**THE LEGISLATIVE AUTHORITY IN THE FEDERATION SYSTEM OF
THE UNITED ARAB EMIRATES
-ANALYTICAL STUDY-**

By
Abdulah Mohammed Saeed Abood

Supervisor
Dr. Faisal Al Rfoua, Prof.

ABSTRACT

The concept of the “ State role” in the modern State has been affected by a great variation, in terms of the political participation and the administration performance concerning the State government. As a result to the understandings of the social and industrial concepts revolutions, besides the affection on the individual and the State through the rapid growth in the field of communication and information technology as well, which also affected the whole world including the Arabic and Islamic rejoin, in this political aspect calls raised, for the necessity share the public in the decision state maker.

This study has focused on the UAE experiments, regarding the public participation in the political policy maker , and drawing the whole state policy, through the legislative authority study in the federation system, within the concept of the combined state, so far this study analyses concentrated on the authorities of the Counsel of the National Federation, on the basis of the assumption, how the Federation constitution has taken a part in strengthen the legislative authority in the country?, this assumption was treated through using various syllabuses mainly: analytical system syllabus, therefore, the researcher used the legal syllabus to analyze the Federation constitutions, so far, he used the historical syllabus, to focus on the development of the Counsel of the National Federation, though the analytical frame has been accomplished, while the researcher has pointed out the weaknesses and the strength of the performance of the Counsel, in which the main responsibility of the federation legislative authority was a consultant role, by forwarding suggestions and recommendations to the state government, in this regard I look forward to offer the counsel more authorizations in the short run, to achieve the rapid development in United Arab Emirates.

Finally, the researcher has evaluated this experiment and added some results and recommendations.
