ABSTRACT

The General and Vocational Work Experience Education Programs management system is designed to assist the local school teacher/coordinator in the organization and management of the programs. The system defines and describes the accountability line from the Work Experience Education teacher/coordinator, through the Career Planning and Placement Center teacher/coordinator and the local school principal to the director of the Career Development Programs. Included in this manual are: (1) a statement of the school district's educational philosophy, (2) a description of the Vocational Work Experience Program and the General Work Experience Program, and (3) a listing of program goals and expectancies, student terminal performance objectives, and teacher/coordinator facilitating objectives. The teacher/coordinator objectives are designed to provide a performance framework which defines the teacher/coordinator's tasks in managing the programs and in assisting students to reach the terminal objectives. Objectives have been included to cover administrative, legal, career station, counseling, and related learning activities. The teacher/coordinator and student objectives are arranged into four 9-week time frames to facilitate the collection of evaluation data at the same time as the quarterly student grades are issued. GENERAL AND VOCATIONAL WORK EXPERIENCE EDUCATION PROGRAMS

INTRODUCTION

The Work Experience Education Program is a part of an overall San Mateo Union High School District program in career planning and development.

This General and Vocational Work Experience Education Program management system is designed to assist the local school teacher/coordinator in the organization and management of the programs. It defines and describes the accountability line from the Work Experience Education teacher/coordinator, through the Career Planning and Placement Center teacher/coordinator, and the local school principal to the director of the Career Development Programs.

The performance accounting format provides measurable objectives which detail the responsibilities of the teacher/coordinator and his students. The program design provides a management system which will generate data for the improvement of the programs for planning and for evaluation.

The objectives included in this document are predicated on the existence of a Career Planning and Placement Center at the local school. The teacher/coordinator at a school without a Career Planning and Placement Center may need to modify certain objectives to compensate for reduced staff support. The teacher/coordinator may also have to arrange for students to use the career information materials at the counseling offices and/or the school library when they are completing related learning activities.

The teacher/coordinator's facilitating objectives and the student's performance objectives are arranged into four nine-week time frames to facilitate the collection of evaluation data at the same time as the quarterly student grades are issued. Objectives which apply to specific dates or processes appear in a single time frame.

The teacher/coordinator's objective package is further designed to eventually meet the evaluation requirements of the Stull Bill.

GENERAL AND VOCATIONAL WORK EXPERIENCE EDUCATION PROGRAMS

PHILOSOPHY

The growth of technology and the ever-increasing complexity of our society have progressively removed young people from contact with the world of work, until most of them know little of occupational characteristics and requirements. This has signaled the need for some form of occupational orientation and exploration in the educational system.

The San Mateo Union High School District provides each individual participating in the district education programs maximum opportunities to become a purposeful and active member of our modern democratic society.

With this as the prime purpose of the district, learning experiences are directed toward helping the individual to develop a positive self-image and personal value system, to use the processes of decision making, to understand change and how it may be influenced, to recognize the interdependence of peoples, to value his cultural heritage, and to develop a commitment to a democratic society.

PROGRAM DESCRIPTION

Work Experience Education is a method of instruction consisting of programs whose aim is to provide opportunities, through cooperative effort of the school and the community, for students to discover and develop their vocational interests and aptitudes as part of their school program. Work Experience Education can answer the desire of high school students to obtain practical job experiences and to make a successful transition between school and work. In addition, it is realized that employment offers valuable experience for youth that will assist them in making better career decisions.

Programs of Work Experience Education should identify with the objectives each type is trying to accomplish. For example, if we say that a vocational education student is one that has made a career choice and is pursuing it through vocational education instruction, the Work Experience Education program must correspond to the needs of the individual vocational education program. If the student has a very limited idea about his future career, the program must assist the student's recognition of some long-range career choices.

Vocational Work Experience Education serves the vocational education instruction program. The purpose of Vocational Work Experience Education is to assist students in developing and refining those occupational competencies necessary to acquire employment, to adjust to the employment environment, and to advance in the occupation of their choice through the combination of related instruction and employment experiences. Employment thus serves the function of a practical laboratory experience

GENERAL AND VOCATIONAL WORK EXPERIENCE EDUCATION PROGRAMS

for reinforcing the in-school occupational education. Students in Vocational Work Experience Education receive both pay and school credit for their work.

General Work Experience Education, although operating closely to Vocational Work Experience Education, can serve the pre-vocational area by joining with either a career orientation program or a pre-vocational program in any one of the instructional areas. Occupational exploration and development of a readiness to work are achieved through General Work Experience Education. This program offers the student a maturing experience through supervised paid part-time employment and related learning activities. The general work experience will assist the student to become a productive and responsible individual.

Students may be employed in a wide variety of work stations. An important purpose of the General Work Experience Program is to enable each student to learn desirable work habits and attitudes. Although this employment need not be related to a specific occupational goal of the student, the program is designed to assist the student in selecting one.

PROGRAM GOALS AND EXPECTANCIES

Work Experience Education Goals. The following goals have been formulated for the General and Vocational Work Experience Education Programs. The student enrolled in Work Experience Education Programs will:

1. Examine the school curriculum and will be able to determine which courses or programs will aid him in gaining the knowledge and the occupational skills necessary to enter into the career of his choice.
2. Appreciate the importance of work in order to fulfill his basic needs and his quest for self-esteem.
3. Obtain knowledge about the nature and characteristics of those career opportunities which are related to his present and anticipated future goals, values, abilities and interest.
4. Develop an understanding of the individual's role in establishing positive and harmonious relationships between worker and work environment.
5. Identify and demonstrate job entry-level proficiency in an occupational area.

GENERAL AND VOCATIONAL WORK EXPERIENCE EDUCATION PROGRAMS

District Goals and Expectancies. The General and Vocational work Experience Education Programs assist students to achieve the following district educational goals and expectancies:

- 1.0 *Know the many forms in which communication occurs, and communicate effectively.* The student should:
 - Understand how attitudes, values, and emotions are communicated in both verbal and nonverbal ways
 - Read, write, listen, and speak at a functional level

- 3.0 *Understand and accept themselves and others.*
 - Examine his personal long-range goals in relation to his evolving self-concept
 - Evaluate and adjust his vocational and educational objectives in terms of knowledge about himself and the world of work
 - Assess and appraise his aptitudes, interest and achievements in relation to vocational and individual objectives

- 6.0 *Apply the processes of problem solving.*
 - Recognize and define the problem
 - Identify, gather, and use all available sources of information.
 - Analyze the data
 - Select a method for solution and accept responsibility for the results of the decision

- 7.0 *Have a comprehensive and accurate knowledge of the world of work.*
 - Know about a wide variety of occupational fields and the required education and training necessary for entry-level employment and advancement in these fields
 - Possess knowledge and skills necessary for entry-level employment in at least one occupational area
 - Demonstrate the potential for adaptability to changing occupational demands
 - Make occupational choices in line with his interests and abilities, and in terms of the opportunities open to him
 - Relate effectively with individuals and groups with whom he comes into contact in the occupational field of his choice
 - Understand the need to maintain himself as a self-supporting and contributing member of society
 - Use occupational information that is available to him

- 8.0 *Realize the role of education in human progress.*
 - Continue his education beyond compulsory limits and recognize that learning is a lifelong endeavor
 - Recognize the valuable role of education in effecting change

GENERAL AND VOCATIONAL WORK EXPERIENCE EDUCATION PROGRAMS

STUDENT TERMINAL PERFORMANCE OBJECTIVES

The terminal behaviors associated with the Work Experience Education Programs are those skills or behaviors that students will exhibit or possess as a result of completing the program. Objectives 1-6 are to be completed prior to the end of the first semester. Objectives 7-9 apply to the second and following semesters in the Work Experience Education Programs.

1. After completing a series of on-the-job learning activities the student will be able to identify and list the courses which will aid him in the development of job-related skills and behaviors.
2. The student will be able to list, in a report or on a test, the major elements of:
 - Labor laws for minors
 - Payroll deductions
 - Fringe benefits
 - Employee organizations
3. The student will demonstrate, upon request, the knowledge and skills needed to use the information sources available in the Career Planning and Placement Center to find the following for an occupation of his choice:
 - The job description
 - The duties of the job
 - Hours worked
 - Wages
 - Occupational outlook for the future
 - Training required for the job
 - how to enter into the labor market
 - Where to obtain further information
4. Each student will have had learning activities which enabled him to experience the satisfaction of success on his job, of working with others and, if possible, of working with the public. The degree of job satisfaction experienced by the student will be measured by a job satisfaction scale.
5. The student will demonstrate entry-level employment proficiency in his present assignment. A score of _____ on the Career Sponsor's rating sheet will indicate entry level proficiency.
6. The student will be able to demonstrate adequate knowledge to conduct a job search, properly complete an employment application form and meet employer requirements for a satisfactory employment interview.

GENERAL AND VOCATIONAL WORK EXPERIENCE EDUCATION PROGRAMS

7. Students will have developed the employment attitudes and interpersonal skills required for continued employment. Attitudes and interpersonal skills may be identified by observable behaviors such as:
 - Consistent compliance with dress and grooming requirements of the work environment
 - Ability to receive and carry out instructions
 - Working in harmony with supervisors, fellow-employees and the public served
8. Each student will have completed an educational plan which identified the educational and training requirements of his Work Experience assignment or of another occupation which appeared to offer greater personal career potential.
9. Each student will have had on-the-job experiences which have provided opportunities for him to demonstrate personal growth, maturity and responsibility. Increased growth, maturity, and independence may be demonstrated by, but not limited to: regular attendance on the job, assumption of increased responsibilities on-the-job, promotion, being asked to supervise fellow employees, working well under pressure, accomplishing increasingly difficult tasks, and so forth.

GENERAL AND VOCATIONAL WORK EXPERIENCE EDUCATION PROGRAMS TEACHER/COORDINATOR OBJECTIVES

The teacher/coordinator's facilitating objectives are designed to provide a performance framework which defines the teacher/coordinator's tasks in the management of Work Experience Education programs and in assisting students to reach the terminal objectives of the programs. Objectives have been included to cover the administrative, legal, career station, counseling, and related learning activities of the programs. Objectives which apply only to a particular point in time appear in only one time frame. Other objectives which are ongoing and apply to all time frames are repeated in every time frame, i.e., each time frame is a complete objective package which covers a particular nine-week period.

Career and Educational Planning

1. The student will examine his related occupational class instruction and describe how the course has contributed to the improvement of his on-the-job performance.

Evaluation--List 5 skills and 3 responsibilities developed as a result of student's in-school instruction.

2. The student will use the various materials in the Career Planning and Placement Center. He will select two related occupations which interest him and determine which has the greatest opportunity for employment now and five to ten years from now.

Evaluation--The student report will contain the information sources used and the forecasts for both occupations.

3. The student will survey the training and educational opportunities beyond high school by doing one of the following:

- Meet with the Career Planning Assistant at the Career Planning and Placement Center and investigate the potential schools or programs that are available to him in the selected occupational area. List sources used and programs found to be adequate.
- Visit an occupational related course at a local community college and evaluate the course by listing the ways it assists in preparing a person for entry-level employment.
- Investigate the opportunities for education and training offered by one of the military services, and list the ways it prepares a person for civilian employment.
- Investigate one of the on-the-job training programs offered by business or industry, and list reasons why on-the-job training is more advantageous than in-school training.

Evaluation--The content of the student's report will follow the instruction in the option selected by the student, to the satisfaction of the teacher/coordinator.

4. The student will analyze career opportunities and their requirements and compare them to his personal potential and expectations by doing at least two of the following:

- Fill out a self-inventory fact sheet and discuss it with the teacher/coordinator.
- Take an occupational interest inventory and discuss the results with the teacher/coordinator.
- Take a general or specific aptitude test and discuss the results with the teacher/coordinator.
- Make a list of requirements for employment in a specific occupation. Each student will compare the occupational requirements with his personal skills and aptitudes.
- Use the SRA Occupational Exploration Kit as a self-assessment tool and discuss the results with the teacher/coordinator.

Evaluation--The analysis and discussion of the two options selected by the student will be judged acceptable or unacceptable by the teacher/coordinator.

5. The student will list the titles of elective and required courses that he has taken, is now taking, or might take in the future which would help him assume the duties and responsibilities of his present occupational choice.

Evaluation--The student will submit an educational plan which will include his past course work and a plan for his future course work to prepare for an entry-level occupation or entrance into post-high school education training.

Occupational Search and Application

1. The students will research a specific occupation by doing one of the following:

**GENERAL AND VOCATIONAL
WORK EXPERIENCE EDUCATION PROGRAMS

TIME FRAME

1	2	3	4

- Investigate through the use of guidance briefs, pamphlet collections, and booklets located at the Career Planning and Placement Center and make a report as arranged with the teacher/coordinator.
- Investigate through the use of films, filmstrips, slide collections, or records and make a report as arranged with the teacher/coordinator.
- Read the "Help Wanted" section of a local newspaper (i.e., San Mateo Times or the Chronicle) for a week and report on the potential employment in the specific occupation chosen--the type of report to be arranged with the teacher/coordinator.

Evaluation--Student report will be rated as acceptable or unacceptable as determined by the teacher coordinator.

2. The student will interview an employer in a specific business or industry in which the student is interested. The student will make an interview tape or complete an interview form.

Evaluation--Submit a tape-recorded interview form to teacher/coordinator.

3. The student will visit the Department of Human Resource Development (Employment Office) and determine what services are offered.

Evaluation--Submit a report of services to teacher/coordinator.

4. The student will fill out a job application form.

Evaluation--Discuss the form with the teacher/coordinator at an individual conference.

5. The student will participate in a simulated or actual job interview.

Evaluation--Discuss the results with the teacher/coordinator at an individual conference.

GENERAL AND VOCATIONAL WORK EXPERIENCE EDUCATION PROGRAMS

EVALUATION

During the initial year of operation within this management system, the General and Vocational Work Experience Education Programs' evaluation and reporting system will follow the Career Development Programs' guidelines for nine-week reporting cycles as described below. It will provide feedback for program monitoring and for the improvement of the program operation.

1. Immediately at the close of each nine-week time frame, the Work Experience Education teacher/coordinator will do the following:
 - Examine his objectives to determine the degree of accomplishment of each objective.
 - Examine his students' records and performance objectives to determine the degree of accomplishment of each objective.
 - Prepare Form 1, Teacher/Coordinator Objectives, and Form 2, Student Objectives. The report is produced by photocopying Forms 1 and 2 and marking, in the blank at the end of each objective, (1) a "yes" or a "no" statement or (2) a percentage of accomplishment where the blank shows a % symbol.
 - Prepare Form 3, Narrative Report; refer to Appendix.

The narrative report must include the reasons for partial or nonaccomplishment of teacher/coordinator's and student's objectives. The teacher/coordinator's account should include suggestions for program revision and the modification or elimination of performance objectives. Constraints such as time, budgets, supplies, equipment, etc., should be included in this section.

2. Three days following the close of the time frame, the Work Experience Education teacher/coordinator's reports should be submitted to the Career Planning and Placement Center teacher/coordinator for review and transmittal to the Career Development Programs office.
3. Five days following the close of each time frame, the Career Planning and Placement Center teacher/coordinator will submit, through the local school principal, the program evaluation reports to the district director of Career Development Programs.
4. The Career Development Programs office will review the reports in order to determine where additional assistance and support is needed. The Career Development Programs office will act as an informational and retrieval center for all Work Experience Education Programs.
