ABSTRACT

This annual publication of the West Virginia State College and University System provides information related to enrollment, degrees conferred, faculty, and finances of the 16 public institutions of higher education in West Virginia. It also includes selected statistics on 10 independent colleges and universities in the state. Data tables comprise the bulk of the report and are listed within four chapters. The first chapter covers enrollment statistics that summarize enrollment data for the three enrollment periods and various combinations of data on enrollment, course taxonomy, student level, and demographic factors. Five and 10-year trends are also identified. The second chapter presents analyses of the degrees conferred and the teacher certifications awarded during the 1992-93 academic year by the public and independent institutions of higher education in the state. The third chapter presents faculty characteristics and average salary figures at each West Virginia public institution by highest degree and faculty rank. The fourth chapter presents fiscal data including current operating and capital revenues and expenditures and student fees. (MDM)

## PREFACE

Statistical data on the enrollment, degrees conferred, faculty, and financing of West Virginia public higher education was first compiled in the early 1970's. Since 1982, this information, together with data from the state's independent colleges and universities, has been published in its present form as The Statistical Profile of Higher Education in West Virginia.

While the tables contained in this document only begin to depict the characteristics of West Virginia's twenty-six colleges and universities, the following pages offer insight into various dimensions of students, programs and degrees, faculty, and finances. Five and ten-year trends indicate enrollment growth and progress in such areas as student access and diversity. Both the University System Board of Trustees and the State College System Board of Directors believe this kind of information is vital to their decision-making.

This publication would not be possible without the continuing cooperation of numerous personnel at each of the sixteen public and ten independent institutions of higher education in the state. The data these individuals provide form the basis for the tables in this report. All data presented in these tables reflect information contained in Central Office files as of February 1994.

## CHAPTER 1 Enrollment

The tables which follow summarize data submitted by West Virginia's public and independent institutions of higher education. Various information is collected throughout the entire academic year. This chapter illustrates this information for the three enrollment periods during the year, and additionally, attempts to show data by the numerous indicators reported. Five and ten-year trends have also been included.

### Highlights of Public College and University Data

#### Fall 1993

- Credit headcount enrollment was 77,488; 10,131 of these students were 1992-93 high school graduates.
- Full-time equivalent enrollment was 60,733.
- Fifty-five percent of the total student enrollment was female and 45% was male.
- Approximately one-third of all students were enrolled part-time.
- Eighty-three percent of students reported were enrolled in undergraduate programs.
- Total enrollment included approximately 5% minority students.
- The average age for undergraduate students was 24, while the overall age for all students was 25.9.

Definitions of the various enrollment categories used by the Central Office of the State College and University Systems appear on the following page.

## DEFINITIONS

**Career-Technical Student-A** lower-level undergraduate enrolled in a postsecondary certificate, diploma, or associate degree program of less than four years which prepares for immediate employment.

**First-Professional Course-A** course designed primarily for students enrolled in a program leading to a first professional degree.

**First-Professional Student-A** student enrolled in a program leading to the first professional degree in Dentistry (D.D.S.), Law (J.D.), Medicine (D.O. or M.D.), or Pharmacy (Pharm.D.).

**First-Year Graduate Student-A** graduate student who is enrolled in a master's degree program or who has completed fewer than 36 semester hours of graduate credit.

**Foundation Level Course-A** course which is preparatory for admission to a career-technical, college transfer, or four-year or five-year bachelor's degree program.

**Full-Time Equivalent (FTE) Student-A** statistic derived from the student credit hour output of an institution.

**A. Undergraduate FTE:** the equivalent number of students derived by dividing by 15 the total undergraduate student credit hours produced per semester in foundation, lower-level, and upper-level courses.

**B. First Professional FTE:** the equivalent number of students derived by dividing by 15 the total first professional student credit hours produced per semester in first professional courses (Law and Pharmacy only).

**C. Graduate FTE:** the equivalent number of students derived by dividing by 12 the total graduate student credit hours produced per semester in graduate courses.

**D. Medical FTE:** the same as the headcount enrollment (Dentistry and Medicine only).

**Graduate Level Course-A** course designed for students enrolled in a graduate degree program and normally limited to students holding a bachelor's degree.

**Graduate Level Student-A** student enrolled in a master's or doctoral degree program other than the first professional degree programs in Dentistry, Law, Medicine, and Pharmacy.

**Credit Headcount Enrollment-A** physical count of students enrolled in one or more courses for credit.

**In-State Student-For West Virginia** public institutions, a student who is paying in-state fees, excluding those involved in an SREB Common Market, Reciprocity, or Metro program; for West Virginia independent institutions, a student who lists WV as the permanent address prior to enrolling in the institution.

**Lower-Level Student-A** undergraduate enrolled in a postsecondary career-technical, certificate, diploma, or associate degree program, in a two-year college transfer program, or in a four-year or five-year bachelor's degree program who has not completed the sophomore year.

**Non-Credit Student-A** student who is enrolled only in non-credit courses or who is auditing credit courses.

**Out-of-State Student-For West Virginia** public institutions, a student who is paying out-of-state fees or who is involved in an SREB Common Market, Reciprocity, or Metro program; for West Virginia independent institutions, a student who does not list WV as the permanent address prior to enrollment in the institution.

**Part-Time Student-A** student enrolled for credits equal to fewer than 75 percent of the normal full-time load. For most undergraduates this would mean fewer than 12 semester hours.

**Unclassified Student-A** student who cannot be classified by level. Many unclassified students are permitted to take a limited or special selection of degree-credit courses without regard to requirements for a degree.

**Undergraduate Student-A** student who has not yet obtained a bachelor's degree.

**Upper-Level Course-A** course designed for juniors and seniors which is not normally open to freshmen and sophomores.

**Upper-Level Student-A** undergraduate enrolled in a bachelor's degree program who has completed the sophomore year.

<b>TOTAL FTE ENROLLMENT ALL PUBLIC INSTITUTIONS</b>	<b>258</b>	<b>7,760</b>	<b>3,993</b>	<b>511</b>	<b>279</b>	<b>1,735</b>	<b>14,995</b>

\*WVU Health Sciences Center has 47 Medical, 48 Dental, 0 Pharmacy, 50 Master's, and 45 Doctoral FTE students. WVU has 83 Law, 1,008 Master's, and 403 Doctoral FTE students.

Full-Time Equivalent Enrollment represents, for Undergraduates, the number of hours carried divided by 15; for Graduates, the number of hours divided by 12. This table separates Undergraduates first by Health and Engineering, then according to Course Level: Foundation, Upper and Lower. Undergraduate students taking graduate level courses are included in upper level.

Residency determined by fees paid (Cross-reference definitions on page 2).

## CHAPTER 2 Degrees Conferred (1992-93)

The tables in this chapter present an analysis of the degrees conferred and the teacher certifications awarded during the 1992-93 academic year by the public and independent institutions of higher education in West Virginia, as well as ten-year trends in total degrees. The section detailing programs of study offered by West Virginia institutions includes certificate programs of one-year duration at the undergraduate level which the rest of the chapter omits.

### Definitions

The National Center for Education Statistics publication, *A Classification of Instructional Programs*, provided the background for the academic areas of study by which degrees were reported in this chapter.

#### Associate's Degree

A degree awarded upon completion of at least two, but fewer than four, years of work beyond high school.

#### Bachelor's Degree

A degree granted upon completion of an educational program requiring at least four, but not more than five, years of academic work in the liberal arts, sciences, or professional fields.

#### First Professional Degree

A degree which signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance, and a total of at least six academic years of college work for completion. First professional degrees included in this report are the Doctor of Dental Surgery (D.D.S.), the Doctor of Medicine (M.D.), the Doctor of Osteopathy (D.O.), the Juris Doctor (J.D.), and the Doctor of Pharmacy (Pharm.D.).

#### Master's Degree

A degree customarily granted upon successful completion of one (sometimes two) academic years of work in the liberal arts and sciences beyond the bachelor's degree. The master's degree in professional fields is an advanced degree beyond the first professional, but below the Ph.D., degree.

#### Post-Master's Degree

A degree awarded upon completion of an organized program of study beyond the master's degree, but does not meet the requirements of academic degrees at the doctoral level.

#### Doctoral Degree

The highest academic degree in a given discipline or profession, based generally on three or more years of graduate work, satisfaction of a foreign language requirement, and completion of a special study resulting in a dissertation approved by a committee of the faculty.

The boxes on these pages display the teacher certifications awarded by the State Department of Education after completion of approved programs at the institutions listed. For each institution, the level or levels of the certification are first, followed by the academic area or program description, and the number of certifications awarded. For example, the first item under West Virginia University above indicates that 3 certifications were awarded to teach in agriculture in grades 5-12.

## CHAPTER 3

### Faculty Characteristics Fall 1993

This chapter presents faculty characteristics and remuneration at each West Virginia public institution of higher education. It includes only those faculty who receive money disbursed by our institutions. The table on page 46 includes all instructional and other faculty; all other tables in this chapter exclude faculty in the medical/dental schools, and the schools of pharmacy and nursing. These populations may differ from nationally recognized definitions for faculty, particularly those used in the data collections for the United States Department of Education, the American Association of University Professors, and the Equal Employment Opportunity Commission.

#### Definitions

**Full-Time Instructional Faculty Member:** A person employed by the institution in a full-time capacity, either in teaching and/or research with perhaps additional administrative or other duties. The full-time instructional faculty member's primary function is to teach. Graduate assistants, teaching fellows, lecturers, and laboratory assistants are included only if they meet the preceding criteria.

**Full-Time Other Faculty Member:** A full-time person employed in an academic capacity and granted faculty rank, but whose primary assignment is not instructional. These assignments may include extension, research, public service, etc.

**FTE Instructional Faculty:** A statistic combining the number of full-time instructional faculty members and the equivalent percentage for part-time instructional faculty members.

**Part-Time Faculty Member:** A person employed in a part-time capacity, usually employed on a per-course basis. Part-time faculty do not usually receive fringe benefits, and, since remuneration is based solely on teaching load rather than on advising and administrative duties, pay may be at a substantially lower rate than that of full-time faculty.

**Highest Degree Held by Faculty:** The number/percentage of faculty possessing a terminal degree (doctoral or professional) is one indicator of academic quality of an institution. The proportion of faculty with a doctorate also influences the expenditures for faculty salaries.

**Nine-Month Salary:** A typical academic year contract, which may be for nine or ten months of service to the institution. Whether the contract salary is paid in nine or twelve monthly increments is not relevant. The amounts shown under nine-month salary data do not include summer school salaries, which are not a part of the regular academic year. Salaries of faculty who are paid on a 12-month basis are multiplied by .818 to arrive at a nine-month salary.

## CHAPTER 4

### Fiscal Data (1992-93)

Traditionally, the higher education governing boards have played an active role in the management of all facets of public higher education. Among their many responsibilities is the supervision and control of the financial affairs of the sixteen institutions. This chapter summarizes the current fiscal operations of the State College and University Systems of West Virginia. Information presented in this report is drawn from financial reports completed by each institution shortly after the close of the fiscal year. The period covered by this report extends from July 1, 1992 through June 30, 1993.

By design, this chapter deals with a discussion of current operating and capital revenue and expenditures. Therefore, certain special fund groups such as Loan Funds (student loans), Agency Funds (institution acting as financial agent for payor), etc., are omitted. Current funds are categorized as follows: Educational and General, Auxiliary Enterprise, Student Aid, and Capital Improvements and will be further defined and classified in the text of this report.

Tables in this chapter are grouped by system. Although certain comparisons among institutions and systems are possible, and often beneficial, the reader should recognize that any interpretations drawn may be distorted due to differences in mission, enrollment, academic programs, funding levels, geographic locations, faculty characteristics, and other factors. Institutions may also vary with respect to the degree to which they undertake research, public service, and provide services of a non-educational nature to students, faculty and staff. The University System institutions in general, and the health science institutions in particular, are inherently different, and although presented together the data should not be used for comparative purposes.

## Total Operating and Capital Revenue and Expenditures

The following two tables reflect the total operating revenue and expenditures of the State College and University Systems of West Virginia for fiscal year 1992-93. They are presented and categorized as follows:

**Educational and General operations** of the institutions include the basic Instruction, Research, and Public Service activities as well as the necessary ancillary services of Academic Support, Student Services, Institutional Support and Physical Plant Operations.

**Auxiliary Enterprise operations** primarily involve providing services of a non-educational nature to students, faculty and staff. Even though the existence of these services is important, they are not directly related to the fulfillment of the institutions' educational objectives. Included among these operations are housing and dining; intercollegiate athletics; student unions; bookstores and certain parking, transportation and other operations.

**Student Aid** relates to gifts, grants, endowments, or other sources of income which are specifically designated for student scholarships, grant awards, etc. It does not include student loans.

**Capital Improvements** includes funding from student fees dedicated by state law to service outstanding debt or to fund capital improvements; the proceeds of bond sales; interest income; and other revenues specifically earmarked for land acquisition, building construction, renovation, and capital equipment purchases.

## EDUCATIONAL AND GENERAL REVENUE

Educational and General operating revenue is typically classified according to source. This report classifies educational and general revenue according to seven primary categories. A brief description of each source follows.

**Student Fees** - Revenue available for use by an institution from fees assessed to students for educational and general purposes is included in this category. Included are those prescribed fees that must be paid by the student as a condition for applying for admission, enrolling in the institution, enrolling in specific courses, and graduation from the institution. Also included are those statewide student fees collected and allocated by the governing boards to supplement institutional operating budgets. Fees restricted by West Virginia law for use in funding capital improvements and debt retirement are also reported in this category. However, since such fees are not available for Educational and General purposes, they are also included in the deduction for Mandatory Transfers described below.

**Governmental Appropriations** - Allotments to the colleges and universities from the State Legislature's annual operating appropriation and direct federal appropriations received by West Virginia University as a result of its Land Grant status. State government allocations are sometimes restricted by such State budget categories as Personal Services, Current Expenses, Repairs and Alterations, Equipment, and certain other items. Amounts unspent revert to the State Treasury at the end of the fiscal year and are deducted from the original allocations.

**Governmental Grants and Contracts** - Revenue received from local, state, or federal government agencies to conduct specific activities or programs, or to provide designated services.

**Private Gifts, Grants and Contracts** - Revenue received from private individuals, business and industry, foundations, etc., which is available for expenditure for educational and general purposes.

**Sales and Services** - Revenue received by the institution from the sale of goods or services produced in conjunction with its educational programs, such as agricultural and dairy products, films, publications, etc.

**Other Income** - Revenue available for educational and general purposes which is not classified elsewhere, such as unrestricted interest income, is included here.

**Mandatory/Non-Mandatory Transfers** - Funds which would normally be available for Educational and General purposes but which are restricted by law or general policy for non-Educational and General activities are excluded as Mandatory transfers. Transfers of Educational and General funds to other fund groups made at the discretion of the board(s) or institutions to serve a variety of objectives are considered Non-Mandatory Transfers. In West Virginia, Mandatory Transfers include fees dedicated by law to capital improvements, debt retirement and state-level activities. Non-Mandatory Transfers generally include state appropriated funds transferred to support Auxiliary Enterprises.

\*Excludes health sciences institutions, System Office, Central Office and Computer Network.  
The above figures are State Tax appropriations only, and do not include Federal Appropriation to WVU for Land Grant.  
State Tax Appropriations comprise the major source of total governmental appropriations.

## EDUCATIONAL AND GENERAL EXPENDITURES

Expenditures for educational and general purposes include those expenditures for Instruction, Research, and Public Service, as well as the necessary ancillary activities of Academic Support, Student Services, Institutional Support and Physical Plant Operations, which are defined as follows:

**Instruction** - Includes all expenditures of the instructional departments and schools of the institutions, such as faculty salaries and benefits, office and classroom supplies, equipment, and other related operating costs. This category also includes departmental research which is not separately budgeted or organized.

**Research** - Includes all expenditures for separately organized and budgeted research activities, such as research bureaus, centers, institutes, and experiment stations. This category includes both externally financed contractual research and institutionally organized and financed research.

**Public Service** - Includes all expenditures for non-instructional activities designed primarily to serve the general public, including the costs of all conferences, workshops, public radio and television operations, cooperative extension services, and similar activities.

**Academic Support** - Includes expenditures designed to assist the institution in meeting its basic instruction, research, and public service mission by providing support services such as libraries, media and learning centers, academic computer support, as well as general academic administration, and faculty and curriculum development activities.

**Student Services** - Includes all expenditures for services to students such as the admissions and records office, guidance and counseling services, placement services, health services, financial aid administration, student administration, and the like.

**Institutional Support** - Includes all expenditures of the general executive and administrative offices serving the institution as a whole as well as those expenditures of a general character not relating to any specific division or segment of the institution.

**Physical Plant Operations** - Includes all expenditures for the operation and general maintenance of educational and general buildings and grounds such as utilities and custodial services. This category excludes major building repairs, renovations, additions and new construction which are included under Capital Improvements.

## OTHER REVENUE AND EXPENDITURES

**Auxiliary Enterprise** - Revenue and expenditures of the various colleges and universities from operations of a noneducational nature are categorized as Auxiliary Enterprises. Revenues are classified within the same categories as identified for Educational and General revenue on page 78. The five major categories of Auxiliary Enterprise expenditures include Housing and Dining, Student Union, Bookstore, Intercollegiate Athletics, and Other Operations (i.e. parking and transportation).

The degree to which an individual institution provides Auxiliary Enterprise services to its students is dependent to a large extent on its size and type. An institution with a large resident population must necessarily provide more comprehensive services than one in which the majority of students are commuters.

**Student Aid** - Revenue from gifts, grants, endowments, etc., provided for the purpose of assisting individual students in defraying the costs of higher education is categorized as Student Aid. This aid may be in the form of need-based grants, awards for academic excellence, or combinations of these and other factors. Excluded from Student Aid presented in this chapter are privately administered scholarships and grant programs, such as those normally awarded by private foundations, trusts and institutions, and student loans.

**Capital Improvements** - Funding for capital improvements at West Virginia's public colleges and universities is derived primarily from a dedicated portion of student fee collections, as well as proceeds from bonds sold for this purpose and redeemed with these fee collections. In addition, interest income, insurance proceeds and, to a limited extent, federal grants also provide revenue for Capital Improvements. Unlike most states, West Virginia uses no state tax revenues for this purpose. Capital Improvement revenue is generally collected in a central account under the Central Office of the State College and University Systems of West Virginia, and allocated by each governing board to its respective institutions for expenditure. Certain major projects, systemwide improvements, and all debt retirement expenditures are reported under the Central Office.

## REGULAR STUDENT FEES

Regular student fees at West Virginia public colleges and universities, although commonly referred to as tuition, are actually comprised of five major components: Tuition, Registration, Higher Education Resources, Faculty Improvement and College Fees. Funds generated by these fees are used for various purposes including capital improvements and debt retirement, faculty salaries, instructional supplies and equipment. College Fees are generally used to support student activities, student centers, intercollegiate athletics, and operations.

The governing boards annually approve all changes to be made in any fee components, relying extensively on institutional recommendations. The following table summarizes regular student fees for the past ten years.
