ABSTRACT

This teachers guide attempts to facilitate the study of the United States through a conceptual approach and multimedia instruction in a spiral curriculum. There are five units: 1) Natural Setting -- location, climate, terrain, water, soil, and economic and esthetic value, and conservation; 2) Historical Development -- North American Indian cultures, European exploration, settlement and life styles, economic, political, and religious factors, the American revolution and the development of the New Nation; 3) National Community -- colonial origin, Declaration of Independence, governmental structure, National capital, historical documents and symbols; 4) National Growth -- components of a democracy, government functions, sociocultural development, westward movement, Civil War, Industrial Revolution types of industry; and, 5) National Trends -- technological, social, and economic trends. Each of the content sections outlines the major concepts, behavioral objectives, class activities, resources, and evaluation techniques. In addition, there is a list of basic instructional materials including books, transparencies, records, filmstrips, maps, kits, 8mm films, tapes, and equipment. (SFE)

SOCIAL STUDIES

UNITED STATES

GRADE 5

UNITED STATES
GRADE 5
SUPPLEMENT

NOTE: Staple to the inside of the cover of the social studies guide for ready reference.

Helpful Hint: Insert staple from the outside to avoid possible scratching from rough edges. (We learned the hard way!)

GRADE 5 SUPPLEMENT

The fifth grade social studies curriculum guide has been modified for the 1969-1970 school year in response to teacher suggestions made at meetings held during the 1968-1969 school year. The suggested modifications are contained in this supplement in an attempt to provide experienced and beginning teachers with a concise, usable guide. Where applicable, these are listed under the unit headings.

Since one of the major goals of the grade five social studies curriculum is to help pupils gain understanding and knowledge of broad generalizations or concepts along with necessary factual knowledge, certain concepts and generalizations, due to their importance and position in this spiraling curriculum, should be considered for special emphasis. While it is felt that the generalizations and concepts listed below are key elements to be expanded upon as the pupils' schooling continues, there is no desire to forget or completely de-emphasize the remaining generalizations in the curriculum guide.

UNIT 1 - NATURAL SETTING

<u>Generalizations and Concepts identified for emphasis</u>	<u>Page Number in guide</u>	<u>Suggested Modifications</u>
The United States occupies a uniquely located part of the rotating spherical earth and is related to all other nations in terms of size, distance, direction, and time. (Geography)	1, 9	1. Chapter 9 in the grade five language text, <u>Our Language Today</u> , deals with using resource materials. It could profitably be taught at the beginning of the school year.
Different occupiers of the land including the Indians and Europeans have applied knowledge, tools, and ways of working to the natural habitat. As each group of settlers discovered and appraised the natural elements, they developed differing ways of living and working which have changed from time to time during the history of the country. (Geography)	19	2. Chapters 10, 11, and 12 in the grade five science text, <u>Science in Our World</u> , deal with geology, conservation, and mineral treasures. These could profitably be taught at the beginning of the school year. 3. Fieldtrips can be valid educational experiences. Check with building administrators as to procedures to be followed when planning such events.

UNIT 11 - HISTORICAL DEVELOPMENT

<u>Generalizations and Concepts identified for emphasis</u>	<u>Page Number in guide</u>	<u>Suggested Modifications</u>
Although different in appearance, the Indians lived in families and communities and carried on many activities similar to those of the white settlers. (Anthropology, Sociology)	33	1. As a teacher resource and review of American History, the text, <u>Rise of the American Nation</u> , has been provided for each classroom.
Different occupiers of the land including Indians and Europeans have applied ingenuity, knowledge, tools, and ways of working to the natural habitat. (Geography)	35	
Events in Europe influenced the historical development of the United States. (History)	37, 39	
People from many different social, economic, racial, ethnic, and national groups have settled in this country. (Anthropology, Sociology)	41	
Only simple machines were used in colonial America because at that time either no one had invented better ones or no one could make machines which were being contemplated. (Economics)	45	
People frequently rebel against their government when it neglects the welfare of the people. (Political Science)	47	

UNIT III -- NATIONAL COMMUNITY

<u>Generalizations and Concepts identified for emphasis</u>	<u>Page Number in guide</u>	<u>Suggested Modifications</u>
Our colonial experience helped to shape our national government and our federal constitution. (History)	55	
The constitution is the supreme law of the land. (Political Science)	57	
As cultures become more complex and technology more advanced, there is some need for larger and larger governmental units. (Political Science)	63	
Each civilization has certain significant values and beliefs that influence its growth and development. Human liberty and justice are two values that are somewhat unique in our historical heritage which have been perpetuated through various monuments and symbols. (History)	67	

UNIT IV - NATIONAL GROWTH

Generalizations and Concepts identified for emphasis	Page Number in guide	Suggested Modifications
There is an interrelationship between local and state government as well as between the state and the national government as it tries to meet the needs of the people. (Political Science)	81	1. Some pupils lose interest in notebooks during the second semester. The notebook's main purpose is to provide the pupil with some form of continuity relative to the material covered. If the notebooks do become a chore they might be discontinued later in the year. Expanded time lines, period charts, etc. could be useful alternatives.
Individualism and equality of opportunity basic to democracy are frequently challenged by the racist. (Political Science)	103	2. The civil war should receive proper emphasis as the pupils will not encounter this subject again for several years. The causes and effects of the war are more pertinent than details of the actual war itself.
Only simple machines were used in early America because at that time either no one had invented better ones or no one could make the machines which were being contemplated. (Economics)	107, 117	3. It is recommended that item G entitled, <u>Types of Industry</u> , be eliminated from the curriculum. This material will be covered in detail in grade six.
The dignity of the laborer in contrast with the attitude of feudalism and mercantilism toward labor was a unique feature of the American colonies. This meant that his reasonable ample reward for work became a most significant power in the developing market. (Economics)	111	
Man's effective use of machines has increased his productivity; this increased capacity to produce may influence the individual's and community's standard of living. (Economics)	111	

UNIT V - NATIONAL TRENDS

<u>Generalizations and Concepts Identified for emphasis</u>	<u>Page Number in guide</u>	<u>Suggested Modifications</u>
Man can modify his environment. As man's ideas and technology change, his way of living and use of geographic elements may change.	137	1. The material in this unit need not be covered in great detail unless available time and pupil interest dictate otherwise. Trends might be covered as various topics are taught throughout the year.
As societies grow and their cultures become more complex their laws and institutions also become more complex, as well as more numerous.	139	2. Chapter 4 in the grade five language text, <u>Our Language Today</u> , deals with a study of the newspaper. It might profitably be taught and correlated with the material on National Trends.
Man modifies his culture to meet the social and economic needs of the members of his cultures,	139	3. Year end culminating activities might be attempted to review and summarize material covered during the year. <ol style="list-style-type: none">A historical fair might be held. Pupils could do in depth studies and project work on some aspect of the United States development. Other classrooms could be invited to attend the fair.An imaginary trip in a time machine might be planned. Individual or small groups of pupils could select topics from a teacher prepared list. Items would summarize the material studied. Pupils could present dramatizations of events as the class carrying time machine moved through history.

PHILOSOPHY OF EDUCATION

The primary task of any school in Joint City School District No. 1, West Allis, West Milwaukee, et al., is to bring about the maximum development of every boy and girl so that the privileges and responsibilities inherent in our democratic way of life will endure. This can be achieved only by our being constantly aware of the dignity and worth of the individual; by our acceptance of the fact that each child has his own interests, abilities, and needs; and by our sincere belief that the fullest development of the abilities and personality of each pupil is vital. His education must, therefore, assure the attainment of certain common skills, information, and understandings essential to group living, and should develop wholesome spiritual, social, and civic attitudes, as well as academic proficiency.

The dignity of all work should constantly be kept before the children. We should develop good physical and mental health, the wise use of leisure time, and an understanding of the necessity and desirability of wholesome family relationships. We must also try, through effective teaching and the physical environment of our schools, to inspire an appreciation of the beauty that is possible in the home, and in the community.

In short, education should lead to enriched living, personal satisfaction, and better adjustment to life. It should provide opportunities for group endeavor where boys and girls may experience friendliness, responsibility, cooperativeness, competition, and an opportunity for leadership in civic, vocational, social, and academic areas. It is to this end - a better life in our democratic society through the education of our young people - that the public schools dedicate themselves.

JOINT CITY SCHOOL DISTRICT NO. 1
West Allis, West Milwaukee, et al.

OBJECTIVES OF EDUCATION

In fulfilling its obligations to the boys and girls, the public schools of Joint City School District No. 1, West Allis, West Milwaukee, et al., will endeavor to provide opportunities for:

1. The development of each individual in keeping with his capacities, needs, and interests.
2. The development of competence in fundamental academic skills.
3. The attainment of information and understandings essential to group living.
4. The development of sound physical and mental health.
5. The motivation of each individual toward preparing himself for earning a living in a vocation for which he is best fitted.
6. The recognition of the worthy use of leisure time through recreational activities and an appreciation of the arts.
7. The stimulation of mental growth through scientific thinking.
8. The recognition of the responsibilities and privileges of family and community life.
9. The understanding of the privileges and responsibilities inherent in a democratic way of life through the development of wholesome spiritual, social, and civic attitudes.

FOREWORD

This guide utilizes suggestions from fifth grade social studies teachers in the West Allis - West Milwaukee school system. It attempts to facilitate the study of the UNITED STATES through a conceptual approach. Behavioral objectives have been incorporated in an effort to assist the teacher in determining if the approach has resulted in effecting desirable changed behavior in the learner. A multi-text and multi-media process have also been utilized.

It is hoped that the guide will provide a workable framework for all teachers. While very specific activities, resources, and evaluations have been listed, these are not meant to restrict the teacher's initiative, resourcefulness, and creativity. Hopefully, teachers will continue to look for other activities and resources that will be even more effective than the ones listed.

This represents another step in the development of a social studies curriculum for the fifth grade. Written notations in the guide can be invaluable for further revision. Notation of special activities and materials for slow and accelerated learners will also be of great value.

E. G. Kellogg
Superintendent of Schools

Unit I. Natural Setting

- A. Location
 - 1. In the solar system
 - 2. On the earth
 - a. Meridians
 - b. Parallels
 - 3. On the Continent
- B. Climate
 - 1. Influencing factors
 - a. Latitude
 - b. Distance from water
 - c. Mountain barriers
 - d. Others
 - 2. Elements
 - a. Temperature
 - b. Precipitation
 - c. Wind
 - d. Barometric pressure
 - 3. Regional differences
 - a. Seasonal changes
 - b1 Growing seasons
 - 4. Economic value
- C. Terrain
 - 1. Elements
 - a. Slope
 - 1 Plains
 - 2. Hills
 - 3. Mountains
 - b. Surface material
 - c. Arrangement
 - d. Dimensions
 - 2. Economic and esthetic value

- D. Water
 - 1. Distribution
 - a. River systems
 - 1. Effect of elevation
 - 2. Relation to precipitation
 - 2. Uses
 - a. Domestic
 - b. Industrial
 - c. Agricultural
 - 3. Problems
 - a. Purification
 - b. Pollution
 - c. Control dams
 - d. Depletion
 - e. Conservation
- E. Soil
 - 1. Distribution
 - 2. Occupational relationships
 - 3. Vegetation relationships
 - 4. Economic value
 - 5. Conservation

Unit II.

Historical Development

A. Pre-exploration cultures

- 1. Indians of the eastern forests
- 2. Indians of the plains
- 3. Indians of the Southwest
- 4. Indians of the Northwest

B. European interest and effort

- 1. Desire for water routes to the Indies
- 2. Routes of explorers
 - a. Spanish
 - b. French
 - c. English
 - d. Others (Portugal)
- 3. Claims of nations
 - a. Spanish
 - b. French
 - c. English
 - d. Others

D. Achieving Independence

- 1. Precipitating factors
 - a. Internal factors
 - b. External factors
 - c. Colonial Leaders
- 2. War of independence
 - a. Paul Revere's Ride
 - b. Lexington & Concord
 - c. Washington at Valley Forge
 - d. Surrender at Yorktown
- 3. Establishing a New Nation
 - a. Continental Congress
 - b. Declaration of Independence
 - c. Articles of Confederation
 - d. Constitution, formation & development
 - 1. Three Branches
 - 2. Bill of Rights

C. Settlements

- 1. Reasons for founding
 - a. Economic
 - b. Political
 - c. Religious
 - d. Others
- 2. Location
 - a. Spanish
 - b. French
 - c. English
 - d. Others
- 3. Way of Life
 - a. Homes
 - b. Food
 - c. Transportation

3. Way of life

- a. Homes
- b. Food
- c. Clothing
- d. Industry
- e. Transportation
- f. Education
- g. Communication
- h. Government
- i. Beliefs and values
- j. Recreation

Unit III. National Community

A. Government

1. Colonial Origin
2. National Birth-Declaration of Independence
3. Organizational Structure
 - a. Legislative (Congress)
 - b. Executive (President & Cabinet)
 - c. Judicial (courts)
4. National capital
 - a. Capitol
 - b. White House
 - c. Other governmental buildings
 - d. Shrines
 - e. Others
5. Historical symbols and documents
 - a. Flag
 - b. National Anthem
 - c. Seal
 - d. Declaration of Independence
 - e. Constitution
 - f. Others - Statue of Liberty

C. Sociological and Cultural Growth

1. Cultural influences
 2. Contributions
- Westward Movement
1. Explorations & Settlements
 - a. New Routes - Wilderness Road & Oregon Trail
 - b. New Settlements - Boonesborough Kentucky, etc.
 2. Additions to the Nations
 - a. Territory added
 1. Northwest Territory
 2. Louisiana Territory
 3. Gadsden Purchase
 4. Florida
 5. Alaska
 6. Oregon Territory
 - b. Means of acquisition
 1. Treaty
 2. Purchase
 3. War
 - c. Statehood

Unit IV. National Growth

A. Components of a democratic country

1. Individual
 2. Families
 3. Villages
 4. Towns
 5. Cities
 6. Counties
 7. State
- B. The functioning of governmental organizations
1. Organizational structure of government
 2. Relationship of local, state & federal units.

E. The Civil War

1. The causes
 - a. Different ways of life
 1. North - Industrial
 2. South - Plantations
 - b. Disagreements
 1. Tariff
 2. States Rights
 3. Secession
 4. Admission of New States

2. The War
 - a. Leaders
 - b. Important battles
 - c. Physical & psychological results
 3. The Nation Unites Again
 - a. Amendments
 - b. Reconstruction
- F. Industrial Revolution
 1. Development of Industry
 - a. Resources
 - b. Invention
 1. Communication
 2. Transportation
 3. Machinery
 - c. Representative Industries
 1. Textile
 2. Steel
 2. Effects of Industrialization
 - a. Labor
 1. Growth
 2. Organizations
 - b. Growth of Cities
- G. Types of Industry
 1. Extractive
 - a. Mining
 - b. Fishing
 - c. Lumbering
 - d. Agriculture
 2. Fabricating
 - a. Factory System Organization
 1. Capital
 2. Resources
 3. Labor
 4. Management
 5. Concentration of machines
 6. Automation
 - b. Examples of Fabricating Industries
 - c. Purpose for Fabricating Industries

Unit V.

3. Distributive Industries
 - a. Distribution & Sales
 - b. Transportation
 - c. Communication
- A. National Trends
 1. Technological Trends
 2. Automation
 3. Cybernetics (Computerization)
 4. Atomic & Solar Energy
 5. Space Technology
 6. Food production
 7. Travel
- B. Socio - Economic Trends
 1. Urban renewal
 2. Racial differences
 3. Education
 4. Welfare Programs
 5. Leisure Time
 6. Population
 7. Value changes

The time schedule has tentatively been planned to allot enough time to develop the concepts thoroughly. However, realizing there are individual differences, the teacher's good judgment should be the ultimate guide.

Suggested time schedule:

- I. Natural Setting Six Weeks
- II. Historical Development. Eight Weeks
- III. National Community. Six Weeks
- IV. National Growth Thirteen Weeks
- V. Trends. Three Weeks

It is hoped that the units will provide a sound foundation for life-long social studies learning and permit each pupil to function successfully within his range so that he will acquire basic concepts, understandings, and skills.

CONTENT

The United States occupies a uniquely located part of the rotating spherical earth and is related to all other nations in terms of size, distance, direction, and time.

- I. Natural Setting
 - A. Location
 - 1. In the solar system
 - 2. On the earth
 - a. Meridians
 - b. Parallels
 - 3. On the continent

BEHAVIORAL OBJECTIVES

A. The pupil is to be able to locate and label on a map the continents, the United States in relation to the continents, hemispheres, the Prime Meridian, equator, the Tropic of Cancer, and the Tropic of Capricorn.

B. The pupil is to be able to define orally and in writing: solar system, continents, hemisphere, equator, Prime Meridian, rotation, and revolution.

C. The pupil will be able to arrange the items in an address in order beginning with the name and ending with the universe.

ACTIVITIES

The pupils will keep a running notebook of important data accumulated through these units.

AA. The teacher will list the following vocabulary words on the board: continents, United States, hemispheres, the Prime Meridian, the equator, the Tropic of Cancer, and the Tropic of Capricorn, and the pupils will locate these places on a large wall map and in their atlases. This vocabulary list should be placed and kept in their notebooks.

BB. The pupils are to add the additional vocabulary to their notebooks (solar system, rotation, revolution) and write a meaningful definition for all words listed.

BB. Find where the United States is located in relation to the Prime Meridian. Definitions should be arrived at through discussion and/or through the observation of visual media such as a planetarium.

CC. Discuss: "Where in the world are you?"
Review vocabulary: continent, hemisphere, Prime Meridian, equator, and solar system.

RESOURCES

- AA. Macmillan, Living in the Old World, pp. 2-3
- AA. Singer, This is Our Land, (Glossary) p. 9

BB. Singer, This is Our Land, p. 9

CC. Supplement, "Where in the world are you?" (Activity on page 2 of this supplement)
Filmstrip, Using the Globe, ME-27, Frames #13-15, Prime Meridian

EVALUATION

A. On distributed desk maps, the pupils will locate places listed in the vocabulary. Save desk maps in notebooks for future use.

B. Matching quiz on vocabulary terms

C. Provide each child with a scrambled address. Pupil must unscramble.

BEHAVIORAL OBJECTIVES--Continued

- D. The pupil is to be able to demonstrate the relationship between the tilt of the earth and the seasons by using the globe and flashlight.
- The pupil will be able to diagram (on paper) the relationship between the tilt of the earth and the seasons with 100% accuracy.

CONCEPT

A diagram of the classroom including a grid used to locate desks, etc., is a type of map which can be compared to a map used to locate the United States.

(Geography)

BEHAVIORAL OBJECTIVES

- A. The pupil must be able to plot specific points using a grid.

ACTIVITIES--Continued

- DD. Discuss: "How long is it light enough to play outside?"
- a. Difference between night and day: rotation, axis. Time differences.
 - b. Shorter days as winter approaches: revolution, seasons, Tropic of Cancer, Tropic of Capricorn, equinox, tilt of the earth ($23\frac{1}{2}^{\circ}$), sun rays
 - c. Diagram the tilt of the earth in relation to the seasons.

CONTENT**ACTIVITIES**

- AA. Show filmstrip to introduce the term "grid" and its importance in locating places on maps.

RESOURCES--Continued

EVALUATION--Continued

DD. Show filmstrip

D.

Filmstrip, Flat Maps of a Round Globe, ME-28, Frames 1, 2, 27, 29 (rest too difficult)

Given a diag of earth positions, the pupil will label the positions with the appropriate season in the northern hemisphere with 100% accuracy.

Filmstrip, Flat Maps of a Round Globe, ME-28, Frame 29 (rest too difficult)

Using frame 29, call attention to the lines, "What are these lines for?"

RESOURCES

EVALUATION

AA. Filmstrip, Using Common Maps, ME-23, Emphasize frames 21-26

A. Given a grid, the pupil will be asked to plot specific points as indicated by the teacher. Grid activities in supplement packet could be used.

BEHAVIORAL OBJECTIVES --Continued

ACTIVITIES --Continued

AA. Make a grid on your classroom floor by marking off in four foot intervals the desk area of the room. Label these marks A, B, C, etc. Do the same with the width of the room labeling these marks 1, 2, 3, etc. This grid forms a series of crisscross lines which can be useful in determining the location of desks, etc. in the classroom. Locate the pupils' desks, etc. within the squares by means of the A, B, C, - 1, 2, 3, index .

Using an overhead projector, a 3/4 grid transparency, and a grease pencil, locate various pupils' desks. Then project the 3/4 grid transparency on a wall map of the world and locate various places using grid coordinates.

B. The pupil is to be able to demonstrate the similarity between a basic grid pattern and the grid on a flat world map.

BB. Compare various kinds of maps to note the basic grid plan and see within which grid components the U. S. is located.

RESOURCES -- Continued

AA. Floor map of classroom made on transparency to use with overhead projector
Road maps

EVALUATION -- Continued

B. Pupils will verbally pinpoint various places on the map.

.....

A diagram showing the arrangement of the neighborhood is a type of map. Directions and distance and avenue of travel can be shown on these diagrams.

(Geography)

BEHAVIORAL OBJECTIVES

- A. Pupils will trace a given route on an individual diagram and list the directions and distance the route takes.

ACTIVITIES

- AA. Select main streets relative to locality. Show how the crisscross of the streets forms a grid in the village for locating buildings as the grid on the floor in the room was used for locating objects in the room.
- AA. Place 1/4" grid transparency over community map. (Note how it becomes easier to locate places.)
- AA. Have pupils trace a route on the transparency telling class directions and distance they are traveling.

.....

RESOURCES

AA. Map of the area of community near the school
made on transparency
1/4 grid transparency
Ditto of community

EVALUATION

A. Pupils will trace a given route on an
individual diagram listing the directions
and distances traveled.

CONCEPT

The United States occupies a uniquely located part of the rotating spherical earth and is related to all other nations in terms of size, distance, direction, and time.

BEHAVIORAL OBJECTIVES

- A. Pupil will verbally compare the size of the United States to other stated nations.
- B. Pupils will verbally state directions and distances of given nations from the United States.

CONCEPT

Line symbols are used for locating accurately areas of the world. The comparative position of the United States on the earth with respect to the other nations or with respect to the Poles and the equator may be shown. Maps of the United States and various states are often shown with different scales.
(Geography)

BEHAVIORAL OBJECTIVES

- A. Pupils will label the terms latitude, longitude, equator, Tropics of Cancer and Capricorn, Prime Meridian, and North and South Poles on an outline map.

CONTENT**ACTIVITIES**

- AA. Use the 3/4 grid transparency and project this image on a world wall map. Compare size of U. S. and other countries.
- BB. Using wall maps and desk atlases, class will state directions and distance of given nations from the United States.

CONTENT**ACTIVITIES**

- AA. Locate on globe and in atlases: equator, parallels and meridians, Poles, Tropics of Cancer and Capricorn, Arctic and Antarctic Circles, and a number of parallels and meridians.

RESOURCES

AA. 3/4 grid transparency in supplement
Wall map of world

BB. Wall map
Desk atlas

EVALUATION

A. Pupils will verbally compare size of
the United States to other nations.

B. Pupils will verbally state directions
and distances of given nations from the
United States.

RESOURCES

AA. See Teacher's Supplement, Exercises
Using the Globe, Rand McNally, pp. 4-6

EVALUATION

A. On an outline map, pupils will label
in the appropriate places the terms
latitude, longitude, equator,
Tropics of Cancer and Capricorn,
Prime Meridian, and North and South
Poles.

BEHAVIORAL OBJECTIVES--Continued

ACTIVITIES--Continued

- B. Given a wall map and atlases, the pupil is to be able to locate specific areas of the world using lines of latitude and longitude.
- C. Given a grid, the pupil is to be able to map a pattern using degrees of latitude and longitude.
- D. The pupil is to be able to use a string on a globe to find the shortest distance between two given points.
- AA. Add the new vocabulary to vocabulary lists, and add the new labels to the desk map the pupils are keeping in their notebooks. (Latitude, longitude, North Pole, South Pole.)
- BB. Using wall maps and atlases, give the latitude and longitude of specified cities.
- BB. Duplicate the exercises on latitude and longitude and through group work, have the pupils locate the places called for.
- CC. View filmstrips to review vocabulary.
- CC. Using degrees of latitude and longitude, map pattern onto grid. Begin by illustrating the location of the first few points using the overhead projector and transparency provided. Then pupils should complete marking points and connect the marked points.
- DD. Filmstrip to develop the use of map symbols and scale of miles.
- DD. Introduce the term "great circle route," and view filmstrip for clarification.
- DD. View filmstrip.
Follow-up activities:
1. Using a string and the scale of miles, find the shortest distance between a number of places on the globe.
 2. Using various sized globes, note the difference in scale of miles.

AA. Heath, In These United States, pp. 17-21

BB. Teacher's Supplement, #2, 3

B. Given degrees of latitude and longitude and using a desk atlas, the pupil is to give the correct city.

CC. Filmstrip, Using the Globe, ME-27, Stress frames 25-26

C. Pupils will check their pattern against a key for accuracy, making corrections if necessary.

CC. Teacher's Supplement, "Grid Activity," "Graphing," "South America, #6 + 14" Transparency grid

DD. Filmstrip, Elements of a Map, ME-22, Scale of Miles and Legend

DD. Filmstrip, Using the Globe, ME-27, Frames 27-33, Great Circle

D. The pupil will find the shortest distance between two given points by using a string on a globe.

DD. See the Teacher's Supplement, Exercises Using the Globe, pp. 7-9

BEHAVIORAL OBJECTIVES--Continued

ACTIVITIES--Continued

- E. With a desk atlas, the pupil is to be able to figure accurately the distance between designated cities using a scale of miles.
- F. Given an outline map, the pupils will locate, label, and give the significance of the International Date Line.
- G. The pupil is to be able to verbally identify the different time zones, using the U. S. as an example with its Eastern, Central, Mountain, and Pacific time.
- EE. Using an atlas, practice finding the distance between given cities, i.e., Chicago-San Francisco, Juneau-Dallas.
- FF. Locate the International Date Line, and label it on the outline desk maps being kept.
- GG. Using the World Time Dial, practice finding different times. (Example: We start school at 8:30 a.m. What are the people in California doing?)
- H. The pupil is to be able to locate the U. S. in relation to the Tropics and the Polar regions and describe the various modes of dress and shelter relative to a given latitude belt.
- HH. Review vocabulary: Tropic of Cancer, Tropic of Capricorn, equinox, tilt of the earth ($23\frac{1}{2}^{\circ}$), sun rays. (Use map, desk maps, and planetarium.)
- HH. Through discussion determine the latitude belts and how the people in these latitude belts would dress, live, work, eat. (A comparison would be a challenge for a faster group.)

.....

RESOURCES--Continued

EVALUATION--Continued

- E. The pupil will be given ten sets of cities and be required to find the distance between them. (Give or take 50 miles.)
- F. Given an outline map, the pupils will locate, label, and explain the significance of the International Date Line.
- G. The teacher will provide problems such as the one given in the illustration, and the pupils will give the correct times. (An example might be the "late" broadcast of baseball games played in California.)
- H. The pupil is to determine the latitude belts on a flat map. The teacher will have the pupils label the latitude belts.
- FF. Filmstrip, Using the Globe, ME-27, Frames 23-24
- GC. World Time Dial #16
- HH. Planetarium
- HH. Macmillan, Living in the Old World, pp. 5-7, 12-13
- HH. Laidlaw, Our Country, pp. 10-27 (Overview of how geography affects our lives. Lead into next chapter.)

UNIT EVALUATION

Given a blank outline desk map, the pupils will correctly label the given items. The pupils will also match vocabulary words and definitions.

CONCEPT

Region refers to an area which is de-limited as being significantly different from other areas on the basis of one or more selected physical or cultural characteristics.

- B. Climate
1. Influencing factors
 - a. Latitude
 - b. Distance from water
 - c. Mountain barriers
 - d. Others
 2. Elements
 - a. Temperature
 - b. Precipitation
 - c. Wind
 - d. Barometric pressure
 3. Regional differences
 - a. Seasonal changes
 - b. Growing seasons
 4. Economic value

BEHAVIORAL OBJECTIVES

- A. Pupils will define in writing the terms "weather" and "climate."
- B. The pupil will be able to verbally explain the function and use of special purpose maps such as rainfall, population, vegetation, physical, political, etc.

ACTIVITIES

- AA. Differentiate between the terms "climate" and "weather" by looking the words up and comparing meaning.
How has continuous recording of weather conditions helped us to understand climate?
- BB. Study and discuss the special purpose maps in the atlas as listed under resources. Stress the physical map for information.
View filmstrip.

RESOURCES

- AA. Dictionary
- BB. Singer, This Is Our Land, pp. 1-9
- BB. Atlas, pp. 12, 42-44
- BB. Macmillan, Living in the Old World, pp. 14-21
- BB. Filmstrip, Maps of Physical Features, ME-24

EVALUATION

- A. Given two definitions, the pupils will tell in writing which is "weather" and which is "climate."
- B. Given special purpose maps, the pupil will explain what information the map is conveying and its use.

VIORAL OBJECTIVES--Continued

C. The pupil is to be able to identify in writing at least three factors that influence climate within the latitude belts.

ACTIVITIES--Continued

CC. Discuss what factors may influence climate within the latitude belt. (Oceans or water bodies, altitude, land cover, winds, and moisture.) Use atlas, p. 42, map 1. Discuss using 40° N Latitude.

1. Describe the climate where you live.
2. Tell some of the things you can do because of your climate.
3. Tell some of the things you can't do because of your climate.

*Select a place you would like to visit and find out all you can about its climate. (Follow the same line of development as above.)

D. The pupil is to be able to construct separate charts showing the different areas of the U. S., and how the climate there affects vegetation and the activities of man. (Areas could be North, South, East, West, or interesting variations.)

DD. Divide into groups to make a depth study of one of the following to report to the class:

- A. Effects of climate on man
- B. How climate causes world trade
- C. Relationship of climate to:
 1. Fruit and truck farming in the United States
 2. Dairy farming in the United States
 3. Feed, grain, and livestock farming in the United States
 4. Non-farming in the United States
 5. Cotton farming in the United States
 6. Ranching and grazing in the United States

On the basis of the reports given, keep a running chart indicating the effect of climate. Remove the chart after all reports have been completed.

*ENRICHMENT ACTIVITY

RESOURCES--Continued

CC. Macmillan, Living In the Old World, pp. 6-13
Atlas

DD. Macmillan, Living In the Old World, pp. 6-13
Atlas, Special purpose maps
Laidlaw, Our Country, pp. 10-27
Fideler, Books used in relation to topics taken

EVALUATION--Continued

C. The pupil is to list at least three of the factors that influence climate within a latitude belt.

D. Each pupil is to construct a chart, similar to the class chart telling how the climate of at least three regions affects vegetation and activities or occupations of man.

REGION	VEGETATION	OCCUPATION	RECREATION
New York (Industrial)			
Iowa			
Nevada			

CONCEPT

The United States has many natural features formed by the forces of nature.

Content

- C. Terrain
 - 1. Elements
 - a. Slope
 - 1. Plains
 - 2. Hills
 - 3. Mountains
 - b. Surface material
 - c. Arrangement
 - d. Dimensions
 - 2. Economic and esthetic value

BEHAVIORAL OBJECTIVES

A. The pupil will be able to list in writing at least three forces that helped to form the natural features of the earth and tell how these forces helped form the features.

ACTIVITIES

- AA. Set up a model erosion board to demonstrate the power of wind and water to change terrain.
- AA. As a class activity, construct a chart showing how the forces within the earth and the forces outside the earth have changed the surface of the earth. Through discussion add to and complete the following:

<ul style="list-style-type: none"> Force Wind Water Ice-Glaciers Volcanic Action Faulting 	<ul style="list-style-type: none"> Result Wearing away of landforms Canyons, Rivers, etc. Finger Lakes Hawaii Building of Mountains
---	---

Stress cause - effect relationships. Pupils should record charts in notebooks.

AA. Obtain pictures to distinguish the various types of plains (desert pavement, flood plain, coastal plains, etc. - these are pictured on the Nystrom charts also). Hills (eroded, foothills, etc.) and mountains (old, new, block, volcanic, and folding).

RESOURCES

- AA. Teachers supplement - Glaciers
Glaciers, Model of Volcano - Science Life
Grade 5

EVALUATION

- A. The pupil will list in writing at least three forces that helped to form the natural features of the earth and tell how these forces helped form the features.

BEHAVIORAL OBJECTIVES--Continued

- B. The pupil will be able to list in writing the major natural features found in the U. S.

ACTIVITIES--Continued

- BB. Relate to pupil vacation trips and using a wall map locate natural features such as mountains, plateau hills, deserts, lakes, rivers, etc. Briefly discuss and list the natural features on the board. Pupils will record list in notebooks allowing space for symbols that will be introduced later.

CONCEPT

Each natural feature is located on the earth a particular distance and in a particular direction from the other. (Geography)

CONTENT**BEHAVIORAL OBJECTIVES**

- A. The pupil will be able to locate and correctly name at least 3 natural features and orally state the direction one has in relation to the other.

ACTIVITIES

- AA. Play a map game using directions: "From San Francisco I flew northeast to a large city on a big lake. Then I went southeast to a long peninsula. Where would I be?" Have pupils compose mystery directions to present to class. On a few directions, estimate the distance using a scale of miles.

***ENRICHMENT ACTIVITY**

- AA. Encourage pupils to bring in pictures showing landforms or terrain found in the United States. Place a map of the United States on center of bulletin board and place pictures around the map connected by means of yarn to areas within the United States to show relative location of different landforms. (opaque projector) - Begin file. Discuss Direction - Note the rivers and lakes in relation to land formation.

RESOURCES--Continued

BB. Physical map of U.S.

EVALUATION--Continued

B. On a given test, the pupil will be able to list in writing the major natural regions found in the U.S.

.....

RESOURCES

AA. Physical - political map of U.S. and desk atlas.

EVALUATION

A. The pupil will locate and correctly name at least 3 natural features and orally state the direction one has in relation to the other.

CONCEPT

Natural features may be recorded and studied on maps using different symbols to show the altitude of the land.

CONTENT

BEHAVIORAL OBJECTIVES

- AA. The pupil will be able to orally "interpret a physical map by using the key and symbols to locate different natural features.

ACTIVITIES

- AA. Take an imaginary trip using filmstrip. Call attention to the natural features as they look in "reality." After the filmstrip, relate the pictures of landforms to the abstract way they are represented on a physical map.

- AA. Help pupils gain understanding of how symbols are used on maps to indicate differences in terrain by showing the filmstrip, Maps of Physical Features.

Following viewing, have pupils make illustrations to show how altitude may be recorded on maps. Place symbols next to vocabulary in notebooks.

- AA. Show transparency on landforms and discuss.

- BB. The pupil will be able to make a desk size physical map of the U. S.

- BB. Distribute individual desk maps and have pupils record the following features: mountains, hills, plains, tablelands, or plateaus. Through discussion develop a key for the map. Stress the importance of map keys.

- BB. Observe several physical maps of the U. S. and note the variation of keys. Discuss why different keys can be found and still be useable.

RESOURCES

EVALUATION

AA. Filmstrip: Geographic Background
90 A (S.W.)
Physical map of the United States

A. When asked, the pupil will locate various natural features on a physical wall map of the U. S. (Map Scouts)

AA. Filmstrip: Maps of Physical Features MI. 24

AA. Transparency - Landforms #106

BB. Individual desk maps

B. Using an atlas as a guide, the pupil will make a physical map of the U. S.

BB. Physical maps in various texts

.....

CONCEPT

The distributional arrangement of population is inter-related to selected geographical elements or natural features.

CONTENT**BEHAVIORAL OBJECTIVES**

AA. The pupil will be able to give two written examples of how population density is related to geographic features.

ACTIVITIES

AA. Using transparency, discuss the four classifications and characteristics of landforms, how man has used the four types, and effect of landforms on distribution of population.

** Divide class into groups to do research on the surface features in the United States of greatest interest. Find relationship to early history, density of population, industry, etc.

CONTENT

Different occupiers of the land, including the Indians and Europeans, have applied knowledge, tools, and ways of working to the natural habitat. As each group of settlers discovered and appraised the natural elements, they developed differing ways of living and working which have changed from time to time during the history of the country.

- D. Water
 - 1. Distribution
 - a. River systems
 - 1) Effect of elevation
 - 2) Relation to precipitation
 - 2. Uses
 - a. Domestic
 - b. Industrial
 - c. Agricultural
 - 3. Problems
 - a. Purification
 - b. Pollution
 - c. Control dams
 - d. Depletion
 - e. Conservation

BEHAVIORAL OBJECTIVES

- A. Pupils should be able to construct a chart class showing the used of water in the home, industry, and agriculture.

ACTIVITIES

- AA. Develop class chart to show use of water in the areas of home, industry, and agriculture. Begin chart in class and have pupils complete for discussion later. Pictures could be shown or drawn to illustrate these uses. Place in notebooks.
- AA. Introduce the idea of living in a world in which suddenly no water is available. Have pupils write creative stories based on a theme in which water is unavailable.

.....

RESOURCES

AA. Macmillan, Science Life, Grade 5,
pp. 219-223

EVALUATION

A. Pupils are to construct a
chart showing the uses of water in
home and industry.

The distribution of water depends upon the topography and the atmospheric conditions.

BEHAVIORAL OBJECTIVES

- A. The pupil is to be able to explain verbally the relationships between distribution of water and type of terrain.

ACTIVITIES

- AA. Utilize transparencies and desk atlases to point out certain terrain and distribution of rainfall, streams, rivers, and lakes. Through inductive discussion procedures, draw out relationships between terrain and water distribution.

- AA. Discuss: "If you were a pioneer heading West (with an inventive mind), what kind of land would you have selected to settle on?"

(Draw through discussion that the availability of natural resources was of prime concern - stress water.)

- AA. Discuss: "In what ways have the rivers and lakes in the United States been advantageous and adverse to man?"

- B. The pupil is to be able to describe verbally the effect of terrain on the direction of a river's flow.

- BB. Using transparencies demonstrate how the continental divide has influenced the flow of rivers. Establish the meaning of the term "continental divide" as this is new terminology for grade 5.
-

RESOURCES

- AA. Transparencies
Major Land Forms, #106
Stream Outline Map, #119
Transportation, #116
Annual Precipitation, #103
Drainage Basins, #112

EVALUATION

- A. Various pupils will be able to explain verbally the relationships between distribution of water and type of terrain.

- BB. Transparency
Major Land Forms, #106

- B. The pupil will describe orally the effect of terrain on the direction of a river's flow.

CONTENT

Because of limited resources and man's ever-increasing needs, each community must make the wisest possible use of all its human and natural resources.

BEHAVIORAL OBJECTIVES

- A. The pupil is to be able to list in writing three increasing needs of today's society that are draining and polluting our natural water supply.

ACTIVITIES

- AA. General reading and research on man's use of water and the resulting problems.
- AA. Discuss and list on board ways in which man uses water and resulting problems.
Example:
 - 1. Drinking and purification
 - 2. Irrigation and pollution
 - 3. Industry and pollution
 - 4. Waste disposal and pollution
 - 5. Others

- AA. Pupils should copy list for their notebooks

- AA. Discuss the following:

- 1. If you had to reduce the amount of water you use each day from 300 quarts to 50 quarts, how would you do it?
 - 2. Should factories be permitted to pollute the water with wastes if people seldom fish there and no community is using the rivers and lakes for a water supply?
-

RESOURCES

AA. Science Life, Grade 5, pp. 221-229

EVALUATION

A. On a given test, pupils will list in writing three increasing needs of today's society that drain and pollute our natural water supply.

Every community encounters problems in providing certain public services.
(History)

There are national and state laws as well as community rules and regulations.
(Political Science)

BEHAVIORAL OBJECTIVES

- A. Pupils will verbally state several problems that communities encounter in providing public water services.
Example: 1. Water distribution
2. Water purification
3. Waste disposal
4. Others

ACTIVITIES

- AA. Divide the class into groups. Each group will choose one of the topics below and find information on it. Each group may report to the class in whatever way it chooses (tape recording, pictures, charts, or graphs with oral reports).
1. Community water distribution
2. Water purification
3. Waste disposal
4. Water drainage
5. Sources of water

- B. The pupil will be able to prepare and give an oral report making use of at least two resources, putting the material into the pupil's own words, proofreading, and employing oral speaking skills such as eye contact, articulation, etc.

- BB. Review skills related to presenting oral reports.

RESOURCES

- AA. Macmillan, Science Life, Grade 5, Chapter 9
- AA. Encyclopedias
- AA. The Wonder of Water, (Supplementary packet)

EVALUATION

- A. Pupils will state orally three problems that communities encounter in providing public water services.
- B. The pupils will present the report making use of at least two resources, putting the material into his own words and employing the oral speaking skills such as eye contact and articulation.

BEHAVIORAL OBJECTIVES--Continued

- C. Pupils will be able to state verbally two examples of government water controls and regulations.

ACTIVITIES--Continued

- CC. Expanding the information from reports, discuss the controls government has instituted relative to water and its use.
- CC. Teacher with pupil assistance will develop a summary outline of major points covered in reports and discussion.
- CC. Pupils will copy this outline and place in their notebooks.

CONCEPT

While abundant natural resources alone do not insure a high standard of living, unequal distribution of natural resources has been a contributing factor to "pockets of poverty" in all stages of American development.

CONTENT

- E. Soil
 1. Distribution
 2. Vegetation relationships
 3. Occupational relationships
 4. Economic value
 5. Conservation

BEHAVIORAL OBJECTIVES

- A. Pupils will be able to define in writing the term "standard of living."
- B. Given a list of soil groups pupils will be able to place these correctly on an outline map.
- C. Given a list of vegetation groups, pupils will be able to place these correctly on an outline map.

ACTIVITIES

- AA. Use encyclopedia to discover definition of "standard of living." Place in notebooks.
- BB. Use transparency to show soil group locations. Pupils fill in an outline map of soil group locations.
- CC. Show transparency on vegetation, #105. Compare to soil transparency. Discuss how soil relates to vegetation in given areas.

RESOURCES--Continued

- CC. Pupil reports
Wisconsin Blue Book
Macmillan, Science Life, Grade 5,
pp. 224-229

EVALUATION--Continued

- C. Pupil will state two examples of government water controls and regulations.

.....

RESOURCES

- AA. World Book Encyclopedia
- B. Transparency on soil groups (Supplementary packet)
- CC. Vegetation transparency, #105. Soil transparency (Supplementary packet)

EVALUATION

- A. Pupils will be able to write the definition for the term "standard of living."
- B. Pupils will be able to correctly place a given set of soil groups on an outline map.
- C. Pupils will be able to correctly place a given set of vegetation groups on an outline map.

BEHAVIORAL OBJECTIVES --Continued

- D. Pupils will be able to list in writing five major crops and the area of the nation in which these crops are grown.
- E. Pupils will be able to state verbally areas of the nation in which crops of economic value are not grown.
- F. Pupils will be able to compare verbally productive growing areas to poor ones and state the main reason for this difference.
- G. Pupil will state verbally the two word definitions of "conservation."
- H. Pupils will list in writing four ways in which man wisely preserves and uses his soil.

ACTIVITIES --Continued

- DD. Pupils will do general reading and note-taking to determine what the major crops of the U. S. are and where they are grown. Encourage pupil to utilize a definite note-taking form.
- EE. On U. S. outline transparency, teacher will delimit major crop growing areas and have pupils note the remaining less-productive areas.
- FF. Discussion of productive and less-productive farm areas in the U. S. to draw forth reasons for these differences.
- GG, HH. Class will listen to a pupil prepared report on conservation of soil. Discuss the report and list and describe on the board those ways in which man wisely preserves and uses his soil. Record in notebooks. (Stress the definition of "conservation.")

RESOURCES--Continued

EVALUATION--Continued

DD. Harper Row, The Story of Our Country.
See Index, p. 409
Singer, This Is Our Land, Index, p. 467
Heath, in These United States, Index, p.482
Silver Burdett, The Changing New World,
Index, p. 413
Fidelier Books, See section on Farming

D. Pupils will list in writing five major crops and tell the location in which these crops are grown.

EE. Outline map of U. S., (Transparency in supplementary packet)

E. Pupils will state the areas of the country in which crops of economic value are not grown.

FF. None

F. Pupils will be able to state verbally the difference between the major growing areas and the less-productive ones.

GG, HH. World Book Encyclopedia

G, H. Using the two word definitions, the pupil will list in writing four ways in which man wisely preserves and uses his soil.

.....

1.
CONCEPT

Our knowledge of primitive cultures comes from the artifacts rather than the written word.

CONTENT

- II. Historical Development
 - A. Pre-exploration cultures
 - 1. Indians of the eastern forests
 - 2. Indians of the plains
 - 3. Indians of the Southwest
 - 4. Indians of the Northwest

BEHAVIORAL OBJECTIVES

A. The pupil is to be able to define "artifact" and recognize pictures of artifacts as such.

ACTIVITIES

AA. Given a picture of a crude tool such as an ax, the pupils will discuss what they think the people were like that used this tool. Through this discussion, the word "artifact" should be introduced and defined. The pupils will then add the word "artifact" to their vocabulary lists.

B. Through discussion, the pupil should be able to give three verbal examples of how we have learned about primitive cultures through artifacts rather than through the written word.

BB. Discussion: "How do we know about the Indian?" (Through artifacts rather than written record)

Pupils should be able to support statements by using information gained from their readings.

.....

RESOURCES

AA. Dictionary

BB. Ginn, Trails to Freedom, 1967, pp. 9-17
 Singer, This Is Our Land, 1963,
 Chapter 2
 Heath, In These United States, 1965,
 pp. 47-61
 Harper Row, The Story of Our Country,
 1965, Chapter 1

EVALUATION

A. The pupil will be able to define verbally the word "artifact" and given some examples, he will be able to identify artifacts when shown pictures.

B. The pupil will give three verbal examples of how we have learned about primitive cultures through artifacts.

CONTENT

New civilizations often begin with re-distribution of people.

BEHAVIORAL OBJECTIVES

- A. The pupil is to be able to orally define migration and give at least three examples of migration such as the Europeans to America and the migrant workers of today.
- B. Through observation and discussion of a map and tracing the routes of the first Indians to the New World, the pupil will be able to chart such a course on individual desk maps. C-L.

ACTIVITIES

- AA. Introduced to the term "migration" the pupils will determine the meaning and give examples of migrations that have taken place to the U. S. in past decades.
- BB. Initiate for discussion: "Challenge: Given point X as base location (Asia Minor), how would you 'migrate' to Wisconsin? Assume that this was during the Stone Age."

- BB. Trace the route on physical desk maps.

CONCEPT

Although different in appearance, the Indians lived in families and communities and carried on many activities similar to those of the white settlers.

(Anthropology)

BEHAVIORAL OBJECTIVES

- A. The pupil will be capable of paralleling the basic needs of the Indians and those of the white settlers by comparing, in writing, the activities of each and stating the similarities as well as the differences.

CONTENT

ACTIVITIES

- AA. Through discussion, compare the different ways of life of Indians of the eastern forest, plains, southwest, and northwest including such things as food, shelter, clothing, customs, need to communicate, etc.
- AA. Use dioramas to illustrate Indian cultures and life.

RESOURCES

- AA. Dictionary
Teach-A-Chart, #105, 106

EVALUATION

- A. The pupils will verbally give examples of migration.

- BB. Ginn, Trails to Freedom, 1967, pp. 18-35
Harper Row, The Story of Our Country,
1965, p. 20
Merrill, Our Nation's Builders, 1966,
pp. 1-4
Physical map of world

- B. The pupils will chart the course of the Indians to the New World. The charting will be done on an outline desk map of the world.

RESOURCES

- AA. Doubleday, North American Indians,
1963
- AA. Filmstrip, The American Indian,
ME-1002
- AA. World Book Encyclopedia
- AA. Fidler, Colonial America

EVALUATION

- A. The pupil will make a written chart to be placed in their notebooks, paralleling the basic needs of the Indians with those of the white settlers

BEHAVIORAL OBJECTIVES--Continued

B. The pupil will be able to list in writing three phases of our culture that were derived from our American Indian heritage.

ACTIVITIES--Continued

- AA. Continuing discussion, the pupils will note the ways the white settlers met their basic needs and begin a class chart paralleling these needs to those of the Indians.
- BB. Through discussion and research, the class will answer the following question by working in groups:
 "What is our American Indian Heritage?"
 (Many Indian words have been adopted and many art forms such as folk literature, music, and poetry. Half of our national farm produce consists of plants domesticated by the Indians.)

CONCEPT

Different occupiers of the land, including Indians and Europeans, have applied ingenuity, knowledge, tools, and ways of working to the natural habitat.
 (Geography)

CONTENT

BEHAVIORAL OBJECTIVES

A. The pupils will be able to orally compare and contrast how the different Indian tribes were able to apply their knowledge to meet their specific needs giving at least three examples.

ACTIVITIES

- AA. Discuss the ways in which the land and climate and available natural resources affected the way the Indians lived and obtained their food. (Differences in names, dress, food, tools, activity, and travel.)
 While the discussion is taking place, the teacher could list the contributions on the board in chart form to be copied by pupils in their notebooks.

WOODLAND INDIANS	PLAINS INDIANS	NORTHWEST FISHERMEN	SEED GATHERERS	SOUTHWEST INDIANS
------------------	----------------	---------------------	----------------	-------------------

B. The pupil will be able to list at least three phases of our culture that were derived from the American Indian.

RESOURCES

- AA. Filmstrip, The American Indian, ME-1002
- AA. Singer, This Is Our Land, 1963, pp. 18-35
- Heath, In These United States, 1965, pp. 47-53
- AA. Transparencies
 - American Indian, #104
 - Climates, #102
 - Temperature, #117
 - Drainage Basin, #112
- Annual Precipitation, #103
- Major Land Forms, #106
- Natural Vegetation, #105

EVALUATION

A. The pupils will copy the chart in their notebooks and after copying, orally give some of the ways (three) the different Indian groups were able to meet their specific needs.

CONTENT

- B. European interest and effort
 - 1. Desire for water routes to the Indies
 - 2. Routes of explorers
 - a. Spanish
 - b. French
 - c. English
 - d. Others (Portugal)
 - 3. Claims of nations
 - a. Spanish
 - b. French
 - c. English
 - d. Others
- (Stress exploration and not settlement which will be covered in the next section.)

BEHAVIORAL OBJECTIVES

- A. The pupil will be able to give an oral account of at least two needs that motivated the Europeans to finance explorers and to establish settlements in the New World. C-1.
- B. The pupil will be able to label correctly on a given map the route taken by such explorers as Christopher Columbus, Magellan, and Drake.
- C. Pupils will be able to state verbally the three important countries that laid claim to areas of the North American continent. i.e, Spain, France, England.

ACTIVITIES

- AA. Discussion: "What motivated European countries to finance explorers and to establish settlements in the New World?"
- BB. Show class chart maps #1 and #2.
Discuss routes shown.
- BB. On a world map transparency, have pupils plot the routes of Columbus, Magellan, and Drake using a grease pencil or marking pen.
- CC. Show Eye Gate teaching chart #6.
Discuss in terms of the areas and dates given.

.....

RESOURCES

- AA. Laidlaw, Our Country, 1961, pp. 67-85
- AA. Filmstrip, The Age of Exploration, ME-1001

- Harper Row, The Story of Our Country, 1965, pp. 50-51, 62, 72, 87
- BB. Eye Gate Chart #1 and #2
- CC. Eye Gate Chart #6

EVALUATION

- A. The pupil will state at least two needs that motivated Europeans to send explorers to the New World.
- B. On a given map, the pupils will be able to label correctly the routes of Columbus, Magellan, and Drake.
- C. Pupils will state verbally the three nations that laid claim to the North American continent.

CONTENT

Events in Europe influenced the historical development of the United States. (History)

- C. Settlements
 - 1. Reasons for founding
 - a. Economic
 - b. Political
 - c. Religious
 - d. Others

BEHAVIORAL OBJECTIVES

- A. Pupils will be able to match a given set of reasons for groups settling the New World with the appropriate given categories.
Example:

REASONS	CATEGORY
A. Pilgrims wanted freedom to worship as they pleased.	A. Religious

ACTIVITIES

- AA. Problem: What values did the early settlers have to balance the physical hardships in the New World.
- AA. Discuss: What are the events that took place in Europe which led to the settlement of America:
 - a. List ideas. (Be sure children understand why traders wanted to go to the east.) Have them think in terms of economic, political, and religious reasons.
 - b. Compare list to Eye Gate chart #105, Maps, and discuss the economic, political, and religious reasons.
- AA. Select particular settlements that were a new hope to unhappy and abused Europeans (Idle laborers, religious refugees, and landless farmers).
Discover through discussion how these "New Americans" built into their colonies new hope for the future.
- AA. Discuss: Were the freedoms in the colonies the same?

RESOURCES

- AA. Ginn, Trails to Freedom, 1967, pp. 38-52
- Ginn, Your Country's History, 1966, pp. 43-93.
- Singer, This Is Our Land, 1963, pp. 36-57, 40

AA. Eye Gate Chart #105, Maps

EVALUATION

- A. The pupil will match a given set of reasons for groups settling the New World with the appropriate given categories.

People from many different social, economic, ethnic, and national groups have settled in this country.

CONTENT

- 2. Location
 - a. Spanish
 - b. French
 - c. English
 - d. Others

BEHAVIORAL OBJECTIVES

A. Pupils will be able to match settlements with the national or religious group that founded the settlement.

ACTIVITIES

AA. The class will construct a chart consisting of the settlement and group that settled to be copied later in their notebooks.

EXAMPLE:

New York	Dutch
----------	-------

CONCEPT

Lack of specialization forced the early settlers to spend most of their time securing a minimum of food, clothing, and shelter for survival.
(Economics)

CONTENT

- 3. Way of life
 - a. Homes
 - b. Food
 - c. Clothing
 - d. Industry
 - e. Transportation
 - f. Education
 - g. Communication
 - h. Government
 - i. Beliefs and values
 - j. Recreation

RESOURCES

- AA. Ginn, Trails to Freedom, pp. 84-187
- Singer, This Is Our Land, pp. 40-87
- Harper Row, The Story of Our Country, pp. 84-136
- Laddlaw, Our Country, pp. 131-152

EVALUATION

- A. The pupils will match settlements with the national or religious group that founded the settlement.

ORAL OBJECTIVES

A. The pupil is to be able to make a chart comparing colonial times with present-day America in terms of home, food, clothing, industry, transportation, education, communication, government, beliefs and values, and recreation.

ACTIVITIES

AA. Through reading and research, the pupils will take notes on life during colonial times. Note-taking should be done on the basis of home, food, clothing, industry, transportation, education, communication, government, beliefs and values, and recreation.

AA. After research, these findings will be compared with present day America.
EXAMPLE:

BASIS	COLONIAL TIMES	PRESENT DAY AMERICA
Education	"Dame Schools"	Laws vary from state to state. Wisconsin, 16 years of formal training.

The comparison could best be completed through a class discussion and teacher recording of information.

AA. Copy final charts in notebooks.

B. From the comparison of early settlements to present day America, the pupil will be able to state the prime reasons for the change.

BB. Based on the above chart, discuss what has enabled America to progress at such a great rate within the last 300 years. Stress industrialization and specialization. i.e., Food gathering or farming.

.....

RESOURCES

- AA. Fidler, Colonial America
Laidlaw, Our Country, pp. 121-162
Harper Row, The Story of Our Country,
125-137
Ginn, Trails to Freedom, 1967, pp.
195-203
AA. Filmstrip, The American Colonies,
ME-1003

- BB. Ginn, Trails to Freedom, pp. 199-200,
342-361

EVALUATION

- A. The pupil will compare, in chart form, colonial times with present day America in terms of home, food, clothing, industry, transportation, education, communication, government, beliefs and values, and recreation.

- B. The pupil will orally explain how specialization and industrialization have been prime factors in the growth of America. Pupil will give an example.

CONCEPT

Only simple machines were used in colonial America because at that time either no one had invented better ones or no one could make machines which were being contemplated.
(Economics)

BEHAVIORAL OBJECTIVES

- A. The pupil will be able to list in writing at least three reasons why the people of colonial America were limited to the use of simple machines. i.e., Lack of knowledge, time, isolation, subsistence way of life, etc.

ACTIVITIES

- AA. If possible, collect pictures to show how people earned a living in the early settlements.

- AA. On the basis of the previous comparison, and on the pictures found, discuss:

1. What is a simple machine?
2. What are some simple machines found in colonial times? i.e., cards, swingling
3. Why didn't the colonists use more "efficient" machines?

- AA. Leonardo da Vinci lived from 1452 to 1519 and had many ideas that were very advanced for their time. Discuss why these ideas, such as flying machines, machine guns, armored vehicles, parachutes, were not developed and used during the time of their conception.
-

RESOURCES

AA. Fideler, Colonial America

AA. World Book Encyclopedia

EVALUATION

A. The pupil will list, in writing, three reasons why people of colonial America were limited to the use of simple machines.

CONTENT

Acts and events have both causes and consequences which are never simple and often complex.

People frequently rebel against their government when it neglects the welfare of the people.
(Political Science)

- D. Achieving Independence
1. Precipitating factors
 - a. Internal factors
 - b. External pressures
 - c. Colonial leaders
 2. War for Independence
 - a. Paul Revere's ride
 - b. Lexington and Concord
 - c. Washington and Valley Forge
 - d. Surrender at Yorktown
 - e. Others
 3. Establishing a new nation
 - a. Continental Congress
 - b. Declaration of Independence
 - c. Articles of Confederation
 - d. Constitution formation and development
 - 1) Three branches
 - 2) Bill of Rights

BEHAVIORAL OBJECTIVES

- A. Pupils will be able to define orally a given list of vocabulary words.
- B. The pupil should be able to list in writing three unwise rulings of the British Parliament that irritated the thirteen colonies and one result of each.
- EXAMPLE:
The tea tax and the resulting Boston Tea Party.

ACTIVITIES

- AA. Pupils will be given a teacher prepared list of vocabulary words. They will define these words in writing and place in their social studies notebooks.
- B. Through reading and discussion, list the rulings of Parliament that angered the colonists. The questions might be used as a guide:
1. What were the rulings?
 2. Why did Parliament issue them?
 3. What was the colonists reaction?
 4. Why did the colonists react as they did?

RESOURCES

AA. Teacher prepared vocabulary list

BB. Ginn, Trails to Freedom, pp. 223-233
Laidlaw, Our Country, pp. 177-182
Harper Row, The Story of Our Country,
pp. 151-155

EVALUATION

A. The pupils will orally define the given vocabulary words.

B. The pupil will list in writing three unwise rulings of the British Parliament with regard to the thirteen colonies.

BEHAVIORAL OBJECTIVES--Continued

C. Pupils will state verbally three factors other than British parliamentary decisions that contributed to the rebellious spirit of the colonies.

ACTIVITIES--Continued

CC. Through reading and discussion, list factors other than British parliamentary decisions that led to rebellion.

EXAMPLE:

Changing way of life in colonies led to:

1. Pride in a new way of life
2. Self-reliance
3. Personal beliefs and ideals

Leaders

1. Ben Franklin
2. Thomas Paine, etc.

D. The pupil is to be able to verbally list leaders of the Revolutionary Period and include the qualities or characteristics that contributed to each one's influence.

DD. Assign reports on Patriots of the Revolutionary Period. Have class discussion on the effect of their work on our lives today.

After each report is given, list the name of the person on the board, and after the name, the qualities that enabled the person to make a significant contribution to this period in history.

Keep this list throughout reports and at the completion of the reports record the lists in pupil notebooks.

- CC. Ginn, Your Country's History, pp. 110-177
- Chapters:
- "A British Victory and Life in the Colonies," pp. 94-113
 - "Ideas of Freedom," pp. 114-130
 - "The Fight for Freedom," pp. 131-146
 - "First Attempt to Form Union," pp. 147-158
 - "Creation of More Perfect Union," pp. 159-177

- Singer, This Is Our Land, pp. 89-113
- Esther Forbes, Johnny Tremain, (Boston Tea Party)
- DD. Laidlaw, Great Names in American History, pp. 48-101
- Fideler, Great Americans, 1966
- Ginn, Trail Blazers of American History, 1966, pp. 90-132
- D. The pupil will list verbally the leaders of the Revolutionary Period and tell some of the qualities that contributed to their influence.
- C. The pupil will verbally state three factors other than British parliamentary decisions that contributed to the rebellious spirit of the colonies. Included should be the inner feelings of the colonies as well as influential people.

BEHAVIORAL OBJECTIVES--Continued

E. Given a list of Revolutionary War events, the pupil will place these correctly in the blank spaces of a given paragraph.

F. The pupil is to be able to compare verbally several reasons and attitudes present during the Revolutionary War with those present in recent years.

G. The pupil is to be able to compare verbally techniques and technology of the Revolutionary War to those used in recent years.

H. The pupils will be able to construct a time line of the most important events of the Revolutionary War.

ACTIVITIES--Continued

EE. The pupils will look at the chapters, read the main headings to gain an overview of the material. The teacher will gather these headings from pupil response to form an outline to be placed on the board. The pupils will read in depth to fill in the outline.

FF. Make a poster inviting colonists to join the Minutemen. What were the motivating forces? What made them want to join?

Discuss life in the American Army during the Revolution. Discuss the attitudes of the soldiers, i.e., Sunshine Patriot. How do these attitudes differ from present situations?

GG. Diagrams of Battles. Relate to the tactics of modern warfare and how these are still used as patterns of attack. (Reports on battles)

HH. Make a time line of the events (from 1764 until 1789) which led to the establishing of our nation.

RESOURCES--Continued

EVALUATION--Continued

- EE. Laidlaw, Our Country, pp. 182-198
Heath, In These United States, pp. 113-120

Chapter 8
At-A-Flash Time Line Cards, Revolutionary
War, Set IV
Thomas Paine, Sunshine Patriot
- GG. Filmstrip, The Years of Revolution,
ME-1005
- HH. At-A-Flash Time Line Cards, Revolutionary
War, Set IV
Ginn, Trails to Freedom, p. 257
- E. On a given test, pupils will correctly
fill in the blank spaces of a paragraph
using a list of Revolutionary War events.
- F. The pupils will verbally compare some
reasons and attitudes present during the
Revolutionary War with those of recent
years.
- G. Pupils will orally compare techniques
and technology of the Revolutionary War
to those used in recent years.
- H. The pupil will construct a time line
including the most important events
of the Revolutionary War.

BEHAVIORAL OBJECTIVES--Continued

I. Through listening, discussion, and reading, the pupil is to be able to select from a given list a portion of a favorite poem and tell orally how these words relate to the Revolutionary War.

J. Pupil will read the Declaration of Independence and be able to list in writing three examples from the Declaration of Independence that pertain to present day problems.

EXAMPLE:

All men are created equal. (Civil rights issues)

ACTIVITIES--Continued

II. Why were these songs made up:
"Yankee Doodle"
"Singing Riflemen of Bennington"
Others
Read some of the good poems about that period: "Paul Revere's Ride"

JJ. Using a transparency, discuss the Declaration of Independence (especially the first two paragraphs) and relate the ideas contained therein to present day problems. As discussion progresses, the teacher could list the possible related ideas on the board.

RESOURCES--Continued

EVALUATION--Continued

- II. Music books
Poem books
"Folk Songs in American History"
with filmstrips, (Early Colonial Days,
Revolutionary War), Set I

- I. The pupil will select from a given list a portion of a poem and tell orally how these words relate to the revolutionary war.

WRITE TO:
John Hancock Mutual Life Insurance Co.
200 Berkeley Street
Boston, Massachusetts 02117

- JJ. Transparency, Declaration of Independence,
Teacher's Supplement

- J. On the basis of the study done on the Declaration of Independence, the pupil will list three written examples of how the Declaration of Independence pertains to today's problems.

CONTENT

Our colonial experience helped to shape our national government and our federal constitution. (History)

- III. National Community
 - A. Government
 - 1. Colonial origin
 - 2. National birth - Declaration of Independence
 - 3. Organizational structure
 - a. Legislative (Congress)
 - b. Executive (President and Cabinet)
 - c. Judicial (Courts)

PRETEST:

Before beginning the study of the federal government, each student should jot down his understandings of what the federal government means to him. (Save papers.) A follow-up survey should indicate the learning that takes place.

BEHAVIORAL OBJECTIVES

- A. The pupils will be able to state in writing two reasons for the states not wanting a strong central government.
- B. Pupils will be able to state in writing two reasons why a stronger central government was needed.
- C. Pupil will be able to state the primary reason for the failure of the Articles of Confederation.

ACTIVITIES

- AA., BB., CC. General reading and research by pupils. Place guide questions on the board, "Why didn't the states want a strong central government?" "Were the Articles of Confederation successful?" Support your answer with reasons.

Discuss guide questions and record answers and reasons agreed upon by the class in individual social studies notebooks.

.....

RESOURCES

AA., BB., CC., Houghton Mifflin, The Citizen and His Government, pp. 114-117
 Ginn, Trails to Freedom, pp. 258-262
 Heath, In These United States, pp. 121-124
 Slinger, This Is Our Land, pp. 246-248
 Harper Row, How Our Government Began, pp. 52-54, 58-60
 Slinger, The Story of Our Country, pp. 175-183
 Filmstrip, Eye Gate, The Constitution of the United States--Historic Background, 52A

EVALUATION

- A. The pupil will be able to state in writing two reasons for the states not wanting a strong central government. The pupils will later be tested on this information.
- B. The pupil will be able to state in writing two reasons why a stronger central government was needed. The pupil will be tested on this information in a unit test.
- C. The pupil will be able to orally state the prime reasons for the failure of the Articles of Confederation.

CONCEPT

Compromise enables progress without destroying the basic rights of the majority.

BEHAVIORAL OBJECTIVES

- A. The pupil will be able to describe in writing the actions the delegates engaged in to write a successful workable constitution. i.e., discussion, evaluation of presented proposals, compromise.
- B. The pupils will write down a set of functional rules which through their development would require compromise.

CONCEPT

The constitution is the supreme law of the land.
(Political Science)

BEHAVIORAL OBJECTIVES

- A. The pupil will define "constitution," both orally and in writing.

CONTENT

ACTIVITIES

- AA. General reading and research by pupils to determine the actions delegates engaged in to write a successful workable constitution.

- BB. Through discussion, pupils should arrive at a set of workable rules to govern their clubs' workings. If possible, work the rules up in constitutional form.

ACTIVITIES

- AA. By looking the word up in reference material, the pupils will arrive at a definition for the word "constitution," (A basic set of rules that govern a country), and record it in their notebooks.

RESOURCES

- AA. Glinn, Trails to Freedom, pp. 261-265
Benefic, How Our Government Began
Singer, This Is Our Land, pp. 252-254

EVALUATION

- A. The pupil will be able to describe in writing the process engaged in by the delegates to promote the formulation of a workable constitution.

- BB. Glinn, Trails to Freedom, pp. 261-265
Benefic, How Our Government Began
Singer, This Is Our Land, pp. 252-254
Instructor, November, 1967, p. 128

- B. Evaluation of the rules will come through an observation of their workability.

RESOURCES

- AA. World Book Encyclopedia Dictionary
(Resource to be used throughout;
McGraw Hill, Our Constitution and What It Means.)

EVALUATION

- A. On a test to be given later, the pupils will correctly match the word "constitution" with its meaning.

BEHAVIORAL OBJECTIVES--Continued

B. The pupils will be able to state both verbally and in writing the reason for beginning the constitution with the Preamble.

- C. The pupil will state five ways that the Bill of Rights, the first ten amendments to the Constitution, protects our rights and liberties.
- C. The pupil is to be able to give an account of the occurrences that laid the foundation for the ideals of liberty and freedom. i.e., Peter Zenger Trial.
- D. While reading the Bill of Rights, the pupils will be able to list in writing five examples from this document that pertain to their present day lives. i.e., Right to bear arms. (Should weapons be registered?)

ACTIVITIES--Continued

BB. Introduce the Preamble to the Constitution and discuss reasons why the Preamble comes at the beginning. Have pupils arrive at the fact that it states clearly the purpose for the new plan of union. It contains the basic ideas:
1. the rights of the people; 2. the objectives such as union, justice, order, etc. Discuss significance.

The pupils will copy the Preamble along with its significance in their notebooks.

CC. Using the transparency, read the Bill of Rights. As each is read, stress the ways it protects the citizens of the United States.

CC. Through reading and research, the pupils will take notes on the events that led to the formation of the Bill of Rights. (Why were certain specific items included?)

DD. Using a transparency, the teacher will project the Bill of Rights for all pupils to read. After reading, the class should discuss one or two of the Articles relating them to present day life. These relationships could be listed on the board. The pupils will then relate five of these rights to their present day lives in written form to be handed in to the teacher.

BB. Transparency, Preamble to the Constitution

B. Pupils will copy the Preamble in their notebooks and tell why it is used to begin the Constitution.

CC. Transparency, The Bill of Rights
Laidlaw, Our Country, pp. 54-59
Heath, In These United States, pp. 104-105

C. The pupil will orally state five ways in which the first ten amendments to the Constitution protect our rights and liberties.

C. The pupil will orally explain some events that were the background for the Bill of Rights.

DD. Transparency, Bill of Rights

D. While viewing transparency, the pupil will list in writing five examples from the Bill of Rights that pertain to their present day lives.

BEHAVIORAL OBJECTIVES--Continued

E. The pupil will be able to list in writing four characteristics of our Constitution.

ACTIVITIES--Continued

EE. On the basis of previous reading and through the teacher leading the discussion, the pupils will list on paper the four characteristics of a Democratic Constitution.
EXAMPLE:
1. Provides a form of government
2. Sets limits for the government's power
3. Assures the rights and liberties of the citizens
4. Has a lasting, adaptable quality--amending
After discussing the four characteristics should be re-recorded in social studies notebooks.

F. Pupils will be able to define in writing the term "representative democracy."

FF. Pupils should define the term "democracy." Pupils should define the term "representative." Put the meanings together and define the term "representative democracy." Discuss and place definition in their notebooks.

RESOURCES--Continued

EE. World Book Encyclopedia

EVALUATION--Continued

E. From a given list, the pupils will select the four characteristics of a democratic constitution.

FF. Dictionary, Encyclopedia

FF. Write for:

"Our American Government--What it is?
How Does it Function?" House Document,
#530, Contact Senators or Representatives

F. The pupil will be able to define in writing the term "representative democracy."

.....

As cultures become more complex and technology more advanced, there is some need for larger and larger governmental units.

(Political Science)

BEHAVIORAL OBJECTIVES

- A. The pupil will be able to match a teacher-given list of words with their meanings.
- B. The pupil should be able to define the three branches of the government both orally and in writing.

CONTENT

ACTIVITIES

- AA. The pupil is to keep a list of the words relating to the three branches of the government such as Senate, Representatives, Executive, Legislative, Judicial, President's Cabinet, and Federal.
- EB. Based on reading of Constitution, what are the three branches of the government?
- BB. Discuss: Franklin's Federal Tree. (Define terms: Republic, Supreme Court, President, Congress.)
- BB. Have pupils copy Franklin's Federal Tree in their social studies notebooks along with definitions of the mentioned terms. Stress correct pronunciation and spelling.

RESOURCES

- AA. Dictionary
Textbook Glossary

EVALUATION

- A. On a given test, the pupil will be able to match a list of words with their meanings. The words will pertain to governmental structure and function as listed under ACTIVITY, AA.

- BB. Ginn, Your Country's History, pp. 159-178
- BB. Filmstrip, Eye Gate, The Historic Background, 52A
- BB. Silver Burdett, The Changing New World, p. 102
- BB. Singer, This Is Our Land, p. 252
- BB. Ginn, Your Country's History, p. 162
- BB. Ginn, Your Country's History, p. 166

- B. The pupils will be able to define both orally and in writing the three main branches of the government, not only for immediate, but for future testing.

AVIORAL OBJECTIVES--Continued

C. The pupil is to be able to make a chart showing the three branches of the government and the duties of each.

EXAMPLE:

- President - Carries out laws
- Congress - Makes laws
- Supreme Court - Interprets laws

ACTIVITIES--Continued

CC. On the basis of reading and as a result of group discussion, the pupils will make a chart showing the main branches of government and the main duties of each. Place the chart in notebooks.

EXAMPLE:

PRESIDENT	CONGRESS	SUPREME COURT
Carries out	Senate House of Representatives	Interprets
	Makes	

Discuss charts; agree upon a common one and copy it in social studies notebooks. Collect individual charts.

D. The pupils will be able to list in writing the three branches of the federal government and diagram the checks and balances one branch has on the other.

DD. Using the transparency, the teacher will call attention to the three main branches of the government, and using the question-answer technique will explain the system of Checks and Balances. Pupils will then copy the diagram in their social studies notebooks.

E. The pupils will list in writing three governmental agencies other than the Presidency, Legislature, and Supreme Court and briefly explain their function.

EXAMPLE:

- President's Cabinet
- Food and Drug Administration

EE. Discuss: Do these three branches alone take care of the government provided services needed by the citizens of our growing country? Arrive at the need for other agencies. Stress President's Cabinet. List five such agencies on board. Pupils will place their choice of three in their notebooks.

EE. *Make a bulletin board showing the organizational structure of our national government.

*ENRICHMENT ACTIVITY

RESOURCES--Continued

- CC. Ginn, Trails to Freedom, pp. 263-265, Diagram, p. 263
Ginn, Understanding Your Country and Canada, p. 142
Singer, This Is Our Land, pp. 263-269

EVALUATION--Continued

- C. The pupil will make a chart showing the main branches of the government and the duties of each.

- DD. Transparency, Checks and Balances, Teacher's Supplement
Houghton Mifflin, The Citizen and His Government, Teacher Resource, pp. 122, 224

- D. Using the transparency, the pupils will record and diagram the system of Checks and Balances in their notebooks.

- EE. Heath, In These United States, pp. 125-132
Ginn, Trails to Freedom, pp. 265-268
Newspaper, Current events

- E. The pupils will list in writing three governmental agencies and briefly explain their function.

CONCEPT

Each civilization has certain significant values and beliefs that influence its growth and development. Human liberty and justice are two values that are somewhat unique in our historical heritage which have been perpetuated through various monuments and symbols.

CONTENT

4. National capital
 - a. Capitol
 - b. White House
 - c. Other governmental buildings
 - d. Shrines
 - e. Others
5. Historical symbols and documents
 - a. Flag
 - b. National Anthem
 - c. Seal
 - d. Declaration of Independence
 - e. Constitution
 - f. Others - Statue of Liberty

BEHAVIORAL OBJECTIVES

- A. The pupil will state orally that our National Monuments represent the ideals of Human liberty and justice that developed in our nation.

ACTIVITIES

- AA. Take a filmstrip tour of Washington determining historical significance and governmental functions of places seen in the film. Through discussion, relate to the ideals of our founding fathers.
- AA. *Make a collection of Washington, D. C. pictures for a scrapbook or a bulletin board.
 - *Report on buildings, statues, shrines, etc., in Washington, D. C.
 - *Construct a tabletop scene of Washington, D. C.

*ENRICHMENT ACTIVITY

RESOURCES

- AA. Filmstrip, Our National Capitals,
ME1009
Filmstrip, Jefferson and Monticello,
ME1008
Filmstrip, George Washington's Mt.
Vernon, ME1007

- AA. White House Historical Association,
The White House, Washington, D. C., 1962
Singer, This Is Our Land, pp. 258-269
Ginn, Your Country and Mine, pp.
369-373
Viewmaster slides

EVALUATION

- A. The pupil will be able to orally state
the significance of the National Capitol,
other than its architectural value.

BEHAVIORAL OBJECTIVES--Continued

B. Pupils will state the historical significance of a chosen national monument in a written report.

RESOURCES--Continued

BB. Show filmstrips, The Statue of Liberty and The Symbols of America, and discuss the significance of the symbols presented in terms of their reflection of the values and ideals of the U. S.

BB. Each pupil may choose one of the national symbols and write a report to the class of the particular symbol and its meaning. Be sure all the symbols and documents are covered by at least one student.

BB. Discuss: Pledge of Allegiance Relate to ideals and stress meaning.

*Make a collection of pictures or drawings of the flag at each stage of its development leading to the flag as we know it today.

Discuss reasons for flag change and relate to the growth of our nation.

C. Pupil will be able to verbally identify several national symbols when shown pictures of same.

D. Pupil will write a paragraph stating reasons why he feels a pupil-chosen symbol is most significant to him.

*ENRICHMENT ACTIVITY

- BB. Filmstrip, The Statue of Liberty, ME1029
Filmstrip, Symbols of America, ME1030
Laidlaw, Our Country, pp. 49-54
- BB. Booklet, Fly the Flag This Fourth of July, produced by Milwaukee Fourth of July Commission
U. S. Marine Corps, How to Respect and Display Our Flag
Grade Teacher, June, 1962, "Freedom In Our Town," "My Country and My Flag," pp. 50-51
(Write Freedoms Foundation, Valley Forge, Penn.)
American Junior Red Cross News, April, 1962, Cover
The Flag Code, Public Law No. 829, reprinted by D. A. R. July, 1960
Flags of America, Ideals Publication

- B. The pupil will be able to select a monument symbol and in writing state its historical significance and value.
- B. Unit quiz on vocabulary and branches of Federal Government.
- C. Pupil will correctly label national symbols on a given set of illustrations.
- D. Pupil will choose one symbol and write a paragraph in which he expresses his personal feelings regarding its significance.

CONTENT

Citizenship involves the individual's active participation in the process of governing.

- IV. National Growth
 - A. Components of a democratic country
 - 1. Individual
 - 2. Families
 - 3. Villages
 - 4. Towns
 - 5. Cities
 - 6. Counties
 - 7. States

BEHAVIORAL OBJECTIVES

- A. The pupil is to be able to list in writing four things that an individual should do to make him an active, participating citizen in a democracy.

ACTIVITIES

- AA. Discuss: "Most good Americans we shall never know about," or ". . . The government of the people, by the people, and for the people. . . ." (Stress obligation of all to be contributing citizens.)
- AA. Through discussion, draw up a list of ways, besides voting, by which an individual may take part in his government. Relate the rights of the individual to his responsibility.
- AA. Mr. A., B., and C. are discussing the coming election and whether they will vote or not. Mr. A. says that if the voters do not vote, they are not helping to give us a government "by the people." He thinks that they are not worthy of their citizenship and should be made to pay a fine.

RESOURCES

- AA. General Teacher Resource, Houghton Mifflin, The Citizen and His Government, 1967, p. 3
Filmstrip, A Good Citizen Is Well Informed, McGraw Hill
Ginn, Your Country's History, pp. 593-602

EVALUATION

- A. The pupil will list in writing four things that an individual should do to make him an active participating citizen in a democracy.

BEHAVIORAL OBJECTIVES--Continued

ACTIVITIES--Continued

AA.--Continued. Mr. B. says that it really does not make any difference whether a citizen votes or not, since a single vote cannot possibly change the result.

Mr. C. says that it makes little difference for whom he votes, so he may as well vote for an old friend.

Do you agree with any one of these men? Explain.

B. The pupil will be able to verbally contrast the individual as an active participating citizen in a democracy with the individual's function in an autocratic society.

BB. Propose the following problem as a basis for a class discussion:

"What would have been the role of the individual in the colonies if the colonies had not freed themselves from British rule?"

Contrast the outcome of this discussion with Behavioral Objective #A.

BB. Relate to past reading on the pre-revolutionary colonial situation in terms of rights. Skim for information if necessary.

B. The pupil will verbally contrast the individual as an active participating citizen in a democracy with an individual's function in an autocratic society.

BEHAVIORAL OBJECTIVES--Continued

C. Pupil will be able to write a definition of "citizenship."

ACTIVITIES--Continued

CC. Given surprise situations, the pupils will act out the way a good citizen would react.

EXAMPLE:

What would you do if:

1. You unwrapped a candy bar outside and there was no container in which to dispose of the wrapper.
2. Somebody is being attacked on the bus and you were there.
3. All that's on T.V. are the political conventions. (Keep informed)
4. There is a "No Swimming" sign, and you are with several other boys who decide to go swimming anyway.
5. As an adult you do not approve of a bill or piece of legislation. (Right to dissent)
6. Someone dropped books in the hall.
7. Riot situation.

After the role playing, arrive at a definition of citizenship to be recorded in their notebooks. (Duties, rights, and privileges of being a citizen.)

.....

RESOURCES--Continued

CC. Surprise situations prepared by the teacher to suit the class maturity level.

EVALUATION--Continued

C. The pupil will write a definition of citizenship.

CONCEPT

The family is the basic unit of our society because it meets the simple needs of its members.

BEHAVIORAL OBJECTIVES

- A. The pupil will be able to orally list the items that a family provides to meet its members' needs.

ACTIVITIES

- AA. Make a class chart to list the ways a family provides for its members' needs. i.e., Food, clothing, homes.

Extending the above discussion, discuss how the family helps us in other ways. i.e., cooperation, discipline, manners, ideals.

CONCEPT

Most societies have some type of family unit.

BEHAVIORAL OBJECTIVE

- A. The pupil will be able to verbally compare and contrast family life in other societies to that in present day America.

ACTIVITIES

- AA. Show filmstrip on families in various cultures.

- AA. Read articles describing family life in several societies. Compare and contrast.

RESOURCES

EVALUATION

A. The pupil will verbally list the items that a family provides to meet its members' needs.

RESOURCES

EVALUATION

AA. Filmstrip, American Indian, ME1002
Other filmstrips subject to the topic available.

A. The pupil will verbally compare and contrast family life in other societies to that in present day America.

Because there are certain services needed by the family, units of government have been established.

BEHAVIORAL OBJECTIVES

- A. The pupil will be able to list verbally two units of local and state government and a service that each performs to meet the needs of families and individuals.
- EXAMPLE:
- Department of Public Works - Garbage collections
 - City Health Department - Vaccine and inoculation
 - State Highway Patrol - Law enforcement
 - State Conservation Department - Wildlife and resource control, parks and historical areas

ACTIVITIES

- AA. Discuss: "Can the family provide for all the needs of an individual?"
- AA. Discuss: "What family needs are met by local and state government?"
- "What units of local and state government provide for these needs?"

.....

RESOURCES

AA. Houghton Mifflin, The Citizen and His Government
Teacher Resource on Local and State Government, Check Index

EVALUATION

A. The pupil will verbally list two units of government (local and state) and a service that each provides to meet the needs of families and individuals.

CONCEPT

There is an interrelationship between local and state government as well as between the state and the national government as it tries to meet the needs of the people.
(Political Science)

BEHAVIORAL OBJECTIVES

A. The pupil will be able to briefly compare orally the three branches of government on the federal, state, county, and city level.

ACTIVITIES

AA. Use transparency. Have pupils reiterate the branches of federal government; discuss further and have pupils name as many branches of state and local government as possible. Teacher will fill these in on the transparency.

CONTENT

B. The functioning of governmental organizations
 1. Organizational structure of government
 2. Relationship of local, state, and federal units

<u>EXECUTIVE</u>	<u>LEGISLATIVE</u>	<u>JUDICIAL</u>	<u>FEDERAL</u>
President	Congress	Supreme Court Circuit Court District Court	<u>FEDERAL</u>
Governor	State Legislature	State Supreme Court Circuit Court	<u>STATE</u>
County Executive (In Milw. Only)	Board of Supervisors	County Court	<u>COUNTY</u>
Mayor	Common Council	Municipal Justice of the Peace	<u>CITY</u>

RESOURCES

AA. Transparency, Teacher's Supplement

EVALUATION

A. The pupil will briefly compare the three branches of government on the federal, state, county, and city level. The comparison in structure will be verbal.

BEHAVIORAL OBJECTIVES--Continued

- B. Pupils will be able to state orally one example of the working relationship between federal, state, and local government.
- EXAMPLE:
Federal government allots funds to the state which in turn distributes money to local school districts providing that certain requirements have been met.

ACTIVITIES--Continued

- EB. Discuss the following problem:
Your school system wishes to start a new educational program in which visual aids are used extensively. Your system does not have enough money. What can be done. (Submit a defensible plan to the state which in turn submits the plan to the federal government. (If requirements are met, money will be allocated.)

CONCEPT

People from many different social, economic, racial, ethnic, and national groups have settled in this country.

CONTENT

- C. Sociological and cultural growth
1. Cultural influences
 2. Contributions

BEHAVIORAL OBJECTIVES

- A. The pupil will be able to verbally differentiate between race and nationality.

ACTIVITIES

- AA. Introduce the term "race," discuss it, and through question-answer method arrive at the three major races and their basic characteristics. Record information in notebook.
- AA. Use the dictionary to look up nationality. Differentiate between race and nationality. Record definition in notebook.

RESOURCES--Continued

BB. Houghton Mifflin, The Citizen and His Government. pp. 310-311

EVALUATION--Continued

B. Verbally, the pupils will state one example of the working relationship between federal, state, and local governments. (Use one example and follow it through the various levels.)

RESOURCES

AA. Macmillan, Living in the Old World, pp. 18-21
AA. Dictionary

EVALUATION

A. Pupils will verbally explain the difference between race and nationality.

AVIATORAL OBJECTIVES--Continued

B. The pupil will be able to orally define nationality and give three examples of nationality groups that have settled in America.

C. The pupil will be able to orally define "emigration" and "immigrant."

D. The pupil will read and orally in his own words interpret the meaning of the poem engraved on the plaque of the Statue of Liberty.

E. The pupils will list in writing four reasons why various groups of people emigrated to the United States.

ACTIVITIES--Continued

BB. Using resource material, the pupils will compile a written list of nationality groups that have emigrated to the U. S.

1. Discuss, list, and trace patterns of emigration on a map.
2. Relate the influxes according to date. Is there a relationship?

CC. Drawing upon reading material and using the dictionary, define "emigration" and "immigrant." List meanings in social studies notebooks. To clarify distinction, give examples.

DD. Read "New Colossus" by Emma Lazarus.

"Give me your tired, your poor,
your huddled masses yearning to breathe free.
The wretched refuse of your teeming shore.
Send these, the homeless, tempest-tost to me.
I lift my lamp beside the golden door!"
Analyze and relate to the fire of hope this help instills in the immigrants.

EE. Discuss Eyegate Map #5. Relate to present day as well.

EE. Ask the children to interview one another, teachers, and others using the following questions:

When did they or their ancestors come to America?

What were the reasons for coming?

From what country did they come?

Where in America did they first settle?

What problems of adjustment did they have?

What was their occupation before coming to America and after they arrived here?

BB. Ginn, Trails to Freedom, pp. 362-371
Heath, In These United States, pp. 24-25

B. Pupils will give three examples of various nationality groups that have settled in America.

CC. Dictionary
Eye Gate Chart, Map #5
Laidlaw, Our Country, p. 46

C. Pupils will orally define the terms "emigration" and "immigrant."

DD. Silver Burdett, The Changing New World, pp. 254
Singer, This Is Our Land, pp. 328-330

D. The pupil will read and orally interpret in his own words the meaning of the poem engraved on the plaque at the Statue of Liberty.

EE. Eye Gate Chart, Map #5

E. The pupil will list in writing four reasons why various groups of people emigrated to the United States.

BEHAVIORAL OBJECTIVES --Continued

ACTIVITIES --Continued

- F. The pupils will orally discuss and list in writing general and individual contributions the people coming to America have brought to life in America.
- EE. After answering the questions, tabulate the information and list all the reasons given for moving to America. What are the most frequent reasons?
- FF. Pupils should do reading and research to uncover various contributions the immigrants made to our nation. Discuss and list contributions on the board. Have pupils place in notebooks. i.e., Skills, new occupations, religions, food. Such men as Bell, Pulitzer, and Fermi could also be listed.
- FF. Discuss, using a panel, "Changes people coming to America have brought about." Have a pupil select a specific nationality group, study it, and discuss the contribution this particular group made to the "American Culture."
- GG. Discuss: Millions of Europeans gladly came to our country to settle, in spite of the hardships immigrants had to endure. As newcomers, they had to make many changes in their way of living.
- A. What are some of the problems immigrant men faced as they tried to find food, shelter, and clothing for their families?
- B. Why did people here often "look down upon" newcomers, forgetting that they had once been newcomers too?
- C. Why were immigrants willing to undergo many hardships in order to move to America?
- D. Cite two examples of compromise necessary on the part of the immigrant.
- G. The pupils will list two examples in writing of where compromise was necessary to help the immigrants adapt to the United States.

FF. Heath, In These United States, p. 30
Ginn, Trails to Freedom, pp. 363-370
Harper Row, The Story of Our Country,
pp. 304-305

F. The pupils will orally discuss and
list in writing general and individual
contributions immigrants have made to
U. S. culture.

FF. Ginn, Trails to Freedom, pp. 363-370

GG. Ginn, Trails to Freedom, pp. 362-371

G. The pupils will list, in writing, two
examples of where compromise was necessary
to help immigrants adapt.

BEHAVIORAL OBJECTIVES --Continued

H. The pupils will be able to write a well-organized paragraph on why we call the U. S. the "Great Melting Pot."

ACTIVITIES --Continued

HH. Discuss the term "Melting Pot" in relation to the material covered in Activity "FF" and "GG." Have pupils write a paragraph describing how the term "Melting Pot" applies to the United States.

CONCEPT

As early settlers moved westward, they had to adapt to a primitive environment to survive.

CONTENT

- D. Western Movement
 - 1. Explorations and settlements
 - a. New routes - Wilderness Road, Oregon Trail
 - b. New settlements - Boonesborough, Kentucky, etc.

BEHAVIORAL OBJECTIVES

A. Pupils will be able to list in writing and chart the path of four early routes the settlers followed, moving West.

ACTIVITIES

- AA. Show transparency #115, Settlement of the West.
- AA. Discuss routes and explorers. Relate these routes to a physical map of the U. S. Discuss the land relationship to the trails taken.

B. The pupil will be able to give a reason in writing why settlers located in certain geographic areas.

- BB. Pupils may do general reading on areas that settlers moved into. Discuss material read. Have pupils state reasons why settlers settled in certain areas of the nation.

RESOURCES -- Continued

HH. Laidlaw, Our Country, pp. 46-49
Heath, In These United States, p. 28

EVALUATION -- Continued

H. Using previously discussed material, the pupil will write a well-organized paragraph on how the term "Melting Pot" applies to the U. S. Stress merging of cultures into one nation with as many specifics as possible.

RESOURCES

AA. Transparency #115, Settlement of the West, Map of U. S., (Physical)

EVALUATION

A. The pupils will list in writing and chart the path of four early routes the settlers followed, moving West.

BB. Ginn, Understanding Your Country and Canada, 1965, pp. 228-231
Ginn, Trail Blazers of American History, 1966, pp. 142-147
Harper Row, The Story of Our Country, 1965, pp. 199 (Diagram) - 210
Macmillan, Living in the United States, pp. 146-149, 239-249

B. The pupils will state in writing at least one reason why settlers located in certain geographic areas.

BEHAVIORAL OBJECTIVES -- Continued

- C. The pupil will be able to draw pictures depicting differences in the way of life of the settlers living in the woods, prairies, and the mountains.
- D. The pupils will be able to write a paragraph in which an example is cited describing how a family had to adapt to a primitive environment.

EXAMPLE:

1. City family adjusting to isolated settlement life.
2. Woodland farmer adapting to tilling the thickly sodded soil.

- E. Pupil will be able to list in writing two reasons why the Westward Movement was instrumental in shaping our nation's history.

ACTIVITIES -- Continued

- CC. Discuss and show differences of life of the settlers in the woods, prairies, and the mountains. Pupils will draw pictures of woodland, prairies, or mountain settlements.
- DD. Use an inductive approach and discuss the various adaptations settlers had to make to their new primitive environments.

EXAMPLE:

1. Why would settlers want to move west?
2. What changes in living habits might have to be made?
3. How successful do you think the settlers were at adapting to their new area? Support your answer.

- EE. Through reading and research, the pupils will keep a jotting list of why the Westward Movement was important in shaping our nation's history.

RESOURCES--Continued

EVALUATION--Continued

CC. Ginn, Trails to Freedom, 1967, pp. 318-326
Ginn, Trail Blazers of American History,
pp. 136-183

DD. Singer, This Is Our Land, pp. 306-317

EE. Heath, This Is Our Land, pp. 133-145,
152-168
EE. Consider all resources listed above.

C. The pupils will draw pictures depicting differences in the way of life of the settlers living in the woods, prairies, and the mountains.

D. The pupil will write a paragraph containing at least one example of how a family moving west had to adapt to a primitive environment.

E. The pupils will list in writing two reasons why the Westward Movement was instrumental in shaping our nation's history.

CONTENT

- Westward expansion created new geographic boundaries and linkages.
2. Additions to the Nation Territory added:
1. Northwest Territory
 2. Louisiana Territory
 3. Gadsden Purchase
 4. Florida
 5. Alaska
 6. Oregon Territory
- b. Means of acquisition
1. Treaty
 2. Purchase (Louisiana)
 3. War
- c. Statehood

BEHAVIORAL OBJECTIVES

- A. Given a list of specific names and dates, and an outline map of each major territorial gain, the pupil will list in writing the following information regarding the area:
1. When it was acquired
 2. From whom it was acquired
 3. How it was acquired

ACTIVITIES

- AA. The pupils will be given copies of the sections of territorial gain.
1. Area of U. S. in 1783
 2. Louisiana Purchase, 1803
 3. Florida, 1819
 4. Texas, 1845
 5. Oregon Territory, 1846
 6. Gadsden Purchase, 1853
 7. Mexican Cession, 1848
- Through reading and research, the pupils will fill in the following information regarding the gains:
1. When was it acquired?
 2. From whom it was acquired?
 3. How was it acquired?
- AA. After discussing, this set of maps will be handed to the teacher.

RESOURCES

AA. Heath, This Is Our Land, p. 178 (Map)

EVALUATION

- A. Given the maps and specific names and dates, the pupils will accurately complete the required information:
1. When was the land acquired?
 2. From whom was it acquired?
 3. How was it acquired?

VIORAL OBJECTIVES--Continued

B. The pupils will be able to orally state what happens after a territory becomes populated and settled. (Statehood)

ACTIVITIES--Continued

BB. Through reading, followed by a discussion, the pupils should be able to briefly explain: "What happened to these territories after they became part of the U. S.?"

BB. Briefly draw out the ideas of government according to population and the requirements for statehood. This could bridge into one of the pre-Civil War problems. "How should the new states be admitted?"

.....

.....

RESOURCES--Continued

BB. Pupils continue to use index in various texts for information.

EVALUATION--Continued

B. The pupil will orally tell what happens after a territory becomes populated.

CONTENT

In a democracy, we believe people should behave in ways that do not interfere with the rights of others.

- E. The Civil War
 - 1. Causes
 - a. Different ways of life
 - 1) North - Industrial
 - 2) South - Plantations
 - 3) Slavery
 - b. Disagreements
 - 1) Tariff
 - 2) States' rights
 - 3) Secession
 - 4) Admission of new states
 - 2. The war
 - a. Leaders
 - b. Important battles
 - c. Physical and psychological results
 - 3. The nation unites again
 - a. Amendments
 - b. Reconstruction

BEHAVIORAL OBJECTIVES

A. Pupils will be able to match a given list of vocabulary words with their definitions.

ACTIVITIES

- AA. The pupil is to be able to define in writing and have a workable knowledge of the following terms and names in relation to the Civil War:
- | | | |
|------------------|-------------------|--------------|
| Mason-Dixon Line | Discord | Emancipation |
| Tariff | Restored | Proclamation |
| Slavery | Segregation | Gettysburg |
| Abolitionist | Underground | Appomattox |
| Compromise | Railroad | Amendments |
| Orator | Fugitive Slave | |
| Preservation | Law | |
| Withdraw | Missouri Compro- | |
| Secede | mise | |
| Confederate | Dred Scott | |
| Blockade | John Brown's Raid | |

As the words are introduced, place them along with their definition, in social studies notebooks.

RESOURCES

- AA. Dictionary
Reference books

EVALUATION

- A. Pupils will match a given list of
vocabulary words with their definitions.

RAL OBJECTIVES--Continued

B. Pupils will be able to state in writing the two main differences in ways of life between Northern and southern states.

ACTIVITIES--Continued

BB. Define northern and southern states. (Mason-Dixon Line Division, Trace line on a map.)

BB. Discuss and list two main differences and place in notebooks.

EXAMPLE:

North - Industrial, small farm, few if any
South - Agrarian, small and large farms, many slaves

BB. General reading and research on ways of life in Northern and southern states.

C. Pupils will be able to list in writing three problems that divided the North and the South and list a reason behind each problem.

CC. Discuss reading of pupils. Draw out three problems that divided north and south and list reasons behind these problems. Place in notebooks.

EXAMPLE:

Issue of Slavery - Should new states be slave states? (South needed slaves; north did not.)
Others

D. The pupil will write a paragraph stating reasons why people were for or against slavery.

DD. Have pupils assume the role of a northern industrialist or southern plantation owner. Describe their attitudes towards slavery in a written paragraph.

RESOURCES--Continued

Bb. Laidlaw, Our Country, p. 254

Cc. Laidlaw, Our Country, pp. 244-252,
265 (Picture)

Harper Row, The Story of Our
Country, pp. 251-266
Silver Burdett, Changing New World,
pp. 195-197
Ginn, Trails to Freedom, pp.
332-335

Dd. Singer, This Is Our Land, pp. 337-338
Harper Row, The Story of Our
Country, pp. 262-266
Laidlaw, Our Country, pp. 246-248
Heath, In These United States,
p. 183

EVALUATION--Continued

B. Pupil will state in writing two main differences in ways of life between northern and southern states.

C. The pupil will list, in writing, three problems that divided the North and South and list a reason behind each problem.

D. Assuming the role of a northern industrialist or a southern plantation owner, the pupil will write a paragraph stating his reasons for or against slavery.

FORMAL OBJECTIVES --Continued

E. Pupils will be able to debate given critical issues of Civil War times.

F. Pupils will be able to name in writing two political and two military leaders and describe their relationship to the Civil War.

G. Pupils will be able to orally list two important Civil War battles and state a significant factor of each.
EXAMPLE:
Antietam - North stops southern invasion.
Gettysburg - A serious defeat for the South and most feel a major turning point in the war.

H. Pupils will write a paragraph describing the physical destruction of the South as a result of the Civil War.

I. Pupils will verbally describe attitudes of northerners and southerners towards one another immediately after the Civil War.

ACTIVITIES --Continued

EE. Define the word "debate" by using dictionaries and class discussion.

EE. To demonstrate their understanding of the word "debate," the pupils will divide up into two groups, one representing the North and the other representing the South, and they will debate the critical issues of the time such as slavery. The pupils should base their debate procedure upon the political debates of today.

FF. General reading by pupil.
Teacher might display Eyegate Chart #10.
Discussion to follow reading.

GG. Using the opaque projector, project the maps (Harper Row, pp. 270-271; Singer, p. 346) and use them as a basis for a discussion of major battles, stressing their importance both from the northern and southern point of view.

HH. General reading by pupils.

HH. Discussion by class of war devastation. Have pupils imagine they are a youngster in Atlanta shortly after Sherman's March. Have them write a paragraph describing the land, buildings, etc.

II. Read some of pupils' paragraphs to class. Use these to lead into a discussion of attitudes and reactions of both sides to the war.

RESOURCES--Continued

- EE. Dictionary
Reading material
- EF. Use reference material mentioned in
Resources CC.

- FF. Ginn, Trails to Freedom, pp. 335-339
Heath, In These United States, pp.
185-191
- Laidlaw, Our Country, pp. 254-256
- Silver Burdett, Changing New World,
pp. 198-201
- GG. Harper Row, The Story of Our Country,
pp. 269-272
- Singer, This Is Our Land, pp. 341-346

- HH. Harper Row, The Story of Our Country,
pp. 273-274
- Laidlaw, Our Country, pp. 260-263
- Silver Burdett, Changing New World,
pp. 201-203

EVALUATION--Continued

- B. The pupils will debate critical issues
of the Civil War times.
- F. The pupil will list, in writing, two
political and two military leaders and
describe their relationship to the war.
- G. The pupils will orally list two important
battles of the Civil War and tell why
each was important.
- H. Pupils will write a paragraph to be
turned in to the teacher describing the
physical destruction of the South as
a result of the Civil War.
- I. Pupils will verbally describe attitudes
of northerners and southerners toward
one another immediately after the
Civil War.

The people of the United States have met their problems with varying degrees of success.

Individualism and equality of opportunity, basic to democracy, are frequently challenged by the racist.

BEHAVIORAL OBJECTIVES

- A. The pupil will be able to list verbally the essential characteristics of a Civil War and some special problems that are created by Civil War.
- B. Pupils will be able to list verbally the specific right granted by the 13th, 14th, and 15th Amendments.
13th - Freed Negro from slavery
14th - Insured Negro citizenship
15th - Gave Negro the right to vote

- C. Pupils will be able to verbally describe any two aspects of the reconstruction process.

EXAMPLE:

South occupied by northern troops.
State governments controlled by North.
Rebuilding railroads, roads, and other areas of transportation.
Rebuilding homes, farms, etc.
Rebuilding and developing industry.

ACTIVITIES

- AA. Discuss the term "Civil War."
List characteristics of Civil War on board. List some special problems that Civil Wars have created.
- BB. Have class view the 13th, 14th, and 15th Amendments. Discuss what each guarantees for the Negro. Discuss the extent to which the guarantees have been fulfilled. Copy amendments 13, 14, and 15, and place in notebooks.
- CC. Define the term "reconstruction."
General reading by pupils on reconstruction. Discuss the physical aspects of necessary reconstruction in the South.

RESOURCES

- AA. Dictionary
- BB. Ginn, Trails to Freedom, pp. 339-340
Laidlaw, Our Country, pp. 262-263
Harper Row, The Story of Our Country, pp. 274
- CC. Encyclopedia
Singer, This Is Our Land, pp. 344-352
Heath, In These United States, pp. 189-191
Laidlaw, Our Country, pp. 260-263
Harper Row, The Story of Our Country, pp. 272-275
Silver Burdett, Changing New World, pp. 202-204

EVALUATION

- A. The pupil will orally list the essential characteristics of a Civil War and state some special problems that it creates.
- B. The pupil will name the main provisions of the 13th, 14th, and 15th Amendments.
- C. The pupil will select what he considers to be the most important aspects of physical reconstruction and describe how they would be carried out.

MORAL OBJECTIVES--Continued

D. Pupils will be able to describe two areas of activity Negroes engaged in during the period of reconstruction that were forbidden to Negroes before this time.

E. Pupils will be able to describe verbally the attitude of most white southerners toward the Negroes and the resulting actions white southerners took during and after reconstruction that affected the Negroes' future.

F. Pupils will be able to verbally list one example of a problem faced by the Negro in our industrial society and tell how this is related to the actions taken against Negroes after the Civil War.

ACTIVITIES--Continued

DD. From general reading discuss the activities of the Negro during reconstruction. Draw out items such as the following:

1. Negroes assume roles in government.
2. Negroes given some opportunities for education.
3. Negroes given opportunity for better jobs.
4. Medical facilities and organizations like the Freedman's Bureau helped ease the plight of the Negro.

EE. Continue discussion. List on board some of the actions taken by southerners against Negroes. Draw out and state such items. List attitudes these actions suggest.

1. Negroes were threatened to prevent them from voting.
2. Terror organizations used violence against the Negro.
 - a. Knights of the White Camellia
 - b. Knights of the Klu Klux Klan
3. Failure to provide education and employment.
4. Attitudes of hate, animosity, and bigotry.

FF. Use opaque projector to display charts dealing with the position of the Negro in our society today. Relate these problems to previously discussed attitude and actions of Civil War and reconstruction days. Introduce the term "segregation."

EXAMPLE:

Few skilled jobs - Little training because of lack of industry and education in southern states.

High rate of unemployment - Lack of education, training, and the existence of prejudice.

RESOURCES--Continued

DD. Benefic Press, The Progress of the Afro-American, pp. 60-77

EE. Benefic Press, The Progress of the Afro-American, pp. 68-77

FF. Benefic Press, The Progress of the Afro-American, pp. 12-13

EVALUATION--Continued

D. The pupil will verbally describe two areas of activity the Negroes engaged in during reconstruction that were forbidden to them before.

E. The pupils will orally describe the attitude of many white southerners toward the Negroes and the action these southerners took during and after reconstruction that affected the Negroes' future.

F. The pupils will orally state one example of a problem faced by the Negroes in our industrial society and tell how it is related to the action taken against the Negro after the Civil War.

CONTENT

Only simple machines were used in early America because at that time either no one had invented better ones or no one could make the machines which were being contemplated.

- F. Industrial Revolution**
1. Development of industry
 - a. Resources
 - b. Inventions
 - 1) Communication
 - 2) Transportation
 - 3) Machinery
 - c. Representative industries
 - 1) Textiles
 - 2) Steel
 2. Effects of industrialization
 - a. Labor
 - 1) Growth
 - 2) Organizations
 - b. Growth of Cities

BEHAVIORAL OBJECTIVES

A. The pupils will list verbally several simple machines used in early America.
EXAMPLE:
 Hand loom, spinning wheel, and hand carder.

B. The pupils will list in writing three resources whose development contributed to the growth of industries.

ACTIVITIES

- AA. Through a teacher directed discussion, the pupils will review various simple machines used in early (colonial) America. The pupil should be able to relate the machine to its purpose.
- BB. Through reading and research, the pupils will list the resources, the development of which contributed to the growth of the Industrial Revolution.

RESOURCES

- AA. **Fideler, Colonial America**

- BB. **Sliver Burdett, Changing New World,
pp. 241-244**
**Harper Row, The Story of Our Country,
p. 291**
Laidlaw, Our Country, pp. 33-35

EVALUATION

- A. **The pupils will list verbally several
simple machines used in early America.**

- B. **The pupil will list in writing three
resources the development of which
contributed to the growth of industry.**

GENERAL OBJECTIVES--Continued

- C. Pupils will be able to list in writing four inventions and the impact each had on the growth of industry in America.
EXAMPLE:
Steam engine - A source of power to run many machines at once.
Telegraph - Speeds communication of ideas and information
Cotton gin - Cleans seed from cotton with much greater speed than hard labor.

- D. Pupil will be able to state crally one example of an early industry to make great use of machines.

ACTIVITIES--Continued

- CC. Through reading and research, the pupils will construct a three column listing of inventors, inventions, and the impact these had on the growth of industry in America.

EXAMPLE:

INVENTOR	INVENTION	IMPACT ON INDUSTRY
----------	-----------	--------------------

The class will discuss their individual charts, and a class chart will be composed that should be recorded and kept in individual social studies notebooks.

- DD. Divide the class into two groups with one group representing the steel industry and the other the textile industry. Each group will research the development and impact of the industry.

- E. The pupil will be able to verbally state that the greatest part of the Industrial Revolution was the change that took place in the minds of men.

- EE. Pose the question: "Does an abundance of natural resources insure a high standard of living?"

Bring out the idea that it is the mind of man, working on these resources, that makes them effective.

RESOURCES--Continued

EVALUATION--Continued

Ginn, Trails to Freedom, pp. 346-348
Heath, In These United States, pp. 192-193

Textiles
Heath, In These United States, pp. 263-264, 337-339
Singer, This Is Our Land, Check Index
Write to:
National Cotton Council of America
P.O. Box 12285
Memphis, Tennessee 38112
(Information and charts on cotton FREE)

- EE. Silver Burdett, Changing New World, p. 241

Write letter requesting material before group project.

- D. The pupils will give one oral example of an early industry that made great use of machines.

E. The pupil will state orally in his own words the idea that it was the mind of man that made the Industrial Revolution what it was.

CONCEPT

The dignity of the laborer in contrast with the attitude of feudalism and mercantilism toward labor was a unique feature of the American colonies. This meant that his reasonable ample reward for work became a most significant power in the developing market. (Economics)

BEHAVIORAL OBJECTIVES

- A. Pupil will be able to express his opinion as to why every laborer has worth and dignity.

ACTIVITIES

- AA. The teacher will circulate a paper on which pupils will list the occupations they wish to engage in as adults. No names needed -- just occupations. Upon completion of the list, the teacher will read the list to the class and select a few of the more common ones listed.

After selecting a few analyze as a class using this question: "Who will do the jobs necessary so that you can carry out your occupation?" E.G. SECRETARY a) Who made and manufactured the desk? b) Who originated, assembled, sold, etc. the typewriter. c) Who keeps the office in proper condition. From this deduce the dependence of one job upon another, the fact that all laborers are important and worthy of dignity.

CONCEPT

Man's effective use of machines has increased his productivity; this increased capacity to produce may influence the individual's and community's standard of living. (Economics)

REVISIONS

REVISIONS

RESOURCES

A. List of occupations made out by class

EVALUATION

A. The pupil will state orally his reasons why every laborer has worth and dignity.

.....

.....

.....

ORAL OBJECTIVES

A. Pupils will be able to list in writing several farm machines that have helped increase food production.

ACTIVITIES

AA. Trace several agricultural products from your table back to the original source. Give consideration to producers, people who handled product, and means of transporting. Compare the difference between today's processing and that of colonial times. (Use milk as an example.) Bring in marketing and transportation.

*Also show changes in its uses.

AA. Make a chronological chart showing the progressive changes in marketing and transporting the farmers' saleable commodities.

AA. Using diagrams, models, etc., make a display showing the advancement in farm machinery since the days of the homesteaders.

AA. Make a comparison between a farm of the late 1800's and a modern farm of today.

BB. Through reading and research, the pupils will keep a jotting list answering this key question: "During early industrialization, what factors contributed to the growth of cities?" Discuss answers as a class and compile a list to be placed in pupils notebooks.

CC. Referring to the list recorded above, the pupils will discuss the problems that arose as a result of rapid industrialization and the growth of cities. This list should be recorded on the board and then in pupils' notebooks.

* Relate to current "growing pains" of the city.

***ENRICHMENT ACTIVITY**

B. Pupils will be able to list two factors contributing to the growth of cities.

C. Pupils will state orally several problems that occurred as cities developed.

RESOURCES

- AA. Dairy Council, Milk From Farm to Family, Flow chart, (available in quantity), (poster wall chart) More Milk Please, booklet

- AA. Filmstrip, Land of the Free Agriculture in America, NE-1024, picture frames 17-end Filmstrip, A Country Store, NE-1021

- AA. Chart, Land of Plenty

- AA. Chart, Land of Plenty Booklet, Land of Plenty

- BB. Ginn, Trails to Freedom, pp. 373-377 Harper and Row, The Story of Our Country, pp. 303-306, 363-365 Heath, In These United States, pp. 226-227

- CC. Ginn, Trails to Freedom, pp. 372-381 Heath, In These United States, pp. 232-234

EVALUATION

- A. The pupils will list in writing several farm machines that have helped increase food production.

- B. The pupil will list in writing two factors contributing to the growth of cities.

- C. The pupil will orally state several problems that developed as cities began to grow.

GENERAL OBJECTIVES --Continued

D. Pupils will demonstrate the influence of increased production on the standard of living by comparing goods and services available to a family in 1900 to those available today.

ACTIVITIES --Continued

DD. Have resource person come in to explain life "in the good old days," perhaps grandparent or another knowledgeable person.

DD. Inductive questioning to arrive at a comparison between life at the turn of the century with that of the present day.

1. What did they have for entertainment?
2. What did they have by way of transportation?
3. What types of food were available?
4. What were the forms of communication?
5. What types of dress or clothing did they have? (Relate to automation and synthetics.)
6. What materials did they have to make things? (Relate to automation and synthetics.)

From either the resource person or the inductive questioning, make a written class comparison, "Life in 1900 compared with that of 1969."

DD. Resource person

.....

D. The pupil will compare the standard of living (with goods and services available) of the 1900's with that of today by constructing a comparison chart.

.....

.....

.....

.....

.....

.....

CONTENT

"Natural" geographic elements and their associations in "natural habitats" differ from place to place throughout the United States.

The natural materials and conditions of the earth influence the ways in which people live and work.

Only simple machines were used in early America because at that time either no one had invented better ones or no one could make the machines which were being contemplated.

Man's effective use of machines has increased his productivity; this increased capacity to produce may influence the individual's and community's standard of living.

BEHAVIORAL OBJECTIVES

A. Pupils will be able to define in writing the term "extractive industry."

B. The pupil will be able to list in writing four extractive industries and a location in the United States in which each can be found.

- G. Types of Industry
1. Extractive industries
 - a. Mining
 - b. Fishing
 - c. Lumbering
 - d. Agriculture

ACTIVITIES

AA. Utilize inductive questions to define the term "extractive."

AA. Divide class into four groups. Each group will prepare an in-depth presentation on one of the extractive industries. Written reports, charts, graphs, dioramas, dioramas, and any other material and procedures feasible should be employed. Each group will present its topic to the class.

BB. Class discussion to summarize pupil reports. Draw out information and have pupil perform tasks indicated in Objectives B, C, D, and E.

1. The student will understand and be able to explain the relationship between the different parts of the cell and how they work together to maintain the cell's life.

2. The student will be able to identify and describe the different parts of the cell and explain their functions.

RESOURCES

- AA. Dictionary
- AA. Supplementary packets on Industry
- AA. Textbooks that pertain

NO OTHER DIFFICULTY	MEDIUM DIFFICULTY	HIGH DIFFICULTY	VERY HIGH DIFFICULTY
The pupil will be able to identify and describe the different parts of the cell and explain their functions.	The pupil will be able to identify and describe the different parts of the cell and explain their functions.	The pupil will be able to identify and describe the different parts of the cell and explain their functions.	The pupil will be able to identify and describe the different parts of the cell and explain their functions.
EVALUATION			
A. The pupil will define in writing the term "extractive industry."			

1. The student will be able to identify and describe the different parts of the cell and explain their functions.

2. The student will be able to identify and describe the different parts of the cell and explain their functions.

B. The pupil will match the four extractive industries with a location in the U. S.

BEHAVIORAL OBJECTIVES--Continued

C. The pupil will place in chart form a simple tool and a complex machine associated with each extractive industry and state how the latter has improved the industry.

EXAMPLE:

INDUSTRY	SIMPLE TOOL	COMPLEX TOOL	EFFECT ON INDUSTRY
Forestry	Axe	Chain saw	Cut more trees down in less time.
Mining	Shovel	Steam-shovel	Remove more dirt in less time.

D. Pupil will verbally cite an example of increased productivity and the resulting rise in the standard of living.

EXAMPLE:

Increased natural gas production -
Increased heating convenience
and efficiency
Increased bauxite mining - Many
uses for aluminum

ACTIVITIES--Continued

CC. Class discussion to summarize pupil reports. Draw out information and have pupil perform tasks indicated in Objectives B, C, D, and E.

DD. Class discussion to summarize pupil reports. Draw out information and have pupils perform tasks indicated in Objectives B, C, D, and E.

RESOURCES -- Continued

SECTION

CONTENT

All of mankind is faced with economic decisions such as what and how much to produce and in what way land, labor, management, and capital are to be used for production.

2. Fabricating industries

a. Factory system organization

- 1) Capital
 - 2) Resources
 - 3) Labor
 - 4) Management
 - 5) Concentration of machines
 - 6) Automation
- b. Examples of fabricating industries
- c. Purpose for fabricating industries

BEHAVIORAL OBJECTIVES

- A. Pupils will be able to match the six factors necessary for developing the factory system with a given definition.

ACTIVITIES

- AA. Discuss the essential elements that must be available in organizing and running a factory.

- AA. Have pupils select a product they would like to produce and formulate a plan of operation necessary to develop the product.

EXAMPLE:

Bicycle - Bicycle factory

- AA. Relate all the factors pertaining to factory systems when setting up this imaginary organization.

- B. Pupils will be able to define in writing the term "fabricating."

- BB. Using an inductive questioning approach, attempt to have pupils arrive at the term "fabricating" as well as its meaning. If this fails, try the dictionary. Record the definition in their notebooks.

- C. Pupils will be able to verbally list three examples of fabricating industries in the city of West Allis

- CC. Using a West Allis Directory or from personal experience, discuss West Allis fabricating industries listing said industries and products on the chalkboard.

... ..

... ..

RESOURCES:

... ..

... ..

... ..

... ..

... ..

... ..

C. West Allis Directory

... ..

... ..

... ..

EVALUATION

A. Given a set of definitions, the pupils will match the six factors necessary for developing the factory system with the correct definition.

... ..

B. The pupil will be able to define in writing the term "fabrilcating."

C. The pupil will list verbally three examples of fabrilcating industries in the city of West Allis.

1
BEHAVIORAL OBJECTIVES--Continued

D. Pupils will make a diagram showing the relationship of capital, resources, labor, etc., on industry.

E. Pupil will be able to list in writing the main purpose of fabricating industries.

ACTIVITIES--Continued

DD. Teacher will present a transparency with a diagram of the factory system. Discuss and have pupils place in notebooks.

EE. Discuss the following questions:
For what reason do we have fabricating industries?
What is the relationship between fabricating and extractive industries?

Have pupils record the reason and relationship in their notebooks.

CONTENT

American enterprise has been predicated upon the conviction that an individual has the right to attempt to sell his goods or services for enough to cover the cost of production and to realize a fair profit.
(Economics)

- 3. Distributive industries
 - a. Distribution and sales
 - b. Transportation
 - c. Communication

BEHAVIORAL OBJECTIVES

A. Pupils will be able to state in writing the reason why the distributor charges a certain price for a given item.

ACTIVITIES

- AA. Product
 - 1. Design
 - 2. Buy raw materials
 - 3. The assembling of the product
 - 4. Transportation
 - 5. Sales
- The final cost includes more than just the raw materials and labor. It also includes:
- a. The cost of packaging
 - b. The cost of shipping
 - c. The cost of storage
 - d. The cost of commission to salesmen

RESOURCES -- Continued

Handwritten notes and a list of resources, including references to books and articles.

Additional handwritten notes and resource references.

Further handwritten notes and resource references.

Continuation of handwritten notes and resource references.

Final handwritten notes and resource references in the RESOURCES section.

RESOURCES

AA. Outline provided in content...

Handwritten notes and resource references under section AA.

EVALUATION -- Continued

D. With the aid of terms and definitions, the pupil will make a diagram showing the relationship between capital, resources, labor, etc., to industry.

E. The pupil will list in writing the main purpose of fabricating industries.

Handwritten notes and observations related to the evaluation criteria.

Further handwritten notes and observations related to the evaluation criteria.

Final handwritten notes and observations in the EVALUATION section.

EVALUATION

A. The pupils will state in writing the reason why the distributor charges a certain price for a given item.

Handwritten notes and observations related to the evaluation criteria.

ACTIVITIES -- Continued

AA. --- Continued

- e. The cost of office work
- f. The cost of federal, local, and state taxes
- g. The cost of advertising

AA. Discuss bicycle factory. What is done with final product? Why is a certain price charged?

BB. Pupils through discussion will define the term "profit." Place in notebooks. "The return received by a person, group, or organization as a reward for the effective combination of labor, land, and capital," or "Earnings above and beyond cost."

CC. Have a resource person from a distributive industry tell class about functions of his industry. Discussion to follow.

CC. Have pupils visit a distributive industry.

CC. Class discussion on pupil experience with distributive industries.

DD. From pupil responses, the teacher will list on the board distributive industries of West Allis.

B. Pupil will define in writing the term "profit."

C. Pupils will verbally describe several functions of a distributive industry.

D. Pupils will list in writing several (five) distributive industries in the city of West Allis.

World Book Encyclopedia
 BB. World Book Encyclopedia

CC. Resource person and personal experience

B. From a list of given definitions, the pupil will select the one that defines "profit."

C. The pupil will verbally describe "Distributive Industry."

D. The pupil will list in writing five distributive industries in the city of West Allis.

ORAL OBJECTIVES--Continued

ACTIVITIES--Continued

- E. The pupil will list in writing three factors that are considered in the cost of the production of a given item.
- F. Taking production costs into consideration and the definition of "profit," the pupil will verbally state the meaning and implications of the term "fair profit."

- EE. Refer to outline under Content AA. Have pupils record outline in their social studies notebooks.
- FF. Take a manufactured item (Frisbee) and as a class analyze the supposed cost of production according to the outline under AA. The teacher should then propose a theoretical question: "What would be a fair price to charge for this item taking into account a fair profit for the manufacturer, wholesaler, and retailer?" State: "There is no one right answer." Have children place price on a piece of paper and give a reason for this price. After the papers are collected, some questions on values could be posed.

EXAMPLE:

"Is the suggested price so high that the average person cannot or should not purchase it?"

CONCEPT

The country is linked to other parts of the U. S. (and the world) in many different ways. Goods and services may be received from many parts of the country and in turn the community may supply goods and services to other communities throughout the nation.

(Geography)

CONTENT

.....

EE. Outline, World Book Encyclopedia

FF. Outline

The world's population is increasing rapidly. This increase is due to the fact that the death rate is falling faster than the birth rate. As a result, the world's population is expected to reach 6 billion by the year 2000.

The world's population is increasing rapidly. This increase is due to the fact that the death rate is falling faster than the birth rate. As a result, the world's population is expected to reach 6 billion by the year 2000.

FF. The pupils will list in writing three factors that are considered in the cost of production of a given item.

F. The pupil will state with some degree of reality the meaning and one implication of the term "fair profit."

ORAL OBJECTIVES

- A. The pupil will be able to list in writing three different ways in which communities throughout the nation are linked.

- B. The pupils will orally distinguish between natural linkage and man-made linkage or the combination of the two by citing two examples of each.

- C. Using atlas, the pupils will illustrate their understanding of natural linkage in the U. S. by tracing the main water routes and listing in writing at least three of them.

ACTIVITIES

- AA. Using a physical map of the United States as a whole and using West Allis as a starting point, have each child select one city or area in the United States as a destination.

- AA. Have each child discuss and show all the possible ways of traveling from West Allis to the city or area of his choice, either on an individual map or a class map.

- AA. Discuss waterways, terrain, railroads, highways, and air routes connecting different parts of our country.

- BB. Based on the above discussion, the class will distinguish between: natural linkage, man-made linkage, and the combination of the two. Using their atlas, the pupils will cite several examples of the three types of linkage and relate: "Which would be the most efficient way of moving raw material from the extractive industries?"

- CC. Using a wall map, the teacher will point out an important water route.

EXAMPLE:

Mississippi

Using their atlases, the children will then locate others.

EXAMPLE:

St. Lawrence Seaway, Columbia, Ohio, Missouri

RESOURCES

- A. Special purpose maps (Air routes, railroad routes, highway routes)

Special purpose maps are maps that are designed to show a specific type of information. Examples include maps showing air routes, railroad routes, and highway routes. These maps are useful for planning travel and understanding the infrastructure of a region.

- B. Ginn, Trails to Freedom, p. 376 Atlas

The Ginn Atlas, 'Trails to Freedom' section, page 376, provides a detailed overview of the transcontinental railroads. It includes maps and text describing the routes of the Northern Pacific, Great Northern, and Burlington systems, as well as the Santa Fe and Union Pacific systems. The text discusses the challenges of building railroads across the vast, sparsely populated western United States.

- C. Atlas

EVALUATION

- A. The pupil will list in writing three ways in which communities throughout our nation are linked.

The pupil will be able to identify three ways in which communities throughout the United States are linked. Examples include air travel, railroads, and highways. The pupil will also be able to explain how these modes of transportation have shaped the development of the United States.

- B. The pupil will orally distinguish between natural linkage, man-made linkage, and the combination of the two by giving two examples of each.

- C. The pupil will list in writing three main water routes that are examples of natural linkage.

The pupil will be able to list three main water routes that are examples of natural linkage. Examples include the Mississippi River, the Great Lakes-St. Lawrence River system, and the Gulf of Mexico. The pupil will also be able to explain how these water routes have influenced the development of the United States.

GENERAL OBJECTIVES--Continued

ACTIVITIES--Continued

CC. Imagine you are a freighter captain; tell about your voyage through waterways in our country. (St. Lawrence Seaway, Soo Locks, Mississippi River, Welland Canal, Erie Canal, etc.)
 Stress cooperation of states and countries. Relate this to shipping of imports and exports.

D. Using maps showing networks of man-made transportation, the pupil should be able to locate the major terminals and tell why they became major cities.

DD. Discuss: What is a "terminal"? What determines the location of the different kinds of terminals?

DD. Have pupils use reference material to find maps showing the networks of transportation. Note the major terminals and discuss why these cities have become important.

EXAMPLE:

Chicago - First important in transportation as a portage (overland route) by Indians, - fur trade, - stock yard, - meat packing, - to present day. Now Chicago ranks as the leading wholesale distributing center.

CONCEPT

Communities in the world tend to become closely related as transportation and communication improve.
 (Political Science)

CONTENT

RESOURCES

A. Special purpose maps (Air routes, railroad routes, highway routes)

BB. Ginn, Trails to Freedom, p. 376 Atlas

CC. Atlas

EVALUATION

A. The pupil will list in writing three ways in which communities throughout our nation are linked.

B. The pupil will orally distinguish between natural linkage, man-made linkage, and the combination of the two by giving two examples of each.

C. The pupil will list in writing three main water routes that are examples of natural linkage.

ORAL OBJECTIVES

A. The pupil will be able to orally define the word communication and give an example of why it is necessary for man to communicate.

B. The pupil will indicate his understanding of the growth of transportation by a written comparison between past and present modes of transportation.

EXAMPLE:
Mayflower - Ocean liners
Wright Bros. - Current jets

ACTIVITIES

AA. Discuss: In what ways does man communicate? (Develop understanding of "communicate.")

AA. Imagine life today without our modern methods of communication.

AA. Arrange an exhibit of communication methods (newspaper, letter, postcard, record, tape, pictures of radio, television, etc.).
Discuss the importance of each. Note how these permit men to share ideas and how advertising is a communication link to the distributive industries.

BB. Using a graph, discuss and compare the means and speed of travel. (Heath, p. 201)

BB. Pupils will construct a chart comparing past and present modes of transportation.

MEANS OF TRANSPORTATION	PAST	PRESENT
-------------------------	------	---------

RESOURCES

AA. Silver Burdett, The Changing New World
Laidlaw, Our Country, C. 29, F.M.,
pp. 112, 214-246

EVALUATION

A. The pupil will orally define "communication" and give one reason why communication is basic to the needs of man.

BB. Heath, In These United States, pp.
200-220

B. The pupil will indicate his understanding of the evolution in transportation by two examples of how transportation has changed in the last 100 years.

GENERAL OBJECTIVES--Continued

C. The pupil will be able to list five communication media that have served to link the world such as the transatlantic cable, telstar, T.V.

ACTIVITIES--Continued

- CC. Read for information on the various methods of communication telling when and how they were invented or improved upon. Keep notes or a jotting list.
- CC. Prepare a working bulletin board on "Nations share ideas through communication and transportation."
EXAMPLE:
1. Eating habits - chopsticks
2. Fashions - mini skirt
3. Christmas customs - St. Nick
4. Architectures - Gothic
Have children find pictures, objects, or written materials related to the theme.
- CC. View filmstrip, The Airplane Changes America.
- CC. Use Telstar as a link to trends.

RESOURCES--Continued

CC. Telephone Company booklets

CC. Filmstrip, The Airplane Changes
America, ME1028

EVALUATION--Continued

C. The pupil will list in writing five communication media that have served to link the world.

CONCEPT

Man can modify his environment. As man's ideas and technology change, his way of living and use of geographic elements may change.

CONTENT

- V. National Trends
 - A. Technological trends
 - 1. Automation
 - 2. Cybernetics (Computerization)
 - 3. Atomic and solar energy
 - 4. Space technology
 - 5. Food production
 - 6. Travel
 - 7. Others

BEHAVIORAL OBJECTIVES

- A. Pupils will be able to define in writing the term technology.
- B. Pupils will be able to list in writing three areas of technology that pertain to technological growth in our nation.
- C. Pupil will be able to select one area of technology and write a paragraph describing the possible growth and effect of this area on future society.

ACTIVITIES

- AA. Use dictionaries and encyclopedias to define technology. Discuss this definition. Place definition in notebooks.
- BB. Discuss with pupils various areas of technology. List areas mentioned on chalkboard. Have pupils gather and bring in information relating to the topic. Discuss to the extent commensurate with pupils' interest and ability.
- CC. Let pupils select a technological area of interest. Let them meet with others of this group to discuss various ramifications of this topic.
- CC. Finish pupil peer discussions and have pupils write a paragraph as per objective "C."

EVALUATION

A. The pupil will define the word "technology" in writing.

B. The pupil will list in writing three areas of technological growth apparent in the U. S.

C. Selecting one area of technological growth, the pupils will write an original paragraph describing its possible growth and effect on society.

CONTENT

As societies grow and their cultures become more complex their laws and institutions also become more complex, as well as more numerous.

Man modifies his culture to meet the social and economic needs of the members of his cultures.

- B. Socio-Economic Trends
 - 1. Urban renewal
 - 2. Racial differences
 - 3. Education
 - 4. Welfare programs
 - 5. Leisure time
 - 6. Population growth
 - 7. Value changes

BEHAVIORAL OBJECTIVES

A. The pupil will be able to define in writing the term "institution."

B. The pupil will be able to compare verbally at least one institution of colonial times with a similar one of today. i.e., Schools, store, hospitals.

C. The pupil will be able to verbally give two examples illustrating the greater complexity of the present day institution compared to the earlier institution.

ACTIVITIES

AA. Using the dictionary, the pupil will select the correct definition of the word "institution" and record the definition to be used in their notebooks.

BB. Through a class discussion, construct a brief class chart comparing colonial institutions with institutions of today. Note growth and changes. After comparing, ask: "Could certain needs of society be met without certain given institutions?" i.e., Poor, sick, old, etc.

CC. Based on the previous charting, the class, through discussion, should realize that there is a prime reason for the difference. Ask: "Why is there such a difference in institutions?" (To meet the expanding population and the growing needs of the people.)

Almanacs

EVALUATION

A. The pupil will define in writing the term "institution."

B. The pupil will verbally compare at least one institution of colonial times with a similar one of today.

C. The pupil will verbally give two examples illustrating the greater complexity of the present day institution compared to earlier institutions.

GENERAL OBJECTIVES -- Continued

D. The pupil will illustrate his understanding of education as a necessary "tool" in today's world by writing a paragraph showing how lack of education has aggravated the problems in the core, urban areas. (It might be interesting to project possible remedies for this situation.)

ACTIVITIES -- Continued

DD. Begin discussion by asking: "What is education?"

Discuss problem: Why is education the key to a community that meets the needs of the people with the people contributing to the community?

Discussion and activities centered around these questions would bring out trends in education:

1. Why is more education needed today?
2. What kinds of jobs are available?
3. What kinds of education would be needed for these jobs?
4. Where could you get this kind of education?
5. Will more or different kinds of education be needed by the time you finish high school?
6. How can lack of education cause problems?

RAL OBJECTIVES --Continued

ACTIVITIES --Continued

E. The pupils will indicate their awareness of free institutions or extended opportunities for personal advancement found in their community by listing at least three in writing. (Vocational School)

EE. After reading and research, the class, through a discussion, will verbally list the free institutions available and the opportunities available within:
1. The community; 2. The county.

The teacher will then list these on the board.

As the institutions are listed ask:
"What do these provide for the citizens?"

*Conduct a symposium. Tell about the various institutions and how they handle a problem.

F. The pupil will indicate his understanding of cultural change by orally listing at least three changes that have taken place recently and have affected our way of life. From this the pupil should also be able to project.

FF. Based on pupil observation and experience, compile a class list of apparent cultural changes evidenced in our society.

EXAMPLE:
Concept of Masculinity - Long hair
Music - Singing groups from Europe
Clothing - Paper dresses

G. The pupil will be able to orally list two value changes the beginnings of which are evidenced in our society.

GG. Determine the definition of value through discussion. Continue discussing changes; stress value changes.

EXAMPLE:
Guaranteed Annual Wage - Should everyone work for a living?
Moral Values - Break down of family unit, etc.

.....
*ENRICHMENT ACTIVITY
.....

E. The pupil will list in writing three institutions (free) or opportunities for personal advancement.
