ABSTRACT

An effective social studies program provides coordinated, systematic study, drawing upon such disciplines as economics, geography, history, law, philosophy, political science, psychology, religion, and sociology. It prepares students to be personally and socially aware, promotes multiple perspectives, encourages intellectual curiosity, promotes critical thinking skills, charges students to assume responsibility for positive change and civic action, and challenges them to imagine and create a better world. This document delineates in detail the Florida specifications for consideration of submissions for instructional materials in social studies. The document notes that submissions must include correlations to the appropriate sunshine state standards and benchmarks. It states that Florida accepts for consideration social studies materials configured into three categories: (1) grades K-5 (social studies series); (2) grades 6-8 (Middle/Junior High (M/J) social studies; M/J civics; M/J geography: Asia, Oceania, Africa; M/J geography: Europe and the Americas; M/J world geography; M/J world geography advanced; M/J U.S. history; M/J U.S. history advanced; M/J world history; M/J world cultures; M/J Florida: challenges and choices; social studies: 6-8); (3) grades 9-12 (law studies; comprehensive law studies; psychology I; psychology II; advanced placement psychology; U.S. history; U.S. history honors; advanced placement U.S. history; economics; economics honors; U.S. government; U.S. government honors; sociology; world history; world history honors; and world cultural geography). Florida Perspective

The vision for Social Studies is to help young people develop the ability to make informed and reasoned decisions for the public good as citizens of a culturally diverse, democratic society in an interdependent world. An effective Social Studies program provides coordinated, systematic study, drawing upon such disciplines as economics, geography, history, law, philosophy, political science, psychology, religion and sociology. It prepares students to be personally and socially aware, promotes multiple perspectives, encourages intellectual curiosity, promotes critical thinking skills, reinforces a broad range of communication skills, charges students to assume responsibility for positive change and civic action, and challenges them to imagine and create a better world.

1

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Social Studies is an umbrella term for the integrated study of various disciplines such as history (time, continuity and change), geography (people, places and environments), civics and government (civic responsibility and citizenship) and economics (production, consumption distribution, and choices). As such, Social Studies must integrate knowledge, skills and attitudes within and across disciplines to help students construct knowledge and attitudes drawn from various curriculum areas.

Social Studies education develops well-educated people who share a body of knowledge, understand common cultural references and are prepared to participate in political, economic and social groups. These well-educated citizens internalize information about people in time, in space and in culture. They associate new experiences and events with the past and establish a context in which they explain, sympathize, judge, decide and act. They participate in intellectual adventures and recognize their responsibility for changing conditions detrimental to human development and opportunity. They promote equity, tolerance, understanding and acceptance and possess a sense of personal, social and civic efficacy. The major purpose of a Social Studies education is to promote civic competence, and to provide the knowledge, skills and attitudes required of students assuming "the office of citizen" (as phrased by Thomas Jefferson) in our democratic Republic.

Florida Addresses the Curriculum Needs of All Learners

Because Florida will not have a separate Social Studies call for special education students, publishers who submit Social Studies material for consideration will be required to incorporate strategies, materials, activities, etc. that consider the special needs of these students. In providing for students with special needs, Florida evaluators will be guided by the research reported in the document *Universal Design for Curriculum Access*. The following Web sites can be accessed for detailed information on this research:

<http://www.trace.wisc.edu/>

<http://www.cast.org>

<http://www.darkwing.uoregon.edu/~ncite/>

Although Florida is not having a separate call for ESE, that is not to say that all materials will be equally suitable for all children. Florida's State Adoption Committees may, as always, identify some submissions as "especially suitable" for a particular group of students. (Some groups may be reading below grade level or above grade level, may include reluctant readers or those with specific processing difficulties.) Committee comments appear with adopted titles in the Florida Catalog of Adopted Materials and serve as a guide for teachers or administrators in search of materials. Each State Adoption Committee has at least one member, though usually more than one, who is or has been a certified teacher of ESE students.

Accommodations and Modifications

5

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

The following summary of information from the Department of Education guide *Accommodations: Assisting Students with Disabilities* (1999) is of help in addressing the ways that materials may be developed or changed to meet the needs of students of varied abilities:

Accommodations are changes that can be made in HOW students learn to assure that students with disabilities can participate as fully as possible in the general curriculum.

Accommodations:

- do not lessen achievement expectations.
- are a wide range of techniques and support systems that help students with disabilities work around any limitations that result from their disability.
Examples include Braille textbooks or books on tape.
- may be needed by one student but frequently can also help other students in a classroom.
- “are made to the way students learn and how they are tested” (page 2).

Accommodations may be provided in five general areas:

- Instructional methods and materials
- Assignments and classroom assessments
- Time demands and scheduling
- Learning environment
- Use of special communication systems (page 2)

“Modifications are changes that can be made to WHAT students are expected to learn” (page 48). They are used primarily for students who cannot meet the Sunshine State Standards for their grade level and require a modified curriculum. Modifications change the goals and expectations for students.

Modifications may include:

- partial completion of program or course requirements
- curriculum expectations below age or grade level
- alternate assessment criteria

6

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- alternate curricular goals (page 48)

ESE COURSES

While it is true that Florida will not have a separate call for ESE, and while it is true that many ESE students are included in our regular education programs, it is still also true that some students cannot meet the Sunshine State Standards for their grade level and require a modified curriculum. For that purpose Florida is also calling for Social Studies: 6-8 and Social Studies: 9-12, which are Exceptional Student Education courses. The course descriptions for these courses are highly detailed and descriptive.

General Description

K-5 Series

To be acceptable for consideration, a K-5 Social Studies series must cover all six grade levels. The curriculum must provide explicit and systematic instruction, assessment, and remediation that focus on content and skills for all students. Kits including such things as big books, charts, and manipulatives are acceptable for grades K-2; however, appropriate textbooks must be provided for grades 3-5. The Social Studies series must explain and clarify a process for effective delivery of instruction that is differentiated in support of the universal design concept.

The text provided within the Social Studies series must be comprised of a variety of informational text styles that include diverse informational material such as the following:

- Maps
- Charts

7

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Timelines
- Photographs
- Political Cartoons, etc.

All text materials and activities must be grade-level appropriate and synchronized with specific word skills and vocabulary development. Teacher instructional materials, teacher questioning strategies, and student assignments must contain scaffolding that accommodates student vocabulary and cognitive growth for content reading mastery.

8

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Grades 6-12

For Grades 6-12, the Florida Department of Education Course Descriptions will additionally guide publishers' submissions. The Sunshine State Standards, K-12, and the Course Descriptions, 6-12, are easily accessible on the Department of Education website, www.firn.edu/doe/. However, they are also included in this document.

All Submissions, Grades K-12

Publisher submissions must address the developmental readiness of the learner and include age appropriate text, as well as other instructional material, which focuses on the content and skills outlined in *Florida's Sunshine State Standards*, so that all Florida's students have appropriate opportunities to learn content and skills. Instructional material submissions must support student mastery of both declarative and procedural knowledge in the social studies area.

Materials must address the various learning styles and abilities of Florida's students. Examples include text on tape, video clips with subtitles, posters, charts, maps, CD/DVD, Internet web site access, music, printed lyrics, and transparencies. Submissions must include parent communication and home connection activities at the appropriate grade levels.

All submissions must include activities that encourage interaction among groups of students to foster cooperation and communication and wherever appropriate, must promote an awareness of the interdependent nature of the world.

Publishers must submit materials that include content related to the following topics, where appropriate, as named in Authorized Instruction, stated in Florida Statutes.

9

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Programs to encourage patriotism and greater respect for country.
 - *The content of the Declaration of Independence and how it forms the philosophical foundation of our government.*
 - *The arguments in support of adopting our republican form of government, as they are embodied in the most important of the Federalist Papers.*
 - *The essentials of the United States Constitution and how it provides the structure of our government.*
 - *In order to encourage patriotism, the sacrifices that veterans have made in serving our country and protecting democratic values worldwide.*
 - *Flag education, including proper flag display and flag salute.*
 - *The elements of civil government must include the primary functions of interrelationships between the federal government, the state, its counties, and municipalities, school districts and special districts.*
- Voting instruction, including the use of county voting machines.
- Character development, ethics, and law education.
- Traffic and safety education.
- Free enterprise and consumer education.
- The history of the Holocaust (1933-1945) and the systematic planned annihilation of European Jews and other groups by Nazi Germany. This must be taught in a manner that leads to an investigation of human behavior, an understanding of the ramifications of prejudice, racism, and stereotyping, and an examination of what it means to be a pluralistic society, nurturing and protecting democratic values and institutions.
- The history of African Americans, including the history of African peoples before the political conflicts that led to the development of slavery, the passage to America, the enslavement experience, abolition, and the contributions of African Americans to society.
- The elementary principals of agriculture.
- The history of Florida*.
- The conservation of natural resources.
- The study of Hispanic contributions to the United States.

10

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- The study of women's contributions to the United States.
- A character-development emphasis at the elementary level, secular in nature, with an accent on character qualities such as attentiveness, patience and initiative.

With regard to the study of Florida history, Florida's Sunshine State Standards, Grade 3-5 cluster, emphasizes Florida's history. The study of Florida has traditionally occurred at the 4th grade level; however, Florida studies must not be taught to the exclusion of other Social Studies content but rather included as a natural learning piece.

To support success in learning, instructional materials must include clear presentation and explanation of the following:

- Purposes, goals and expected outcomes;
- Concepts, processes, rules, information, and terms;
- Models, examples, questions, and feedback

Submissions must also include appropriate instruction with both primary and secondary sources, such as photographs, diary/journal entries, letters, artifacts, music, newspaper/magazine articles, interviews, maps, and video clips.

Publishers must provide instructional activities that address the various learning styles of students, and include those that incorporate a variety of styles within any given lesson.

All submissions must include instructional activities that integrate Social Studies content and skills into other areas of the curriculum. Where feasible, integration must occur within the four major strands identified in Florida's Sunshine State Standards for Social Studies instruction which include:

- Time, Continuity and Change (History)

11

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- People, Places and Environment (Geography)
- Civics and Government
- Production, Consumption and Distribution (Economics)

All submissions must include expository text that addresses six of the most frequently used cognitive patterns including description, cause and effect, question and answer, problem and solution, comparisons and contrasts, and sequence. Such organization will facilitate student opportunities to acquire the knowledge and skills assessed on the Florida Comprehensive Achievement Test (FCAT).

12

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

K-12 Submissions and Reading in the Content Areas

In addition, materials must integrate with other areas of instruction by supporting the notion that students in grades K-2 are learning to read and in grades 3-12 students are reading to learn. Throughout each of these grade levels, student vocabulary development, cognitive reasoning, and reading acquisition are not yet fully developed. Additionally, reading is a complex process and highly utilized in content area assignments. Therefore, all submissions must integrate and carefully scaffold reading and literacy instruction to directly align with the corresponding text within each social studies lesson. Both reading and writing instruction and assignments must interface with social studies instruction. Just as reading is a tool for learning and evaluation, writing must also be integrated into any submission, as must mathematics, science, music, and the arts.

Since student use of both text materials and the reading process are expected, the instructional materials must systematically include both content and processes for reading within each of the three instructional stages related to text: the pre-reading, during reading, and post-learning stage of a lesson. In the pre-reading lesson, the instructional materials must provide word exercises and practice that directly align with those words that students will see in the subsequent text passages. To adequately prepare students for learning, reading, and comprehending content area vocabulary, the pre-reading exercises must carefully scaffold prior and new knowledge in at least but not limited to each of the following:

- Structural analysis of content area words
- Morphological approach to vocabulary development
- Explicit and systematic instruction of content area vocabulary
- Content area word mapping
- Meaningful dialogue and writing with new content area vocabulary

13

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Following the pre-reading stage of a lesson, the instructional materials must provide teacher guidance to intersperse questioning techniques and strategies that follow concepts throughout the text passages. Since research indicates that inappropriate or inadequate chunking of text hinders student reading comprehension, the manner in which a teacher interacts with both the student and text during the reading process to construct meaning is extremely important. Therefore, the proposal must include such research-based practices as reciprocal teaching and questioning-the-author to effectively assist the teacher in dialogue that precipitates student construction of meaning.

By the conclusion of a content area lesson, students have been introduced to new word pronunciations and meanings, and they have read these same words in context of the content area passage to construct meaning. As the teacher interacts with both the student and text in meaningful dialogue, what once was a new word begins to evolve into a concept. In order further clarify and refine this newly developed knowledge, both the content and processes of the post-reading stage of the lesson must align with that of the previous two stages. Without limitation, the post-reading portion of the lesson must provide additional opportunities for students to use what has been introduced in the pre-reading and during text reading stages of the lesson. Post-reading exercises can include the following:

- Graphic organizers such as Venn diagrams
- Semantic feature analysis
- Timeline projects
- Meaningful written responses to reading
- Ideas and available resources for extended reading
- Cooperative projects for further research and investigation
- Technology-based presentations

Development of specific literacy skills through Social Studies requires explicit and systematic instruction in especially vocabulary and cognitive skills. Since the rate of reading development varies significantly between students at all grade

14

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

levels, all submissions must accommodate variance in students' independent and instructional reading levels with the inclusion of differentiated instruction as part of the instructional plan. Ample opportunities for student practice of integrating new with prior knowledge are essential to the learning process.

Explicit instruction includes successful modeling of the following reading and thinking skills:

1. Listening skills (listening for meaning)
2. Vocabulary
3. Comprehension
 - Questioning strategies and techniques for meaningful student-teacher dialogue with text
 - Prediction
 - Main idea
 - Details
 - Sequence
 - Causal relationships
 - Comparison
 - Conclusions
 - Reasoning strategies including deductive search strategies and use of reference materials
 - Strategies for writing in response to reading
 - Reading for information and pleasure

Brief, frequent practice activities and games must be provided through careful scaffolding to procure mastery of each of the processes and skills listed above. Activities must include alternatives for students with disparity in abilities and backgrounds providing teachers with variation to teach all students the required skills and content. Practice opportunities must reinforce and develop the following student abilities:

- Reading of passages
- Building schemata
- Questioning techniques

15

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Predicting events/effects within text
- Locating evidence/details within a passage
- Clarifying
- Summarizing
- Comparing
- Inductive thinking
- Deductive thinking
- Analysis
- Abstracting
- Drawing conclusions

Assessment Component

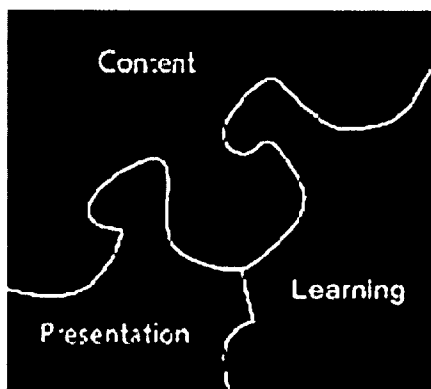

Assessments must be within the context of a course as opposed to a separate activity. They must include essays of appropriate length and follow-up activities that require thought at a higher level of Bloom's Taxonomy. Assessments must require students to find support for answers within expository text.

Publishers must include a variety of assessment tools that include, but are not limited to, multiple-choice and short-answer tests or quizzes, informal assessment checklists, rubrics for projects and activities, authentic applications and opportunities to use support from text in creating responses to questions. Other assessments may include opportunities to assess student knowledge via oral presentations, group projects, and/or visual displays.

16

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Major Priorities for Instructional Materials

The priorities as described in this specification document were developed from research findings about what makes instructional materials effective. These priorities have undergone review by individuals who have served on state and district committees, by curriculum specialists, by instructional designers, by evaluation specialists, and by administrators of the statewide adoption system.

Instructional materials must be effective in three major priority areas: content, presentation, and learning. The following sections describe essential features for each of these priority areas. These features generally apply to all formats of instructional materials, whether print or other media/multiple media formats.

19

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Content

Some features of content coverage have received progressively more attention over the past decade. These features include:

ALIGNMENT WITH CURRICULUM REQUIREMENTS
LEVEL OF TREATMENT OF CONTENT
EXPERTISE FOR CONTENT DEVELOPMENT
ACCURACY OF CONTENT
CURRENTNESS OF CONTENT
AUTHENTICITY OF CONTENT
MULTICULTURAL REPRESENTATION
HUMANITY AND COMPASSION

1006.31(4)—KEY WORDS: curricular objectives... performance standards

1006.31—KEY WORDS: independent investigation

The following sections describe the content features expected for each of these priority areas.

A. ALIGNMENT WITH CURRICULUM REQUIREMENTS

20

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Content must align with the state's standards for the subject, grade level, and learning outcomes.

Correlations. Publishers are expected to provide correlation reports in the form provided by the Department of Education to show exactly where and to what extent (mentioned or in-depth) the instructional materials cover each required standard.

Scope. The content must address Florida's required curriculum standards for the subject, grade level, and learning outcomes, including thinking and learning skills.

Completeness. The content of the major tool must be complete enough to stand on its own. To be useful for classroom instruction, instructional materials must be adaptable to the instructional goals and course outlines for individual school districts, as well as the state standards. Content must have no major omissions in the required content coverage, and be free of unrelated facts and information that would detract from achievement of Florida's specified grade level expectations.

B. LEVEL OF TREATMENT OF CONTENT

The level of complexity or difficulty of content must be appropriate for the standards, student abilities and grade level, and time periods allowed for teaching

Objectives. Content must match the intended objectives in complexity and technicality.

Students. Content must be developmentally appropriate for the age and maturity level of the intended students. It must contain sufficient details for students to understand the significance of the information presented and to engage in reflection and discussion.

Time. The level of complexity or difficulty of content also must allow for its coverage during the time periods available for teaching the subject.

FLORIDA STATUTES

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

C. EXPERTISE FOR CONTENT DEVELOPMENT

Expertise in the content area and in education of the intended students must be reflected in the authors, reviewers, and sources that contributed to the development of the materials.

Authorship. The authors, consultants, and reviewers must have actually contributed to the development of the instructional materials and must have credentials that reflect expertise in the subject area, course, course category, grade level, pedagogy, education, teaching, or classroom instruction. Qualifications may include expertise in educational psychology or instructional design.

Sources. Primary and secondary sources must reflect expert information for the subject, such as relevant data from research, court decisions, diaries, autobiographies, artifacts, or historical sites.

D. ACCURACY OF CONTENT

Content must be accurate in historical context and contemporary facts and concepts. Note: For the subject area of Social Studies, the information presented must be accurate in historical content, have multicultural representation and offer contemporary facts and concepts.

Objectivity. Content that is included in the materials must accurately represent the domain of knowledge and events. It must be factual and objective. It must be free of mistakes, errors, inconsistencies, and contradictions within itself, and biases of interpretation. It must be free of the biased selection of information. Materials must distinguish between facts and possible interpretations or opinions expressed about factual information. Visuals or other elements of instruction must contribute to the accuracy of text or narrative.

FLORIDA STATUTES

1006.38—KEY WORDS:

1006.31(4)(e)(e)—KEY WORDS: accurate, objective

22

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Representativeness. The selection of content must not misrepresent the domain of knowledge and events. It must include the generally accepted and prevalent truths, major concepts, standards, and models of the profession or discipline of the subject area.

Correctness. Presentation of content must be free of typographical and visual errors. It must include correct grammar, spelling, linguistics, terminology, definitions, descriptions, visuals, graphs, sounds, videos, and all other components of the instructional materials.

E. CURRENTNESS OF CONTENT

Content must be up-to-date for the academic discipline and the context in which the content is presented. Note: In the subject area of Social Studies, currentness of the instructional materials is essential for students to have a global perspective. It is encouraged that publishers' websites provide instruction in current events and issues.

Dates or editions. Copyright dates for photographs and other materials and editions must reflect currentness of content. Copyright dates and editions serve as indicators about currentness. However, neither the copyright date nor the edition guarantees currentness. In fact, second or third editions may or may not reflect more up-to-date information than first editions.

Informed examination of the text, narrative, and visuals contained in the materials must reveal the currentness of the materials.

23

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

FLORIDA STATUTES

1006.38—KEY WORD: up-to-date

Context. Text or narrative, visuals, photographs, and other features must reflect the time periods appropriate for the objectives and the intended learners.

- Sometimes context must be current. For example, a photograph used to show stages of human growth and development will be more relevant when the clothing, hairstyles, and activities reflect present-day styles.
- Sometimes context must be historical. For example, illustrations and photographs of historical events must reflect the historical time period.
- Sometimes context must be both current and historical. For example, historic images alongside modern ones would convey changes in styles over time.

F. AUTHENTICITY

Content must include problem-centered connections to life in a context that is meaningful to students. Note: In the subject area of Social Studies, publishers are encouraged to include primary and secondary materials for all appropriate content.

Life connections. Instructional materials must include connections to the student's life situations in order to make the content more meaningful. Students might be expected to deal with time constraints, consider risks and trade-off in decision-making, and work with teams. Connections may be made to situations of daily home life, careers, vocation, community events and services, and leisure or recreation. Connections may include hopes and dreams, choices and activities.

24

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Interdisciplinary treatment. Instructional materials also must include interdisciplinary connections in order to make content more meaningful. Examples of situations that connect a variety of subject areas include building projects, playing sports, finding information or objects, balancing budgets, creating products, and researching information. In addition to subject area connections, instructional materials must connect the course or course category to other disciplines.

Examples of approaches to interdisciplinary connections include:

- explanations and activities for using skills and knowledge from other academic disciplines
- assignments that require students to use collateral learning from other disciplines rather than isolated knowledge or skills
- the focus on common themes across several subject areas (infusion, parallel, transdisciplinary, or multidisciplinary instruction)

G. MULTICULTURAL REPRESENTATION

Portrayal of gender, ethnicity, age, work situations, and various social groups must include multicultural fairness and advocacy. Note: In the subject area of Social Studies, appreciation for all ethnic, racial, and cultural groups with a particular emphasis on those identified in Florida Statute 1003.42 is essential.

Multicultural fairness. It is not the number of pages devoted to diversity, equity, or work roles, but the substance of what is stated and portrayed that matters most. For this reason, it can be

25

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

misleading to count the number of pages or illustrations devoted to a social issue or group. It is more important to focus on the integration of social diversity throughout a set of instructional materials.

Through balanced representation of cultures and groups in multiple settings, occupations, careers, and lifestyles, the materials must support equal opportunity without regard for age, color, gender, disability, national origin, race, or religion.

In addition to balanced representations, the portrayal of individuals and situations must exclude biases and stereotypes. These portrayals must promote an understanding and appreciation of the importance and contributions of diverse cultures and heritage.

Multicultural advocacy. The understanding and appreciation of multiple cultures extends beyond fair representation. It involves embracing a multicultural context, not just through pictures, but through information about ways to honor differences and deal with conflicts, promote a positive self-image for members of all groups, and provide for the development of healthy attitudes and values.

Effective treatment of multicultural issues requires consideration of the age and ability levels of students and whether or not it is appropriate to include multicultural issues in the study of a particular topic, such as the memorization of a formula or equation. Overall, however, materials must reflect both multicultural fairness and advocacy.

H. HUMANITY AND COMPASSION

Portrayal of the appropriate care and treatment of people and animals must include compassion, sympathy, and consideration of their needs and values and exclude hard-core pornography and inhumane treatment.

Inclusion of compassion. When providing examples in narrative or visuals, materials sometimes depict the care and treatment of people and animals. Generally, this means showing in some way a measure of compassion, sympathy, or consideration of their needs and feelings.

Exclusion of inhumanity. In the context of personal and family values, Florida expressly prohibits material containing *hard-core pornography*. In addition, although the definition of *inhumane treatment* can sometimes appear to be controversial, as in science research, there is general agreement that instructional materials must not advocate any form of inhumane treatment.

As with the evaluation of multicultural representation, it is important to consider the context of the subject and the age and abilities of the students.

Presentation

Features of presentation affect the practical usefulness of materials and the ease of finding and understanding content. These features include:

COMPREHENSIVENESS OF STUDENT AND TEACHER RESOURCES
ALIGNMENT OF INSTRUCTIONAL COMPONENTS
ORGANIZATION OF INSTRUCTIONAL MATERIALS
READABILITY OF INSTRUCTIONAL MATERIALS
PACING OF CONTENT
EASE OF USE OF MATERIALS

The following sections describe the presentation features expected for each of these areas.

A. COMPREHENSIVENESS OF STUDENT AND TEACHER RESOURCES

Resources must be complete enough to address the targeted learning outcomes without requiring the teacher to prepare additional teaching materials for the course. Note: For the subject area of Social Studies, the following types of student and teacher resources and methods are particularly important. They help a teacher's transition from the lecture-oriented teaching model to a coaching and mentoring mode. This encourages students to become informed, information literate and actively involved in their community, nation, and world.

- Art, literature, and music

- Simulation software and activities
- Primary sources
- Secondary sources
- Audiotapes, videotapes, websites significant to the study of Social Studies
- Shared, guided, and independent readings of nonfiction and historical fiction
- Activities that provide the development of geography skills with regards to reading and interpreting maps, charts, and graphs
- Activities that require research using a variety of print, nonprint, and electronic sources
- Activities that support the goals of multicultural education, especially as they relate to African-American history, the Holocaust, Hispanic studies, and women's history requirements
- Activities that promote civic responsibility and civic participation
- Activities that develop a global perspective; and
- Activities that encourage the use of current technology

Materials must contain support for students in completing instructional activities and assessments and for teachers in implementing all of the instructional elements. A variety of components can accomplish this purpose. Typically, materials will include test items, study guides, outlines and strategies for teaching, media supplements, learning activities, and projects.

The major components generally expected for student and teacher resources are listed below.

Student resources. Student materials typically include the major text or program with text or narration, visuals, assignments, and assessments. Formats may include print, audio, visual, computer, or other media.

Effective instructional materials generally integrate the use of reference aids (e.g., index, glossary, maps, bibliography, graphic organizers, and pictures) with the topic being studied. Items

29

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

that guide students through materials might include clearly labeled materials, directions and explanations, and assignments with different options and choices.

Review and practice activities might include participation activities such as simulations, role-playing situations, investigations, and hands-on practice assignments. Review activities might include self-checks or quizzes. Formats might include worksheets, workbooks, journals, lab books, lab logs, charts, or maps. Feedback might be in the form of answer keys in student materials or in teacher materials.

Review works best as a logical extension of content, goals, objectives, and lessons, with increased similarity to real-life situations. Review activities must require students to recall or apply previously taught knowledge and skills. Frequent short reviews over time or space improve learning more than a concentrated review. Assignments and stages of short practice improve speed and accuracy.

Other components might include enrichment and remediation activities, additional resources, and tests and assessment tools either in the student materials or in the teacher's guide or edition.

Teacher resources. Teacher materials typically include a teacher's edition with the annotated student text and copies of supplementary written materials with answer keys, worksheets, tests, diagrams, etc., so that the teacher has to use only one guide. Publishers may make available inservice training, workshops, or consulting services to support teachers in implementing instructional materials. However, teachers and administrators tend to favor materials that do not require extensive training.

Support, guidelines, resources, or features such as the ones described below help teachers to effectively implement materials in classroom and school settings.

(1) **Components and materials that are easy to use:** Examples include clearance, license, or agreement for copying

and use of materials; clear description and accurate directions for use of required equipment, facilities, resources, and environment; clearly labeled grade, lesson, content, and other information to identify components; correct specifications for making media and electronic programs work effectively.

(2) **Materials to support lesson planning, teaching, and learning:** Examples include overview of components and objectives; background for lectures and discussions; technical terminology, and reinforcement and review strategies; scope and sequence chart for activities and planning; sample lesson plans; suggestions for individualized study, small-group and large-group presentations and discussions, school-to-work activities, field or laboratory experiences, and other extension activities; suggestions for integrating themes across the subject area or course curriculum and forming connections to other disciplines; suggestions for parental and community involvement; cultural highlights to explain and expand on the materials.

(3) **Suggestions for adapting instruction for varying needs:** Examples include alternative approaches to teaching, pacing, and options for varied delivery of instruction such as media, tools, equipment, and emerging technology; strategies for engaging all students, such as open-ended questions to stimulate thinking, journals, manipulatives, explorations, and multisensory approaches; suggestions for addressing common student difficulties or adapting to multiple learning styles; and alternative reteaching, enrichment, and remediation strategies.

(4) **Guidelines and resources on how to implement and evaluate instruction:** Examples include answers to work assignments, practice activities, and tests; possible outcomes of projects or research; suggestions for using learning tasks for classroom assessment; guidelines for alternative assessments, such as sample checklists, peer or performance assessments, portfolios, or projects.

31

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

(5) **Resources to use in classroom activities:** Examples include copy masters to use for displays or photocopies; bibliographies or lists of resources and references, including network resources; classroom management strategies and documentation on the manageability of the entire instructional program; in-service workshop or consultation support from the publisher.

B. ALIGNMENT OF INSTRUCTIONAL COMPONENTS

All components of an instructional package must align with each other, as well as with the curriculum.

All components of an instructional package – teacher’s edition and materials, student’s edition and materials, workbook, supplementary materials, and others – must be integrated and interdependent and must correspond with each other. For example, master copies of handouts in a teacher’s edition must align with student activities or assignments. They must match in content and progression of instructional activities.

C. ORGANIZATION OF INSTRUCTIONAL MATERIALS

The structure and format of materials must have enough order and clarity to allow students and teachers to access content and explicitly identify ideas and sequences.

Providing an explicit and teachable structure can double the amount of information remembered. Clear organization allows students and teachers to discriminate important pieces of information through skimming, reading, or browsing.

32

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Clear organization may be accomplished through a combination of features, but generally not through one feature alone.

Access to content. Some features help in searching and locating information, such as a table of contents; menu or map of content; directions on how to locate information or complete assignments; an index for quick reference; goals and/or objectives, outlines, lists, or checklists for major sections; bibliographies and lists of resources; glossaries for quick access to major terms; introductions, key concepts and themes, visual cues, illustrations, labeled examples, and labeled reviews or summaries.

Visible structure and format. Other at-a-glance features signal the organization of content, such as chapter or unit titles and/or frames; headings and subheadings; typographic cues such as bold, italics or changes in size of type; divisions of content such as borders, boxes, circles, highlighting, visual signposts, icons, or color cues; diagrams, labels, and visuals placed near the related content; and numbering of pages and other components.

Objectives or a content outline may serve a similar purpose by introducing main ideas, providing guideposts to use in searching for key information, or serving as a checklist for self-assessment.

Certain types of brief narrative sections also contribute to clear organization. For example, the statement of a clear purpose with content organized around main ideas, principles, concepts, and logical relationships supports the unity and flow of information. Introductions also play a major role when they include anchoring ideas, a list of key points, or conceptual schemes such as metaphors. Summaries also can assist students in understanding the logical order of topics presented.

Logical organization. The pattern of organization of the content must be consistent and logical for the type of subject or topic. Patterns of organization may include comparison and contrast, time sequence, cause-effect or problem-solution-effect, concrete to abstract, introduction-review-extension (spiral structure), simple-to-complex, whole-part or part-whole, generalization-examples-review-practice, and conflict-inside view-structure.

D. READABILITY OF INSTRUCTIONAL MATERIALS

Narrative and visuals must engage students in reading or listening as well as in understanding of the content at a level appropriate to the students' abilities.

Language style. Language style and visual features can influence the readability of materials. Yet, a popular tool for assessing readability has been the use of a *readability formula* of one type or another. These formulas tend to focus only on a few *countable* characteristics of language style such as the length of words, sentences, and/or paragraphs.

Other features are more important in establishing the readability of instructional materials, such as:

- organized, coherent text
- language and concepts familiar to the student
- language that clarifies, simplifies, and explains information
- transition words such as "yet," "also," "next," "for example," "moreover," or "however"
- other phrases that create logical connections
- words with concrete and specific images
- active rather than passive voice
- varied sentence structures, which avoid both choppy sentences and unnecessary words
- specific questions or directions to guide student attention to visuals or key information

Visual features. Visual features that improve readability include

- print that is dark and clear, with good contrast
- paper with clean-cut edges without glare, or computer screens without glare

34

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- margins wide enough on a page or screen to allow easy viewing of the text
- visuals that are relevant, clear, vivid, and simple enough for students to understand
- quantity of visuals suitable for the intended students – both lower ability students and higher ability students tend to require more visuals
- unjustified text (ragged on the right) rather than justified (lined up on the right)
- visuals that contain information in a form different from the text
- graphs, charts, maps, and other visual representations integrated at their point of use
- colors, size of print, spacing, quantity, and type of visuals suitable for the abilities and needs of the intended students

E. PACING OF CONTENT

The amount of content presented at one time or the pace at which it is presented must be of a size or rate that allows students to perceive and understand it. Note: Work required of students in advanced, honors, and advanced placement level courses must be observably more comprehensive and at a higher level than the work required of students in regular classes.

It is important that materials contain “bite-size” chunks or blocks of information. The chunks must not be so large, nor the

F. EASE OF USE OF MATERIALS

Both print and other media formats of instructional materials must be easy to use and replace and be durable enough for multiple uses over time.

Warranty. The actual physical and technical qualities of materials must match the description contained in the publisher's warranty.

Use. Materials must be designed for practical use in the classroom and school environments. They must be easy to identify and store. Teachers and students must be able to access and use the materials. Some of the factors influencing their ease of use include number of components, size of components, packaging, quality of materials, equipment requirements, and cost to purchase or replace components.

The best choice about weight, size, and number of volumes depends on several factors, such as the organization of the content, how well separate volumes may fit time periods for instruction, and the ages of students. Technical production requirements, such as page limits or different types of bindings, may lead to multiple volumes.

Examples of classroom use include repeated copying of consumable materials and repeated use of other materials by students over time. Students must be able to easily use the materials and take home, in a convenient form, most of the material they need to learn for the course.

Technology-rich resources must work properly and run without error. Electronic media for student use must be encoded to prevent accidental or intentional erasure or modification. As with textbooks, electronic media must allow students to easily

36

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

access and interact with them without extensive supervision or special assistance.

The physical and technical qualities of materials must match with the resources of the schools. Materials such as videos, software, CD-ROMs, Internet sites, and transparencies may serve instructional purposes well, but have little value unless they can be implemented with the school's equipment. Sometimes, a publisher provides training, inservice, or consultation to help in effective use of the materials.

Durability. Students and teachers must be able to have materials that will be durable under conditions of expected use. For example, boxes, books, or other materials must not fall apart after normal classroom use. The packaging and form of materials must be flexible and durable enough for multiple uses over time. Durability includes considerations such as

- high-quality paper, ink, binding, and cover
- back, joints, body block, and individual pages
- worry-free technology that runs properly, with easy to hear, see, and control audio and visuals, and
- the publisher's guarantee for replacement conditions and agreements for reproduction needed to effectively use the materials

Cost. *Florida's Department of Education Commissioner will consider the impact of cost in making final decisions.* Cost, while not a direct factor in ease of use, influences the ease with which materials can be obtained or replaced. The impact of cost can be complex to estimate. It requires considering the number of materials available at no additional cost with the purchase of the major program or text, the cost over the adoption period of several years, and the number of free materials to support implementation. Attractive features such as higher quality paper and visuals and greater use of color may escalate cost, without enhancing learning effectiveness.

MOTIVATIONAL STRATEGIES
TEACHING A FEW “BIG IDEAS”
EXPLICIT INSTRUCTION
GUIDANCE AND SUPPORT
ACTIVE PARTICIPATION
TARGETED INSTRUCTIONAL STRATEGIES
TARGETED ASSESSMENT STRATEGIES

The following sections describe the learning features expected for each of these priority areas.

A. MOTIVATIONAL STRATEGIES

38

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Instructional materials must include features to maintain learner motivation.

Expectations. Materials must positively influence the expectations of students. Examples include:

- positive expectations for success
- novel tasks or other approaches to arouse curiosity
- meaningful tasks related to student interests, cultural backgrounds, and developmental levels
- activities with relevance to the student's life
- thought-provoking challenges such as paradoxes, dilemmas, problems, puzzles, controversies, and questioning of traditional ways of thinking
- challenges that are neither too difficult to achieve nor so easy that students become bored
- hands-on tasks in a concrete context, and images, sounds, analogies, metaphors, or humorous anecdotes
- variety, including the opportunity for students to ask their own questions, set their own goals, and make other choices during learning

Feedback. Materials must include informative and positive feedback on progress. Examples include:

- frequent checks on progress, including testing
- explanatory feedback with information about correctness of responses, how to avoid or correct common mistakes, and/or different approaches to use
- varied forms of assessments (self-assessment, peer assessment, and some learning tasks without formal assessments)

Appearance. Materials must have an appearance generally considered attractive to the intended students.

B. TEACHING A FEW "BIG IDEAS"

FLORIDA STATUTES

1006.31(e)—KEY WORDS: suited to the needs and comprehension of pupils at their respective grade levels

1006.34(2)(a)—KEY WORDS: suitable, usable

1006.34(2)(b)—KEY WORDS: educational purpose

Instructional materials must thoroughly teach a few important ideas, concepts, or themes.

Focus. Thoroughly teaching a few big ideas provides focus for the learner's attention. It provides an organizing framework for integrating new information.

Completeness. The thorough teaching of a few big ideas may focus on developing a deeper and more complete understanding of the major themes of a discipline, the content of the subject area, relationships to other disciplines, and the thinking and learning skills required for achieving the specified learning outcomes.

Note: For the subject area of Social Studies, the "Big Ideas" are:

- *Geographic Understanding* - emphasizing the fundamental theme of geography (location, place, human-environment interactions, movement, regions);
- *Historical Awareness* - focusing on the processes, people, major events, eras, and personalities of history;
- *Civic Responsibility* - emphasizing democratic values and principles and the importance of citizenship participation
- *Economic Understanding* - focusing on the basic concepts, principles, and practices of economics;
- *Cultural Awareness* - developing an appreciation of individual and racial, ethnic, and cultural differences; and
- *Global Perspective* - developing an awareness of the interdependent nature of the world.

1006.34(2)(a)—KEY WORDS: suitable, usable

1006.34(2)(b)—KEY WORDS: educational purpose

C. EXPLICIT INSTRUCTION

Instructional materials must contain clear statements of information and outcomes.

40

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Clarity of directions and explanations. To support success in learning, instructional materials must include clear presentation and explanations of:

- purposes, goals, and expected outcomes
- concepts, rules, information, and terms
- models, examples, questions, and feedback

For example, development of specific thinking skills requires an explicit statement of the particular *thinking skills* to be learned, along with the *strategies* or *steps to follow*. Explicit instruction for thinking skills might also involve showing *examples* of successful thinking processes contrasted with examples of poor thinking processes.

Similarly, the development of learning skills requires explicit directions about *when* and *how* to do activities such as notetaking, outlining, paraphrasing, abstracting and analyzing, summarizing, self-coaching, memory strategies, persistence, preview and questioning, reading and listening, reflecting, and reciting.

Exclusion of ambiguity. Instructional materials must avoid terms and phrases with ambiguous meanings, confusing directions or descriptions, and inadequate explanations.

Note: For the subject area of Social Studies, explicit instruction is particularly important in developing the skills necessary for reading and interpreting maps, charts, and graphs and understanding the difference between fact and opinion, and different points of view, especially in light of the explosion of the Internet.

D. GUIDANCE AND SUPPORT

Instructional materials must include guidance and support to help students safely and successfully become more independent learners and thinkers.

41

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

FLORIDA STATUTES

1006.31(e)—KEY WORDS: suited to the needs and comprehension of pupils at their respective grade levels

1006.34(2)(a)—KEY WORDS: suitable, usable, desirable

Level. The type of guidance and support that helps students to become more independent learners and thinkers is sometimes referred to as *scaffolding*. Scaffolding is a solid structure of support that can be removed after a job has been completed. As students gain proficiency, support can diminish, and students can encounter more complex, life-centered problems. Information and activities must provide guidance and support at the level that is needed – no more and no less. Too much can squelch student interest, and too little can lead to failure.

Guidance and support can be accomplished by a combination of the following features:

- organized routines
- advance organizers or models such as:
 - (1) condensed outlines or overviews
 - (2) simplified views of information
 - (3) visual representations of new information during initial instruction
 - (4) sample problems
 - (5) questions to focus on key ideas or important features
 - (6) examples of solved problems
 - (7) explanations of how the problems were solved
 - (8) examples of finished products or sample performances
 - (9) analogies, metaphors, or associations to compare one idea to another
- prompts or hints during initial practice
- step-by-step instructions
- immediate and corrective feedback on the accuracy of performance of each step or task, on how to learn from mistakes, and on how to reach the correct answer
- simulations with features for realistic practice
- opportunities for students to do research, and to organize and communicate results

Adaptability. Guidance and support must be adaptable to developmental differences and various learning styles. For example, young children tend to understand concepts in

42

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

concrete terms and overgeneralize new concepts. Some students need more time, some tend to be more impulsive than reflective, some have trouble distinguishing relevant from irrelevant information, and some have better written than spoken language skills.

Approaches for developmental differences and learning styles of students, include

- a variety of *activities* such as:
 - (1) structured and unstructured activities
 - (2) independent and group work
 - (3) teacher-directed and discovery learning
 - (4) visual and narrative instruction
 - (5) hands-on activities
 - (6) open-ended activities
 - (7) practice without extrinsic rewards or grades
 - (8) simple, complex, concrete, and abstract examples
 - (9) variable pacing or visual breaks

- A variety of *modalities* for the various multiple intelligences of students, such as:
 - (1) linguistic-verbal
 - (2) logical-mathematical
 - (3) musical
 - (4) spatial
 - (5) bodily-kinesthetic
 - (6) interpersonal
 - (7) intrapersonal

Note: The subject area of Social Studies, the following forms of guidance and support are particularly important:

- Multiple opportunities for responding to critical thinking and problem solving appropriate to the discipline;
- Thematic networks of knowledge;
- Incorporation of authentic activities and assessments;
- Cross-disciplinary boundaries; and

43

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Research activities that will help students become information literate.

E. ACTIVE PARTICIPATION OF STUDENTS

Instructional materials must engage the physical and mental activity of students during the learning process.

Assignments. Instructional materials must include organized activities of periodic, frequent, short assignments that are logical extensions of content, goals, and objectives.

Student responses. Assignments must include questions and application activities during learning that give students opportunities to respond. Active participation of students can be accomplished in a variety of ways. For example, information and activities might require students to accomplish the types of activities listed below.

- respond orally or in writing
- create visual representations (charts, graphs, diagrams, and illustrations)
- generate products
- generate their own questions or examples
- think of new situations for applying or extending what they learn
- complete discovery activities
- add details to big ideas or concepts from prior knowledge
- form their own analogies and metaphors
- practice lesson-related tasks, procedures, behaviors, or skills
- choose from a variety of activities

Note: For the subject area of Social Studies, the following features are particularly important to engage students effectively:

- Opportunities for students to engage in Social Studies instruction in ways other than just the written/spoken word (i.e. simulations, interactive programs, etc.)

44

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Opportunities for students to create products in a variety of ways for a variety of audiences; and

F. TARGETED INSTRUCTIONAL STRATEGIES

Instructional materials must include the strategies known to be successful for teaching the learning outcomes targeted in the curriculum requirements.

Alignment. Research has documented the strategies that effectively teach different types of learning outcomes. The learning strategies included in instructional materials must match the findings of research for the targeted learning outcomes. Different types of learning outcomes require different strategies. For example, a strategy for memorizing verbal information might be helpful, but it would not align with the strategies required for learning a concept or for learning how to solve a problem.

Completeness. Not only must strategies be aligned, but they also must be complete enough to effectively teach the targeted outcomes. For example, while the explanation of a problem-solving method or model would be appropriate, other strategies also would be necessary in order for students to learn how to resolve different types of problems.

Research summary. Researchers sometimes use different terms for some similar outcomes. For example, *thinking skills* and *metacognition* refer to some of the same types of skills. The following alphabetical list includes terms as they have appeared in research, even though some terms clearly overlap others.

45

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Effective Teaching Strategies

- **To teach *Attitudes*—for example, learning the benefits of reading**
 - Explain and show consequences of choices, actions, or behaviors.
 - Provide relevant human or social models that portray the desired choices, actions, or behaviors
- **To teach *Cognitive Strategies* (learning how to learn)—for example, self-monitoring and reflecting upon the effectiveness of the reading process selected and used**
 - Encourage or teach (a) organizing and summarizing information; (b) self-questioning, self-reflection, and self-evaluation; and (c) reference skills.
 - Encourage or teach when and how to use these different skills.

46

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- **To teach *Comprehension/Understanding* – for example, comprehending and understanding information in a reading selection**
 - Outline, explain, or visually show what will be learned in a simple form.
 - Explain with concrete examples, metaphors, questions, or visual representations.
 - Require students to relate new to previously learned information.
 - Require students to paraphrase or summarize new information.
 - Require students to construct a visual representation of main ideas (map, table, diagram, etc.).
 - Give students opportunities to add details, explanations, or examples to basic information.
 - Require application of knowledge or information.
- **To teach *Concepts* – for example, learning the concepts of figurative language, metaphors, and similes**
 - Provide clear definition of each concept.
 - Point out important and unimportant features or ideas.
 - Point out examples and non-examples of the concept, showing similarities and differences.
 - Include practice in classifying concepts.
 - Include a wide range of examples in progressive presentation of more complex examples.
 - Emphasize relationships between concepts.
- **To teach *Creativity* – for example, exploring different types of reading selections and sources or creating an evaluation tool to identify the impact of mood or meaning**
 - Provide examples of creativity.
 - Include models, metaphors, and analogies.
 - Encourage novel approaches to situations and problems.
 - Show and provide practice in turning a problem upside down or inside out or changing perceptions.
 - Encourage brainstorming.

47

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Include questions and problems with multiple answers.
- Provide opportunities of ungraded, unevaluated creative performance and behavior.
- **To teach *Critical Thinking*—for example, differentiating fact from opinion or determining the validity of arguments**
 - Create conflict or perplexity by using paradoxes, dilemmas, or other situations to challenge concepts, beliefs, ideas, and attitudes.
 - Focus on how to recognize and generate proof, logic, argument, and criteria for judgments.
 - Include practice in detecting mistakes, false analogies, relevant v. irrelevant issues, contradictions, “buggy” algorithms, and predictions.
 - Provide practice in drawing inferences from observations and making predictions from limited information.
 - Explain and provide practice in recognizing factors that influence choice and interpretations such as culture, experience, preferences, desires, interests, and passions, as well as systematic thinking.
 - Require students to explain how they form new judgments and how and why present judgments differ from previous ones.
- **To teach *Insight*—for example, comprehending the symbols in literary works**
 - Include inquiry and discovery activities.
 - Provide challenging thinking situations with concrete data to manipulate.
 - Promote careful observation, analysis, description, and definition.
- **To teach *Metacognition* (learning how to think)—for example, rereading and self-correcting**
 - Explain different types of thinking strategies and when to use them.
 - Encourage self-evaluation and reflection.

48

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Include questions to get students to wonder why they are doing what they are doing.
- Guide students in how to do systematic inquiry, detect flaws in thinking, and adjust patterns of thinking.
- **To teach *Motor Skills*— for example, writing legibly or using electronic tools proficiently**
 - Provide a mental and physical model of desired performance.
 - Describe steps in the performance.
 - Provide practice with kinesthetic and corrective feedback (coaching).
- **To teach *Multiple Intelligences*— for example, retelling vs. rewriting or learning certain rhythms**
 - Verbal-linguistic dimension focuses on reasoning with language, rhythms, and inflections, such as determining meaning and order of words (stories, readings, humor, rhyme, and song).
 - Logical-mathematical dimension focuses on reasoning with patterns and strings of symbols (pattern blocks, activities to form numbers and letters).
 - Musical dimension focuses on appreciation and production of musical pitch, melody, and tone.
 - Spatial dimension focuses on activities of perceiving and transforming perceptions.
 - Bodily kinesthetic dimension focuses on use and control of body and objects.
 - Interpersonal dimension focuses on sensing needs, thoughts, and feelings of others.
 - Intrapersonal dimension focuses on recognizing and responding to one’s own needs, thoughts, and feelings.

49

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- **To teach *Problem Solving* – for example, forming predictions, inferences, logical endings, or conclusions**
 - Assure student readiness by diagnosing and strengthening related concept, rule, and decision-making skills.
 - Provide broad problem-solving methods and models.
 - Include practice in solving different types of problems.
 - Begin with highly structured problems and then gradually move to less structured ones.
 - Use questions to guide thinking about problem components, goals, and issues.
 - Provide guidance in observing and gathering information, asking appropriate questions, and generating solutions.
 - Include practice in finding trouble, inequities, contradictions, or difficulties and in reframing problems.
 - Include drill and practice to improve speed, consistency, and ease of using problem-solving steps.
- **To teach *Procedural Knowledge, Principles, and Rules* – for example, determining when and how to use alphabetical and numerical systems for organizing information**
 - Define context, problems, situations, or goals for which procedures are appropriate.
 - Explain reasons that procedures work for different types of situations.
 - Define procedures – procedures include rules, principles, and/or steps.
 - Provide vocabulary and concepts related to procedures.
 - Demonstrate step-by-step application of procedures.
 - Explain steps as they are applied.

50

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Include practice in applying procedures.
- **To teach *Scientific Inquiry*—for example, transferring information gathered and recorded into a formal presentation**
 - Explain process and methods of scientific inquiry.
 - Explain and provide examples of (a) typical solution procedures, (b) how to form hypotheses, (c) how to speculate, and (d) how to identify and interpret consequences.
 - Encourage independent thinking and avoidance of dead ends or simplistic answers.
 - Require students to explain experiences with inquiry activities and results of inquiry activities.
- **To teach *Thinking Skills* (also refer to critical thinking and metacognitive skills)—for example, comparing and contrasting ideas**
 - Introduce different types of thinking strategies.
 - Explain context or conditions of applying different strategies.
 - Provide definitions, steps, and lists to use in strategies.
 - Include examples of different types of thinking strategies, including how to think with open-mindedness, responsibility, and accuracy.
 - Emphasize persistence when answers are not apparent.
 - Provide practice in applying, transferring, and elaborating on thinking strategies.
 - Integrate metacognitive, critical, and creative-thinking skills.
- **To teach *Verbal Information, Knowledge, or Facts*—for example, new vocabulary or labels**

51

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Provide a meaningful context to link new information and past and/or future knowledge.
- Organize information into coherent groups or themes.
- Use devices to improve memory such as mnemonic patterns, maps, charts, comparisons, groupings, highlighting of key words or first letters, visual images, and rhymes.
- Include some overlearning and mastery through practice in rehearsal, recall, or restatement of information (refer to *comprehension*).
- Point out parts, main ideas, pattern, or relationships within information or sets of facts.

G. TARGETED ASSESSMENT STRATEGIES

Instructional materials must include assessment strategies that are known to be successful in determining how well students have achieved the targeted learning outcomes.

Alignment. The assessment strategies must match the learner performance requirements for the types of learning outcomes that have been targeted for the subject matter, course, or course category. Different strategies are appropriate for assessing different types of learning outcomes. For example, a strategy for testing the acquisition of verbal information would not match the requirements for testing whether or not a student has learned a concept or learned how to solve a problem.

The term “assessment,” as used in this section refers to testing or other strategies that assess student progress as a result of learning activities. The results of such assessment provide information about where to strengthen instruction. But it is very important to ask the right questions. If the type of question

matches the type of learning outcome, then students and teachers have relevant information about learning progress.

Completeness. In addition to including assessment strategies that align with the performance requirements of the targeted learning outcomes, the strategies must be complete enough to effectively assess the learner's performance requirements required by the targeted learner outcomes. For example, a test item that requires the student to state a rule does not assess whether or not the student knows how to *use* the rule.

Research summary. The research summary for effective assessment strategies for different types of learning outcomes follows the same alphabetical sequence as the previous section.

Effective Assessment Strategies

- **To assess *Attitudes*:**
 - Provide various situations.
 - Require choices about behaviors.
- **To assess *Cognitive Strategies*:**
 - Provide learning tasks.
 - Require students to choose good strategies for learning and/or to learn new materials without teacher guidance.
 - Require students to discuss and explain methods used for various learning tasks.
- **To assess *Comprehension/Understanding*:**
 - Provide topic.
 - Require summary or restatement of information.
 - Provide new context.
 - Require application of information.
 - Provide several statements using words different from the initial teaching.
 - Require identification of the correct meaning.
- **To assess *Concepts*:**

53

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Provide new examples and non-examples.
- Require identification or classification into the correct categories.
- To assess *Creativity*:
 - Provide new problems to “turn upside down,” study, or resolve – these could be puzzles, dance performances, drama performances, or products to create.
 - Require products or solutions to fit within the particular functions and resources.
 - Provide situations requiring novel approaches.
- To assess *Critical Thinking*:
 - Require students to evaluate information or results.
 - Require the use of analysis and research.
- To assess *Insight*:
 - Provide situations for inquiry and discovery.
 - Provide situations for manipulation.
- To assess *Metacognition* (learning how to think):
 - Provide different situations or problems.
 - Require students to identify types of thinking strategies to analyze and evaluate their own thinking.
- To assess *Multiple Intelligences*:
 - Provide situations in the modality that is targeted, e.g., verbal-linguistic, musical, or other modality.
 - Provide situations in several modalities, to allow choice
 - Require performance in the targeted or chosen modalities.
- To assess *Motor Skills*:
 - Provide situations and resources for performance of the skill.
 - Include checklist for evaluation.
- To assess *Problem Solving*:
 - Require students to choose types of problem-solving strategies for different situations.

54

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- Require solutions to structured and unstructured, simple and complex problems.
- **To assess *Procedural Knowledge, Principles, and Rules*:**
 - Provide situations that require students to recognize the correct use of procedures, principles, or rules with routine problems.
 - Require students to state procedures, principles, or rules.
 - Require students to choose which ones to apply in different situations.
 - Provide situations that require students to demonstrate the correct use of procedures, principles, or rules with routine problems.
- **To assess *Scientific Inquiry*:**
 - Provide situations or problems that require speculation, inquiry, and hypothesis formation.
 - Provide research, hands-on activity, and conclusions.
- **To assess *Thinking Skills* (also refer to critical thinking and metacognitive skills):**
 - Require students to summarize different types of thinking strategies.
 - Provide situations that require students to choose the best type of thinking strategy to use.
 - Require students to detect instances of open- v. closed-mindedness.
 - Require students to detect instances of responsible v. irresponsible and accurate v. inaccurate applications of thinking strategies.
 - Provide situations that require the student's persistence in order to discover or analyze information to obtain answers to specific questions.
 - Require students to apply specific thinking strategies to different real-world situations.
- **To assess *Verbal Information, Knowledge, or Facts*:**
 - Require students to recall information.

55

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- **Require students to restate information.**

Criteria for Evaluation

The instructional materials adoption process must be fair to all publishers who take the time and expense to submit their materials. Applying evaluation criteria consistently to each submission assures that the materials will be judged fairly.

Regardless of format or technology, effective materials have certain characteristics in common, and the basic issues, important for the evaluation of instructional materials, apply to all subject areas and all formats. These issues are addressed in Florida's list of priorities and the criteria as detailed in the previous pages of this document. What follows is the evaluation instrument used by adoption committee members. Evaluators will use the criteria-based instrument to engage in systematic reflection of the processes they follow and decisions they make about the quality of materials submitted by publishers.

57

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

The extensive research base and review processes used to identify these criteria establish their validity as an integral part of Florida's instructional materials adoption system. Applying these criteria consistently to each submission helps assure that the materials submitted by publishers will be judged fairly.

STATE COMMITTEE EVALUATION FORM

DIRECTIONS: Use this form along with the criteria in the instructional materials specifications to independently review each submission.

As part of your independent review for each of the criteria, rate and comment on how well the submission satisfies the requirements. Possible ratings are as follows: THOROUGHLY, HIGHLY, ADEQUATELY, MINIMALLY, or NOT AT ALL.

At your state committee meeting, you will discuss your review and agree on the summary of RATINGS, COMMENTS, and the OVERALL EVALUATION for each submission. Your committee will then VOTE for or against adoption and will make suggestions for notations to include in the Florida Catalog of Instructional Materials. Your committee's decisions will appear on one Committee Consensus Questionnaire.

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Florida's Sunshine State Standards and Grade Level Expectations Social Studies

Grades PreK-2

Strand A: Time, Continuity, and Change [History]

Standard 1: The student understands historical chronology and the historical perspective.

Benchmark SS.A.1.1.1: The student compares everyday life in different places and times and understands that people, places, and things change over time.

Grade Level Expectations

The student:

Kindergarten

1. listens to, views, and discusses stories, poems, and other media about people from other places and times.

First

1. knows ways people in different cultures live, work, play, move about, and communicate.

Second

1. knows similarities and differences among selected Native American cultures from different regions and times (for example, nomadic groups, agricultural groups, city building, relationship with the environment).
2. knows ways technology changes how people in a community live (for example, advances in communication, transportation).

Benchmark SS.A.1.1.2: The student understands that history tells the story of people and events of other times and places.

Grade Level Expectations

61

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

The student:

62

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Kindergarten

1. understands that history tells the story of people and events of other times and places.

First

1. extends and refines understanding that history tells the story of people and events of other times and places.

Second

1. extends and refines understanding that history tells the story of people and events of other times and places.

Benchmark SS.A.1.1.3: The student knows a family history through two or three generations (e.g., customs, beliefs, and traditions of ancestors and their homelands).

Grade Level Expectations

The student:

Kindergarten

1. knows selected roles of family members in various settings (for example, work, play, home).

First

1. knows ways to investigate and document a family history.

Second

Content addressed at kindergarten and first grade.

Benchmark SS.A.1.1.4: The student understands broad categories of time (e.g., past, present, and future: yesterday, today, and tomorrow) and calendar time (days, weeks, months, and years).

Grade Level Expectations

The student:

Kindergarten

1. distinguishes among past, present, and future.

First

1. understands calendar time (days, weeks, months, years).

63

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

THIS PAGE INTENTIONALLY LEFT BLANK

Second

1. applies calendar time to events in school or community (for example, placing school holidays on a calendar).

Standard 2: The student understands the world from its beginnings to the time of the Renaissance.

Benchmark SS.A.2.1.1: The student knows methods of communication from long ago and the technological developments that facilitated communications (e.g., speaking by gestures; transmitting stories orally; the use of pictographs, hieroglyphics and different alphabets; writing by hand and printing with machines).

Grade Level Expectations

The student:

Kindergarten

1. understands basic modes of communication (for example, gestures, oral, written symbols).

First

1. knows ways in which communication methods have changed (for example, the transition from the block printing process to the invention of the printing press).
2. knows ways changes in communication have affected the daily lives of people.

Second

1. knows various systems of long-distance communication and their effects (for example, runners, the "talking drums" of Africa, smoke signals of Native Americans, modern electronic communication systems).

Benchmark SS.A.2.1.2: The student understands the differences in the methods of travel from various times in human history and the advantages and disadvantages of each (e.g., the use of animals such as horses and camels; nonmotorized vehicles such as chariots and travois).

Grade Level Expectations

The student:

Kindergarten

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

1. understands basic modes of transportation (for example, walking, riding animals, various kinds of animal-drawn wagons, boats, trains, bicycles, cars, airplanes, space shuttles).

66

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

First

1. knows ways in which transportation technology has changed the daily lives of people (for example, the advent of the automobile led to drive-through restaurants).

Second

1. knows some advantages and disadvantages of different types of transportation (for example, cars are able to move us from place to place quickly, but their engines pollute the atmosphere).

Benchmark SS.A.2.1.3: The student understands the significance and historical contributions of historical figures during this period (e.g., the journeys of famous explorers).

Grade Level Expectations

The student:

Kindergarten

1. listens to, views, and discusses stories, poems and other media about selected men and women during the historical period before the Renaissance.

First

The student:

Third

1. knows situations in world history when scarcity impacted decisions.

Fourth

1. knows examples of scarcity in Florida.

Fifth

1. understands that scarcity of resources requires choices on many levels, from the individual to societal.

Benchmark SS.D.1.2.3: The student understands the basic concept of credit.

Grade Level Expectations

The student:

Third

Content addressed in fifth grade.

Fourth

Content addressed in fifth grade.

Fifth

1. understands the basic concept of credit.

Benchmark SS.D.1.2.4: The student understands that any consumer (e.g., an individual, a household, or a government) has certain rights.

Grade Level Expectations

The student:

Third

Content addressed in fifth grade.

Fourth

Content addressed in fifth grade.

Fifth

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

1. understands that any consumer has certain rights (for example, an individual, a household, a government).

Benchmark SS.D.1.2.5: The student understands the concept of earning income and the basic concept of a budget.

Grade Level Expectations

The student:

Third

Content addressed in fourth and fifth grades.

Fourth

1. knows the concept of earning income.
2. knows the basic concept of a budget.

Fifth

1. creates a simple budget including income and expenses.
2. knows different ways that money can increase in value through savings and investment (for example, banks savings accounts, stocks, bonds, real estate, other valuable goods).

Standard 2: The student understands the characteristics of different economic systems and institutions.

Benchmark SS.D.2.2.1: The student understands economic specialization and how specialization generally affects costs, amount of goods and services produced, and interdependence.

Grade Level Expectations

The student:

Third

1. understands the rise of economic specialization (for example, in ancient civilizations and in Medieval cities).

Fourth

Content addressed in third and fifth grades.

Fifth

1. understands economic specialization and how specialization generally affects costs, amount of goods and services produced, and interdependence.

121

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Benchmark SS.D.2.2.2: The student understands the roles that money plays in a market economy.

Grade Level Expectations

The student:

Third

1. understands the role that money played in the development of ancient civilizations.

Fourth

Content addressed in third and fifth grades.

Fifth

1. understands the roles that money plays in a market economy.

Benchmark SS.D.2.2.3: The student understands the services that banks and other financial institutions in the economy provide to consumers, savers, borrowers, and businesses.

Grade Level Expectations

The student:

Third

Content addressed in fifth grade.

Fourth

Content addressed in fifth grade.

Fifth

1. understands basic services that banks and other financial institutions in the economy provide to consumers, savers, borrowers, and businesses.

Benchmark SS.D.2.2.4: The student knows that the government provides some of the goods and services that we use and that the government pays for the goods and services it provides through taxing and borrowing.

Grade Level Expectations

The student:

122

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Third

1. knows ways governments have provided goods and services in selected periods in world history (for example, palaces, temples, tombs, and other public buildings in the ancient world).

Fourth

1. knows ways the state government provides goods and services through taxation (for example, education).

Fifth

1. knows ways the Federal government provides goods and services through taxation and borrowing (for example, highways, military defense).

123

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Sunshine State Standards

Social Studies

Grades 6-8

Strand A: Time, Continuity, and Change [History]

Standard 1: The student understands historical chronology and the historical perspective.

Benchmark SS.A.1.3.1: The student understands how patterns, chronology, sequencing (including cause and effect), and the identification of historical periods are influenced by frames of reference.

Grade Level Expectations

The student:

Sixth

1. understands that historical events are subject to different interpretations.
2. understands chronology (for example, knows how to construct and label a timeline of events).

Seventh

1. extends and refines understanding that historical events are subject to different interpretations (for example, patterns, chronology, sequencing including cause and effect and the identification of historical periods).

Eighth

1. understands ways patterns, chronology, sequencing (including cause and effect), and the identification of historical periods are influenced by frames of reference.

Benchmark SS.A.1.3.2: The student knows the relative value of primary and secondary sources and uses this information to draw conclusions from historical sources such as data in charts, tables, graphs.

Grade Level Expectations

The student:

Sixth

1. distinguishes between fact and opinion.

124

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

2. distinguishes between primary and secondary sources of information.
3. interprets data from charts, tables, and graphs.

Seventh

1. draws appropriate conclusions based on data from charts, tables, and graphs.
2. knows relative value of primary and secondary sources.

Eighth

1. extends and refines ability to analyze and draw conclusions from the events on timelines, charts, tables, and graphs.
2. evaluates sources of information for a purpose (for example, relevance, reliability, accuracy, objectivity).
3. knows ways to develop and support a point of view based on a historical event.

Benchmark SS.A.1.3.3: The student knows how to impose temporal structure on historical narratives.

Grade Level Expectations

The student:

Sixth

Content addressed in SS.A.1.3.1.

Seventh

Content addressed in SS.A.1.3.1.

Eighth

Content addressed in SS.A.1.3.1.

Standard 2: The student understands the world from its beginning to the time of the Renaissance.

Benchmark SS.A.2.3.1: The student understands how language, ideas, and institutions of one culture can influence other (e.g., through trade, exploration, and immigration).

Grade Level Expectations

The student:

Sixth

1. understands ways language, ideas, and institutions of one culture can influence other cultures (for example, trade, religions in the Eastern Hemisphere).

125

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Seventh

1. extends and refines understanding of ways language, ideas, and institutions of one culture can influence other cultures (for example, exploration, immigration, trade in the Western Hemisphere).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.A.2.3.2: The student knows how major historical developments have had an impact on the development of civilizations.

Grade Level Expectations

The student:

Sixth

1. knows ways major historical developments have influenced selected groups over time (for example, the rise and spread of the Muslim religion).

Seventh

1. extends and refines knowledge of ways major historical developments have influenced selected groups over time (for example, the components essential for the development of civilization, such as division of labor, technology, government, writing, calendar in the Western hemisphere).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.A.2.3.3: The student understands important technological developments and how they influenced human society.

Grade Level Expectations

The student:

Sixth

1. understands ways technological factors have influenced selected groups over time (for example, agriculture in the Eastern hemisphere).

Seventh

1. extends and refines understanding of ways technological factors have influenced selected groups over time (for example, transportation in the Western hemisphere.)

126

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.A.2.3.4: The student understands the impact of geographical factors on the historical development of civilizations.

Grade Level Expectations

The student:

Sixth

1. understands ways geographical factors have influenced selected groups (for example, the development of the Tibetan civilization in the Himalayan Mountains).

Seventh

2. extends and refines understanding of ways geographical factors have influenced selected groups (for example, Native Americans in the Great Plains).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.A.2.3.5: The student knows significant historical leaders who shaped the development of early cultures (e.g., military, political, and religious leaders in various civilizations).

Grade Level Expectations

The student:

Sixth

1. knows significant aspects of the lives and accomplishments of selected men and women in the historical period of ancient civilizations (for example, Confucius, Buddha).

Seventh

1. knows significant aspects of the lives and accomplishments of selected men and women in the historical period of ancient civilizations (for example, Alexander the Great, Hammurabi's development of legal codes, Moses).

Eighth

Content addressed in sixth and seventh grade.

127

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Benchmark SS.A.2.3.6: The student knows the major events that shaped the development of various cultures (e.g., the spread of agrarian societies, population movements, technological and cultural innovation, and the emergence of new population centers).

Grade Level Expectations

The student:

Sixth

1. knows major events that shaped the development of various cultures (for example, development and spread of major religions).

128

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Seventh

1. refines and extends knowledge of major events that shaped the development of various cultures (for example, development of legal codes).

Eighth

Content addressed in sixth grade.

Benchmark SS.A.2.3.7: The student knows significant achievements in art and architecture in various urban areas and communities to the time of the Renaissance (e.g., the Hanging Gardens of Babylon, pyramids in Egypt, temples in ancient Greece, bridges and aqueducts in ancient Rome, changes in European art and architecture between the Middle Ages and the High Renaissance).

Grade Level Expectations

The student:

Sixth

1. knows examples of significant achievements in art and architecture (for example, Chinese and Japanese ink drawing, temple complexes in Southeast Asia).

Seventh

1. knows examples of significant achievements in art and architecture (for example, the Hanging Gardens of Babylon, pyramids in Egypt, bridges and aqueducts in ancient Rome, Gothic cathedrals in Medieval Europe).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.A.2.3.8: The student knows the political, social, and economic institutions that characterized the significant aspects of Eastern and Western civilizations.

Grade Level Expectations

The student:

Sixth

1. knows roles of political, economic, and social institutions in the development of selected civilizations (for example, caste system in India).

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Seventh

1. extends and refines knowledge of roles of political, economic, and social institutions in the development of selected civilizations (for example, the Catholic Church in Europe).

Eighth

Content addressed in sixth and seventh grades.

Standard 3: The student understands Western and Eastern civilization since the Renaissance.

Benchmark SS.A.3.3.1: The student understands ways in which cultural characteristics have been transmitted from one society to another (e.g., through art, architecture, language, other artifacts, traditions, beliefs, values, and behaviors).

Grade Level Expectations

The student:

Sixth

1. understands ways in which cultural characteristics have been transmitted from one society to another (for example, through art, architecture, language, other artifacts).

Seventh

1. extends and refines understanding of ways in which cultural characteristics have been transmitted from one society to another (for example, through traditions, beliefs, values, behaviors).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.A.3.3.2: The student understands the historical events that have shaped the development of cultures throughout the world.

Grade Level Expectations

The student:

Sixth

1. understands selected historical events that have shaped the development of selected cultures (for example, the spread of Communism in Asia).

130

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Seventh

1. understands selected historical events that have shaped the development of selected cultures throughout the world (for example, the spread of humanism during the Renaissance).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.A.3.3.3: The student knows how physical and human geographic factors have influenced major historical events and movements.

Grade Level Expectations

The student:

Sixth

1. knows ways geographical factors have influenced selected cultures (for example, the Great Wall of China, major rivers systems in the Eastern hemisphere).

Seventh

1. extends and refines understanding of ways geographical factors have influenced major historical events and movements in selected cultures (for example, mountain ranges in Europe and the Americas).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.A.3.3.4: The student knows significant historical leaders who have influenced the course of events in Eastern and Western civilizations since the Renaissance.

Grade Level Expectations.

The student:

Sixth

1. knows aspects of the lives and accomplishments of significant men and women in selected regions since the Renaissance (for example, Ghandi, Mao Ze-dong, Mother Teresa).

Seventh

131

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

1. extends and refines knowledge of aspects of the lives and accomplishments of significant men and women in selected regions since the Renaissance (for example, Christopher Columbus, Simon Bolivar) .

Eighth

1. Content addressed in sixth and seventh grades.

Benchmark SS.A.3.3.5: The student understands the differences between institutions of Eastern and Western civilizations (e.g., differences in governments, social traditions and customs, economic systems and religious institutions).

Grade Level Expectations

The student:

Sixth

1. understands selected aspects of political, economic, and social institutions in selected cultures in Eastern civilizations (for example, governments, social traditions and customs, economic systems, religious institutions).

Seventh

1. understands selected aspects of political, economic, and social institutions in selected cultures in Western civilizations (for example, governments, social traditions and customs, economic systems, religious institutions).
2. understands the differences between political, economic, and social institutions of Eastern and Western civilizations.

Eighth

1. compares and contrasts ways Eastern and Western political, economic, and social institutions impact life in the United States.

Standard 4: The student understands United States history to 1880.

Benchmark SS.A.4.3.1: The student knows the factors involved in the development of cities and industries (e.g., religious needs, the need for military protection, the need for a marketplace, changing spatial patterns, and geographical factors for location such as transportation and food supply).

Grade Level Expectations

The student:

132

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

1. understands factors involved in the development of cities and industries in the United States.

Benchmark SS.A.4.3.2: The student knows the role of physical and cultural geography in shaping events in the United States (e.g., environmental and climatic influences on settlement of the colonies, the American Revolution, and the Civil War).

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

1. knows the role of physical and cultural geography in shaping events in the United States (for example, environmental and climatic influences on settlement of the colonies, the American Revolution, the Civil War).

Benchmark SS.A.4.3.3: The student understands the impact of significant people and ideas on the development of values and traditions in the United States prior to 1880.

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

133

Eighth

1. understands the impact of significant people, events and ideas on the development of the United States (for example, Thomas Jefferson, Manifest Destiny).

Benchmark SS.A.4.3.4: The student understands ways state and federal policy influenced various Native American tribes (e.g., the Cherokee and Choctaw removals, the loss of Native American homelands, the Black Hawk War, and removal policies in the Old Northwest).

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

1. understands ways state and federal policy influenced various Native American nations throughout United States history (for example, Cherokee and Choctaw removals, loss of Native American homelands, Black Hawk War, removal policies in the Old Northwest).

Standard 5: The student understands United States history from 1880 to the present day.

Benchmark SS.A.5.3.1: The student understands the role of physical and cultural geography in shaping events in the United States since 1880 (e.g., Western settlement, immigration patterns, and urbanization).

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

134

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Content addressed in eighth grade.

Eighth

1. understands the role of physical and cultural geography in shaping events in the United States since 1880 (for example, western settlement, immigration patterns, urbanization).

Benchmark SS.A.5.3.2: The student understands ways that significant individuals and events influenced economic, social, and political systems in the United States after 1880.

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

1. understands the impact of significant people, events, and ideas on the development of the United States after 1880 (for example, Andrew Carnegie, Martin Luther King, the Great Depression, isolationism).

Benchmark SS.A.5.3.3: The student knows the causes and consequences of urbanization that occurred in the United States after 1880 (e.g., causes such as industrialization; consequences such as poor living conditions in cities and employment conditions).

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

135

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

1. knows the causes and consequences of urbanization that occurred in the United States after 1880 (for example, industrialization; consequences such as poor living conditions in cities, health and safety aspects of working conditions).

*Standard 6: The student understands the history of Florida and its people.
Benchmark SS.A.6.3.1: The student understands how immigration and settlement patterns have shaped the history of Florida.*

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

1. understands ways immigration and settlement patterns have shaped the history of Florida (for example, early Spanish settlements, influx of retirees, Cuban refugees into South Florida).

Benchmark SS.A.6.3.2: The student knows the unique geographic and demographic characteristics that define Florida as a region.

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

1. knows characteristics of Florida's growing and diverse population centers (for example, Jacksonville, Miami, Orlando, Tampa).
2. knows unique geographic and demographic characteristics that define Florida as a region (for example, the Everglades, Latin American influence in South Florida).

136

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Benchmark SS.A.6.3.3: The student knows how the environment of Florida has been modified by the values, traditions, and actions of various groups who have inhabited the state.

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

1. knows ways the environment of Florida has been modified by the values, traditions, and actions of various groups who have inhabited the state (for example, degradation of the Everglades).

Benchmark SS.A.6.3.4: The student understands how the interactions of societies and cultures have influenced Florida's history.

Grade Level Expectations

The student:

Sixth

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

1. understands ways the interactions of societies and cultures have influenced Florida's history (for example, early Spanish missions converting Native Americans to Christianity).

Benchmark SS.A.6.3.5: The student understands how Florida has allocated and used resources and the consequences of those economic decisions.

Grade Level Expectations

The student:

Sixth

137

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Content addressed in eighth grade.

Seventh

Content addressed in eighth grade.

Eighth

1. understands ways Florida has allocated and used resources and the consequences of those economic decisions (for example, the development of transportation systems such as state and county highways. Preference for tourism over heavy industry leading to a service economy).

Strand B: People, Places, and Environments [Geography]

Standard 1: The student understands the world in spatial terms.

Benchmark SS.B.1.3.1: The student uses various map forms (including thematic maps) and other geographic representations, tools, and technologies to acquire, process, and report geographic information including patterns of land use, connections between places, and patterns and processes of migration and diffusion.

Grade Level Expectations

The student:

Sixth

1. knows various map forms and other geographic representations. (for example, maps, globes, aerial photographs, satellite-produced images).
2. uses various map forms to acquire information (for example, location, distance, direction, scale, symbol).
3. uses various map forms to process and report geographic information (for example, patterns of land use, connections between places, patterns and processes of migration and diffusion).

Seventh

1. extends and refines knowledge of various map forms and other geographic representations (for map projections, Geographic Information Systems technologies).
2. extends and refines use of various map forms and other geographic representations to acquire, process, and report geographic information (for example, patterns of population, economics, rainfall, vegetation, landforms).

Eighth

138

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

1. extends and refines use of various map forms and other geographic representations, tools, and technologies to acquire, process, and report geographic information about the United States (for example, tracing the Oregon Trail).

Benchmark SS.B.1.3.2: The student uses mental maps to organize information about people, places, and environments.

Grade Level Expectations

The student:

Sixth

1. develops and uses mental maps of selected regions (for example, from memory the student identifies the continent on which a country is located).

Seventh

1. extends and refines ability to use mental maps of selected regions (for example, mountains chains, bodies of water).

Eighth

1. extends and refines ability to use mental maps of the United States and Florida (for example, from memory identifies the three largest population centers and their general location).

Benchmark SS.B.1.3.3: The student knows the social, political, and economic divisions on Earth's surface.

Grade Level Expectations

The student:

Sixth

1. understands that people create social, political, and economic geographic divisions of the Earth's surface (for example, national borders).

2. knows selected social, political, and economic divisions in selected regions (for example, national borders in the Eastern hemisphere).

Seventh

1. understands the social, political, and economic divisions in selected regions, (for example, national borders in the Western hemisphere).

Eighth

139

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

1. knows ways the social, political, and economic divisions of the United States have changed over time (for example, the growth in the number of states).

Benchmark SS.B.1.3.4: The student understands ways factors such as culture and technology influence the perception of places and regions.

Grade Level Expectations

The student:

Sixth

1. understands ways judgements about cultural characteristics and degree of technological development influence perception of places and regions (for example, the designation of “third world country”).

Seventh

1. extends and refines understanding of ways judgements about cultural characteristics and degree of technological development influence perception of places and regions.

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.B.1.3.5: The student knows ways in which the spatial organization of a society changes over time.

Grade Level Expectations

The student:

Sixth

1. knows ways in which the spatial organization of a society changes over time (for example, urban sprawl as a result of industrialization).

Seventh

1. extends and refines knowledge of ways in which the spatial organization of a society changes over time (for example, suburbanization in developed countries).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.B.1.3.6: The student understands ways in which regional systems are interconnected.

140

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Grade Level Expectations

The student:

Sixth

1. knows physical and human criteria used to define regions (for example, hemispheres, mountains, deserts, countries, city boundaries, school districts).

Seventh

1. knows ways selected regions are interconnected and interdependent (for example, less-developed regions supplying raw materials and developed regions supplying manufactured goods).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.B.1.3.7: The student understands the spatial aspects of communication and transportation systems.

Grade Level Expectations

The student:

Sixth

1. understands spatial aspects of communication and transportation systems in selected regions (for example, time required to travel and communicate over distances reduced by technological developments).

Seventh

1. extends and refines understanding of spatial aspects of the communication and transportation systems in selected regions (time required to travel and communicate over distances reduced by technological developments).

Eighth

Content addressed in sixth and seventh grades.

Standard 2: The student understands the interactions of people and the physical environment.

Benchmark SS.B.2.3.1: The student understands the patterns and processes of migration and diffusion throughout the world.

Grade Level Expectations

141

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

The student:

Sixth

1. knows examples of migration patterns and processes in selected regions.

142

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Seventh

1. understands patterns and processes of migration and diffusion in selected regions.

Eighth

1. knows examples of migration and cultural diffusion in United States history.

Benchmark SS.B.2.3.2: The student knows the human and physical characteristics of different places in the world and how these characteristics change over time.

Grade Level Expectations

The student:

Sixth

1. knows ways physical and human characteristics of selected regions have changed over time (for example, aftereffects of volcanic activity, development of cities).

Seventh

1. extends and refines knowledge of ways physical and human characteristics of selected regions have changed over time (for example, tree clearing in rain forests).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.B.2.3.3: The student understands ways cultures differ in their use of similar environments and resources.

Grade Level Expectations

The student:

Sixth

1. understands ways various cultures use similar resources and environments (for example, differing methods of irrigation).

Seventh

1. extends and refines understanding of ways various cultures use similar resources and environments (for example, terracing of mountain sides in the Andes and using mountainous areas for pasture in other areas).

143

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.B.2.3.4: The student understands ways the landscape and society change as a consequence of shifting from a dispersed to a concentrated settlement form.

Grade Level Expectations

The student:

Sixth

Content addressed in SS.A.4.3.1.

Seventh

Content addressed in SS.A.4.3.1.

Eighth

Content addressed in SS.A.4.3.1.

Benchmark SS.B.2.3.5: The student understands the geographical factors that affect the cohesiveness and integration of countries.

Grade Level Expectations

The student:

Sixth

1. understands the various geographic factors that may divide or unite a country (for example, mountains, rivers, valleys).

Seventh

1. extends and refines understanding of the various geographic factors that may divide or unite a country.

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.B.2.3.6: The student understands the environmental consequences of people changing the physical environment in various world locations.

144

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Grade Level Expectations

The student:

Sixth

1. understands environmental consequences of people changing the physical environment in selected regions (effects of deforestation such as reduction in biodiversity).

Seventh

1. extends and refines understanding of environmental consequences of people changing the physical environment in selected regions (for example, effects of ozone depletion, climate change).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.B.2.3.7: The student knows how various human systems throughout the world have developed in response to conditions in the physical environment.

Grade Level Expectations

The student:

Sixth

1. knows examples of human systems that have been developed in response to opportunities afforded by the environment (for example, settlements in valleys, transportation on waterways).

Seventh

1. extends and refines knowledge of examples of ways the environment affects human systems in selected regions (for example, natural barriers that become boundaries).

Eighth

Content addressed in sixth and seventh grades.

Benchmark SS.B.2.3.8: The student knows world patterns of resource distribution and utilization.

Grade Level Expectations

The student:

COURSE DESCRIPTIONS

GRADES 6-8

M/J Social Studies

A. Major Concepts/Content. The purpose of this course is to enable students to develop a basic understanding of the concepts and methodologies used in the Social Studies disciplines, and their applications in contemporary and historical contexts. The Social Studies disciplines include history, geography, political science, economics, sociology, psychology, and anthropology.

The content must include, but not be limited to, the following:

- basic concepts and methodology of the Social Studies disciplines
- interdisciplinary concepts of change, conflict, interdependence, choice, and impact of the environment
- development of reasoning and information-processing skills
- applications of the Social Studies to contemporary issues and concerns
- applications of the Social Studies to the study of Florida

This course must integrate the Goal 3 Student Performance Standards of the Florida System of School Improvement and Accountability as appropriate to the content and processes of the subject matter.

C. Course Requirements. These requirements include, but are not limited to, the benchmarks from the Sunshine State Standards that are most relevant to this course. Benchmarks correlated with a specific course requirement may also be addressed by other course requirements as appropriate. Some requirements in this course are not fully addressed in the Sunshine State Standards.

After successfully completing this course, the student will:

1. Demonstrate understanding of the focus and methodology of the Social Studies disciplines.

SS.A.1.3.1 understand how patterns, chronology, sequencing (including cause and effect), and the identification of historical periods are influenced by frames of reference.

164

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

SS.A.1.3.2 know the relative value of primary and secondary sources and use this information to draw conclusions from historical sources such as data in charts, tables, graphs.

165

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

2. Identify the relationships among the Social Studies in order to understand the scope of each discipline.

- SS.A.2.3.4 understand the impact of geographical factors on the historical development of civilizations.
- SS.A.3.3.3 know how physical and human geographic factors have influenced major historical events and movements.

3. Apply methods of Social Studies to contemporary problems in Florida.

- SS.B.1.3.1 use various map forms (including thematic maps) and other geographic representations, tools, and technologies to acquire, process, and report geographic information including patterns of land use, connections between places, and patterns and processes of migration and diffusion.
- SS.B.1.3.2 use mental maps to organize information about people, places, and environments.

4. Use Social Studies methods and concepts to develop an understanding of the multicultural history of Florida, including the contributions of different ethnic groups.

- SS.A.6.3.1 understand how immigration and settlement patterns have shaped the history of Florida.
- SS.A.6.3.3 know how the environment of Florida has been modified by the values, traditions, and actions of various groups who have inhabited the state.
- SS.A.6.3.4 understand how the interactions of societies and cultures have influenced Florida's history.

5. Use Social Studies methods and concepts to develop an understanding of the rights and responsibilities of citizenship.

- SS.C.1.3.5 know the major responsibilities of his or her state and local governments and understand the organization of his or her state and local governments.
- SS.C.2.3.1 understand the history of the rights, liberties, and obligations of citizenship in the United States.
- SS.C.2.3.2 understand that citizenship is legally recognized full membership in a self-governing community that confers equal rights under the law; is not dependent on inherited, involuntary groupings; and confers certain rights and privileges (e.g., the right to vote, to hold public office, and to serve on juries).

166

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.C.2.3.3 understand the argument that all rights have limits and know the criteria commonly used in determining when and why limits must be placed on rights (e.g., whether a “clear and present danger” exists or whether national security is at risk).
- SS.C.2.3.4 understand what constitutes personal, political, and economic rights and the major documentary sources of these rights.
- SS.C.2.3.5 understand how he or she can contact his or her representatives and why it is important to do so and know which level of government to contact to express his or her opinions or to get help on a specific problem.
- SS.C.2.3.6 understand the importance of participation in community service, civic improvement, and political activities.
- SS.C.2.3.7 understand current issues involving rights that affect local, national, or international political, social, and economic systems.
- SS.D.1.3.1 know the options and resources that are available for consumer protection.

6. Apply research, study, critical-thinking, and decision-making skills, and demonstrate the use of new and emerging technology in problem solving.
 (Note: In this course, students will have opportunities to apply skills described in language arts and mathematics benchmarks that pertain to this requirement.)

M/J CIVICS

- A. Major Concepts/Content.** The purpose of this course is to enable students to develop the knowledge and skills necessary for active participation in a democratic society. - SS.A.6.3.2 know the unique geographic and demographic characteristics that define Florida as a region.
- SS.A.6.3.3 know how the environment of Florida has been modified by the values, traditions, and actions of various groups who have inhabited the state.
- SS.A.6.3.4 understand how the interactions of societies and cultures have influenced Florida's history.
- SS.A.6.3.5 understand how Florida has allocated and used resources and the consequences of those economic decisions.

9. Apply research, study, critical-thinking, and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

170

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

(Note: In this course, students will have opportunities to apply skills described in language arts and mathematics benchmarks that pertain to this requirement.)

M/J Geography: Asia, Oceania, and Africa

Major Concepts/Content. The purpose of this course is to enable students to acquire and organize information about places, people, and culture in Asia, Oceania, and Africa to develop a sense of where they are in time, space, and culture and reinforce their own personal and social identity.

The content must include, but not be limited to, the following:

- historical perspectives
- culture and ethnicity
- society: roles, customs, and conflict
- impact of law and politics
- landforms and vegetation
- demographics
- religion
- transition and change

This course must integrate the Goal 3 Student Performance Standards of the Florida System of School Improvement and Accountability as appropriate to the content and processes of the subject matter.

B. Special Note. This course, offered at 6th grade, is the first course of a three year sequence in the Connections, Challenges, and Choices program. M/J Geography: Europe and the Americas (2103040), offered at 7th grade, and M/J Florida: Challenges and Choices (2103050), offered at 8th grade, complete the sequence.

After successfully completing this course the student will:

1. Employ the geographic perspective to identify, analyze, and predict solutions to geographic issues or concerns.

SS.B.2.3.5 understand the geographical factors that affect the cohesiveness and integration of countries.

2. Apply systematic approaches to the observation and analysis of humans and their environment.

SS.B.2.3.3 understand how cultures differ in their use of similar environments and resources.

SS.B.2.3.6 understand the environmental consequences of people changing the physical environment in various world locations.

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

SS.B.2.3.7 know how various human systems throughout the world have developed in response to conditions in the physical environment.

SS.B.2.3.9 understand how the interaction between physical and cultural systems affects current conditions on Earth.

3. Use maps, globes, charts, graphs, and other tools of geography to gather and interpret data and to draw conclusions about physical and human patterns.

SS.B.1.3.1 use various map forms (including thematic maps) and other geographic representations, tools, and technologies to acquire, process, and report geographic information including patterns of land use, connections between places, and patterns and processes of migration and diffusion.

SS.B.1.3.2 use mental maps to organize information about people, places, and environments.

4. Demonstrate understanding of the concepts of location, place, movement, and region.

SS.A.2.3.7 know significant achievements in art and architecture in various urban areas and communities to the time of the Renaissance (e.g., the Hanging Gardens of Babylon, pyramids in Egypt, temples in ancient Greece, bridges and aqueducts in ancient Rome, changes in European art and architecture between the Middle Ages and the High Renaissance).

SS.B.1.3.3 know the social, political, and economic divisions on Earth's surface.

SS.B.1.3.4 understand how factors such as culture and technology influence the perception of places and regions.

SS.B.1.3.5 know ways in which the spatial organization of a society changes over time.

SS.B.1.3.6 understand ways in which regional systems are interconnected.

SS.B.1.3.7 understand the spatial aspects of communication and transportation systems.

SS.B.2.3.1 understand the patterns and processes of migration and diffusion throughout the world.

SS.B.2.3.2 know the human and physical characteristics of different places in the world and how these characteristics change over time.

SS.B.2.3.4 understand how the landscape and society change as a consequence of shifting from a dispersed to a concentrated settlement form.

5. Demonstrate understanding of how human attitudes, objectives, and technical skills influence the interaction of humans and the physical environment.

172

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.A.2.3.3 understand important technological developments and how they influenced human society.
- SS.A.3.3.2 understand the historical events that have shaped the development of cultures throughout the world.
- SS.A.4.3.2 know the role of physical and cultural geography in shaping events in the United States (e.g., environmental and climatic influences on settlement of the colonies, the American Revolution, and the Civil War).
- SS.A.5.3.1 understand the role of physical and cultural geography in shaping events in the United States since 1880 (e.g., Western settlement, immigration patterns, and urbanization).
- SS.A.5.3.2 understand ways that significant individuals and events influenced economic, social, and political systems in the United States after 1880.
- SS.B.1.3.4 understand how factors such as culture and technology influence the perception of places and regions.
- SS.B.2.3.8 know world patterns of resource distribution and utilization.

6. Demonstrate understanding of the concepts of transition and change.

- SS.A.2.3.1 understand how language, ideas, and institutions of one culture can influence other cultures (e.g., through trade, exploration, and immigration).
- SS.A.2.3.2 know how major historical developments have had an impact on the development of civilizations.
- SS.A.2.3.4 understand the impact of geographical factors on the historical development of civilizations.
- SS.A.2.3.5 know significant historical leaders who shaped the development of early cultures (e.g., military, political, and religious leaders in various civilizations).
- SS.A.2.3.6 know the major events that shaped the development of various cultures (e.g., the spread of agrarian societies, population movements, technological and cultural innovation, and the emergence of new population centers).
- SS.A.2.3.8 know the political, social, and economic institutions that characterized the significant aspects of Eastern *and* Western civilizations.
- SS.A.3.3.1 understand ways in which cultural characteristics have been transmitted from one society to another (e.g., through art, architecture, language, other artifacts, traditions, beliefs, values, and behaviors).

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.A.3.3.3 know how physical and human geographic factors have influenced major historical events and movements.
- SS.A.3.3.4 know significant historical leaders who have influenced the course of events in Eastern *and* Western civilizations since the Renaissance.
- SS.A.3.3.5 understand the differences between institutions of Eastern *and* Western civilizations (e.g., differences in governments, social traditions and customs, economic systems, and religious institutions).

7. Apply research, study, critical-thinking, and decision-making skills and demonstrate the use of new and emerging technology in problem solving.
(Note: In this course, students will have opportunities to apply skills described in language arts and mathematics benchmarks that pertain to this requirement.)

M/J Geography: Europe and the Americas

A. Major Concepts/Content. The purpose of this course is to enable students to acquire and organize information about places, people, and culture in Europe and the Americas to develop a sense of where they are in time, space, and culture, and to reinforce their own personal and social identity.

M/J World Geography

A. Major Concepts/Content. The purpose of this course is to enable students to develop multicultural understanding and use geography concepts and skills to actively seek information and systematically apply decision-making processes to real-life situations.

The content must include, but not be limited to, the following:

- world political regions in terms of location, physical characteristics, population and culture, historical change, economic activity, and land use

This course must integrate the Goal 3 Student Performance Standards of the Florida system of School Improvement and Accountability as appropriate to the content and processes of the subject matter.

After successfully completing this course, the student will:

- 1. Use maps, globes, charts, graphs, and other tools of geography to gather and interpret data and to draw conclusions about physical and human patterns.**

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.B.1.3.1 use various map forms (including thematic maps) and other geographic representations, tools, and technologies to acquire, process, and report geographic information including patterns of land use, connections between places, and patterns and processes of migration and diffusion.
- SS.B.1.3.2 use mental maps to organize information about people, places, and environments.
- SS.B.1.3.5 know ways in which the spatial organization of a society changes over time.

2. Locate and describe the physical and cultural features of political regions.

- SS.B.1.3.3 know the social, political, and economic divisions on Earth's surface.
- SS.B.2.3.2 know the human and physical characteristics of different places in the world and how these characteristics change over time.

3. Demonstrate understanding of the relationships between physical and cultural environments.

- SS.A.2.3.4 understand the impact of geographical factors on the historical development of civilizations.
- SS.B.1.3.6 understand ways in which regional systems are interconnected.
- SS.B.2.3.5 understand the geographical factors that affect the cohesiveness and integration of countries.
- SS.B.2.3.7 know how various human systems throughout the world have developed in response to conditions in the physical environment.
- SS.B.2.3.9 understand how the interaction between physical and cultural systems affects current conditions on Earth.

4. Demonstrate understanding of the relationship between economic development and the use and conservation of natural resources.

- SS.B.2.3.3 understand how cultures differ in their use of similar environments and resources.
- SS.B.2.3.6 understand the environmental consequences of people changing the physical environment in various world locations.
- SS.B.2.3.8 know world patterns of resource distribution and utilization.

5. Analyze the interaction of humans and the physical environment as influenced by culture, technology, migration, and skills.

- SS.A.3.3.3 know how physical and human geographic factors have influenced major historical events and movements.

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.B.1.3.4 understand how factors such as culture and technology influence the perception of places and regions.

M/J United States History

A. Major Concepts/Content. The purpose of this course is to enable students to understand the development of the United States within the context of history by examining connections to the past to prepare for the future as participating members of a democratic society. Students will use knowledge pertaining to history, geography, economics, political processes, religion, ethics, diverse cultures, and humanities to solve problems in academic, civic, social, and employment settings.

The content must include, but not be limited to, the following:

- political, economic, technological, and social development of the United States from the Exploration Period through Reconstruction, with special emphasis on Florida's role
- time-space relationships
- impact of expansion on the development of America
- political, social, and economic conflicts and compromise
- influence of diverse groups on cultural development of the United States
- key concepts of the U.S. Constitution and other historical documents

This course must integrate the Goal 3 Student Performance Standards of the Florida System of School Improvement and Accountability as appropriate to the content and processes of the subject matter.

After successfully completing this course, the student will:

1. Demonstrate understanding of the impact of significant people, ideas, and events on the development of values, traditions, and social, economic, and political institutions in the United States.

SS.A.4.3.3 understand the impact of significant people and ideas on the development of values and traditions in the United States prior to 1880.

2. Demonstrate understanding of the significance of physical and cultural geography on the development of the United States and Florida.

181

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.A.4.3.2 know the role of physical and cultural geography in shaping events in the United States (e.g., environmental and climatic influences on settlement of the colonies, the American Revolution, and the Civil War).
- SS.A.5.3.1 understand the role of physical and cultural geography in shaping events in the United States since 1880 (e.g., Western settlement, immigration patterns, and urbanization).
- SS.A.6.3.2 know the unique geographic and demographic characteristics that define Florida as a region.
- SS.A.6.3.3 know how the environment of Florida has been modified by the values, traditions, and actions of various groups who have inhabited the state.
- SS.A.6.3.4 understand how the interactions of societies and cultures have influenced Florida's history.
- SS.A.6.3.5 understand how Florida has allocated and used resources and the consequences of those economic decisions.
- SS.B.1.3.4 understand how factors such as culture and technology influence the perception of places and regions.
- SS.B.2.3.4 understand how the landscape and society change as a consequence of shifting from a dispersed to a concentrated settlement form.

3. Demonstrate understanding of current and historic events in relation to the experiences, contributions, and perspectives of diverse cultural and ethnic groups in the United States and Florida, including slavery, the passage of slaves to America, abolition, and the contributions of African Americans to society.

- SS.A.4.3.4 understand how state and federal policy influenced various Native American tribes (e.g., the Cherokee and Choctaw removals, the loss of Native American homelands, the Black Hawk War, and removal policies in the Old Northwest).
- SS.A.6.3.1 understand how immigration and settlement patterns have shaped the history of Florida.
- SS.B.2.3.3 understand how cultures differ in their use of similar environments and resources.

4. Demonstrate understanding of the impact of values and ideals reflected in United States historical documents and symbols on United States society.

- SS.C.1.3.1 know the essential ideas of American constitutional government that are expressed in the Declaration of Independence, the Constitution, the Federalist Papers, and other writings.

182

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

5. Demonstrate understanding of the processes used to create and interpret history.

- SS.A.1.3.1 understand how patterns, chronology, sequencing (including cause and effect), and the identification of historical periods are influenced by frames of reference.
- SS.A.1.3.2 know the relative value of primary and secondary sources and use this information to draw conclusions from historical sources such as data in charts, tables, graphs.
- SS.A.1.3.3 know how to impose temporal structure on historical narratives.

6. Demonstrate understanding of the interactions among science, technology, and society within historical contexts of the United States.

- SS.A.4.3.1 know the factors involved in the development of cities and industries (e.g., religious needs, the need for military protection, the need for a marketplace, changing spatial patterns, and geographical factors for location such as transportation and food supply).

7. Demonstrate understanding of the basic concepts of the free enterprise system as practiced in the United States.

- SS.D.2.3.1 understand how production and distribution decisions are determined in the United States economy and how these decisions compare to those made in market, tradition-based, command, and mixed economic systems.
- SS.D.2.3.2 understand that relative prices and how they affect people's decisions are the means by which a market system provides answers to the three basic economic questions: What goods and services will be produced? How will they be produced? Who will buy them? (Note: The settlement of Jamestown and westward expansion are examples of content that may be included in this course.)
- SS.D.2.3.3 know the various kinds of specialized institutions that exist in market economies (e.g., corporations, labor unions, banks, and the stock market). (Note: Joint stock companies and the National Bank are examples of content that may be included in this course.)

8. Demonstrate understanding of the rights, liberties, and obligations of citizenship in various periods of United States history.

- SS.C.2.3.1 understand the history of the rights, liberties, and obligations of citizenship in the United States.

183

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.C.2.3.2 understand that citizenship is legally recognized full membership in a self-governing community that confers equal rights under the law; is not dependent on inherited, involuntary groupings; and confers certain rights and privileges (e.g., the right to vote, to hold public office, and to serve on juries).
- SS.C.2.3.3 understand the argument that all rights have limits and know the criteria commonly used in determining when and why limits must be placed on rights (e.g., whether a “clear and present danger” exists or whether national security is at risk).
- SS.C.2.3.4 understand what constitutes personal, political, and economic rights and the major documentary sources of these rights.
- SS.C.2.3.5 understand how he or she can contact his or her representatives and why it is important to do so and know which level of government to contact to express his or her opinions or to get help on a specific problem.
- SS.C.2.3.6 understand the importance of participation in community service, civic improvement, and political activities.

CL.A.1.In.1 complete specified Sunshine State Standards with modifications as appropriate for the individual student.

CL.A.1.Su.1 complete specified Sunshine State Standards with modifications and guidance and support as appropriate for the individual student.

B. Special Note. This entire course may not be mastered in one year. The particular course requirements that the student should master each year must be specified on an individual basis.

This course is designed to reflect, but not replicate, many of the requirements for Grades 6-8 social studies in the basic education program. For students who are preparing to pursue a standard diploma, course requirements should incorporate content and benchmarks from the Sunshine State Standards for Social Studies, Grades 6-8.

Course Number: 7821010 - Social Studies: 6-8

This course is primarily designed for students functioning at independent and supported levels. Students functioning at independent levels are generally capable of working and living independently and may need occasional assistance. Students functioning at supported levels are generally capable of living and working with ongoing supervision and support. Three levels of functioning, independent, supported, and participatory, have been designated to provide a way to differentiate benchmarks and course requirements for students with diverse

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

abilities. Individual students may function at one level across all areas, or at several different levels, depending on the requirements of the situation.

This course may also be used to accommodate the wide range of abilities within the population of students with disabilities. The particular benchmark for a course requirement should be selected for individual students based on their levels of functioning and their desired post-school outcomes. The level of functioning should be determined for each course requirement or performance objective. The key to determining the level is consideration of the amount of additional support and assistance that *must* be provided for the student. This support and assistance must be *beyond* what is typically provided for nondisabled individuals in performing the same type of behaviors or tasks. The following guidelines may be used to assist this process.

- For requirements/objectives mastered at the Independent Level, students are expected to be able to perform the behaviors identified for each benchmark *on their own* once they have mastered the knowledge and skills.
- For requirements/objectives mastered at the Supported Level, mastery should be determined with consideration of the amount and type of *guidance and support* necessary to the student to perform the behavior. This generally consists of some type of prompting or supervision.
 - Physical prompt—a touch, pointing, or other type of gesture as a reminder
 - Verbal prompt—a sound, word, phrase, or sentence as a reminder
 - Visual prompt—color-coding, icons, symbols, or pictures as a reminder
 - Assistive technology — an alarm, an electronic tool
 - Supervision—from occasional inspection to continuous observation
- For requirements/objectives mastered at the Participatory Level, mastery should be determined with consideration of the amount and type of *assistance* necessary to the student to participate in the performance of the behavior.
 - Physical assistance—from a person, such as full physical manipulation or partial movement assistance
 - Assistive technology—full: props, bolsters, pads, electric wheelchair; partial: straps, lapboards, adapted utensils

The performance objectives are designed to provide teachers with ideas for short-term objectives for instructional planning. The performance objectives are not intended to be exhaustive of all the possible short-term objectives a student may need in this course. Other objectives should be added as required by an individual student.

Instructional activities involving practical applications of course requirements may occur in naturalistic settings in home, school, and community for the purposes of practice, generalization, and maintenance of skills. These applications may require

that the student acquire the knowledge and skills involved with the use of related technology, tools, and equipment.

C. Course Requirements. These requirements include, but are not limited to, the benchmarks from the Sunshine State Standards for Special Diploma that are most relevant to this course. Students are expected to make progress, but are not required to master benchmarks listed for this course. Benchmarks correlated with a specific course requirement may also be addressed by other course requirements as appropriate. Some requirements in this course are not fully addressed in the Sunshine State Standards for Special Diploma.

- SS.A.1.4.4 use chronology, sequencing, patterns, and periodization to examine interpretations of an event.
- SS.B.1.4.3 use mental maps of physical and human features of the world to answer complex geographic questions.
- LA.A.1.4.2 select and use strategies to understand words and text, and to make and confirm inferences from what is read, including interpreting diagrams, graphs, and statistical illustrations.
- LA.A.1.4.3 refine vocabulary for interpersonal, academic, and workplace situations, including figurative, idiomatic, and technical meanings.

252

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- LA.A.2.4.6 select and use appropriate study and research skills and tools according to the type of information being gathered or organized, including almanacs, government publications, microfiche, news sources, and information services.
- LA.A.2.4.7 analyze the validity and reliability of primary source information and use the information appropriately.
- LA.A.2.4.8 synthesize information from multiple sources to draw conclusions.
- LA.B.2.4.1 write text, notes, outlines, comments, and observations that demonstrate comprehension and synthesis of content, processes, and experiences from a variety of media.
- LA.B.2.4.2 organize information using appropriate systems.
- LA.B.2.4.4 select and use a variety of electronic media, such as the Internet, information services, and desktop-publishing software programs, to create, revise, retrieve, and verify information.

American Government Honors

A. Major Concepts/Content. The purpose of this course is to enable students to gain an understanding of American government and political behavior that is essential for effective citizenship and active involvement in a democratic American society.

The content must include, but not be limited to, the following:

- interrelationship between American government and the American economic system
- documents that shape our political traditions, including the Declaration of Independence, the U.S. Constitution, the Bill of Rights and the Federalist Papers
- functions of the three branches of government at the local, state, and national levels
- Florida government, including the State constitution
- municipal and county government
- the evolving role of political parties and interest groups in determining government policy
- how rights and responsibilities of citizens in a democratic state have evolved and been interpreted
- contemporary political issues

253

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

After successfully completing this course, the student will:

1. Compare the structure and functions of government at all levels: national, state (Florida), municipal, and county.

- SS.C.1.4.1 understand the nature of political authority and the nature of the relationship between government and civil society in limited governments (e.g., constitutional democracies) and unlimited governments (e.g., totalitarian regimes).
- SS.C.1.4.2 understand the ideas that led to the creation of limited government in the United States (e.g., ideas of natural rights philosophy, and the concept of popular sovereignty).
- SS.C.1.4.3 understand how the overall design and specific features of the Constitution prevent the abuse of power by aggregating power at the national, state, and local levels; dispersing power among different levels of government; and using a system of checks and balances (e.g., federalism).

2. Analyze the basic principles of political organization embodied in the Constitution of the United States and the State Constitution of Florida.

- SS.C.1.4.3 understand how the overall design and specific features of the Constitution prevent the abuse of power by aggregating power at the national, state, and local levels; dispersing power among different levels of government; and using a system of checks and balances (e.g., federalism).

3. Compare the decision-making process at all levels of the three branches of government.

- SS.C.1.4.3 understand how the overall design and specific features of the Constitution prevent the abuse of power by aggregating power at the national, state, and local levels; dispersing power among different levels of government; and using a system of checks and balances (e.g., federalism).

4. Examine the influence of individuals and interest groups in the governmental decision-making process.

- SS.A.5.4.7 understand the development of federal civil rights and voting rights since the 1950s and the social and political implications of these events.

SS.C.2.4.4 understand the distinction between citizens and noncitizens (aliens) and the process by which aliens may become citizens.

SS.C.2.4.7 know the points at which citizens can monitor or influence the process of public policy formation.

9. Examine career opportunities and requirements in government service.

10. Apply research, study, critical thinking, and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

SS.A.1.4.3 evaluate conflicting sources and materials in the interpretation of a historical event or episode.

SS.A.1.4.4 use chronology, sequencing, patterns, and periodization to examine interpretations of an event.

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.B.1.4.3** use mental maps of physical and human features of the world to answer complex geographic questions.
(Note: In this course, students will have opportunities to apply skills described in language arts and mathematics benchmarks that pertain to this requirement.)

Psychology I

A. Major concepts/content. Through the study of psychology, students acquire an understanding of and an appreciation for human behavior, behavior interaction and the progressive development of individuals. This will better prepare them to understand their own behavior and the behavior of others. The content must include, but not be limited to, the following:

- major theories and orientations of psychology
- psychological methodology
- memory and cognition
- human growth and development
- personality
- abnormal behavior
- psychological therapies
- stress/coping strategies
- mental health

After successfully completing this course, the student will:

1. Recognize that the study of psychology provides an organized scientific way of understanding human behavior, growth and development.
2. Understand and appreciate the various theories or orientations which psychologists have developed to explain human behavior.
3. Understand the basic methods and techniques used by psychologists to investigate human behavior.
4. Explain the various methods by which human beings acquire specific behaviors and build those specific behaviors into appropriate patterns of behaviors.
5. Understand how information is collected, organized, processed and recalled by the brain and used to build a database of knowledge in human beings.
6. Describe the stages of psychological development and recognize the relationship between physical and chronological development and psychological development.

257

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

7. Recognize various forms of abnormal behavior, possible causes of those abnormal behaviors and modern therapies to correct abnormal behaviors.
8. Recognize the relationship between stress and psychological well being.
9. Apply research, study, critical-thinking and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

Psychology II

A. Major concepts/content. Through the study of psychology, students acquire an understanding of and an appreciation for human behavior, behavior interaction, and the progressive development of individuals. This will better prepare them to understand their own behavior and the behavior of others.

The content must include, but not be limited to, the following:

- statistical research
- psychobiology
- motivation and emotion
- sensation and perception
- states of consciousness
- psychological testing
- social psychology

After successfully completing this course, the student will:

1. Recognize the types and applications of descriptive and inferential statistics.
2. Understand the complex relationship between the physical body and human behavior.
3. Extract major principles of motivation and emotional theory to better understand one's own behavior and the behavior of others.
4. Describe the various methods by which human beings receive and process sensations and organize sensory data into meaningful wholes through which they perceive their world.
5. Recognize various states of consciousness and how they impact human behavior.
6. Understand the need for psychological testing and recognize its appropriate uses and limitations in daily life.
7. Understand theories of human interaction and the impact of attitudes, opinions and beliefs on human interaction.

258

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

8. Apply research, study, critical-thinking and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

259

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Advanced Placement Psychology

Major concepts/content. Through the study of psychology, students acquire an understanding of and an appreciation for human behavior, behavioral interaction, and the progressive development of individuals. This will better prepare them to understand their own behavior and the behavior of others. The content must include, but not be limited to, the following:

- research methodology
- biological bases of behavior
- sensation and perception
- states of consciousness
- learning
- cognition
- motivation and emotion
- developmental psychology
- personality
- theory psychological testing
- abnormal psychology
- treatment of psychological disorders
- social psychology

After successfully completing this course, the student will:

1. Understand the history of psychology as a science, the different theoretical approaches that underlie explanations of behavior and the contemporary research methods used by psychologists.
2. Recognize the relationship between biology and behavior.
3. Describe the concepts and processes related to sensation and perception.
4. Differentiate among the different states of consciousness.
5. Understand differences between learned and unlearned behavior and the similarities and differences of the basic learning processes.
6. Understand that cognitive psychology is concerned with processes involved in the transformation, reduction, elaboration, storage, recovery and use of sensory input.
7. Recognize the forces that influence the strength and direction of behavior.
8. Recognize from a life-span perspective the physical, cognitive, social and moral dimensions of development.
9. Understand the major theories and approaches to personality.
10. Compare and contrast the theories, methods and issues related to the assessment of human differences.
11. Analyze the definition, categories and diagnosis of abnormal personalities.

260

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

12. Differentiate among the approaches used by therapists of different orientations to treat mental disorders.
13. Analyze the impact of social factors on behavior.
14. Apply research, study, critical-thinking and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

Sociology

A. Major concepts/content. Through the study of sociology, students acquire an understanding of group interaction and its impact on individuals in order that they may have a greater awareness of the beliefs, values and behavior patterns of others. In an increasingly interdependent world, students need to recognize how group behavior affects both the individual and society. The content must include, but not be limited to, the following:

- methods of study employed by sociologists
- social institutions and norms
- social classes
- relationships between the sexes
- racial and ethnic groups
- societal determinants
- group behavior
- socialization process, including the transmission of group behavior
- social deviation
- social conflict
- social stratification
- social participation
- role of social organizations and institutions, including their interrelationships and interdependence

After successfully completing this course, the student will:

1. Recognize that the study of sociology provides a way of understanding human behavior and that scientific procedures are used to improve our understanding of human relationships and the problems of society.
2. Understand the characteristics of social groups, their interrelationships, interdependence and differences.
3. Define social structure and explain its significance.
4. Recognize how social needs may be met in social institutions.

261

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

5. Understand the interrelationship between values, norms and institutions, and their effects on society.
6. Identify ways people acquire beliefs, values and behavior patterns.
7. Recognize the existence of situations or conditions that are social problems and propose ways to address them.
8. Apply research, study, critical-thinking and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

World History

A. Major Concepts/Content. The purpose of this course is to enable students to understand their connections to the development of civilizations by examining the past to prepare for their future as participating members of a global community. Students will use knowledge pertaining to history, geography, economics, political processes, religion, ethics, diverse cultures, and humanities to solve problems in academic, civic, social, and employment settings.

The content must include, but not be limited to, the following:

- time-space relationships
- prehistory
- rise of civilization
- cultural universals
- development of religion and the impact of religious thought
- evolution of political systems and philosophies
- interactions between science and society
- development of nationalism as a global phenomenon
- origin and course of economic systems and philosophies
- influence of significant historical figures and events
- contemporary world affairs

This course must integrate the Goal 3 Student Performance Standards of the Florida System of School Improvement and Accountability as appropriate to the content and processes of the subject matter.

After successfully completing this course, the student will:

1. Demonstrate understanding of the influence of physical and cultural geography on the development of civilizations and nation-states.

SS.A.2.4.1 understand the early physical and cultural development of humans.

262

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.A.2.4.2 understand the rise of early civilizations and the spread of agriculture in Mesopotamia, Egypt, and the Indus Valley.
- SS.A.2.4.3 understand the emergence of civilization in China, Southwest Asia, and the Mediterranean basin.
- SS.B.2.4.1 understand how social, cultural, economic, and environmental factors contribute to the dynamic nature of regions.
- SS.B.2.4.2 understand past and present trends in human migration and cultural interaction and their impact on physical and human systems.
- SS.B.2.4.3 understand how the allocation of control of the Earth's surface affects interactions between people in different regions.
- SS.B.2.4.4 understand the global impacts of human changes in the physical environment.
- SS.B.2.4.5 know how humans overcome "limits to growth" imposed by physical systems.
- SS.B.2.4.6 understand the relationships between resources and the exploration, colonization, and settlement of different regions of the world.
- SS.B.2.4.7 understand the concept of sustainable development.

2. Demonstrate understanding of the impact of significant people, ideas, and events on the development of values, traditions, and social, economic, and political institutions of civilizations and nation-states.

- SS.A.2.4.4 understand significant aspects of the economic, political, and social systems of ancient Greece and the cultural contributions of that civilization.

- SS.A.2.4.7 understand the development of the political, social, economic, and religious systems of European civilization during the Middle Ages.
- SS.A.3.4.5 understand the significant scientific and social changes from the Age of Reason through the Age of Enlightenment.
- SS.A.3.4.6 understand transformations in the political and social realms from the Age of Absolutism through the Glorious Revolution to the French Revolution.
- SS.A.3.4.7 understand significant political developments in Europe in the 19th century.
- SS.A.3.4.8 understand the effects of the Industrial Revolution.
- SS.A.3.4.9 analyze major historical events of the first half of the 20th century.
- SS.A.3.4.10 understand the political, military, and economic events since the 1950s that have had a significant impact on international relations.

263

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

- SS.C.1.4.1 understand the nature of political authority and the nature of the relationship between government and civil society in limited governments (e.g., constitutional democracies) and unlimited governments (e.g., totalitarian regimes).
- SS.D.2.4.6 understand factors that have led to increased international interdependence and basic concepts associated with trade between nations.

264

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

3. Demonstrate understanding of current and historic events in relation to the experiences, contributions, and perspectives of diverse cultural and ethnic groups, including African-Americans and the Holocaust.

- SS.A.2.4.5 understand the significant features of the political, economic, and social systems of ancient Rome and the cultural legacy of that civilization.
- SS.A.2.4.8 understand cultural, religious, political, and technological developments of civilizations in Asia and Africa.
- SS.A.2.4.9 understand significant social, cultural, and religious features of India, and India's conflict with the Moslem Turks.
- SS.A.2.4.10 understand significant cultural, religious, and economic features of civilizations in Mesoamerica and Andean South America.
- SS.A.2.4.11 understand political and cultural features of the Mongol Empire and the Empire's impact on Eurasian peoples.
- SS.A.3.4.1 understand the significant political and economic transformations and significant cultural and scientific events in Europe during the Renaissance.
- SS.A.3.4.2 understand significant religious and societal issues from the Renaissance through the Reformation.
- SS.A.3.4.3 understand the significant economic, political, and cultural interactions among the peoples of Africa, Europe, Asia, and the Americas during the Age of Discovery and the European Expansion.
- SS.A.3.4.4 know the significant ideas and texts of Buddhism, Christianity, Hinduism, Islam, and Judaism, their spheres of influence in the age of expansion, and their reforms in the 19th century.

4. Demonstrate understanding of the processes used to create and interpret history.

- SS.A.1.4.1 understand how ideas and beliefs, decisions, and chance events have been used in the process of writing and interpreting history.
- SS.A.1.4.4 use chronology, sequencing, patterns, and periodization to examine interpretations of an event.

5. Demonstrate understanding of the interactions among science, technology, and society within global historical contexts.

- SS.A.1.4.2 identify and understand themes in history that cross scientific, economic, and cultural boundaries.
- SS.B.1.4.4 understand how cultural and technological characteristics can link or divide regions.

265

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

6. Apply research, study, critical-thinking, and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

- SS.A.1.4.3 evaluate conflicting sources and materials in the interpretation of a historical event or episode.
- SS.B.1.4.1 use a variety of maps, geographic technologies including geographic information systems (GIS) and satellite-produced imagery, and other advanced graphic representations to depict geographic problems.
- SS.B.1.4.2 understand the advantages and disadvantages of using maps from different sources and different points of view.
(Note: In this course, students will have opportunities to apply skills described in language arts and mathematics benchmarks that pertain to this requirement.)

SS.A.1.4.2 identify and understand themes in history that cross scientific, economic, and cultural boundaries.

SS.B.1.4.4 understand how cultural and technological characteristics can link or divide regions.

6. Apply research, study, critical-thinking, and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

SS.A.1.4.3 evaluate conflicting sources and materials in the interpretation of a historical event or episode.

SS.B.1.4.1 use a variety of maps, geographic technologies including geographic information systems (GIS) and satellite-produced imagery, and other advanced graphic representations to depict geographic problems.

SS.B.1.4.2 understand the advantages and disadvantages of using maps from different sources and different points of view.
(Note: In this course, students will have opportunities to apply skills described in language arts and mathematics benchmarks that pertain to this requirement.)

World Cultural Geography

A. Major concepts/content. Students develop multicultural understanding and use geographical concepts and skills to acquire information and systematically apply decision making processes to real-life situations. They will acquire an understanding of interrelationships between people and their environment.

The content must include, but not be limited to, the following:

- study of world cultural regions in terms of location, physical characteristics, demographics, historical changes, economic activity, land use

After successfully completing this course, the student will:

1. Use maps, globes, charts, graphs and other tools of geography to gather and interpret data and to draw conclusions about physical and human patterns.

269

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

2. Identify the relationships between physical geography and the economic, political, social, cultural and historical aspects of human activity.
3. Understand patterns of population growth and settlement in different cultures and environments.
4. Understand the interaction between culture and technology in the use, alteration and conservation of the physical environment.
5. Understand the interrelationships and interdependence of world cultures, races and religions.
6. Apply research, study, critical-thinking and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

Global Studies

A. Major concepts/content. Global Studies provides students with interdisciplinary knowledge, skills and attitudes necessary to meet responsibilities as citizens of their community, state and nation and prepares them to live in an increasingly interdependent and complex global society. The content must include, but not be limited to, the following:

- interdependence
- global issues
- culture
- international system
- pluralism
- transnationalism
- global economy
- ecology issues
- planetary ethics
- human-environment interactions
- movement
- cultural diffusion

After successfully completing this course, the student will:

1. Identify the major similarities and differences that exist between today's global reality and the world of the past.
2. Demonstrate the ability to objectively and critically analyze the limitations of a personal world view and the world views of other groups and cultures.
3. Demonstrate a proficiency in the academic skills required to analyze and understand the complexities of today's world.

270

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

4. Demonstrate a substantive knowledge of the major issues and challenges facing our world at the present time and in the foreseeable future.
5. Demonstrate an understanding of and an appreciation for the commonalities and differences among the peoples and cultures of the world.
6. Demonstrate knowledge of the complex nature of individual, group and national interactions in today's world.
7. Demonstrate the capability and commitment to become an active participant in the decisions effecting the present and the future of our planet.
8. Apply research, study, critical-thinking and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

271

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

277

Law Studies

A. Major concepts/concerns. Students learn that the American legal system is the foundation of American society. In order to function effectively, students examine those laws which have an impact on citizens' lives and are provided with an introduction to fundamental civil and criminal justice procedures.

The content must include, but not be limited to, the following:

- need for law
- basis for our legal system
- civil and criminal law
- adult and juvenile courts
- family and consumer law
- causes and consequences of crime
- individual rights and responsibilities
- career opportunities in the legal system

After successfully completing this course, the student will:

1. Understand the nature of law in a free society, the fundamental values underlying our justice system and the place of law in preserving order in society.
2. Understand how civil and criminal laws are made at the federal, state, and local levels of government and how these laws are employed in the various federal and state courts.
3. Examine the role that lawyers, law enforcement officers, correction officers and court officials play in our judicial system.
4. Analyze the adult criminal justice system, Florida's juvenile justice system and the rights and responsibilities afforded individuals in these systems of justice.
5. Investigate causes and consequences of crime.
6. Examine civil and criminal laws and procedures as they relate to family and consumer law.
7. Analyze the role of women and diverse cultural groups in the legal system.
8. Apply research, study, critical-thinking and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

Comprehensive Law Studies

A. Major concepts/concerns. Students learn that the American legal system is the foundation of American society. They examine the components and processes

272

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

associated with the American legal system and are provided with a comprehensive examination of the civil and criminal justice systems.

The content must include, but not be limited to, the following:

- historical antecedents for law
- reason for laws
- civil and criminal law
- social values and their impact on the establishment and interpretation of laws
- causes and consequences of crime
- comparison of adult and juvenile justice systems
- significance of the Bill of Rights to the American legal system
- family and consumer law
- rights and responsibilities under the law
- importance of the adversarial relationship in American jurisprudence

After successfully completing this course, the student will:

1. Formulate a rationale for the regulation of human behavior in society.
2. Distinguish between civil and criminal law, including the legislative process and the judicial process.
3. Analyze the stages of both a civil and criminal proceeding.
4. Evaluate the economic and social impact of civil and criminal justice.
5. Evaluate the alternatives available to the courts in sentencing offenders.
6. Investigate causes and consequences of crime.
7. Recognize the citizen's role in law making and law enforcement.
8. Describe and evaluate career opportunities available in the legal system.
9. Analyze the role of women and diverse cultural groups within the legal system.
10. Apply research, study, critical-thinking and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

Advanced Placement European History

A. Major concepts/content. Students understand the development of Europe within the context of history by examining connections to the past in order to prepare for the future as participating members of a global community. Students use knowledge pertaining to history, geography, economics, political processes,

273

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

religion, ethics, diverse cultures and humanities to solve problems in academic, civic, social and employment settings.

The content must include, but not be limited to, the following:

- the content specified by the Advanced Placement Program

After successfully completing this course, the student will:

1. Formulate generalizations about the past to develop a theory or theories on the development of contemporary European society.
2. Derive conclusions from European historical development and growth based on geographic principles.
3. Predict the probable effects of individual actions and events within a given historical period.
4. Analyze current and historic events as perceived by diverse cultural and ethnic groups.
5. Synthesize the contributions of major European nationalities and ethnic groups to form generalizations about the variety and diversity of European cultures.
6. Apply processes of critical and creative thinking to evaluate the effects of major European traditions (political, economic and social) on historical patterns of development in Europe.
7. Interpret changes that have occurred in historical development by evaluating the causes and effects of that change.
8. Formulate hypotheses on relationships among science, technology and society and their impact on historical change in European societies.
9. Evaluate the uniqueness of the European people as a synthesis of geographic, religious, political and economic factors.
10. Apply research, study, critical-thinking and decision-making skills and demonstrate the use of new and emerging technology in problem solving.

Comprehensive Law Studies

A. Major concepts/concerns. Students learn that the American legal system is the foundation of American society. They examine the components and processes associated with the American legal system and are provided with a comprehensive examination of the civil and criminal justice systems.

The content must include, but not be limited to, the following:

- historical antecedents for law
- reason for laws

Applied Social Studies

A. Major Concepts/Content. The purpose of this course is to develop an understanding of history, geography, economics, and government to enable students with disabilities to function at their highest levels and prepare to participate effectively in post-school adult living and the world of work.

The content should include, but not be limited to, the following:

- current and past historical events
- use of tools and concepts of geography
- roles of government at the local, state, and national levels
- responsible citizenship
- community resources
- consumer economics
- family, culture, and society
- career preparation

This course shall integrate the Sunshine State Standards as appropriate to the individual student and to the content and processes of the subject matter. Students with disabilities shall:

CL.A.1.In.1 complete specified Sunshine State Standards with modifications as appropriate for the individual student.

CL.A.1.Su.1 complete specified Sunshine State Standards with modifications and guidance and support as appropriate for the individual student.

B. Special Note. This entire course may not be mastered in one year. A student may earn multiple credits in this course. The particular course requirements that

276

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

the student should master to earn each credit must be specified on an individual basis. Multiple credits may be earned sequentially or simultaneously.

This course is primarily designed for students functioning at independent and supported levels. Students functioning at independent levels are generally capable of working and living independently and may need occasional assistance. Students functioning at supported levels are generally capable of living and working with ongoing supervision and support. Three levels of functioning, independent, supported, and participatory, have been designated to provide a way to differentiate benchmarks and course requirements for students with diverse abilities. Individual students may function at one level across all areas, or at several different levels, depending on the requirements of the situation. This course may also be used to accommodate the wide range of abilities within the population of students with disabilities. The particular benchmark for a course requirement should be selected for individual students based on their levels of functioning and their desired post-school outcomes for adult living and employment specified in the Transition Individual Educational Plan.

The level of functioning should be determined for each course requirement or performance objective. The key to determining the level is consideration of the amount of additional support and assistance that *must* be provided for the student. This support and assistance must be *beyond* what is typically provided for nondisabled individuals in performing the same type of behaviors or tasks. The following guidelines may be used to assist this process.

- For requirements/objectives mastered at the Independent Level, students are expected to be able to perform the behaviors identified for each benchmark *on their own* once they have mastered the knowledge and skills.
- For requirements/objectives mastered at the Supported Level, mastery should be determined with consideration of the amount and type of *guidance and support* necessary to the student to perform the behavior. This generally consists of some type of prompting or supervision.

Physical prompt—a touch, pointing, or other type of gesture as a reminder

Verbal prompt—a sound, word, phrase, or sentence as a reminder

Visual prompt—color-coding, icons, symbols, or pictures as a reminder

Assistive technology—an alarm, an electronic tool

Supervision—from occasional inspection to continuous observation

- For requirements/objectives mastered at the Participatory Level, mastery should be determined with consideration of the amount and type of *assistance* necessary to the student to participate in the performance of the behavior.
Physical assistance—from a person, such as full physical manipulation or partial movement assistance

277

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

Assistive technology – full: props, bolsters, pads, electric wheelchair;
partial: straps, lapboards, adapted utensils

The performance objectives are designed to provide teachers with ideas for short-term objectives for instructional planning. The performance objectives are not intended to be exhaustive of all the possible short-term objectives a student may need in this multiple credit course. Other objectives should be added as required by an individual student. Instructional activities involving practical applications of course requirements may occur in naturalistic settings in home, school, and community for the purposes of practice, generalization, and maintenance of skills. These applications may require that the student acquire the knowledge and skills involved with the use of related technology, tools, and equipment.

C. Course Requirements. These requirements include, but are not limited to, the benchmarks from the Sunshine State Standards for Special Diploma that are most relevant to this course. Benchmarks correlated with a specific course requirement may also be addressed by other course requirements as appropriate. Some requirements in this course are not fully addressed in the Sunshine State Standards for Special Diploma.

After successfully completing this course, the student will:

1. Demonstrate understanding of how individuals are affected by current events in the community, state, nation, and world.

Indicate guidance and support necessary for mastery at supported level:

physical prompt verbal prompt visual prompt
 assistive technology supervision other: _____

1.1. Demonstrate knowledge of historical implications of selected current events.

Specify: local Florida
 United States international

1.2. Demonstrate awareness of current events that are related to social problems.

Specify: local Florida
 United States international

1.3. Demonstrate awareness of current events that are related to the economy.

Specify: local Florida

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.

3.3. Identify characteristics and uses of various kinds of flat maps, globes, and other geographic tools. (CL.B.1.In.1, CL.B.1.Su.1)

Specify: state maps regional maps political maps
 aerial photos globes grid maps
 other: _____

3.4. Find specified points or areas using a map when completing functional tasks (e.g., traveling in unfamiliar areas, locating a destination). (CL.B.4.In.2, CL.B.4.Su.2)

Specify: city or state map world map
 regional map atlas
 United States map other: _____

3.5. Locate a specific place using maps and floor plans. (Reading F 27: VI)

3.6. Identify uses of maps in the school, the workplace, and in daily life to solve problems (e.g., to find a delivery route, to navigate a boat, to pinpoint an emergency situation, to find a place for a vacation, to travel to a new place in the community). (CL.B.4.In.1, CL.B.4.Su.1)

3.7. Identify information conveyed in simple charts and graphs when solving problems related to social studies (e.g., identifying populations of a region, finding mileage between two cities). (CL.B.4.In.1, CL.B.4.Su.1)

Specify: bar graph temperature chart
 pie chart mileage chart
 table street index
 other: _____

3.8. Obtain information from charts, graphs, and schedules. (Reading F 24: VI)

3.9. Demonstrate awareness of the use of standard time zones and daylight savings time in the United States (e.g., Eastern, Standard, Eastern Daylight, Central Standard, Central Daylight).

3.10. Follow a systematic approach when using maps, globes, charts, graphs, and other tools of geography to solve problems. (CL.B.4.In.1, CL.B.4.In.2, CL.B.4.Su.1, CL.B.4.Su.2)

Specify: determine what information is needed
 select correct tool and technique
 apply tool or procedures to obtain result
 check results for accuracy and reliability

Requirements for

Braille Textbook Production

INSTRUCTIONS FOR PREPARING COMPUTER DISKETTES REQUIRED FOR AUTOMATED BRAILLE TEXTBOOK PRODUCTION

STATUTORY AUTHORIZATION

Section 1003.55, Florida Statutes, states that, "...any publisher of a textbook adopted pursuant to the state instructional materials adoption process shall furnish the Department of Education with a computer file in an electronic format specified by the Department at least 2 years in advance that is readily translatable to Braille and can be used for large print or speech access. Any textbook reproduced pursuant to the provisions of this subsection shall be purchased at a price equal to the price paid for the textbook as adopted. The Department of Education shall not reproduce textbooks obtained pursuant to this subsection in any manner that would generate revenues for the department from the use of such computer files or that would preclude the rightful payment of fees to the publisher for use of all or some portion of the textbook."

OBJECTIVE

Electronic text (etext) is needed to accelerate the production of textbooks in Braille and other accessible formats through the use of translation software. Some embedded publisher formatting commands help speed the conversion of English text to Braille or other accessible formats. Therefore, the objective of these instructions is to prompt publishers to provide textbook data in a format that will be useful to Braille and other accessible format producers while at the same time allowing each publisher the flexibility of using existing composition or typesetting systems. Publishers may produce etext files in one of three formats, as shown in the specifications below.

By April 1, 1998, publishers of adopted student textbooks for literary subjects must be able to provide the computer diskettes **UPON REQUEST**. Publishers shall provide nonliterary subjects when technology becomes available for the conversion of nonliterary materials to the appropriate format.

The requested computer diskettes shall be provided to the Florida Instructional Materials Center for the Visually Impaired (FIMC), 5002 North Lois Avenue, Tampa, Florida 33614; (813) 872-5281; in Florida WATS (800) 282-9193 or (813) 872-5284 (FAX). The center will contact each publisher of an adopted textbook and provide delivery instructions.

326

Note: Submissions must include correlations to the appropriate Sunshine State Standards and Benchmarks. Although the Grade Level Expectations have been included in Appendix A/ Curriculum Requirements, they remain, rather, a *guidance* and the basis for grade level assessments.
