ABSTRACT

This reference guide was designed to assist business, marketing, and management educators in locating textbook/instructional materials for use in teaching duty areas and task lists for grades 11-14. Duty areas and task lists are matched with selected textbook/instructional publications for the secretarial, general office clerk, and information processing curriculum clusters. Sixteen duty areas are included from these three clusters: (1) preparing client documents; (2) preparing court documents; (3) taking and transcribing dictation; (4) editing and correcting documents, records, and files; (5) coordinating and performing activities for employer; (6) filing materials manually; (7) performing financial activities; (8) inputting and storing documents and files; (9) preparing medical records and insurance forms; (10) maintaining office equipment; (11) maintaining office supplies and forms; (12) organizing and planning; (13) printing, distributing, and receiving output; (14) performing clerical activities; (15) processing mail; and (16) typewriting activities. A master list of 195 sources of data is included. A matrix of the 195 textbook/instructional materials classified by duty area is included. The bulk of this document contains selected duty areas and task lists identified with the 195 textbooks/instructional materials. Each entry includes these elements: (1) author's last name; (2) complete reference and reference number; (3) textbook/instructional materials number; and (4) duty area(s), its task name, and its page or job number in the source. PREFACE

The Reference Guide is part of the Illinois Plan for Business, Marketing and Management Education. The guide was developed to assist secondary, postsecondary and adult occupational teachers in locating textbook/instructional materials for use in teaching selected duty areas and task lists which are part of the Education for Employment System.

The duty areas and task lists utilized were selected from those prepared under contract with the Illinois State Board of Education/Department of Adult, Vocational and Technical Education ("Illinois Competency Based Vocational Education Project," contract number PS-10-130).

The guide was produced through the efforts of business, marketing and management educators and personnel of publishing companies who supplied the textbook/instructional materials. The contributions of these educators and publishers are to be commended.

SELECTED DUTY AREAS AND TASK LISTS IDENTIFIED WITH TEXTBOOK/ INSTRUCTIONAL MATERIALS	23

INTRODUCTION

This Reference Guide was designed and prepared to assist business, marketing and management educators in locating textbook/instructional materials for use in teaching duty areas and task lists. Duty areas and task lists are matched with selected textbook/instructional publications for the Secretarial, General Office Clerk and Information Processing curriculum clusters.

The duty areas and task lists utilized were taken from the Illinois

State Board of Education/Department of Adult, Vocational and Technical Education (ISBE/DAVTE) Education for Employment Task Lists. The textbook/instructional materials used are copyrighted materials from publishing companies which service the business, marketing and management education areas. The Reference Guide primarily includes preparation level textbook/instructional materials typically taught in grades 11-14. Orientation level information usually offered in grades 9-10 is generally not included.

Sixteen duty areas are included from the Secretarial, General Office Clerk and Information Processing curriculum clusters. The 16 duty areas selected are:

- A. Preparing Client Documents
- B. Preparing Court Documents
- C. Taking and Transcribing Dictation
- D. Editing and Correcting Documents, Records and Files
- E. Coordinating and Performing Activities for Employer
- F. Filing Materials Manually
- G. Performing Financial Activities
- H. Inputting and Storing Documents and Files
- I. Preparing Medical Records and Insurance Forms
- J. Maintaining Office Equipment
- K. Maintaining Office Supplies and Forms
- L. Organizing and Planning
- M. Printing, Distributing and Receiving Output
- N. Performing Clerical Activities
- O. Processing Mail
- P. Typewriting Activities

Introduction

These 16 duty areas are primarily skill development in nature; the duty areas excluded are generally managerially oriented. Therefore, the 16 duty areas included in the Reference Guide are primarily to help prepare for functioning in an office but not to prepare for being an office manager.

To reduce or eliminate duplication of tasks, all task lists for duty areas common to Secretarial, General Office Clerk and Information Processing curriculum clusters are combined into a single condensed task list. For example, if a task is included in more than one curriculum cluster, textbook/instructional material is recommended for use in teaching that task in all identified curriculum clusters.

An informal survey of several business, marketing and management education teachers indicated a unanimous preference for a single condensed list to assist in selection of textbcok/instructional materials for use in teaching various duty areas and task lists. The single condensed task list provides a more usable and efficient Reference Guide.

A list of publishers was developed from rosters of convention exhibitors, library information, suggestions from business, marketing and management teachers and personal knowledge of the arca. Publishers were contacted by telephone, by letter and in person.

Requests for examination copies of materials did not identify specific publications. Personnel of publishing companies provided the materials they considered appropriate for use in teaching the 16 duty areas. A limited number of textbooks were received which were primarily orientation level, and some were managerially oriented and more appropriate for higher level instruction. These publications are included in the Reference Guide.

Introduction

Generally textbook/instructional materials are for regular curriculum usage as opposed to special needs curricula.

Several business, marketing and management teachers assisted with preparation of the Reference Guide by matching duty area and task lists with textbook/instructional materials. Individual worksheets matching duty area and task lists with textbook/instructional materials were prepared for each publication.

Major components of the <u>Reference Guide for Teaching Selected Duty Areas</u> from <u>Business, Marketing and Management Occupations</u> are a master list of sources of data from publishers, a matrix of textbook/instructional materials showing the duty areas included, and a reference section indicating duty areas and tasks included in each publication.

MATRIX OF TEXTBOOK/INSTRUCTIONAL MATERIALS CLASSIFIED BY DUTY AREA

How to Read Matrix

In the Matrix a number is assigned to each book, and a letter is assigned to each duty area. The number assigned to a book is the same number assigned to that book in the Master List of Sources of Data (page 4). letters assigned to duty areas are as follows:

- A. Preparing Client Documents
- B. Preparing Court Documents
- C. Taking and Transcribing Dictation
- D. Editing and Correcting Documents, Records and Files
- E. Coordinating and Performing Activities for Employer
- F. Filing Materials Manually
- G. Performing Financial Activities O. Processing Mail
- H. Inputting and Storing Documents and Files

- I. Preparing Medical Records and Insurance Forms
- J. Maintaining Office Equipment
- K. Maintaining Office Supplies and Forms
- L. Organizing and Planning
- M. Printing, Distributing and Receiving Output
- N. Performing Clerical Activities
- P. Typewriting Activities

For example, Book 1 in the Matrix (page 18) refers to the first listing in the Master List of Sources of Data:

Albertson, D., & Hoyt, C. F. (1989). RPM Unlimited: A business machines practice set (3rd ed.). New York: Gregg Division/McGraw-Hill.

This book includes materials which may be utilized in teaching the duty areas indicated in the Matrix with an "x." Following the letter assignment listed above, the duty areas found in Book 1 are: (D) Editing and Correcting Documents, Records and Files, (G) Performing Financial Activities, (H) Inputting and Storing Documents and Files, (M) Printing, Distributing and Receiving Output and (N) Performing Clerical Activities.

Publishers supplied a few publications which did not completely comply with criteria for inclusion. These publications were not directly identified with any specifc duty area but are included in the Matrix with the notation "not applicable" entered under Duty Area. For further information consult the listing for these publications in the Selected Duty Areas and Task Lists Identified with Textbook/Instructional Materials portion of the guide.

SELECTED DUTY AREAS AND TASK LISTS IDENTIFIED WITH TEXTBOOK/INSTRUCTIONAL MATERIALS

How to Read

A standard format is utilized for identifying the selected duty areas and task lists covered in the textbook/instructional materials. All pages begin with the header "Duty Areas/Task Lists/Instructional Materials." At the top right on the header line is a number and name identifying the publication being reviewed. The number refers to the number of publication in the Master List of Sources of Data, and the name refers to the last name of the first author of each publication.

The reference lines on the first page for each publication include a complete bibliographical reference plus an identification of the type of publication (for example, application or simulation) and the number of pages or jobs in the publication when possible. The ISBN number was included when available. The primary portion of the first page for each publication includes a list of all duty areas included in the Reference Guide. Each duty area is marked with an "X" in the "YES" column if the publication includes material which may be useful in teaching part or all of the tasks included in the duty area. If no material was located in the publication for use in teaching any part of the duty area, an "X" is placed in the "NO" column. If the publication does not include instructional material for any of the duty areas included in the Reference Guide, a note at the bottom of the page gives a brief explanation of what is included in the publication.

The second and all succeeding pages for each publication match the duty areas and task names with page numbers, job numbers or packet numbers identifying location in the publication where material may be located for instructional use. Duty areas and task names are included in this portion of the guide only if instructional material is included in the publication. Some books include material which may apply to more than one curriculum cluster. For example, some typewriting books include material which may also be utilized in information processing; however, the books may or may not provide information on how to use the material in an information processing class. In the duty areas "Inputting and Storing Documents and Files" and "Typewriting Activities," keying from printed copy (arranged or unarranged) may be included under the task "Key 'or Type) from longhand or edited rough draft."

This is a 20-day simulation with certain daily and weekly duties repeated. Much of the instruction comes from reading the file on screen. A more complete evaluation could have been made had software been made available.
