. This questionnaire should be returned in its prepaid envelope by March 19, 1976. If a household has inadvertently been missed, additional questionnaires will be available at the San Benito County Library. Questionnaire responses will be tabulated at the State Library and incorporated into a report with recommendations which the State Library will then submit to the Board of Supervisors.

Please help us by returning your questionnaire and encouraging your friends and neighbors to do the same.

Thank you for your help.

Sincerely,

Survey Advisory Committee

Members: Patrick Bates, Kathryn Dooling, Carol Fish, Jane Hammond, Jane Herbert, Marian Hublit, Ruth Huston, Marian Pearce and George B. Shore.

Compiled by Gail J. McGovern
February 1976

QUICK GUIDE TO ASSESSING LIBRARY SERVICES *

I. Building location, convenience and appeal

1. Is there a community directional sign for the library?
2. Is the building at street level on a site convenient for the public? Is there easy access for the handicapped?
3. Is the outside appearance inviting and in good repair?
4. Is there a book slot or box for return of materials when the library is closed?
5. Does the library have an attractive sign giving its name and hours open?

II. Physical organization and attractiveness of interior

1. Is the interior of the library inviting, functional and in good repair? Are facilities provided for handicapped use? (bathroom, telephone, drinking fountain, etc.)
2. Is suitable and adequate work space for staff provided?
3. Is suitable and adequate reading room and listening and viewing space provided? (for adults, young adults, children, handicapped, etc.)
4. Is the furniture functional, pleasing in appearance and in good condition?
5. Is the building comfortable as to noise, lighting, heating and air-conditioning as required by the climate?
6. Is there an attractive well-placed public bulletin board and display area?
7. Is there provision for new technology? (cable tv, reading machines, etc.)

*NOTE: When visiting different areas on vacation, check out the libraries using this list. Also, ask the staff what they do not like about the present facility and what changes they would suggest if they could start from scratch.

III. Ease of use

1. Is the staff enthusiastic, efficient, and friendly?
2. Is the library open an adequate and convenient number of hours?
3. Are the collection and services easy to find and adequately labelled? (reference and advisory services, lists, exhibits, displays of materials, etc.)
4. Is the catalog easy to find and use? Are labelling and directions on use easy to find and understand?

IV. Materials and services

1. Does the library provide a variety of materials to serve the needs and interests of all ages? (books, pamphlets, magazines, records, tapes, films, etc.)
2. Is the quality and attractiveness of the materials maintained by regular weeding of worn-out, unused and out-of-date materials?
3. Does the library serve all parts of the community -- geographic, educational, occupational, social, etc.?
4. Does the library serve as a community information center as well as a source of recreational materials?
5. Is assistance given to clubs and organizations in program planning? Is meeting space with facilities available? (projectors, sound equipment, etc.)
6. Does the library provide programs for all segments of the community? (story hours, reading programs, films, lectures, exhibits, displays, etc.)
7. Does the library provide extension service to citizens unable to use conventional facilities? (hospitals, shut-ins, jails, etc.)
8. Does the library cooperate with other libraries to provide additional materials and services to the community? (inter-library loan, membership in a library system, contractual service agreements, school cooperation, etc.)
9. Does the library continuously let the community know of its services through regular and frequent use of the media and other public relations programs?
10. Does the library make use of the consultant and advisory service of the state library agency?

Appendix C - Work Plan.

SURVEY OF COUNTY LIBRARY SERVICE

SAN BENITO COUNTY

REVISED WORK PLAN

Sequence of events

- March 1975 Survey requested by San Benito County Board of Supervisors
- April 1975 Survey Advisory Committee appointed by San Benito County Board of Supervisors
- May 1975 Preliminary meeting - survey consultant and Advisory Committee
- June 1975 Preliminary meeting - survey consultant and San Benito County Library staff
- August 1975 Consultant work plan draft submitted to Advisory Committee for input and reaction
- September 1975-
June 1976 Continuous communication and progress reporting between consultant and Advisory Committee
Continuous communication between Advisory Committee and community
- September 1975-
January 1976 Literature search by consultant
- February -
March 1976 Assessment of San Benito County information needs
Descriptive study of existing San Benito County Library service
- April 1976 Development of alternatives and recommendations by survey consultant
- May 1976 Review of draft survey report by Advisory Committee
Presentation of final survey report to San Benito County Board of Supervisors
- May -
June 1976 Review and evaluation of survey report by San Benito County Board of Supervisors

Event Description

September 1975-
June 1976

Continuous communication and progress reporting between consultant and Advisory Committee

This will include written and verbal communication as needed as well as regularly scheduled meetings to insure continuous input from and up-to-date information on the survey progress given to the Advisory Committee.

Continuous communication between Advisory Committee and community

This will involve members of the Advisory Committee in the establishment of a local communication channel for information concerning the survey. Such activities as media publicity, area meetings and organization talks will create an awareness of the purpose and activities of the survey as well as stimulate increased usage of existing library facilities.

September 1975-
January 1976

Literature search by consultant

This will include a review of documents relating to library service standards, recent surveys of existing library programs and assessing community needs.

February -
March 1976

Assessment of San Benito County information needs

This will involve data collection about San Benito County and its residents. Information for the development of a community profile will be gathered from census publications as well as any other related studies of San Benito County. A questionnaire will be distributed county wide to gather data on the information needs of county residents.

Descriptive study of existing San Benito County Library service

This will involve on-site data collection at the San Benito County Library, interviews with library staff and users, and information submitted in report from to the California State Library by the San Benito County Library.

April 1976

Development of alternatives and recommendations by survey consultant

The consultant will develop a draft report which will be presented first to the Advisory

Committee for input and reaction and then the final report will be submitted to the San Benito County Board of Supervisors. The Advisory Committee will be aided in its evaluation of survey recommendations by a review of documents describing existing California library programs and by touring nearby jurisdictions' library facilities.

Standards - Examples

* Table 33-1. Experience Formulas for Library Size and Costs

Popula- tion size	Book stock vols. per capita	No. of seats per 1,000 popula.	Circula- tion vols. per capita	Total sq. ft. per capita	Desirable 1st floor sq. ft. per capita	1961 Fair estimated cost per capita*
Under 10,000	3½-5	10	10	.7-8	.5-7	\$15
10,000 35,000	2½-3	5	9.5	.6-65	.4-4.5	\$12
35,000 100,000	2¼-2¾	3	9	.5-6	.25-3	\$10
100,000 200,000	1¾-2	2	8	.4-5	.15-2	\$9
200,000 500,000	1½-1½	1¼	7	.35-4	.1-1.25	\$7
500,000 and up	1-1¼	1	6.5	.3	.06-03	\$6

* Without furnishings (add 15%) or air conditioning (add 10%). These figures were originally based on 1940 conditions and have now been increased here and in Chapter 8 Table 8-3 to reflect larger present book stocks. Floorspace has been reduced because of economies, as discussed below.

*Wheeler, Joseph and Herbert Goldhor, Practical Administration of Public Libraries, 1962, p. 554.

*MINIMUM STANDARDS FOR PUBLIC LIBRARY SYSTEMS, 1966

The system headquarters, as the immediate resource for the community libraries, and as the principal library for a large segment of the general public in the area, is expected to contain a wide variety and an adequate collection of currently useful materials. This collection may be contained in one institution or it may be divided between two or more facilities when this arrangement is more appropriate.

Acquisition for all age levels and of all forms of materials should consider special interest needs of individuals and groups as reflected in their occupations, abilities, limitations, etc.

BOOKS

Titles

The headquarters should contain at least 100,000 adult non-fiction titles as a basic collection.

The headquarters should add approximately 50 percent of the new adult nonfiction trade titles published in English in the United States each year in sufficient duplication to meet needs.

The headquarters collection should have available a comprehensive collection of older as well as current fiction by American and foreign authors.

Volumes

The total system collection should own resources of at least 2 to 4 volumes per capita, and at least 2 volumes per capita in areas serving 1,000,000 population.

Maintenance of system collections

Collections should be maintained by annual additions and replacements of not less than $\frac{1}{6}$ volume per capita in areas serving up to 500,000 population; $\frac{1}{8}$ volume per capita in areas serving over 500,000 population.

Up to $\frac{1}{2}$ of the volumes added annually should be for children. These should be chosen on the basis of the characteristics and needs of the area.

At least 5 percent of its annual additions should be materials of specific interest to young adults.

Materials: Selection, Organization, and Control

PAMPHLETS

Pamphlet collections should be developed and maintained in system headquarters in order to provide materials on new or esoteric subjects which have not yet been incorporated into more conventional printed sources.

Sufficient quantities of more generally useful items should be acquired to serve system needs. Devices should be developed to provide information to participating libraries on the availability of items in this category, and community libraries should be encouraged to organize their own pamphlet collections.

PERIODICALS

At least one currently published periodical title should be available for each 250 people in the service area.

Emphasis should be given to periodicals indexed in special indexing services, but acquisitions should not be limited to these.

Headquarters collections should receive all current periodicals indexed in *Readers' Guide to Periodical Literature* and the most frequently requested items indexed in other indexing services.

Less frequently requested items should be available from a state or regional resource center.

Indexed periodicals should be retained in their original form for 10 to 15 years, preferably unbound.

Headquarters collections should replace or supplement the original form with a microtext edition.

Community libraries should not ordinarily attempt to build extensive collections of back issues of periodicals, but should depend on the headquarters collection to service their needs for these materials.

Print-out photocopy machinery should be available as needed.

INDEXING SERVICES

Headquarters collections will plan to acquire a broad range of indexing services. Access to materials in collections is simpli-

MINIMUM STANDARDS FOR PUBLIC LIBRARY SYSTEMS, 1966

fied by consolidated indexing services, and processing units can be relieved of much duplicative effort if these devices are properly maintained. While not all indexes are extensions of the catalog, many can be considered as such.

Services which index collections

Such publications as the *Short Story Index*, *Index to Plays in Collections*, the *Essay and General Literature Index*, and *Granger's Index to Poetry* are examples of this type. These services and the materials they index will be acquired as a part of the basic collection.

Services which index by subject

Such publications as *Psychological Abstracts*, *Education Index*, *Music Index*, *Art Index*, etc., and the materials they index will be acquired as appropriate.

Services which index by form

Such publications as *Schwann's Record Catalog*, *Vertical File Index*, etc., and the material which they index will be acquired as considered appropriate.

GOVERNMENT DOCUMENTS

System headquarters will be a selective United States government documents depository or have reasonably convenient access to one in the immediate vicinity, and will acquire local, state, and international documents on a selective but systematic basis.

AUDIO-VISUAL MATERIALS

Audio-visual materials are a useful and desirable means of promoting continuing education. They are basic, independent resources in many subject areas and for many activities, rather than supplementary as they are generally considered.

The most popular forms for libraries at the present time are the conventional 16mm photographic film and 33 $\frac{1}{3}$ rpm recordings. Library collections should be planned to include other speeds and other media, such as video tape, as they become available and prove appropriate.

The suggestions following are intended for system collections with access to a resource collection at the state or regional level. When

Materials: Selection, Organization, and Control

a state or region maintains the basic collection of the materials, these suggestions are not applicable.

FILMS

The basic film collection for the system should consist of one title for each 1,000 population served, but no collection should be less than 1,000 titles.

Selected films should be duplicated to meet needs and to supply a film circuit for the system if such is desired.

Film collections will need replacements and additions at the rate of 10-15 percent per year.

RECORDINGS

The basic collection of recordings for the system should consist of one disc or reel of tape for each 50 people in the service area, but no collection should contain less than 5,000 discs and reels.

Selected recordings should be duplicated to meet needs and to supply rotating collections for the system, if such are desired.

Recordings will need replacements and additions at the rate of 10-15 percent per year minimum.

OTHER FORMS AND DEVICES

Other forms of materials should be acquired as needed and in keeping with Standard 38, i.

As new forms are developed, they should be acquired by the system for testing, familiarization, and evaluation. When their value appears appropriate and useful in the community library, they should be added to the collection in sufficient quantity to meet needs.

Examples of these materials which should be considered at the present time would include:

- Teaching machines and associated materials
- Closed circuit television
- Educational television
- Transparencies
- Slides
- Filmstrips.

* part of a larger library system. But adequacy starts in the front line, at the first point of contact; there is limited value in a large library at a distance if children, students with regular assignments, and adults seeking good reading cannot get service close to home.

The community library is maintained by the local governmental jurisdiction, whether city or county. Close alliance of the agency with its immediate public officials is necessary to insure proper support and control. The nearby outlet may be a branch of a city or county library in a more populous area, or the central library itself in smaller cities and county seats.

This local outlet should be no more than ten to fifteen minutes driving time away in metropolitan areas, and thus also within walking distance for many children. Driving time refers not to ideal conditions but to elapsed time from home, to the library building, onto the parking lot, and through the library doors under usual traffic conditions. Outside concentrated metropolitan areas, the driving time may go up to 20 to 30 minutes, the time that persons living in smaller places and open country often drive to get commodities and services. In sections of very sparse population, under 25 persons per square mile, special goals and service methods should apply, as proposed in the final section of this report.

Normally local library service cannot be maintained efficiently by jurisdictions with less than 25,000 persons. We will see that the minimum or foundation program for modern library service costs well over \$100,000 annually, or some \$5.00 per capita for a locality of 25,000 persons. A smaller place may elect to provide its own library facilities, but will find that the cost of the minimum program cannot be reduced if local needs are to be met, and therefore the very small unit must pay a premium of \$10.00 or more per capita each year.

Goals for local libraries must be high enough to enable this key agency to carry its part of the total load. The minimum program to be achieved is shown under "Program Goals." Some communities will want to exceed these criteria. These service goals are in line with both California and national standards for public library service, brought up-to-date and made to fit the present and immediately emerging service needs of California.

PROGRAM GOALS FOR LOCAL COMMUNITY LIBRARY SERVICE

A. Materials

1. A minimum of 30,000-35,000 book titles* (weeded to remove material no longer useful), of which at least 20,000 have been acquired within last ten years
2. A minimum collection of 50,000 volumes for population of 25,000, and at least two books per capita in places up to 100,000 population, 1.5 book per capita for portion of population above 100,000
3. 800-1,000 reference titles in non-circulating collection
4. Not less than 2,500-3,500 well-selected book titles currently added per year in libraries serving 25,000 people, moving to at least 5,000 titles in community libraries serving 100,000 people

* Where a range or variation in minimum is given, the higher figure in each case applies to metropolitan areas.

*Martin, Lowell and Roberta Bowler, Public Library Service Equal to the Challenge of California, 1965, p. 31-32.

5. 200-250 periodical subscriptions, most of which are indexed, and with at least one-half held in back files for five years or more
6. Selected state and federal government documents to provide information about current statistics and topics of wide interest
7. Not less than 2,000 sound recordings (with 250 added each year) in libraries serving 25,000 people, moving up to at least 5,000 recordings (and 1,000 added per year) in community libraries serving 100,000 people.

B. Staff

1. Minimum staff of twelve employees (full-time equivalent)
2. One employee for each 2,000 people in service area
3. At least one-third of staff holding degrees from ALA-accredited library schools.

C. Physical Facilities

1. Fifty square feet of space per 100 people in service area if community library is a branch library or a member of a library system; sixty square feet if library operates alone and maintains its own cataloging and processing department
2. At least one seat per 200 people up to 50,000 population; one seat per 400 people for portion of population above 50,000.

In concrete functional terms, what does a community get or gain that maintains a library at this level? Here is some idea of the way this facility would reach into and benefit a city of 25,000:

A valuable resource of 50,000 volumes or more would be maintained, with essential new material flowing in constantly to keep it current and alive

Non-book materials of several types—magazines, documents, recordings—would support this working collection of books as a community resource

Library cards would be held by about one-third of the people in the community, with over half the families holding cards and thus being enrolled in the library

200,000-250,000 volumes would go out in circulation each year, often to be read by more than one member of the family, so that the average resident would get the benefit of 12-15 books in the course of a year

Over and above the volumes circulated, almost 100,000 additional consultations of books would occur annually within the library building.

35,000-40,000 information and guidance inquiries would be handled by professional staff, ranging from the request of a child for material about dinosaurs a million years ago to the request of a businessman for probable market conditions in another part of the state ten years in the future

400-500 group meetings would be serviced by a librarian and supplied with appropriate books, from the Saturday morning story hour for children to the Wednesday evening meeting of senior citizens.

TABLE I - Factors relating to population and economic base - FY 1974/75.

LIBRARY	Population	Assessed Value	Per capita Assessed Value	Operating Expense	Per capita Operating Expense	Equivalent Tax Rate
Gilroy*	14,000	\$69,844,520	\$4,989	\$192,358	\$13.74	n.a.
Lake	24,100	\$98,275,983	\$4,078	\$100,713	\$4.18	\$.134
Lassen	18,500	\$64,817,758	\$3,503	\$125,594	\$6.79	\$.203
San Benito	18,230	\$94,345,214	\$5,175	\$ 42,978	\$2.36	\$.045
San Benito rank	3/4	2/4	1/4	4/4	4/4	3/3

Comments: San Benito County has the highest assessed valuation per capita of the four, yet has the lowest funds per capita allotted to library service.

*Since Gilroy is a part of the Santa Clara County Library System these figures are approximate.

TABLE II - Expenditures relating to library service - FY 1974/75.

LIBRARY	Total Expenses	Materials Expense	Materials Per Capita	Materials % of Expenses	Salaries Expense
Gilroy	192,358	34,840	2.49	18.11	93,919
Lake	100,713	** 20,860	.87	20.71	73,308
Lassen	125,594	16,211	.88	12.91	89,981
San Benito	42,978	6,440	.35	14.98	35,786
San Benito rank	4/4	4/4	4/4	3/4	4/4

Comments: With its present level of support San Benito County cannot offer its residents the quality and variety of library service available to the residents of the other areas in the sample.

includes expenditure for McNaughton rental service

Salaries % of Expenses	Number of FTE * Employees	Number of FTE P/2000 pop.	Number of Professional Employees	% of Professional	Per Capita Expense
48.82	11.0	1.57	3	33	13.74
72.78	9.75	.80	3	31	4.18
71.64	13.95	1.50	2	14	6.79
83.26	4.0	.43	0	0	2.36
1/4	4/4	4/4	4/4	4/4	4/4

* FTE = full time equivalent

TABLE III - Factors relating to accessibility of library service.

LIBRARY	Square miles Served	Extensions	Hours Headquarters	Total Hours	TWX *	PLSA System Member	Inter-type Network Member	Number of PTE employed	Number of PTE p/2000 pop.	Number of Professional Employees	% of Professional Employees
76 Gilroy	n.a.	bookmobile service	66	74	N	Y	Y	11.00	1.57	3	33
Lake	1296	bookmobile service 3 stations	59	178½	N	Y	N	9.75	.80	3	31
Lassen	4531	3 branches 7 stations	70	420	X	N**	Y	13.95	1.50	2	14
San Benito	1392	0	58	58	N	N	N	4.00	.43	0	0
San Benito rank			4/4	4/4				4/4	4/4	4/4	4/4

Comments: San Benito offers less hours of service, less access to additional resources and less staff in number and expertise than the other libraries in the sample.

*TWX = teletype (rapid) communications.

**Lassen County is seriously considering joining a cooperative system during 1976.

TABLE IV - Materials, a quantitative look - FY 1974/75.

LIBRARY	Total Volumes	Volumes Per Capita	Volumes Added	Volumes added Per Capita	Total Titles	Titles Added	Magazine Titles	Newspaper Titles	Records	Cassettes	Film Circuit	System Member	Network Member
Gilroy	51,057	3.65	8,581	.61	n.a.	n.a.	169	8	1,525	0	Y	Y	Y
Lake	37,758	1.57	2,005	.08	n.a.	1,702	116	10	400	500	Y	Y	N
Lassen	76,975	4.16	3,368	.18	61,970	2,736	114	5	2,197	7	Y	N*	N
San Benito	47,188	2.59	1,149	.06	46,000	1,149	72	4	383	0	N	N	N
San Benito rank	3/4	3/4	4/4	4/4	2/2	3/3	4/4	4/4	4/4	3/4			

Comments: Even though there are recognized limitations in comparative statistical analyses, such a consistent pattern of low rankings by San Benito should be a cause for concern. San Benito ranks lowest in all quantitative categories except for its next to last ranking (to Lake County) in total volumes held and volumes per capita. However, it must be noted that the Lake County Library was only established in 1974 and is diligently working towards attaining minimum standards. Lake County also subscribes to the McNaughton rental program not reflected in the above figures. Also of note is the fact that San Benito holds no library system or network memberships which would make outside collections more accessible.

*see note about Lassen on p. E-3 (TABLE III)

V - Materials, a qualitative look.

LIBRARY	1974 best sellers (20)		1974 adult notable books (30)		1974 best young adult books (45)		1974 best childrens books (87)		1974 Totals (182)

San Benito	18	90	13	43	16	36	21	24	68	37
San Benito rank	4/4	4/4	4/4	4/4	4/4	4/4	4/4	4/4	4/4	4/4

Comments:

N.B. Items for the above four categories are chosen annually and published in January of the following year. 1974 was chosen for the sample to insure ordering, receipt and processing time for libraries involved in the sample.

*Gilroy, as a Santa Clara County community library, has a county library book catalog which could furnish titles not at Gilroy by daily delivery - the catalog listings would boost * figures as follows - adult notable books 30-100%, best young adult books 45-100%, best childrens books 86-99%, and total 181-99%. Gilroy also has multiple copies of selected titles available. (Con't. on page A-E-6)

TABLE V - Materials, a qualitative look, con't.

Comments: Although this sampling only covers outstanding items of 1974, it is a strong indicator, and the fact that San Benito Ranks last in every category should be a cause for concern. Coupled with the fact that San Benito possesses no library system or network memberships, it is difficult to escape the conclusion that the San Benito resident does not have the collections available to him/her that are enjoyed by residents of the other areas in the sample.

VI - A collection profile.

San Benito	50	25	19	10	60	30	52	25	20	10		35
San Benito rank												4/4

Comments: Here the four library collections were compared using a sampling methodology found in a study of the Carlsbad Library¹ (another of the libraries listed in Appendix F).

Library catalogs were checked to see the number of titles and their dates of publication in each subject area currently owned by each library.

This comparison shows San Benito County holds the lowest percentage of titles of the four libraries in the 1960-69 and 1970-76 categories. Only 35% of the San Benito County Library collection appearing in this sampling bears publication dates in the last 16 years.

¹Holt, Raymond. A Master Plan for the Carlsbad City Library, 1973, p. 25.

TABLE VII - Services, a quantitative look - FY 1974/75.

LIBRARY	Circulation Total	Circulation per capita	Circulation Print	Circulation Non-print	Juvenile Circulation	Juvenile %	Reference Transactions	Interlibrary Reference	Interlibrary Loans - Borrowed	Interlibrary Loans - n.a.	Interlibrary Lent	Microfilm Reader	Photocopy Machine
Gilroy	212,236	15.16	202,251	9,985	88,720	42	20,270	861	n.a.	n.a.	Y	Y	Y

San Benito Rank	4/4	4/4	4/4	4/4	4/4		3/4	4/4	3/4	3/4			

Comments: see page A-E-10.

TABLE VII - Services, a quantitative look - FY 1974/75, con't.

Comments: The very low non-print circulation reflects the limited non-print collection San Benito possesses.

San Benito ranks lowest in referring reference questions to other libraries and in interlibrary borrowing and lending. Membership in a library system and/or network enables an individual library to pass on to larger libraries those reference questions which fall beyond the scope of the local collection, and to borrow and loan library materials freely among the member libraries. The variety of ways a library user may utilize library systems and networks as well as benefits which accrue from such interlibrary cooperation, are discussed in more detail in section V.

There are many forms of print and non-print media, services and programs which other libraries offer to their users, but which San Benito does not.

In addition to its conventional circulation, the San Benito County Library also makes available rotating deposit collections to elementary schools. Schools reported that these collections provided 47,833 circulations to school children during FY 1974/75.

TABLE VIII - Physical facilities.

LIBRARY	Construction Date	Headquarters Square Feet	Square feet per Capita	Linear Feet - Shelves - Total	Linear Feet - Shelves - Per Capita	Seating Total	Seating p/1000 population
Gilroy	1975	12,800	.91	5,783	n.a.	99	7.07
Lake	1915*	1,800*	.07	1,794*	.07*	20*	.04*
Lassen	1961	7,200	.39	9,275	.50	60	3.24
San Benito	1960	8,800	.48	7,734	.42	54	2.96
San Benito rank	3/4	2/4	2/4	2/4	2/3	3/4	3/4

Comments: San Benito has a pleasant and attractive facility which is adequate for the community at present.

*These figures are so out of line due to the recent establishment of a county library in Lake. It is operating out of the old Lakeport Library and is working towards community support for a new facility.

February 27, 1976

Dear San Benito County Resident:

You can help us to help you--by telling us what your information needs are. The following questionnaire will provide the foundation for a survey which will help us make the best use of your tax dollars in providing the services you desire through the San Benito County Library. The survey is being conducted by the California State Library.

Please use the enclosed stamped envelope to return your completed questionnaire by March 19, 1976.

Thank you for your help.

Sincerely,

Advisory Committee
San Benito County Library Survey

QUESTIONNAIRE

PLEASE TELL US A LITTLE ABOUT YOURSELF.

(This information will be tabulated; your individual answers will be anonymous).

Sex _____

Education (check highest level completed)

Age _____

____ Elementary ____ College
____ High School ____ Graduate study

Occupation _____

What language do you use most for ...

Speaking _____ Writing _____

Reading _____

Check any of the following services and programs you would use if available in your community.

Check any of the following topics about which you would like to have information.

- Photocopying machines
- Typewriters or calculators
- Meeting rooms for local organization use.
- Speakers or programs on various topics
- Motion picture film programs
- Lists of materials on various topics
- Reference service to locate information
- Special events for children and young people
- Bookmobile stops

- News and current events
- Medical and health care
- How to find a job
- How to manage money
- Your family tree/genealogy

FREEDOM TO READ STATEMENT

Adopted June 25, 1953
by the ALA COUNCIL

The freedom to read is essential to our democracy. It is under attack. Private groups and public authorities in various parts of the country are working to remove books from sale, to censor textbooks, to label "controversial" books, to distribute lists of "objectionable" books or authors, and to purge libraries. These actions apparently rise from a view that our national tradition of free expression is no longer valid; that censorship and suppression are needed to avoid the subversion of politics and the corruption of morals. We, as citizens devoted to the use of books and as librarians and publishers responsible for disseminating them, wish to assert the public interest in the preservation of the freedom to read.

We are deeply concerned about these attempts at suppression. Most such attempts rest on a denial of the fundamental premise of democracy: that the ordinary citizen, by exercising his critical judgment, will accept the good and reject the bad. The censors, public and private, assume that they should determine what is good and what is bad for their fellow-citizens.

We trust Americans to recognize propaganda, and to reject obscurity. We do not believe they need the help of censors to assist them in this task. We do not believe they are prepared to sacrifice their heritage of a free press in order to be "protected" against what others think may be bad for them. We believe they still favor free enterprise in ideas and expression.

We are aware, of course, that books are not alone in being subjected to efforts of suppression. We are aware that these efforts are related to a larger pattern of pressures being brought against education, the press, films, radio and television. The problem is not only one of actual censorship. The shadow of fear cast by these pressures leads, we suspect, to an even larger voluntary curtailment of expression by those who seek to avoid controversy.

Such pressure toward conformity is perhaps natural to a time of uneasy change and pervading fear. Especially when so many of our apprehensions are directed against an ideology, the expression of a dissident idea becomes a thing feared in itself, and we tend to move against it as against a hostile deed, with suppression.

And yet suppression is never more dangerous than in such a time of social tension. Freedom has given the United States the elasticity to endure strain. Freedom keeps open the path of novel and creative solutions, and enables change to come by choice. Every silencing of a heresy, every enforcement of an orthodoxy, diminishes the toughness and resilience of our society and leaves it the less able to deal with stress.

Now as always in our history, books are among our greatest instruments of freedom. They are almost the only means for making generally available ideas or

manners of expression that can initially command only a small audience. They are the natural medium for the new idea and the untried voice from which come the original contributions to social growth. They are essential to the extended discussion which serious thought requires, and to the accumulation of knowledge and ideas into organized collections.

We believe that free communication is essential to the preservation of a free society and a creative culture. We believe that these pressures toward conformity present the danger of limiting the range and variety of inquiry and expression on which our democracy and our culture depend. We believe that every American community must jealously guard the freedom to publish and to circulate, in order to preserve its own freedom to read. We believe that publishers and librarians have a profound responsibility to give validity to that freedom to read by making it possible for the readers to choose freely from a variety of offerings.

The freedom to read is guaranteed by the Constitution. Those with faith in free men will stand firm on these constitutional guarantees of essential rights and will exercise the responsibilities that accompany these rights.

We therefore affirm these propositions:

1. It is in the public interest for publishers and librarians to make available the widest diversity of views and expressions, including those which are unorthodox or unpopular with the majority.

Creative thought is by definition new, and what is new is different. The bearer of every new thought is a rebel until his idea is refined and tested. Totalitarian systems attempt to maintain themselves in power by the ruthless suppression of any concept which challenges the established orthodoxy. The power of a democratic system to adapt to change is vastly strengthened by the freedom of its citizens to choose widely from among conflicting opinions offered freely to them. To stifle every nonconformist idea at birth would mark the end of the democratic process. Furthermore, only through the constant activity of weighing and selecting can the democratic mind attain the strength demanded by times like these. We need to know not only what we believe but why we believe it.

2. Publishers and librarians do not need to endorse every idea or presentation contained in the books they make available. It would conflict with the public interest for them to establish their own political, moral or aesthetic views as the sole standard for determining what books should be published or circulated.

Publishers and librarians serve the educational process by helping to make available knowledge and ideas required for the growth of the mind and the increase of learning. They do not foster education by imposing as mentors the patterns of their own thought. The people should have the freedom to read and consider a broader range of ideas than those that may be held by any single librarian or publisher or government or church. It is wrong that what one man can read should be confined to what another thinks proper.

3. It is contrary to the public interest for publishers or librarians to determine the acceptability of a book solely on the basis of the personal history or political affiliations of the author.

A book should be judged as a book. No art or literature can flourish if it is to be measured by the political views or private lives of its creators. No society of free men can flourish which draws up lists of writers to whom it will not listen, whatever they may have to say.

4. The present laws dealing with obscenity should be vigorously enforced. Beyond that, there is no place in our society for extra-legal efforts to coerce the tastes of others, to confine adults to the reading matter deemed suitable for adolescents, or to inhibit the efforts of writers to achieve artistic expression.

To some, much of modern literature is shocking. But is not much of life itself shocking? We cut off literature at the source if we prevent serious artists from dealing with the stuff of life. Parents and teachers have a responsibility to prepare the young to meet the diversity of experiences in life to which they will be exposed, as they have a responsibility to help them learn to think critically for themselves. These are affirmative responsibilities, not to be discharged simply by preventing them from reading works for which they are not yet prepared. In these matters taste differs, and taste cannot be legislated; nor can machinery be devised which will suit the demands of one group without limiting the freedom of others. We deplore the catering to the immature, the retarded or the maladjusted taste. But those concerned with freedom have the responsibility of seeing to it that each individual book or publication, whatever its contents, price or method of distribution, is dealt with in accordance with due process of law.

5. It is not in the public interest to force a reader to accept with any book the prejudgment of a label characterizing the book or author as subversive or dangerous.

The ideal of labeling presupposes the existence of individuals or groups with wisdom to determine by authority what is good or bad for the citizen. It presupposes that each individual must be directed in making up his mind about the ideas he examines. But Americans do not need others to do their thinking for them.

6. It is the responsibility of publishers and librarians, as guardians of the people's freedom to read, to contest encroachments upon that freedom by individuals or groups seeking to impose their own standards or tastes upon the community at large.

It is inevitable in the give and take of the democratic process that the political, the moral, or the aesthetic concepts of an individual or group will occasionally collide with those of another individual or group. In a free society each individual is free to determine for himself what he wishes to read, and each group is free to determine what it will recommend to its freely associated members. But no group

has the right to take the law into its own hands, and to impose its own concept of politics or morality upon other members of a democratic society. Freedom is no freedom if it is accorded only to the accepted and the inoffensive.

7. It is the responsibility of publishers and librarians to give full meaning to the freedom to read by providing books that enrich the quality of thought and expression. By the exercise of this affirmative responsibility, bookmen can demonstrate that the answer to a bad book is a good one, the answer to a bad idea is a good one.

The freedom to read is of little consequence when expended on the trivial; it is frustrated when the reader cannot obtain matter fit for his purpose. What is needed is not only the absence of restraint, but the positive provision of opportunity for the people to read the best that has been thought and said. Books are the major channel by which the intellectual inheritance is handed down, and the principal means of its testing and growth. The defense of their freedom and integrity, and the enlargement of their service to society, requires of all bookmen the utmost of their faculties, and deserves of all citizens the fullest of their support.

We state these propositions neither lightly nor as easy generalizations. We here stake out a lofty claim for the value of books. We do so because we believe that they are good, possessed of enormous variety and usefulness, worthy of cherishing and keeping free. We realize that the application of these propositions may mean the dissemination of ideas and manners of expression that are repugnant to many persons. We do not state these propositions in the comfortable belief that what people read is unimportant. We believe rather that what people read is deeply important; that ideas can be dangerous; but that the suppression of ideas is fatal to a democratic society. Freedom itself is a dangerous way of life, but it is ours.

Library Bill of Rights

The Council of the American Library Association reaffirms its belief in the following basic policies which should govern the services of all libraries.

1. As a responsibility of library service, books and other library materials selected should be chosen for values of interest, information and enlightenment of all the people of the community. In no case should library materials be excluded because of the race or nationality or the social, political, or religious views of the authors.

2. Libraries should provide books and other materials presenting all points of view concerning the problems and issues of our times; no library materials should be proscribed or removed from libraries because of partisan or doctrinal disapproval.

3. Censorship should be challenged by libraries in the maintenance of their responsibility to provide public information and enlightenment.

4. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.

5. The rights of an individual to the use of a library should not be denied or abridged because of his age, race, religion, national origins or social or political views.

6. As an institution of education for democratic living, the library should welcome the use of its meeting rooms for socially useful and cultural activities and discussion of current public questions. Such meeting places should be available on equal terms to all groups in the community regardless of the beliefs and affiliations of their members, provided that the meetings be open to the public.

Adopted June 18, 1948.

Amended February 2, 1961, and June 27, 1967, by the ALA Council.

INTELLECTUAL FREEDOM STATEMENT

An Interpretation of the Library Bill of Rights

The heritage of free men is ours. In the Bill of Rights to the United States Constitution, the founders of our nation proclaimed certain fundamental freedoms to be essential to our form of government. Primary among these is the freedom of expression, specifically the right to publish diverse opinions and the right to unrestricted access to those opinions. As citizens committed to the full and free use of all communications media and as professional persons responsible for making the content of those media accessible to all without prejudice, we, the undersigned, wish to assert the public interest in the preservation of freedom of expression.

Through continuing judicial interpretations of the First Amendment to the United States Constitution, full freedom of expression has been guaranteed. Every American who aspires to the success of our experiment in democracy--who has faith in the political and social integrity of free men--must stand firm on those Constitutional guarantees of essential rights. Such Americans can be expected to fulfill the responsibilities implicit in those rights.

We, therefore, affirm these propositions:

1. We will make available to everyone who needs or desires them the widest possible diversity of views and modes of expression, including those which are strange, unorthodox or unpopular.

Creative thought is, by its nature, new. New ideas are always different and, to some people, distressing and even threatening. The creator of every new idea is likely to be regarded as unconventional--occasionally heretical--until his idea is first examined, then refined, then tested in its political, social, or moral applications. The characteristic ability of our governmental system to adapt to necessary change is vastly strengthened by the option of the people to choose freely from among conflicting opinions. To stifle nonconformist ideas at their inception would be to end the democratic process. Only through continuous weighing and selection from among opposing views can free individuals obtain the strength needed for intelligent, constructive decisions and actions. In short, we need to understand not only what we believe, but why we believe as we do.

2. We need not endorse every idea contained in the materials we produce and make available.

We serve the educational process by disseminating the knowledge and wisdom required for the growth of the mind and the expansion of learning. For us to employ our own political, moral, or esthetic views as standards for determining what materials are published or circulated conflicts with the public interest. We cannot foster true education by imposing on others the structure and content of our own opinions. We must preserve and enhance

the people's right to a broader range of ideas than those held by any librarian or publisher or church or government. We hold that it is wrong to limit any person to those ideas and that information another believes to be true, good, and proper.

3. We regard as irrelevant to the acceptance and distribution of any creative work the personal history or political affiliations of the author or others responsible for it or its publication.

A work of art must be judged solely on its own merits. Creativity cannot flourish if its appraisal and acceptance by the community is influenced by the political views or private lives of the artists or the creators. A society that allows blacklists to be compiled and used to silence writers and artists cannot exist as a free society.

4. With every available legal means, we will challenge laws or governmental action restricting or prohibiting the publication of certain materials or limiting free access to such materials.

Our society has no place for legislative efforts to coerce the taste of its members, to restrict adults to reading matter deemed suitable only for children, or to inhibit the efforts of creative persons in their attempts to achieve artistic perfection. When we prevent serious artists from dealing with truth as they see it, we stifle creative endeavor at its source. Those who direct and control the intellectual development of our children--parents, teachers, religious leaders, scientists, philosophers, statesmen--must assume the responsibility for preparing young people to cope with life as it is and to face the diversity of experience to which they will be exposed as they mature. This is an affirmative responsibility that cannot be discharged easily, certainly not with the added burden of curtailing one's access to art, literature, and opinion. Tastes differ. Taste, like morality, cannot be controlled by government, for governmental action, devised to suit the demands of one group, thereby limits the freedom of all others.

5. We oppose labeling any work of literature or art, or any persons responsible for its creation, as subversive, dangerous, or otherwise undesirable.

Labeling attempts to predispose users of the various media of communication, and to ultimately close off a path to knowledge. Labeling rests on the assumption that persons exist who have a special wisdom, and who, therefore, can be permitted to determine what will have good and bad effects on other people. But freedom of expression rests on the premise of ideas vying in the open marketplace for acceptance, change, or rejection by individuals. Free men choose this path.

6. We, as guardians of intellectual freedom, oppose and will resist, every encroachment upon that freedom by individuals or groups, private or official.

It is inevitable in the give-and-take of the democratic process that the political, moral and esthetic preferences of a person or group will conflict occasionally with those of others. A fundamental premise of our free society is that each citizen is privileged to decide those opinions to which he will adhere or which he will recommend to the members of a privately organ-

ized group or association. But no private group may usurp the law and impose its own political or moral concepts upon the general public: Freedom cannot be accorded only to selected groups for it is then transmuted into privilege and unwarranted license.

7. Both as citizens and professionals, we will strive by all legitimate means open to us to be relieved of the threat of personal, economic, and legal reprisals resulting from our support and defense of the principles of intellectual freedom.

Those who refuse to compromise their ideals in support of intellectual freedom have often suffered dismissals from employment, forced resignations, boycotts or products and establishments, and other invidious forms of punishment. We perceive the admirable, often lonely, refusal to succumb to threats of punitive action as the highest form of true professionalism: dedication to the cause of intellectual freedom and the preservation of vital human and civil liberties.

In our various capacities, we will actively resist incursions against the full exercise of our professional responsibility for creating and maintaining an intellectual environment which fosters unrestrained creative endeavor and true freedom of choice and access for all members of the community.

We state these propositions with conviction, not as easy generalizations. We advance a noble claim for the value of ideas, freely expressed, as embodied in books and other kinds of communications. We do this in our belief that a free intellectual climate fosters creative endeavors capable of enormous variety, beauty, and usefulness, and thus worthy of support and preservation. We recognize that application of these propositions may encourage the dissemination of ideas and forms of expression that will be frightening or abhorrent to some. We believe that what people read, view, and hear is a critically important issue. We recognize, too, that ideas can be dangerous. It may be, however, that they are effectually dangerous only when opposing ideas are suppressed. Freedom, in its many facets, is a precarious course. We espouse it heartily.

RESOLUTION ON CHALLENGED MATERIALS

An Interpretation of the LIBRARY BILL OF RIGHTS

WHEREAS, The LIBRARY BILL OF RIGHTS states that no library materials should be proscribed or removed because of partisan or doctrinal disapproval, and

WHEREAS, Constitutionally protected expression is often separated from unprotected expression only by a dim and uncertain line, and

WHEREAS, Any attempt, be it legal or extra-legal, to regulate or suppress material must be closely scrutinized to the end that protected expression is not abridged in the process, and

WHEREAS, The Constitution requires a procedure designed to focus searchingly on the question before speech can be suppressed, and

WHEREAS, The dissemination of a particular work which is alleged to be unprotected should be completely undisturbed until an independent determination has been made by a judicial officer, including an adversary hearing,

THEREFORE, THE PREMISES CONSIDERED, BE IT RESOLVED, That the American Library Association declares as a matter of firm principle that no challenged library material should be removed from any library under any legal or extra-legal pressure, save after an independent determination by a judicial officer in a court of competent jurisdiction and only after an adversary hearing, in accordance with well-established principles of law.

Adopted by the ALA Council, June 25, 1971.

CITIZEN'S REQUEST FOR RECONSIDERATION OF A BOOK

Author _____ Hardcover Paperback

Title _____

Publisher (if known) _____

Request initiated by _____

Telephone _____ Address _____

Appendix I - Job descriptions.

COUNTY LIBRARIAN.Minimum qualificationsLicense Required

Possession of a valid County Librarian certificate issued by the California Board of Library Examiners or interim eligibility to serve as a county librarian as determined by the California Board of Library Examiners.

Education

Graduation from an accredited college and completion of one year of graduate study in library science at a recognized college or graduation from an accredited college with a major in library science.

Experience

Three years of recent increasingly responsible professional library experience including one year in an administrative capacity.

Knowledge of

Provisions of the Education Code and other legislation pertaining to County Libraries.

State and Federal legislation that support improvement of public library service.

Principles of library organization, administration, supervision, and management.

Principles and practices of librarianship, including the problems and procedures involved in operating a reader services program and the technical services such as cataloging, reference works, and bibliography connected with such a program.

Adult and juvenile books, periodicals, reference and bibliographic works.

Ability to

Plan, organize and direct a comprehensive program for providing library services.

Analyze community needs and embody conclusions in specific plans for modifying or extending reader services.

Effectively evaluate collection needs and approve appropriate materials for purchase.

Plan and supervise a comprehensive public relations program.

Determine the plant and equipment and staffing needs of a County Library and formulate budget recommendations and justifications to satisfy these needs.

Work effectively with the public, other professional staff members, and professional people from other agencies.

Supervise and direct the training of professional and non-professional personnel.

Examples of duties (under policy direction of County Board of Supervisors)

Plans, organizes, and directs the provision of County public library services; formulates and applies policies and procedures related to the library program.

Directs the hiring and assignment of employees, and the evaluating of employee performance; guides the in-service training program.

Determines the scope and nature of required library services in the light of changing community needs and plans for the extension and modification of library services; confers with officials and groups interested in extended library services to arrange for facilities and develop necessary procedures.

Directs the planning for new and maintenance and repair of library facilities, equipment, and furnishings.

Directs the maintenance of good public relations through personal contacts by library staff and himself/herself with public officials, civic groups, and individuals interested in the library program; speaks before professional and civic groups to explain and interpret the County library program.

Directs the maintenance of library statistics and related records and reports.

Attends professional meetings and conferences.

Directs and participates in the preparation of the annual budget request showing justification for requested appropriations and staffing; administers the approved budget and controls expenditures.

CHILDREN'S LIBRARIANMinimum qualificationsEducation

Equivalent to graduation from college, and possession of a certificate showing completion of one additional year of graduate study in an accredited library school.

Experience

One year of experience as a professional librarian engaged in the service of children.

Knowledge of

The principles, methods and procedures of professional library work, particularly in regard to children's activities.

Children's books and authors, library materials, and reading trends.

Ability to

Study, evaluate, and make sound recommendations on children's library uses and services.

Speak and write effectively.

Deal effectively and courteously with individuals and organizations interested in children's library activities.

Examples of duties (under direction of County Librarian)

Advises on and assists in the formulation of plans and policies relating to children's library services.

Selects and maintains children's materials.

Reads new children's books and book reviews.

Decides on children's materials to be replaced, repaired, transferred, or eliminated.

Advises school principals and supervisors on library programs and book selection.

Prepares and conducts pre-school story hours, regular story hours, book club meetings, television programs, and special summer programs.

Prepares and conducts story hours in hospitals, churches, orphanages, detention homes, recreation parks, summer camps, and other community centers.

BOOKMOBILE DRIVER-CLERK

Minimum qualifications

Education

Graduation from high school or attainment of a satisfactory score on a G.E.D. test.

Experience

One year of experience driving a medium-sized truck or bus.

Special qualifications

Possession of an appropriate California operator's license issued by the State Department of Motor Vehicles.

Ability to

Operate a light truck safely.

Follow oral and written instructions.

Lift boxes of books.

Meet the public with courtesy and tact.

Learn to perform subprofessional library work.

Examples of duties (under direction of County Librarian)

Operates a bookmobile equipped as traveling library making trips to specified locations on the basis of an established schedule.

Operates the bookmobile in a safe and courteous manner and in accordance with traffic rules and regulations.

Assists the library staff assigned to the bookmobile in checking in and charging out library materials, and shelves books.

Loads books and materials on and unloads books and materials from the bookmobile.

Arranges for bookmobile to be repaired, and serviced with gas and oil as needed.

READER'S ADVISORMinimum qualificationsEducation

Equivalent to completion of two years of college (additional experience in subprofessional library work may be substituted for a maximum of two years of the required education on a year-for-year basis.)

Experience

Two years of experience in performing subprofessional library duties.

Knowledge of

Books, reference sources and methods.

Ability to

Promote interest in library services.

Assess situations and people accurately.

Adopt an effective course of action.

Get along well with others.

Examples of duties (under direction of County Librarian)

In the absence of the Library Director (or County Librarian) and Children's librarian, will be in charge of the library.

Assists users in locating material most suited to their reading and viewing skills, habits, and interests.

Assists in development of reference procedures.

Reads and/or views and reviews library materials making recommendation with regard to their purchase.

Keeps well informed as to educational, political and sociological events and trends.

LIBRARY ASSISTANT I
Minimum qualifications

Education

Graduation from high school or attainment of a satisfactory score, on a G.E.D. test.

Experience

One year of experience in performing subprofessional library duties.

Knowledge of

Basic library techniques, terminology and services.

Office methods, practices, and equipment.

Ability to

Learn library practices and procedures, and the location of materials in the library.

Perform a variety of library clerical work with speed and accuracy.

Examples of duties (under supervision)

Assists patrons at circulation desk or on bookmobile.

Charges out library materials.

Registers patrons.

Collects fines for overdue and lost material.

Takes requests.

Assists patrons find desired library materials by directing them to proper location.

CLERK IIMinimum qualificationsExperience

One year of experience in clerical work. (College level secretarial or clerical training may be substituted for required experience on the basis of two years of college for one year of experience.)

Knowledge of

Modern office practices and procedures, including filing and operating standard office equipment.

Ability to

Perform general clerical work and learn quickly the specific operations of the office.

Spell correctly, use good English, and make arithmetical computations.

Understand and follow oral and written directions.

Establish and maintain cooperative relations with the public.

Examples of duties (under supervision)

Assists the public by referring them to sources of information, giving out standard forms and explaining how to complete them, and answering requests for factual information by consulting various available sources.

Inserts and extracts materials from subject matter files, classifies material by nature of subject matter, and prepares new file folders as needed.

Maintains informational or operational records; screens reports for completeness and arithmetical accuracy; lists, abstracts, or summarizes data.

On referral from supervisor or after personally screening correspondence, answers routine requests for information by enclosing materials or sending form letters; composes routine letters on factual subjects.

Compiles routine reports from a small number of established sources for review by supervisor.

May make out bills, abstracts, orders, notes, receipts, permits, licenses, etc; receives fees when the amount is readily obtainable by simple computations, or from fixed schedules; posts data, keeps records, and prepares statistical or other types of reports in accordance with pre-determined forms and procedures.

Operates standard office machines; may operate a small off-set duplicator reproducing black and white copy from paper masters.

Incidental to other tasks, may perform a limited amount of typing of memos, cards, and lists.

May be assigned to review the work of other clerical employees and bring gross discrepancies to the attention of the supervisor; may assist in training new workers; may act for the supervisor in his/her absence.

CLERK IMinimum qualificationsEducation

Graduation from high school or attainment of a satisfactory score on a G.E.D. test.

Experience

None required. ✓

Ability to

Do clerical work and learn office operations, procedures, and equipment.

Spell correctly, use good English, and make simple arithmetical computations:

Understand and follow oral and written directions.

Establish and maintain cooperative relations with the public.

Examples of duties (under supervision)

Sorts and files papers, bills, receipts, and a variety of documents; searches files for specified information.

Receives and routes correspondence.

Receives the public and provides routine factual information.

Maintains simple operational records by transferring data, calculating totals and sub-totals, or compiling summaries.

Receives money payments from time to time, issues receipts, and turns in money. ✓

Incidental to other tasks, may perform a limited amount of typing memos, cards, and lists. ✓
