IDENTIFIERS California; Los Angeles Community College District

ABSTRACT This publication provides data on day faculty teaching loads in the Los Angeles Community College District (LACCD) for fall 1973 and fall 1974, and compares this data to statewide statistics. The overall LACCD teaching load in fall 1974 was 532 weekly student contact hours per full-time faculty member, compared to 531 for large community colleges statewide, 487 for small community colleges, and 521 for all community colleges. The 1974 LACCD faculty load represented a 4.9 percent increase over the 1973 figure of 507. Although faculty loads increased over the two years, the overall profiles for both LACCD and statewide institutions were similar in the various disciplines for the two years. The largest increases occurred in the fields of foreign languages, public affairs and services, architecture and environmental design, and home economics. Decreases occurred in health professions, commerce, apprenticeship, communications, law, and mathematics. One reason for the increases in faculty load, both in the LACCD and statewide, was an unexpectedly large enrollment increase in fall 1974. Data are tabulated for the district as a whole and for each of the eight LACCD institutions by instructional program area, and the percentage differences are calculated between the LACCD averages and statewide averages for institutions of comparable size. ABSTRACT

This publication provides data on day faculty loads in the Los Angeles Community College District for Fall 1973 and Fall 1974. LACCD data were furnished directly by the institutions involved. Statewide information was drawn from the 1974 California Community College Presidents' Study of teaching loads and the Chancellor's Office, California Community College publication Fall Enrollment 1974. It is hoped that these data will aid in the evaluation of current faculty load patterns and in planning for future developments in this area.

The overall load in the Los Angeles Community College District in Fall 1974 was 532 WSCH per FTE faculty member, compared to 531 for large community colleges statewide, 489 for small community colleges, and 521 for all community colleges. Despite these differences, LACCD institutions and community colleges statewide had generally similar load profiles in the various academic disciplines in Fall 1974.

The 1974 LACCD faculty load represented a 4.9% increase over the 1973 figure of 507. The largest increases occurred in the fields of Architecture and Environmental Design, Foreign Language, Public Affairs and Services, and Home Economics. Decreases occurred in Health Professions, Commerce, Apprenticeship, Communications, Law, and Mathematics. Although LACCD loads in 1974 were generally larger than in 1973, the overall District load profile in the various disciplines was similar for the two years.

Undoubtedly one reason for the increases in faculty load, both in the LACCD and statewide, was an unexpectedly large enrollment increase in Fall 1974. District enrollment rose 15.9% and state enrollment rose 12.4% between Fall 1973 and Fall 1974. It is likely that these enrollment increases resulted in many institutions having unexpectedly large student-instructor ratios and high faculty loads in 1974.

ACKNOWLEDGMENTS

The authors wish to thank the following campus personnel for providing the information that made this report possible. Kevin Galvin, East Los Angeles College; Ben Gold, Los Angeles City College; Jeanne Landis, Los Angeles Harbor College; William Norlund, Los Angeles Pierce College; Robert Cook, Los Angeles Southwest College; Charles Davis, Los Angeles Trade-Technical College; Fred Macheranz, Los Angeles Valley College; and Robert Standen, West Los Angeles College. Appreciation is also extended to Joseph Feinblatt for previous work on the subject of faculty load.

GLOSSARY

Census Week during Fall 1973 and Fall 1974 was the fourth week of classes, at which time counts of weekly student contact hours and enrollment were taken for state reporting purposes.

Classification of Instructional Disciplines (CID) is a system of four-digit codes used throughout the state for the classification of instructional offerings. The 23 major CID classifications are reported in this publication. A complete list of the instructional programs comprising each discipline is provided in the Appendix.

Disciplines are organized sequences of courses covering related subject matter.

Faculty Load or simply Load is found by dividing the weekly student contact hours in a discipline by the number of full-time equivalent faculty assigned to that discipline.

Full-Time Equivalent (FTE) Faculty in this report is a college-provided estimate of the number of full-time day faculty teaching each discipline. When an instructor taught more than one discipline, his or her time was apportioned accordingly.

Large Colleges are defined in the Presidents' Study (see Introduction) as having 60,000 or more day WSCH.

Small Colleges are defined as having fewer than 60,000 day WSCH.

Weekly Student Contact Hours (WSCH) are computed by multiplying the number of students enrolled in a class at census time by the number of hours per week for which the class meets. All WSCH figures in this report are day WSCH - i.e., generated prior to 4:30 p.m.

DISTRICT PROFILE

For several years the Foothill Community College District and the City College of San Francisco have coordinated and published statewide data on program popularity and faculty load for day classes in the annual California Community College Presidents' Study. Northern California community colleges have participated in the study since Fall 1968 and a few Southern California colleges since 1971, but Fall 1973 was the first year that all of the Los Angeles Community Colleges (other than Mission) were included.* That year, a total of thirty-six Northern California and thirty-four Southern California colleges participated in the study.

The purpose of this Research Report is to highlight day faculty load data pertaining to the Los Angeles Community Colleges and to compare these data with various statewide averages.

The Presidents' Report divided California community colleges into "large" and "small" groups. Large colleges were defined as those with 60,000 or more day weekly student contact hours (WSCH) in the Fall semester and small colleges as those with under 60,000 day WSCH. Of the colleges in the Los Angeles Community College District, only West and Southwest are classified as small colleges.

The "overall" or "average" load at a college was found by dividing the total WSCH in all disciplines by the total number of FTE faculty. Overall load is therefore an indication of the average load per day instructor at the college rather than of the average load per discipline. (Average load per discipline would lead undue weight to disciplines with small numbers of WSCH.) The average loads for the District and for the state are similarly computed from total WSCH and total number of FTE faculty. All computations in this Report were done using

* Los Angeles Mission College was first opened in Spring 1975.

the District's APLSV interactive computer system.

Table 1 summarizes the faculty loads for the District, the state, large and small community colleges throughout the state, and each of the Los Angeles Community Colleges in Fall 1974. The various academic disciplines are listed along the left margin by their Classification of Instructional Discipline (CID) numbers. Much of this information is presented graphically in Figure 1.

Table 1 reveals that the overall load in the Los Angeles Community College District in Fall 1974 was 532, compared to 531 for large community colleges statewide, 489 for small institutions, and 521 for all institutions. Figure 1 indicates that, despite the foregoing differences, LACCD and state institutions had generally similar load profiles in the various academic disciplines in Fall 1974.

Table 2 presents the WSCH and faculty FTE data from which the loads in Table 1 were calculated. Table 2 also shows the percentage change in LACCD loads in each academic discipline between 1973 and 1974. Overall load in the Los Angeles Community College District increased from 507 in 1973 to 532 in 1974, a 4.9% increase. Table 2 reveals that the largest increases were experienced by the disciplines of Architecture and Environmental Design (20.9%), Foreign Language (20.0%), Public Affairs and Services (19.7%), and Home Economics (16.7%). These disciplines, however, involved only 7.8% of total District day WSCH in Fall 1974.

Declines between 1973 and 1974 loads were found in several disciplines, most notably in Health Professions (7.2%), Commerce (5.8%), and Apprenticeship (5.2%).

The load information from Table 2 is displayed graphically in Figure 2. Although loads in 1974 were generally larger than in 1973, it is clear from Figure 2 that the overall load profile in the District was similar for the two years.

Table 3 presents the percentage difference of the LACCD loads in various disciplines from statewide averages in 1973 and 1974. The overall 1973 District load of 507 was 2.1% below the state average, while the 1974 load of 532 was 2.1% above the average. In 1973, sixteen of the District's twenty-three disciplines had loads lower than the state average; in 1974 only nine had lower-than-average loads. Table 3 shows that those LACCD disciplines with loads most discrepant from state loads in 1974 were Foreign Language (17.5%), Engineering (12.8%), Commerce (11.4%), Interdisciplinary Studies (-17.4%), and Health Professions (-13.0%).

Community colleges statewide experienced unusual enrollment increases in Fall 1974, and the Los Angeles Community College District was no exception. It is likely that these enrollment increases resulted in unexpectedly large student-instructor ratios and thus in unexpectedly high faculty loads in Fall 1974.

Load, WSCH, and faculty FTE comparisons for individual District institutions are contained on the following pages.

EAST LOS ANGELES COLLEGE

EAST LOS ANGELES COLLEGE

Faculty loads at East Los Angeles College in Fall 1973 and in Fall 1974 are presented in Table 4. The percentage differences of these loads from the large college averages and from the LACCD averages for those two years are contained in Table 5.

East's overall 1974 load of 509 was 4.1% lower than the large college average and 4.3% lower than the LACCD average. Only Southwest College, with a faculty load of 396, ranked lower in the District in 1974.

Disciplines at East Los Angeles College with loads notably smaller than the LACCD average in Fall 1974 included Communications, with the smallest load at East, Architecture and Environmental Design, Library Science, Fine and Applied Arts, with the lowest District load for that discipline, Education, and Public Affairs and Services.

Several disciplines at East had loads above District averages in 1974: Foreign Language, with the highest faculty load for that discipline in the state, Health Professions, Law, Biological Science, Physical Science, and Home Economics.

A comparison of 1973 and 1974 faculty loads at East shows an overall increase of 2.7%. The largest percentage increase occurred in the (very small) discipline of Library Science (130.1%), followed by Home Economics (44.9%), Foreign Language (29.3%), Engineering (25.9%), and Business and Management (21.5%).

Declines occurred between 1973 and 1974 in Public Affairs and Services (40.3%), Education (22.8%), Biological Science (6.8%), Social Science (4.6%), Communications (4.5%), and Psychology (1.2%).

LOS ANGELES CITY COLLEGE

LOS ANGELES CITY COLLEGE

Faculty loads at Los Angeles City College in Fall 1973 and in Fall 1974 are presented in Table 6. The percentage differences of these loads from the large college averages and from the LACCD averages for those two years are contained in Table 7.

Ranking fifth in the District in 1974, City's load of 526 was 1.0% below the large college average and 1.2% below the LACCD average. Disciplines with faculty loads far below District averages included Engineering and Biological Science.

Several disciplines in 1974 displayed loads far greater than the District average, including Interdisciplinary Studies, Public Affairs and Services, with the highest load at City, Communications, and Psychology.

Faculty load at City increased 9.1% between Fall 1973 and Fall 1974. Considerable gains were evident in Public Affairs and Services (87.7%), Interdisciplinary Studies (67.1%), Home Economics (57.3%), Foreign Language (41.5%), Architecture and Environmental Design (37.0%), Computer Science (35.1%), Engineering (31.1%), Social Science (20.7%), and Psychology (20.1%). City's load in Psychology was the highest in the District for that discipline.

Downward trends were evident in Health Professions (15.7%), Letters (10.9%), Communications (7.7%), and Biological Science (3.5%).

LOS ANGELES HARBOR COLLEGE

24

17

LOS ANGELES HARBOR COLLEGE

Faculty loads at Los Angeles Harbor College in Fall 1973 and in Fall 1974 are presented in Table 8. The percentage differences of these loads from the large college averages and from the LACCD averages for those two years are contained in Table 9.

Harbor's overall load of .355 in 1974 was 4.6% above the large college average and 4.4% above the LACCD average. Within the District, Harbor ranked second only to Trade-Tech in overall load in 1974.

Those disciplines at Harbor with faculty loads considerably above District averages in 1974 included Interdisciplinary Studies, Education, with the highest load in the state for that discipline, Public Affairs and Services, Mathematics, and Computer Science.

Eight disciplines at Harbor had loads below the LACCD averages: Communications, Home Economics, with the smallest District load for that discipline, Psychology, Architecture and Environmental Design, Social Science, Engineering, Foreign Language, and Letters.

Comparisons of 1973 and 1974 data show an overall increase of 15.0% in faculty load - the highest increase in the District. Disciplines showing large increases included Education (49.8%), Interdisciplinary Studies (47.6%), Foreign Language (34.8%), Public Affairs and Services (29.4%), Mathematics (24.5%), Biological Science (17.0%), Physical Science (16.8%), and Fine and Applied Arts (16.5%).

Declines in load between 1973 and 1974 were experienced by Home Economics, with the lowest District load for that discipline in 1974, Architecture and Environmental Design, and Computer Science.

LOS ANGELES PIERCE COLLEGE

28

21

LOS ANGELES PIERCE COLLEGE

Faculty loads at Los Angeles Pierce College in Fall 1973 and in Fall 1974 are presented in Table 10. The percentage differences of these loads from the large college averages and from the LACCD averages for those two years are contained in Table 11.

Pierce's Fall 1974 load of 542 was 2.0% below the large college average and 1.8% below the LACCD average. Pierce ranked fourth in the District in 1974.

Only two disciplines at Pierce in Fall 1974 had loads notably higher than the LACCD average: Biological Science, with the highest load at Pierce, and Architecture and Environmental Design. Both had the highest District loads for their respective disciplines. Pierce is the only school in the Los Angeles Community College District to offer a curriculum in Agriculture and Natural Resources, and only Pierce and Trade-Tech offer an Apprenticeship Program.

Several disciplines at Pierce had loads below the LACCD average in 1974: Communications, Interdisciplinary Studies, Apprenticeship, Engineering, Foreign Language, Health Professions, with the smallest load at Pierce, Education, and Fine and Applied Arts.

A comparison of faculty loads for 1973 and 1974 shows a rise of 9.4% since 1973. Major growth was evident in Biological Science (41.0%), Psychology (33.2%), Business and Management (23.8%), Fine and Applied Arts (23.7%), Architecture and Environmental Design (21.8%), Engineering (20.7%), and Social Science (17.9%).

Five disciplines showed decreases between Fall 1973 and Fall 1974: Apprenticeship (28.6%), Mathematics (11.8%), Computer Science (5.3%), Foreign Language (3.2%), and Education (2.2%).

LOS ANGELES SOUTHWEST COLLEGE

32

LOS ANGELES SOUTHWEST COLLEGE

Faculty loads at Los Angeles Southwest College in Fall 1973 and in Fall 1974 are presented in Table 12. The percentage differences of these loads from the large college averages and from the LACCD averages for those two years are contained in Table 13.

Southwest's Fall 1974 load of 396 was the lowest in the District, and 19.0% lower than the small college average. Disciplines with loads far below the LACCD average in 1974 included Architecture and Environmental Design, Communications, Foreign Language, Public Affairs and Services, Physical Science, Computer Science, Engineering, Mathematics, Education, Health Professions, Biological Science, and Social Science. The loads in all of the above disciplines except Health Professions were the lowest in the District for 1974. Southwest's load in Architecture and Environmental Design was the smallest of any discipline in the District.

Only two disciplines at Southwest had faculty loads that were above the LACCD average in 1974: Library Science, with the highest faculty load for that discipline in the state, and Interdisciplinary Studies.

A comparison of 1973 and 1974 faculty load data at Southwest shows an overall increase of 3.7%. Major leaps were found in Home Economics (59.5%) and in Fine and Applied Arts (29.8%).

Those disciplines at Southwest showing declines between 1973 and 1974 were Foreign Language (33.9%), Communications (19.6%), Health Professions (14.8%), Biological Science (14.3%), Physical Science (9.4%), Engineering (7.6%), Interdisciplinary Studies (6.7%), and Education (6.0%).

LOS ANGELES TRADE TECHNICAL COLLEGE

LOS ANGELES TRADE-TECHNICAL COLLEGE

Faculty loads at Los Angeles Trade-Tech College in Fall 1973 and in Fall 1974 are presented in Table 14. The percentage differences of these loads from the large college averages and from the LACCD averages for those two years are contained in Table 15.

Trade-Tech's Fall 1974 load of 588 was the highest in the District and 10.7% above the large college average.

Disciplines with faculty loads far above District averages included Education, with the largest load at Trade-Tech, Health Professions, Law, Foreign Language, and Letters. All of these disciplines, with the exception of Foreign Language, had the largest loads in the District for their respective areas. Commerce is taught only at Trade-Tech, and Apprenticeship programs are offered only at Trade-Tech and Pierce.

Five disciplines at Trade-Tech had loads below the District average in Fall 1974: Library Science, with the lowest load at Trade-Tech, Business and Management, Psychology, Communications, and Architecture and Environmental Design.

A comparison of 1973 and 1974 data shows a 3.7% drop in overall college load - the largest decline in the District. Disciplines showing substantial decreases included Library Science (50.2%), Law (23.9%), and Home Economics (19.3%). Gains were evident in Foreign Language (31.0%), Education (14.7%), Letters (10.0%), Physical Science (6.4%), Computer Science (4.1%), and Biological Science (0.7%).

LOS ANGELES VALLEY COLLEGE

LOS ANGELES VALLEY COLLEGE

Faculty loads at Los Angeles Valley College in Fall 1973 and in Fall 1974 are presented in Table 16. The percentage differences of these loads from the large college averages and from the LACCD averages for those two years are contained in Table 17.

Valley's overall Fall 1974 load of 516 was 2.7% lower than the large college average and 2.9% lower than the LACCD average. Valley ranked sixth in District faculty load in 1974.

Only two disciplines at Valley had faculty loads substantially below the District averages in 1974. Health Professions, with the lowest load at Valley, and Library Science.

Several disciplines had higher-than-average loads in Fall 1974: Interdisciplinary Studies, Public Affairs and Services, with the highest load at Valley, Architecture and Environmental Design, Communications, Home Economics, Business and Management, and Fine and Applied Arts. Of these disciplines, Public Affairs and Services, Communications, and Home Economics had the highest loads in the District in those areas.

A comparison of 1973 and 1974 data shows a rise of 0.2% in overall load. Large increases were experienced by the small disciplines of Architecture and Environmental Design (412.6%), Public Affairs and Services (174.5%), and Computer Science (53.4%). Decreases were evident in Home Economics (25.8%), Library Science (23.3%), Law (17.3%), Mathematics (16.4%), and Health Professions (16.2%).

WEST LOS ANGELES COLLEGE

WEST LOS ANGELES COLLEGE

Faculty loads at West Los Angeles College in Fall 1973 and in Fall 1974 are presented in Table 18. The percentage differences of these loads from the small college averages and from the LACCD averages for those two years are contained in Table 19.

West's overall load of 549 was 12.2% above the small college average and 3.1% above the District average. West ranked third in the District behind Harbor and Trade-Tech in 1974.

Disciplines at West with loads notably larger than District averages in Fall 1974 included Public Affairs and Services, with the highest load at West, Business and Management, Computer Science, and Mathematics. The latter two disciplines had the highest loads in the District for those areas.

Several disciplines at West had loads lower than the 1974 District average: Architecture and Environmental Design, with the smallest load at West, Engineering, Physical Science, Communications, Biological Science, Fine and Applied Arts, and Interdisciplinary Studies.

A comparison of 1973 and 1974 faculty load data shows an increase of 6.7%, with major rises in the loads for Computer Science (56.8%), Public Affairs and Services (53.1%), Communications (43.8%), Foreign Language (38.9%), Business and Management (25.8%), and Fine and Applied Arts (18.3%). Five disciplines showed a decrease over the same period: Architecture and Environmental Design (59.1%), Biological Science (17.2%), Physical Science (13.7%), Interdisciplinary Studies (8.0%), and Education (7.9%).

APPENDIX

Disciplines and Programs

Following is a list of the Classification of Instructional Discipline (CID) codes used to classify instructional programs in California Community Colleges. CID codes define 23 major disciplines as distinguished by the first two digits of the code number. Within each discipline, instructional programs are identified by the last two digits of the CID code.

Disciplines and Programs

0100 Agriculture & Natural Resources

- 0101 Agriculture
- 0104 Animal Husbandry
- 0105 Dairy Husbandry
- 0108 Fruit Crops
- 0109 Ornamental Horticulture
- 0112 Agriculture Business
- 0115 Natural Resources Management
- 0133 Landscape Gardening
- 0197 Floristry Horticulture

0200 Architecture & Environmental Design

- 0202 Architecture
- 0206 Urban Planning
- 0230 Architectural Drafting

0400 Biological Science

- 0401 Biology
- 0402 Botany
- 0407 Zoology
- 0410 Physiology
- 0411 Microbiology
- ~~0420~~ Environmental Studies

- 0542 Travel
- 0591 Escrow
- 0592 Building & Grounds Management
- 0594 Telephone P B X
- 0595 Hotel & Motel Management
- 0596 Foreign Trade

Disciplines and Programs

0600 Communications

- 0602 Journalism
- 0603 Television
- 0605 Developmental Communications
- 0630 Public Relations
- 0691 Radio Communications
- 0697 Intercommunications & Sound
- 0699 Broadcasting

0700 Computer Science

- 0701 Computer Science & Information Technology
- 0703 Business Data Processing
- 0730 Computer Technology
- 0791 Computer Maintenance Technician
- 0799 Numerical Control

0800 Education

- 0801 Education
- 0835 Physical Education
- 0837 Health
- 0839 Industrial Arts
- 0850 Cooperative Education
- 0899 Work Experience

0900 Engineering

- 0901 Engineering, General
- 0903 Agricultural Engineering
- 0908 Engineering, Civil
- 0909 Engineering, Electrical
- 0910 Engineering, Mechanical
- 0922 Operation/Maintenance Engineering
- 0930 Diesel Electric Locomotive
- 0931 Electrical Construction Engineering
- 0932 Electrical Construction and Maintenance
- 0933 Electronics Technology
- 0934 Electronics
- 0935 Electric Motor Repair
- 0937 Sheet Metal Work
- 0942 Measurement Science
- 0944 Air Conditioning and Refrigeration
- 0946 Auto Body and Fender
- 0947 Automotive Mechanics
- 0948 Automotive Technology
- 0953 Drafting Room Assistant
- 0954 Plastics Technician
- 0961 Building Construction Techniques
- 0962 Automotive Servicing

Disciplines and Programs

0963 Aviation Maintenance Technician
0964 Basic Air Conditioning Techniques
0965 Radio and Television
0971 Engineering Technician
0972 Mechanical Drafting
0973 Drafting
0974 Technical Illustration
0982 Machine Shop
0983 Truck Mechanic
0984 Motorcycle Repair Mechanic
0985 Automotive Service Technology
0986 Occupational Safety
0991 Quality Control
0992 Aircraft Production Skill
0993 Aircraft Electronics Technology
0994 Inspection Technology
0995 Tool & Manufacturing Engineering
0997 Air Conditioning Technology
0998 Drafting Work-Study
0999 Millwrighting

1000 Fine & Applied Arts

1002 Art
1004 Music
1007 Theater Arts
1009 Commercial Art
1010 Cinema
1011 Photography
1030 Graphic Arts
1031 Graphic Arts Composition
1032 Graphic Arts M/C KB/OP
1033 Sign Graphics
1034 Photo Lab Technician
1035 Printing
1037 Graphic Arts Management
1091 Hand Composition
1092 Letterpress
1093 Offset Presswork
1094 Photo-Offset
1095 Machinist Operator
1099 Art Production Assistant

1100 Foreign Languages

1102 French
1103 German
1104 Italian
1105 Spanish
1106 Russian
1107 Chinese
1108 Japanese
1109 Latin
1111 Hebrew

Disciplines and Programs

- 1112 Arabic
- 1117 Korean
- 1118 Armenian

1200 Health Professions

- 1201 Health Occupations Core
- 1203 Nursing
- 1204 Nursing, Registered
- 1208 Occupational Therapy
- 1213 Dental Hygiene
- 1215 Medical Record Science
- 1223 Electron Microscopy
- 1224 Dental Technology
- 1225 Radiologic Technology
- 1230 Dental Assisting
- 1236 Nurse Aide
- 1239 Psychiatric Technician
- 1241 Ophthalmic Assisting
- 1243 Prosthetics & Orthotics
- 1244 Medical Assisting
- 1245 Respiratory Therapy
- 1290 Nuclear Medicine Technology
- 1292 Optics
- 1293 Operating Room Technician
- 1294 Nephrology
- 1295 Allied Health
- 1299 Emergency Department Assistant

1300 Home Economics

- 1303 Clothing Manufacturers Assistant
- 1305 Child Development
- 1330 Home Economics
- 1391 Cooking, Institutional
- 1392 Baking, Professional
- 1399 Chef Training

1400 Law

- 1401 Law

1500 Letters

- 1501 English
- 1505 Linguistics
- 1506 Speech
- 1509 Philosophy

1600 Library Science

- 1601 Library Science

52

Disciplines and Programs

1700 Mathematics

- 1701 Mathematics
- 1702 Statistics

1900 Physical Science

- 1901 Physical Science
- 1902 Physics
- 1905 Chemistry
- 1906 Chemical Technology
- 1911 Astronomy
- 1913 Meteorology
- 1914 Geology
- 1917 Earth Science
- 1919 Oceanography
- 1999 Mineralogy

2000 Psychology

- 2001 Psychology

2100 Public Affairs & Services

- 2101 Public Service
- 2103 Recreation
- 2105 Administration of Justice
- 2130 Corrections
- 2133 Fire Management & Technology
- 2134 Fire Science
- 2135 Auto Sprinkler & Fire Control

- 2299 American Cultures

Disciplines and Programs

3000 Commerce

- 3007 Cosmetology
- 3008 Drycleaning
- 3009 Manicuring
- 3090 Electrolysis
- 3091 Fashion Design
- 3092 Merchandise Display
- 3093 Bindery
- 3094 Industrial Sewing
- 3095 Automatic Vending Machine Technician
- 3096 Tailoring
- 3097 Paint Technology

4900 Interdisciplinary Studies

- 4902 Science
- 4903 Humanities
- 4904 Technology
- 4930 Personal Development

5300 Apprenticeship

- 5330 Carpentry
- 5331 Electricity
- 5332 Plumbing
- 5333 Glazing
- 5337 Plastering
- 5338 Painting & Decorating
- 5339 Cabinet Making & Millwork
- 5340 Metallurgical Technician
- 5341 Welding
- 5342 Machine Tools Technology
- 5343 Truck & Heavy Equipment Repair
- 5348 Tilesetting
- 5349 Refrigeration/Air Conditioning
- 5381 Electrical Linemen
- 5382 Electrical Wiremen
- 5383 Electronics Technician
- 5384 Electrical Cable Splicer
- 5385 Electronics Assistant
- 5386 Electronics Engineering Technician
- 5391 Irrigation and Lawn Sprinkler
- 5392 Lathing
- 5393 Piping Technology
