ABSTRACT

Developed to increase student ability to communicate effectively in a growing range of situations, this kindergarten through grade eight writing and speaking program is based on clusters of instructional and performance objectives for each grade level. The guide begins with a discussion of the goals of education, a point of view about language learning, and the purposes, characteristics, and outcomes of language instruction. The guide then lists three principles that govern the organization of instructional and performance objectives at each grade level; i.e., objectives should be organized: (1) across grade levels in developmental sequences, reflecting and promoting language and cognitive development; (2) according to the speaker's or writer's intent; and (3) in instructional sequence for direct use by teachers. Each grade level section contains two categories--composition and conventions--under which objectives are listed. The subcategories listed under composition are developing language fluency, expressing thoughts and feelings, writing and telling stories and poems, informing an audience, and persuading an audience. The subcategories under conventions are usage and grammar, punctuation, capitalization, spelling, and handwriting. A list of Montgomery County Public Schools instructional guides and related materials is included, as well as a chart illustrating the categories of objectives. (EL)

# The Goals of Education

Adopted by the Board of Education—February 12, 1973

*The goals of education for the Montgomery County Public Schools are set forth in this statement of public policy to guide the school system in developing, implementing, and improving educational programs for its students. This statement outlines those goals considered by the citizens of the county as most important for the education of their children in public schools and for which the citizens will hold the school system responsible and accountable.*

*The school system has the primary responsibility for some of these goals. For others, it shares that responsibility with the home and other community institutions.*

*The extent to which these goals can be realized will depend upon the endorsement by and continuing commitment of the school system staff, students, parents, and the community. With broad endorsement and wide support, the Montgomery County Public Schools will continue its development to serve its students and community in the most effective way possible.*

*Education is a process that encompasses the total experiences of each individual throughout a lifetime of formal and informal learning. The school program, as a keystone in this process, should provide opportunities and encouragement for students to acquire knowledge, to explore ideas, to ask questions, and to seek answers that will lead to sound and useful conclusions.*

*The probability of success motivates students to learn. Each school must create a program and maintain a climate in which every student has opportunities for success. Each individual is unique, and the school shall encourage that uniqueness. The school should help the student understand his[her] values and the values of others.*

*The school program, while developing the skills of learning, should be based on the study of broad human concerns, flexible enough to deal with changing concerns and at the same time related to the needs, interests, and concerns of each student. The program should offer opportunities for decision-making. It should help the student develop the capacity to learn throughout his[her] lifetime, to respond to and understand other human beings, and to accept full responsibility for the results of his[her] actions.*

*Therefore, the Montgomery County Public Schools dedicates itself to provide the opportunity, encouragement, and guidance to make it possible for every child to attain the following goals of education:*

## ACADEMIC SKILLS

The fundamental responsibility of the school is to develop programs that enable each child to acquire those skills basic to all learning. The achievement of all other goals depends upon the success of the school in ensuring that each student, according to his[her] own abilities, attain the following basic skills.

- **Reading:** The ability to read and comprehend written material and relate it to other knowledge

- **Composition:** The ability to write with precision, clarity, and acceptable usage, whether to inform, inspire, or persuade

- **Listening and Speaking:** The ability to listen attentively and with understanding and to speak with confidence and effectiveness, whether from written material or extemporaneously

- **Mathematics:** The ability to perform computations, to solve common problems of mathematics and logic, and to understand the structure of mathematics so it can be a useful tool in daily living

- **Study:** The development of basic study skills so that he [she] may acquire knowledge efficiently

- **The Arts:** The development of some of the basic disciplines and skills in the performing and creative arts to be used throughout his[her] life for communication, expression, and enjoyment

- **Observation:** The ability to identify and differentiate elements of the world around him[her] as they are useful in personal, academic, and artistic pursuits

## PHYSICAL DEVELOPMENT

Each person matures physically at a different rate and possesses differing capabilities. The school has the obligation to help each student:

- understand the biological functioning of his[her] body
- make the best both of physical talents and limitations
- develop good health habits, skills, and interests to maintain his[her] body in optimum condition throughout his[her] lifetime

## INTELLECTUAL DEVELOPMENT

In addition to acquiring academic skills, each individual should develop his[her] intellectual capabilities to the fullest extent possible. Therefore, the school will encourage each pupil.

- to think creatively
- to reason logically
- to apply knowledge usefully
- to deal with abstract concepts
- to solve problems

## THE INDIVIDUAL AND SOCIETY

Every person must learn to live in society. The school must help each student develop an understanding of [people] and of how the individual depends upon others and they on him[her]. This requires that each student gain:

- knowledge of himself[herself] and the characteristics, needs, and desires he[she] shares with others
- sensitivity to others and their ideas, and the ability to act responsibly in various situations
- the ability to function productively as a member of a group
- familiarity with the legal, moral, ethical, and cultural heritages of his[her] and other societies
- knowledge of the various political systems and philosophies of the world

## SCIENTIFIC UNDERSTANDING

[We] must exist in the natural world. The school must help each student understand nature's impact on [us] and [our] impact on nature. This requires that each student gain:

- knowledge of natural phenomena and their effect on [people]
- understanding of scientific advances and their part in modern technology
- understanding of the scientific method
- appreciation of the ways in which the application of scientific principles can improve the quality of life while preserving the natural order

## AESTHETIC EXPRESSION

[We], to realize [our] full potential, must be able to sense and appreciate beauty in the world around [us], whether created by nature or by [people]. The school must help each student gain:

- knowledge of the nature of the creative performing arts
- experience with a wide variety of art forms
- a perspective for developing his[her] own aesthetic criteria and tastes
- understanding of the contribution of the arts to human communication

## CAREER DEVELOPMENT

Productive and satisfying work enriches [our lives]; and with increasing leisure time, many people will use various occupational skills for avocational purposes as well. The school must help each student gain:

- knowledge and appreciation of the wide variety and interrelationships of occupations in modern society
- opportunities to explore potential occupations in relation to personal aptitudes and interests, unrestricted by stereotypes of sex, race, or socio-economic level
- the knowledge, skills, and abilities that enable him[her] to secure satisfying employment, embark upon further training and education in a chosen career field, and adapt occupational talents to changing job demands and opportunities
- the knowledge, skills, and abilities that enable him[her] to secure satisfying employment, embark upon further training and education in a chosen career field, and adapt occupational talents to changing job demands and opportunities

## COMMITMENTS

*The Board of Education and the staff of the Montgomery County Public Schools must create and maintain an educational environment that promotes the attainment of these goals by all students. Toward this end, therefore, the public schools make the following commitments to the citizens of Montgomery County:*

- *To attract and retain the most qualified and best trained staff possible through dynamic programs of recruitment, supervision, and continuing in-service training and staff development opportunities*
- *To develop and implement a comprehensive and flexible instructional program to achieve the aforementioned goals and to provide the facilities, materials, and equipment needed to enhance the effectiveness of the program*
- *To evaluate the effectiveness of the instructional program continuously, and regularly report the findings to students, parents, staff, and the community*
- *To adopt new and different approaches when it is determined that they will contribute more effectively to the fulfillment of the goals*
- *To encourage a continuing dialogue with the entire community, making every effort to communicate needs and achievements, and to be responsive to the needs and aspirations of the school community*
- *To utilize facilities and staff, in cooperation with other agencies, in the development of preschool, community school, and adult education programs that will meet the continuing educational needs of all citizens*
- *To provide an accountability procedure for informing county citizens of the objectives and costs of their school system and of reporting periodically on the educational investments made with their tax dollars*

## ENGLISH LANGUAGE ARTS, K-8 WRITING AND SPEAKING

### POINT OF VIEW

#### Language and Language Learning

Language and language learning are all-pervasive in the lives of children. Children come to school having already accomplished the single most complex and profound learning experience of their lives—learning to speak their native language. Language learning in school is based upon and must extend children's understanding of and experience with language gained at home and in the community.

Children learn from the beginning that language conveys meaning. They also learn to use language to discover meaning and to exchange meanings with the world around them, to communicate. They use language to make sense of the world and their experiences in it. In effect, children learn to use language by having authentic purposes for doing so.

As they communicate, children engage actively in constructing meaning. Language learning is inherently a cognitive process, and language skills are inherently thinking skills. Children learn to use their developing language to think, to generate new ideas from old experience, and then, often with assistance from the adults around them, to think critically about their experience.

Language education needs to be developed in concert with the natural language learning that is so successful in the lives of children. Language educators need to build bridges between what children already know about language and thinking and what they are taught in school. Language educators need to help children and adolescents extend their native thinking abilities through language so that they can make valid inferences, predict accurately, form and test hypotheses, solve problems, and evaluate their experience in the world around them.

#### Purposes and Outcomes of Language Instruction

The primary purpose of language instruction is *to develop student ability to communicate intentionally and effectively in a growing range of situations*. Personal and social development depend on the growth of communicative competence. Effective language instruction contributes continuously to this ability. Every instructional objective, task, and activity needs to be evaluated by the following criterion: does successful performance in this objective, task, or activity contribute to the student's ability to understand or to be understood?

Meaning is central to communication. The natural unit of meaning is not the syllable, word, or sentence, but whole discourse—a coherent message in spoken or written form. Thus, helping students to develop communicative competence implies a second instructional purpose: *to develop student ability to understand and produce coherent discourse*. Effective language instruction, therefore, focuses primarily on whole discourse at every grade, K-8.

The purposes outlined above support a variety of outcomes for students. The following student outcomes should be valued and promoted in every grade, beginning in kindergarten. Students should:

- Increase interest and participation in communicating through listening, speaking, reading, and writing activities
- Use language to discover the nature of the self and the world

- Write and speak in a growing range of situations
- Write and speak for a variety of purposes, on a variety of topics, and in a variety of forms
- Write and speak for a variety of audiences, including the self
- Increase time spent thinking about and discussing their own writing and the writing of classmates
- Increase time spent rewriting selected drafts
- Feel confident in their ability to produce coherent discourse
- Persist in trying to make their writing or speech understandable and effective
- Increase time spent writing and speaking
- Increase amount of discourse written
- Express feelings and thoughts in a variety of creative activities

### **General Characteristics of Effective Language Instruction**

To promote these student outcomes and to develop a student's ability to use language effectively to the fullest extent possible, the teacher should do the following:

- Encourage the use of relevant background knowledge and experience in listening, speaking, reading, and writing; establish authentic purposes for listening, speaking, reading, and writing; emphasize whole discourse and the contexts in which it is understood or created; and develop the active role of the language learner in constructing meaning.
- Encourage writing and speaking for a variety of purposes and audiences, in a variety of situations and forms, and on a variety of topics; use literature for children and adolescents for discussion and writing; and display student writings regularly.
- Encourage students to write freely and regularly in a journal during class time.
- Provide students with a rich variety of small-group and whole-class activities to develop the social, psychological, and linguistic experience needed to use language effectively.
- Use questions and questioning strategies to promote thought, discussion, and problem solving in small-group and whole-class settings.
- Focus as often as possible on related clusters of performance objectives rather than on one objective at a time; and take advantage of opportune moments to teach objectives.
- Not only teach students the basic skills of listening, speaking, reading, and writing but also encourage students to use those skills in creative thinking and discovery activities.
- Use instructional grouping that is flexible and that features both heterogeneous and homogeneous whole-class and small-group instruction when appropriate.
- Integrate writing and speaking instruction, whenever possible, with instruction in reading and listening.
- Integrate language instruction, whenever possible, with instruction in aesthetic arts and content subjects.
- Provide students with opportunities to demonstrate competence in a variety of tasks, activities, and situations over an appropriate period of time, both in class and as homework.
- Base evaluation of student achievement on the full range of student performance in classroom activities, on homework assignments, on regular classroom quizzes, tests, and assignments, and on standardized tests; use evaluation to promote expression; evaluate a student's writings periodically and focus on signs of development; use grading and reporting practices that conform to MCPS policy.

### **Characteristics of Writing Instruction**

**Composition and conventions.\*** The heart of the instructional program in writing is composition.

---

\*In this curriculum, "conventions" refer to usage, grammar, and mechanics.

All other parts of the program, such as mechanics, contribute to the quality of the writing produced in it.

**Composition and oral language development.** Teachers encourage students to express themselves in writing freely and often, and to discuss their writing with classmates and adults. Discussion is especially important. Through primary and middle elementary grades, oral language development usually leads written language in vocabulary, syntax, and elaboration of meaning. Talking or drawing prior to and during writing is especially helpful for beginning writers. By the upper elementary grades, however, written language development can overtake and lead oral language, thus contributing to further oral language development.

**Composition instruction for developing writers.** To learn to compose, developing writers must have successful composing experiences. They must have successful experiences selecting and carrying a thought, feeling, observation, or story through the composing process. They discover new options for creating text and making sound decisions as they go, and they become aware of what works and does not work for them. Teachers help writers to develop their topics and purposes and to be aware of their audiences so that they can come out of instruction with more options for making messages effective and meaningful than they had before.

Teachers provide developing writers with decision-making and problem-solving strategies and models. They write with students and model successful decision-making and problem-solving strategies during the actual production of a piece of writing. Students need to know how to get from the beginning of a paper to its final draft. Like all good writers, they also need to know that, in spite of their best efforts, not all writing is successful and not all papers become final drafts.

## DESCRIPTION OF THE WRITING AND SPEAKING PROGRAM

### Organization of Objectives

The K-8 writing and speaking program is based on clusters of instructional and performance objectives for each grade level. The performance objectives are organized under instructional objectives, and the latter are clustered under categories such as Developing Language Fluency or Spelling. The instructional objectives indicate the teacher's goals of instruction, and the performance objectives indicate what students ought to be able to do to demonstrate progress toward attaining the instructional objectives. To ensure a comprehensive writing and speaking program, both instructional and performance objectives are prescribed. All students—high-, average-, and low-achieving students and students with special needs—receive instruction in these objectives.

Three principles govern the organization of instructional and performance objectives at each grade level:

- Since competence in written and oral composition develops in concert with other language and cognitive abilities, *the objectives are organized across grade levels in developmental sequences which reflect and promote language and cognitive development.* This organizational principle is most evident in scope and sequence charts
- Since writing and speaking require a personal commitment to communication, *the composition objectives are organized by the writer's intent (e.g., to inform) and reflect the composing processes writers use in realizing those intents.*
- As often as possible, *the objectives appear in instructional sequence for direct use by teachers.*

The most important organizational principle is the organization by the writer's or speaker's intent and the stages of the composing process which realize that intent. The purpose for speaking or writing is reflected in the titles of the major categories of objectives under Composition:

- I. Developing Language Fluency
- II. Expressing Thoughts and Feelings
- III. Writing and Telling Stories and Poems (Literary Purpose)
- IV. Informing an Audience
- V. Persuading an Audience

All five categories of composition objectives are present in the curriculum at every grade level, K-8, ensuring that students receive instruction in writing and speaking for a balanced variety of intents at each grade level.

Each intent (e.g., to persuade) may be expressed in a variety of forms (e.g., an advertisement, an editorial/review, or a letter). The driving principle in the writing and speaking program is the writer's or speaker's intent in communicating, not the forms which are used.

The last objectives in each section under composition deal with editing and proofreading, and those skills are developed in full in the section on Conventions. The subcategories under Conventions are the following:

- I. Usage and Grammar
- II. Punctuation
- III. Capitalization
- IV. Spelling
- V. Handwriting

The objectives for Conventions are separated from composition in the curriculum for ease of access, but usage, grammar, and mechanics are taught as often as possible in the editing and proofreading stages of the composing process. Figure 1 indicates how the two major sets of objectives (Composition and Conventions) come together in instruction in the composing process.

#### **Description of Courses - Grades 7, 8**

English - Grade 7

1001

English - Grade 8

1002

The objectives for English 1001 and English 1002 are listed in the *Program of Studies, English Language Arts, K-8, Part I: Reading and Listening and Part II: Writing and Speaking* (this document).

#### **English 7**

Literature in the seventh grade includes novels, biographies/autobiographies, short stories, fables, legends, folklore, and poetry. Wide reading for personal enjoyment is also encouraged.

The speaking program provides opportunities for students to express themselves in discussions, and in extemporaneous and formally prepared speeches.

The writing program is designed to provide students with instruction in expressing themselves

through different types of writing, with a focus on the composing process. Students complete writing with four major intents: expressive (e.g., personal essays), literary (e.g., original stories and poems), informative (e.g., reports), and persuasive (e.g., advertisements).

Instruction in the conventions of English emphasizes usage and grammar, punctuation, capitalization, and spelling.

Vocabulary development is also emphasized.

### English 8

Literature in the eighth grade includes novels, biographies/autobiographies, legends, myths, and short stories. Wide reading for personal enjoyment is also encouraged.

The speaking program continues to provide opportunities for discussions, and extemporaneous and formal speaking.

The writing program continues to provide students with instruction in expressing themselves through different types of writing, with a focus on the composing process.

Instruction in the conventions of English reviews and expands the skills taught in seventh grade.

Vocabulary development continues to be given major emphasis.

## GENERAL INFORMATION

The objectives of the writing and speaking program fulfill the philosophy and goals of the MCPS Goals of Education. They are specifically aligned with the goals of Academic Skills but are no less supportive of the goals for Intellectual Development, the Individual and Society, Scientific Understanding, Aesthetic Expression, and Career Development. Writing and speaking pervade the entire school program.

The Maryland Functional Writing Test is administered in the spring of each year to students in Grades 7 and 9, and successful performance on the Level II test (Grade 9) is a requirement for graduation in 1987 and thereafter. To help students achieve the functional writing objectives, those failing the test in Grade 7 immediately receive appropriate instruction in the objectives they failed.

Although MCPS is not required by the State to test functional writing before Grade 9, functional writing is taught in MCPS at all grade levels, beginning in kindergarten. All state-mandated functional writing goals and competencies included in Project Basic are listed below. Teachers must be sure to include the required Project Basic forms (e.g., letter, telephone messages, minutes of meetings), objectives, and competencies as part of the writing instructional program. Objectives related to Project Basic and Career Education (also listed below) and appropriate for the writing and speaking program should be taught in conjunction with appropriate writing intents.

### Project Basic Writing Objectives

- Grades K-2 Write lists. (1.1.1.3)
- Write own telephone number including area code. (1.1.1.20)
- Write signs of warning. (1.2.1.5)
- Write a sentence that asks a question. (1.2.4.40)

- Grades 3-4 Write own full address including zip code. (1.1.1.19)  
 Record full names of own parents or guardians, brothers and sisters. (1.1.1.22)

## CATEGORIES OF OBJECTIVES IN K-8 WRITING AND SPEAKING CURRICULUM

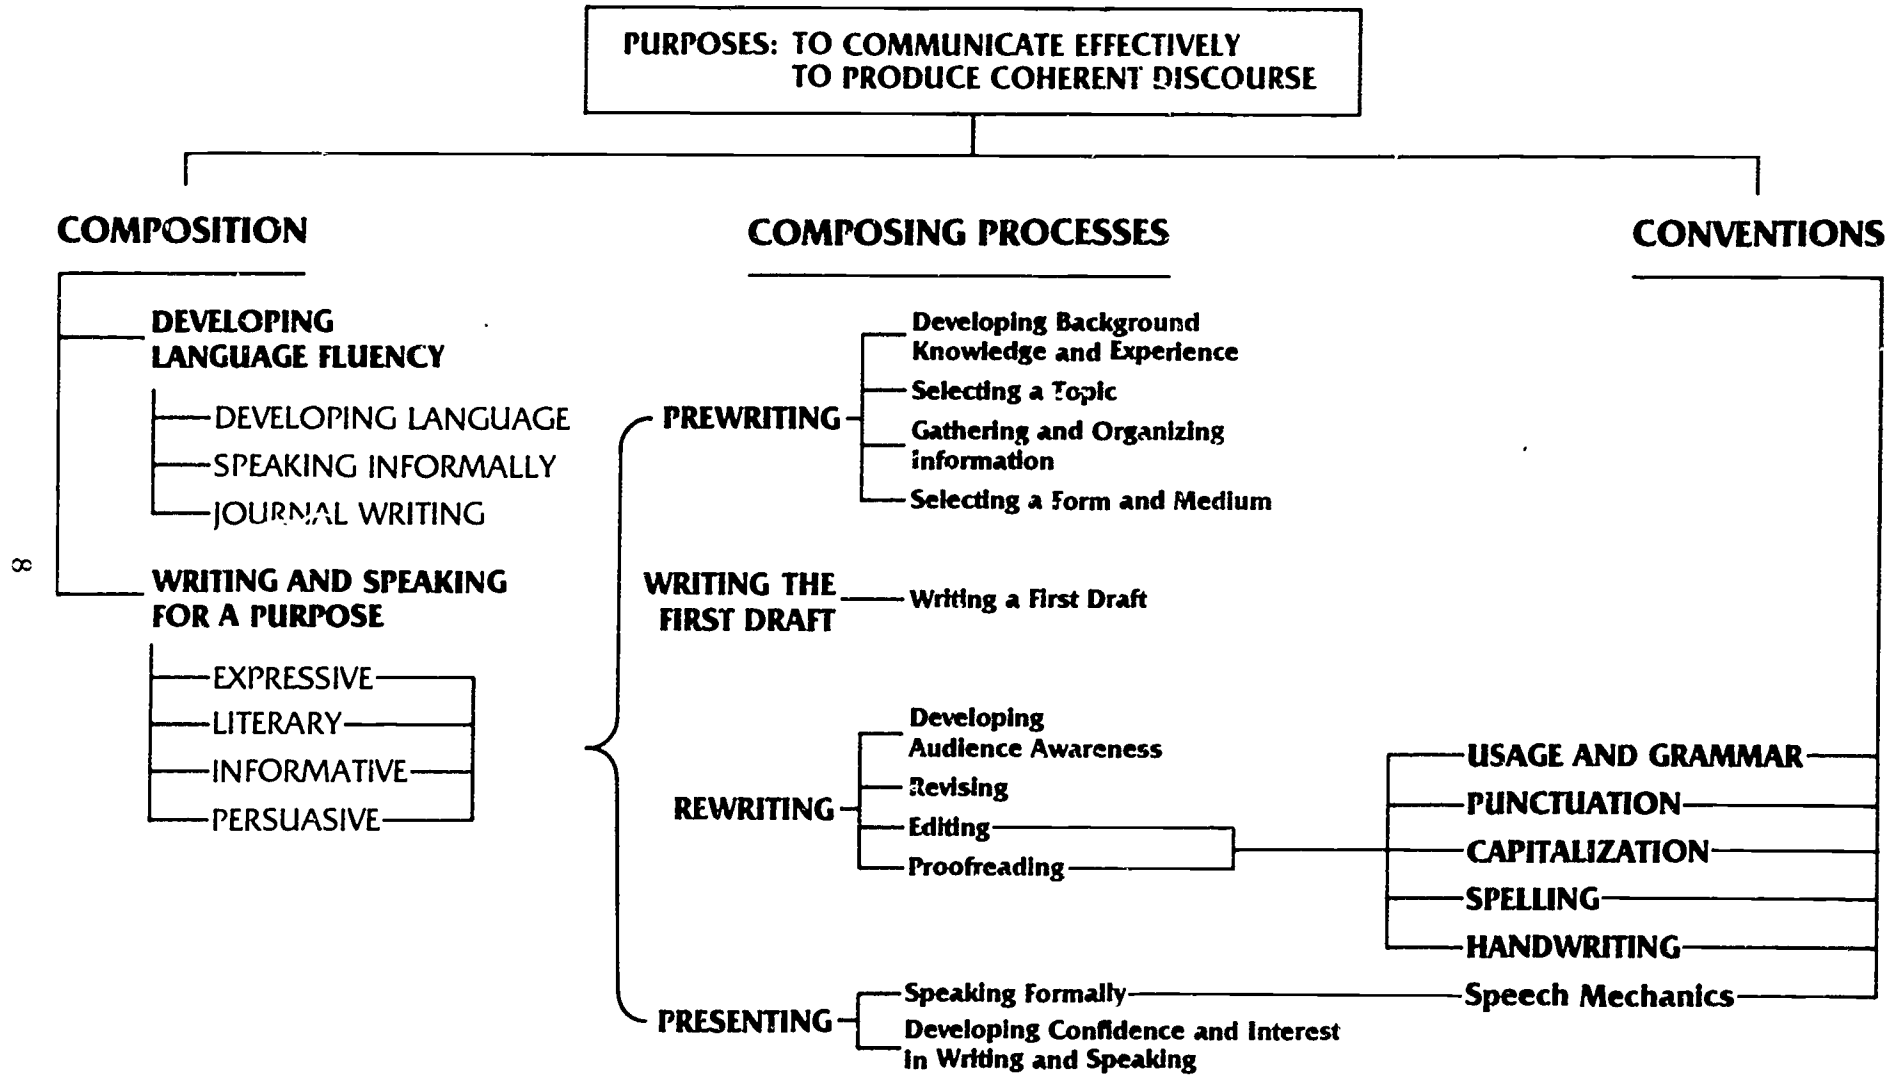

FIGURE 1. RELATIONSHIPS AMONG PURPOSES, MAJOR CATEGORIES OF OBJECTIVES, AND COMPOSING PROCESSES IN THE WRITING AND SPEAKING CURRICULUM

**LEVEL K**  
**COMPOSITION**

**I. Developing Language Fluency**

**A. Developing Language for Writing and Speaking**

1. Discuss words, phrases, and expressions that appeal to the student.
2. Suggest a word or phrase for a class collection of words and phrases that refer to a topic of study or interest.
3. Suggest a word or phrase for a class collection of words and phrases that refer to properties of objects.
4. Suggest a word for a class collection of words that refer to times of the day, week, or year.
5. Suggest a word or phrase for a class collection of words and phrases that refer to feelings.
6. Suggest a word or phrase for a class collection of words and phrases that refer to family members, friends, and school activities.
7. Participate in the development of a class web or diagram that shows relationships among a list of words produced by the students.
8. Discuss the context in which a collected word, phrase, or expression was used.
9. Identify words in familiar signs and labels.
10. Name specific animals, persons, or objects in a general category of animals, persons, or objects.

**B. Developing Fluency in Oral Communication: Informal Speech**

11. Discuss ideas about a topic informally with a classmate.
12. Speak on the topic in a group discussion or conversation.
13. Listen attentively to classmates in a group discussion or conversation.
14. Respond or ask questions in a group discussion or conversation.
15. Use appropriate posture when speaking.
16. Speak clearly and audibly.
17. Role-play different ways of answering or making a telephone call.

**C. Developing Fluency in Written Communication: Journal Writing**

18. Write a journal entry on a self-selected or assigned topic in class once a week or more.
19. Develop ideas on a topic quickly and freely, without concern for form, audience, coherence, spelling, or mechanics.
20. Select an entry and read it to the teacher or tell the teacher what the writing says.
21. Select an entry and read it to classmates or tell classmates what the writing says.
22. Listen to the reactions and questions of classmates.
23. Ask a probing question about the content of a classmate's journal entry.
24. Observe the teacher writing thoughts and ideas expressed by the student in the student's journal.

**II. Expressing Thoughts and Feelings**

**A. Developing a Sense of Expressive Discourse**

1. Listen to verse which expresses thoughts and feelings.
2. Tell about a situation in which the student experienced a particular thought or feeling.

3. Tell how a thought, poem, music, work of art, drama, or natural phenomenon makes the student feel.
4. Discuss stories in which characters express thoughts or feelings.
5. Collect words that describe feelings.

**B. Selecting Thoughts or Feelings**

6. Select a thought or feeling to express.
7. Draw a picture about the thought or feeling.
8. Discuss the thought or feeling.

**C. Selecting a Form and Medium**

9. Discuss forms and media for expressing the thought or feeling.
10. Select a form and medium.
11. Discuss the characteristics of the form and medium selected.

**D. Writing a First Draft**

12. Write a first draft, developing ideas quickly and freely, without pausing to revise, edit, or proofread.
13. Observe the teacher writing ideas expressed by the student.

**E. Developing Awareness of Audience**

14. Read the draft to the teacher or tell the teacher what the writing says.
15. Read the draft to a classmate(s) or tell a classmate(s) what the writing says.
16. Listen to the teacher's or a classmate's reactions and questions.
17. Indicate what the student likes best about a classmate's writing.

**F. Revising the Draft**

18. Compare the characteristics of the draft with the characteristics of the form and revise as necessary.
19. Suggest a title for the draft.

**G. Editing the Draft**

20. Suggest changes in words, phrases, or sentences dictated to the teacher.

**H. Proofreading and Preparing the Final Draft**

21. Proofread the final draft with the teacher.

**I. Developing Confidence and Interest in Writing and Speaking**

22. Select a writing and read it aloud or display, present, or publish it.
23. Tell what the student likes best about a classmate's writing.

**III. Writing and Telling Stories and Poems**

**A. Developing a Sense of Literary Form**

1. Listen to stories, poems, and rhymes.
2. Retell or recite a familiar story, poem, and rhyme to classmates.
3. Discuss what the student likes best about stories, poems, and rhymes.
4. Discuss characters' problems.
5. Relate personal experiences to stories, poems, and rhymes
6. Discuss how folk tales begin and end.
7. Observe dramatizations of stories, poems, and rhymes.
8. Dramatize a story, poem, or rhyme as a member of a group.

9. Observe as the teacher records a story or part of a story, poem, or rhyme told, retold, or recited by the student(s).
10. Discuss the characteristics of stories, poems, and rhymes.
11. Discuss similarities and differences in poems and rhymes.

**B. Selecting an Idea for a Story, Poem, or Rhyme**

12. Draw or select a picture to write about.
13. Discuss ideas for developing a picture into a story, poem, or rhyme.

**C. Selecting a Form and Medium**

14. Discuss forms and media for writing or telling stories, poems, and rhymes.
15. Select a form and medium.
