ABSTRACT

This document presents a report on the Minnesota Technical College System's Library and Media Services. All 34 technical colleges were given a survey to prepare, a Library Advisory Board was established, and relevant literature and standards were reviewed to conduct and obtain data for this study. The report begins with the mission, values, and goals of the library/media centers. Section I reports the survey findings on the following topics: total library/media services per campus, including public service outlets, total number of staff, total operating expenses, total collection amount, total services, service per typical week, and total footage. Section II presents an integrated plan for library/media services, including objectives and goals for instructional technology; multimedia authoring; barrier free technology; Internet/e-mail; delivery systems; staff, curriculum, and collection development; electronic access; and resource sharing. Section III covers budget allocations. Section IV discusses the creation of new library/media facilities. Finally, Section V examines invested interests in technical college library/media centers. TABLE OF CONTENTS

EXECUTIVE SUMMARY

MISSION, VALUES AND GOALS

SECTION I SURVEY FINDINGS

Total Library/Media Services per campus:

- Public Service Outlets
- Total Number of Staff
- Total Operating Expenses
- Total Collection Amount
- Total Service FY '93
- Services Typical Week
- Total Footage

Library/Media Services per campus:

Part A:	Public Service Outlets
	Branch and Independent Libraries
Part B:	Total Number of Staff
	Librarians and other Professional Staff
	All Other Paid Staff
	Student Assistants
Part C:	Total Operating Expenses
	Salaries and Wages
	Other Paid Staff
	Student Assistants
	Collections
	Current Serials

Microform
 Audio-Visual Materials
 Machine-Readable Materials
 Supplies (Other)
 Preservation
 Furniture and Equipment
 Other Purchased Services
 Part D: Total Collection Amount
 Books (Volumes)
 Books (Titles)
 Reference Titles
 Current Serial Subscriptions
 Serial Titles
 Microfilm Titles
 Machine Readable Software Titles
 Film Titles
 Video Titles
 Audio Materials Titles
 Part E: Total Services
 Circulation Transactions
 Reserve Collection
 Interlibrary Loans (requests)
 Received from other Libraries (referrals)
 Information Service to Groups
 Number Served in Presentations
 Part F: Service Per Typical Week
 Public Service Hours/Week
 Gate Count/Week
 Reference Transactions/Week
 Part G: Total Footage
 Total Size of Library/Media Center Facilities

SECTION 2 AN INTEGRATED PLAN FOR LIBRARY/MEDIA SERVICES

Objectives and Goals for:
Instructional Technology
Multi Media/Authoring
Barrier Free Technology
Internet/E-Mail
Delivery Systems
Staff Development
Curriculum Development
Collection Development
Electronic Access
Resource Sharing

SECTION 3 BUDGET STANDARDS AND ALLOCATIONS

Budget Allocations - Minnesota Technical College System
Minnesota Community College System

SECTION 4 NEW LIBRARY/MEDIA CENTER FACILITIES

CO-LOCATED CAMPUS LIBRARY/MEDIA CENTER FACILITIES

SECTION 5 INVESTED INTERESTS IN TECHNICAL COLLEGE LIBRARY/MEDIA CENTERS

EXECUTIVE SUMMARY

INTRODUCTION

This report has been prepared for the Minnesota Technical College System. For this project all Technical Colleges in Minnesota were given a survey to prepare, a Library Advisory Board was established with representatives from Technical Colleges and a review of relevant literature and standards were used to conduct the survey and report. Change factors contributed to the need for this study:

1. the North Central accreditation process
2. the merger of the higher education institutions
3. the connectivity with PALS
4. the use of various technologies in delivery of services

SURVEY FINDINGS

The survey findings examines the following areas in Library/Media services: (1) staffing (2) operating expenses (3) collection development (4) services (5) and facilities. It reports the need for libraries to begin collecting data on patron/library interface so that internal progress toward improvement might be measured and also to serve as true benchmarks for the library profession.

AN INTEGRATED PLAN FOR LIBRARY/MEDIA SERVICES

"The structure and function of a learning resources program in each institution obviously has been determined by the role assigned within the institutional structure. This role must be consistent with the stated mission of the institution. It must also be related realistically to the institution's educational goals, curricula, size and complexity, as well as the diversity of resources needed to accommodate different modes of learning." *"Standard for community, junior and technical college learning resources programs." ACRL NEWS, September 1990.*

The objectives and goals are intended to guide the planning of libraries and to give some direction for Technical Colleges without libraries.

BUDGET STANDARDS AND ALLOCATIONS

Survey data and state allocations indicate that expenditures are a small percentage of the minimum amount recommended in national standards. The findings show that total expenditures amount to 1.78%. The percentage for the national standard is 6%.

NEW LIBRARY/MEDIA CENTER FACILITIES AND CO-LOCATED CAMPUS LIBRARY/MEDIA CENTER FACILITIES

Technical College students do not have equal access to Library/Media services. With the higher education merger, the development of connectivity to PALS and with future cooperative agreements and policies in place, the technical college communities access to information will be enhanced.

INVESTED INTERESTS IN TECHNICAL COLLEGE LIBRARY/MEDIA CENTERS

Technology must play a vital role in meeting the demand for a more productive education system. Linking the emerging technologies into the classroom, outside campuses, communities and globally provides students with access to information outside the four walls of the Library/Media Center and of the institution. What kind of outcomes result from effective partnership?

- * Outcomes that empower teachers
- * Outcomes that expand student learning and cognitive thinking skills
- * Outcomes that nurture cooperative services and collaboration

MISSION

It is the mission of the Library/Media Centers in Minnesota Technical Colleges to provide information, materials and services while using modern technology to ensure access to unique collections. As a facility for information, instruction and research, centers will strive to maintain the integrity, trust, and level of services expected by our customers.

1/24/94

VALUES

The professional Library/Media personnel share common values of:

Instructional/informational services through;

- * empowerment for life long learning skills
- * uniqueness of collection development
- * support of faculty and student training and curriculum research

Access to resources through;

- * use of technological advancement
- * integrated systems
- * collaboration/cooperation/partnerships

Information management through;

- * competency in seeking information
- * leadership opportunities
- * accountability

GOALS

1. Support learning/teaching activities for students and faculty through instruction, use of modern technology and maintaining diverse and unique collections.
2. Establish and maintain a networking system allowing us to share resources by providing ready access to materials.
3. Enhance the development and recognition of library/media staff to support the institution, its faculty, students and the community.

Section II

An Integrated Plan for Library/Media Services

MINNESOTA TECHNICAL COLLEGE SYSTEM

An Integrated Plan for Library/Media Services

OBJECTIVES FOR
INSTRUCTIONAL TECHNOLOGY

Instructional Technology

INSTRUCTIONAL TECHNOLOGY

PURPOSE STATEMENT

To integrate new instructional technologies into the curriculum and to promote learning through the academic program of the institution, fully supporting and empowering continuous improvement to teaching and learning.

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)	TIME LINES
* To provide access to the campus and community through networking, resource sharing, on-line services and various electronic technology.	Ongoing
* To provide for assorted technological equipment and materials which can be checked out; new hardware formats include such items as: scanners, camcorders, laptop computers with modems, overhead LCD display panels, portable multi-media units, etc.	1994-96
* To provide for updated computer software for programmed learning and for the development of basic skills to be used for creative research activities.	Ongoing
* To develop a shared technology infra-structure encompassing every aspect of the college system from the classroom to the administration.	1994-96
● MNET connection.	
* Via Voice Mail and E-Mail systems information can be delivered to students assigned with a private mail box number.	1994-96
* Through wireless connectivity - laptop computers or cellular phones students and staff can have campus information available at all times.	1994-96

INSTRUCTIONAL TECHNOLOGY CONTINUED

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)	TIME LINES
<p>* Encourage and support staff in the utilization of the Media Center by providing resources, new technology, training and technical support such as:</p> <p style="padding-left: 40px;">CD-ROM's and Multi Media Interactive workstations Online Services, Bulletin Boards, Databases Supporting print materials and updates</p>	Ongoing
<p>* Create training software programs for staff development and student organizations.</p>	1994-96
<p>* Develop a training component for information technology and information access in every program utilizing a new instructional technology format.</p>	1994-96
<p>* Virtual libraries - libraries of the future providing notebook computers with access to electronic reference materials to use virtual reality technology.</p>	1995-96

OBJECTIVES FOR MULTI MEDIA TECHNOLOGY

Multi Media Technology

**MULTI MEDIA / AUTHORIZING
(INTEGRATED LEARNING SYSTEMS)**

PURPOSE STATEMENT

To provide resource assistance to faculty who are designing or utilizing the technology based instructional equipment and software.

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)

	TIME LINES
* Representatives from the Technical College System toured Maricopa Community College System in Arizona and Waco, Texas as well as other conference sites.	1993-1995
* To develop a plan for utilizing technology in the Media Center/Campus wide; i.e., technology committees developed.	Ongoing
* Funding distributed to enhance the Technical Colleges with instructional technology endeavors: *South Central Technical Colleges - Mankato, Albert Lea.....\$500,000 *Duluth Technical College.....\$450,000 *Anoka Technical College.....\$450,000 *Northeast Metro & Lakewood Community.....\$450,000 *Minneapolis Technical College.....\$230,000 *St. Paul Technical College.....\$250,000 *Other Technical College/Campuses.....\$ 70,000 each	1994-95
* Begin to develop a standardization of equipment and software (1) local, (2) regional, (3) statewide.	1995-96

OBJECTIVES FOR BARRIER FREE TECHNOLOGY

BARRIER FREE TECHNOLOGY

PURPOSE STATEMENT

To provide for the diverse needs of students, staff and community population through the use of new technology formats.

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)		TIME LINES
*	Provide current information about innovative uses of technology for students and staff with disabilities.	Ongoing
*	Develop a plan with the Special Needs Areas and Occupational Skills Program to provide barrier free access to information through innovative uses of technology.	Ongoing
*	Begin to identify needs and research equipment possibilities to enhance learning for the disabled.	1994-96
*	Identify and purchase appropriate software and hardware to improve outcomes for students with disabilities.	1994-96
*	Provide training and staffing in the use of the equipment and software.	1994-96

OBJECTIVES FOR INTERNET/E-MAIL

INTERNET / E-MAIL / ON-LINE SERVICES

PURPOSE STATEMENT

To provide a strong emphasis on the utilization of existing and emerging information highways to access state, national and international databases.

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)	TIME LINES
<p>* Accessibility of an array of information through on-line electronic database services.</p> <p style="padding-left: 40px;">Dialog Service/On-line Services PALS, LUMINA, Etc. INTERNET</p>	<p>Ongoing PALS 1994 - 1996 Internet 1994 - 1996</p>
<p>* Enhance student learning and higher order of thinking skills through the use of various electronic formats; such as:</p> <p style="padding-left: 40px;">X-Press News Bulletin Bulletin Boards E-Mail</p>	<p>Ongoing</p>
<p>* Internet networked throughout the staff's workstations and student lab computer areas.</p>	<p>1994 - 1996</p>
<p>* Staff development training/student orientations and other community workshops on Internet, Bulletin Boards and E-Mail.</p> <p style="padding-left: 40px;">Presentations for Business and Industries On-Line Training Manuals for assistance Staff Development Awareness Brochures Computerized Training Courses</p>	<p>Ongoing</p>

OBJECTIVES FOR DELIVERY SYSTEMS

DELIVERY SYSTEMS

PURPOSE STATEMENT

To provide a unique opportunity for distance learning through the use of alternative delivery systems. Integrating data and voice providing an infrastructure which will enhance student learning.

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)	TIME LINES
<p>* To establish an integrated model within the Media/Technology Center provided through an open environment, utilizing additional interactive sites.</p>	1994-96
<p>* Open access to:</p> <ul style="list-style-type: none"> Utilizing the telecommunications system to research new software for accessing expertise. Access to satellite programs utilizing local cable systems. Desktop video conferencing systems between computer environments, local and distant. Groupware allows users in a computer networked environment to jointly author, share and move electronic documents as a team project Video courses to be checked out for credit to enhance individual continuing education. Access to computer related programs for continuing education, i.e., Mind Extension University. 	Ongoing 1994-96 Ongoing
<p>* Via cable TV programs and instruction can become accessible to homes, businesses & public environments.</p>	1995-96 1995-96 1995-96 Ongoing

OBJECTIVES FOR STAFF DEVELOPMENT

Staff Development

STAFF DEVELOPMENT

PURPOSE STATEMENT

To design and implement a Staff Development Plan which focuses on teaching and learning through the use of information and the utilization of instructional technology.

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)	TIME LINES
* To create a framework for the use of technology that is firmly grounded in the mission of the campus.	Ongoing
* To be involved with the Staff Development Committee and the need for technology based training.	Ongoing
* Provide for Staff Development supportive materials, i.e., ERIC on CD-ROM, addition of higher education journals, INTERNET and other databases.	Ongoing
* Develop a needs assessment component to ensure new instructors and staff are adequately trained on the new technologies. Workshops/Orientations Brochures Training Manual Create a supportive training course utilizing instructional technology aides.	Ongoing
* Coordinate training activities with other higher education systems to collaboratively work on continuing education courses.	1994-96

OBJECTIVES FOR CURRICULUM DEVELOPMENT

Curriculum Development

CURRICULUM DEVELOPMENT

PURPOSE STATEMENT

To work with instructors, Campus Curriculum Committees and General Studies/General Education Committees exploring various learning techniques to meet the needs of students in acquiring information.

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)	TIME LINES
* Support life long learning experiences that encourage user skills and creative knowledge for retrieving information through student orientations of the Media Center.	Ongoing
* Develop student orientation brochures and handbooks for Library/Media Services training.	Ongoing
* Survey the students needs by departments and begin an assessment plan for student and faculty outcomes.	Ongoing
* Support faculty curriculum needs with expertise in curriculum design; i.e., computer courses, and utilizing collections of unique materials, electronic indexes and full texts.	Ongoing
* Develop a 1 credit technology course offered both for continuing education and elective offering, or implement a component within each program to develop technology based information skills.	Ongoing

OBJECTIVES FOR COLLECTION DEVELOPMENT

Collection Development

COLLECTION DEVELOPMENT

PURPOSE STATEMENT

To support the curriculum of the various programs within the college with print and non-print materials, focusing on the unique technical areas.

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)	TIME LINES
* Collecting and purchasing unique materials in the technical areas, i.e., Small Engine Repair, Jewelry Manufacture, Locksmithing, Neon Sign Fabricating Gunsmithing, Taxidermy, Security Management, etc.	Ongoing
* To provide a strong foundational base of technical reference materials using CD-ROM resources and full text graphic databases	Ongoing
* Utilize electronic indexing for periodicals and full text materials.	Ongoing
* Expansion of diversity resources, staff development materials and self-paced instructional aides.	Ongoing
* Expand access to remote users through Wide Area Networking capabilities to CDROM's used in technical program areas	1994-96
* Collection Development policies locally, regionally and statewide.	1994-96

OBJECTIVES FOR ELECTRONIC ACCESS

Electronic Access

ELECTRONIC ACCESS

PURPOSE STATEMENT

To provide searching capabilities for resources through electronic means compatible with other higher education institutions.

GOALS AND OBJECTIVES: (PAST, PRESENT & FUTURE)	TIME LINES
* Automated circulation/cataloging systems. (see the following pages for the library automation status on each campus)	1990 - 1994
* Networked automated circulation/cataloging system throughout the college campus.	Ongoing
* Partnerships in regional based CDROM's for resource information	Ongoing
* Subscribers to On-Line database services through modem connectivity.	Ongoing
* PALS Automated Library Systems Project terminal installed.	1994-95
* Full participation in PALS with retrospective conversion of materials enabling Technical College Media Centers to become equal players with other higher education institutions.	1994-96
* OCLC cataloging and training.	Ongoing

Budget Allocations

BUDGET STANDARDS AND RECOMMENDATIONS

"Accurate accounts of expenditures and management carrying full responsibility for expenditures is necessary for fiscal accountability, for monitoring status of accounts, for decision making and for planning." "Learning resources budget as % of educational and general expenditures - 6% minimum." "Standards for community, junior and technical college learning resources programs." *College and Research Libraries News, September 1990.*

Minnesota Technical College System Total Expenditures:

\$81 - Staff

\$20 - Net Supplies

\$26 - Net Equipment

TOTAL \$127 - cost per student or 1.78%

Minnesota Community College System Total Expenditures

\$170 - cost per student or 3.85%

Section IV

New Library/Media Center Facilities or Co-Located Campus Library/Media Center Facilities

COST ANALYSIS:

**PROVIDING FOR A NEW MEDIA CENTER FACILITY
ON A TECHNICAL COLLEGE CAMPUS**

Attached is an example of funding for Library/Media Center Services on a specific campus of a Minnesota State Technical College. The figures for expenditures are only a model and can be altered to meet the campus needs. This can be accomplished by transferring equipment and materials from other areas within the building to help support the new facility on campus.

COST ANALYSIS
PROVIDING FOR A LIBRARY/MEDIA CENTER
ON A CAMPUS

BUDGET ALLOCATION: \$169,013 (1994-95)

Staffing Allocation: \$98,475

* Includes Media/Telecommunication personnel

Supply Allocation: \$22,949

Equipment: \$47,588

SQUARE FOOTAGE PER CAMPUS: (Library Space only - this can be expanded when utilizing adjoining telecommunication site or multimedia/instructional technology site)

Total Square Footage of Library: 2250 sq. ft.

Stack Footage: 925 sq. ft.

Office Workroom: 200 sq. ft.

Seating & other: 1125 sq. ft.

Seating Capacity: approx. 46

(5) Tables = 20

(1) Information Center = 4

(12) Computer Flex Lab area - optional = 12

(1) Personal reading area = 6

(4) Quiet Study Carrels = 4

Other: VCR/TV

Express Cable News area

Reference area

Circulation/Check-out area

EQUIPMENT:

INFORMATION CENTER:

- (1) MultiMedia/Interactive Site - 486 DOS Computer with Sound Board, Speakers, Built in CDROM Unit, 15" monitor (Stand alone -networked when expansion occurs)
